Re: Submittal of Five-Year Review Report for A.A.C. Title 18, Chapter 13, Articles 2, 3, 4, 5, 7, 8, 11, 12, 13, 14, 16, 19, 20, 21, and 22

Dear Chair Klein:

I am pleased to submit to you, pursuant to A.R.S. § 41-1056 and A.A.C. R1-6-301, our agency's Five-Year Review Report for A.A.C. Title 18, Chapter 13, Articles 2: Solid Waste Definitions; Exemptions, 3: Refuse and Other Objectionable Wastes, 4: Solid Waste Facilities Subject to Best Management Practices, 5: Solid Waste Facilities Subject to Self-Certification, 7: Solid Waste Facility Plan Review Fees, 8: General Permits, 11: Collection, Transportation and Disposal of Human Excreta, 12: Waste Tires, Used Tires, 13: Special Waste and Best Management Practices for Shredder Residue, 14: Biohazardous Medical Waste and Discarded Drugs, 16; Best Management Practices for Petroleum Contaminated Soil, 19: Lead Acid Battery Recycling, 20: Used Oil, 21: Solid Waste Landfill Registration Fees, and 22: New Tire Sellers.

Pursuant to A.R.S. § 41-1056(A), I certify that ADEQ is in compliance with A.R.S. § 41-1091 requirements for filing of notices of substantive policy statements and annual publication of a substantive policy statement directory.

Please contact John MacBain, Waste Programs Division at 602-771-0101 or macbain.john@azdeq.gov, if you have any questions.

Sincerely,

DocuSigned by:
Karen Peters

Karen Peters
Deputy Director

Enclosure

Arizona Department of Environmental Quality

Five-Year Review Report

Title 18. Environmental Quality

Chapter 13. Department of Environmental Quality – Solid Waste Management

Article 2: Solid Waste Definitions; Exemptions

Article 3: Refuse and Other Objectionable Wastes

Article 4: Solid Waste Facilities Subject to Best Management Practices

Article 5: Requirements for Solid Waste Facilities Subject To Self-Certification

Article 7: Solid Waste Facility Plan Review Fees

Article 8: General Permits

Article 11: Collection, Transportation and Disposal of Human Excreta

Article 12: Waste Tires, Used Tires

Article 13: Special Waste And Best Management Practices For Shredder Residue

Article 14: Biohazardous Medical Waste and Discarded Drugs

Article 16: Best Management Practices for Petroleum Contaminated Soil

Article 19: Lead Acid Battery Recycling

Article 20: Used Oil

Article 21: Solid Waste Landfill Registration Fees

Article 22: New Tire Sellers

December 27, 2024

1. Authorization of the rule by existing statutes:

Article 2

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-701.01(C)

Article 4

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-761(H)

Article 3

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-761(I)

Article 5

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-762.05

Article 7

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. §§ 49-762.03(F) and 49-857(C)

Article 8

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-706

Article 11

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. §§ 49-104(B)(14) and 49-104(B)(17)

Article 12

General Statutory Authority: A.R.S. §§ 41-1003, 49-705, and 49-761(A)

Specific Statutory Authority: is A.R.S. §§ 44-1304(A), (B), (C) and (F), 44-1306(A), and 49-104(B)(17)

Article 13

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. §§ 49-762, and 49-851·through 49-868

Article 14

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-761(D)

Article 16

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. §§ 49-762, and 49-851 through 49-868

Article 19

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-1322(D)

Article 20

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-802(B)

Article 21

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 49-747

Article 22

General Statutory Authority: A.R.S. §§ 41-1003, 49-104(B)(4), 49-104(B)(17), 49-705, and 49-761(A)

Specific Statutory Authority: A.R.S. § 44-1302(N)

2. The objective of each rule:

Rule	Objective
R18-13-201	The rule exempts biosolids originating from domestic sewage from the definition of solid waste when the biosolids are applied according to state rules governing the land application of biosolids. The exemption was based on a 1997 petition from Pima County Wastewater Management Department and avoids unnecessary overlapping environmental regulation under water quality and waste statutory authority.
R18-13-202	The rule establishes an exemption from the definition of solid waste for certain accidental releases of coal slurry from pipeline leaks. Black Mesa Pipeline, Inc. petitioned the Department in 1999, to approve a statewide exemption for certain coal slurry discharges from pipelines. The Director determined that the discharges, under the conditions described in the rule, were unlikely to cause or substantially contribute to a threat to public health or the environment.
R18-13-302	The rule's objective is to provide definitions necessary to administer 18 A.A.C 13, Article 3.
R18-13-303	The rule establishes responsibilities of owners, agents or occupants of premises for unsanitary or dangerous conditions related to onsite refuse or other objectionable waste.
R18-13-304	The rule establishes authority to inspect all buildings or structures, processes, equipment or vehicles used for the storage, collection, transportation, disposal, or reclamation of refuse.
R18-13-305	The rule establishes what refuse is required to be accepted and what may be accepted at the discretion of the collection agency.
R18-13-306	The rule requires that collection agencies notify their customers about the requirements governing the storage and collection of refuse.
R18-13-307	The rule establishes minimum requirements for the storage of refuse.
R18-13-308	The rule establishes minimum requirements for the frequency of the collection of refuse and other objectionable wastes, and establishes conditions under which ADEQ may grant a variance from the twice weekly frequency requirement for the collection of garbage.
R18-13-309	The rule establishes minimum requirements for the placement of refuse on a property for collection.
R18-13-310	The rule establishes minimum requirements for the construction, maintenance, and sanitary requirements of vehicles used for collection and transportation of garbage or refuse.
R18-13-311	The rule establishes general minimum requirements for disposal of refuse.
R18-13-312	The rule establishes requirements further regulating specific methods of refuse disposal. The methods addressed include sanitary landfill, incineration, composting, garbage grinding, and manure disposal.
R18-13-401	The rule's objective is to set forth definitions of terms used in this Article.
R18-13-402	This rule's objective is to establish registration and fee requirements for facilities subject to best management practices under A.R.S. § 49-762.02. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-501	The rule establishes a registration process for solid waste facilities subject to self-certification, with timelines and fees. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-701	The rule's objective is to provide definitions necessary for the administration of the Article.
R18-13-702	The rule's objective is to provide plan review fee schedules and other provisions necessary for the administration and collection of plan review fees. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
Fee Tables	The objective of the Fee Table is to list the fee levels for New Solid Waste Facilities, fee for Modifications to Solid Waste Facility Plans, and fees for Review of Financial Responsibility Plans for Solid Waste Facilities. This rule includes a budgetary objective to maintain a fully

	sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-703	The rule's objective is to provide a process for informal review of a disputed bill for plan review fees.
R18-13-801	This rule set up fees for solid waste general permits before any were specifically identified in order to avoid any extra steps involved in fee approval each time a solid waste general permit is established. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
Table	The objective of this table is to list the fees for Solid Waste General Permits. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-802	The rule establishes a solid waste general permit under A.R.S. § 49-706 for a class of solid waste land disposal facilities that would otherwise need a solid waste facility plan under A.R.S. § 49-762.
R18-13-1102	The rule establishes the definitions necessary to administer A.R.S. § 49-104(B)(14) and Article 11.
R18-13-1103	The rule establishes the general requirements for vehicles and related equipment used to handle sewage or human excreta removed from septic tanks and other containers. The rule establishes requirements for a vehicle owner, including the procedure for obtaining a license, the terms of the license, and details regarding payment of a license fee. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1106	The rule establishes authority for ADEQ to inspect vehicles and related equipment used to handle sewage or human excreta removed from septic tanks and other containers to assure compliance with the Article.
R18-13-1112	The rule establishes basic sanitary requirements for vehicles and related equipment used to handle sewage or human excreta removed from septic tanks and other containers.
R18-13-1116	The rule establishes a process for suspending or revoking septage vehicle licenses.
R18-13-1117	The rule establishes a process for ADEQ to reinstate a suspended or revoked license for a vehicle or related equipment used to handle sewage or human excreta removed from septic tanks and other containers.
R18-13-1201	The rule establishes the definitions necessary to administer A.R.S. §§ 44- 1301 through 1307 and Article 12.
R18-13-1202	The rule requires a one-time notification to ADEQ prior to burial of mining waste tires. The rule also prescribes the circumstances under which the burial of mining waste tires may take place.
R18-13-1203	The rule establishes the requirements for covering mining waste tires that are buried.
R18-13-1204	The rule requires that an operator of a mining facility file an annual report with the Department that provides information about each burial cell of mining waste tires that was established during the preceding year.
R18-13-1205	The rule establishes a requirement that a mining facility operator file a certification with the Department within 30 days after placement of a final cover on a burial cell.
R18-13-1206	The rule establishes a prohibition against a mining facility storing more than 500 mining waste tires without having first obtained Department approval to operate as a waste tire collection facility.
R18-13-1207	The rule establishes a requirement that an operator maintain records indicating how many mining waste tires are buried in each burial cell for three years.
R18-13-1208	The rule establishes authority for the Department to inspect mining facilities to determine compliance with Article 12.
R18-13-1210	The rule establishes a requirement that the use of waste tires as daily cover at a solid waste landfill is subject to the solid waste facility plan required under A.R.S. § 49-762 for that landfill. The rule further prohibits mining waste tires from being used as daily cover for more than two consecutive days.

R18-13-1211	The rule requires registration and basic operating procedures for new waste tire collection sites. It also defines terms used in the section and establishes an initial ($500) and annual ($75) fee for registration. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1212	The rule requires registration and basic operating procedures for certain outdoor used tire sites. It also defines terms used in the section and establishes an initial ($500) and annual ($75) fee for registration. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1212.01	This rule's objective is to establish registration and fee requirements for waste tire collection sites subject to plan approval under A.R.S. § 49-762(A)(7). This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1213	The rule ensures that tire sites that may be classified and required to pay a fee under more than one of 3 different rules, need only pay the highest fee. One site may otherwise be required to pay more than one fee under rules authorized by A.R.S. §§ 44-1303(B), 44-1304.01(A)(8) and 49-762.05(H). This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1301	The rule's objective is to set forth definitions of terms used in this Article.
R18-13-1302	Manifests are multi-copy tracking documents that accompany the waste from generation to its final determination. Copies are sent to ADEQ and provide the agency with notice of the location, nature and quantity of special waste generated and its movement thereafter. The rule's objective is to set forth special waste generator identification number and manifesting requirements.
R18-13-1303	The rule's objective is to set forth special waste shipper and manifesting requirements for this Article and Article 16.
R18-13-1304	The rule's objective is to set forth special waste receiving facility manifesting requirements.
R18-13-1305	The rule's objective is to set forth record retention requirements for special waste handlers.
R18-13-1307	The rule's objective is to set forth best management practices, including sampling protocols and fees, for waste from shredding motor vehicles. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
Table A	Table A's objective is to list the constituents sought and the frequency of sampling when testing shredder residue piles as provided in R18-13-1307. Table A is referenced in R18-13-1307(A)(1)(a)(ii).
Exhibit 1	The rule's objective is to provide a visual aid for the selection of sample points in a shredder residue pile as described in R18-13-1307.
Appendix A	The rule's objective is to provide the form for applying for the Arizona special waste identification number required by R18-13-1302.
Appendix B	The rule's objective is to provide a special waste manifest form.
R18-13-1401	The rule defines terms used in Article 14.
R18-13-1402	The rule's objective is to describe the extent to which the article is applicable.
R18-13-1403	The rule's objective is to set forth exemptions and partial exemptions from this Article.
R18-13-1404	The rule's objective is to set forth transition provisions and compliance dates for the application of this Article.
R18-13-1405	The rule's objective is to set forth treatment standards and other requirements for generators who treat biohazardous medical waste on site.
R18-13-1406	The rule's objective is to set forth practices, including tracking document requirements, to be followed by generators of biohazardous medical waste when the waste is transported off site for treatment.

R18-13-1407	The rule's objective is to set forth packaging requirements for generators who set out biohazardous medical waste for collection for off-site treatment or disposal.
R18-13-1408	The rule's objective is to set forth storage practices required of generators of biohazardous medical waste.
R18-13-1409	The rule sets forth: 1) vehicle requirements and other procedures to be followed for the transportation of biohazardous medical waste, 2) the requirements for and procedure involved in obtaining a transporter license, and 3) the fees related to the license. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
Table 1	The objective of this table is to list Transporter License Fees. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
Table 2	The objective of this table is to list Transporter Annual Fees. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1410	The rule's objective is to set forth requirements, including facility plan approval, for persons who store, transfer, treat, or dispose of biohazardous medical waste.
R18-13-1411	The rule's objective is to prescribe design and operation standards for storage and transfer facilities.
R18-13-1412	The rule's objective is to prescribe design and operation standards for treatment facilities.
R18-13-1413	The rule's objective is to prescribe requirements to be met in the event that a treatment facility owner or operator intends to change an approved medical waste facility plan.
R18-13-1414	The rule's objective is to specify registration requirements for manufacturers of alternative medical waste treatment methods who wish to sell their methods to potential treatment facilities in Arizona.
R18-13-1415	The rule's objective is to prescribe treatment standards to be achieved by alternative medical waste treatment methods.
R18-13-1416	The rule's objective is to prescribe requirements for recovering recyclable materials from biohazardous medical waste.
R18-13-1417	The rule's objective is to prescribe design and operational standards for municipal solid waste landfills that accept untreated medical waste.
R18-13-1418	The rule's objective is to prescribe requirements for generators of discarded drugs.
R18-13-1419	The rule's objective is to prescribe handling requirements for generators and treaters of medical sharps.
R18-13-1420	The rule's objective is to prescribe additional requirements for handling and treating certain wastes.
R18-13-1601	The rule sets forth definitions for terms used in Article 16.
R18-13-1602	The rule's objective is to explain the applicability of the Article.
R18-13-1603	The rule's objective is to set forth exemptions pertinent to this Article.
R18-13-1604	The rule's objective is to set forth procedures and requirements for determining the regulatory status of excavated soil contaminated with petroleum.
R18-13-1605	The rule's objective is to set forth the requirements applicable to transportation of Petroleum Contaminated Soil (PCS).
R18-13-1606	The rule's objective is to set forth: a) A per ton fee for PCS received in this state, and. b) A maximum fee per generator site per year. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-1607	The rule's objective is to set forth solid waste facility plan application and approval requirements for PCS treatment, storage and disposal facilities.
R18-13-1608	The rule's objective is to set forth general design and performance standards for facilities that treat, store or dispose of PCS.

R18-13-1609	The rule's objective is to set forth requirements for PCS treatment facilities.
R18-13-1610	The rule's objective is to set forth requirements for temporary PCS treatment facilities.
R18-13-1611	The rule's objective is to set forth requirements for PCS storage facilities.
R18-13-1612	The rule's objective is to set forth requirements for PCS accumulation sites.
R18-13-1613	The rule sets forth specific requirements for PCS disposal facilities in addition to the general requirements in R18-13-1608.
R18-13-1614	The rule's objective is to set forth requirements for records retention by owners of PCS facilities.
R18-13-1901	This rule's objective is to establish registration and fee requirements for collection or recycling facilities that accept lead acid batteries. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-2001	The rule's objective is to set forth definitions of terms used in this Article.
R18-13-2002	This rule's objective is to establish registration and fee requirements for used oil handlers that have received or are required to obtain an EPA identification number pursuant to 40 CFR 279.
R18-13-2003	This rule establishes requirements for used oil collection centers to request and submit a used oil collection identification number to the Department.
R18-13-2101	The rule's objective is to set forth definitions of terms used in this Article.
R18-13-2102	The rule's objective is to set forth annual registration fees for existing municipal solid waste landfills of different sizes and types. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-2103	The rule's objective is to establish annual registration fees for landfill closure and post-closure care. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-2104	This rule's objective is to establish landfill disposal fees for solid waste landfills. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.
R18-13-2201	The rule's objective is to set forth definitions of terms used in this Article.
R18-13-2204	This rule's objective is to establish fees for the sale of new motor vehicle tires. This rule includes a budgetary objective to maintain a fully sustained fee-based program that is fairly assessed against all regulated parties, in order to fund associated regulatory costs.

3. Are the rules effective in achieving their objectives? **Yes _X_ No __**

ADEQ recently concluded a rulemaking raising Solid Waste Program fees, following legislative authorization, in order to address rising costs and budget shortfalls since the fees were last set in 2012. The recently established Solid Waste Program fees are anticipated to improve the effectiveness of Chapter 13's rules in achieving their budgetary objectives. The rulemaking was submitted to the Secretary of State's office on December 24, 2024 with an immediate effective date. ADEQ has determined that Chapter 13's rules are otherwise effective at achieving their objectives.

4. Are the rules consistent with other rules and statutes? **Yes __ No _X_**

Certain references to federal rules in Chapter 13 are outdated and do not account for rulemakings promulgated by the US Department of Transportation. ADEQ conducts rule updates periodically in order to ensure consistency with state and federal rules and statutes. Since the last such rulemaking was conducted in 2020, the U.S.

Department of Transportation (USDOT) has promulgated several rulemakings altering portions of the CFR referenced in R18-13-1406(B)(2). Those USDOT promulgated rules are as follows:

1. Hazardous Materials: Adoption of Miscellaneous Petitions to Reduce Regulatory Burdens, 85 FR 75712, Nov 25, 2020.

2. Hazardous Materials: Editorial Corrections and Clarifications, 85 FR 83380, Dec. 21, 2020.

3. Hazardous Materials: Harmonization with International Standards, 87 FR 44990, July 26, 2022.

4. Hazardous Materials: Editorial Corrections and Clarifications, 87 FR 79772, Dec. 27, 2022.

ADEQ will update the incorporations by reference impacted by these EPA rulemakings in order to maintain consistency with federal law. The table below outlines the Chapter 13 rules that are not consistent with other rules or statute as described above.

Rule	Explanation
R18-13-501	Pursuant to A.R.S. § 49-761, ADEQ has an unfulfilled statutory mandate to enact regulations for measured, enforceable, and effective design and operation and financial responsibility standards and requirements for solid waste transfer facilities.
R18-13-1406	Subsection B(2) references 49 CFR 172.300 through 172.338, revised as of October 1, 2020. The references in this rule are not consistent with the current version of the CFR as updated by the EPA regulations listed above.

5. Are the rules enforced as written? **Yes _X_ No __**

The rules are enforced as written.

6. Are the rules clear, concise, and understandable? **Yes _X__ No __**

The rules are clear, concise, and understandable. Minor clarifications can be made as described in the table below.

Rule	Explanation
R18-13-1301	The definition of "Off-site" in this section refers to the definition of "On site" in A.R.S. § 49-851(3). However the definition for "On site" in A.R.S. § 49-851 is under subsection A(2). This reference should be updated for clarity and accuracy. The definition of "Recycling" in this section refers to the definition of recycling in A.R.S. § 49-831(21). However, recycling is defined in A.R.S. § 49-831(15). This reference should be updated for clarity and accuracy.
R18-13-1401	The incorporations by reference in the definition of "dedicated vehicle", and in the definition of "universal biohazardous symbol" can be updated to the most recent version of the CFR. As of the date of this report, referenced sections of the CFR have not been changed since the last update to Chapter 13's incorporation by reference, so updating the references will not alter the substance of the rule.
R18-13-1406	The reference to 49 CFR 172.201 in Section B can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update Chapter 13 incorporations by reference, so updating the reference will not alter the substance of the rule.

7. Has the agency received written criticisms of the rules within the last five years? Yes ___ No _X_

ADEQ has completed three rulemakings involving Chapter 13 since the last five-year review was conducted. In January of 2021, ADEQ completed an expedited rulemaking to make technical corrections, correct citations, and clarify language based on the recommended courses of action outlined in the prior five-year review. ADEQ did not receive public or stakeholder comments or objections during the expedited rulemaking. In January of 2022 ADEQ conducted a rulemaking to amend the state's Biohazardous Medical Waste rules within Chapter 13 to improve clarity, bring the standards up to date, correct references and citations, and ensure adequate protection of human health and the environment. ADEQ also conducted a rulemaking in December of 2024 overhauling fees throughout Chapter 13 following a new legislative mandate and to ensure self-sufficiency of the Solid Waste Program. The rulemaking process in each of these formal rulemakings involved significant stakeholder engagement, including public meetings, sharing informational documents, and public comment. ADEQ received no written criticisms regarding the Chapter 13 rules during either the informal or formal comment periods for these rulemakings, and has not received any other written criticisms of the rules within the last five years.

8. Economic, small business, and consumer impact comparison:

The previous five-year review report submitted for Chapter 13 emphasized that the fees as implemented in 2012 had allowed ADEQ to transition the Solid Waste Program toward self-sufficiency, thereby replacing prior General Fund support. Due to increasing costs resulting primarily from population growth and inflation 2012, the Solid Waste Program fees were no longer fully sufficient to cover critical regulatory functions, resulting in budgetary shortfalls. Recognizing the need to remedy those budget shortfalls, the Arizona Legislature passed HB 2367 in 2024, which granted ADEQ the authority to adjust existing fees and establish new fees in order to maintain self-sufficiency within the Solid Waste Program. ADEQ conducted a rulemaking, submitted to the Secretary of State on December 24, 2024 to implement necessary fee adjustments. The economic impacts outlined in that EIS for impacted Chapter 13 articles is described below.

Article 2: Solid Waste Definitions; Exemptions

ADEQ believes that Article 2 does not have a substantial economic impact on the State's economy, small businesses, or consumers. The rules in Article 2 did not require a cost benefit determination or an economic impact statement when promulgated because they were exempt from the requirements of Title 41, Chapter 6. Article 2 contains an exemption from the definition of solid waste for biosolids applied according to state rules governing the land application of biosolids. This exemption avoids dual regulation of the land application of biosolids and therefore reduces unnecessary regulatory burdens. Article 2 also contains an exemption for small accidental releases of coal slurry from pipeline leaks. The impact of the exemptions in Article 2 is deregulatory, and continues to result in less regulatory cost.

Article 3: Refuse And Other Objectionable Waste

Article 3, Refuse and Other Objectionable Wastes, dates back to 1964 and has not been changed since. It was transferred to ADEQ in 1987. It is probable that none of the rules in this Article had such a statement prepared for

them when they were adopted. If such a statement was prepared, it is unavailable. ADEQ enforces Article 3 throughout the state directly with its own employees and through delegation agreements between ADEQ and 13 of Arizona's 15 counties. ADEQ believes the economic impacts of Article 3 today are no greater than those when the Article was created in relation to the day to day and month to month expenses at that time.

Article 4: Solid Waste Facilities Subject To Best Management Practices

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes initial and annual registration fees for solid waste facilities subject to best management practices. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 5: Requirements For Solid Waste Facilities Subject To Self-Certification

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes initial and annual registration fees for transfer facilities, waste tire site, and waste tire shredding and processing facilities subject to self-certification. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 7: Solid Waste Facility Plan Review

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes increasing the maximum fee amounts for fees related to plan review. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 8: General Permits

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes increases to all general permit fees. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 11: Collection Transportation, And Disposal Of Human Excreta

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will

be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes new initial and annual license fees for septage haulers. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 12: Waste Tires; Used Tires

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes increases to initial and annual registration fees for waste tire collection sites and outdoor used tire sites, and a new registration fee for waste tire collect sites that are required to obtain plan approval. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 13: Special Waste and Best Management Practices For Shredder Residue

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes a new initial and annual registration fees for generators and shippers of waste tire residue, and increased tonnage fees for shredder residue transported to a facility regulated by ADEQ for treatment, storage, or disposal. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 14: Biohazardous Medical Waste And Discarded Drugs

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes a new initial license and annual renewal fees for biohazardous medical waste transporters, and new annual registration fees for biohazardous medical waste treatment, disposal, storage, and transfer facilities. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 16: Best Management Practices For Petroleum Contaminated Soil

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes increased tonnage fees for the treatment, storage disposal of PCS, and new initial and annual registration fees for PCS generators. . Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 19: Lead Acid Battery Recycling

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes new initial and annual registration fees for collection or recycling facilities that accept lead acid batteries. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 20: Used Oil

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. The EIS estimated the total impact for the rulemaking to be $12 million, which is the approximate total amount of increased fees across all programs. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees throughout Chapter 13, which includes a new initial and annual registration fees for used oil processors, burners, transporters, and marketers. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 21: Solid Waste Landfill Registration Fees

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $3.5 million in increased fees will be collected pursuant to landfill disposal fees for municipal and non-municipal solid waste landfills in this article. These funds are to be deposited in the Recycling Fund so that it may be utilized more fully for its intended purpose, i.e. the issuance of grants and contracts for "research, demonstration projects, new technologies, market development and source reduction studies, and implementation of the recommendations or reports prepared." Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

Article 22: New Tire Sellers

ADEQ described the probable economic impacts in qualitative and quantitative terms in the EIS (attached) prepared in 2024 when the rules were most recently amended. Approximately $6.7 million in increased fees will be collected through the fee on the sale of new tires in this article. Of this, 3.5% (approximately $237,000) will be deposited to the Solid Waste Fee Fund, with the remaining revenue apportioned to the counties as provided by law. Given the recent nature of the rulemaking, ADEQ believes the probable economic impacts on the state's economy, small business and consumers described in the 2024 EIS remain accurate and have not changed since the effective date.

9. Has the agency received any business competitiveness analyses of the rules? Yes ___ No _X_

ADEQ has not received a business competitiveness analysis of the rules in this Chapter.

10. Has the agency completed the course of action indicated in the agency's previous five-year review report?

In the five-year review report submitted in 2019, ADEQ proposed several courses of action, which are outlined below with their status. Each proposed course of action was completed with the exception of the proposal to review, update, and modernize Article 3, Refuse and Other Objectionable Wastes. Article 3 dates back to 1964 and has not been changed since. As ADEQ conducted initial evaluations of Article 3 and conducted a more limited update of the frequency of collection requirement in R18-13-308, it became apparent that a broader rulemaking to update and modernize the entirety of the now 50-year-old rules would require substantial resources and time commitments in order to properly evaluate potential impacts on stakeholders and local authorities who have developed decades of policies and procedures based on the requirements of the article. At the same time, the potential benefits and impacts of such an undertaking remain unclear. Weighing the costs of such a rulemaking against the uncertain impacts, ADEQ prioritized other rulemakings it determined to have greater impact on public health and the environment. ADEQ plans to convene cities, counties, and stakeholders in early 2025 to assess potential updates or modifications to Article 3 and whether a single rulemaking or multiple rulemakings would be appropriate.

A summary of the all of the proposed courses of action from the previous five-year review and their status can be found in the table below:

Rule	2019 Proposed Course of Action	Status	Explanation
R18-13-201	Update citations	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
18 A.A.C. 13, Article 3	Update Article	Incomplete	See explanation above.
R18-13-703(B)	Correct appeal citation	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1301, 1302, 1303, 1304	Fix incorrect references	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1401	Substantive policy statement to clarify biohazardous medical waste excludes hair, fingernails and teeth	Complete	Completed via rulemaking (27 A.A.R. 2801)
R18-13-1405(C)(4), 1409(M)(3), 1420(A)(3)(b)(i)	Clarify apparent prohibition on shipment of medical waste out of state	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1409(H)	Correct appeal citation	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1412	Add clean facility requirement	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1417	Coordinate title and text	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)

R18-13-1418	Clarify subsection (B) for consistency with federal rule	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1601, 1603, 1604	Correct issues related to definition of PCS	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1607(A)	Clarify in state vs out of state	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)
R18-13-1608, 1610, 1613	Correct citations, labeling of standard	Complete	Completed via expedited rulemaking. (27 A.A.R. 57)

11. A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:

Rule	Explanation
Article 2: Solid Waste Definitions; Exemptions	There are no costs associated with Article 2 as the exemptions in Article 2 are deregulatory, reducing the applicability of Chapter 13's rules in certain circumstances. The benefits of the rules are narrow, applying to the waste management departments by exempting biosolids originating from domestic waste from the definition of solid waste, voiding unnecessary overlapping environmental regulations under water quality and waste statutory authority. ADEQ believes the benefits clearly outweigh the costs given the negligible costs of Article 2's rules.
Article 3: Refuse And Other Objectionable Waste	The costs of the rules in Article 3 apply primarily to local city and county governments' collection agencies, including the requirements for collection of refuse, required notice to customers, required frequency of collection, and requirements for disposal of refuse. Article 3 provides benefits to public health by establishing standards for sanitary conditions at premises, business establishments and industries, storage of refuse, collection of refuse and standards for waste collection vehicles. ADEQ believes that the benefits of these rules outweigh the costs because it is a priority of the state to ensure refuse and other objectionable waste do not pose hazards to public health and do not create environmental nuisances.
Article 4: Solid Waste Facilities Subject To Best Management Practices	The costs of Article 4's rules apply to solid waste facilities subject to best management practices under A.R.S. § 49-762.02, including transfer facilities, by requiring annual facility registration and imposing related fees. The rules provide benefits by allowing ADEQ to collect data on solid waste facilities operating in Arizona, allowing the agency to conduct more regular inspections of regulated facilities and entities resulting in greater minimization of public health risks from solid waste activities through greater oversight, identification of violations, and initiation of corrective actions. The rules also provide benefits by generating funds to fully cover the technical, administrative, and managerial costs of maintaining the Solid Waste Program, providing compliance assistance and ensuring a more level playing field between regulated businesses and entities by mitigating harm to those facilities and entities that must compete with and operate in the same regulatory space as those facilities and entities that may fail to adhere to minimum standards. ADEQ has determined the costs of Article 4's rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.
Article 5: Requirements For Solid Waste Facilities Subject	The costs of the rules of Article 5 are imposed primarily on solid waste transfer facilities, facilities storing 5,000 or more waste tires, waste tire shredding and processing facilities in the form of paperwork and fees associated with self-certification. The rule provides useful benefits by allowing ADEQ to perform regular inspections of these facilities to

To Self-Certification	ensure compliance with standards that safeguard public health and aids in the management of the overall program. The fees collected allow the Solid Waste Program to fund the administrative costs of processing the collected information and maintain the program. ADEQ has determined these benefits outweigh the costs of Article 5's rules because it is a priority of the state to maintain a self-sufficient fee-based Solid Waste Program.
Article 7: Solid Waste Facility Plan Review Fees	The costs of the rules of Article 7 are primarily to owners and operators of new solid waste facilities in the form of paperwork and regulatory burdens associated with the submission of solid waste facility plan review applications and related fees. The benefits of the plan review process include ensuring new solid waste facilities in Arizona meet standards to safeguard public health, and the fees in Article 7 allow the Solid Waste Program to fund the administrative costs of processing, reviewing, and approving these plan review applications and maintain the program. ADEQ has determined these benefits outweigh the costs of Article 5's rules because it is a priority of the state to ensure solid waste facilities meet standards necessary to protect public health.
Article 8: General Permits	The costs of Article 8 are borne primarily by non-municipal solid waste landfills at mining operations in the form of paperwork and regulatory burdens associated with the general permit process and related fees outlined in the Article. The general permit requirements of Article 8 provide benefits to public health by ensuring appropriate environmental and safety standards are met at these facilities, while the fees provide the Agency with sufficient resources for the processing, reviewing, and approving of these permit applications. Article 8 also provides benefits in the form of the reduction of regulatory burden on these facilities as the mining landfills would otherwise require the costlier plan approval process under A.R.S. 49-762. ADEQ has determined the costs of Article 8 are outweighed by its benefits, particularly given the reduced regulatory burden associated with general permits, because it is a priority of the State to monitor waste generated from landfills at mining operations.
Article 11: Collection, Transportation, And Disposal Of Human Excreta	The costs of Article 11 apply primarily to septage haulers and other owners or operators of vehicles used to store, collect, transport, or dispose of sewage or excreta by establishing standards, procedures, and fees necessary to obtain license for those vehicles to operate. Article 11's rules provide benefits by ensuring such vehicles meet standards to ensure they do not endanger public health or cause environmental nuisance and ensuring human excreta is properly collected, transported, and disposed of. The fees in Article11 allows the Solid Waste Program to fund the administrative costs of processing these license applications, conducting vehicle inspections, and maintaining the program. ADEQ has determined the costs of Article 11's rules are outweighed by their benefits because it is a priority to ensure sewage and human excreta collection, transport, and disposal does not cause hazards to public health nor creates environmental nuisances.
Article 12: Waste Tires; Used Tires	The costs of Article 12 apply to waste tire collection and outdoor used tire collection sites by establishing standards for the handling and disposal of waste tires, and implementing registration and fee requirements. These rules provide benefits by allowing ADEQ to ensure that waste tires are stored and disposed of in a manner that is not hazardous to public health and does not create an environmental nuisance. The fees in Article12 allows the Solid Waste Program to fund the administrative costs of processing waste tire facility registrations, conducting inspections, and maintaining the program. ADEQ has determined the costs of Article 12 are outweighed by their benefits because it is a priority of the State to ensure waste tires are properly handled and disposed of and do not create hazards to public health.
Article 13: Special Waste And Best Management Practices For Shredder Residue	The costs of Article 13's apply to generators and transporters of special waste, which includes PCS and waste from shredding motor vehicles, by establishing registration requirements and associated fees, special waste tonnage fees, and manifest and record retention requirements. These rules provide useful benefits by allowing ADEQ to collect

	information and conduct inspections at special waste facilities engaged in generation, transportation, and disposal to ensure compliance with standards necessary to protect public health. The rules also provide a benefit in establishing best management practices for shredded vehicle residue. ADEQ has determined the costs of Article 13 are outweighed by their benefits because it is a priority of the State to monitor these special wastes to protect public health.
Article 14: Biohazardous Medical Waste And Discarded Drugs	The costs of Article 14's rules apply to persons who generate, transport, treat, store, or dispose of biohazardous medical waste and discarded drugs of biohazardous medical waste, exempting household generators, by establishing standards and processes for operation approval. The costs also include fees associated with facility registration and vehicle inspection and licensure**.** The rules provide benefits by establishing standards that ensure facilities and vehicles generating, transporting, and disposing of biohazardous medical waste are built and designed correctly and follow proper standards to protect public health. The fees in Article 14 allow ADEQ to fund the administrative costs of processing vehicle license applications and inspections. ADEQ has determined the costs of Chapter 14's rules are outweighed by their benefits because it is a priority of the state to prevent biohazardous medical wastes from becoming hazards to public health.
Article 16: Best Management Practices For Petroleum Contaminated Soil	The costs of Article 16's rules apply to generators and transporters of PCS and to facilities that treat, store, or dispose of PCS, by establishing appropriate standards, manifesting and reporting requirements, and a facility approval process for PCS treatment, storage, or disposal facilities, and also establishing initial and annual registration fees and tonnage fees for such facilities. The rules provide benefits by allowing ADEQ to monitor PCS that is generated in Arizona and ensure that it is managed according to standards that prevent it from becoming a hazard to public health. ADEQ has determined that the costs of Article 16's rule are outweighed by their benefits because it is a priority of the State to prevent PCS from posing a hazard to public health.
Article 19: Lead Acid Battery Recycling	The costs of Article 19's rules apply to collection or recycling facilities that accept lead acid batteries by requiring annual facility registration and imposing related fees. The rules provide benefits by allowing ADEQ to collect data and conduct oversight for facilities receiving lead acid batteries in Arizona and by generating funds to cover the technical, administrative, and managerial costs of maintaining the Solid Waste Program. ADEQ has determined the costs of Article 19's rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.
Article 20: Used Oil	The costs of Article 20's rules apply to used oil handlers by requiring annual facility registration and imposing related fees. The rules provide benefits by allowing ADEQ to collect data and conduct oversight for used oil handlers operating in Arizona and by generating funds to cover the technical, administrative, and managerial costs of maintaining the Solid Waste Program. ADEQ has determined the costs of Article 20's rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.
Article 21: Solid Waste Landfill Registration Fees	The costs of Article 21's rules apply to solid waste landfill facilities by requiring annual facility registration and imposing related fees, and establishing waste disposal tonnage fees. The annual registration fees provide benefits by generating funds to cover the technical, administrative, and managerial costs of maintaining the Solid Waste Program. The waste disposal tonnage fee provides benefits by funding and supporting Arizona's recycling program, which include grants for recycling and enabling ADEQ to fully administer the program. ADEQ has determined the costs of Article 21's rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.
Article 22: New Tire Sellers	The costs of Article 22's rules apply to sellers and purchasers of new tires by establishing fees on the retail sale price of new tires. The rules provide benefits by generating greater funds for the Waste Tire Program under A.R.S. 44-1305, which ensures waste tires do not

	pose a hazard to public health or cause an environmental nuisance. ADEQ has determined the costs of Article 22's rules are outweighed by their benefits because it is a priority of the State to maintain a self-sufficient fee-based Solid Waste Program.

12. Are the rules more stringent than corresponding federal laws? Yes ___ No _X_

Article 2: There is no corresponding federal law for Article 2, Definitions; Exemptions.

Article 3: There is no corresponding federal law for Article 3, Refuse and Other Objectionable Wastes.

Article 4: There is no corresponding federal law for Article 4, Solid Waste Facilities Subject to Best Management Practices.

Article 5: There is no corresponding federal law for Article 5, Requirements for Solid Waste Facilities Subject to Self-Certification.

Article 7: There is no corresponding federal law for Article 7, Solid Waste Facility Review Fees.

Article 8: The provisions of the general permit in R18-13-802 apply the solid waste standards of 40 CFR 257 and may not be more stringent, per A.R.S. § 49-761(C). They are thus equivalent to federal law.

Article 11: There is no corresponding federal law for Article 11, Collection, Transportation, and Disposal of Human Excreta.

Article 12: There is no corresponding federal law for Article 12, Waste Tires, Used Tires.

Article 13: There is no corresponding federal law for Article 13, Special Waste and Best Management Practices for Shredder Residue.

Article 14: Article 14 corresponds in part with 29 CFR 1910.1030, Bloodborne pathogens; 49 CFR 173.197, Regulated Medical Waste; and 40 CFR 266.505, Prohibition on Sewering Hazardous Pharmaceuticals. The rules in Article 14 are not more stringent than corresponding federal law.

Article 16: There is no corresponding federal law for Article 16, Best Management Practices for Petroleum Contaminated Soil.

Article 19: There is no corresponding federal law for Article 19, Lead Acid Battery Recycling.

Article 20: Article 20 corresponds in part with 42 USC 6935, Restrictions on Recycled Oil, as amended on January 1,1997 and 40 CFR 279, Standards for the Management of USed Oil. The rules in Article 20 are not more stringent than corresponding federal law.

Article 21: There is no corresponding federal law for Article 21, Municipal Solid Waste Landfills.

Article 22: There is no corresponding federal law for Article 22, New Tire Sellers.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

Article 2: The Rules in Article 2 were adopted before July 29, 2010. However, R18-13-201 was amended January 5, 2021, but does not require issuance of a regulatory permit, license, or agency authorization.

Article 3: The Rules in Article 3 were adopted before July 29, 2010.

Article 4: The rules in Article 4 were adopted after July 29, 2010, but do not require issuance of a regulatory permit, license, or agency authorization.

Article 5: R18-13-501 was adopted after July 29, 2010, but does not require issuance of a regulatory permit, license, or agency authorization.

Article 7: The rules in Article 7 were adopted after July 29, 2010, but do not require issuance of a regulatory permit, license, or agency authorization.

Article 8: The rules in Article 8 were adopted after July 29, 2010. R18-13-801establishes fees for operation under general permit as established in R18-13-802. R18-13-802 establishes a general permit in compliance with A.R.S. § 41-1037.

Article 11: All of the rules in Article 11 were adopted before July 29, 2010 except for R18-13-1103, General Requirements; License Fees. A general permit would not be technically feasible, per A.R.S. § 41-1037(A)(3), for the licensing of septage hauling vehicles subject to R18-13-1103 because the authorizing statute, A.R.S. § 49-104(B)(14), provides for the inspection of each vehicle. Whereas a general permit would list elements necessary and conditions prohibited for a vehicle transporting medical waste and allow the vehicle to be licensed upon the owner's statement that the vehicle qualified, the inspection by ADEQ personnel results in an approve or deny decision based on the presentation of that specific vehicle. Vehicle inspections require what is essentially an individual permit.

Article 12: All of the rules in Article 12 were adopted before July 29, 2010 except R18-13-1211, R18-13-1212, and R18-13-213. R18-13-1211 and R18-13-1212 result in "issuance" of an agency authorization. Pursuant to A.R.S. § 41-1037(A)(2), the registration before operation required by these rules is an alternative type of authorization specifically authorized by state statute (A.R.S. § 44-1303(B) in the case of R18-13-1211 and A.R.S. § 44-1304.01 in the case of R18-13-1212).

Article 13: All of the rules in Article 13 were adopted before July 29, 2010. R18-13-1301, R18-13-1302, R18-13-1303, R18-13-1304, R18-13-1307 have since been amended, but do not require issuance of an agency permit, license, or authorization.

Article 14: R18-13-1405, R18-13-1416, and R18-13-1420 were adopted before July 29, 2010. R18-13-1401, R18-13-1402, R18-13-1403, R18-13-1406, R18-13-1407, R18-13-1408, R18-13-1418, and R18-13-1419 were amended after July 29, 2010, but do not require issuance of an agency permit, license, or authorization. R18-13-1409 was amended after July 29, 2010, and requires issuance of an agency authorization. Pursuant to A.R.S. § 41-1037(A)(3), the use of a general permit is technically infeasible in R18-13-1409 because transporters meet the requirements for licensing through criteria and information specific to their vehicles. Therefore, individual processing is required in order to issue licenses and conduct inspections. The transporters pay fees according to that processing, capped at a maximum fee. R18-13-1410 contains a license to which the requirements of R18-13-1411, R18-13-1412, R18-13-1413, and R18-13-1417 apply, and to which R18-13-1414 and R18-13-1415 provide alternatives to. However, A.R.S. § 49-762(A)(3) requires individual solid waste facility plans for medical waste

facilities. Therefore, it is not possible to utilize a general permit for a license under R18-13-1410 or its associate rules.

Article 16: R18-13-1601, R18-13-1605, R18-13-1609, R18-13-1611, R18-13-1612, R18-13-1614 were adopted before July 29, 2010. R18-13-1602, R18-13-1603, R18-13-1604, R18-13-1608, R18-13-1613 were amended after July 29, 2010, but do not require issuance of an agency permit, license, or authorization. R18-13-1607 and R18-13-1610 were amended after July 29, 2010 and require a permit. A.R.S. § 41-1037 does not apply to these permits (special waste treatment, storage or disposal facility plan approvals) because the facilities are not substantially similar in nature. See also A.R.S. § 49-706(A)(1)(b). This conclusion is supported by the fact that the legislature specifically authorized an alternative type of license for these facilities in A.R.S. §§ 49-762(A)(4) and 49-858, which makes a general permit not applicable under A.R.S. § 41-1037(A)(2).

Article 19: The rules in Article 19 were adopted after July 29, 2010, but do not require issuance of a regulatory permit, license, or agency authorization.

Article 20: The rules in Article 20 were adopted after July 29, 2010, but do not require issuance of a regulatory permit, license, or agency authorization.

Article 21: R18-13-2101, R18-13-2102, and R18-13-2103 were amended after July 29, 2010, but do not require issuance of an agency permit, license, or authorization.

Article 22: The rules in Article 22 were adopted after July 29, 2010, but do not require issuance of a regulatory permit, license, or agency authorization.

14. <u>Proposed course of action:</u>

ADEQ prioritizes rulemakings in terms of the greatest impact on public health and the environment. Rulemakings often require significant stakeholder input and public comment, and therefore ADEQ also prioritizes rulemakings to reduce confusion and maximize input. ADEQ's Waste Programs division is currently engaged in several rulemakings (outlined below) which it has determined are necessary based on their impacts to public health and the environment.

Coal Combustion Residuals	High Priority	Will establish an Arizona coal combustion residuals (CCR) permit program that would be approved by the U.S. Environmental Protection Agency (EPA) to implement the federal regulations in Arizona in lieu of the federal government. Rule returned by GRRC December 3, 2024, ADEQ anticipates resubmitting rule in early 2025.
Transfer Stations	High Priority	Will amend A.A.C. Title 18, Chapter 13 to add and amend articles as necessary to implement design and operation rules and corresponding financial assurance mechanism rules for solid waste transfer facilities. Active rulemaking, anticipate final to GRRC June, 2025.
Tier II Fees	High Priority	Will amend A.A.C. Title 18, Chapter 18 to update the Emergency Planning and Community Right to Know program rules and the Tier II Emergency and Hazardous Chemical Inventory Reporting fee structure. Pending rulemaking, submitting to the Governor for approval January 2025.
Ch. 7 Technical Updates	Medium Priority	Implements technical fixes as part of five-year review commitments to GRRC. Active rulemaking, anticipate Final to GRRC January 2025.
Ch. 18 Technical Updates	Medium Priority	Implements technical fixes as part of five-year review commitments to GRRC. Active rulemaking, anticipate Final to GRRC January 2025.

In addition to the active rulemakings outlined above, Waste Programs Division has a docket of several pending rulemakings necessary to implement various unfulfilled statutory mandates. The chart below outlines those pending rulemakings and their associated statutory mandates, as well as ADEQs projected timeline for conducting the rulemakings, subject to the Division's rulemaking capacity.

Rulemaking	Timeframe
Solid Waste Non-Landfill Disposal/Treatment Requirements A.R.S. 49-761(G), (H) A.R.S. 49-761(G) and (H) require the Department to adopt design & operation rules, and best management practices for solid waste facilities. ADEQ intends to address this requirement over the course of rulemakings, each handling a different class of solid waste facilities, to be conducted in tandem with the financial assurance requirements in A.R.S. 49-761(J).	Ongoing pursuant to adoption of design and operation standards for each solid waste facility category, beginning with transfer facilities in 2025.
Financial Assurance Requirements for Solid Waste Facilities A.R.S. 49-761(J) A.R.S. §49-761(J) requires the Department to adopt various rules establishing financial assurance requirements for solid waste facilities. ADEQ intends to address this requirement over the course of multiple rulemakings, each handling a different class of solid waste facilities, to be conducted in tandem with the design and operating requirements in A.R.S. 49-761(G) and (H).	Ongoing pursuant to adoption of design and operation standards for each solid waste facility category, beginning with transfer facilities in 2025.
Recycling Facility Standards & Recycling Program A.R.S. 49-761(K); A.R.S. 49-832(B)(8). A.R.S. 49-761(K) requires the department to adopt rules establishing design and operating standards for self-certification recycling facilities. A.R.S. 49-832(B)(8) requires the Department to adopt rules for the administration of Title 49, Chapter 4, Article 8 (Arizona Recycling Program). ADEQ intends to address these requirements over the course of multiple rulemakings projected to begin in the fall of 2025.	Recycling rule(s) projected start fall 2025, to be completed fall 2026.
Solid Waste Land Disposal Facilities Non-Municipal [Landfills] A.R.S. 49-761(C) A.R.S. 49-761(C) requires the Department to establish design and operating rules for non-municipal landfills pursuant to 40 CFR part 257. ADEQ intends to address this requirement in a rulemaking projected to begin in the fall of 2026.	Rulemaking projected to begin fall 2026 to be completed fall 2027.
Criteria for determining the category type of a proposed change to solid waste facility A.R.S. 49-762.06(A) A.R.S. 49-762.06(A) requires the Department to establish criteria for solid waste facility plan amendment category types as identified in	Rulemaking projected to begin summer 2027 to be completed summer 2028.

Rulemaking	Timeframe
A.R.S. 49-762.06. ADEQ intends to address this requirement in a rulemaking projected to begin in the fall of 2027.	
Composting A.R.S. 49-761(M) A.R.S. 49-761(M) requires the Department to adopt facility design, construction, operation, closure and post closure maintenance rules for biosolids processing facilities and waste composting facilities that must obtain plan approval pursuant to A.R.S. 49-762. This rulemaking is contingent on a change to the definition of "solid waste facility" under A.R.S. 49-701(45). Currently, a "site that stores, treats or processes" vegetative waste is exempted from the definition of a solid waste facility. Vegetative waste is a major component of composting activities. Thus, removing the vegetative waste exemption would be required to ensure any related composting facility rulemaking applies to all composting facilities. ADEQ will proceed with a rulemaking to address the requirements of A.R.S. 49-761(M) once the necessary changes to the definition of "solid waste facility" are adopted.	Rulemaking will require statutory changes to definition of 'vegetative waste', ADEQ will proceed with rulemaking once necessary changes are adopted.

As the Division completes its current slate of active rulemakings, it will begin work on an expedited rulemaking for Chapter 13 to incorporate recommendations made in section 4 and 6 of this report. Specifically, ADEQ will update the incorporations by reference outlined in section 4 of this report to incorporate the listed EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in part 6 of this report to improve clarity of the rules. ADEQ anticipates conducting this expedited rulemaking in the middle of 2025, to be completed by the end of that year. Additionally, following this five-year review report, ADEQ plans to convene cities, counties, and stakeholders after this five-year review to assess potential updates or modifications to Article 3 and whether a single rulemaking or multiple rulemakings would be appropriate, as described in section 10 of this report.

APPENDIX A

A Summary of the Economic, Small Business, and Consumer Impact of the Solid Waste Program's Fee Rulemaking; Submitted to the Secretary of State December 24, 2024

The following discussion addresses each of the elements required for an economic, small business and consumer impact statement under A.R.S. § 41-1055.

Identification of the rulemaking: This rulemaking makes a number of changes to 18 A.A.C. 13, Solid Waste Management, including amendments to Articles 5, 7, 8, 11, 12, 13, 14, 16, and 21; amending Sections R18-13-501, R18-13-702, R18-13-801, R18-13-1103, R18-13-1211, R18-13-1212, R18-13-1307, R18-13-1409, R18-13-1410, R18-13-1606, R18-13-2102, and R18-13-2103, and their respective tables. Additionally, this rulemaking establishes new articles and sections, including Articles 4, 19, 20, and 22 and their respective sections, and new sections in existing Articles, including R18-13-1212.01, R18-13-1306, and R18-13-2104. The purpose of these changes is to both adjust existing fees and establish new fees throughout Solid Waste Management. This rulemaking also establishes in rule fees that currently only exist in statute.

Fees under this rulemaking can be categorized into two broad groups. One group being current fees paid by waste facilities and licensees that would be subject to an adjustment under this rulemaking. These facilities and licensees include publicly and privately-owned landfills, used and waste tire facilities, self-certification transfer facilities, biohazardous medical waste transporters, septage haulers, and special waste facilities that receive shredder residue and petroleum contaminated soil (PCS). The second group of fees are those established under this rulemaking for the first time. Facilities and entities subject to a new fee include transfer facilities subject to best management practices, used oil handlers, medical waste facilities that are permitted for storage or treatment, facilities generating or transporting special waste, landfills that enter into post-closure care, and collection and recycling facilities accepting lead acid batteries.

These rule changes are intended to collect fees to ensure the financial stability of Solid Waste Management programs, not to change the conduct of any regulated facilities or entities. The last time ADEQ undertook any substantive review and adjustments of fees within Solid Waste Management was in 2012. While fees established in 2012 represented a critical step towards the goal of full program sufficiency and stability, further work is necessary to realize this goal. Indeed, to date only half of all regulated facilities under Solid Waste Management are subject to fees for registration, inspection, and oversight notwithstanding ongoing statutory mandates.

Experience over the last several years has demonstrated the need for a comprehensive approach to fees throughout Solid Waste Management, one that promotes equal cost distribution amongst all regulated facilities and entities and ensures the financial health of Solid Waste Management as a whole for the effective and efficient carrying out of the Program's mission.

ADEQ's goal in this rulemaking is to adjust and establish fees throughout Solid Waste Management that will sustain critical programs while avoiding disproportionate impact on any one group of stakeholders or regulated entities. Currently, ADEQ's annual costs to administer all solid waste programs are estimated to total $3.5 million per year. However, current annual registration fee revenue is estimated at roughly $500,000. Other revenue sources include the 3.5% of the Waste Tire Fund allocated to the Solid Waste Fee Fund based upon the number of tires sold and the special waste tonnage tipping fee based upon the amount of special waste disposed within the state. While variable, these other revenue sources are critical, representing approximately half of revenues into the Solid Waste Fee Fund. ADEQ continues to operate with total revenues that are insufficient to cover costs. The increases in existing fees and newly established fees in this rulemaking are now projected to contribute and ultimately result in approximately $2.1 million in additional fee revenue for the Solid Waste Fee Fund.

Regulatory Objective: The Waste Program Division within ADEQ preserves and protects public health and the environment by reducing the risk associated with waste management, contaminated sites, and regulated substances. To fulfill this objective, ADEQ carries out a number of Agency functions corresponding to regulatory and oversight

activities for the approximately 2,000 different facilities and entities that fall under Solid Waste Program (SWP) regulation, including: administrative operations; inspections, including pre- and post-inspection activity encompassing historic data and permit review, case closure, and necessary filing; permitting and licensing; public records management; complaint response; and compliance assistance. It is critical that ADEQ has the ability to fully perform all necessary Agency functions to continue to carry out its mission to ensure the continued health of our solid waste ecosystem to preserve and promote public health and the environment.

Least Burden and Cost: A.R.S. § 41-1052(D)(3) requires ADEQ to demonstrate it has selected the alternative with the least burden and cost necessary to achieve the underlying regulatory objective. Similarly, pursuant to A.R.S. § 49-104(B)(17), ADEQ is charged with ensuring all fees "be fairly assessed and impose the least burden and cost to the parties subject to the fees" based upon an evaluation of "the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses." This statutory mandate is reinforced by HB2367, which states in Section 17, Legislative Intent, that fees established pursuant to the bill be based upon "direct and indirect costs associated with the type of activity or facility that is assessed a fee."

In the context of this solid waste fees rule, ADEQ has interpreted this requirement to mean collecting fee amounts necessary to ensure a self-funded and sustainable SWP to satisfy ADEQ's detailed requirements to protect and enhance public health and the environment as specified in A.R.S. Title 49, Chapter 4, Solid Waste Management.

Based on ADEQ's interpretation of the statutory mandate that the rule impose the least burden and cost, ADEQ evaluated costs for regulating each type of facility and entity and set fees accordingly. ADEQ continued throughout the rulemaking process to adjust the fee proposal to impose the least burden and cost while still ensuring overall fee levels necessary to ensure a self-funded and sustainable SWP. Examples include:

- Establishing separate registration fee amounts in R18-13-1103 for septage haulers based on whether ADEQ is tasked with conducting annual inspections or such inspections are handled by counties to be reflective of actual costs to ADEQ.
- Setting an annual registration fee in R18-13-1410 specifically for biohazardous medical waste transfer facilities to ensure fees are commensurate with ADEQ's related regulatory costs and corresponds to other transfer facility fees.
- Leaving initial fees for solid waste plan review at their current levels in R18-13-702 to improve clarity and ease of initial application for facilities subject to plan review while still ensuring necessary cash flow to ADEQ to facilitate commencing facility plan reviews.
- Adjusting the annual registration fee for the largest class of landfills, those that annually receive 225,000 or more tons of waste, by the regional CPI instead of the initial, higher annual registration fee proposed in the NPRM.
- Changing the first annual registration fee of increased fees so that payment of the fee will occur over two invoices as well as delaying payment of new annual registration fees and first quarter landfill disposal and special waste tonnage until July 2025 to correspond with the fiscal year. Following any initial invoicing or other change for the first year of implementation, billing for facilities and entities will return to a single invoice for all new and adjusted annual registration fees for the calendar year billing cycle in January 2026.

Fairly Assessed: To ensure the fees adjusted and established under this rulemaking be fairly assessed against each member of the regulated community subject to them, ADEQ conducted extensive stakeholder engagement, including three rounds of stakeholder meetings to present all proposed fee levels, explain the basis for the fees, provide detail on the need for and methodology of the annual CPI adjustments, and present rule language. ADEQ was able to solicit productive feedback from the regulated community. This feedback guided ADEQ in assessing and adjusting proposed fee levels and implementation to impose the least burden on members of the regulated community to the fullest extent possible.

In addition to engagement with and feedback from the regulated community, ADEQ reviewed costs associated with Agency functions in carrying out regulated activities, with costs identified and distinguished by facility type. Based upon these costs, ADEQ employed the fee methodology discussed in Part 7 of the Preamble, "Explanation of Fee Methodology", that set fees for each class of facility or entity.

Implementation Schedule: In furtherance of ADEQ's goal to ensure the proposed fees impose the least burden and cost, ADEQ evaluated the feasibility of an implementation schedule that balances the fiscal health of SWP and the budget constraints of the regulated community subject to the fees. Currently, ADEQ sends out invoices for registration fees to correspond with the calendar year. However, a recurring point of discussion throughout the rulemaking process was the concern of implementing a new fee or fee increase in the middle of the fiscal year for many counties, municipalities, and other political subdivisions. As such, while the rule and fees would become effective as of January 2025, fees will be implemented pursuant to a schedule for CY2025 to accommodate the fiscal needs of counties, municipalities, and other political sub-divisions.

This implementation schedule is discussed in greater detail and presented in a series of tables in Part 7 of the Preamble, "Implementation Schedule".

Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the proposed rulemaking: Stakeholders directly affected by this rulemaking include all 15 counties within the state, local municipalities, and the approximately 2,000 solid waste facilities and entities with different media types subject to ADEQ regulatory compliance and oversight under Solid Waste Management, as well as the general public. These facilities may be categorized as government and privately owned. Approximately 13% of all solid waste facilities and entities are owned by a political subdivision of the state, with the remaining being privately owned and operated, ranging from individual licensees to large, multistate businesses. These facilities and entities include solid waste transfer facilities of varying size and sophistication, from rural drop-site locations to city facilities, septage hauler licensees, waste tire sites, off-site facilities registered for the treatment, storage, or disposal of auto-shredder residue, special waste transporters and generators, biohazardous medical waste transport companies, used oil handlers and collectors, facilities accepting lead acid batteries for collection or recycling, and both public and privately-owned landfills.

These facilities and entities are discussed in greater detail in the "Cost/Benefit Analysis" to follow.

Cost/Benefit Analysis: The estimated total impact for this rule is $12 million, which is the approximate total amount of increased fees across all programs. This estimated impact is subject to annual adjustment pursuant to the regional CPI adjustment. Approximately $1.8 million in increased fees will be collected pursuant to the proposed new and adjusted fees, including the special waste tonnage tipping fee, for regulated facilities and entities to be deposited into the Solid Waste Fee Fund. $6.7 million of increased fees will be collected through the fee on the sale of new tires as incorporated, with this cost borne by sellers and purchasers of new tires throughout the state. Of this $6.7 million, 3.5% or approximately $237,000 will be deposited to the Solid Waste Fee Fund pursuant to A.R.S. § 44-1305(B)(1), resulting in the total increased revenues to the Solid Waste Fee Fund of approximately $2.1 million. The remaining revenues from the fee on the sale of new tires are apportioned to the counties as provided in law. Finally, approximately $3.5 million in increased fees will be collected pursuant to the landfill disposal fee as incorporated to be deposited into the Recycling Fund pursuant to A.R.S. § 49-836.

ADEQ finds that the benefits associated with this rule change outweigh any foreseen or anticipated costs, as discussed in further detail below.

Probable benefits include:

- Allow the Recycling Fund to be more fully utilized for its intended purpose. Since the loss of General Fund revenues and the establishment of the fee-based program model in 2012, it has been necessary to expend from the Recycling Fund to cover management of solid waste regulatory programs. By ensuring full cost-recovery and program funding through this proposed rulemaking, expenditures from the Recycling Fund to cover solid waste management may be addressed, allowing appropriations under the Recycling Fund to be used for the stated purpose of that fund. ADEQ is committed to expenditures from the Recycling Fund being used for the stated purpose of grants and contracts for "research, demonstration projects, new technologies, market development and source reduction studies and implementation of the recommendations or reports prepared." *See* A.R.S. § 49-837(B)(1).

- Minimize public health risks from solid waste activities. Fee levels ensuring full cost-recovery to ADEQ for regulatory activities and program stability are critical to allow ADEQ to adequately perform all its duties relating to its mission to enhance public health and the environment, including inspections, monitoring, public education, compliance, and permitting.
- Ability to address the obligations cited in the 2021 Auditor General's Report. The Auditor General's September 2021 Performance Audit and Sunset Review Report noted ADEQ has not yet adopted all statutorily required rules. Specifically, the Report notes A.R.S. § 49-761 requires the Department to adopt various rules for solid waste facilities, such as requirements for storing, processing, treating, and disposing of solid waste; best management practices for these facilities; and financial assurance requirements for facility closure. The Report ultimately recommends such rules should be adopted as required by statute. By ensuring appropriate funding levels and future programs security, ADEQ will be better positioned to undertake further rulemakings to address this recommendation of the Auditor General.
- Ability to address regulatory vacuum to protect public health and the environment as well as promote business development. With adequate and sustainable funding, SWP may increase inspection and enforcement activities to address and mitigate any regulatory vacuum within the solid waste universe. A greater ability to engage in regulatory activities provides a stronger deterrence to behavior that is harmful to the environment and public health, mitigates any unlevel playing field between competing facilities, and provides certainty for current and prospective businesses in estimating and planning for standards and operation requirements that must be adhered to.
- Ensure fee revenues continue to match increasing costs to ADEQ through annual regional CPI adjustments. The annual adjustments in the proposed rule will allow SWP to maintain fee levels commensurate with rising costs due to inflation to facilitate cost-recovery year over year and continued program stability.

This cost/benefit analysis includes an analysis of the following elements pursuant to A.R.S. § 41-1055(B)(3):

- Probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the proposed rulemaking: probable benefits to ADEQ by the implementation of this rule include ensuring that SWP becomes sustainable, secure, and self-sufficient as a fully fee-based program. Additionally, benefits include allowing the Recycling Fund to be more fully utilized for its intended purpose, minimizing public health risks from solid waste activities, allowing ADEQ to address obligations cited in the 2021 Auditor General's Report, and to maintain fee levels commensurate with rising costs due to inflation to facilitate cost-recovery year on year and continued program stability. Probable benefits to ADEQ are discussed in greater detail in Part 7 of the Preamble. A probable cost to ADEQ in the implementation of this rulemaking is the administrative costs associated with administering these fees, including in accordance with the proposed implementation schedule and updating the fees annually pursuant to the regional CPI adjustment. No new full-time employees are necessary to implement or enforce this rule.

  The Arizona Department of Revenue is charged with the collection of the new tire sales fee, 2% of the sale price of a new tire capped at $2.00, pursuant to A.R.S. § 44-1302. This rulemaking incorporates this existing fee into rule at R18-13-2202, with an adjustment to the fee cap based upon CPI as well as a continuing annual regional CPI adjustment to the cap. As such, it will be necessary for the Department of Revenue to update each year the quarterly Motor Vehicle Waste Tire Fee return form to reflect the new fee cap. This will present a new administrative cost to the Department of Revenue in the timely updating and dissemination of the return form.

- Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking: probable benefits to political subdivisions by the implementation of this rule include the increased fee revenues of approximately $6.5 million apportioned to the counties based on registered motor vehicles for the administration of each county's waste tire program pursuant to the incorporation and adjustment of the new tire sales fee. ADEQ has heard that costs for running these waste tire programs have increased, creating additional strains on counties attempting to fully administer their respective programs as required by A.R.S. § 44-1305. Increased fee revenues to be apportioned to the county waste tire programs will provide more money for each county to administer its required waste tire program. Additionally, increased fee revenues ensuring overall program health and self-sufficiency for SWP will strengthen the capacity for ADEQ to

partner with counties and other political subdivisions to address key waste issues, such as wildcat, or illegal, dumping of waste, including increased enforcement activity and clean-up efforts.

Probable costs to political subdivisions from the implementation of this rule are the increased and new fees each political subdivision will be subject to for their county and municipal solid waste facilities and entities, as well as the increased landfill tonnage fees. Of the total approximately 2,000 solid waste facilities and entities regulated by ADEQ, the Agency estimates 13% are owned and operated by political subdivisions. This total includes approximately 26 active municipal landfills as well as 19 landfills currently in post-closure care.

Other facilities owned and operated by political subdivisions include:

- Used and waste tire sites. These include sites storing 100 or more used tires outdoors, as well as waste tire sites subject to self-certification and best management practices. Used and waste tire sites are often operated by and for counties under county waste tire collection programs. There are approximately 30 publicly operated used and waste tire sites.
- Transfer facilities subject to both self-certification and best management practices. To note, exempted from the definition of transfer facilities for purposes of registration fees are material recovery facilities where the incoming materials are primarily source separated recyclables and community or neighborhood recycling bins including drop boxes, roll off containers, plastic containers used to collect residential, business, or governmental recyclable solid waste. There are approximately 80 publicly operated transfer facilities maintained by counties and municipalities throughout the state.
- Septage haulers. While the majority of licensed septage hauler vehicles are privately owned and operated, some political subdivisions maintain licensed septage vehicles for purposes of sanitation and public departments. There are approximately 40 septage hauler licensed vehicles maintained by political subdivisions.
- Collection or recycling facility that accepts lead-acid batteries. Counties and municipalities often maintain registered household hazardous waste sites that accept lead-acid batteries. There are approximately 30 such registered facilities throughout the state.

- Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking: With fees resulting in a fully-funded SWP, ADEQ may engage in greater compliance assistance for regulated facilities and entities. Further, ADEQ will have more resources to facilitate more expeditious permit review, both for new permits and renewals. This will allow permit applicants to begin facility operations sooner, mitigating administrative burdens associated with permit review time and allowing for faster business development, while still maintaining high regulatory standards for facilities and solid waste operations to ensure the protection of human health and the environment.

  Further, a fully-funded SWP will provide ADEQ with the resources needed to engage in greater oversight and compliance, ensuring a more level playing field between regulated businesses and entities. With greater enforcement and oversight, ADEQ may better identify and address pollution, spills, and failures to meet regulatory requirements. This further promotes adherence to regulation amongst all facilities, mitigating the harm to those facilities and entities that must compete with and operate in the same regulatory space as those facilities and entities that may fail to adhere to minimum standards. Additionally, SWP may engage in more robust partnership with the regulated community through activities and programs designed to promote compliance and assistance. Increased program funding and stability can result in greater collaboration with the regulated community, including greater engagement by SWP sections in outreach that help facilities understand and comply with applicable regulations.

  Probable costs to businesses directly affected by the rulemaking include the new or increased fees privately-owned solid waste facilities and entities will be subject to, as well as increased landfill tonnage and special waste tonnage fees.

  There are approximately 27 active landfills and 7 landfills in post-closure care that are privately owned and operated subject to regulation by ADEQ.

Privately-owned regulated facilities and entities also include those described below:

- Transfer facilities subject to self-certification or best management practices. These facilities are located throughout the state and range in size and sophistication. Self-certification transfer facilities are those that handle a daily throughput of more than 180 cubic yards of solid waste, while transfer facilities subject to best management practices are those that handle a daily throughput of 180 cubic yards or less of solid waste. To note, mirroring public transfer facilities, exempted from the definition of transfer facilities for purposes of registration fees are material recovery facilities where the incoming materials are primarily source separated recyclables and community or neighborhood recycling bins including drop boxes, roll off containers, plastic containers used to collect residential, business, or governmental recyclable solid waste. There are approximately 80 privately-owned transfer facilities throughout the state.
- Used oil handlers. Used oil handlers are defined as used oil processors, burners, transporters, and marketers required to obtain an EPA identification number pursuant to 40 CFR 279. The majority of the used oil handlers are transporters and marketers, representing 85% of registered used oil handlers. Used oil transporters are anyone that collects or accepts used oil from regulated handlers and transports that used oil to another facility while used oil marketers are anyone who markets used oil or first claims that used oil meets the used oil fuel specifications. There are approximately 230 used oil handlers throughout the state.
- Biohazardous medical waste (BMW) facilities and entities. BMW facilities and entities include BMW transporters, BMW treatment facilities, and BMW storage facilities. There are approximately 50 BMW transporters engaged in moving biohazardous medical waste, as defined in R18-13-1401(4), to an approved disposal facility. There are approximately 20 BMW treatment and storage facilities accepting biohazardous medical waste for proper treatment, storage, and disposal pursuant to regulation.
- Septage haulers. There are over 500 registered privately owned and operated septage hauler licenses throughout the state engaged in the transportation of sewage or human waste that is removed from septic tanks or other onsite wastewater treatment facilities.
- Special waste facilities. Special waste facilities include generators, transporters, and receiving facilities of special waste, defined as solid waste other than hazardous waste requiring special handling and management. Currently petroleum contaminated soils and auto-shredder fluff from shredding motor vehicles are designated special wastes in Arizona. There are approximately 80 special waste transporters, 70 special waste generators, and 16 special waste receiving facilities throughout the state engaged in the transportation, treatment, storage and disposal of special waste.
- Collection or recycling facility that accepts lead-acid batteries. There are approximately 200 registered facilities with ADEQ authorized for the collection and recycling of lead-acid batteries throughout the state.

For the reasons discussed above, ADEQ finds that the benefits associated with this rule change outweigh any foreseen or anticipated costs.

General description of the probable impact on private and public employment in businesses, agencies, and political subdivisions of this state directly affected by the proposed rulemaking: ADEQ estimates this rulemaking will not have an impact on public or private employment.

Probable impact of the proposed rulemaking on small businesses: Arizona law defines "small business" for the purpose of this analysis as a "concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year." *See* A.R.S. § 41-1001(23). The probable impact on small businesses includes an analysis of the following elements pursuant to A.R.S. § 41-1055(B)(5):

Identification of the small businesses subject to the rulemaking: ADEQ has reviewed its records of solid waste facilities subject to new or adjusted fees affected by this rule to determine which ones are small businesses. An important criterion is that the business must be independently owned and operated. Based on this review and applicable definition, it appears likely that many septage haulers are independently owned and operated and not likely to exceed the revenue and employee limits in the statutory definition of small business. Additionally, it appears likely that a number of used outdoor tire sites storing more than 100 used tires, biohazardous medical waste transporters,

certain transfer facilities subject to best management practices, as well as certain used oil handlers would qualify as small businesses for purposes of this rulemaking and collection and recycling facilities accepting lead acid batteries.

Administrative and other costs required for compliance with the proposed rulemaking: ADEQ does not anticipate appreciable administrative or other costs associated with compliance with the rulemaking. While this rule imposes a financial obligation corresponding with registration of certain facility types, compliance with the requirements of registration has long been a component of SWP. Registration under this rulemaking is administrative, with no additional substantive licensing or approval procedures or requirements compared to those that may already exist for regulated facilities.

Reduction of Impact on Small Businesses: A.R.S. § 41-1035 requires state agencies to reduce the impact of a rulemaking on small businesses, if any of the following methods are legal and feasible in meeting the statutory objectives which are the basis of the rule making:

1. Establish less stringent compliance or reporting requirements in the rule for small businesses.
2. Establish less stringent schedules or deadlines in the rule for compliance or reporting requirements for small businesses.
3. Consolidate or simplify the rule's compliance or reporting requirements for small businesses.
4. Establish performance standards for small businesses to replace design or operational standards in the rule.
5. Exempt small businesses from any or all requirements of the rule.

The listed methods are not generally relevant to a rule establishing fees. *See* A.R.S. § 49-104(B)(17). However, in developing fee amounts for different categories of facilities and entities, ADEQ was guided by its statutory mandate that all fees be fairly assessed and impose the least burden and cost to the parties subject to the fees. Further, the implementation schedule discussed in greater detail in Part 7 of the Preamble was designed to impose the least burden possible on all facilities and entities subject to fees under this rule, including small businesses.

Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking: Adequate and sustainable funding for SWP further enables ADEQ to more fully perform its duties relating to its mission to enhance public health and the environment. Benefits to private persons and consumers includes greater enforcement and compliance activities that can be carried out by ADEQ. With adequate funding levels, SWP may conduct more regular inspections of regulated facilities and entities, leading to greater oversight, identification of violations, and corrective actions, resulting in greater minimization of public health risks from solid waste activities. Additionally, adequate funding for SWP will result in sustained and improved Agency response to citizen complaints. Robust engagement with the public is a critical component of ADEQ's mission. SWP receives approximately 80 solid waste complaints from the public annually. The ability to ensure that each complaint is efficiently and effectively fielded, managed, and resolved will be strengthened through adequate funding for SWP.

Further benefits include greater public outreach and education efforts. For example, the Recycling Program educates and encourages Arizonans to reduce, reuse, recycle, and buy recycled products as an alternative to solid waste disposal in landfills. The program assists communities and organizations in developing recycling programs, accessing markets for recycled materials, and educating people about the benefits of recycling. Providing information to the public regarding proper residential and commercial disposal of solid waste is another important component of ADEQ's mission.

Probable costs to private persons and consumers include the increase in the fee cap on the sale of new tires. This rulemaking incorporates into rule the statutory new tire sale fee under A.R.S. § 44-1302 of 2% on the purchase price of each tire sold and raises the per tire cap from $2.00 to $4.66. This is anticipated to result in increased revenues of $6.7 million. This fee is to be collected by the seller of tires and vehicles and often operates as a passthrough fee to

be borne by the consumer. The maximum increased cost an individual consumer may be subject to is $10.64 per vehicle purchase or $2.66 per tire replacement, assuming the purchase is of a four-wheel vehicle.

An additional probable cost to private persons and consumers is the potential for increased solid waste disposal costs due to the increase to the landfill disposal fee. The landfill disposal tonnage fee is often a passthrough to residential customers. With the landfill disposal fee being increased based on a CPI adjustment, landfills, both public and privately-owned, may elect to raise rates for residents and customers to offset this increase.

Probable effect on state revenues: ADEQ estimates that fees from this rulemaking will directly affect state revenues by increasing overall annual fee revenue generated across programs and funds by approximately $12 million.

Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking: This rulemaking is the least intrusive and costly means possible to achieve the same objectives. ADEQ engaged with stakeholders to explore methods to reduce the impact of new or increased fees, including among other outreach efforts three stakeholder meetings, and established an implementation schedule for the first calendar year of the fees to impose the least burden and cost, as discussed in detail in Part 7 of the Preamble.

Description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data: Any data or reasoning which this rulemaking is based on is identified in the "Rule Scope and Explanation" portion of the Notice of Final Rulemaking located in Part 7. Generally, no new data was introduced or reviewed to make these rule changes.

Based on the foregoing, ADEQ finds that the benefits associated with this rule change outweigh any foreseen or anticipated costs.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 13. DEPARTMENT OF ENVIRONMENTAL QUALITY - SOLID WASTE MANAGEMENT

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of October 1, 2024 through December 31, 2024

Sections amended in this Chapter are too numerous to list on the cover page. Refer to the historical notes for Sections made and amended in Supp. 24-4.

Questions about these rules? Contact:

Name:	Matt Rippentrop
Title:	Rule Writer
Division:	Waste Programs Division
Address:	Department of Environmental Quality 1110 W. Washington St. Phoenix, AZ 85007
Telephone:	(602) 771-4329
Email:	rippentrop.matt@azdeq.gov

The release of this Chapter in Supp. 24-4 replaces Supp. 21-4, 1-42 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 13. DEPARTMENT OF ENVIRONMENTAL QUALITY - SOLID WASTE MANAGEMENT

Authority: A.R.S. §§ 41-1003 and 49-104

Supp. 24-4

CHAPTER TABLE OF CONTENTS

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to A.R.S. § 49-701.01(C)(1) and (2). Exemption from A.R.S. Title 41, Chapter 6 means that the Department did not submit these rules to the Governor's Regulatory Review Council for review; the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and the Department was not required to hold public hearings on these rules.

ARTICLE 12. WASTE TIRES; USED TIRES

Title 18, Chapter 13, Article 12, consisting of Sections R18-13-1201 through R18-13-1210, recodified from Title 18, Chapter 8, Article 7, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 13. SPECIAL WASTE AND BEST MANAGEMENT PRACTICES FOR SHREDDER RESIDUE

Title 18, Chapter 13, Article 13, consisting of Sections R18-13-1301 through R18-13-307, Table A, Exhibit 1, and Appendices A and B, recodified from Title 18, Chapter 8, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 14. BIOHAZARDOUS MEDICAL WASTE AND DISCARDED DRUGS

Article 14, consisting of Sections R18-13-1401 through R18-13-1420, adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3).

ARTICLE 15. RECODIFIED

Editor's Note: The recodification at 7 A.A.R. 2522 described below erroneously moved Sections into 18 A.A.C. 9, Article 9. Those Sections were actually recodified to 18 A.A.C. 9, Article 10. See the Historical Notes for more information (Supp. 01-4).

Article 15, consisting of Sections R18-13-1501 through R18-13-1514 and Appendix A, recodified to 18 A.A.C. 9, Article 9 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2).

Article 15, consisting of Sections R18-13-1501 through R18-13-1514 and Appendix A, adopted effective April 23, 1996 (Supp. 96-2).

ARTICLE 16. BEST MANAGEMENT PRACTICES FOR PETROLEUM CONTAMINATED SOIL

Article 16, consisting of Sections R18-13-1601 through R18-13-1614, recodified from 18 A.A.C. 8, Article 16 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

ARTICLE 17. RESERVED

ARTICLE 18. RESERVED

ARTICLE 19. LEAD ACID BATTERY RECYCLING

Article 19, consisting of Section R18-13-1901, made by final rulemaking at 30 A.A.R. 3900 (December 27, 2024), effective February 4, 2025 (Supp. 24-4).

ARTICLE 20. USED OIL

Article 20, consisting of Sections R18-13-2001 through R18-13-2003, made by final rulemaking at 30 A.A.R. 3900 (December 27, 2024), effective February 4, 2025 (Supp. 24-4).

ARTICLE 21. SOLID WASTE LANDFILL REGISTRATION AND DISPOSAL FEES

Article 21, consisting of Sections R18-13-2101 through R18-13-2103, made by final rulemaking at 9 A.A.R. 1770, effective July 14, 2003 (Supp. 03-2).

ARTICLE 22. NEW TIRE SELLERS

Article 22, consisting of Sections R18-13-2201 and R18-13-2202, made by final rulemaking at 30 A.A.R. 3900 (December 27, 2024), effective February 4, 2025 (Supp. 24-4).

ARTICLE 23. RESERVED

ARTICLE 24. RESERVED

ARTICLE 25. EXPIRED

Article 25, consisting of Section R18-13-2501, expired at 23 A.A.R. 3429, effective October 10, 2017 (Supp. 17-4).

Article 25, consisting of Section R18-13-2501, adopted by final rulemaking at 5 A.A.R. 4654, effective November 15, 1999 (Supp. 99-4).

ARTICLE 26. EXPIRED

Article 26, consisting of Sections R18-13-2601 through R18-13-2604, expired at 16 A.A.R. 705, effective April 6, 2010 (Supp. 10-2).

Article 26, consisting of Sections R18-13-2601 through R18-13-2604, made by exempt rulemaking at 14 A.A.R. 4258, effective October 20, 2008 (Supp. 08-4).

ARTICLE 27. EXPIRED

Article 27 consisting of Sections R18-13-2701 through R18-13-2703, expired under A.R.S. § 41-1056(J) at 22 A.A.R. 2984, effective September 15, 2016 (Supp. 16-3).

Article 27 consisting of Sections R18-13-2701 through R18-13-2703, made by exempt rulemaking at 16 A.A.R. 848, effective July 1, 2010 (Supp. 10-2).

ARTICLE 1. RESERVED

Editor's Note: Article 2, consisting of Section R18-13-201, was adopted under an exemption from the provisions of A.R.S. Title 41, Chapter 6, pursuant to A.R.S. § 49-701.01(C)(1) and (2). Exemption from A.R.S. Title 41, Chapter 6 means the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the Department did not submit the rules to the Governor's Regulatory Review Council for review; and the Department was not required to hold public hearings on this Section (Supp. 98-3).

ARTICLE 2. SOLID WASTE DEFINITIONS; EXEMPTIONS

Editor's Note: The following Section was adopted under an exemption from the provisions of the Administrative Procedure Act which means that these rules were not reviewed by the Governor's Regulatory Review Council; the agency did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and the agency was not required to hold public hearings on these rules (Supp. 98-3).

R18-13-201. Land Application of Biosolids Exemption

A. This Section applies only to biosolids as defined in R18-9-1001. The land application of biosolids, when placed on or applied to the land in full conformity with 18 A.A.C. 9, Article 10 and A.R.S. § 49-761(F), and if the site of land application has ceased to receive application of biosolids and all applicable site restrictions set by A.A.C. Title 18 Environmental Quality have been satisfied, is exempt statewide from the definition of solid waste found at A.R.S. § 49-701.01(A). This exemption applies only when the biosolids and the soil to which it has been applied remain at the site of the application.

B. This exemption does not alter or set any new standard for the soil remediation standards found at 18 A.A.C. 7, Article 2.

Historical Note

Adopted under and exemption from A.R.S. Title 41, Chapter 6, pursuant to A.R.S. § 49-701.01(C)(1) and (2), effective July 27, 1998 (Supp. 98-3). Amended by exempt rulemaking at 5 A.A.R. 4004, effective September 17, 1999 (Supp. 99-3). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-202. Coal Slurry Discharges from Pipeline Leaks Exemption

This Section applies only to coal slurry discharges onto the ground from pipeline leaks. Coal slurry discharges onto the ground from pipeline leaks are exempt statewide from the definition of solid waste prescribed in A.R.S. § 49-701.01(A) if both of the following conditions are met:

1. The discharge was the result of an accidental pipeline leak.
2. The thickness of the layer of coal slurry on the ground that resulted from the discharge is 3 inches or less.

Historical Note

New Section adopted by exempt rulemaking at 5 A.A.R. 4004, effective September 17, 1999 (Supp. 99-3).

ARTICLE 3. REFUSE AND OTHER OBJECTIONABLE WASTES

R18-13-301. Reserved

R18-13-302. Definitions

A. "Approved" means acceptable to the Department.

B. "Ashes" means residue from the burning of any combustible material.

C. "Department" means the Department of Environmental Quality or a local health department designated by the Department of Environmental Quality.

D. "Garbage" means all animal and vegetable wastes resulting from the processing, handling, preparation, cooking, and serving of food or food materials.

E. "Manure" means animal excreta, including cleanings from barns, stables, corrals, pens, or conveyances used for stabling, transporting, or penning of animals or fowls.

F. "Person" means the state, a municipality, district or other political subdivision, a cooperative, institution, corporation, company, firm, partnership or individual.

G. "Refuse" means all putrescible and nonputrescible solid and semisolid wastes, except human excreta, but including garbage, rubbish, ashes, manure, street cleanings, dead animals, abandoned automobiles, and industrial wastes.

H. "Rubbish" means nonputrescible solid wastes, excluding ashes, consisting of both combustible and noncombustible wastes, such as paper, cardboard, waste metal, tin cans, yard clippings, wood, glass, bedding, crockery and similar materials.

Historical Note

Section recodified from A.A.C. R18-8-502, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-303. Responsibility

A. The owner, agent, or the occupant of any premises, business establishment, or industry shall be responsible for the sanitary condition of said premises, business establishment, or industry. No person shall place, deposit, or allow to be placed or deposited on his premises or on any public street, road, or alley any refuse or other objectionable waste, except in a manner described in these rules.

B. The owner, agent, or the occupant of any premises, business establishment, or industry shall be responsible for the storage and disposal of all refuse accumulated, by a method or methods described in these rules.

C. The collection and disposal of all refuse not acceptable for collection by a collection agency is the responsibility of each occupant, business establishment, or industry where such refuse accumulates, and all such refuse shall be stored, collected, and disposed of in a manner approved by the Department.

D. All dangerous materials and substances shall, where necessary, be rendered harmless prior to collection and disposal.

Historical Note

Section recodified from A.A.C. R18-8-503, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-304. Inspection

Representatives of the Department shall make such inspections of any premises, container, process, equipment, or vehicle used for collection, storage, transportation, disposal, or reclamation or refuse as are necessary to ensure compliance with these rules.

Historical Note

Section recodified from A.A.C. R18-8-504, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-305. Collection Required

A. Where refuse collection service is available, the following refuse shall be required to be collected: Garbage, ashes, rub-

bish, and small dead animals which do not exceed 75 pounds in weight.

B. The following refuse is not considered acceptable for collection but may be collected at the discretion of the collection agency where special facilities or equipment required for the collection and disposal of such wastes are provided:

1. Dangerous materials or substances, such as poisons, acids, caustics, infected materials, radioactive materials, and explosives.
2. Materials resulting from the repair, excavation, or construction of buildings and structures.
3. Solid wastes resulting from industrial processes.
4. Animals exceeding 75 pounds in weight, condemned animals, animals from a slaughterhouse, or other animals normally considered industrial waste.
5. Manure.

Historical Note

Section recodified from A.A.C. R18-8-505, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-306. Notices

A. All collection agencies shall provide each householder, or business establishment served, with a copy of the requirements governing the storage and collection of refuse which shall cover at least the following items:

1. Definitions.
2. Places to be served.
3. Places not to be served.
4. Scheduled day or days of collection.
5. Materials acceptable for collection.
6. Materials not acceptable for collection.
7. Preparation of refuse for collection.
8. Types and size of containers permitted.
9. Points from which collections will be made.
10. Necessary safeguards for collectors.

B. All such notices governing storage and collection shall conform to these rules.

Historical Note

Section recodified from A.A.C. R18-8-506, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-307. Storage

A. All refuse shall be stored in accordance with the requirements of this Section. The owner, agent, or occupant of every dwelling, business establishment, or other premises where refuse accumulates shall provide a sufficient number of suitable and approved containers for receiving and storing of refuse, and shall keep all refuse therein, except as otherwise provided by this Chapter.

B. Garbage shall be stored in durable, rust resistant, nonabsorbent, watertight, and easily cleanable containers, with close fitting covers and having adequate handles or bails to facilitate handling. The size of the container shall be determined by the collection agency.

C. Rubbish and ashes shall be stored in durable containers. Bulky rubbish such as tree trimmings, newspapers, weeds, and large cardboard boxes shall be handled as directed by the collection agency. Where garbage separation is not required, containers for the storage of mixed rubbish and garbage shall meet the requirements specified in subsection (B).

D. Containers for the storage of refuse shall be maintained in such a manner as to prevent the creation of a nuisance or a menace to public health. Containers that are broken or otherwise fail to meet the requirements of the rules shall be replaced, by the owner of said containers, with approved containers.

E. Manure and droppings shall be removed from pens, stables, yards, cages, conveyances, and other enclosures as often as necessary to prevent a health hazard or the creation of a nuisance. All material removed shall be handled and stored in a manner that will maintain the premises nuisance free.

Historical Note

Section recodified from A.A.C. R18-8-507, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-308. Frequency of Collection; Variance

A. The collection of garbage, refuse, rubbish, and ashes shall be in accordance with rules of the collection agency except that the frequency of collection shall not be less than once per week.

B. A variance from the required frequency of collection in subsection (A) may be granted by the county department designated by the county to approve variances to allow for collection less than once weekly. The variance may be granted upon submission of an acceptable plan by the collection agency to the designated county department demonstrating that no public health hazards or nuisances will exist and that fly breeding will be controlled by either biological, chemical, or mechanical means. The variance may be revoked whenever the designated county department determines that the circumstances warranting the variance no longer exist.

C. A county may request the Department of Environmental Quality to assume the functions of granting and revoking variances under this Section.

D. For the purposes of this Section, "collection agency" means a city, town, person, or commercial service that offers collection or transportation of garbage, refuse, rubbish, and ashes as a service.

Historical Note

Section recodified from A.A.C. R18-8-508, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Section amended by final rulemaking at 30 A.A.R. 3900 (December 27, 2024), effective February 4, 2025 (Supp. 24-4).

R18-13-309. Place of Collection

A. All refuse shall be properly placed on the premises for convenient collection as designated by the collection agency.

B. Where alleys are provided, collection shall be made on the alley side of the premises.

Historical Note

Section recodified from A.A.C. R18-8-509, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-310. Vehicles

A. Vehicles used for collection and transportation of garbage, or refuse containing garbage, shall have covered, watertight, metal bodies of easily cleanable construction, shall be cleaned frequently to prevent a nuisance or insect breeding, and shall be maintained in good repair.

B. Vehicles used for collection and transportation of refuse shall be loaded and moved in such a manner that the contents, including ashes, will not fall, leak, or spill therefrom. Where spillage does occur, it shall be picked up immediately by the collector and returned to the vehicle or container.

C. Vehicles used for collection and transportation of rubbish or manure shall be of such construction as to prevent leakage or spillage, and shall provide a cover to prevent blowing of materials or creating a nuisance.

Historical Note
Section recodified from A.A.C. R18-8-510, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-311. Disposal; General

A. All refuse shall be disposed of by a method or methods included in these rules and shall include rodent, insect, and nuisance control at the place or places of disposal. Approval must be obtained from the Department for all new disposal sites and may change in the method of disposal prior to use.

B. Carcasses of large dead animals shall be buried or cremated, unless satisfactory arrangements have been made for disposal by rendering or other approved methods.

C. All public "dumping grounds", provided in compliance with A.R.S. § 9-441, shall be maintained and operated in accordance with the requirements of these rules.

D. Manure shall be disposed of by sanitary landfill, composting, incineration, or used as fertilizer in such a manner as not to create insect breeding or a nuisance.

Historical Note
Section recodified from A.A.C. R18-8-511, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-312. Methods of Disposal

Approval must be obtained from the Department for any method or methods used for the disposal of refuse prior to the start of operations, and shall be accomplished by one or more of the methods listed below:

1. Sanitary landfill -- Consists of the disposal of refuse on land and the daily compaction and covering of the refuse with 6 to 12 inches of earth so as to prevent a health hazard or nuisance. The final compacted earth cover shall be a minimum of 2 feet in depth. Where sanitary landfill operations are proposed, the Department will require the following:
   a. The landfill shall be located so that seepage will not create a health hazard, nuisance, or cause pollution of any watercourse or water bearing strata.
   b. Adequate and proper surface drainage shall be provided to prevent ponding or erosion by rainwater of the finished fill.
   c. Provision shall be made for the control of insects, rodents, wind blown refuse, and accidental fire.
   d. Burning of refuse is prohibited.
   e. An all weather access road is required.
   f. Suitable equipment and operating personnel shall be provided.
   g. Salvaging, if permitted, shall be rigidly controlled.
   h. A variance from the daily compaction and covering requirement may be granted for sites serving less than 2,000 people by the Department of Environmental Quality upon submission of an acceptable plan approved by the local health department demonstrating that no public health hazards or nuisances will exist. The variance will allow for compaction and cover every two weeks at sites serving less than 500 people; weekly compaction and cover for sites serving from 500 to 1,000 people; and twice weekly compaction and cover for sites serving from 1,000 to 2,000 people. The variance may be revoked whenever the Department of Environmental Quality determines that the circumstances warranting the variance no longer exist.
2. Incineration -- Where incineration is to be employed, the plans and specifications, along with any other information necessary to evaluate the project, shall be submitted to the Department and approval received prior to construction. In addition, an approved method for the disposal of non-combustible refuse is required. Where incineration is proposed, the following items shall be provided.
   a. The capacity of the incinerator shall be sufficient for the maximum production of refuse expected.
   b. Noncombustible refuse shall be disposed of by methods approved by the Department.
   c. Skilled personnel to assure the proper operation and maintenance of the facilities in a nuisance-free manner.
3. Composting -- This method of disposal is acceptable to the Department under the following conditions:
   a. That plans and specifications and other information necessary to evaluate the project are submitted to the Department and approval received prior to start of construction.
   b. That provisions are made for the proper disposal of all refuse not considered suitable for composting.
   c. Skilled personnel shall be provided to assure the proper operation and maintenance of the facilities in a nuisance-free manner.
4. Garbage grinding -- This method, involving the separate collection and disposal of garbage into a community sewerage system through commercial type grinders or mandatory community-wide installation of individual household grinders, will be acceptable to the Department provided that suitable means shall be provided for the disposal of all remaining refuse.
5. Hog feeding -- This method of disposal will only be approved under the following conditions:
   a. The garbage is collected and stored in suitable containers.
   b. Only approved type vehicles are used for collection.
   c. All garbage is effectively heat-treated in accordance with Title 24, Chapter 7, Article 3 (A.R.S. §§ 24-941 through 24-949).
   d. All remaining refuse, including nonedible garbage, is collected and disposed of separately by methods approved by the Department.
6. Manure disposal -- Manure shall be disposed of by sanitary landfill, composting, incinerating, or used as a fertilizer in such a manner as not to create insect breeding or a nuisance.

Historical Note
Section recodified from A.A.C. R18-8-512, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 4. SOLID WASTE FACILITIES SUBJECT TO BEST MANAGEMENT PRACTICES

R18-13-401. Definitions

A. "Department" means the Arizona Department of Environmental Quality.

B. "Material recovery facility" means a transfer facility that collects, compacts, repackages, sorts, or processes commingled recyclable solid waste generated offsite for the purpose of recycling and transport, or where source separated recyclable solid waste is processed for sale to various markets, and where the incoming materials are predominantly recyclable solid waste.

C. "Recyclable solid waste" means a product or material described in subsection (C)(1) or (2), and for which subsection (C)(3) is true:

1. A product with no useful life remaining for the purposes for which it was produced, or if useful life remains, the product will not, due to location, quantity, or owner choice, remain in use or be reused for a purpose for which it was produced.
2. A material that is a result of a process or activity whose purpose was to produce something else.
3. The product or material retains some economic value, with or without further processing, as a raw material or feedstock in some process other than incineration or combustion.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-402. Solid Waste Facilities Subject to Best Management Practices; Fees

A. The following solid waste facilities subject to best management practices under A.R.S. § 49-762.02 shall register with the Department and pay registration fees as provided in this Section:

1. A transfer facility, as defined in A.R.S. § 49-701, with a daily throughput of 180 cubic yards or less, but not including:
   a. A material recovery facility where the incoming materials are primarily source separated recyclables; or
   b. Community or neighborhood recycling bins including drop boxes, roll off containers, and plastic containers used to collect residential, business, or governmental recyclable solid waste.
2. A site at which more than 500 and fewer than 5,000 waste tires are stored on any day that is not required to obtain plan approval pursuant to A.R.S. § 49-762.

B. Initial registration. A new solid waste facility listed in subsection (A) shall not begin operation until the owner or operator registers with the Department on a form approved by the Department. The owner or operator of a new solid waste facility listed in subsection (A) shall submit an initial registration fee of $1,800 at the time of registration under this subsection.

C. Annual registration fee. The Department shall bill an annual registration fee of $1,500 to a registered solid waste facility listed in subsection (A) that has not filed a notice of termination of registration with the Department. The owner or operator of a registered solid waste facility listed in subsection (A) shall pay the annual registration fee within 30 days of invoice receipt.

D. Registration as a waste tire collection site under R18-13-1211 shall satisfy registration and fee requirements pursuant to this Section for a site under subsection (A)(2) of this Section.

E. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (B) and (C) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (E)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 5. REQUIREMENTS FOR SOLID WASTE FACILITIES SUBJECT TO SELF-CERTIFICATION

R18-13-501. Solid Waste Facilities Requiring Self-Certification; Registration Fees

A. The following solid waste facilities requiring self-certification under A.R.S. § 49-762.01 shall register with the Department and pay annual registration fees as provided in this Section:

1. A transfer facility, as defined in A.R.S. § 49-701, with a daily throughput of more than 180 cubic yards, including a material recovery facility, but not including:
   a. A material recovery facility where the incoming materials are primarily source separated recyclables; or
   b. Community or neighborhood recycling bins including drop boxes, roll off containers, and plastic containers used to collect residential, business, or governmental recyclable solid waste.
2. A facility storing 5,000 or more waste tires on any one day and not required to obtain plan approval.
3. A waste tire shredding and processing facility.

B. Initial registration for a new facility. The owner or operator of a planned new facility identified in subsection (A) of this Section shall submit the following information to the Department before beginning construction:

1. The name of the solid waste facility.
2. The name, mailing address and telephone number of each owner and operator of the solid waste facility.
3. The physical location of the solid waste facility by physical address, latitude and longitude, or legal description. If none of these are practical, by driving directions from the nearest city or town.
4. A brief description of operations, including waste management methods, types and volumes of waste handled, waste storage and treatment equipment, and the length of time the waste remains onsite.
5. A diagram of the property showing its approximate size and the planned location of the solid waste facility or facilities.
6. Documentation that the facility will comply with local zoning laws or, if the owner is an agency or political subdivision of this state, with A.R.S. § 49-767.
7. Documentation that the facility has any other environmental permit that is required by statute.
8. A copy of the public notice in a newspaper of general circulation in the area where the facility will be located stat-

ing the intent to construct and operate a new solid waste facility pursuant to A.R.S. § 49-762.05.

C. Initial and annual registration for an existing facility. The owner or operator of an existing facility identified in subsection (A) of this Section shall submit the following information to the Department annually on a form approved by the Department and note any changes since the last registration:
1. The name of the solid waste facility.
2. The name, address and telephone number of each owner and operator of the solid waste facility.
3. The physical location of the solid waste facility by physical address, latitude and longitude, or legal description. If none of these are practical, by driving directions from the nearest city or town.
4. A brief description of operations, including waste management methods, types and volumes of waste handled, waste storage and treatment equipment, and the length of time the waste remains onsite.
5. A diagram of the property showing its approximate size and the location of the solid waste facility or facilities.
6. Documentation that the facility remains in compliance with the most current local zoning laws or with A.R.S. § 49-767, as applicable.
7. Documentation that the facility continues to hold any other environmental permit that is required by statute.

D. Self-certification. With each registration under subsection (B) or (C) of this Section, the owner or operator shall certify that the information submitted is true, accurate, and complete to the best of the person's knowledge and belief.

E. Registration fees. The owner or operator of a solid waste facility under subsection (A) shall pay the Department $3,600 for the initial registration of a new facility, and $3,000 for each annual registration thereafter. The Department shall bill the annual registration fee to a solid waste facility under subsection (A) that has not filed a notice of termination of registration with the Department and the solid waste facility shall pay within 30 days of invoice receipt.

F. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (E) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (F)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

G. As used in this Section:
1. "Department" means the Arizona Department of Environmental Quality.
2. "Material recovery facility" means a transfer facility that collects, compacts, repackages, sorts, or processes commingled recyclable solid waste generated offsite for the purpose of recycling and transport, or where source separated recyclable solid waste is processed for sale to various markets, and where the incoming materials are predominantly recyclable solid waste.
3. "Recyclable solid waste" means a product or material described in subsection (G)(3)(a) or (b), and for which subsection (G)(3)(c) is true:
   a. A product with no useful life remaining for the purposes for which it was produced, or if useful life remains, the product will not, due to location, quantity, or owner choice, remain in use or be reused for a purpose for which it was produced.
   b. A material that is a result of a process or activity whose purpose was to produce something else.
   c. The product or material retains some economic value, with or without further processing, as a raw material or feedstock in some process other than incineration or combustion.

Historical Note
New Section made by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 6. RESERVED

ARTICLE 7. SOLID WASTE FACILITY PLAN REVIEW FEES

R18-13-701. Definitions
In addition to the definitions provided in A.R.S. §§ 49-701, 49-701.01, and 49-851, and 18 A.A.C. 13, the following definitions apply in this Article:
1. "Aquifer Protection Permit" or "APP" means the permit that is required pursuant to A.R.S. § 49-241.
2. "MSWLF" means a municipal solid waste landfill as defined in A.R.S. § 49-701.
3. "Non-APP requirements for Non-MSWLFs" means 40 CFR 257 requirements and the restrictive covenant and location restrictions required in A.R.S. Title 49, Chapter 4.
4. "Non-MSWLF" means a landfill that is not a municipal solid waste landfill as defined in A.R.S. § 49-701.
5. "RD&D" means research, development, and demonstration.
6. "Review hours" means the hours or portions of hours that the Department's staff spends on a request for a plan review. Review hours include the time spent by the project manager and technical review team members, and if requested by the applicant, the supervisor or unit manager.
7. "Review-related costs" means any of the following costs applicable to a specific plan review:
   a. Presiding officer services for public hearings on a plan review decision,
   b. Court reporter services for public hearings on a plan review decision,
   c. Facility rentals for public hearings on a plan review decision,
   d. Charges for laboratory analyses performed during the plan review,
   e. Other reasonable and necessary review-related expenses documented in writing by the Department and agreed to by an applicant.
8. "Solid waste facility plan" means a plan or the individual components of a plan, such as the design, operational, closure, or post-closure plan, or the demonstration of financial responsibility as required by A.R.S. § 49-770,

submitted to the Department for review and plan approval.

Historical Note

Adopted effective July 1, 1996; filed in the Office of the Secretary of State December 1, 1995 (Supp. 95-4). Amended effective May 15, 1997 (Supp. 97-2). Amended by exempt rulemaking at 8 A.A.R. 3747, effective November 1, 2002 (Supp. 02-3). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2).

R18-13-702. Solid Waste Facility Plan Review Fees

A. With each application submitted for approval pursuant to A.R.S. § 49-762.03, the applicant shall remit an initial fee in accordance with one of the fee tables in this subsection, unless otherwise provided in subsection (B) of this Section. This subsection also lists the maximum fees that the Department will bill the applicant. All fees paid shall be payable to the state of Arizona. The Department shall deposit the fees paid into the Solid Waste Fee Fund established pursuant to A.R.S. § 49-881, unless otherwise authorized or required by law.

Fee Tables

Fees for Plan Review of New Solid Waste Facilities

	Initial	Maximum
Solid Waste Landfills	$20,000	$297,047
Non-APP requirements for Non-MSWLFs operating under an APP	$2,000	$74,262
Other Solid Waste Facilities Subject to Plan Approval	$10,000	$148,524

Fees for Modifications to Solid Waste Facility Plans

	Initial	Maximum
Solid Waste Landfills – Type IV	$1,500	$222,786
Solid Waste Landfills – Type III	$750	$111,393
Other Solid Waste Facilities Subject to Plan Approval - Type IV	$750	$111,393
Other Solid Waste Facilities Subject to Plan Approval - Type III	$500	$74,262

Fees for Review of Financial Responsibility Plans for Solid Waste Facilities

	Initial	Maximum
Annual Review for Solid Waste Landfills	$891 Flat Fee	N/A
Other Solid Waste Facilities	$200	$7,426

B. The Department shall bill an applicant for plan review services, subject to an hourly rate, no more than monthly, but at least semi-annually. The following information shall be included in each bill:

1. The dates of the billing period;
2. After January 1, 2013, the date and number of review hours performed during the billing period itemized by employee name, position type and specifically describing:
   a. Each review task performed,
   b. The facility and operational unit involved, and
   c. The hourly rate;
3. A description and amount of any other reasonable review-related cost; and
4. The total fees paid to date, the total fees due for the billing period, the date when the fees are due, and the maximum fee for the project.

C. Within 30 days after the Department makes a final determination whether to approve or disapprove of the facility plan, or when an applicant withdraws or closes the application for review, the Department shall prepare and issue a final itemized bill of its review. If the Department determines that the actual cost of reviewing the plan is less than the initial fee and any interim fees paid, the Department shall refund the difference to the applicant within 30 days after the issuance of the approval or disapproval of the application. If the Department determines that the actual cost of plan review is greater than the corresponding amount listed, the Department shall list the amount that the applicant owes on the final itemized bill, except that the final itemized bill shall not exceed the applicable maximum fee specified in subsection (A). The applicant shall pay in full the amount due within 30 days of receipt of the final itemized bill.

D. If the final bill is not paid within the 30 days, the Department shall mail a second notice to the applicant. Failure to pay the amount due within 60 days of receipt of the notice shall result in the Department initiation of proceedings for suspension of the approval, in accordance with A.R.S. § 49-782. The suspension shall continue until full payment is received at the Department. If full payment is not received at the Department within 365 days of the date of the approval, the approval shall be revoked in accordance with A.R.S. § 49-782. The Department shall not review any further plans for an entity which has not paid all fees due for a previous review of a solid waste facility plan.

F. The hourly rate is $181.

G. Beginning July 1, 2026, the Director shall adjust the fee amounts in the columns of the Fee Tables titled "Maximum", the annual review for solid waste landfills flat fee in the Fee Table - Fees for Review of Financial Responsibility Plans for Solid Waste Facilities, and the hourly rate amount in subsection (F) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (G)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

Adopted effective July 1, 1996; filed in the Office of the Secretary of State December 1, 1995 (Supp. 95-4). Corrected typographical error "facilities" in Schedules A, B, and C, to reflect Section filed in the Office of the Secretary of State December 1, 1995. Section amended effective May 15, 1997; except for special waste management plan component fees listed in Schedules A, B, and C, which become effective July 1, 1997 (Supp. 97-2). Amended by exempt rulemaking at 5 A.A.R. 3869, effective October 1, 1999 (Supp. 99-3). Amended by exempt rulemaking at 8 A.A.R. 3747, effective November 1, 2002 (Supp. 02-3). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January

24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-703. Review of Bill

A. An applicant who disagrees with the final bill received from the Department for plan review and issuance or denial of a solid waste facility plan approval under this Article may make a written request to the Director for a review of the bill and may pay the bill under protest. The request for review shall specify the matters in dispute and shall be received by the Department within 10 working days of the date of receipt of the final bill.

B. Unless the Department and applicant agree otherwise, the review shall take place within 30 days of receipt by the Department of the request. The Director shall make a final decision as to whether the time and costs billed are correct and reasonable. The final decision shall be mailed to the applicant within 10 working days after the date of the review and is subject to appeal pursuant to A.R.S. §§ 41-1092 through 1092.12.

Historical Note

Adopted effective July 1, 1996; filed in the Office of the Secretary of State December 1, 1995 (Supp. 95-4). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-704. Repealed

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 3747, effective November 1, 2002 (Supp. 02-3). Section repealed by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2).

R18-13-705. Repealed

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 3747, effective November 1, 2002 (Supp. 02-3). Section repealed by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2).

R18-13-706. Repealed

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 3747, effective November 1, 2002 (Supp. 02-3). Section repealed by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2).

ARTICLE 8. GENERAL PERMITS

R18-13-801. General Permit Fees

A. The Department shall assess annual fees for operation under a general permit established in rule as described in the Table below. Beginning July 1, 2026, the Director shall adjust the fee amounts in the Table below annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (A)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

B. In addition to the technical requirements proposed for any general permit to be included in this Article, the Department shall propose the category to be assigned to the permit according to the Table below.

C. An applicant shall pay the initial fee when approval to operate is requested. The Department shall bill an annual fee to facilities that have not notified the Department that they are no longer operating and have met the closure requirements of this Chapter.

D. For the purpose of this Article, "complex" has the meaning in A.A.C. R18-1-501. "Standard" is any facility that is not complex.

Table. Solid Waste General Permits

Category	Initial Fee	Annual Fee
Collection, Storage and Transfer-Standard	$1,114	$149
Collection, Storage and Transfer-Complex	$11,139	$1,485
Treatment-Standard	$1,485	$149
Treatment-Complex	$14,852	$1,485
Disposal	$22,279	N/A

Historical Note

New Section made by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-802. Disposal General Permit: Non-Municipal Solid Waste Landfills at Mining Operations

A. This general permit is adopted pursuant to A.R.S. § 49-706 as an alternative to plan approvals for facilities identified in A.R.S. § 49-762(A)(1). This general permit authorizes disposal of solid waste in a landfill at a mining operation if the landfill meets one of the following criteria:

1. The landfill is identified as a discharging facility in an area-wide aquifer protection permit and is located within the pollutant management area developed for that permit; or
2. The landfill is located within the pollutant management area of an area-wide aquifer protection permit but is exempt from the permit requirement because it contains only inert material as defined in A.R.S. § 49-201; or
3. The landfill is located at a site qualifying as a groundwater protection permit facility as defined in A.R.S. § 49-241.01(C) and the site has submitted an administratively complete application for an aquifer protection permit that has not been denied. Landfills that are located at mining operations and that are subject to best management practices under A.R.S. § 49-762.02(6) are required to comply with those practices and do not require coverage under this general permit.

B. Authorized and prohibited materials.

1. Disposal of the following is allowed under this general permit:
   a. Solid waste generated at the mining operation where the landfill is located; and
   b. Incidental amounts of putrescible waste generated at the mining operation where the landfill is located. For the purposes of this Section, "putrescible waste"

means solid waste which contains organic matter capable of being decomposed by microorganisms and of such a character and proportion as to be capable of attracting or providing food for birds.

2. Disposal of the following is prohibited under this general permit:
   a. Used oil as defined in A.R.S. § 49-801(3).
   b. Human excreta as defined in R18-13-1102.
   c. Special waste as defined in A.R.S. § 49-851(A)(5).
   d. Biohazardous medical waste as defined in R18-13-1401.
   e. Radioactive waste material regulated for disposal pursuant to Title 12, Chapter 1 of the Arizona Administrative Code.
   f. Hazardous waste as defined in A.R.S. § 49-921(5), including hazardous waste generated by a conditionally exempt small quantity generator.
   g. Bulk or noncontainerized liquid waste.
   h. Waste containing polychlorinated biphenyls regulated for disposal pursuant to 40 CFR 761.

C. A person may operate a landfill at a mining operation under this general permit if:
1. Operation of the landfill complies with the requirements of this Section;
2. The person files a Notice of Intent to Operate that complies with subsections (D) and (E);
3. The person satisfies any requests for additional information from the Department regarding the Notice of Intent to Operate landfill operation and receives a written Authorization to Operate from the Director; and
4. The person submits the applicable fee established in R18-13-801 for the Disposal category.

D. Notice of Intent to Operate. An applicant shall submit to the Department a Notice of Intent to Operate under this general permit. The Notice shall contain:
1. The name, address, and telephone number of the applicant;
2. The name, address, and telephone number of a contact person familiar with the operation of the facility;
3. The legal description of the landfill area, latitude and longitude coordinates, a detailed figure(s) showing both the existing landfill boundary and the anticipated future waste footprint of the landfill at the time of closure, and a map showing the location of the landfill within the mining operation;
4. A description of how the applicant will meet the public access restrictions in subsection (H)(3);
5. A description of how the applicant will meet the cover requirements in subsection (H)(4);
6. A description of how the applicant will meet the methane requirements in subsection (H)(5). For landfills that have accepted waste prior to the effective date of this Section only, the applicant shall include recent methane monitoring sampling results from either:
   a. One (1) measurement per acre of landfill waste footprint; or
   b. A minimum of four (4) monitoring probes installed to the depth of refuse around the perimeter of the landfill and measured quarterly for the presence of methane gas for a period of one (1) year;
7. A narrative description of the landfill, including whether the landfill is existing or planned, the acreage of the current and planned waste footprint, estimated disposal capacity in cubic yards, expected lifespan, projected rate of waste disposal in tons per day or per week, and sources of solid waste generation;
8. A listing of any other federal or state environmental permits issued for or needed by the landfill, including any individual plan approval, APP, Groundwater Quality Protection Permit, or Notice of Disposal; and
9. A signature on the Notice of Intent to Operate certifying that the applicant agrees to comply with all terms of this general permit.

E. Existing facility application deadline. Existing facilities that qualify for coverage under subsections (A)(1), (A)(2), or (A)(3) on the effective date of this rule shall submit a Notice of Intent to Operate within 2 years of the effective date of this rule to obtain coverage. The Director may extend this date in individual cases if the facility could not have submitted an administratively complete Notice in time with reasonable diligence.

F. Authorization review.
1. Inspection. The Department may inspect the facility to determine that the applicable terms of this general permit are being met.
2. Authority to Operate issuance.
   a. If the Department determines, based on its review and an inspection, if conducted, that the facility conforms to the requirements of this general permit, the Director shall issue an Authority to Operate.
   b. The Authority to Operate authorizes the person to operate the landfill under the terms of this general permit.
3. Authority to Operate denial. If the Department determines, based on its review and an inspection, if conducted, that the facility does not conform to the requirements of this general permit, the Director shall notify the person of the decision not to issue the Authority to Operate and the person shall not operate the landfill under this general permit. The notification shall inform the person of:
   a. The reason for the denial with reference to the statute or rule on which the denial is based;
   b. The person's right to appeal the denial, including the number of days the applicant has to file a protest challenging the denial and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
   c. The person's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

G. Statutory requirements. The landfill shall be:
1. Located according to the applicable location restrictions in A.R.S. § 49-772; and
2. Subject to a restrictive covenant recorded pursuant to A.R.S. § 49-771.

H. Operational requirements.
1. Inspect the landfill at least quarterly and after large storm events for overall integrity and condition of the facility, including stormwater diversions, and conduct maintenance and repairs as needed. For the purposes of this Section, a "large storm event" is defined as one-half inch of precipitation in any 24-hour period.
2. Direct storm water runoff from surrounding areas away from the landfill.
3. Restrict public access to the landfill or to the mining operation site by signs or physical barriers, including natural barriers.

4. Apply cover at such frequencies and in such a manner as to control windblown dispersion of waste, reduce the risk of fire and impede disease vectors' access to the waste, taking into account the types and volumes of waste placed in the landfill, the frequency of disposal, and other relevant considerations. The Department may allow other techniques that are demonstrated to be equally protective as applying cover material.
5. Concentrations of methane gas shall not exceed 25% of the lower explosive limit in facility structures within 100 feet of the landfill boundary and shall not exceed the lower explosive limit beyond the landfill boundary.
6. Methane monitoring.
   a. For landfills that have accepted waste prior to the effective date of this Section only, the applicant shall include recent methane monitoring data as described in subsection (D)(6) with the Notice of Intent to Operate.
      i. If the data demonstrate that concentrations of methane gas do not exceed 25% of the lower explosive limit, then no methane monitoring is required in order to operate under this permit.
      ii. If the data demonstrate that concentrations of methane gas exceed 25% of the lower explosive limit, then annual methane monitoring using one of the data gathering methods described in subsection (D)(6) is required in order to operate under this permit. Results of such annual methane monitoring shall be submitted to the Department.
         (1) A person operating a landfill subject to annual methane monitoring may reduce monitoring to once every five years if the results of three consecutive annual sampling events demonstrate that concentrations of methane gas do not exceed 25% of the lower explosive limit.
         (2) A person operating a landfill subject to annual methane monitoring may request the Department to reduce or eliminate such monitoring based on any other methods approved by the Department, including consideration of the potential for methane gas to be present in facility structures within 100 feet of the landfill boundary at concentrations exceeding 25% of the lower explosive limit.
   b. For landfills that have not accepted waste prior to the effective date of this Section, no methane monitoring is required in order to obtain coverage or operate under this permit.
7. Maintain an operating record that documents compliance with the conditions in this permit.

I. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Landfill construction drawings and as-built plans, if available;
2. The operating record required by subsection (H)(7); and
3. Methane monitoring results, if any, obtained under subsection (H)(6).

J. Reporting requirements. A permittee shall report the following to the Department:
1. Methane monitoring concentrations that exceed those listed in subsection (H)(5) within 7 days of the determination.
2. A change in ownership or expansion of the planned waste footprint as soon as practicable. These events shall require the filing of a new Notice of Intent to Operate.

K. General applicability. Landfills covered under this general permit:
1. Are not subject to rules adopted by the Department under A.R.S. § 49-761.
2. Are exempt from the solid waste facility plan requirements in A.R.S. §§ 49-762.03 and 49-762.04 as provided in A.R.S. § 49-762(B).

L. For the purposes of this Section, "mining" has the definition at A.R.S. § 27-301.

Historical Note
New Section made by final rulemaking at 20 A.A.R. 2679, effective November 9, 2014 (Supp. 14-3).

ARTICLE 9. SOLID WASTE MANAGEMENT PLANNING

R18-13-901. Reserved

R18-13-902. Expired

Historical Note
Section recodified from A.A.C. R18-8-402, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Section expired under A.R.S. § 41-1056(J) at 22 A.A.R. 2983, effective September 15, 2016 (Supp. 16-3).

ARTICLE 10. RESERVED

ARTICLE 11. COLLECTION, TRANSPORTATION, AND DISPOSAL OF HUMAN EXCRETA

Article 11 recodified from existing Sections in 18 A.A.C. 8, Article 6 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-13-1101. Reserved

R18-13-1102. Definitions

A. "Chemical toilet" means a toilet with a watertight, impervious pail or tank that contains a chemical solution placed directly under the seat and a pipe or conduit that connects the riser to the tank.

B. "Department" means the Department of Environmental Quality or a local health department designated by the Department.

C. "Earth-pit privy" means a device for disposal of human excreta in a pit in the earth.

D. "Human excreta" means human fecal and urinary discharges and includes any waste that contains this material.

E. "License" means a stamp, seal, or numbered certificate issued by the Department.

F. "Pail or can type privy" means a privy equipped with a watertight container, located directly under the seat for receiving deposits of human excreta, that provides for removal of a waste receptacle that can be emptied and cleaned.

G. "Person" means the state, a municipality, district or other political subdivision, a cooperative, institution, corporation, company, firm, partnership, or individual.

H. "Sewage" means the waste from toilets, baths, sinks, lavatories, laundries, and other plumbing fixtures in residences, institutions, public and business buildings, mobile homes, and other places of human habitation, employment, or recreation.

Historical Note
Recodified from R18-8-602 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1103. General Requirements; License Fees

A. Any person owning or operating a vehicle or appurtenant equipment used to store, collect, transport, or dispose of sewage or human excreta that is removed from a septic tank or other onsite wastewater treatment facility; earth pit privy, pail or can type privy, or other type of privy; sewage vault; or fixed or transportable chemical toilet shall obtain a license for each vehicle from the Department. The person shall apply on a form approved by the Department and shall demonstrate that each vehicle is designed and constructed to meet the requirements of this Article.

B. A person shall operate and maintain the vehicle and equipment so that a health hazard, environmental nuisance, or violation of a water quality standard established under 18 A.A.C. 11 is not created.

C. License terms.

1. For each newly licensed vehicle:
   a. Subject to inspection conducted by the Department pursuant to this Article, the initial license fee shall be $660, to be submitted with the license application, and the annual license fee shall be $550; or
   b. Subject to inspection conducted by a county pursuant to a delegation agreement with the Department, the initial license fee shall be $270, to be submitted with the license application, and the annual license fee shall be $225.
2. After initial licensure of a vehicle, the Department will renew the license annually after payment of the annual fee according to subsection (C)(3). The licensee shall renew by completing a renewal form approved by the Department and submitting the annual license fee to the Department no later than 30 days before expiration.
3. Each vehicle license may be renewed if:
   a. The annual license fee is paid,
   b. The owner or operator is in compliance with subsection (D) of this Section,
   c. The vehicle is operated by the same person for the same purpose,
   d. The vehicle has been inspected within the last 12 months pursuant to any inspection required under this Article and found in compliance with this Article, and
   e. The vehicle is maintained according to this Article.

D. Any person owning or operating a vehicle or appurtenant equipment used to collect, store, transport, or dispose of sewage or human excreta shall obtain any required permit from the local county authority in each county in which the person proposes to operate.

E. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (C) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (E)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

R18-13-1112. Sanitary Requirements

A. A person owning or operating a vehicle or appurtenant equipment to collect, store, transport, or dispose of sewage or human excreta shall ensure that:

1. Sewage and human excreta is collected, stored, transported, and disposed of in a sanitary manner and does not endanger the public health or create an environmental nuisance;
2. The vehicle is equipped with a leak-proof and fly-tight container that has a capacity of at least 750 gallons and all portable containers, pumps, hoses, tools, and other implements are stored within a covered and fly-tight enclosure when not in use;
3. Contents intended for removal are transferred as quickly as possible by means of a portable fly-tight container or suction pump and hose to the transportation container.

4. The transportation container is tightly closed and made fly-tight immediately after the contents have been transferred,
5. Portable containers are kept fly-tight while being transported to and from the vehicle,
6. Any waste dropped or spilled in the process of collection is cleaned up immediately and the area disinfected;
7. The vehicle, tools, and equipment are maintained in good repair at all times and, at the end of each day's work, all portable containers, transportation containers, suction pumps, hose, and other tools are cleaned and disinfected; and
8. All wastes collected are disposed of according to the recommendations of the local county health department and that no change in the recommended method of disposal is made without its prior approval. The local county health department shall recommend disposal by one of the following methods:
   a. At a designated point into a sewage treatment facility or sewage collection system with the approval of the owner or operator of the facility or system,
   b. By burying all wastes from chemical toilets in an area approved by the local county health department, or
   c. Into a sanitary landfill with approval of the owner or operator of the landfill and following any precautions designated by the owner and operator to protect the health of the workers and the public.

B. Open dumping is prohibited except in designated areas approved by the local county health department.

Historical Note
Recodified from R18-8-612 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1113. Repealed

Historical Note
Recodified from R18-8-613 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Section repealed by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1114. Repealed

Historical Note
Recodified from R18-8-614 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Section repealed by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1115. Repealed

Historical Note
Recodified from R18-8-615 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Section repealed by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1116. Suspension and Revocation

A. If a Department inspection indicates that a licensed vehicle is not maintained and operated or work cannot be performed according to this Article, the Department shall notify the owner in writing of all violations noted.

B. The Department shall give the owner a reasonable period of time to correct the violations and comply with the provisions of this Article. If the owner fails to comply within the time limit specified, the Department may suspend or revoke the vehicle license based on the number and severity of violations. The Department shall follow the provisions of A.R.S. Title 41, Chapter, Article 10 in any suspension or revocation proceeding.

C. The Department shall consider the revocation or suspension of a permit by a local health department for violation of this Article as grounds for revocation of the vehicle license. The local health department shall immediately suspend both the vehicle license and the permit issued by the local health department for gross violation of this Article if in the opinion of the local health department a serious health hazard or environmental nuisance exists.

D. The owner of the vehicle whose license is suspended or revoked may appeal the final administrative decision as permitted under A.R.S. § 41-1092.08.

Historical Note
Recodified from R18-8-616 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final rulemaking at 9 A.A.R. 1356, effective June 7, 2003 (Supp. 03-2).

R18-13-1117. Reinstatement

A. Upon request of the vehicle owner, the Department may reinstate a suspended or revoked vehicle license following a Department reinspection and based on an evaluation of compliance with the requirements of this Article.

B. Upon request of a vehicle owner that fails to complete a renewal form approved by the Department and submit the annual license fee to the Department no later than 30 days before expiration, the Department may reinstate an expired vehicle license after completion of a renewal form, submitting the appropriate annual license fee, and following a Department determination of compliance with the requirements of this Article.

ARTICLE 12. WASTE TIRES; USED TIRES

R18-13-1201. Definitions

In addition to the definitions provided in A.R.S. § 44-1301, the following definitions apply in this Article:

1. "Aquifer protection permit" means an authorization issued by the Department under A.R.S. § 49-241 et seq.
2. "Burial cell" means an area where mining waste tires are placed in or on the land for burial.
3. "Mining" means activities dedicated to the exploration, extraction, beneficiation, and processing, including smelting and refining, of metallic ores.
4. "Mining facility" means any land, building, installation, structure, equipment, device, conveyance, or area dedicated to mining.
5. "Mining waste tire" means an off-road tire that is greater than three feet in outside diameter that was used in mining.
6. "Operator" means an owner, part owner, management agency, or lessee of a mining facility, a person responsible for the overall operation or control of a mining facility, or an authorized representative of the operator.
7. "Person" is defined in A.R.S. § 49-201.
8. "Waste tire collection site" is defined in A.R.S. § 44-1301.
9. "Waste tire cover" means waste tires that are chopped or shredded into pieces that do not exceed four inches in diameter used for cover at a solid waste landfill.

Historical Note

Section recodified from A.A.C. R18-8-701, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final rulemaking at 7 A.A.R. 5695, effective November 27, 2001 (Supp. 01-4). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1202. Burial of Mining Waste Tires

A. The operator shall file with the Director a one-time notice within 24 hours after commencement of burial of mining waste tires consisting of a map of the mining facility that clearly identifies the locations and dimensions of each burial cell and the estimated number of mining waste tires that will be buried in each cell. The operator shall identify each burial cell using an alphabetical or numeric identifier. If a mining facility uses a new burial cell not included in the commencement of burial notice, the operator shall notify the Department within 24 hours after commencement of burial in that cell.

B. An operator shall only permit burial of mining waste tires in areas that are, or will be, included in an aquifer protection permit issued for the mining facility. An operator shall not permit burial of mining waste tires in leach areas unless prior to burial the Department issues an aquifer protection permit covering the leach area.

C. An operator shall not permit a burial cell to be located within 10 feet of another burial cell.

D. An operator shall not permit the burial of mining waste tires unless the tires are waste generated at the mining facility or another mining facility of the same owner.

Historical Note

Section recodified from A.A.C. R18-8-702, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final rulemaking at 7 A.A.R. 5695, effective November 27, 2001 (Supp. 01-4).

R18-13-1203. Cover Requirements

A. The operator shall cover all mining industry off-road motor vehicle waste tires buried pursuant to this Article with a minimum of 6 inches of earthen material within 50 days of placement, or sooner if necessary, to prevent vector breeding or fire.

B. The operator shall place final cover over the off-road motor vehicle waste tires within 180 days after placement of the last tire which will be buried in a cell. The final cover shall consist of earthen material which is at least 3 feet deep or which complies with the requirements of the aquifer protection permit for the area where the burial cell is located.

C. The operator shall maintain final cover in compliance with this Section for as long as the mining industry off-road motor vehicle waste tires remain in the burial cell.

Historical Note

Section recodified from A.A.C. R18-8-703, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1204. Annual Report

By March 30 of each year, until a burial cell closure certification is filed with the Department, the operator of the mining facility shall file an annual report with the Director which documents the location of each burial cell established during the preceding calendar year, the alphabetical or numerical identifier of each burial cell, and the number of off-road motor vehicle waste tires which were placed in each burial cell for burial during the preceding calendar year. If no tires were placed in the burial cell for burial during the preceding year, the annual report shall so indicate.

Historical Note

Section recodified from A.A.C. R18-8-704, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1205. Burial Cell Closure Certification

An operator shall file with the Director a burial cell closure certification within 30 days after placing final cover over the mining waste tires under R18-13-1203(B). The certificate shall contain a statement by the operator that no additional tires will be buried in the burial cell and a statement by an Arizona registered engineer certifying that the cover requirements of R18-13-1203 have been met.

Historical Note

Section recodified from A.A.C. R18-8-705, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final rulemaking at 7 A.A.R. 5695, effective November 27, 2001 (Supp. 01-4).

R18-13-1206. Storage

At no time shall more than 500 mining industry off-road motor vehicle waste tires be stored at the mining facility outside of a burial cell unless the mining facility has Department approval to operate a waste tire collection facility, pursuant to A.R.S. §§ 44-1304 and 49-762.

Historical Note

Section recodified from A.A.C. R18-8-706, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1207. Maintenance of Records

For at least three years after the burial cell closure certification is filed with the Department, the mining facility operator shall maintain, at the mining facility, records which document the number of tires buried in each cell.

Historical Note
Section recodified from A.A.C. R18-8-707, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1208. Inspections
The Department may inspect a mining facility, during regular operating hours, to determine whether mining industry off-road motor vehicle waste tire burial is in compliance with this Article.

Historical Note
Section recodified from A.A.C. R18-8-708, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1209. Repealed

Historical Note
Section recodified from A.A.C. R18-8-709, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Section repealed by final rulemaking at 7 A.A.R. 5695, effective November 27, 2001 (Supp. 01-4).

R18-13-1210. Waste Tire Cover
Waste tires used as cover at a solid waste landfill shall be used according to the solid waste facility plan required by A.R.S. § 49-762. An operator shall not permit mining waste tires to be used as cover at a solid waste landfill for more than two consecutive days at a time.

Historical Note
Section recodified from A.A.C. R18-8-710, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final rulemaking at 7 A.A.R. 5695, effective November 27, 2001 (Supp. 01-4).

R18-13-1211. Registration of New Waste Tire Collection Sites; Fee
A. A new waste tire collection site shall not begin operation until the owner or operator registers with the Department. The owner or operator shall register on a form approved by the Department that includes a statement that the site is in compliance with A.R.S. § 49-762.07(F) and A.R.S. Title 44, Chapter 9, Article 8, as applicable. The owner or operator of a new waste tire collection site shall pay an initial registration fee of $2,400 within 30 days of invoice receipt.
B. The owner or operator shall pay a $2,000 registration fee annually thereafter within 30 days of invoice receipt.
C. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A) and (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (C)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note
New Section made by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1212. Registration of Outdoor Used Tire Sites; Fee
A. A person shall not store 100 or more used tires outdoors until the person registers with the Department. A person that stores 100 or more used tires outdoors shall pay an initial registration fee of $1,800 within 30 days of invoice receipt. The person shall register on a form approved by the Department that includes a statement that the site is in compliance with A.R.S. § 49-762.07(F) and A.R.S. Title 44, Chapter 9, Article 8, as applicable.
B. A $1,500 registration fee shall be paid annually thereafter within 30 days of invoice receipt.
C. For the purposes of this Section:
1. "Used tire" means any tire which has been used for more than one day on a motor vehicle.
2. "Outdoors" means other than inside a building with a weatherproof roof.
D. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A) and (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (D)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note
New Section made by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1212.01. Waste Tire Collection Site Subject to Plan Approval; Fees
A. Initial registration. A waste tire collection site that is required to obtain plan approval under A.R.S. § 49-762(A)(7) shall not begin operation until the owner or operator registers with the Department on a form approved by the Department.
B. Annual registration fee. The Department shall bill an annual registration fee of $5,000 to a registered waste tire collection site that is required to obtain plan approval under A.R.S. § 49-762(A)(7) that has not filed a notice of termination of registration with the Department. The owner or operator of the waste tire collection site that is required to obtain plan approval under A.R.S. § 49-762(A)(7) shall pay the annual registration fee within 30 days of invoice receipt.
C. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (B) of this Section annually by the fol-

lowing method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (C)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1213. Facilities Subject to More Than One Tire Site Registration; Single Fee

A person who is required to register a tire facility under more than one of the Sections listed in subsections (1) through (4) shall register and follow procedures under each Section, but is only required to pay the registration fees under the Section with the highest fees.

1. R18-13-1211.
2. R18-13-1212.
3. R18-13-1212.01.
4. R18-13-501.

Historical Note

New Section made by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 13. SPECIAL WASTE AND BEST MANAGEMENT PRACTICES FOR SHREDDER RESIDUE

R18-13-1301. Definitions

In addition to the terms prescribed in A.R.S. § 49-851, the terms in this Article shall have the following meanings:

1. "Disposal" means discharging, depositing, injecting, dumping, spilling, leaking, or placing special waste into or on land or water so that the special waste or any constituent of the special waste may enter the environment, be emitted into the air, or discharged into any waters, including groundwater.
2. "Exception report" means a report that a generator shall submit to the Director which notifies the Director that the generator has not received a copy of the special waste manifest from the primary or alternate special waste receiving facility to which the special waste was sent pursuant to the generator's instructions on the special waste manifest, or from any special waste receiving facility to which special waste was sent.
3. "Generator" means a person whose act or process onsite produces a special waste listed in, or designated pursuant to, A.R.S. §§ 49-852, 49-854, and 49-855, or whose act or process first causes such special waste to be subject to regulation.
4. "Identification number" means an alphanumeric identifier issued by the Department to each generator, special shipper, and special waste receiving facility to be used on documents, as required pursuant to this Article, in conjunction with shipment of special waste.
5. "Off-site consignment" means a generator's delivery of materials or wastes for transport off-site to a special waste receiving facility within Arizona for treatment, storage, recycling, or disposal.
6. "Off-site" means any property located within Arizona that is not onsite as defined in A.R.S. § 49-851(3).
7. "Operator" means a person who owns and controls all or part of a special waste receiving facility, or who leases, operates, or controls such facility, a person responsible for the overall operation of such a facility, a management agency, or an authorized representative.
8. "Recycling" means recycling as defined in A.R.S. § 49-831(21).
9. "Shredder residue" means waste from the shredding of motor vehicles.
10. "Significant manifest discrepancy" means a difference of more than 10% by weight for bulk shipments, any variation in a piece count for a batch delivery, or any difference in the type of special waste received as compared to the type of special waste listed on the manifest.
11. "Special waste receiving facility" means an off-site location to which special waste is sent to be treated, recycled, stored, or disposed.
12. "Special waste manifest" means a form provided by the Department, shown as Appendix B to this Article, and used to identify the origin, quantity, composition, routing, and destination of special waste during its transportation from a generator's facility to a special waste receiving facility.
13. "Special waste shipper" means a person who transports special waste for off-site treatment, recycling, storage, or disposal.
14. "Treatment" means any method, technique, or process designed to change the physical, chemical, or biological character or composition of special waste.

Historical Note

Section recodified from A.A.C. R18-8-301, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1302. Special Waste Generator Manifesting Requirements

A. A generator shall request a generator identification number on a form provided by the Director, and shown as Appendix A to this Article, prior to shipping special waste. Within 30 days of receiving the completed form, the Director shall issue the identification number to the generator.

B. Prior to off-site consignment of special waste, the generator shall do all of the following:

1. Complete and sign the "Generator" section of a special waste manifest.
2. Obtain the handwritten signature of the special waste shipper on the special waste manifest.
3. Retain the generator's copy of the special waste manifest.
4. Give the special waste manifest and the remaining attached copies to the special waste shipper or forward it to the receiving facility.

C. Within 14 days after shipment was accepted by a special waste shipper for off-site consignment, the generator shall submit to the Director one legible copy of each special waste manifest with the generator's section completed and containing signatures of the generator and special waste shipper.

D. If, within 35 days after the date the waste was accepted by the initial special waste shipper, the generator does not receive a completed copy of this special waste manifest with the handwritten signature of the special waste receiving facility operator, the generator shall contact the special waste shipper and the special waste receiving facility operator to determine the status of the special waste.

E. The generator shall submit an exception report to the Director if the generator does not receive a completed, signed, legible copy of the special waste manifest within 45 days of the date the waste was accepted by the initial special waste shipper for off-site consignment. The exception report shall contain both of the following:
1. A cover letter, signed by the generator, which explains the efforts made to locate the special waste and the results of those efforts.
2. A legible copy of the special waste manifest which was signed by the generator and the special waste shipper and retained by the generator.

F. The generator shall retain a legible copy of each signed special waste manifest for at least three years from the date of acceptance of a shipment of special waste for off-site consignment.

G. If a person is required to have a manifest, shipping paper or shipping record under federal law for the special waste, the federal manifest, shipping paper, or shipping record may be used in lieu of the Arizona special waste manifest form so long as the federal manifest, shipping paper, or shipping record includes all the information required on the Arizona special waste manifest form.

Historical Note
Section recodified from A.A.C. R18-8-302, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1303. Special Waste Shipper Manifesting Requirements

A. A special waste shipper who receives special waste in Arizona for transport to a special waste receiving facility in Arizona shall request a special waste shipper identification number on a form provided by the Director and shown as Appendix A to this Article. The Director shall issue an identification number within 30 days of receipt of the completed form.

B. A special waste shipper shall:
1. Accept special waste for intrastate shipment to a special waste receiving facility only if the waste is accompanied by a special waste manifest which is completed and signed in accordance with the provisions of R18-13-1302.
2. Deliver the entire shipment of special waste to a special waste receiving facility as designated on the special waste manifest. If unable to deliver the special waste to the primary or alternate special waste receiving facility designated on the special waste manifest:
   a. Return the special waste to the generator, or
   b. Contact the generator and obtain instructions for an alternate special waste receiving facility and deliver the waste accordingly.

C. Shipments of special waste between facilities owned by the same generator shall be exempt from the requirements of rules adopted pursuant to A.R.S. § 49-856.

Historical Note
Section recodified from A.A.C. R18-8-303, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1304. Special Waste Receiving Facility Manifesting Requirements

A. A special waste receiving facility shall request an identification number on a form provided by the Director, and shown as Appendix A to this Article, and obtain the number prior to receiving special waste. The Department shall issue the identification number within 30 days of receipt of the completed form.

B. A special waste receiving facility shall receive only special waste for which it has a special waste manifest signed and dated by the generator and special waste shipper. In the "Facility" section of the special waste manifest, the operator of the special waste receiving facility shall do all of the following:
1. Enter the identification number.
2. Sign and date each copy of a special waste manifest to certify that the type and amount of special waste, as stated on the special waste manifest, was received.
3. Indicate on the special waste manifest any significant discrepancies between the description, volume, or weight of the special waste as stated on the special waste manifest and the special waste received.

C. After completing the "Facility" portion of the special waste manifest, the operator of the special waste receiving facility shall send one legible copy each of the signed special waste manifest to the Director and the generator within 30 days of the delivery of the special waste.

D. Upon discovery of a significant manifest discrepancy in the special waste manifest and the special waste received, the operator of the special waste receiving facility shall:
1. Contact the generator and special waste shipper to attempt to reconcile the discrepancy.
2. If the discrepancy cannot be resolved within 15 days after receiving the waste, submit a letter to the Director, along with the special waste manifest within five days. The letter shall describe the significant manifest discrepancy and all attempts to reconcile it.

Historical Note
Section recodified from A.A.C. R18-8-304, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1305. Records

All records required by this Article shall be retained for at least three years. If notification of an enforcement action by the Department has been received, the records shall be retained until a final determination has been made in the matter or in accordance with the final determination.

Historical Note
Section recodified from A.A.C. R18-8-305, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-13-1306. Fees

A. Initial registration fee. Upon making a request for a special waste identification number on a form as provided by the Director, and shown as Appendix A to this Article, an appli-

cant shall submit to the Department an initial registration fee for each operation as follows:

1. For a generator of shredder residue, $3,600; and
2. For a special waste shipper, $1,800.

B. Annual registration fee. The Department shall bill an annual registration to a generator of shredder residue, a special waste receiving facility, and a special waste shipper that has a special waste identification number that has not filed a notice of termination of registration with the Department for each operation as follows:

1. For a generator of shredder residue, $3,000;
2. For a special waste receiving facility, $5,000; and
3. For a special waste shipper, $1,500.

C. A generator of shredder residue, special waste receiving facility, or special waste shipper shall pay the annual registration fee within 30 days of invoice receipt.

D. In accordance with A.R.S. § 49-855(G), a solid waste landfill that pays registration fees under A.R.S. § 49-747 is exempt from the fees under subsections (A) and (B) of this Section.

E. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A) and (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (E)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1307. Best Management Practices for Waste from Shredding Motor Vehicles; Fees

A. A generator of shredder residue shall follow sampling protocol as follows or submit to the Department for review and approval, at least two weeks prior to the sampling event, an alternative written sampling plan which is consistent with requirements set forth in "Test Methods for Evaluating Solid Waste," EPA SW-846, 3rd Edition, Volume II, Chapter Nine, Sampling Plan, Physical/Chemical Method, EPA, Office of Solid Waste and Emergency Response, Washington, D.C., September 1986, and updated November 1990, and no future editions or amendments, ("EPA Sampling Plan"), herein incorporated by reference and on file with the Department and the Office of the Secretary of State:

1. Sample collection shall be done in accordance with one of the following:
   a. Sampling procedure 1, consisting of both of the following steps:
      i. The generator shall collect samples from a shredder residue sampling pile which shall consist of the average amount of shredder residue from eight hours of operation of the shredder. The shredder residue sampling pile shall be formed into a square shape for sampling purposes. Refer to Exhibit 1.
      ii. One 2,000-gram sample shall be collected from each sample point as indicated in Exhibit 1. Samples from sample points A-1, B-1, and C-1 shall be collected from the top of the pile. Samples from sample points A-2, B-2, and C-2 shall be collected from the base of the pile. A sample from sample point C-3 shall be collected at the vertical midpoint at the center of the pile. The seven 2,000-gram samples shall be numbered consecutively. Three of the seven 2,000-gram samples shall then be chosen at random by selecting numbers from a calculator programmed to generate random numbers. The samples shall be analyzed for the constituents and at the frequencies listed in Table A of this Section.
   b. Sampling procedure 2, consisting of both of the following steps:
      i. The generator shall collect seven 2,000-gram samples during or immediately following the normal generation of shredder residue. For each sample, shredder residue shall be collected for 8 to 12 minutes, during which a minimum of 500 pounds shall be generated. This process shall be performed seven times to create seven 500-pound amounts. Each 500-pound amount shall be formed into a square shape for sampling purposes. Refer to Exhibit 1.
      ii. Twenty 100-gram samples shall be collected from throughout each of the seven 500-pound piles generated. Upon completion of collection, all 20 samples from each of the seven 500-pound piles shall be combined together into seven separate 2,000-gram samples and numbered consecutively. Three of the seven 2,000-gram samples shall then be chosen at random by selecting numbers from a calculator programmed to generate random numbers. The samples shall be analyzed for the constituents and at the frequencies listed in Table A of this Section.
2. Each 2,000 grams of shredder residue collected shall include both large and small particles, in proportion to shredder residue generated. The generator shall use a container which is large enough to hold the entire amount of shredder residue collected from each sample point.
3. The generator shall comply with requirements for sample preservation, temperature, and holding times, as set forth in the EPA Sampling Plan.
4. Each one of the three 2,000-gram samples selected at random shall be divided into four equal 500-gram portions and a 200-gram subsample shall be taken from each of the four equal 500-gram portions. Each subsample shall then be passed through a 9.5mm screen. All particles which do not pass through the 9.5mm screen shall be hand cut until small enough to pass through the screen. All four 200-gram subsamples shall then be remixed together and redivided into four equal 200-gram portions. The following amounts shall be taken for constituent sampling:
   a. 10-15 grams per 200-gram subsample for a total of 40-60 grams per 2,000-gram sample for Polychlori-

nated Biphenyls (PCB) analysis as set forth in subsection (A)(10).
b. 25 grams per 200-gram subsample for a total of 100 grams per sample for toxicity characteristic leaching procedure extractions for contaminants as set forth in 40 CFR 261.24, Table 1 (incorporated by reference in R18-8-261(A)), as set forth in subsection (A)(7).
c. 1.25 grams per 200-gram subsample for a total of 5 grams per 2,000-gram sample for extraction fluid determination.

5. Each constituent sample shall be put into a container. Container labeling and chain-of-custody documentation shall be consistent with the requirements in the EPA Sampling Plan.
6. The constituent samples shall be analyzed by a laboratory licensed by the Arizona Department of Health Services in accordance with A.R.S. § 36-495.
7. Of the three samples selected at random, one sample amount required by subsection (A)(4)(b) shall be analyzed for the extractable heavy metals arsenic, barium, cadmium, chromium, lead, mercury, selenium, and silver, as set forth in 40 CFR 261.24, Table 1. The remaining two samples shall each be analyzed for extractable cadmium and lead.
8. If the results of all three of the analyses for any extractable heavy metal in subsection (A)(7) are below the Regulatory Level of the Maximum Concentration of Contaminants for the Toxicity Characteristic as set forth in 40 CFR 261.24, Table 1, the simple arithmetic mean of the extractable cadmium and lead and the single analysis for the remaining six extractable heavy metals shall be used to determine if the sampled shredder residue will be classified as hazardous waste.
9. If the analyses of any one of three selected samples exceeds the regulatory level as set forth in 40 CFR 261.24, Table 1, an additional subsample from the sample in question shall be subjected to confirmation analysis. If the confirmation sample analysis totals are in excess of the regulatory level as set forth in 40 CFR 261.24, Table 1, the remaining four of the original seven samples shall be analyzed for those extractable heavy metals which exceed the regulatory level as set forth in 40 CFR 261.24, Table 1. The simple arithmetic mean of the results of all seven samples shall be used to determine if the sampled shredder residue will be classified as hazardous waste.
10. The three samples selected at random shall be analyzed for PCB concentration in the amounts required by subsection (A)(4)(a). If the samples contain concentrations of PCB less than 50 mg/kg, the simple arithmetic mean of the three samples shall be used for reporting to the Director. If any one of the three samples contains concentrations of PCB greater than 50 mg/kg, an additional subsample from the sample in question shall be subjected to confirmation analysis. If the PCB concentration for that sample exceeds 50 mg/kg, the remaining four of the original seven samples shall be analyzed for PCB, in amounts required by subsection (A)(4)(a), and the simple arithmetic mean of all the samples shall be used to determine if the sampled shredder residue will be classified as hazardous waste.

B. Shredder residue determined to be hazardous waste shall be managed in accordance with A.R.S. § 49-921 et seq. and R18-8-260 et seq.

C. The generator shall do all of the following:
1. Secure the facility to prevent unauthorized entry;
2. Cover or otherwise manage the shredder residue pile to prevent wind dispersal;
3. Place the shredder residue pile on a surface with a permeability coefficient equal to or less than 1×10^{-7} cm/s;
4. Design, construct, operate, and maintain a run-on control system capable of preventing flow onto the waste pile during peak discharge from, at a minimum, a 25-year storm;
5. Design, construct, operate, and maintain a run-off management system to collect and control at a minimum, the water volume resulting from a 24-hour, 25-year storm;
6. Provide collection and holding facilities for run-on and run-off control systems, which shall have a permeability coefficient equal to or less than 1×10^{-7} cm/s;
7. Record the date accumulation of shredder residue begins.

D. Shredder residue shall be treated, recycled, sorted, stored, or disposed at a Department-approved special waste facility approved in accordance with A.R.S. § 49-857. A facility which seeks to become a special waste facility shall submit a special waste management plan to the Department to ensure compliance with subsection (C).

E. A generator shall not store shredder residue for longer than 90 days. A special waste facility shall not store shredder residue for longer than one year.

F. Shredder residue which has been determined to be nonhazardous pursuant to this Section shall be transported in accordance with the requirements for transportation of garbage as set forth in R18-13-310.

G. The owner or operator of a special waste facility shall pay, to the Department, the fees required by A.R.S. §§ 49-855(C)(2) and 49-863 as follows:
1. $6.68 per ton of shredder residue received; and
2. Not more than $66,835.67 per generator site per year for shredder residue that is transported to a facility regulated by the Department for treatment, storage or disposal.

H. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (G) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (H)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

Section recodified from A.A.C. R18-8-307, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

Table A. Target Analyses and Sampling Frequency

Constituents	Frequency
* TCLP Metals	Quarterly
* TCLP Volatiles	Annually
* TCLP Semi-volatiles	Annually
Polychlorinated Biphenyls (PCB)	Quarterly

* Toxicity Characteristic Leaching Procedure (TCLP)

Appendix A. Application for Arizona Special Waste Identification Number

Please refer to the instructions on the accompanying page before completing this form.	**ADEQ**	Application for Arizona Special Waste Identification Number	Date Received: (Do not write here official use only)

1. Mark Appropriate Box:

☐ Generator ☐ Shipper ☐ Receiving Facility ☐ Multiple

2. Company/Agency Name

3. Company/Agency Address (Physical Address, not P.O. Box or Route Number).

4. Company/Agency Mailing Address (If different than above).

5. Company/Agency Contact (Person to contact regarding special waste activities).
Name:

Job Title: Phone Number: ( )

6. Company/Agency Contact Address.

7. Name and Address of Company's/Agency's Legal Owner.

Phone Number: ( )

Certification: I certify under penalty of law that I have personally examined and am familiar with the information submitted in this form and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of civil penalties.

8. Signature: 9. Name and Official Title: (Type or Print) 10. Date Signed:

11. Please list special wastes generated, transported, stored, or received by applicant.

Instructions for the Completion of the ADEQ Application for the Arizona Special Waste Identification Number.

1. Place an “X” in the appropriate box indicating which type of operation you will be performing.
2. Enter the complete company/agency name.
3. Enter the complete address. Do not use P.O. Box or Route Number.
4. Enter the complete address if it is different than the address listed in item 3.
5. Enter the name, job title, and complete phone number of the person who will act as the company/agency contact.
6. Enter the complete address of the company/agency contact listed in item 5.
7. Enter the name, complete address, and phone number of the company’s/agency’s legal owner.
8. Enter the signature of the person who will assume the responsibility of completion of this form and its contents.
9. Enter the name and title of the responsible person listed in item 8.
10. Enter the date that the responsible person signed the document.
11. List all special wastes that the applicant generates, transports, stores, or receives.

Historical Note

Appendix A recodified from 18 A.A.C. 8, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Appendix B. Special Waste Manifest

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY
SPECIAL WASTE MANIFEST

Generator

1. Generator's AZ ID No. | Emergency Response Notification Phone Number

3. Generator's Name and Mailing Address

Generator's Phone Number and Area Code

4. Transporter 1 Company Name and Mailing Address | Transporter's AZ ID No. | Transporter's Phone No.

5. Transporter 2 Company Name and Mailing Address | Transporter's AZ ID No. | Transporter's Phone No.

6. Primary Receiving Facility Name and Address (physical site location, if different) | Facility's AZ ID No. | Facility's Phone No.

7. Alternate Receiving Facility Name and Address (physical site location, if different) | Facility's AZ ID No. | Facility's Phone No.

8. U.S. DOT description, (if applicable) (Non-DOT regulated materials enter shipping name, physical state and description of all contents of waste	Containers No.	Mark "X" if Haz Mat	Total Quantity	Unit Wt/Vol

9. Additional information on transportation, treatment, storage, or disposal

10. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled and are in all respects in proper condition for transport by highway according to applicable international and governmental regulations. Date

Printed/Typed Name | Signature | Date

Transport

11. Transporter 1 Acknowledgment of Receipt of Materials Date

Printed/Typed Name | Signature | Date

12. Transporter 2 Acknowledgment of Receipt of Materials Date

Printed/Typed Name | Signature | Date

Facility

13. Discrepancy Indication Space

14. Facility Owner or Operator: Certification of receipt of special waste materials covered by this manifest except as noted in above item. Date

Printed/Typed Name | Signature | Date

Instructions for the Completion of the ADEQ Special Waste Manifest

1. Enter the generator's Arizona Identification Number in box 1.
2. Enter the Emergency Response Notification Phone Number in box 2.
3. Enter the generator's name and complete mailing address, including city, state, and zip code, along with the generator's phone number, including the area code, in box 3.
4. Enter the transporter's name, transporter's Arizona identification number, and telephone number, including the area code, in box 4.
5. Complete this box if a second transporter is to be used to transport the special waste to the receiving facility, following the instructions outlined in number 4 in box 5.
6. Enter the name, address, and physical site location of the primary special waste receiving facility. In the appropriate spaces, include the facility's Arizona identification number and the telephone number, including the area code, in box 6.
7. Enter the name, address, and physical site location of the alternate special waste receiving facility. In the appropriate spaces, include the facility's Arizona identification number and the telephone number, including the area code, in box 7.
8. Enter United States Department of Transportation description (Including proper shipping name, hazard class, and identification number, if applicable) (For all non-Department of Transportation-regulated materials, enter the proper name, physical state, and description of all contents of the waste).

   Mark an "X" in this column if waste is classified as a hazardous material.

   Container Number
   Enter the number of containers being shipped for each waste.

   Total Quantity
   Numerical value representing the number of containers multiplied by the container size. Answer will be listed in pounds, gallons, or cubic yards.

   Unit weight or volume
   P - Pounds
   G - Gallons
   Y - Cubic Yards
9. Use this space to indicate special transportation, treatment, storage, or disposal information. Emergency response telephone numbers or similar information may be included here in box 9.
10. Print or type the generator's name followed by their signature and date in box 10.
11. Print or type the primary transporter's name followed by their signature and date in box 11.
12. Print or type the secondary transporter's name followed by their signature and date in box 12.
13. Indicate significant discrepancies in this box. Significant manifest discrepancy is defined as "a difference of more than 10% by weight for bulk shipments, any variation in a piece count for batch deliveries, or an obvious difference in a special waste type is discovered by inspection or analysis between the type or amount of a special waste designated in a special waste manifest, and the type or amount received by a special waste receiving facility" in box 13.
14. Print or type the receiving facility's owner or operator name followed by their signature and date in box 14.

Historical Note

Appendix B recodified from 18 A.A.C. 8, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 14. BIOHAZARDOUS MEDICAL WASTE AND DISCARDED DRUGS

R18-13-1401. Definitions

In addition to the definitions in A.R.S. § 49-701, the following definitions apply in this Article:

1. "Alternative treatment technology" means a treatment method other than autoclaving or incineration that achieves the treatment standards described in R18-13-1415.
2. "Approved medical waste facility plan" means the document that has been approved by the Department under A.R.S. § 49-762.04, and that authorizes the operator to accept biohazardous medical waste at its solid waste facility.
3. "Autoclaving," means using a combination of heat, steam, pressure, and time to achieve sterile conditions.
4. "Biohazardous medical waste" is composed of one or more of the following:
   a. Cultures and stocks: Discarded cultures and stocks generated in the diagnosis, treatment or immunization of a human being or animal or in any research relating to that diagnosis, treatment or immunization, or in the production or testing of biologicals.
   b. Human blood and blood products: Discarded products and materials that are saturated and/or dripping with human blood or caked with dried human blood, including items that would release blood in a liquid or semi-liquid form if compressed or broken, and items that contain serum, plasma, and other blood components. An item would be considered caked if it could release flakes or particles when handled.
   c. Human pathological wastes: Discarded organs, tissues, and body parts, including cerebrospinal fluid,

synovial fluid, pleural fluid, peritoneal fluid, pericardial fluid and amniotic fluid, removed during surgery or other medical procedures, including autopsy, obstetrics, or emergency care. Human pathological wastes do not include the head, spinal column, hair, nails, or teeth.

d. Medical sharps: Discarded sharps that pose a stick hazard that have come into contact with blood, blood products, or pathological waste. Examples include hypodermic needles; scalpel blades; and needles attached to tubing or syringes.

e. Research animal wastes: Animal carcasses, body parts, and bedding of animals that have been infected with agents that produce, or may produce, human infection.

f. Tattoo and body modification waste: any waste generated during the course of physically altering a human being, including tattooing, ear piercing, or any other process where a foreign object is used to cut or pierce the skin.

g. Trauma scene waste: any crime scene, accident, or trauma clean-up wastes generated by individuals or commercial entities hired to clean crime scenes or accidents, such as sharps and materials that contain human blood and blood products.

5. "Biologicals" means preparations made from living organisms or their products, including vaccines, cultures, or other biological products intended for use in diagnosing, immunizing, or treating humans or animals or in research pertaining to these activities.
6. "Biological indicator" means a representative microorganism used to evaluate treatment efficacy.
7. "CFR" means the Code of Federal Regulations.
8. "Chemotherapy waste" means any discarded material that has come in contact with an agent that kills or prevents the reproduction of malignant cells.
   a. Trace contaminated chemotherapy waste includes: masks, empty drug vials, gloves, gowns, IV tubing, empty IV bags/bottles, and spill clean-up materials.
   b. Bulk chemotherapy waste, such as full expired vials of chemotherapy drugs, is not biohazardous medical waste. Bulk chemotherapy waste may be considered hazardous wastes and must be handled according to the hazardous waste regulations if deemed a hazardous waste by the generator.
9. "Dedicated vehicle" means a motor vehicle or trailer that is pulled by a motor vehicle used by a transporter for the purpose of transporting biohazardous medical waste in conjunction with other compatible waste according to the USDOT requirements, listed at 49 CFR 177.848, revised as of October 1, 2020, and no future editions or later amendments, is incorporated by reference in this Section and on file with ADEQ.
10. "Department-approved facility" means a storage, transfer, treatment, or disposal facility that has undergone plan approval as described in R18-13-1410.
11. "Discarded drug" means any prescription medicine or over-the-counter medicine used in the diagnosis, treatment, or immunization of a human being or animal, that the generator intends to abandon. The term does not include hazardous waste or controlled substances regulated by the United States Drug Enforcement Agency.
12. "Disposal facility" means a municipal solid waste landfill that has been approved by the Department under A.R.S. § 49-762.04 to accept untreated biohazardous medical waste for disposal.
13. "Emergency situations" include those situations where following location restrictions may result in an imminent threat to human health and the environment.
14. "Facility plan" has the meaning given to it in A.R.S. § 49-701.
15. "Generator" means a person whose act or process produces biohazardous medical waste, or a discarded drug, or whose act first causes medical waste or a discarded drug to become subject to regulation.
16. "Hazardous waste" has the meaning prescribed in A.R.S. § 49-921.
17. "Health care worker" means, with respect to R18-13-1403(B)(5), a person who provides health care services at an off-site location that is none of the following: a residence, a facility where health care is normally provided, or a facility licensed by the Arizona Department of Health Services.
18. "Improper disposal of biohazardous medical waste" means the disposal by a person of untreated or inadequately treated biohazardous medical waste at any place that is not approved to accept untreated biohazardous medical waste.
19. "Independent testing laboratory" means a testing laboratory independent of oversight activities by a provider of alternative treatment technology.
20. "Medical sharps container" means a vessel that is rigid, puncture resistant, leak proof, and equipped with a cap capable of being securely closed.
21. "Medical waste," as defined in A.R.S. § 49-701, means "*any solid waste which is generated in the diagnosis, treatment or immunization of a human being or animal or in any research relating to that diagnosis, treatment or immunization, or in the production or testing of biologicals, and includes discarded drugs but does not include hazardous waste as defined in A.R.S. § 49-921 other than conditionally exempt small quantity generator waste.*"
22. "Medical waste treatment facility" or "treatment facility" means a solid waste facility approved by the Department under A.R.S. § 49-762.04 to accept and treat biohazardous medical waste from off-site generators.
23. "Multi-purpose vehicle" means any motor vehicle operated by a health care worker in the course of providing health care services, where the general purpose is the non-commercial transporting of people and the hauling of goods and supplies, but not solid waste. A multi-purpose vehicle is limited to hauling biohazardous medical waste generated at a location other than a hospital or clinic.
24. "Off site" means a location that does not fall within the definition of "on site" contained in A.R.S. § 49-701.
25. "Packaging" or "properly packaged" means the use of a container or a practice under R18-13-1407.
26. "Putrescible waste" means waste materials capable of being decomposed rapidly by microorganisms.
27. "Radioactive material" has the meaning under A.R.S. § 30-651.
28. "Secure" means to lock out or otherwise restrict access to unauthorized personnel.
29. "Spill" means either of the following:
   a. Any release of biohazardous medical waste from its package while in the generator's storage area.
   b. Any release of biohazardous medical waste from its package or the release of packaged biohazardous

medical waste by the transporter at a place or site that is not a medical waste treatment or disposal facility.

30. "Store" or "storage" means, in addition to the meaning under A.R.S. § 49-701, either of the following:
    a. The temporary holding of properly packaged biohazardous medical waste by a generator in a designated accumulation area awaiting collection by a transporter.
    b. The temporary holding of properly packaged biohazardous medical waste by a transporter or a treater at an approved medical waste storage facility or treatment facility.
31. "Technology provider" means a person that manufactures or a vendor who supplies alternative medical waste treatment technology.
32. "Tracking document" means the written instrument that signifies acceptance of biohazardous medical waste by a transporter, or a transfer, storage, treatment, or disposal facility operator.
33. "Transportation management plan" means the transporter's written plan consisting of both of the following:
    a. The procedures used by the transporter to minimize the exposure to employees and the general public to biohazardous medical waste throughout the process of collecting, transporting, and handling.
    b. The emergency procedures used by the transporter for handling spills or accidents.
34. "Transporter" means a person engaged in the business of hauling of biohazardous medical waste from the point of generation to a Department-approved storage facility or to a Department-approved treatment or disposal facility.
35. "Treat" or "treatment" means, with respect to the methods used to render biohazardous medical waste less infectious: incinerating, autoclaving, or using the alternative treatment technologies prescribed in this Article.
36. "Treated medical waste" means biohazardous medical waste that has been treated and that meets the treatment standards of R18-13-1415. Treated medical waste that requires no further processing is considered solid waste.
37. "Treater" means a person, also known as an operator, who receives solid waste facility plan approval for the purpose of operating a medical waste treatment facility to treat biohazardous medical waste that is generated off site.
38. "Treatment certification statement" means the written document provided by either a generator who treats biohazardous medical waste on site or by a treater to inform a solid waste disposal or recycling facility that biohazardous medical waste has been treated as prescribed in this Article, and therefore is no longer subject to regulation under this Article.
39. "Treatment standards" mean the levels of microbial inactivation, prescribed in R18-13-1415, to be achieved for a specific type of biohazardous medical waste.
40. "USDOT" means the United States Department of Transportation.
41. "Universal biohazard symbol" or "biohazard symbol" means a representation that conforms to the design shown in 29 CFR 1910.145(f)(8)(ii) (Office of the Federal Register, National Archives and Records Administration, July 1, 1998) and which is incorporated by reference in this rule. This incorporation does not include any later amendments or editions. Copies of the incorporated material are available for inspection at the Department of Environmental Quality and the Office of the Secretary of State.
42. "Vehicle not dedicated to the transportation of biohazardous medical waste but which is engaged in commerce" means a motor vehicle or a trailer pulled by a motor vehicle whose primary purpose is the transporting of goods that are not solid waste or biohazardous medical waste and that is used by a transporter for the temporary transportation of biohazardous medical waste.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1402. Applicability

A. This Article applies to the following:
1. A generator who treats biohazardous medical waste on site, before disposing of it as treated medical waste, and to any equipment used for that purpose. Specific requirements for a generator who treats on site are prescribed in R18-13-1405.
2. A generator who contracts with a medical waste treatment facility for the purpose of treating biohazardous medical waste. Specific requirements for such a generator are prescribed in R18-13-1406.
3. A person who transports biohazardous medical waste and any motor vehicle used for that purpose.
4. A medical waste treatment facility operator, a medical waste treatment facility, and any equipment used for medical waste treatment.
5. A person who provides alternative medical waste treatment technology for the purpose of treatment, and to any technology used for treatment.
6. A person in possession of biohazardous medical waste if the waste does not meet the treatment standards in R18-13-1415.
7. An operator of a Department-approved disposal facility who accepts untreated biohazardous medical waste.
8. A person who generates medical sharps in the preparation of human remains.
9. A person who generates medical sharps in the treatment of humans or animals.
10. A generator of discarded drugs not returned to the manufacturer.

B. The requirements for biohazardous medical waste set out for collection do not apply to the manner in which the generator collects or handles material prior to that material becoming biohazardous medical waste.

C. Provisions in this Article requiring placement in Department-approved facilities do not restrict the right to place materials in facilities that are out of state or in Indian Country.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1403. Exemptions; Partial Exemptions

A. The following persons are exempt from the requirements of this Article:

1. Law enforcement personnel handling biohazardous medical waste for law enforcement purposes.
2. A person in possession of medical waste that is regulated by a state or federal agency due to its radioactive nature.
3. A person who returns unused medical sharps to the manufacturer.
4. A household generator residing in a private, public, or semi-public residence who generates biohazardous medical waste in the administration of self care or the agent of the household generator who administers the medical care. This exemption does not apply to the facility in which the person resides if that facility is licensed by the Arizona Department of Health Services.
5. A generator that separates medical devices from the medical waste stream that are sent out for re-processing and returned to the generator.
6. A person in possession of human bodies regulated by A.R.S. Title 36.

B. The following are conditionally exempt from the requirements of this Article:
1. A person who prepares human corpses, remains, and anatomical parts that are intended for interment or cremation. However, medical sharps must be disposed of as prescribed by this Article.
2. A person who operates an emergency rescue vehicle, an ambulance, or a blood service collection vehicle in the course of providing medical services if the biohazardous medical waste is returned to the home facility for disposal. This facility is considered to be the point of generation for packaging, treatment, and disposal.
3. A person who discharges liquid and semi-liquid biohazardous medical wastes, excluding cultures and stocks, to the sanitary sewer system if the operator of the wastewater sewer system and treatment facility allows, permits, authorizes, or otherwise approves of the discharges.
4. Hazardous waste regulated by A.R.S. Title 49, Chapter 5.
5. A health care worker who uses a multi-purpose vehicle in the conduct of routine health care business other than transporting waste is exempt from the requirements of R18-13-1409 if the health care worker complies with all of the following:
   a. Packages the biohazardous medical waste according to R18-13-1407.
   b. Secures the packaged biohazardous medical waste within the vehicle so as to minimize spills.
   c. Transports the biohazardous medical waste to the place of business or to a medical waste treatment or disposal facility.
   d. Cleans the vehicle when it shows visible signs of contamination.
   e. Secures the vehicle to prevent unauthorized contact with the biohazardous medical waste.
6. A person who transports biohazardous medical waste between multiple properties separated by a public thoroughfare and which is owned or operated by the same owner or governmental entity is exempt from the requirements of R18-13-1409 if the person complies with R18-13-1403(B)(5)(a) through (e).
7. A hospital that chooses to accept medical sharps from staff physicians who generate medical sharps in a private practice is exempt from the requirement to obtain facility plan approval as long as the hospital collects medical sharps for off-site treatment or disposal.

C. The following are exempt from some of the requirements of this Article:
1. A generator who treats biohazardous medical waste on site and who accepts for treatment medical waste described in R18-13-1403(A)(4) is exempt from the requirement to obtain solid waste facility plan approval prescribed in R18-13-1410.
2. A generator who self-hauls biohazardous medical waste to a Department-approved medical waste treatment, storage, transfer, or disposal facility is exempt from the requirements of R18-13-1409 if the generator complies with R18-13-1403(B)(5)(a) through (e).

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1404. Repealed

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Repealed by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1405. Biohazardous Medical Waste Treated On Site

A. A person who treats biohazardous medical waste on site shall use incineration, autoclaving, or an alternative medical waste treatment method that meets the treatment standards prescribed in R18-13-1415.

B. A generator who uses:
1. Incineration shall follow the requirements of subsections (C), (F), (G), and (H),
2. Autoclaving shall follow the requirements of subsections (D), (F), (G) and (H), or
3. An alternative treatment method shall follow the requirements of subsections (E), (F), (G), and (H).

C. A generator who incinerates biohazardous medical waste on site shall comply with all of the following requirements:
1. Obtain a permit if required by the local or state air quality agency having jurisdiction.
2. Reduce the biohazardous medical waste, excluding metallic items, into carbonized or mineralized ash.
3. Determine whether incinerator ash is hazardous waste as required by hazardous waste rules promulgated under A.R.S. Title 49, Chapter 5.
4. Dispose of the non-hazardous waste incinerator ash at a Department-approved municipal solid waste landfill.

D. A generator who autoclaves biohazardous medical waste on site shall comply with all of the following requirements:
1. Further process by grinding, shredding, or any other process, any recognizable animals and human tissue, organs, or body parts, to render such waste non-recognizable and ensure effective treatment.
2. Operate the autoclave at the manufacturer's specifications appropriate for the quantity and density of the load.
3. Keep records of operational performance levels for six months after each treatment cycle. Operational performance level recordkeeping includes all of the following:
   a. Duration of time for each treatment cycle.
   b. The temperature and pressure maintained in the treatment unit during each cycle.

c. The method used to determine treatment parameters in the manufacturer's specifications.
d. The method in manufacturer's specifications used to confirm microbial inactivation and the test results.
e. Any other operating parameters in the manufacturer's specifications for each treatment cycle.

4. Keep records of equipment maintenance for the duration of equipment use that include the date and result of all equipment calibration and maintenance.

E. A generator who uses an alternative treatment method on site shall comply with all of the following requirements:

1. Use only alternative treatment methods registered under R18-13-1414.
2. Further process by grinding, shredding, or any other process, any recognizable animals and human tissue, organs, or body parts, to render this waste non-recognizable and ensure effective treatment.
3. Follow the manufacturer's specifications for equipment operation.
4. Supply upon request all of the following:
   a. The Departmental registration number for the alternative medical waste treatment technology and the type of biohazardous medical waste that the equipment is registered to treat.
   b. The equipment specifications that include all of the following:
      i. The operating procedures for the equipment that enable the treater to comply with the treatment standards described in this Article for the type of waste treated.
      ii. The instructions for equipment maintenance, testing, and calibration that enable the treater to comply with the treatment standards described in this Article for the type of waste treated.
5. Maintain a training manual regarding the proper operation of the equipment.
6. Maintain a treatment record consisting of a log of the volume of medical waste treated and a schedule of calibration and maintenance performed under the manufacturer's specifications.
7. Maintain treatment records for six months after the treatment date for each load treated.
8. Maintain the equipment specifications for the duration of equipment use.

F. A generator shall do all of the following:

1. Package the treated medical waste according to the waste collection agency's requirements;
2. Attach to the package or container a label, placard, or tag with the following words: "This medical waste has been treated as required by the Arizona Department of Environmental Quality standards" before placing the treated medical waste out for collection as a general solid waste. The generator shall ensure that the treated medical waste meets the standards of R18-13-1415.
3. Upon request of the solid waste collection agency or municipal solid waste landfill, provide a certification that the treated medical waste meets the standards of R18-13-1415.
4. Make treatment records available for Departmental inspection upon request.

G. A generator of medical sharps shall handle medical sharps as prescribed in R18-13-1419.

H. A generator of chemotherapy waste, cultures and stocks, or animal waste shall handle that waste as prescribed in R18-13-1420.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3).

R18-13-1406. Biohazardous Medical Waste Transported Off Site for Treatment

A. A generator of biohazardous medical waste shall cause the waste to first be packaged as prescribed in this Article and shall subsequently either self-haul or store the waste as provided under R18-13-1408 and set the waste out for collection by a properly licensed transporter under R18-13-1409.

B. A generator shall obtain a copy of the tracking document signed by the transporter signifying acceptance of the biohazardous medical waste. A generator shall keep a copy of the tracking document for the period required under the USDOT requirements, as listed in 49 CFR 172.201, revised as of October 1, 2020, and no future editions or later amendments, is incorporated by reference in this Section and on file with ADEQ. The tracking document shall contain all of the following information:

1. Name and address of the generator, transporter, and medical waste treatment, storage, transfer, or disposal facility, as applicable.
2. Quantity of biohazardous medical waste collected by weight, volume, or number of containers.
3. Identification number attached to bags or containers, as specified as by the USDOT requirements, as listed in 49 CFR 172.300 through 172.338, revised as of October 1, 2020, and no future editions or later amendments, is incorporated by reference in this Section and on file with ADEQ.
4. Date the biohazardous medical waste is collected.

C. A generator of chemotherapy waste, cultures and stocks, or animal waste shall handle the waste as prescribed in R18-13-1420.

D. A generator of medical sharps shall handle the waste as prescribed in R18-13-1419.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1407. Non-Sharps Packaging

A. A generator who sets biohazardous medical waste that does not include sharps out for collection for off-site treatment or disposal shall package the biohazardous medical waste in either of the following:

1. A red disposable plastic bag that is:
   a. Leak resistant,
   b. Impervious to moisture,
   c. Of sufficient strength to prevent tearing or bursting under normal conditions of use and handling,
   d. Sealed to prevent leakage during transport, and
   e. Placed in a secondary container. This container shall be constructed of materials that will prevent breakage of the bag in storage and handling during collection and transportation and bear the universal biohazard symbol. The secondary container may be either disposable or reusable.

2. A reusable container that bears the universal biohazard symbol and that is:
   a. Leak-proof on all sides and bottom, closed with a fitted lid, and constructed of smooth, easily cleanable materials that are impervious to liquids and resistant to corrosion by disinfection agents and hot water, and
   b. Used for the storage or transport of biohazardous medical waste and cleaned after each use unless the inner surfaces of the container have been protected by disposable liners, bags, or other devices removed with the waste. "Cleaning" means agitation to remove visible particles combined with one of the following:
      i. Exposure to hot water at a temperature of at least 180° F for a minimum of 15 seconds.
      ii. Exposure to an EPA-approved chemical disinfectant used under established protocols and regulations.
      iii. Any other method that the Department determines is acceptable, if the determination of acceptability is made in advance of the cleaning.

B. A generator shall handle any container used for the storage or transport of biohazardous medical waste that is not capable of being cleaned as described in subsection (A)(2)(b), or that is disposable packaging, as biohazardous medical waste.

C. A generator shall not use reusable containers described in subsection (A)(2) for any purpose other than the storage of biohazardous medical waste.

D. A generator shall not reuse disposable packaging and liners and shall manage such items as biohazardous medical waste.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1408. Storage

A. A generator may place a container of biohazardous medical waste alongside a container of solid waste if the biohazardous medical waste is identified and not allowed to co-mingle with the solid waste. The storage area shall not be used to store substances for human consumption or for medical supplies.

B. Once biohazardous medical waste has been packaged for shipment off site, a generator shall provide a storage area for biohazardous medical waste until the waste is collected and shall comply with both of the following requirements:
1. Secure the storage area in a manner that restricts access to, or contact with the biohazardous medical waste to authorized persons.
2. Display the universal biohazard symbol and post warning signs worded as follows for medical waste storage areas: (in English) "CAUTION -- BIOHAZARDOUS MEDICAL WASTE STORAGE AREA -- UNAUTHORIZED PERSONS KEEP OUT" and (in Spanish) "PRECAUCION -- ZONA DE ALMACENAMIENTO DE DESPERDICIOS BIOLOGICOS PELIGROSOS -- PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS."

C. Beginning at the time the waste is set out for collection, a generator who stores biohazardous medical waste shall comply with all of the following requirements:
1. Putrescible biohazardous medical waste may be kept unrefrigerated up to 72 hours if it would not otherwise cause odor detectable beyond the property line or attract vermin.
2. Refrigerate at 40° F or less from hour 72 through day 90 putrescible biohazardous medical waste kept for up to 90 days.
3. Nonputrescible biohazardous medical waste may be kept unrefrigerated for up to 90 days.
4. Store biohazardous medical waste for 90 days or less unless the generator has obtained facility plan approval under A.R.S. § 49-762.04 and is in compliance with the design and operational requirements prescribed in R18-13-1412.
5. Keep the storage area free of visible contamination.
6. Protect biohazardous medical waste from contact with water, precipitation, wind, or animals. A generator shall ensure that the waste does not provide a breeding place or a food source for insects or rodents.
7. Handle spills by re-packaging the biohazardous medical waste, re-labeling the containers and cleaning any soiled surface as prescribed in R18-13-1407(A)(2)(b).
8. Notwithstanding subsections (C)(1) and (2), a generator shall minimize the off-site migration of odors and the presence of vermin. If the Department determines that a generator has not acted or adequately addressed odors or vermin, the Department shall require the waste to be removed or refrigerated at 40° F or less.

D. Trace chemotherapy waste shall be clearly identified as such by its label.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1409. Transporter License; Fees; Transportation

A. A transporter shall obtain a transporter license from the Department as provided under subsections (B) and (C) of this Section in addition to possessing a permit, license, or approval if required by a local health department, environmental agency, or other governmental agency with jurisdiction.

B. A transporter license is valid for five years after issuance. To renew the license, the licensee shall submit an application no later than 60 days prior to the license's expiration, and shall pay the license renewal fee, as provided in subsection (B)(1). With each application submitted for approval, the applicant shall remit an initial transporter license application fee as provided in subsection (B)(1). All fees paid shall be payable to the state of Arizona. The Department shall deposit the fees paid into the Solid Waste Fee Fund established pursuant to A.R.S. § 49-881, unless otherwise authorized or required by law.
1. To apply for or to renew a transporter license, an applicant shall submit all of the following in a Department-approved format:
   a. The name, address, and telephone number of the transportation company or entity.
   b. All owners' names, addresses, and telephone numbers.
   c. All names, addresses, and telephone numbers of any agents authorized to act on behalf of the owner.

d. A copy of either the certificate of disclosure required by A.R.S. § 49-109 or a written acknowledgment that this disclosure is not required.
e. Photocopies or other evidence of the issuance of a permit, license, or approval if required by a local health department, environmental agency, or other governmental agency with jurisdiction.
f. A copy of the transportation management plan as defined in R18-13-1401.
g. A list identifying each dedicated vehicle.
h. For an initial transporter license application, a fee of $1,800, and for a license renewal, a fee of $1,500.

2. The Department may only issue a transporter license, including a renewal, if all of the items in subsection (B)(1)(a) through (h) have been received and determined to be correct and complete, and a Department inspection of each transporting vehicle shows that the vehicle is in compliance with this Article.

C. Transporters shall pay by the invoice due date an annual fee of $1,500 for each calendar year following payment of the new or renewal application license fee and subsequent years in which a renewal application license fee is not charged and paid, indicated in Table 2. Fee Table, Transporters Annual Fee.

D. Amendments. After issuance, the licensee shall submit to the Department any change to the information listed in subsections (B)(1)(a) through (g) of this Section within 30 days of its occurrence. Vehicles may only be added to the license after a Department inspection shows that the vehicle is in compliance with this Article. Amendments adding vehicles to the license shall be processed after payment of inspection fees and other expenses, except that the application fee shall be $350.

E. A person who transports biohazardous medical waste shall maintain in each transporting vehicle at all times a transportation management plan.

F. A transporter who accepts biohazardous medical waste from a generator shall transmit electronically or leave a physical copy of the tracking document described in R18-13-1406(B) with the person from whom the waste is accepted. A transporter shall ensure that a copy of the tracking document accompanies the person who has physical possession of the biohazardous medical waste. Upon delivery to a Department-approved transfer, storage, treatment, or disposal facility, the transporter shall obtain a copy of the tracking document, signed by a person representing the receiving facility, signifying acceptance of the biohazardous medical waste.

G. A transporter who transports biohazardous medical waste in a dedicated vehicle shall ensure that the cargo box, trailer, or compartment can be secured to limit access to authorized persons at all times except during loading and unloading. In addition, the cargo box, trailer, or compartment shall be constructed in compliance with one of the following:

1. Have a fully enclosed, leak-proof cargo compartment consisting of a floor, sides, and a roof that are made of a non-porous material impervious to biohazardous medical waste and physically separated from the driver's compartment.
2. Haul a fully enclosed, leak-proof cargo box made of a non-porous material impervious to biohazardous medical waste.
3. Tow a fully enclosed leak-proof trailer made of a non-porous material impervious to biohazardous medical waste.

H. A person who transports biohazardous medical waste in a vehicle not dedicated to the transportation of biohazardous medical waste, but that is used at least once weekly for a month, shall comply with the following:

1. Subsections (A), (E) through (G), and (I) of this Section.
2. Clean the vehicle as prescribed in R18-13-1407(A)(2)(b) before it is used for another purpose.

I. A transporter of biohazardous medical waste shall comply with all of the following:

1. Accept only biohazardous medical waste packaged as prescribed in R18-13-1407.
2. Accept biohazardous medical waste only after providing the generator with a signed tracking document as prescribed in R18-13-1406(B), and keep a copy of the tracking document for the period required under the USDOT requirements, as listed in 49 CFR 172.201.
3. Deliver biohazardous medical waste to a Department-approved biohazardous medical waste storage, transfer, treatment, or disposal facility within the following timeframes:
   a. 72 hours of collection, if putrescible and unrefrigerated; or
   b. 90 days of collection, if putrescible and refrigerated at 40° F or less from hour 72 through day 90; or
   c. 90 days of collection, if nonputrescible and unrefrigerated.
4. Not hold biohazardous medical waste longer than specified under subsection (I)(3) unless the vehicle is parked at a Department-approved facility.
5. Except in emergency situations, not unload, reload, or transfer the biohazardous medical waste to another vehicle in any location other than a Department-approved facility. Combination vehicles or trailers may be uncoupled and coupled to another cargo vehicle or truck trailer as long as the biohazardous medical waste is not removed from the cargo compartment.

J. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (B), (C), and (D) of this Section, and Table 2. Fee Table, Transporters Annual Fee, annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (J)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1410. Storage, Transfer, Treatment, and Disposal Facilities; Facility Plan Approval; Fees

A. A person shall obtain solid waste facility plan approval from the Department as prescribed in A.R.S. § 49-762.04 and pursuant to R18-13-702 to construct any facility that will be used to store, transfer, treat, or dispose of biohazardous medical waste that was generated off site. Plan approval shall be obtained before starting construction of the medical waste treatment or disposal facility. This requirement also applies to solid waste facilities for which an operator self-certifies under A.R.S. § 49-762.05, if the facility also will receive biohazardous medical waste.

B. If an air quality permit is required for the facility under A.R.S. Title 49, Chapter 3, the person shall include evidence of that air quality permit, or evidence of an air quality permit application with the application for solid waste facility plan approval.

C. A person applying for facility plan approval shall ensure that the plan contains information demonstrating how the plan will comply with this Article.

D. Annual registration fee. The Department shall bill an annual registration fee to a biohazardous medical waste facility described in subsection (A) of this Section as follows:
1. For a disposal or treatment facility, $12,500;
2. For a storage facility, $7,500; and
3. For a transfer facility, $3,000.

E. A facility subject to more than one fee under subsection (D) of this Section shall only pay the highest fee amount.

F. The biohazardous medical waste facility shall pay the annual registration fee within 30 days of invoice receipt.

G. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (D) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (G)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1411. Storage and Transfer Facilities; Design and Operation

An operator of a storage facility or transfer facility shall comply with all of the following design and operation requirements:
1. Design the facility so that biohazardous medical waste is always handled and stored separately from other types of solid waste if accepted at the facility.
2. Display prominently the universal biohazard symbol as prescribed in R18-13-1401.
3. Construct the storage area from smooth, easily cleanable non-porous material that is impervious to liquids and resistant to corrosion by disinfecting agents and hot water.
4. Protect biohazardous medical waste from contact with water, precipitation, wind, or animals.
5. Specify in the application for facility plan approval the maximum storage time that biohazardous medical waste will remain at the facility. If putrescible biohazardous medical waste will be stored for more than 72 hours, the operator shall equip the facility with a refrigerator to refrigerate putrescible biohazardous medical waste. The operator of the facility shall maintain the temperature in the refrigerator at 40° F or less.
6. Accept biohazardous medical waste only if it is accompanied by the tracking document. The operator shall sign the tracking document and keep a copy of the acceptance documentation for the period required under the USDOT requirements, as listed in 49 CFR 172.201.
7. Accept biohazardous medical waste if it is packaged as described in R18-13-1407. If a biohazardous medical waste container is damaged or leaking, improperly labeled, or otherwise unacceptable, a transfer facility operator shall do one of the following:
   a. Reject the waste and return it to the transporter or self-hauling generator.
   b. Accept the waste and immediately repackage it as prescribed in R18-13-1407(A).
8. Clean the storage area daily. “Clean” means to remove visible particles combined with one of the following:
   a. Exposure to hot water at a temperature of at least 180° F for a minimum of 15 seconds.
   b. Exposure to an EPA-approved chemical disinfectant used under established protocols and regulations.
   c. Any other method that the Department determines is acceptable, if the determination of acceptability is made in advance of the cleaning.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801

(December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1412. Treatment Facilities; Application Requirements; Design and Operation

A. An operator who applies for facility plan approval shall comply with subsections (A)(1) and (2) as well as all of the requirements in subsections (B)(1) through (11):

1. Submit to the Department the following documentation:
   a. Equipment specifications that identify the proper type of medical waste to be treated in the equipment and any design or equipment restrictions.
   b. Manufacturer's specifications and operating procedures for the equipment that describe the type and volume of waste to be treated, monitoring data of the treatment process, and calibration and testing of the equipment, providing specific details about the capability of the equipment to achieve the treatment standards prescribed in R18-13-1415.
   c. Instructions for equipment maintenance, testing, and calibration that ensure the equipment achieves the treatment standards prescribed in R18-13-1415.
   d. Training manual for the equipment.
   e. Written certification from the manufacturer stating that the equipment, when operated properly, is capable of achieving the treatment standards prescribed in R18-13-1415.
2. Submit to the Department and have readily available at the facility, an operations procedure manual describing how the waste will be handled from the time it is accepted by the treater through the treatment process and final disposition of the treated waste. The operations procedure manual shall include all of the following:
   a. Provisions for treating biohazardous medical waste within 72 hours of receipt or refrigerating at 40° F or less upon determination that treatment or disposal will not occur within 72 hours. Nonputrescible biohazardous medical waste that is not immediately treated may be stored for up to 90 days unrefrigerated.
   b. A contingency plan if the treatment equipment is out of service for an extended period of time. The plan shall address the manner and length of time for storage of the waste. An operator shall not store biohazardous medical waste more than 90 days. The plan shall be based on the capacity of the treatment equipment to treat all waste at the facility, including any backlog of stored waste and any new waste intake. If the 90-day time-frame will be exceeded, the operator shall either stop accepting waste until the backlog is treated, or contract with another treatment facility for treating the waste.
   c. Procedures for handling hazardous chemicals, radioactive waste, and chemotherapy waste. The plan shall provide for scanning biohazardous medical waste with a Geiger counter and handling waste that measures above background level in a manner that complies with state and federal law.

B. An operator of a Department-approved facility shall comply with all of the following:

1. Have readily accessible written procedures stating that biohazardous medical waste is to be accepted from a transporter only if the waste is accompanied by a tracking document, and written procedures that require compliance with both of the following:
   a. The treater or the treater's authorized agent shall sign the tracking document and keep a copy of the acceptance documentation for the period required under the USDOT requirements, as listed in 49 CFR 172.201.
   b. If a biohazardous medical waste container is damaged or leaking, improperly labeled, or otherwise unacceptable, a treater shall do one of the following:
      i. Reject the waste and return it to the transporter or self-hauling generator.
      ii. Accept the waste and transfer it directly from the transporting vehicle to the treatment processing unit.
      iii. If the waste will not be treated immediately, repackage the waste for storage.
2. Assure that the facility is designed to meet both of the following requirements:
   a. Any floor or wall surface in the processing area of the facility which may come into contact with biohazardous medical waste is constructed of a smooth, easily cleanable non-porous material that is impervious to liquids.
   b. The floor surface in the treatment and storage area either has a curb of sufficient height to contain spills or slopes to a drain that connects to an approved sanitary sewage system, septic tank system, or collection device.
3. Store biohazardous medical waste as required in R18-13-1408.
4. Comply with all of the following if the treatment method is incineration:
   a. Reduce the incinerated medical waste, excluding metallic items, into carbonized or mineralized ash by incineration.
   b. Determine whether the ash is hazardous waste as required under R18-8-262.
5. Conduct any autoclaving according to the manufacturer's specifications for the unit.
6. Use only alternative medical waste treatment methods that achieve the treatment standards in R18-13-1415(A).
7. Treat animal waste, chemotherapy waste, and cultures and stocks as prescribed in R18-13-1420.
8. Render medical sharps incapable of creating a stick hazard by using an encapsulation agent or any other process that prevents a stick hazard.
9. Keep records of equipment maintenance and operational performance levels for three years. The records shall include the date and result of all equipment calibration and maintenance. Operational performance level records shall indicate the duration of time for each treatment cycle and:
   a. For steam treatment and microwaving treatment records, both the temperature and pressure maintained in the treatment unit during each cycle and the method used for confirmation of temperature and pressure.
   b. For chemical treatment, a description of the solution used.
   c. For incineration, the temperature is maintained in the treatment unit during operation.
   d. Any other operating parameters in the manufacturer's specifications.
   e. A description of the treatment method used and a copy of the maintenance test results.

10. Not open a sealed biohazardous medical waste container prior to treatment unless opening the container is required to treat the contents. Transfer of the entire contents, when performed as part of the treatment process, is permitted.
11. Clean the storage and treatment areas as necessary to protect the public health and employee health and safety.

C. The treater shall make treatment records available for Departmental inspection upon request.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1413. Changes to Approved Medical Waste Facility Plans

A. As required by A.R.S. § 49-762.06, before making any change to an approved facility plan, a facility owner or operator shall submit a notice to the Department stating the type of change requested, including but not limited to:
1. A Type I change to an approved medical waste facility plan is a change not described in subsections (A)(2), (3), or (4).
2. A Type II change to an approved medical waste facility plan is a change in which treatment equipment is replaced with equal or like equipment, resulting in either no increase to treatment capacity or the addition of equipment that is not directly used in the treatment process.
3. A Type III change to an approved medical waste facility plan is a change described by one of the following:
   a. Treatment equipment is added, resulting in less than a 25% increase in treatment capacity.
   b. The storage area is enlarged resulting in less than a 25% increase in storage capacity.
   c. Treatment technology is changed.
4. A Type IV change to an approved medical waste facility plan is a change described by one of the following:
   a. Treatment equipment is added, resulting in a 25% or more increase in treatment capacity.
   b. The storage area is enlarged resulting in a 25% or more increase in storage capacity.
   c. Treatment equipment is added that requires an environmental permit.
   d. An expansion of the treatment facility onto land not previously described in the approved plan.

B. As required by A.R.S. § 49-762.06, a treatment facility operator who has identified a change under subsection (A) shall comply with one of the following:
1. For a Type I change, make the change without notice to, or approval by the Department.
2. For a Type II change, before making any change, provide written notification that describes the change to the Department. The addition of refrigeration units only for compliance with this Article is a Type II change for which no Departmental approval is required.
3. For a Type III or Type IV change, submit an amended plan to the Department for approval before making any change. Departmental approval is required prior to making any change.

C. An owner or operator of an existing municipal solid waste landfill who intends to accept untreated biohazardous medical waste shall submit a notice of a Type III change and an amended facility plan.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1414. Alternative Medical Waste Treatment Methods: Registration and Equipment Specifications

A. A manufacturer or its agent who applies for alternative medical waste treatment method registration shall submit to the Department all of the following:
1. The manufacturer or company name and address.
2. The name, address, and telephone number of the person who submits the application.
3. A description of the alternative medical waste treatment method.
4. A list of any other states in which the treatment method is used, including a copy of any state approvals.
5. A description of by-products generated as result of the alternative treatment method.
6. A certification statement that the contents of the application are true and accurate to the knowledge and belief of the applicant.
7. Written documentation demonstrating that the alternative medical waste treatment method is capable of compliance with the treatment standards in this Article for the type of waste treated. The manufacturer shall employ a laboratory independent of any oversight activities by the manufacturer to provide this analysis.
8. The manufacturer's equipment specifications for the alternative medical waste treatment method being registered, including all of the following:
   a. Unit model number, or serial number.
   b. Equipment specifications that identify the proper type of biohazardous medical waste to be treated by the equipment and any design or equipment restrictions.
   c. Operating procedures for the equipment that ensure the equipment complies with the treatment standards prescribed in this Article for the type of waste treated.
   d. Instructions for equipment maintenance, testing, and calibration that ensure the equipment complies with the treatment standards prescribed in this Article for the type of waste treated.
9. Written documentation of registration if required by A.R.S. § 3-351.

B. The Department shall make a determination whether to approve the registration application. If the Department approves the application, it shall issue to the applicant a certification of registration containing an alternative medical waste treatment method registration number. Only an alternative technology method with a valid Department issued registration number meets the requirements of this Article.

C. If documentation of Departmental registration is not on file with a generator utilizing alternative medical waste treatment technology, the Department shall classify biohazardous medical waste treated using the unregistered alternative treatment technology as untreated biohazardous medical waste.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801

(December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1415. Treatment Standards, Quantification of Microbial Inactivation and Efficacy Testing Protocols

A. A treater using an alternative treatment technology shall ensure that treatment achieves either of the following treatment standards:
1. A 6 $\log_{10}$ inactivation in the concentration of vegetative microorganisms.
2. A 4 $\log_{10}$ inactivation in the concentration of *Bacillus stearothermophilus* or *Bacillus subtilis* as is appropriate to the technology.

B. A treater utilizing an alternative treatment method shall conduct efficacy studies to demonstrate that the treatment mechanisms are capable of achieving the standards in subsection (A) through either of the following:
1. Mycobacterial species used as indicators of vegetative microorganisms:
   a. *Mycobacterium phlei*, or
   b. *Mycobacterium bovis* (BOG) (ATCC 35743)
2. Spore suspensions of one of the following two bacterial species, as appropriate to the technology, used as biological indicators in efficacy tests of thermal, chemical, and irradiation treatment systems. Studies shall demonstrate a 4 $\log_{10}$ reduction in the concentration of viable spores, through the use of an initial inoculum suspension of 5 $\log_{10}$ or greater of:
   a. *Bacillus stearothermophilus* (ATCC 7953), or
   b. *Bacillus subtilis* (ATCC 19659).

C. A treater utilizing an alternative treatment method shall quantify microbial inactivation as follows:
1. Microbial inactivation, or "kill" efficacy is equated to "Log_{10} Kill" that is defined as the difference between the logarithms of the number of viable test microorganisms before and after treatment. This definition is stated as:
   $\text{Log}_{10}\text{Kill} = \text{Log}_{10}(\text{cfu/g "I"}) - \text{Log}_{10}(\text{cfu/g "R"})$
   where:
   Log_{10}Kill is equivalent to the term Log_{10} reduction,
   "I" is the number of viable test microorganisms introduced into the treatment unit,
   "R" is the number of viable test microorganisms recovered from the treatment unit, and
   "cfu/g" are colony forming units per gram of waste solids.
2. For those treatment processes that can maintain the integrity of the biological indicator carrier of the desired microbiological test strain, biological indicators of the required strain and concentration may be used to demonstrate microbial inactivation. Quantification is evaluated by growth or no growth of the cultured biological indicator.
3. For those treatment mechanisms that cannot ensure or provide integrity of the biological indicator, quantitative measurement of microbial inactivation requires a two-step approach: Step 1 "Control" and Step 2 "Test". The purpose of Step 1 is to account for the reduction of test microorganisms due to loss by dilution or physical entrapment.
   a. Step 1:
      i. Use microbial cultures of a predetermined concentration necessary to ensure a sufficient microbial recovery at the end of this step.
      ii. Add suspension to a standardized medical waste load that is to be processed under normal operating conditions without the addition of the treatment agent (that is, heat, chemicals).
      iii. Collect and wash waste samples after processing to recover the biological indicator organisms in the sample.
      iv. Plate the recovered microorganism suspensions to quantify microbial recovery. The number of viable microorganisms recovered serves as a baseline quantity for comparison to the number of recovered microorganisms from wastes processed with the treatment agent.
      v. The required number of recovered viable indicator microorganisms from Step 1 must be equal to or greater than the number of microorganisms required to demonstrate the prescribed Log reduction, either a 6 Log_{10} reduction for vegetative microorganisms or a 4 Log_{10} reduction for bacterial spores. This can be defined by the following equation:
      $\text{Log}_{10}\text{RC} = \text{Log}_{10}\text{IC} - \text{Log}_{10}\text{NR}$
      or
      $\text{Log}_{10}\text{NR} = \text{Log}_{10}\text{IC} - \text{Log}_{10}\text{RC}$
      where:
      Log_{10}RC is greater than 6 for vegetative microorganisms and greater than 4 for bacterial spores and where:
      Log_{10}RC is the number of viable "control" microorganisms in colony forming units per gram of waste solids recovered in the non-treated, processed waste residue;
      Log_{10}IC is the number of viable "control" microorganisms in colony forming units per gram of waste solids introduced into the treatment unit;
      Log_{10}NR is the number of "control" microorganisms in colony forming units per gram of waste solids which were not recovered in the non-treated, processed waste residue. Log_{10}NR represents an accountability factor for microbial loss.
   b. Step 2:
      i. Use microbial cultures of the same concentration as in Step 1.
      ii. Add suspension to the standardized medical waste load that is to be processed under normal operating conditions with the addition of the treatment agent.
      iii. Collect and wash waste samples after processing to recover the biological indicator organisms in the sample.
      iv. Plate recovered microorganism suspensions to quantify microbial recovery.
      v. From data collected from Step 1 and Step 2, the level of microbial inactivation, "Log_{10} Kill", is calculated by employing the following equation:
      $\text{Log}_{10}\text{Kill} = \text{Log}_{10}\text{IT} - \text{Log}_{10}\text{NR} - \text{Log}_{10}\text{RT}$
      where:
      Log_{10}Kill is equivalent to the term Log_{10} reduction;
      Log_{10}IT is the number of viable "Test" microorganisms in colony forming units per gram of waste solids introduced into the treatment unit.
      $\text{Log}_{10}\text{IT} = \text{Log}_{10}\text{IC}$;

$Log_{10}NR$ is the number of "Control" microorganisms in colony forming units per gram of waste solids which were not recovered in the non-treated, processed waste residue;
$Log_{10}RT$ is the number of viable "Test" microorganisms in colony forming units per gram of waste solids recovered in treated, processed waste residue.

D. A treater shall employ the appropriate methodology to determine efficacy of the treatment technology following the protocols in subsection (C) that are congruent with the treatment method.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1416. Recycled Materials

A. Once a generator places biohazardous medical waste in a red bag as required in R18-13-1407, a person shall not remove any of the biohazardous medical waste from the bag until the biohazardous medical waste has been treated as required in R18-13-1415.

B. A generator of biohazardous medical waste intending to recycle any portion of the biohazardous medical waste shall segregate that portion of biohazardous medical waste from the portion of biohazardous medical waste that will not be recycled. The generator shall do either of the following:
1. Treat the biohazardous medical waste intended for recycling as required in R18-13-1415 before sending the treated medical waste to a recycler.
2. Follow the requirements in R18-13-1406, R18-13-1407, and R18-13-1408, before either contracting with a transporter to haul or self-hauling the biohazardous medical waste to a treatment facility for treatment. After treatment, the treated medical waste may be sent to a recycler.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3).

R18-13-1417. Disposal Facilities: Design and Operation

An operator of a municipal solid waste landfill that accepts untreated biohazardous medical waste shall comply with all of the following in design and operational requirements:
1. Accept biohazardous medical waste only if packaged according to R18-13-1407.
2. Keep the biohazardous medical waste disposal area separate from the general purpose disposal area.
3. Clearly label the biohazardous medical waste disposal area, informing persons that the disposal area contains untreated medical waste.
4. Not drive directly over deposited medical waste. The operator shall achieve compaction by first spreading a layer of soil that is sufficiently thick to prevent compaction equipment from coming into direct contact with the waste, or dragging waste over the area.
5. Cover the biohazardous medical waste with 6 inches of compacted soil at the end of the working day or more often as necessary to prevent vector breeding and odors.
6. Not allow salvaging of untreated biohazardous medical waste from the landfill.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1418. Discarded Drugs

Discarded drugs that are not hazardous waste, not returned to the manufacturer, and not segregated and labeled on site for transport to a treatment facility shall be destroyed on site by the generator of such drugs by any method that prevents the drugs' use prior to placing the waste out for collection. If federal or state law prescribes a specific method for destruction of discarded drugs, the generator shall comply with that law.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1419. Medical Sharps

A. Medical sharps shall be handled as follows:
1. A generator who treats biohazardous medical waste on site shall place medical sharps in a sharps container after rendering them incapable of creating a stick hazard by using an encapsulation agent or any other process that prevents a stick hazard. Medical sharps encapsulated or processed in this manner are considered to be solid waste.
2. A generator who ships biohazardous medical waste off site for treatment shall either:
   a. Place medical sharps in a medical sharps container and follow the requirements of R18-13-1406, or
   b. Package and send medical sharps to a treatment facility via a mail-back system as prescribed by the instructions provided by the mail-back system operator. The generator shall retain proof of shipping.

B. Notwithstanding subsections (A)(1) and (2), the following syringes do not have to be placed in a medical sharps container:
1. Syringes that have never had a needle (sharp) attached.
2. Syringes where a needle or sharp had been attached and has been separated from the syringe so that no stick or puncture hazard remains with the syringe.

C. Syringes that are exempted by subsections (B)(1) and (2) from being placed in a medical sharps container are not biohazardous medical waste, and may be treated as a solid waste, if they are not composed of biohazardous items listed in R18-13-1401(4) and do not contain discarded drugs or another regulated substance.

Historical Note
New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

R18-13-1420. Additional Handling Requirements for Certain Wastes

A. A person who treats the following biohazardous medical waste categories shall meet the following additional requirements:
1. Cultures and stocks shall be incinerated, autoclaved, or treated by an alternative medical waste treatment method that meets the treatment standards set forth in R18-13-

1415(A). If cultures and stocks are shipped off site for treatment or disposal, they shall be packaged inside a watertight primary container with absorbent packing materials. The primary container shall be placed inside a watertight secondary inner container that is then placed inside an outer container with sufficient cushioning material to prevent shifting between the secondary inner container and the outer container. If federal or state law prescribes specific requirements for packaging and transporting this waste, the treater shall comply with that law.

2. Trace chemotherapy waste shall be incinerated or disposed of in either an approved solid waste or hazardous waste disposal facility.
3. Experimental or research animal waste shall be handled as follows:
   a. Autoclave bedding on site or package as described in R18-13-1407 for off-site treatment or landfilling.
   b. Incinerate animal carcasses on site, or if taken off site for treatment, comply with one of the following requirements:
      i. Package the waste in a leakproof, covered container, label the contents and send to an incinerator or a Department-approved landfill, or
      ii. If treated by a method other than incineration, pre-process by grinding, then treat by a method that achieves the standards of R18-13-1415(A).

B. If a treater uses grinding in combination with another treatment method described in this Article, the treater shall conduct it in a closed system to prevent humans from being exposed to the release of the waste into the environment. If grinding is used for medical sharps, the grinding shall render the medical sharps incapable of creating a stick hazard.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 3776, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 27 A.A.R. 2801 (December 3, 2021), effective January 4, 2022 (Supp. 21-4).

ARTICLE 15. RECODIFIED

Editor's Note: The recodification at 7 A.A.R. 2522 described below erroneously moved Sections into 18 A.A.C. 9, Article 9. Those Sections were actually recodified to 18 A.A.C. 9, Article 10. See the Historical Notes for more information (Supp. 01-4).

Article 15, consisting of Sections R18-13-1501 through R18-13-1514 and Appendix A, recodified to 18 A.A.C. 9, Article 9 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2).

R18-13-1501. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-902 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1002 (Supp. 01-4).

R18-13-1502. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-901 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1001 (Supp. 01-4).

R18-13-1503. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-903 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1003 (Supp. 01-4).

R18-13-1504. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-904 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1004 (Supp. 01-4).

R18-13-1505. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-905 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1005 (Supp. 01-4).

R18-13-1506. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-906 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1006 (Supp. 01-4).

R18-13-1507. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-907 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1007 (Supp. 01-4).

R18-13-1508. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-908 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1008 (Supp. 01-4).

R18-13-1509. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-909 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1009 (Supp. 01-4).

R18-13-1510. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-910 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1010 (Supp. 01-4).

R18-13-1511. Recodified

Historical Note

Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-911 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1011 (Supp. 01-4).

R18-13-1512. Recodified

Historical Note
Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-912 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1012 (Supp. 01-4).

R18-13-1513. Recodified

Historical Note
Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-913 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1013 (Supp. 01-4).

R18-13-1514. Recodified

Historical Note
Adopted effective April 23, 1996 (Supp. 96-2). Section recodified to R18-9-914 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to R18-9-1014 (Supp. 01-4).

Appendix A. Recodified

Historical Note
Appendix A, "Procedures to Determine Annual Biosolids Application Rates", adopted effective April 23, 1996 (Supp. 96-2). Appendix A recodified to 18 A.A.C. 9, Article 9 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Previous note correction: Section actually recodified to 18 A.A.C. 9, Article 10 (Supp. 01-4).

ARTICLE 16. BEST MANAGEMENT PRACTICES FOR PETROLEUM CONTAMINATED SOIL

Article 16, consisting of Sections R18-13-1601 through R18-13-1614, recodified from 18 A.A.C. 8, Article 16 at 8 A.A.R. 5172, effective November 27, 2002; Section and subsection citations within this Article were also updated under A.R.S. § 41-1011(C) (Supp. 02-4).

R18-13-1601. Definitions
In addition to definitions in A.R.S. § 49-851 and A.A.C. R18-13-1301, the terms in this Article shall have the following meanings:

1. "Accumulation site" means an area or site at which PCS from one or more points of generation under the control of the generator of PCS is accumulated for more than 12 hours but less than 90 days prior to treatment, storage, or disposal.
2. "Containment system" means a system designed to contain an accumulation of special waste which meets the design and performance standards in R18-13-1608 and either R18-13-1609 or R18-13-1611.
3. "Excavated" means removed from the earth by scraping or digging a hole or cavity in the earth's surface or otherwise removed from the earth's surface.
4. "Facility" or "special waste receiving facility" means a treatment facility, storage facility, or disposal facility which has been approved by the Director in accordance with A.R.S. § 49-857 or has qualified for Interim Use Facility status pursuant to A.R.S. § 49-858.
5. "Hazardous waste" means hazardous waste as defined in A.R.S. § 49-921(5).
6. "Non-fuel, non-solvent petroleum product" means a petroleum-based substance refined from virgin crude oil that is not used as a solvent or fuel including mineral oils and hydraulic oils.
7. "Non-regulated soils" means soils that are neither hazardous waste, PCS, nor solid waste PCS, and which do not constitute an environmental nuisance pursuant to A.R.S. §§ 49-141 through 49-144.
8. "PCS" or "petroleum-contaminated soils" means soils *excavated for storage, treatment or disposal containing* one or more of the contaminants in the list below at the following concentrations:
   a. Benzene greater than or equal to 1.4 mg/kg,
   b. Toluene greater than or equal to 650 mg/kg,
   c. Ethylbenzene greater than or equal to 400 mg/kg,
   d. Total Xylenes greater than or equal to 420 mg/kg,
   e. Anthracene greater than or equal to 240,000 mg/kg,
   f. Benz(A)anthracene greater than or equal to 21 mg/kg,
   g. Benzo(A)pyrene greater than or equal to 2.1 mg/kg,
   h. Benzo(B)fluoranthene greater than or equal to 21 mg/kg,
   i. Benzo(K)fluoranthene greater than or equal to 210 mg/kg,
   j. Chrysene greater than or equal to 2,000 mg/kg,
   k. Dibenz(A,H)anthracene greater than or equal to 2.1 mg/kg,
   l. Fluoranthene greater than or equal to 22,000 mg/kg,
   m. Fluorene greater than or equal to 26,000 mg/kg,
   n. Indenopyrene greater than or equal to 21 mg/kg,
   o. Naphthalene greater than or equal to 190 mg/kg,
   p. Pyrene greater than or equal to 29,000 mg/kg.
9. "PCS disposal facility" means a site or special waste receiving facility at which the disposal of PCS has been approved by the Director pursuant to A.R.S. § 49-857 or has qualified for Interim Use Facility status pursuant to A.R.S. § 49-858.
10. "Petroleum" means petroleum as defined in A.R.S. § 49-1001(11).
11. "Point of compliance" means point of compliance as defined in A.R.S. § 49-244.
12. "Special waste shipper" means a person who transports special waste for off-site treatment, storage, or disposal.
13. "Solid waste PCS" means excavated soils contaminated with petroleum that are not hazardous waste and not PCS but that contain one or more of the contaminants in the list below at the following concentrations:
   a. Benzene greater than or equal to 0.65 but less than 1.4 mg/kg;
   b. Toluene greater than or equal to 650 mg/kg;
   c. Ethylbenzene greater than or equal to 400 mg/kg;
   d. Total Xylenes greater than or equal to 270 but less than 420 mg/kg;
   e. Anthracene greater than or equal to 22,000 but less than 240,000 mg/kg;
   f. Benz(A)anthracene greater than or equal to 6.9 but less than 21 mg/kg;
   g. Benzo(A)pyrene greater than or equal to 0.69 but less than 2.1 mg/kg;
   h. Benzo(B)fluoranthene greater than or equal to 6.9 but less than 21 mg/kg;
   i. Benzo(K)fluoranthene greater than or equal to 69 but less than 210 mg/kg;
   j. Chrysene greater than or equal to 680 but less than 2,000 mg/kg;
   k. Dibenz(A,H)anthracene greater than or equal to 0.69 but less than 2.1 mg/kg;
   l. Fluoranthene greater than or equal to 2,300 but less than 22,000 mg/kg;

m. Fluorene greater than or equal to 2,700 but less than 26,000 mg/kg;
n. Indenopyrene greater than or equal to 6.9 but less than 21 mg/kg;
o. Naphthalene greater than or equal to 56 but less than 190 mg/kg;
p. Pyrene greater than or equal to 2,300 but less than 29,000 mg/kg.

14. "Storage" means the holding of PCS for a period of more than 90 days but less than one year.
15. "Storage facility" means a special waste receiving facility which engages in storage and which has been approved by the Director pursuant to A.R.S. § 49-857 or has qualified for Interim Use Facility status pursuant to A.R.S. § 49-858.
16. "Temporary treatment facility" means an on-site treatment facility, or an off-site treatment facility owned or operated by the generator of PCS, where the PCS is treated to reduce the contaminants that make it PCS and which complies with the requirements of R18-13-1610.
17. "Treatability study" means a study in which a special waste is subjected to a treatment process to determine any one or more of the following:
    a. Whether the waste is amenable to the treatment process,
    b. What pretreatment is required,
    c. The optimal process conditions needed to achieve the desired treatment,
    d. The efficiency of a treatment process,
    e. The characteristics and volumes of residual contaminants from a particular treatment process,
    f. Toxicological and health effects.
18. "Treatment facility" means a special waste receiving facility at which PCS is treated to reduce the PCS contaminants and, if in the state of Arizona, has been Department-approved pursuant to A.R.S. § 49-857 or has qualified for Interim Use Facility status pursuant to A.R.S. § 49-858.

Historical Note

Recodified from R18-8-1601 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1602. Applicability

A. The Director declares that PCS, as defined in R18-13-1601(8), constitutes a special waste as defined in A.R.S. § 49-851(A)(9). Except as otherwise provided in this Section and R18-13-1603, PCS shall be treated, stored, and disposed of in accordance with this Article. PCS shall not be diluted with any material or substance for purposes of avoiding applicability of these rules.

B. PCS which is used in a treatability study shall comply with all of the following:
1. The owner or operator of the facility where a treatability study is to be conducted shall notify the Department of its intent to conduct a treatability study at least 30 days prior to the commencement of the treatability study.
2. The total quantity of PCS used in the treatability study shall not exceed 5000 kilograms, unless evidence is provided which justifies the need for a larger quantity and permission to use a larger amount is granted by the Director.
3. The owner or operator of the facility shall maintain records detailing the treatability study and the results obtained in accordance with R18-13-1614.
4. The treatability study shall be completed and the PCS shall be removed from the site within one year from commencement of the study.
5. Upon completion of the treatability study, the owner or operator of a facility shall dispose of the PCS used in the treatability study in accordance with this Article.
6. Sampling of the PCS shall be conducted in accordance with R18-13-1604(B) and (C) before and after the treatability study is performed.
7. The performance of the treatability study shall not result in an environmental nuisance pursuant to A.R.S. §§ 49-141 through 49-144.

C. PCS which is excavated pursuant to the requirements of A.R.S. Title 49, Chapter 6, Underground Storage Tank Regulation, and which is not removed from the site, shall comply with the requirements of R18-13-1610 and R18-13-1612.

D. PCS incorporated into asphalt for use in paving is not subject to other provisions of this Article if the owner or operator of the facility where the asphalt is produced does all of the following:
1. Notifies the Department in writing at least 30 days prior to commencing such incorporation,
2. Maintains records in accordance with R18-13-1614,
3. Stores the PCS prior to incorporation in accordance with R18-13-1611.

E. Requirements in this Article for Department-approved facilities do not apply to facilities that are out of state or in Indian Country.

Historical Note

Recodified from R18-8-1602 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1603. Exemptions

A. Solid waste PCS are exempt from the provisions of this Article, except for the requirements in R18-13-1604, and are subject to A.R.S. § 49-761 et seq.

B. Non-regulated soils are exempt from the provisions of this Article, except for the requirements in R18-13-1604, and are exempt from the requirements of A.R.S. § 49-761 et seq.

C. Asphaltic cement which is not hazardous waste is exempt from the requirements of this Article.

D. Soils which are contaminated with petroleum, which have been generated by households, and which are not hazardous waste, shall be exempt from the requirements of this Article.

Historical Note

Recodified from R18-8-1603 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1604. Waste Determination

A. A generator of excavated soil contaminated with petroleum shall determine whether the soil is PCS, solid waste PCS, or non-regulated soil. The basis for the determination shall be maintained for at least three years and shall be made available to the Department upon request. The generator shall make such determination using either of the following methods:
1. Testing the soil pursuant to subsection (B) of this Section. Laboratory analysis of these samples shall be performed

by a laboratory licensed by the Arizona Department of Health Services. Approved testing methods, which identify concentrations for total recoverable extraction of contaminants, shall be used.

2. Application of knowledge of the characteristics of the contaminated soil in light of the known or potential source of the contamination. The Department may require sampling to confirm the accuracy of applied knowledge.

B. Sampling of soils contaminated with petroleum shall be performed in accordance with a site-specific written sampling plan which is consistent with the requirements set forth in either of the following:

1. "Test Methods for Evaluating Solid Waste", EPA SW-846, 3rd Edition Volume II: Field Manual, Physical/Chemical Method, Chapter Nine (SW-846 Third Edition), 1986, Environmental Protection Agency, Washington, D.C. and no future editions or amendments, incorporated herein by reference and on file with the Department and the Office of the Secretary of State.
2. "Quality Assurance Project Plan", Chapter 9, May 1991 Edition, Arizona Department of Environmental Quality, Phoenix, Arizona and no future editions or amendments incorporated herein by reference and on file with the Department and the Office of the Secretary of State.

C. If soil excavated during the initial investigation of a site to determine the extent of contamination is PCS, the PCS may be returned into the excavation site from which the soil was removed if all of the following conditions are met:

1. There is no freestanding liquid within the excavation, unless the State Fire Marshal or other jurisdictional fire authority directs otherwise, and the requirements of subsections (C)(2) and (3) are met.
2. The owner or operator provides notification to the Department that the PCS has been returned to the excavation within 14 days after the return of the PCS to the excavation.
3. The owner or operator completes a site characterization within 120 days and implements remediation within 150 days after the date the site characterization began.

Historical Note

Recodified from R18-8-1604 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1605. Transportation

A. PCS transported to a special waste receiving facility in Arizona shall be transported by a special waste shipper which has met the requirements of R18-13-1303.

B. A special waste shipper shall transport the PCS in closed containers pursuant to R18-13-1611(E) or shall ensure that any vehicle used to transport the PCS is loaded and covered in such a manner that the contents will not blow, fall, leak, or spill from the vehicle.

C. A special waste shipper transporting PCS to a special waste receiving facility in Arizona, except a facility located on Indian country, shall deliver PCS to a special waste receiving facility approved by the Department.

Historical Note

Recodified from R18-8-1605 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-13-1606. Fees

A. In accordance with A.R.S. §§ 49-855(C)(2) and 49-863, the treatment, storage, or disposal facility in this state that first receives a shipment of PCS shall remit to the Department a fee of $6.68 per ton but not more than $66,835.67 per generator site per year for PCS that is transported to the facility.

B. Initial registration fee. Upon making a request for a special waste identification number on a form as provided by the Director pursuant to Article 13, A generator of PCS shall submit to the Department an initial registration fee of $900.

C. Annual registration fee. The Department shall bill an annual registration fee to a generator of PCS or special waste receiving facility that has received facility approval under R18-13-1607 that has not filed a notice of termination of registration with the Department as follows:

1. For a generator of PCS, $750; and
2. For a special waste receiving facility, $5,000.

D. The generator of PCS or special waste receiving facility shall pay the annual registration fee within 30 days of invoice receipt.

E. In accordance with A.R.S. § 49-855(G), a solid waste landfill that pays registration fees under A.R.S. § 49-747 is exempt from the annual registration fee under subsection (C) of this Section.

F. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A), (B), and (C) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (F)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

Recodified from R18-8-1606 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-1607. Facility Approval; Application

A. PCS shall be treated, stored, or disposed only at a PCS disposal facility, storage facility, treatment facility, or temporary treatment facility. A facility located in Arizona shall not be constructed or operated prior to obtaining written approval from the Department, except as provided for in A.R.S. § 49-858.

B. The owner or operator of a PCS treatment, storage, or disposal facility shall submit an application to the Department which contains all of the information required in accordance with A.R.S. § 49-762.

C. In addition to the requirements specified in A.R.S. § 49-762, the application shall contain all of the following:

1. A vicinity map, in a scale not over 1:24,000, which shows where the facility is located with respect to the surroundings, including an indication of the use of the adjacent properties.

2. An engineering report which includes all of the following:
   a. Detailed plans and specifications for the entire facility including manufacturer's performance data and design features of treatment, pollution control, and monitoring equipment.
   b. A site description which includes general information on the geology, hydrogeology, soils, and land use. If a facility is located within the pollution management area of a facility for which an aquifer protection permit has been issued under A.R.S. § 49-241 et seq., then the applicant may resubmit or incorporate by reference the general information.
   c. A background soil sampling plan and results which characterize the site, including the rationale used to determine the locations, depths, and number of samples.
3. A site map, in a scale not to exceed 1:2,400, which clearly identifies where the PCS shall be deposited, containment berms, fencing and security measures, access roads, any improvements, wells, and location of surface water courses.
4. An operational plan which includes all of the following:
   a. General description of the daily operations of the facility and the processes, techniques, or methods to be employed;
   b. The source, amount, concentration of contaminants, and any other relevant information concerning the PCS to be handled;
   c. The schedule for sampling the PCS during treatment to evaluate treatment methods;
   d. Description of plans for final use and disposal of PCS and remediated soil, liners, piping, carbon canisters, and any other contaminated equipment;
   e. Procedures to ensure that only waste which has been characterized is received and that hazardous waste is not received;
   f. Procedures for random inspection of incoming loads to verify that only waste which has been characterized is accepted;
   g. Procedures for collecting and managing run-off which comes in contact with PCS;
   h. Procedures for recordkeeping of all inspection results, training of personnel, and sampling results;
   i. Procedures to control public access, and prevent unauthorized entry and illegal dumping.
5. A contingency plan for emergency preparedness which describes alternatives for storage, treatment, or disposal.
6. A closure plan which includes:
   a. A description of the steps necessary to close the facility, the specific proposed closure activities, and an implementation schedule;
   b. Information on site conditions and characterization of the waste received during the life of the facility;
   c. A description of the sampling plan utilized to sample background soil beneath the site following closure;
   d. A description of plans for use of the land site after closure;
   e. A description of post-closure care.
7. An affidavit that the proposed facility is in compliance with local zoning requirements in effect at the time the application is submitted.

D. Following completion of construction of a facility and prior to placement of PCS on the site, the owner or operator shall submit to the Department a construction certification report, including as-built plans which indicate any changes to the design or operational plans for the facility.

E. Plans required in accordance with this Section shall be sealed by a professional engineer registered in the state of Arizona, if required by statute.

F. A facility shall be in compliance with all other applicable federal, state, and local approvals or permits which are required for the design, construction, and operation of the facility.

Historical Note

Recodified from R18-8-1607 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1608. General Design and Performance Standards

A. A facility which receives PCS for treatment, storage, or disposal shall be designed and operated to ensure compliance with the following performance standards relating to aquifer protection:
1. Pollutants discharged shall in no event cause or contribute to a violation of Aquifer Water Quality Standards, at the applicable point of compliance, or, if the facility is a municipal solid waste landfill, it shall comply with the requirements of A.R.S. § 49-761.01(C).
2. Any pollutant discharged shall not further degrade, at the applicable point of compliance, the quality of any aquifer that already violates an Aquifer Water Quality Standard for that pollutant.

B. A facility which receives PCS for treatment, storage, or disposal shall meet the general design criteria of either subsection (B)(1) or (2) as follows:
1. The PCS shall be held within a containment system designed and constructed to preclude the migration of contaminants into subsurface soil, groundwater, or surface water. The containment system shall meet the following criteria:
   a. Maintain a maximum permeability coefficient of no more than 1×10^{-7} cm/sec;
   b. Be designed to provide structural integrity throughout the life of the facility;
   c. Be designed in accordance with the applicable design criteria set forth in subsection (C) of this Section and R18-13-1609 through R18-13-1613; or
2. An alternative design shall contain, at a minimum, all of the following and shall demonstrate that the design will limit discharges listed in A.R.S. § 49-243(D) to the maximum extent practicable:
   a. The hydrogeologic setting of the facility and the capacity of the liner and soils to preclude discharge to groundwater or surface water;
   b. The operating methods, processes, or other alternatives to be used at the facility;
   c. Additional factors which would influence the quality and mobility of the leachate produced and the potential for that leachate to migrate to groundwater or surface water.

C. A PCS treatment, storage, or disposal facility shall meet the following general design criteria:
1. The facility shall be designed to prevent run-on and run-off. The design shall provide run-on control for the peak discharge from a 24-hour, 25-year storm event. Run-off shall be collected and controlled for at least the water volume resulting from a 24-hour, 25-year storm event.

2. The facility shall not restrict the flow of the 100-year floodplain, reduce temporary water storage capacity of the floodplain, or be maintained in a manner which results in a washout or inundation of the PCS.
3. The owner or operator shall control public access and shall prevent unauthorized vehicular traffic and illegal dumping.
4. The owner or operator shall manage any standing water that has come into contact with the PCS in accordance with rules promulgated pursuant to A.R.S. § 49-761 et seq.

D. A facility which manages PCS in accordance with the requirements of this Article shall be exempt from the aquifer protection permit requirements in accordance with A.R.S. § 49-250(B)(21).

E. A facility which has been issued an aquifer protection permit from the Department shall be exempt from the requirements of subsections (A) and (B) of this Section but shall comply with the requirements of subsection (C).

Historical note

Recodified from R18-8-1608 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1609. Treatment Facility

A. The owner or operator of a PCS treatment facility shall obtain approval from the Department prior to commencement of construction or operation and shall comply with all of the following:
1. Not dilute PCS as a method of treatment, except as allowed in the approved plan for the facility;
2. Treat the PCS or, if the chosen treatment process fails to remediate the soil to below the regulatory thresholds, dispose of the PCS pursuant to R18-13-1613.
3. Sample the treated soil and provide the results of the sampling to the Department within 45 days of completion of the treatment.

B. A PCS treatment facility designed in accordance with R18-13-1608(B)(1) shall comply with the following specific design criteria:
1. At a minimum, a containment system shall include a clay, synthetic, concrete, or asphalt liner component which is placed upon a foundation or prepared subgrade which supports the liner, and resists pressure gradients above and below the liner, to prevent failure due to settlement, compression, or uplift.
2. During construction or installation of a containment system, liners and cover systems shall be inspected for uniformity, damage, and imperfections. Immediately after construction or installation is completed, and prior to placement of PCS within the containment system, the systems shall be checked for both of the following:
   a. Synthetic liners and covers shall be inspected to ensure tight seams and joints and the absence of tears, punctures, or blisters.
   b. Concrete, asphalt, and soil-based liners and covers shall be inspected for imperfections including lenses, cracks, channels, root holes, or other structural non-uniformities that may cause an increase in the permeability of the liner or cover.
3. The liner component shall consist of one of the following:
   a. A synthetic liner which is compatible with the waste and which has a minimum 6” buffer layer of sand or soil between the liner and the PCS.
   b. A compacted soil or admixed liner provided with a minimum 6” buffer layer of sand or soil between the liner and the PCS.
   c. An asphalt or reinforced concrete liner which is not in the drainage area of a dry well and is free of unsealed cracks and seams.
4. Aeration equipment shall be limited to the area above the buffer layers indicated in subsections (B)(2)(a) and (b).
5. The owner or operator of the facility shall utilize protective measures to ensure containment system integrity during placement, treatment, or removal of the PCS.
6. PCS stored at a treatment facility prior to treatment shall be stored in accordance with the requirements of R18-13-1611.

Historical Note

Recodified from R18-8-1609 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-13-1610. Temporary Treatment Facility

A. The owner or operator of a temporary treatment facility shall treat and remove all PCS from the temporary treatment facility within one year from the date of commencement of receipt of PCS for treatment. PCS shall not be diluted to meet any treatment requirement, except in accordance with the approved plan.

B. A temporary treatment facility shall obtain approval from the Department prior to commencing construction or operation. In lieu of the requirements of R18-13-1607(C), an application for approval shall contain all of the following:
1. An affidavit signed by the owner or operator of the temporary treatment facility which states that the facility will comply with the requirements of this Article;
2. An affidavit that the proposed facility is in compliance with local zoning requirements in effect at the time the application is submitted;
3. Application information required pursuant to A.R.S. § 49-762.03(C)) for plan approval for temporary treatment facilities;
4. A vicinity map, in a scale not over 1:24,000, which shows where the facility is located with respect to the surroundings, including an indication of the use of the adjacent properties;
5. A site description which includes general information on the geology, hydrogeology, soils, and land use;
6. A background soil sampling plan and results which characterize the site, including the rationale used to determine the locations, depths and number of samples;
7. A site map, in a scale not to exceed 1:2,400, which clearly identifies where the PCS shall be deposited, containment berms, fencing and security measures, access roads, any improvements, wells, and location of surface water courses;
8. An operational plan which includes all of the following:
   a. General description of the daily operations of the facility and the processes, techniques, or methods to be employed;
   b. The source, amount, concentration of contaminants, and any other relevant information concerning the PCS to be handled;
   c. The schedule for sampling the PCS during treatment to evaluate treatment methods;

d. Description of plans for final use and disposal of PCS and remediated soil, liners, piping, carbon canisters, and any other contaminated equipment;

9. A closure and post-closure care plan which includes both of the following:
   a. A description of the steps necessary to close the facility, the specific proposed closure activities, and an implementation schedule;
   b. A description of the sampling plan utilized to sample background soil beneath the site following closure.

C. A temporary treatment facility shall not be operated for more than one year unless a one-time extension is granted by the Department. The Department may grant an extension of up to one additional year if all of the following are met:
1. The inability to perform is caused by events beyond the control of the owner or operator, including acts of God, which include flood, tornado, earthquake, and causes beyond the owner's or operator's control including fire, explosion, unforeseen strikes or work stoppages, riot, sabotage, public enemy, war, requirements established by courts of competent jurisdiction, and other governing law. Financial inability to perform shall not be justification for an extension.
2. The owner and operator submits to the Department verifiable documentation which includes all of the following:
   a. A description of the circumstances causing any delay;
   b. Evidence of the existence of the circumstance;
   c. A description of past, present, and future measures taken or to be taken by the owner or operator to prevent or minimize any delay;
   d. A timetable by which the owner and operator will resume and complete required performance.
3. The request is received at least 60 days prior to the expiration of the year in which the facility first received PCS. Where the Department grants an extension, that extension shall be granted prior to the expiration of the deadline and communicated to the owner or operator in writing.

D. A temporary treatment facility shall meet the design criteria as specified in R18-13-1608 and R18-13-1609(B).

E. PCS stored at a temporary treatment facility prior to treatment shall be stored in accordance with the requirements of R18-13-1611.

F. In accordance with A.R.S. §§ 49-762.03(C), a temporary treatment facility shall be exempt from the notice and public hearing requirements set forth in A.R.S. § 49-762.04(A).

Historical Note

Recodified from R18-8-1610 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1611. Storage Facility

A. A shipment of PCS shall not be stored for a period exceeding one year from the date the PCS is received.

B. Each shipment of contaminated soil shall be identified by source and stored in a manner which does not allow commingling of different shipments until all sampling results have been obtained. PCS shall be stored within an approved containment system and shall not be commingled with treated soils.

C. A PCS storage facility shall obtain approval from the Department prior to commencement of construction or operation. A PCS storage facility designed in accordance with R18-13-1608(B)(1) shall comply with either of the following:
1. The containment system shall meet the requirements of R18-13-1609(B).
2. The PCS shall be stored in tanks or containers which meet the requirements of subsection (E) of this Section.

D. A PCS storage area or each tank or container used for storage shall be marked as follows:

CAUTION: CONTAINS PETROLEUM-CONTAMINATED SOIL
GENERATOR NAME:
GENERATOR ID#:
ACCUMULATION START DATE:

The owner or operator of the storage facility shall fill in the accumulation start date at the time the PCS is placed into storage. The letters shall be legible, not obstructed from view, on a high contrast background, and sufficiently durable to equal or exceed the duration of storage. Lettering size shall be 2.5 cm (1 inch) and in Sans Serif, Gothic, or Block style.

E. A tank or container used to store PCS shall meet all of the following requirements:
1. Prevent leakage of PCS and any free liquids from the tank or container;
2. Be made of, or lined with, materials which will not react with the PCS;
3. Be kept closed during storage except to add or remove PCS;
4. Not be opened, handled, or stored in a manner which may rupture the tank or container or cause it to leak;
5. Shall be inspected monthly by the owner or operator of the storage facility for leaks and for deterioration. A written record of the inspection shall be prepared at the time of the inspection and shall document corrective action, if any, taken as a result of the inspection.

F. A PCS storage facility at which PCS is stored in piles shall comply with both of the following:
1. All storage piles shall be covered or otherwise managed to control wind dispersal of the PCS.
2. Storage piles of PCS shall be inspected weekly and a written record of the inspection shall be prepared at the time of the inspection which documents any corrective action taken as a result of the inspection. The record shall document detection of any of the following:
   a. Deterioration, malfunctions, or improper operation of run-on and run-off control systems;
   b. Malfunctioning of wind dispersal control systems;
   c. The presence of leachate in and the malfunctioning of any leachate collection and removal systems.

Historical Note

Recodified from R18-8-1611 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-13-1612. Accumulation Sites

A. PCS from one or more points of generation under the control of a single generator may be accumulated in an accumulation site under the control of that generator for up to 90 days prior to shipment of the PCS to a storage, disposal, or treatment facility.

B. An accumulation site shall comply with the storage facility requirements set forth in R18-13-1611, except subsection (A) of that Section. An accumulation site shall not be required to comply with the requirements in R18-13-1607.

C. While PCS is at an accumulation site, the owner or operator shall control public access and prevent unauthorized vehicular

traffic and illegal dumping. PCS shall be managed to prevent the PCS from being exposed to storm water run-on or run-off.

Historical Note
Recodified from R18-8-1612 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-13-1613. Disposal

A. PCS shall be disposed at a special waste receiving facility which has been approved for the disposal of PCS, or at a hazardous waste management facility as defined in R18-13-260(E)(13).

B. A PCS disposal facility designed in accordance with R18-13-1608(B)(1) shall comply with the following specific design criteria:
1. The disposal facility shall be designed with a composite liner, as defined in subsection (B)(2), and a leachate collection system that is designed and constructed to maintain less than a 12-inch depth of leachate over the liner.
2. For purposes of this Section, "composite liner" means a system consisting of two components: the upper component shall consist of a minimum 30-mil flexible membrane liner (FML) and the lower component shall consist of at least a two-foot layer of compacted soil with a permeability coefficient of no more than 1×10^{-7} cm/sec. FML components consisting of high density polyethylene (HDPE) shall be at least 60 mil thick. The FML component shall be installed in direct and uniform contact with the compacted soil component.

Historical Note
Recodified from R18-8-1613 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4). Amended by final expedited rulemaking at 27 A.A.R. 57, with an immediate effective date of January 5, 2021 (Supp. 21-1).

R18-13-1614. Records

Records required to be kept pursuant to this Article shall be maintained by the owner or operator and made available for inspection by the Director for a period of three years or longer during the course of an enforcement action or litigation.

Historical Note
Recodified from R18-8-1614 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

ARTICLE 19. LEAD ACID BATTERY RECYCLING

R18-13-1901. Collection or Recycling Facility of Lead Acid Batteries; Registration; Fees

A. Initial registration. The owner or operator of an existing collection or recycling facility that accepts lead acid batteries as of the effective date of this Section shall register with the Department by March 1, 2025, on a form approved by the Department. A collection or recycling facility shall not begin operation to accept lead acid batteries until the owner or operator registers with the Department on a form approved by the Department that includes a statement that the facility is in compliance with A.R.S. § 44-1322. The owner or operator of a new collection or recycling facility of lead acid batteries shall submit an initial registration fee of $810 at the time of registration under this subsection.

B. Annual registration fee. The Department shall bill an annual registration fee of $675 to a registered collection or recycling facility that has not filed a notice of termination of registration with the Department. The owner or operator of a registered collection or recycling facility shall pay the annual registration fee within 30 days of invoice receipt.

C. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A) and (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:
1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (C)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

D. For purposes of this Section, "lead acid battery" means a battery with a core of elemental lead and a capacity of six or more volts that is suitable for use in a vehicle or a boat.

Historical Note
New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 20. USED OIL

R18-13-2001. Definitions

A. "40 CFR 279", and any section therein, refers to 40 CFR part 279, as amended on January 1, 1997, and no future editions or later amendments. Copies of 40 CFR 279 are available at https://www.govinfo.gov/app/collection/cfr/. Copies are on file with the Department.

B. "CFR" means the Code of Federal Regulations.

C. "Department" means the Arizona Department of Environmental Quality.

D. "Used oil" means the same as defined in 40 CFR 279.1 and includes oil that has been contaminated as a result of handling, transportation, or storage.

E. "Used oil collection center" means the same as defined in 40 CFR 279.1.

F. "Used oil burner" means the same as defined in 40 CFR 279.1.

G. "Used oil fuel marketer" means the same as defined in 40 CFR 279.1.

H. "Used oil handler" means a used oil burner, used oil marketer, used oil transporter, or used oil processor.

I. "Used oil processor" means the same as defined in 40 CFR 279.1.

J. "Used oil transporter" means the same as defined in 40 CFR 279.1.

Historical Note
New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2002. Used Oil Handler Registration; Fee

A. Initial registration. A new used oil handler that has received, or is required to obtain, an EPA identification number pursuant to 40 CFR 279 shall not begin operation until the owner or operator registers with the Department on a form approved by the Department. A new used oil handler shall submit an initial registration fee at the time of registration under this subsection as follows:

1. For a used oil processor, $9,000;
2. For a used oil burner, $15,000;
3. For a used oil transporter, $1,800; and
4. For a used oil fuel marketer, $1,800.

B. Annual registration fee. The Department shall bill an annual registration fee to a used oil handler that has received, or is required to obtain, an EPA identification number pursuant to 40 CFR 279 that has not filed a notice of termination of registration with the Department as follows:

1. For a used oil processor, $7,500;
2. For a used oil burner, $12,500;
3. For a used oil transporter, $1,500; and
4. For a used oil fuel marketer, $1,500.

C. The registered used oil handler shall pay the annual registration fee within 30 days of invoice receipt.

D. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsections (A) and (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (D)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2003. Used Oil Collection Center Identification Number; Requirements

A. A used oil collection center shall request a used oil collection center identification number on a form provided by the Director pursuant to A.R.S. § 49-802(C) that contains all of the following:

1. The company name;
2. The name of the owner of the company;
3. The mailing address and telephone number of the company;
4. The location of the collection center; and
5. A description of the type of used oil activity at the company.

B. Within 30 days of receiving the completed form, the Director shall issue the identification number to the used oil collection center.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 21. SOLID WASTE LANDFILL REGISTRATION AND DISPOSAL FEES

Article 21, consisting of Sections R18-13-2101 through R18-13-2103, made by final rulemaking at 9 A.A.R. 1770, effective July 14, 2003 (Supp. 03-2).

R18-13-2101. Definitions

In addition to the definitions in A.R.S. §§ 49-701 and 49-701.01, for the purpose of this Article, the terms used in this Article have the following meanings:

1. "Defined time period" means the 12-month period that begins on July 1 of a calendar year and ends on June 30 of the following calendar year and consists of the actual number of calendar days in that 12-month period.
2. "Disposal fee invoice" means the quarterly landfill disposal fee invoice the Department mails to a landfill operator, on which the landfill operator indicates the amount of waste received and the amount of the disposal fees owed to the Department as required under A.R.S. § 49-836.
3. "Local public facility" means a facility operated pursuant to A.R.S. § 49-741.
4. "Recycling residue" means waste generated from recycling:
   a. Solid waste; or
   b. Effluent from a secondary wastewater treatment plant or wastewaters.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 1770, effective July 14, 2003 (Supp. 03-2). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2102. Solid Waste Landfill Registration; Annual Registration Fee

A. An operator of a new solid waste landfill shall register the solid waste landfill with the Department on a form approved by the Department.

B. An existing solid waste landfill shall pay an annual registration fee within 30 days of receipt of an invoice from the Department according to the following:

1. For solid waste landfills that received less than 60,000 tons during the defined time period, $5,000.
2. For solid waste landfills that received at least 60,000 tons but less than 225,000 tons during the defined time period, $10,000.
3. For solid waste landfills that received 225,000 tons or more during the defined time period, $18,565.

C. The Department shall determine the amount of waste received by a solid waste landfill by one of the following methods:

1. As the reported tons of solid waste received on the disposal fee invoices over the defined time period; or
2. As the reported units of compacted or uncompacted solid waste received on the disposal fee invoices and reported under R18-13-2104 over the defined time period.

D. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (C)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage

and install them in the billing software as soon as practicable.

Historical Note
New Section made by final rulemaking at 9 A.A.R. 1770, effective July 14, 2003 (Supp. 03-2). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2103. Landfill Closure and Post-Closure Care Obligations; Fees

A. The Department shall calculate and the solid waste landfill shall pay the annual landfill registration fee until the first defined time period after the solid waste landfill stops accepting waste.

B. From the time a solid waste landfill stops accepting waste as specified in subsection (A), until the owner or operator of the solid waste landfill has completed closure and is released from its obligation for post-closure care as required by A.R.S. §§ 49-761 or 49-770, the annual registration fee is $3,500.

C. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (B) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.

2. Round the result from subsection (C)(1) to the nearest cent. ADEQ shall post the new amounts on its webpage and install them in the billing software as soon as practicable.

Historical Note
New Section made by final rulemaking at 9 A.A.R. 1770, effective July 14, 2003 (Supp. 03-2). Amended by final rulemaking at 18 A.A.R. 1217, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2104. Solid Waste Landfill Disposal Fee; Exemptions

A. The operator of a solid waste landfill shall pay to the Department the disposal fee required by A.R.S. § 49-836 as follows:

1. $.58 for each six cubic yards of uncompacted solid waste;
2. $.58 for each three cubic yards of compacted solid waste; or
3. $.58 per ton of solid waste.

B. A solid waste landfill that receives only waste generated on site shall compute the fee in subsection (A) of this Section by one of the following methods:

1. By actual volume or weight; or
2. By estimate based on landfill capacity use, volume or number of waste loads or any other reasonable means for approximating the volume or weight of disposed waste.

C. Facilities that generate recycling residue shall pay the disposal fee required by A.R.S. § 49-836 as follows, to an annual maximum of $34,942.20, for on-site disposal:

1. $.29 for the dry weight or volume of the recycling residue generated; or
2. $.29 for the dewatered weight or volume of the recycling residue generated.

D. A person who for a fee disposes of waste in a solid waste landfill that is not regulated by the Department shall keep accurate records of the waste disposed of in those landfills and shall pay to the Department the disposal fee as prescribed in subsection (A) of this Section.

E. The operator of a local public facility that does not have on-site operators or scales shall pay to the Department a fee that shall be calculated by multiplying the population of the political subdivision served by the local public facility by $.16.

F. A person who is subject to fees under this Section shall sign and submit a form prepared by the Department with each fee payment. The form shall state the total volume or weight of solid waste disposed of at that landfill during the payment period.

G. The following are exempt from the requirements of this Section:

1. Persons disposing of a load containing less than six cubic yards of uncompacted solid waste or three cubic yards of compacted solid waste.
2. A site used solely for the reclamation of land through the introduction of landscaping rubble or inert material.
3. Material produced in connection with a mining or metallurgical operation.

Historical Note
New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

ARTICLE 22. NEW TIRE SELLERS

R18-13-2201. Definitions

A. "Motor vehicle" means any automobile, motorcycle, truck, trailer, semitrailer, truck tractor and semitrailer combination or other vehicle operated on the roads of this state, used to transport persons or property and propelled by power other than muscular power, but motor vehicle does not include traction engines, vehicles that run only on a track, bicycles or mopeds.

B. "Tire seller" means a retail seller of motor vehicle tires or a wholesale seller of motor vehicle tires who sells tires to the state, to a political subdivision of the state, or to a private entity not for resale, and includes a person whose retail sales of new motor vehicle tires are not in the ordinary course of business.

Historical Note
New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

R18-13-2202. New Tire Sellers; Fee

A. Beginning April 1, 2025, a tire seller of new motor vehicle tires shall collect a fee of 2% of the retail sales price, not including transaction privilege tax, of each tire to a maximum of $4.66 per tire. For the sale of a new motor vehicle with a gross weight of under 10,000 pounds by a manufacturer to a wholesaler or retailer, if the sales price of the tires is not specified by the manufacturer, the tire seller shall collect a fee of $2.33 per tire.

B. A seller required to collect a fee under subsection (A) of this Section may credit $.10 per tire against the fee for expenses incurred by the seller for accounting and reporting related to the fee.

C. A seller who collects a fee under subsection (A) of this Section shall remit the fee to the Arizona Department of Revenue for deposit on a quarterly basis in the waste tire fund established pursuant to section A.R.S. § 44-1305.

D. Beginning July 1, 2026, the Director shall adjust the fee amounts in subsection (A) of this Section annually by the following method, except that no adjustment in any year shall exceed four percent of the fee amount of the preceding year:

1. Multiply the amount by the October CPI for the most recent year and then divide by the October CPI for the year 2024. The October CPI for any year is the Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items, published by the United States Department of Labor at www.bls.gov/cpi/regional-resources.htm, for October of that year.
2. Round the result from subsection (D)(1) to the nearest cent. ADEQ shall notify the Arizona Department of Revenue of the adjusted fee amounts and post the new amounts on its webpage as soon as practicable.

Historical Note

New Section made by final rulemaking at 31 A.A.R. 348 (January 24, 2025), with an immediate effective date of December 24, 2024 (Supp. 24-4).

41-1003. Required rule making

Each agency shall make rules of practice setting forth the nature and requirements of all formal procedures available to the public.

44-1302. Sale of new tires; fees; acceptance of waste tires; notice; definition

(Rpld. 1/1/26)

A. Until the effective date of the fees authorized pursuant to subsection N of this section, a retail seller of new motor vehicle tires shall collect a fee of two percent of the purchase price for each tire sold but not more than $2 for each tire sold, which shall be listed separately on any invoice.

B. Until the effective date of the fees authorized pursuant to subsection N of this section, if in a sale of a motor vehicle by a manufacturer to a wholesaler or retailer the cost of the tires as a separate component of the motor vehicle is not specified by the manufacturer, the fee per tire to be collected shall not exceed one-half of the maximum fee allowed under this section for a motor vehicle with a gross vehicle weight under ten thousand pounds.

C. Until the effective date of the fees authorized pursuant to subsection N of this section, a wholesale seller of new motor vehicle tires who sells tires to this state or a political subdivision of this state or who sells tires to a private entity that does not resell the tires shall collect a fee of two percent of the purchase price for each tire sold but not more than $2 for each tire sold, which shall be listed separately on any invoice.

D. The fee shall be paid to the department of revenue for deposit on a quarterly basis in the waste tire fund established by section 44-1305. Unless the context otherwise requires, title 42, chapter 5, article 1 governs the administration of the fees imposed by this section, except that:

1. A separate license is not required for the fee imposed by this section. The fee shall be reported and paid on forms prescribed by the department.

2. A separate bond is not required of employees of the department in administering the fee.

3. The fee imposed by this section may be included without segregation in any notice and lien filed for unpaid transaction privilege taxes.

4. The fee imposed by this section shall not be included in computing the tax base, gross proceeds of sales or gross income from the sale of new motor vehicle tires for the purposes of title 42, chapter 5 and is not subject to any transaction privilege, sales, use or other similar tax levied by a city, town, or special taxing district.

E. A retail seller of new motor vehicle tires or a wholesale seller of new motor vehicle tires shall accept waste tires from customers at the point of transfer. A seller shall accept up to the number of new tires sold at that point of transfer annually and may accept additional tires from customers. The seller shall accept tires from a customer if the customer presents a receipt within thirty days after the date of purchase. This subsection does not apply to sellers of new motor vehicles.

F. A designated waste tire collection site established pursuant to section 44-1304, subsection G, shall require a manifest for the disposal of waste tires at the site and shall establish registration procedures for the collection site.

G. A seller of motor vehicle tires or the seller's designee complying with this section shall provide a manifest to the designated collection site established pursuant to section 44-1304, subsection G, to dispose of waste tires and shall be preregistered at the designated collection site.

H. A county or private enterprise under contract with a county may refuse to accept waste tires and may impose a tire tipping fee, not exceeding an amount necessary to recover the costs of administering a waste tire program

established pursuant to section 44-1305, if any of the following conditions exists:

1. The private enterprise is not receiving waste tire fund monies from the county pursuant to section 44-1305.

2. Waste tires are manifested as originating outside of the county.

3. A seller of motor vehicle tires complying with subsection E of this section, is not preregistered at a collection site where registration is required.

4. The county's pro rata share of the total waste tire fund is two percent or less, and after a year of receiving monies from the waste tire fund, the county determines that the cost of waste tire disposal exceeds the amount received.

I. A designated waste tire collection site established pursuant to section 44-1304, subsection G, shall not refuse to accept waste tires from a resident of the county who is not a seller of motor vehicle tires and shall not impose a tire tipping fee for up to five waste tires per year from a resident of the county who is not a seller of motor vehicle tires. Such waste tire collection sites may impose a tire tipping fee on waste tires in excess of five tires per year from a resident of the county who is not a seller of motor vehicle tires.

J. A seller of motor vehicle tires who is subject to subsection E of this section shall post a written notice that is clearly visible in the public sales area of the establishment and that contains the following language:

It is unlawful to throw away a motor vehicle tire.

Recycle all used tires.

This retailer is required to accept scrap tires if any new or recapped tires are purchased here. When any new tire is purchased, an additional fee will be charged.

K. An advertisement or other printed promotional material related to the retail sale of tires shall contain the following notice in bold print:

State or local taxes or surcharges for environmental protection will be an extra charge.

L. A credit of $.10 per tire is allowed against the fee imposed by this article for expenses incurred by the payer of the fee for accounting for and reporting the fees.

M. This section does not apply to a person whose retail sales of new motor vehicle tires are not in the ordinary course of business.

N. The director of environmental quality shall establish by rule the fees, including any associated maximum fees, required by subsection A, B or C of this section.

O. For the purposes of this section, "retail seller of new motor vehicle tires" and "wholesale seller of new motor vehicle tires" includes those persons who sell or lease new motor vehicles to others in the ordinary course of business.

44-1304. Disposal of waste tires

A. The disposal of waste tires in landfills and the incineration of those tires is prohibited, except as provided in subsection C or D of this section or in accordance with rules adopted by the director of the department of environmental quality. An owner or operator of a solid waste disposal site shall not knowingly accept waste tires for disposal unless the director has approved waste tire disposal pursuant to the site's solid waste facility plan.

B. A person shall not dispose of motor vehicle waste tires unless the waste tires are disposed of at a waste tire collection site or as provided in subsection C or D of this section or in accordance with rules adopted by the director of the department of environmental quality.

C. Off-road motor vehicle waste tires shall not be disposed of or reused except in accordance with this article or rules adopted by the director of the department of environmental quality. In the absence of rules, off-road motor vehicle waste tires shall not be disposed of or put to beneficial use in a manner that results in an environmental nuisance pursuant to section 49-141. Mining industry off-road motor vehicle waste tires may be disposed of by burial at a mining facility in the same manner allowed by rule in effect on February 1, 1996 until the director by rule determines on-site recycling methods that are technically feasible and economically practical.

D. The following are permissible methods of waste tire disposal:

1. Retreading or recapping.

2. Constructing collision barriers.

3. Controlling soil erosion or for flood control only if used in accordance with approved engineering practices.

4. Chopping or shredding for use as waste tire daily cover material at a solid waste landfill.

5. Grinding for use in asphalt and as a raw material for other products.

6. Sludge composting.

7. Using as playground equipment.

8. Incinerating or using as a fuel or pyrolysis if allowed by laws, regulations or ordinances relating to burning or fuel.

9. Hauling to out-of-state collection or processing sites.

10. Tire monofills if tires are chopped or shredded.

11. Use as a building material for building construction in accordance with applicable city, town and county building codes.

12. Agricultural purposes as bumpers on agricultural equipment or as ballast to maintain covers at an agricultural site.

E. For the purposes of subsection D, paragraph 10 of this section, "tire monofill" means a solid waste disposal facility or a part of a facility used for the exclusive purpose of the disposal of waste tires that are chopped, shredded or cut up for the purpose of disposal.

F. The director of the department of environmental quality, by rule, may authorize other methods of disposal of waste tires. If used as daily cover material for a solid waste landfill, the director shall specify the size of the parts into which the material must be cut. The director may allow the disposal of whole tires, including with or without rims, pursuant to a solid waste facility plan if disposed of in either of the following manners:

1. As a layer immediately above the base liner system of a new solid waste landfill.

2. Buried with other waste at a depth of fifty feet or more.

G. Each county shall provide at least one designated waste tire collection site in the county to receive waste tires from a seller of motor vehicle tires or the seller's designee complying with section 44-1302. Additional waste tire collection sites or disposal arrangements shall be established by the county as necessary for the disposal of waste tires as provided in subsection B of this section. All collection sites established under this subsection shall comply with applicable zoning and ordinance regulations. The county or private enterprise receiving waste tire fund monies from a county shall not impose a tire tipping fee and shall not refuse to accept waste tires from a seller of motor vehicle tires or the seller's designee complying with section 44-1302, unless provided for in section 44-1302, subsection H.

H. The director of the department of environmental quality shall issue or revise a permit required pursuant to title 49, chapter 3, article 2 for a facility that applies to the department of environmental quality for a permit or a revision to a permit to burn a tire derived fuel if the applicant can demonstrate that the burning of tire derived fuel will result in equal to or lower emissions than the burning of other types of fuel for which the department of environmental quality may issue permits and the applicant has met all requirements of titles I and V of the clean air act. Any tests involving tire derived fuel conducted by the United States environmental protection agency or any test results involving tire derived fuel approved by the United States environmental protection agency, including hazardous air pollutant studies, shall be accepted by the department of environmental quality. No duplicate testing by the applicant shall be required, except that the applicant shall meet all testing requirements under titles I and V of the clean air act. For the purposes of this subsection, "clean air act" has the same meaning prescribed in section 49-401.01.

44-1306. Department of environmental quality; rules; annual county report to the department

A. The department of environmental quality shall adopt and enforce rules to carry out the provisions of this article.

B. Each county shall report by September 30 of each year to the department of environmental quality the following for the preceding fiscal year and provide a summary for each waste tire collection site:

1. The number of eligible waste tires collected each month at each collection site with a list of registered tire dealers delivering the tires to each collection site and the number of tires from each dealer.

2. The number of tires collected each month at each collection site from sources other than registered tire dealers.

3. The number of tires transported out of each collection site.

4. The estimated number of tires remaining at each collection site at the end of the preceding fiscal year.

5. Summaries of all manifests tracking the incoming and outgoing waste tires at each collection site.

6. The amount of monies received and expended pursuant to the waste tire program.

44-1322. Disposal of lead acid batteries

A. The disposal of lead acid batteries in landfills and the incineration of those batteries is prohibited.

B. An owner or operator of a solid waste disposal facility shall not knowingly accept a lead acid battery for disposal.

C. A lead acid battery shall be discarded or disposed of only as follows:

1. A lead acid battery retailer or wholesaler may deliver a lead acid battery to any one of the following:

(a) A permitted secondary lead smelter.

(b) A battery manufacturer.

(c) A collection or recycling facility authorized by the federal environmental protection agency or the department of environmental quality.

(d) In the case of battery retailers only, an agent of a battery wholesaler.

2. A person other than a lead acid battery retailer or wholesaler may deliver a lead acid battery to any one of the following:

(a) A lead acid battery retailer or wholesaler.

(b) A permitted secondary lead smelter.

(c) A collection or recycling facility authorized by the federal environmental protection agency or the department of environmental quality.

D. The director of the department of environmental quality shall register collection and recycling facilities that accept lead acid batteries. The director shall require collection and recycling facilities that handle lead acid batteries to pay an initial registration fee and annual fee established by rule. The director shall deposit, pursuant to sections 35-146 and 35-147, registration fees in the solid waste fee fund established by section 49-881.

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-701.01. Definition of solid waste; exemptions

A. "Solid waste" means any garbage, trash, rubbish, waste tire, refuse, sludge from a waste treatment plant, water supply treatment plant or pollution control facility and other discarded material, including solid, liquid, semisolid or contained gaseous material.

B. The following are exempt from the definition of solid waste:

1. Hazardous waste regulated pursuant to chapter 5 of this title.

2. Waste that contains radioactive materials subject to the atomic energy act of 1954 (42 United States Code sections 2011 through 2297; 68 Stat. 919) or title 30, chapter 4.

3. Any discharge from a facility regulated pursuant to chapter 2, article 3 of this title.

4. Any discharge regulated pursuant to section 402 or 404 of the clean water act (33 United States Code sections 1342 and 1344).

5. Domestic sewage.

6. Discharges into a publicly or privately owned treatment works including the treatment works and the sewer collection system.

7. Irrigation waters.

8. Irrigation return flows.

9. Reclaimed wastewater from wastewater reuse facilities.

10. Leachate resulting from the direct natural infiltration of precipitation through undisturbed regolith or bedrock, if pollutants are not added by man.

11. Storm water.

12. Substances and materials that remain on site as specifically approved in a work plan or other approval by the department in the course of remedial or corrective actions undertaken pursuant to any of the following:

(a) Chapter 2, articles 3 and 5 of this title.

(b) Chapters 5 and 6 of this title.

(c) The comprehensive environmental response, compensation, and liability act of 1980 (P.L. 96-510; 94 Stat. 2767; 42 United States Code sections 9601 through 9675).

(d) The federal water pollution control act amendments of 1972 (P.L. 92-500; 86 Stat. 816; 33 United States Code sections 1251 through 1387).

(e) The resource conservation and recovery act of 1976 (P.L. 94-580; 90 Stat. 2795; 42 United States Code sections 6901 through 6992).

(f) Chapter 1, article 5 of this title.

13. Water used in gardening, lawn care, landscape maintenance and related activities.

14. Discharges from ponds used for watering livestock and wildlife.

15. Landscaping rubble used to reclaim land.

16. Mining industry off-road waste tires that are larger than three feet in outside diameter and that are buried at the site and rock, copper concentrate, leachate material, tailing and slag that are either of the following:

(a) Produced and maintained at the site of the mining or metallurgical operation.

(b) Not maintained at the site of a mining or metallurgical operation and that are consolidated at the site of a mining or metallurgical operation that is both of the following:

(i) Located within fifty miles of the materials' current off-site location, or, on written approval of the director, located at a site that is farther than fifty miles of the materials' current off-site location.

(ii) Regulated by a permit issued pursuant to chapter 2, article 3 of this title or by an approved work plan pursuant to chapter 1, article 5 of this title.

17. Inert material.

18. Effluent as defined in section 45-101.

19. Return flows from irrigated agriculture.

20. Materials that are generated on site and that are processed or reused on site if the following conditions are met:

(a) On-site processing or reuse of the materials is technically feasible.

(b) At least seventy-five percent by weight or volume of the materials that are accumulated on site for processing or reuse each year are processed or reused in that same year.

(c) Materials that are accumulated on site for processing or reuse are managed in a manner that:

(i) Controls wind dispersion and other surface dispersion of the materials so that the materials do not create a public nuisance or pose an imminent and substantial endangerment to public health or the environment. Visible materials that are dispersed beyond the boundaries of the site shall be collected on a regular basis by the operator of the site.

(ii) Does not discharge hazardous substances as defined in section 49-281 to surface water, groundwater or subsurface soils in a manner that creates a public nuisance or poses an imminent and substantial endangerment to public health or the environment.

(iii) Controls vector breeding and fire hazards.

(iv) Controls public access to the materials by the use of reasonable measures.

21. Recovered feedstocks if those materials are processed through advanced recycling and if the advanced recycling facilities are operated in a manner that:

(a) Controls wind dispersion and other surface dispersion of recovered feedstock from the advanced recycling facility so that the recovered feedstock does not create a public nuisance or pose an imminent and substantial endangerment to public health or the environment, including requiring the operator of the advanced recycling facility to recover on a regular basis any visible recovered feedstock that is dispersed beyond the boundaries of the advanced recycling facility.

(b) Does not discharge hazardous substances as defined in section 49-281 to surface water, groundwater or subsurface soil in a manner that creates a public nuisance or poses an imminent and substantial endangerment to

public health or the environment.

(c) Does not cause a nuisance, vector breeding or fire hazard by storing recoverable feedstocks or post-use polymers.

(d) Requires recoverable feedstocks or post-use polymer to be converted using an advanced recycling process after storage of less than ninety days or, for advanced recycling operations on government property and if allowed pursuant to any contractual agreements with this state or local government, the storage period may be extended to one hundred twenty days.

C. Any person may petition the director to exempt a substance as solid waste by submitting a written request to the director. The request may be for a statewide or site-specific exemption. Within ninety days after receipt of a written request, the director shall determine whether to exempt the substance. The director's determination shall be based on a demonstration that the substance is unlikely to cause or substantially contribute to a threat to the public health or the environment. The procedure is as follows:

1. Within thirty days after the director's determination to add a substance on a site-specific basis, a notice of that determination shall be published in the Arizona administrative register. A site-specific determination is effective on the date of the director's determination.

2. Within thirty days after the director's determination to add a substance on a statewide basis, the director shall initiate rulemaking to add the substance to the list of exemptions. This rulemaking is exempt from the requirements of title 41, chapter 6, except for the requirements regarding public notice. The effective date for the final rule is the effective date for the exemption.

D. An advanced recycling facility is subject to routine inspection by the department to ensure compliance with this chapter and shall provide a onetime notice to the department of the facility's location on the opening of a new advanced recycling facility.

E. This section does not affect the department's authority to require abatement of any environmental nuisance pursuant to chapter 1, article 3 of this title.

49-705. Integration of solid waste programs

The director shall consider and integrate federal and state laws and rules and all of the programs authorized in this chapter and those other programs regulating solid waste management that are administered by the department for purposes of administration and enforcement and shall avoid duplication and dual regulation to the maximum extent practicable.

49-706. Waste programs general permits; rules; fee

A. The department may establish a general permit for any permit or license issued pursuant to this chapter. The general permit consists of the following:

1. The director may issue by rule a general permit for a defined class of facilities, activities or practices if all of the following apply:

(a) The cost of issuing individual permits or licenses cannot be justified by any environmental or public health benefit that may be gained from issuing individual permits.

(b) The facilities, activities or practices in the class are substantially similar in nature.

(c) The director is satisfied that appropriate conditions under a general permit for operating the facilities or conducting the activity or practice will meet the applicable requirements prescribed in this chapter for the facility, activity or practice.

2. In addition to other applicable enforcement actions, if a person is in substantial noncompliance with the conditions of a general permit, the director may revoke coverage under the general permit for that person and require that the person obtain an individual permit. A general permit may be revoked, modified or suspended by rule if the director determines that any of the conditions prescribed in paragraph 1 no longer apply.

3. Rules adopted pursuant to paragraph 1 may require a person seeking coverage under a general permit to notify the director of the person's intent to operate pursuant to the general permit and to pay the applicable fee established by the director by rule.

B. The director shall establish by rule fees for general permits pursuant to this section, including maximum fees. Fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

49-747. Annual registration of solid waste landfills; fee; disposition of revenue

A. All solid waste landfills shall be registered annually with the department.

B. The director shall establish a procedure for mailing registration forms each year to the owners of all solid waste landfills. The registration is valid for one year after the date of registration.

C. At the time of registration, the owner of a solid waste landfill shall pay to the department an annual fee. The department shall establish by rule an annual fee, including a maximum fee.

D. All monies collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881. The director may authorize the expenditure of monies from the solid waste fee fund to pay the reasonable and necessary costs of administering the registration program pursuant to section 49-881.

49-761. Rulemaking authority for solid waste facilities; exemption; financial assurance; recycling facilities

A. The department shall adopt rules regarding the storage, processing, treatment and disposal of solid waste as prescribed by subsections B through M of this section. In adopting rules, the department shall consider the nature of the waste streams at the facilities to be regulated. The department shall also consider other applicable federal and state laws and rules in an effort to avoid practices or requirements that duplicate, are inconsistent with or will result in dual regulation with other applicable rules and laws. Facilities that obtain and maintain coverage under a general permit established by the department pursuant to section 49-706 are exempt from rules adopted pursuant to this section. In adopting rules for solid waste facilities, the director may include requirements for corrective actions in response to a release, as defined in section 49-281, from a solid waste facility that violates or results in a violation of any provision of this chapter, rule adopted pursuant to this chapter or solid waste facility plan approved pursuant to this chapter. These rules shall be consistent with section 49-762.08, subsection B, subsection C, paragraphs 1 and 2 and subsections D and E.

B. For purposes of administering 42 United States Code section 6945, as amended November 8, 1984, 40 C.F.R. part 258 is adopted by reference except as prescribed by paragraph 2 of this subsection. This subsection, as it applies to municipal solid waste landfills, governs if there is any conflict between this subsection and any other statute relating to solid waste. Municipal solid waste landfill facility plans submitted pursuant to section 49-762 shall comply with this subsection. In administering this subsection or in adopting or administering any rules adopted pursuant to this subsection, the department shall ensure that any discretion allowed to a director of an approved state pursuant to the federal regulations is maintained. The following apply to the department's administration of 42 United States Code section 6945 and to the department's adoption of rules for municipal solid waste landfills:

1. The department may adopt rules for municipal solid waste landfills. Rules adopted pursuant to this paragraph shall not be more stringent than or conflict with 40 C.F.R. part 258 for nonprocedural standards, except that the department may adopt aquifer protection standards that are more stringent than 40 C.F.R. part 258 if those standards are consistent with and not more stringent than standards developed pursuant to chapter 2, article 3 of this title, or if the standards are adopted pursuant to article 9 of this chapter. Rules adopted pursuant to this paragraph are effective on the concurrence of the administrator with this state's municipal solid waste landfill program.

2. 40 C.F.R. part 258, table I is not adopted in its entirety. The department shall use aquifer water quality standards that have been adopted by the department pursuant to section 49-223 and shall use those portions of table I that are more restrictive than the standards adopted pursuant to section 49-223.

C. The department shall adopt rules for those solid waste land disposal facilities that are not municipal solid waste landfills and that are not regulated by the coal combustion residuals program established pursuant to article 11 of this chapter. Rules adopted pursuant to this subsection shall not be more stringent than or conflict with 40 C.F.R. part 257, subparts A and B for nonprocedural standards, except that the department may adopt aquifer protection standards that are more stringent than 40 C.F.R. part 257, subparts A and B if these standards are consistent with and not more stringent than standards developed pursuant to chapter 2, article 3 of this title, or if the standards are adopted pursuant to article 9 of this chapter. In administering this subsection, the department shall ensure that any discretion allowed to a director of an approved state pursuant to the federal regulations is maintained in the department's rules. Aquifer protection provisions adopted pursuant to this subsection do not apply to an owner or operator of a solid waste facility if the owner or operator submits an administratively complete application for an aquifer protection permit pursuant to chapter 2, article 3 of this title before the date that the owner or operator is required to submit a solid waste facility plan.

D. The department shall adopt rules to define biohazardous medical waste and to regulate biohazardous medical waste and medical sharps to include all of the following:

1. A definition for biohazardous medical waste that includes wastes that contain material that is likely to transmit etiologic agents that have been shown to cause or contribute to increased human morbidity or mortality of

epidemiologic significance. The department shall consult with the department of health services in making this determination.

2. Reasonably necessary rules regarding the storage, collection, transportation, treatment and disposal of biohazardous medical waste and medical sharps, beginning with the placement by the generator of the waste in containers for the purpose of waste collection. The department shall require payment of a fee for the licensure of a transporter of biohazardous medical waste. The department shall establish by rule a fee for the licensure of a transporter of biohazardous medical waste, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881. In the case of self-hauling of waste by the generator, all storage facilities under the generator's control and all waste handling practices including storage, treatment and transportation shall be in accordance with these rules. The department shall also adopt reasonably necessary rules regarding the tracking of biohazardous medical waste and medical sharps.

3. Rules that require facilities that receive plan approval under section 49-762, subsection A, paragraph 3 to pay an annual fee as established by rule. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881.

E. The department may adopt reasonably necessary rules regarding the storage, collection, transportation, treatment and disposal of nonbiohazardous medical waste beginning with the placement by the generator of the waste in containers for the purpose of waste collection. In the case of self-hauling of the waste by the generator, all storage facilities under the generator's control and all waste handling practices including storage, treatment and transportation shall be in accordance with these rules.

F. The department shall adopt rules for the application of sludge from a wastewater treatment facility to land for use as fertilizer or beneficial soil amendment. For the purposes of this subsection, "sludge" has the same meaning as sewage sludge as defined in 40 Code of Federal Regulations section 122.2 in effect on January 1, 1998.

G. The department shall adopt rules regarding the storage, processing, treatment or disposal of solid waste at solid waste facilities that are identified in section 49-762.01. The rules shall allow the owner or operator to certify compliance with the department's statutes and rules instead of obtaining a solid waste facility plan approval. The rules shall provide that the applicant at its option may request approval of a solid waste facility plan rather than certifying compliance.

H. The department shall issue by rule best management practices for the classes of solid waste facilities set forth in section 49-762.02. The department shall establish fees in rules for solid waste facilities. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881.

I. The department shall adopt reasonably necessary rules establishing minimum standards for storing, collecting, transporting, disposing and reclaiming solid waste, including garbage, trash, rubbish, manure and other objectionable wastes. These rules shall provide for inspecting premises, containers, processes, equipment and vehicles, and for abating as environmental nuisances any premises, containers, processes, equipment or vehicles that do not comply with the minimum standards of these rules. The rules adopted pursuant to this subsection do not apply to sites that are either regulated by section 49-762, 49-762.01 or 49-762.02 or exempted from the definition of solid waste facility in section 49-701 or from the definition of solid waste in section 49-701.01. Notwithstanding any other provision of this subsection, rules adopted pursuant to this subsection shall apply to defining environmental nuisances pursuant to section 49-141.

J. The department shall adopt rules relating to financial assurance requirements. The rules shall indicate the types of financial assurance mechanisms to be required and the content, terms and conditions of each financial mechanism, including circumstances under which the department may take action on the financial assurance mechanism for facility closure, postclosure care if necessary and corrective action for known releases. The department shall establish fees in rule. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881. The financial assurance mechanisms shall include all of the following:

1. Surety bond.

2. Certificate of deposit.

3. Trust fund with pay-in period.

4. Letter of credit.

5. Insurance policy.

6. Certificate of self-insurance.

7. Deposit with the state treasurer.

8. Evidence of ability to meet any of the following:

(a) Corporate financial test.

(b) Local government financial test.

(c) Corporate guarantee test.

(d) Local government guarantee test.

(e) Political subdivision financial test that shall require the department to consider the entity's bond rating, income stream, assets, liabilities and assessed valuation of taxable property.

9. Multiple financial assurance mechanisms.

10. Additional financial assurance mechanisms that may be acceptable to the director.

K. The department shall adopt rules that prescribe standards to be used in determining if a site is a recycling facility.

L. The director may adopt rules that prescribe standards to be used in determining if a solid waste facility includes significant solid waste transfer activities that warrant the facility's regulation as a transfer facility.

M. The department shall adopt facility design, construction, operation, closure and postclosure maintenance rules for biosolids processing facilities and waste composting facilities that must obtain plan approval pursuant to section 49-762. The department shall require facilities that receive plan approval pursuant to section 49-762 to pay an annual fee. The department shall establish by rule the annual fee. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881.

49-762. Facilities requiring solid waste facility plans; exemption

A. The owner or operator of the following solid waste facilities shall obtain approval of a solid waste facility plan in accordance with sections 49-762.03 and 49-762.04:

1. Solid waste land disposal facilities except those facilities regulated by 40 Code of Federal Regulations part 257, subpart D or the coal combustion residuals program that is established pursuant to article 11 of this chapter and that is approved by the United States environmental protection agency in accordance with 42 United States Code section 6945(d)(1).

2. Biosolids processing facilities.

3. Medical waste facilities.

4. Special waste facilities.

5. Municipal solid waste landfills.

6. Commercial or government-owned waste composting facilities.

7. A site at which at least five hundred waste tires are stored on any day and any tire is stored for more than twelve months unless the site is a waste tire collection site owned by a municipality or a county.

B. Facilities that obtain and maintain coverage under a general permit established by the department pursuant to section 49-706 are exempt from submitting a solid waste facility plan pursuant to this section.

49-762.03. Solid waste facility plan approval

A. Except as provided in subsections C and E of this section, the owner or operator of a solid waste facility identified in section 49-762 shall obtain the department's approval of a solid waste facility plan as follows:

1. For a new solid waste facility and before commencing construction of the solid waste facility, the owner or operator shall obtain approval of a solid waste facility plan that satisfies rules adopted by the director.

2. For an existing solid waste facility, the owner or operator shall file with the department a solid waste facility plan within one hundred eighty days after the effective date of rules adopted pursuant to section 49-761 that contain design and operation standards for that type of solid waste facility. An existing solid waste facility may continue to operate while the department reviews the plan.

B. For a solid waste facility subject to site approval pursuant to section 49-767, a solid waste facility plan shall not be submitted to the department until the site for the solid waste facility has been approved pursuant to section 49-767. For all new solid waste landfills, a solid waste facility plan shall provide evidence of compliance with or the inapplicability of city, town or county zoning ordinances.

C. The director shall grant temporary authorization to operate a new solid waste facility if in the director's opinion the solid waste facility is needed immediately and could not be properly planned in advance.

D. An owner or operator of more than one solid waste facility that conducts similar activities with similar waste streams may prepare and implement a single plan that covers all of its facilities if it has received prior approval from the director and has complied with rules regarding single plans that are adopted by the director.

E. The director by rule may exempt from some or all of the facility plan approval requirements those solid waste facilities that are located in unincorporated areas and that are used for disposal by any single family residence located on the same property or those solid waste facilities that do not present a threat to public health and safety and the environment.

F. The department shall collect from the applicant reasonable fees established by the director by rule for the approval of the plan, including costs for the processing, review, approval or disapproval of the plan. The director shall establish by rule fees for costs incurred by the department for the processing, review, approval or disapproval of the plan up to the established maximum fees. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

G. The department may contract with private consultants for the purposes of assisting the department in reviewing solid waste facility plan approvals to determine whether a facility meets the criteria of section 49-762.04. The department shall pay the consultant for the services rendered by the consultant from fees paid by the applicant. If the department contracts with a consultant under this section, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding section 49-881, fees collected by the department for expedited plan review shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881 and used for payment of the costs of the consultant services. Fees received for the purpose of expedited plan review are not subject to appropriation.

49-762.05. Self-certification procedures; rules

A. The owner or operator of a solid waste facility identified in section 49-762.01 shall comply with the self-certification requirements prescribed by this section and rules adopted by the director.

B. The owner or operator of a new solid waste facility may be required by rule to submit some or all of the following information to the department before the start of construction:

1. Design and operational plans or other documents necessary to describe the design of the facility and the practices and methods that are or will be used to comply with the design and operation rules adopted by the director for that type of facility.

2. A demonstration of financial assurance in accordance with section 49-770.

3. A demonstration of compliance with either local zoning laws or section 49-767.

4. A demonstration of the issuance of other environmental permits that are required by statute.

5. A copy of the public notice in a newspaper of general circulation in the area in which a new solid waste facility will be located. The public notice shall state the intent to construct and operate a new solid waste facility pursuant to this subsection.

C. The owner or operator of an existing solid waste facility may be required by rule to submit some or all of the information described in subsection B, paragraphs 1 through 4 of this section within one hundred eighty days after the adoption of design and operation rules for that type of facility.

D. The owner or operator shall maintain all documents required by statute or rule at the solid waste facility or any other location as determined by rule, and those documents shall be made available for inspection pursuant to section 49-763.

E. An owner or operator making a substantial change to a solid waste facility shall submit documentation to the department before the start of construction stating that the facility will remain in compliance with the design and operation rules for that type of facility. The owner or operator of a solid waste facility that makes any changes in its compliance with subsection B, paragraph 2 or 3 of this section shall submit copies of those changes to the department.

F. A person making a submittal under this section shall certify in writing that the information submitted is true, accurate and complete to the best of the person's knowledge and belief.

G. Self-certified facilities identified in section 49-762.01 are not subject to the location restrictions of section 49-772.

H. The department shall collect from the applicant registration fees. The department shall establish by rule registration fees, including maximum fees. Fees collected pursuant to this section shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

I. An owner or operator of more than one solid waste facility identified in section 49-762.01 that conducts similar activities with similar waste streams may submit one self-certification filing for all such facilities if the owner or operator has received prior approval from the director and has complied with rules for self-certification that are adopted by the director.

49-802. Federal used oil program; incorporation by reference; rulemaking

A. The department shall administer 42 United States Code section 6935, as amended on January 1, 1997, as the used oil program for this state. For that purpose, 40 Code of Federal Regulations part 279, as amended on January 1, 1997, is adopted by reference. For purposes of this program, the United States, the environmental protection agency and the administrator shall be applied to mean this state, the department and the director, respectively.

B. The department may adopt rules for the administration of the federal program. Rules adopted pursuant to this subsection shall not be more stringent than or conflict with 40 Code of Federal Regulations part 279. The department shall require an annual registration fee established by rule for handlers of used oil that are required to obtain a United States environmental protection agency identification number pursuant to 40 Code of Federal Regulations part 279. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881.

C. The following requirements apply in addition to 40 Code of Federal Regulations part 279:

1. A used oil collection center, as defined in 40 Code of Federal Regulations part 279, shall register with the department by obtaining an identification number from the department. A request for an identification number shall include:

(a) The company name.

(b) The name of the owner of the company.

(c) The mailing address and telephone number of the company.

(d) The location of the collection center.

(e) A description of the type of used oil activity at the company.

2. A person who sends used oil fuel to a person who burns the used oil fuel for energy recovery shall certify to the burner that the used oil fuel has been analyzed or otherwise tested for compliance with the used oil specifications in 40 Code of Federal Regulations part 279.

3. Each used oil fuel transporter, used oil fuel marketer and used oil processor and re-refiner, as defined in 40 Code of Federal Regulations part 279, shall submit to the department a written report annually. The report shall be submitted within thirty days after the end of the calendar year to which the report applies, and it shall contain a copy of the tracking information required to be kept pursuant to 40 Code of Federal Regulations part 279 or a summary of such tracking information on a reporting form supplied by the department.

4. Each person who burns used oil fuel in devices identified in 40 Code of Federal Regulations section 279.61(a)(1) through (3) shall submit to the department a written annual report. The report shall be submitted to the department by February 1 for the previous calendar year and shall contain the following information:

(a) The name, address and telephone number of the person reporting.

(b) The name, address and telephone number of the burner facility.

(c) The United States environmental protection agency identification number of the burner facility.

(d) The total volume of on-specification used oil burned.

(e) The period being reported.

(f) The total volume of self-generated used oil burned on site.

(g) The total volume of used oil fuel burned.

(h) A summary of the tracking information required to be kept pursuant to 40 Code of Federal Regulations part 279.

5. Used oil fuel marketers and used oil fuel burners shall label all tanks that store on-specification used oil with the words "on-specification used oil". The department may sample and test used oil or used oil fuel to determine its properties or characteristics as prescribed in this article and rules adopted pursuant to this article.

6. A household "do-it-yourselfer" used oil generator, as defined under 40 Code of Federal Regulations part 279, shall send its used oil to a "do-it-yourselfer" collection station, a household hazardous waste collection center, a used oil collection center, a used oil fuel marketer or a used oil processor or refiner.

D. In administering this section or in adopting or administering rules pursuant to this section, the department shall maintain the level of discretion that is permitted pursuant to applicable federal rules.

E. Any client names or related identifying data required to be submitted to the department pursuant to this section are confidential.

49-851. Definitions; applicability

A. In this article, unless the context otherwise requires:

1. "Best management practices" means a method or combination of methods that is used in the treatment, storage and disposal of a special waste and that achieves the maximum practical cost effective protection of public health or the environment.

2. "On site" means at or on the same or geographically contiguous property that may be divided by public or private right-of-way, provided the entrance and exit between the properties are at a crossroads intersection and access is by crossing as opposed to travel along the right-of-way. Noncontiguous properties owned by the same person but connected by a right-of-way that that person controls and to which the public does not have access are also on-site property.

3. "Petroleum contaminated soils" means soils excavated for storage, treatment or disposal containing benzene, toluene, ethylbenzene, total xylenes, acenaphthylene, anthracene, benz(A)anthracene, benzo(A)pyrene, benzo(B)fluoranthene, benzo(K)fluoranthene, cyrysene, dibenz(A, H)anthracene, fluoranthene, fluorene, indenopyrene, naphthalene or pyrene in concentrations in excess of levels determined by the director pursuant to section 49-152 to protect the public health and the environment.

4. "Shipper" means a person who transports a special waste in commerce.

5. "Special waste" means a solid waste as defined in section 49-701.01, other than a hazardous waste, that requires special handling and management to protect public health or the environment and that is listed in section 49-852 or in rules adopted pursuant to section 49-855. Special waste does not include return flows from irrigated agriculture, medical waste, used oil or by-products of a regulated agricultural activity, as defined in section 49-201, that are subject to best management practices under section 49-247, by-products of livestock, range livestock and poultry as defined in section 3-1201, pesticide containers regulated pursuant to title 3, chapter 2, article 6 or waste that contains radioactive materials that are subject to a permit or regulation under the atomic energy act of 1954 (42 United States Code section 2011; 68 Stat. 919), as amended, or title 30, chapter 4.

6. "Storage" means the holding of special waste for a period of not more than one year unless a lesser period of time is designated by the director pursuant to best management practices rules. The director shall not designate a storage time of less than ninety days.

B. Defining or categorizing any material as a special waste under this article shall not affect the duty of care or breach of that duty for a cause of action for personal injury or for a workers' compensation claim arising from the handling of any materials.

49-852. Statutory list of special wastes; best management practices rules; applicability of hazardous waste designation

A. The following are designated as special wastes for purposes of this article:

1. Waste that contains petroleum contaminated soils.

2. Waste from shredding motor vehicles.

B. The director shall establish rules for best management practices for these special wastes pursuant to section 49-855.

C. Notwithstanding section 49-856, the wastes listed pursuant to subsection A of this section are required to comply with those manifest requirements within three months of the adoption of the best management practices.

49-854. Designation of special wastes; criteria; notice; rules

A. The director shall give public notice pursuant to title 41, chapter 6 of the decision to formally study a waste for possible designation as a special waste pursuant to the criteria established in subsection B of this section.

B. In determining whether a waste shall be designated as a special waste, the director shall consider the potential adverse effects on public health or the environment from the treatment, storage, transportation or disposal of each waste based upon:

1. The acute and chronic toxicity for those wastes including the human or animal data for the following exposures:

(a) Aquatic.

(b) Dermal.

(c) Inhalation.

(d) Oral.

2. The carcinogenic, mutagenic or teratogenic effects of those wastes on humans or other life forms.

3. The degree to which the wastes or degradation products of those wastes are persistent or bioaccumulative in the environment.

4. Information and studies from other states and the federal government if the committee or director finds them to be derived from standard protocols.

5. Other appropriate scientific data, environmental testing or analytical data.

C. The director shall give public notice pursuant to title 41, chapter 6 of the decision to designate or not to designate a waste as a special waste.

D. The director shall by rule, designate a waste as a special waste and adopt best management practices concerning the special waste pursuant to section 49-855 within eighteen months after giving public notice pursuant to subsection C of this section that a waste will be designated as a special waste.

E. The designation of a waste as a special waste and the adoption of best management practices pursuant to section 49-855 shall occur in the same rule making process.

49-855. Best management practices; fee; criteria

A. The director shall adopt, by rule, best management practices for the treatment, storage and disposal of each waste to be designated as a special waste pursuant to this article.

B. In adopting best management practices for a special waste, the director shall consider:

1. The availability, effectiveness, economic feasibility and technical feasibility of alternative handling or management technologies and practice.

2. The potential nature and severity of the effect on public health and the environment resulting from the special waste.

3. Circumstances under which the practices shall be applied, including climatological, geological and hydrogeological conditions.

4. Consistency with other federal and state laws, rules and regulations in an effort to avoid practices or requirements that duplicate, are inconsistent with or result in dual regulation under other federal and state laws, rules and regulations.

C. The best management practices adopted by the director shall contain procedures necessary for the protection of public health and the environment for the transportation, treatment, storage and disposal of special wastes. Additional items to be contained in the best management practices shall include at least:

1. A designated time of not less than ninety days beyond which a waste may not be stored.

2. A fee for each ton of special waste that is transported to a facility in this state for treatment, storage or disposal. The department shall establish by rule a fee for each ton of special waste that is transported to a facility in this state for treatment, storage or disposal, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

D. The director may adopt special waste best management practices that apply to the treatment, storage or disposal of those wastes that are not regulated as hazardous wastes under federal laws or regulations.

E. The director may enact special waste best management practices that are more stringent than federal laws or regulations that govern polychlorinated biphenyls pursuant to the toxic substances control act (15 United States Code section 2605) if the director determines in writing that:

1. The additional regulation is necessary to protect public health or the environment.

2. There is a scientific basis for the additional regulation based on appropriate environment testing and analytical data.

3. The additional regulation is technically feasible.

F. This section does not preclude the director from adopting best management practices under this article, which incorporate management practices applicable to the treatment, storage or disposal of those wastes that are not regulated as hazardous wastes under federal laws or regulations.

G. The department shall require facilities that generate, transport or receive special waste to pay an annual fee. The department shall establish by rule an annual fee. The department shall deposit, pursuant to sections 35-146 and 35-147, fees in the solid waste fee fund established by section 49-881. Facilities that pay registration fees pursuant to section 49-747 are exempt from the fee prescribed by this section.

49-856. Special waste handling requirements; manifest; exemption

A. The director shall adopt rules by September 1, 1993 that include an Arizona special waste manifest form designed to implement the provisions of this article.

B. Within three months of the adoption of best management practices for a special waste pursuant to section 49-855:

1. A person who generates, transports, offers for transportation or receives special waste for off-site treatment, recycling, storage or disposal shall comply with the rules adopted pursuant to subsection A of this section.

2. A person who transports a special waste that is defined as a hazardous material, hazardous substance or hazardous waste in 49 Code of Federal Regulations part 171 shall do so in accordance with the applicable motor carrier safety provisions of 49 United States Code appendix sections 1801 through 1819 and title 28, chapter 14.

3. A person who arranges for the treatment, storage or disposal of a special waste shall do so only at a facility approved by the director pursuant to section 49-857 or 49-858.

49-857. Special waste management plans; director; approval; fee

A. Except as provided in section 49-858, a facility that plans to manage special waste for treatment, storage or disposal shall apply for and obtain approval of the director.

B. The application shall include all of the following:

1. A complete solid waste facility plan pursuant to section 49-762 that includes a special waste management plan component that complies with best management practices adopted pursuant to section 49-855 for each special waste for that portion of the facility that is engaged in the treatment, storage or disposal of special waste.

2. Evidence of compliance with permit filing requirements pursuant to this title.

C. The director shall collect from the applicant a reasonable fee based on the state's total costs in processing the plan. The director may amend an existing rule or adopt a new rule to establish criteria for those costs. Monies from fees shall be deposited in the solid waste fee fund established by section 49-881.

D. A facility at which the treatment, storage or disposal of special waste occurs only as a result of an episodic release at that facility shall not be subject to the special waste management plan requirements of this section. The special waste shall be managed pursuant to applicable best management practices.

49-857.01. Plan; approval; deadline; judicial review

A. Within ninety days of receipt of the complete plan and other information prescribed by section 49-857, subsection B, the director shall approve in writing any plan or portion of a plan that complies with this article or shall deny in writing any plan or portion of a plan that does not comply with this article.

B. If the director denies a plan or a portion of a plan, the director shall notify the applicant in writing of the specific reasons for denial within ten days. The applicant has an additional ninety days from receipt of the written denial to file a modified plan addressing the specific deficiencies.

C. Within ninety days of receipt of a modified plan, the director shall approve or disapprove in writing the modified plan. The director may issue a compliance order to any applicant who has failed to submit a modified plan when required as prescribed by subsection B of this section or whose modified plan has been disapproved.

D. Any major modification from an approved plan is subject to review and approval by the director before implementation.

E. If the director fails to approve or disapprove the plan as prescribed by this section, the plan is deemed approved. Except as provided in section 41-1092.08, subsection H, the director's disapproval of a modified plan is subject to judicial review pursuant to title 12, chapter 7, article 6.

49-858. Interim use facilities; special waste

A. A facility that is in operation on the effective date of best management practices rules that are applicable to that facility and that are adopted by the director pursuant to section 49-855 and that manages wastes designated as special waste pursuant to this article for treatment, storage or disposal may continue to manage special waste for treatment, storage or disposal if all of the following conditions are met:

1. Within sixty days after the effective date of adoption of the best management practices that are applicable to the facility, the facility submits a notice to the director that contains the following information:

(a) Facility name and mailing address.

(b) Legal description by township, range and section.

(c) Major design features.

(d) Type and volume of waste handled.

(e) Methods of waste management.

(f) Measures taken to protect the environment and measures taken to protect public health.

(g) A summary of permits from city, county, state and federal agencies.

2. The facility files an application containing the information required in section 49-857, subsection B within one hundred eighty days of the adoption of best management practices.

B. A generator may treat, store or dispose of special waste at a facility that is managed or operated by that generator and that is in operation on July 3, 1991 if the same conditions prescribed in subsection A of this section are met.

C. The process for plan approval and disapproval shall conform to section 49-857.01.

D. The director shall collect from the applicant a reasonable fee based on the state's total costs in processing the application. The director may amend an existing rule or adopt a new rule to establish criteria for those costs.

49-859. Application to water quality permits

A. Neither the classification of a particular type of waste as a special waste nor the adoption or revision of the best management practices criteria constitutes a major modification to a facility with a groundwater quality protection permit or an aquifer protection permit unless that action otherwise meets the definition of new facility prescribed by section 49-201.

B. The director's approval of a special waste management plan either before or after the adoption of best management practices criteria does not constitute a major modification of a facility with a groundwater quality protection permit or an aquifer protection permit unless that action otherwise meets the definition of new facility prescribed by section 49-201.

49-860. Annual reporting requirements; inspections

A. A shipper required to comply with the special waste manifesting procedures of this article shall report the following information to the department on or before March 1 of each year:

1. A shipping description of the special waste shipped during the preceding year.

2. The volume or weights of each type of special waste shipped during the preceding year.

3. The facility to which the special waste was shipped, identified by name, address, location and groundwater quality protection permit number or aquifer protection permit number, if applicable.

B. A facility or person that receives from off site a special waste for treatment, storage or disposal shall report the following information to the department on or before March 1 of each year:

1. The shipping descriptions of each special waste received during the preceding year.

2. The volume or weight of each type of special waste received during the preceding year.

3. For each special waste type, the identity by generator name, address, location, telephone number and amount of that special waste sent to the facility during the preceding year.

4. For each special waste type received, a description of the methods and practices used by the receiving facility or person to treat, store or dispose of the special waste.

C. Generators who treat, store or dispose of special waste shall keep records of the volume or weights of each type of special waste handled. Generators who treat, store or dispose of special waste shall report to the department on or before March 1 of each year for each facility:

1. The volume or weight of each type of special waste treated, stored or disposed of on site for the preceding year.

2. The volume or weight of each type of special waste treated, stored or disposed of off site for the preceding year.

3. For each type of special waste disposed, a description of the methods and practices used to minimize the amount or toxicity of the waste before disposal or reuse that constitutes disposal.

4. The volume or weight of waste received pursuant to section 49-863, subsection G.

D. The department may conduct inspections of facilities and records in order to enforce this section.

49-861. Violation; classification; civil penalty

A. Beginning January 1, 1993 a person who knowingly violates this article is guilty of a class 6 felony.

B. A person who violates any provision of this article or a rule or order adopted or issued pursuant to this article is subject to a civil penalty of not more than ten thousand dollars per day for each violation. In issuing any final order in any civil action brought under this section, the court may award costs of litigation including reasonable attorney and expert witness fees to any substantially prevailing party if the court determines that an award is appropriate.

C. The attorney general, at the request of the director, shall file an action in superior court to recover civil penalties provided by this section.

49-862. Compliance orders; injunctive relief

A. If the director has reasonable cause to believe that a person is violating this article or a rule adopted pursuant to this article, the director may serve on the person an order requiring compliance with that provision or rule. The order shall state with reasonable particularity the nature of the violation and shall specify either immediate compliance or a time period for compliance that the director determines is reasonable, taking into account the seriousness of the violation and any good faith efforts to comply with applicable legal requirements. The alleged violator may request a hearing pursuant to title 41, chapter 6, article 10.

B. If the director has reasonable cause to believe that an order issued pursuant to this section is being violated or that a person is engaging in an act or practice that constitutes a violation for which he is authorized to issue an order pursuant to this section, the attorney general, at the request of the director, may apply to the superior court in the county in which the violation is occurring or in which the department has an office for a temporary restraining order, preliminary injunction or permanent injunction.

C. If the director has reasonable cause to believe that a person is engaging in an act or practice in violation of this article that causes an imminent and substantial endangerment to the public health or environment, whether or not the person has requested a hearing, the attorney general, at the request of the director, may apply to the superior court in the county in which the violation is occurring or in which the department has an office for a temporary restraining order, preliminary injunction or permanent injunction.

49-863. Special waste management fee; exemption

A. The director shall collect the fee established by section 49-855, subsection C from the special waste treatment, storage or disposal facility that first receives the waste. Any government entity that is required to collect a fee pursuant to this section may establish fees to recover the costs of collection and administration.

B. A generator who ships special waste for purposes of treatment, storage or disposal to a facility in this state that is not regulated by the department shall retain for three years accurate records of the special waste transported to a facility and shall pay a fee to the department at the same rate and in the same manner as provided in subsection A of this section.

C. Each operator or person who is required to pay a special waste management fee shall make the fee payment as determined by the department.

D. Each fee payment shall be accompanied by a form furnished by the department and completed by the operator. The form shall state the total volume or weight of the special waste transported to or disposed at that facility during the payment period and shall provide any other information deemed necessary by the department. The operator shall sign the form.

E. If an operator or person fails to pay the fee as provided in subsection C of this section, that operator or person is additionally liable for interest on the unpaid amount at a rate prescribed by section 49-113.

F. Monies collected pursuant to this section shall be deposited in the solid waste fee fund established pursuant to section 49-881.

G. A generator who ships special waste for purposes of treatment, recycling, storage or disposal from a facility that is managed or operated by that generator to another facility that is managed or operated by that generator is exempt from the fee collected pursuant to this section.

H. A generator who treats, recycles, stores or disposes of special waste on site at a facility that is managed or operated by the generator is exempt from the fee collected pursuant to this section.

I. State agencies, including state universities, are not exempt from the fees prescribed in this section.

49-865. Inspections

The department may conduct such inspections of facilities that manage special waste, including premises and equipment, as are necessary. The department shall give the management agency or the owner or operator of the facility the opportunity to have its representative accompany the inspector. Within forty-five days after the date of the inspection, the department shall provide to the facility owner or operator a copy of any inspection report produced as a result of an inspection of that facility that occurs as prescribed by this section.

49-866. Orders; monitoring; pollution control devices

A. Except as otherwise provided in sections 49-422 and chapter 3, article 3 of this title, the director may require by order the installation of necessary monitoring and pollution control devices at a special waste facility if the requirements of subsection B of this section have been met.

B. Before issuing an order pursuant to subsection A of this section, the director shall determine in writing that all of the following conditions are met:

1. The special waste facility may adversely affect public health or the environment.

2. A monitoring, sampling or quantification method or a pollution control device is technically feasible for the subject contaminant and the special waste disposal facility.

3. An adequate scientific basis for the monitoring, sampling or quantification method or the pollution control device exists.

4. The monitoring, sampling or quantification method is reasonably accurate or the pollution control device is reasonably effective.

5. The cost of the method or device is reasonable in light of the use to be made of the data or the device.

6. The director has considered the relative cost and the relative accuracy or effectiveness of any alternative method or device that may be reasonable under the circumstances.

49-868. Agency orders; appeal

Any final agency order issued pursuant to this article is appealable pursuant to title 41, chapter 6, article 10.

E-2.

DEPARTMENT OF ENVIRONMENTAL QUALITY
Title 18, Chapter 8, Articles 1 & 2

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **DEPARTMENT OF ENVIRONMENTAL QUALITY**
Title 18, Chapter 8, Articles 1 & 2

Summary

This Five-Year Review Report (5YRR) from the Department of Environmental Quality (Department) relates to twelve (12) rules in Title 18, Chapter 8, Articles 1 and 2 regarding Hazardous Waste Management. Specifically, Article 1 relates to Remedial Action Requirements and Article 2 relates to Hazardous Wastes.

In the prior 5YRR for these rules, which was approved by the Council in March 2020, the Department proposed amendments to rules relating to inspection requirements for large quantity generators. Specifically, the Department indicated it received a question in 2019 following the hazardous waste rulemaking conducted in February of that year, asking why the Department required inspection of logs for small quantity generators but not large quantity generators. The Department determined that this was an oversight and rule R18-8-262(G) should be amended to read "Any generator who must comply with 262.16 or 262.17 shall keep a written log of the inspections." This change was implemented as part of the Department's hazardous waste rulemaking conducted in 2020 and became effective November 3, 2020.

Proposed Action

In the current report, the Department indicates it will update the incorporations by reference outlined in Section 4 of its report to incorporate EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in Section 6 of the report to improve clarity of the rules. The Department anticipates conducting this rulemaking following updates to the Federal Register in July 2025, to be completed mid 2026.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department has determined that for Article 1 the direct economic impact of R18-8-101 has not differed from that projected in the Economic Impact Statement (EIS) issued in the last rulemaking conducted on February 5, 2019. The Department indicates that this rule clarifies that the soil cleanup standards from 18 A.A.C. 7, and applicable in other Department programs, apply to hazardous waste corrective actions and helps provide consistency across all programs performing soil remediation.

The Department has determined that the direct economic impacts of the Chapter 8 Article 2 rules have not differed from those projected by the EIS provided for the November 2020 and March 2023 rulemakings. The Department states that Article 2 includes the regulatory burden of applicable standards for safe and proper management of hazardous waste applicable to hazardous waste generators and transporters, and owners and operators of hazardous waste treatment, storage and disposal facilities.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states that for Article 1 it is not aware of any cost directly attributable to this rule, while it provides benefits in the form of consistency, predictability, and clarity to soil cleanup standards.

The Department believes the costs of the standards and fees outlined in Article 2 are outweighed by the benefits of ensuring the long-term viability of the Hazardous Waste Management Program, allowing the state to retain the technical, managerial, and financial capacity necessary to protect public health from hazardous waste risks.

4. Has the agency received any written criticisms of the rules over the last five years?

While the Department indicates it engaged in stakeholder engagement through public meetings and workshops related to rulemakings in 2020 and 2023, the Department received no

written criticisms regarding the Chapter 8 rules during either the informal or formal comment periods for these rulemakings, and has not received any other written criticisms of the rules within the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are mostly clear, concise, and understandable except for the following rules for which minor clarifications could be made:

- **R18-8-260**
  - Including an internet website where the most current amounts for fees listed in subsection (M) can be found would provide additional clarity on fee amounts.
- **R18-8-264**
  - Language can be added to clarify that the phone numbers provided for the ADEQ Emergency Response Unit are not intended for general emergencies.
- **R18-8-265**
  - Language can be added to clarify that the phone numbers provided for the ADEQ Emergency Response Unit are not intended for general emergencies.
- **R18-8-268**
  - The incorporation by reference in subsection (A) can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update to Chapter 8's incorporations by reference, so updating it will not alter the substance of the rule.
- **R18-8-273**
  - The incorporation by reference in subsection (A) can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update to Chapter 8's incorporations by reference, so updating it will not alter the substance of the rule.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates it conducts rule updates periodically in order to ensure consistency with state and federal rules and statutes. The Department conducted such a rulemaking for Chapter 8 on November 3, 2020 incorporating multiple EPA rule promulgations. Since the 2020 rulemaking, the EPA has promulgated several rulemakings altering portions of the CFR incorporated in Chapter 8. Specifically, the following rules are no longer consistent with other rules or statutes:

- **R18-8-260**
  - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Modernizing Ignitable Liquids Determinations, 85 FR 40606, July 7, 2020; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.

- **R18-8-261**
    - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Modernizing Ignitable Liquids Determinations, 85 FR 40606, July 7, 2020; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024; Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
- **R18-8-262**
    - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
- **R18-8-263**
    - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
- **R18-8-264**
    - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
- **R18-8-265**
    - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulation: Conforming Changes to Canada Specific Hazardous Waste Import-Export

Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.

- **R18-8-266**
  - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: EPA Method 23 - Determination of Polychlorinated Dibenzo-P-Dioxins and Polychlorinated Dibenzofurans from Stationary Sources, 88 FR 16774, Mar. 20, 2023; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
- **R18-8-267**
  - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
- **R18-8-270**
  - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
- **R18-8-271**
  - The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.

7. <u>Has the agency analyzed the rules' effectiveness in achieving its objectives?</u>

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are currently enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates the rules in Article 1 have no corresponding federal law. The Department indicates the rules in Article 2 correspond with the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984, and the associated federal Hazardous Waste Management program rules. The Department states Article 2 incorporates by reference several portions of the federal rules while being no more stringent, specifically 40 CFR § 124, 40 CFR 260, 40 CFR §§ 261 through 266, 40 CFR 268, 40 CFR 270, and 40 CFR 273.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

Pursuant to A.R.S. § 41-1037(A), if an agency proposes an amendment to an existing rule that requires the issuance of a regulatory permit, license, or agency authorization, the agency shall use a general permit, as defined by A.R.S. § 41-1001(12), if the facilities, activities or practices in the class are substantially similar in nature unless certain exceptions apply.

A.R.S. § 41-1001(12) defines "general permit" to mean "a regulatory permit, license or agency authorization that is for facilities, activities or practices in a class that are substantially similar in nature and that is issued or granted by an agency to a qualified applicant to conduct identified operations or activities if the applicant meets the applicable requirements of the general permit, that requires less information than an individual or traditional permit, license or authorization and that does not require a public hearing."

The Department indicates the rules in Article 1 do not require issuance of a regulatory permit, license, or agency authorization. The Department indicates the rules in Article 2 require a regulatory permit for transportation, storage, and disposal (TSD) facilities. The Department indicates the rules comply with A.R.S. § 41-1037 because, pursuant to A.R.S. § 41-1037(A)(2), a specific alternative permit is authorized by state statute under A.R.S. § 49-922(B)(5).

11. Conclusion

This 5YRR from the Department relates to twelve (12) rules in Title 18, Chapter 8, Articles 1 and 2 regarding Hazardous Waste Management. Specifically, Article 1 relates to Remedial Action Requirements and Article 2 relates to Hazardous Wastes. The Department indicates it will update the incorporations by reference outlined in Section 4 of its report to incorporate EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in Section 6 of the report to improve clarity of the rules. The Department

anticipates conducting this rulemaking following updates to the Federal Register in July 2025, to be completed mid 2026.

Council staff recommends approval of this report.

Arizona Department of Environmental Quality

Re: Submittal of Five-Year Review Report for A.A.C. Title 18, Chapter 8, Articles 1, and 2

Dear Chair Klein:

I am pleased to submit to you, pursuant to A.R.S. § 41-1056 and A.A.C. R1-6-301, our agency's Five-Year Review Report for A.A.C. Title 18, Chapter 8, Articles 1: Remedial Action Requirements, and 2: Hazardous Wastes.

Pursuant to A.R.S. § 41-1056(A), I certify that ADEQ is in compliance with A.R.S. § 41-1091 requirements for filing of notices of substantive policy statements and annual publication of a substantive policy statement directory.

Please contact John MacBain, Waste Programs Division at 602-771-0101 or macbain.john@azdeq.gov, if you have any questions.

Sincerely,

DocuSigned by:
Karen Peters

Arizona Department of Environmental Quality

Five-Year Review Report

Title 18. Environmental Quality

Chapter 8. Department of Environmental Quality – Hazardous Waste Management

Article 1: Remedial Action Requirements

Article 2: Hazardous Wastes

December 27, 2024

1. Authorization of the rule by existing statutes:

R18-8-101 in 18 A.A.C. 8, Article 1 is generally authorized by A.R.S. §§ 41-1003 and 49-104(B)(4), and is specifically authorized by A.R.S. § 49-152(A).

The hazardous waste rules in 18 A.A.C. 8, Article 2 are generally authorized by A.R.S. §§ 41-1003 and 49-104(B)(4), and are specifically authorized by A.R.S. §§ 49-104(B)(17) and 49-922.

2. The objective of each rule:

The purpose of the Chapter 8 rules, broadly, is to receive and maintain authorization from the U.S. Environmental Protection Agency (EPA) to implement the federal hazardous waste program in Arizona through incorporation by reference of federal hazardous waste regulations. Specific objectives for the rules in this chapter are below.

Rule	Objective
R18-8-101	The objective of this rule is to clarify that, if soil remediation is required under 18 A.A.C. 8, it shall be conducted in accordance with the soil remediation levels in 18 A.A.C. 7, Article 2.
R18-8-260	The objective of this rule is to establish the general provisions of Arizona's hazardous waste management system by incorporating federal regulations outlined in 40 CFR 260, while providing state-specific amendments for Arizona's rules. The rule also provides a budgetary purpose by establishing fees for hazardous waste generation and disposal.
R18-8-261	The objective of this rule is to provide a comprehensive framework for identifying and listing hazardous waste in Arizona by incorporating federal regulations outlined in 40 CFR 261, while providing state-specific amendments for Arizona's rules.
R18-8-262	The objective of this rule is to establish specific requirements and responsibilities for entities that generate hazardous waste in Arizona by incorporating federal regulations outlined in 40 CFR 262, while providing state-specific amendments for Arizona's rules.
R18-8-263	The objective of this rule is to establish specific requirements and responsibilities for entities that transport hazardous waste in Arizona by incorporating federal regulations outlined in 40 CFR 263, while providing state-specific amendments for Arizona's rules.
R18-8-264	The objective of this rule is to establish standards for Hazardous Waste Treatment, Storage, and Disposal Facilities (TSDFs) in Arizona by incorporating federal regulations outlined in 40 CFR 264, while providing state-specific amendments for Arizona's rules.
R18-8-266	The objective of this rule is to establish standards for the management of specific types of hazardous waste in Arizona, such as recyclable materials, used oil, specific industrial wastes, military munitions, and burning hazardous waste in boilers and industrial furnaces. The rule incorporates federal regulations outlined in 40 CFR 266, while providing state-specific amendments for Arizona's rules

R18-8-268	The objective of this rule is to establish land disposal restrictions that minimize the disposal of untreated hazardous waste in landfills in Arizona by incorporating federal regulations outlined in 40 CFR 268, while providing state-specific amendments for Arizona's rules.
R18-8-270	The objective of this rule is to establish the permitting framework for hazardous waste management facilities in Arizona. The rule incorporates federal regulations outlined in 40 CFR 270 while providing state-specific amendments for Arizona's rules, and provides a fee structure for Hazardous Waste Permitting Application and Maximum fees.
R18-8-271	The objective of this rule is to establish the procedures for administering hazardous waste permits in Arizona by incorporating federal regulations outlined in 40 CFR 124, while providing state-specific amendments for Arizona's rules.
R18-8-273	The objective of this rule is to establish standards for specific hazardous wastes categorized as "Universal Wastes" in Arizona by incorporating federal regulations outlined in 40 CFR 273, while providing state-specific amendments for Arizona's rules
R18-8-280	The objective of this rule is to supplement incorporated federal regulations to help ensure equivalency, and to detail how the Arizona program relates to inspections and compliance.

3. Are the rules effective in achieving their objectives? **Yes _X_ No __**

The rules are effective in achieving their objectives.

4. Are the rules consistent with other rules and statutes? **Yes _X_ No __**

The rules are consistent with the rules and statutes of Arizona and the United States. ADEQ conducts rule updates periodically in order to ensure consistency with state and federal rules and statutes. ADEQ conducted such a rulemaking for Chapter 8 on November 3, 2020 incorporating multiple EPA rule promulgations. Since the 2020 rulemaking, the EPA has promulgated several rulemakings altering portions of the CFR incorporated in Chapter 8. Those EPA promulgated rules are as follows:

1. Modernizing Ignitable Liquids Determinations, 85 FR 40606, July 7, 2020.

2. Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385, Oct. 1, 2021.

3. EPA Method 23 - Determination of Polychlorinated Dibenzo-P-Dioxins and Polychlorinated Dibenzofurans from Stationary Sources, 88 FR 16774, Mar. 20, 2023.

4. Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023.

5. Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.

6. Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.

In addition to the finalized EPA rules outlined above, ADEQ is monitoring several ongoing EPA rulemakings which may impact Chapter 8's rules. Following the completion of these ongoing EPA rulemakings, ADEQ will begin a rulemaking to update the impacted incorporations by reference in order to maintain consistency with

federal law when the Federal Register is updated in July, 2025. The table below outlines the Chapter 8 rules that include incorporations by reference that are no longer consistent based on the outlined EPA rulemakings.

Rule	Explanation
R18-8-260	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Modernizing Ignitable Liquids Determinations, 85 FR 40606, July 7, 2020; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
R18-8-261	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Modernizing Ignitable Liquids Determinations, 85 FR 40606, July 7, 2020; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024; Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
R18-8-262	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
R18-8-263	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
R18-8-264	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
R18-8-265	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulation: Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes, 86 FR 54385 Oct. 1, 2021; Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
R18-8-266	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: EPA Method 23 - Determination of Polychlorinated Dibenzo-P-Dioxins and Polychlorinated Dibenzofurans

	from Stationary Sources, 88 FR 16774, Mar. 20, 2023; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections, 88 FR 84710, Dec. 6, 2023, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
R18-8-267	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024.
R18-8-270	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.
R18-8-271	The portions of the CFR incorporated by reference in this rule are not consistent with the current version of the CFR as updated by the following EPA regulations: Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections, 89 FR 60692, July 26, 2024, Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020, 89 FR 82682, October 11, 2024.

5. Are the rules enforced as written? **Yes _X_ No __**

The rules are enforced as written.

6. Are the rules clear, concise, and understandable? **Yes _X__ No __**

The rules are clear, concise, and understandable. Minor clarifications can be made as described in the table below.

Rule	Explanation
R18-8-260	Including an internet website where the most current amounts for fees listed in subsection (M) can be found would provide additional clarity on fee amounts.
R18-8-264	Language can be added to clarify that the phone numbers provided for the ADEQ Emergency Response Unit are not intended for general emergencies.
R18-8-265	Language can be added to clarify that the phone numbers provided for the ADEQ Emergency Response Unit are not intended for general emergencies.
R18-8-268	The incorporation by reference in subsection (A) can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update to Chapter 8's incorporations by reference, so updating it will not alter the substance of the rule.
R18-8-273	The incorporation by reference in subsection (A) can be updated to the most recent version of the CFR. As of the date of this report, the referenced section of the CFR has not been changed since the last update to Chapter 8's incorporations by reference, so updating it will not alter the substance of the rule.

7. Has the agency received written criticisms of the rules within the last five years? Yes ___ No _X_

ADEQ has conducted two rulemakings involving Chapter 8 since the last five-year review was completed. In November of 2020, ADEQ adopted changes to the state's hazardous waste rules to incorporate certain changes in federal regulations, and in March of 2023 ADEQ conducted a rulemaking to increase certain hazardous waste fees. Both rulemakings involved stakeholder engagement through public meetings and workshops, which were well attended. ADEQ received no written criticisms regarding the Chapter 8 rules during either the informal or formal comment periods for these rulemakings, and has not received any other written criticisms of the rules within the last five years.

8. Economic, small business, and consumer impact comparison:

Article 1: The direct economic impact of R18-8-101 has not differed from that projected in the Economic Impact Statement (EIS) issued in the last rulemaking conducted on February 5, 2019. *See* 25 A.A.R. 439-42 (Mar. 1, 2019). The soil remediation levels in Chapter 7, Article 2 that are referenced in R18-8-101 have not changed since 2007.

Article 2: ADEQ conducted a rulemaking on November 3, 2020, impacting each section of Chapter 8 Article 2 and updating incorporations by reference. That rulemaking adopted changes to the state's hazardous waste rules to incorporate certain changes in federal regulations implementing Subtitle C of the Resource Conservation and Recovery Act (RCRA) as amended by the Hazardous and Solid waste Amendments of 1984 (HSWA). The amendments adopted changes to federal regulations that were in effect as of July 1, 2020. The EPA rules that altered the Federal Hazardous Waste Regulations as of July 1, 2020 that were incorporated into Arizona rules in the November, 2020 rulemaking were the following:

- Revisions to the Definition of Solid Waste, 73 FR 64667, October 30, 2008.
- Definition of Solid Waste, 80 FR 1693, January 13, 2015.
- Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule, 83 FR 24664, May 30, 2018.
- Safe Management of Recalled Airbags, 83 FR 61552, November 30, 2018.
- Management Standards for Hazardous Waste Pharmaceuticals and Amendment to the P075 Listing for Nicotine, 84 FR 5816, February 22, 2019.
- Increasing Recycling: Adding Aerosol Cans to the Universal Waste Regulations, 84 FR 67202, December 9, 2019.
- Address Change for Waste Import-Export Submittals from the Office of Federal Activities to the Office of Resource Conservation and Recovery, 83 FR 38263, August 6, 2018.

The 2020 EIS identified several economic benefits in the incorporation of updated federal rules, including cost savings and increased flexibility for businesses. *See* 26 A.A.R. 2952-54 (Nov. 20, 2020). The incorporation of the

updated federal rules reduced the regulatory burden, particularly for small businesses handling hazardous waste, such as healthcare facilities and those managing hazardous waste pharmaceuticals and aerosol cans.

ADEQ conducted an additional, fee related, rulemaking on March 8, 2023, amending R18-8-260 and R18-8-270. In the EIS for that rulemaking, ADEQ described how revenues and expenditures resulted in a shortfall of $800,000 based on fees collected at the Fiscal Year 2022 levels. *See* 29 A.A.R. 732-34 (Mar. 17, 2023). This shortfall would have impaired ADEQ's ability to maintain an EPA authorized hazardous waste program and therefore jeopardize approximately $1,000,000 in federal funding. ADEQ estimated in the EIS, that the additional cost of the 2023 fee rulemaking would be $800,000, the amount of increased fees necessary to address the budgetary shortfall.

ADEQ has determined that the direct economic impacts of the Chapter 8 Article 2 rules have not differed from those projected by the EIS provided for the November 2020 and March 2023 rulemakings.

9. Has the agency received any business competitiveness analyses of the rules? Yes ___ No _X_

ADEQ has not received a business competitiveness analysis of the rules in this Chapter.

10. Has the agency completed the course of action indicated in the agency's previous five-year review report?

ADEQ has completed the proposed course of action laid out in its 2019 five-year review report for Chapter 8. ADEQ proposed one course of action in that report, relating to inspection requirements for large quantity generators. ADEQ received a question in 2019 following the hazardous waste rulemaking conducted in February of that year, asking why ADEQ required inspection of logs for small quantity generators but not large quantity generators. ADEQ determined that this was an oversight and R18-8-262(G) should be amended to read "Any generator who must comply with 262.16 or 262.17 shall keep a written log of the inspections." This change was implemented as part of ADEQ's hazardous waste rulemaking conducted in 2020 and effective November 3, 2020.

11. A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:

Rule	Explanation
Article 1: Remedial Action Requirements	R18-8-101 is the only rule contained in Article 1. This rule clarifies that the soil cleanup standards from 18 A.A.C. 7, and applicable in other ADEQ programs, apply to hazardous waste corrective actions and helps provide consistency across all programs performing soil remediation. ADEQ is not aware of any costs directly attributable to this rule, while it provides benefits in the form of consistency, predictability, and clarity to soil cleanup standards.
Article 2: Hazardous Wastes	The costs of the Hazardous Waste Management Program outlined in Article 2 include the regulatory burden of applicable standards for safe and proper management of hazardous waste applicable to hazardous waste generators and transporters, and owners and

	operators of hazardous waste treatment, storage and disposal facilities. The costs of the rules also include administrative costs in the form of registration, disposal, and permitting requirements and associated fees outlined in Article 2. The standards established in these rules provide public health benefits by ensuring hazardous waste is handled, stored, and disposed of in a safe and proper manner. The fees established in Article 2's rules provide revenue necessary for ADEQ to maintain EPA authorization for the Hazardous Waste Management Program, ensuring the state continues to manage hazardous waste regulations in Arizona, rather than the EPA. ADEQ believes the costs of the standards and fees outlined in Article 2 are outweighed by the benefits of ensuring the long-term viability of the Hazardous Waste Management Program, allowing the state to retain the technical, managerial, and financial capacity necessary to protect public health from hazardous waste risks.

12. Are the rules more stringent than corresponding federal laws? Yes ___ No _X_

Article 1 has no corresponding federal law.

Article 2 rules correspond with the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984, and the associated federal Hazardous Waste Management program rules. Article 2 incorporates by reference several portions of the federal rules while being no more stringent, specifically 40 CFR § 124, 40 CFR 260, 40 CFR §§ 261 through 266, 40 CFR 268, 40 CFR 270, and 40 CFR 273.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

Article 1 does not require issuance of a regulatory permit, license, or agency authorization.

The Article 2 rules require a regulatory permit for transportation, storage, and disposal (TSD) facilities. The rules comply with A.R.S. § 41-1037 because pursuant to A.R.S. § 41-1037(A)(2), a specific alternative permit is authorized by state statute under A.R.S. § 49-922(B)(5).

14. Proposed course of action:

ADEQ prioritizes rulemakings in terms of the greatest impact on public health and the environment. Rulemakings often require significant stakeholder input and public comment, and therefore ADEQ also prioritizes rulemakings to reduce confusion and maximize input. ADEQ's Waste Programs Division is currently engaged in several rulemakings which it has determined are necessary based on their impacts to public health and the environment.

Coal Combustion Residuals	High Priority	Will establish an Arizona coal combustion residuals (CCR) permit program that would be approved by the U.S. Environmental Protection Agency (EPA) to implement the federal regulations in Arizona in lieu of the federal government. Rule returned by GRRC December 4, 2024, ADEQ anticipates resubmitting this rulemaking in early 2025.
Transfer Stations	High Priority	Will amend A.A.C. Title 18, Chapter 13 to add and amend articles as necessary to implement design and operation rules and corresponding financial assurance

		mechanism rules for solid waste transfer facilities. Active rulemaking, anticipate final to GRRC June 2025.
Tier II Fees	High Priority	Will amend A.A.C. Title 18, Chapter 18 to update the Emergency Planning and Community Right to Know program rules and the Tier II Emergency and Hazardous Chemical Inventory Reporting fee structure. Pending rulemaking, submitting to the Governor for approval January, 2025.
Ch. 7 Technical Updates	Medium Priority	Implements technical fixes as part of five-year review commitments to GRRC. Active rulemaking, anticipate Final to GRRC January 2025.
Ch. 18 Technical Updates	Medium Priority	Implements technical fixes as part of five-year review commitments to GRRC. Active rulemaking, anticipate Final to GRRC January 2025.

In addition to the active rulemakings outlined above, Waste Programs Division has a docket of several pending rulemakings necessary to implement various unfulfilled statutory mandates. The chart below outlines those pending rulemakings and their associated statutory mandates, as well as ADEQs projected timeline for conducting the rulemakings, subject to the Division's rulemaking capacity.

Rulemaking	Timeframe
Solid Waste Non-Landfill Disposal/Treatment Requirements A.R.S. 49-761(G), (H) A.R.S. 49-761(G) and (H) require the Department to adopt design & operation rules, and best management practices for solid waste facilities. ADEQ intends to address this requirement over the course of rulemakings, each handling a different class of solid waste facilities, to be conducted in tandem with the financial assurance requirements in A.R.S. 49-761(J).	Ongoing pursuant to adoption of design and operation standards for each solid waste facility category, beginning with transfer facilities in 2025.
Financial Assurance Requirements for Solid Waste Facilities A.R.S. 49-761(J) A.R.S. §49-761(J) requires the Department to adopt various rules establishing financial assurance requirements for solid waste facilities. ADEQ intends to address this requirement over the course of multiple rulemakings, each handling a different class of solid waste facilities, to be conducted in tandem with the design and operating requirements in A.R.S. 49-761(G) and (H).	Ongoing pursuant to adoption of design and operation standards for each solid waste facility category, beginning with transfer facilities in 2025.
Recycling Facility Standards & Recycling Program A.R.S. 49-761(K); A.R.S. 49-832(B)(8). A.R.S. 49-761(K) requires the department to adopt rules establishing design and operating standards for self-certification recycling facilities. A.R.S. 49-832(B)(8) requires the Department to adopt rules for the administration of Title 49, Chapter 4, Article 8 (Arizona Recycling Program). ADEQ intends to address these requirements over the course of multiple rulemakings projected to begin in the fall of 2025.	Recycling rule(s) projected start fall 2025, to be completed fall 2026.

Rulemaking	Timeframe
Solid Waste Land Disposal Facilities Non-Municipal [Landfills] A.R.S. 49-761(C) A.R.S. 49-761(C) requires the Department to establish design and operating rules for non-municipal landfills pursuant to 40 CFR part 257. ADEQ intends to address this requirement in a rulemaking projected to begin in the fall of 2026.	Rulemaking projected to begin fall 2026 to be completed fall 2027.
Criteria for determining the category type of a proposed change to solid waste facility A.R.S. 49-762.06(A) A.R.S. 49-762.06(A) requires the Department to establish criteria for solid waste facility plan amendment category types as identified in A.R.S. 49-762.06. ADEQ intends to address this requirement in a rulemaking projected to begin in the fall of 2027.	Rulemaking projected to begin summer 2027 to be completed summer 2028.
Composting A.R.S. 49-761(M) A.R.S. 49-761(M) requires the Department to adopt facility design, construction, operation, closure and post closure maintenance rules for biosolids processing facilities and waste composting facilities that must obtain plan approval pursuant to A.R.S. 49-762. This rulemaking is contingent on a change to the definition of "solid waste facility" under A.R.S. 49-701(45). Currently, a "site that stores, treats or processes" vegetative waste is exempted from the definition of a solid waste facility. Vegetative waste is a major component of composting activities. Thus, removing the vegetative waste exemption would be required to ensure any related composting facility rulemaking applies to all composting facilities. ADEQ will proceed with a rulemaking to address the requirements of A.R.S. 49-761(M) once the necessary changes to the definition of "solid waste facility" are adopted.	Rulemaking will require statutory changes to definition of 'vegetative waste', ADEQ will proceed with rulemaking once necessary changes are adopted.

As the Waste Programs Division completes its current slate of rulemakings it will begin work on a Chapter 8 rulemaking to incorporate recommendations made in this report. Specifically, ADEQ will update the incorporations by reference outlined in section 4 of this report to incorporate the listed EPA rulemakings, and any subsequent EPA rulemakings, and will incorporate the changes listed in part 6 of this report to improve clarity of the rules. ADEQ anticipates conducting this rulemaking following updates to the Federal Register in July 2025, to be completed mid 2026.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 8. DEPARTMENT OF ENVIRONMENTAL QUALITY - HAZARDOUS WASTE MANAGEMENT

The table of contents on page one contains links to the referenced page numbers in this Chapter.
Refer to the notes at the end of a Section to learn about the history of a rule as it was published in the *Arizona Administrative Register*.

This Chapter contains rules that were filed to be codified in the *Arizona Administrative Code* between the dates of
January 1, 2023 through March 31, 2023

Questions about these rules? Contact:

Department: The Department of Environmental Quality
Division: Waste Programs Division
Address: 1110 W. Washington St.
Phoenix, AZ 85007
Fax: (602) 771-4272
Website: www.azdeq.gov/WPD

Contact: Mark Lewandowski
Telephone: (602) 771-2230
E-mail: lewandowski.mark@azdeq.gov

The release of this Chapter in Supp. 23-1 replaces Supp. 21-4, 1-30 pages.
Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. *"'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."*

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The "R" stands for "rule" with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 8. DEPARTMENT OF ENVIRONMENTAL QUALITY - HAZARDOUS WASTE MANAGEMENT

Supp. 23-1

CHAPTER TABLE OF CONTENTS

Editor's Note: Article 1 was exempt from the regular rulemaking process (Laws 1995, Ch. 232 § 5). However the Department was required to provide a notice of hearing and public hearing before adoption of this rule. The emergency rules were approved by the Attorney General. (Supp. 96-1). Editor's Note added to clarify exemptions of emergency adoption (Supp. 97-1). The Article was adopted permanently effective December 4, 1997 (Supp. 97-4).

ARTICLE 1. REMEDIAL ACTION REQUIREMENTS

Article 1, consisting of R18-8-101, adopted permanently through the regular rulemaking process, effective December 4, 1997 (Supp. 97-4).

Article 1, consisting of R18-8-101, adopted by emergency action effective March 22, 1996, pursuant to A.R.S. § 41-1026; in effect until permanent rules are adopted pursuant to Laws 1995, Chapter 232 § 5 (Supp. 96-1).

ARTICLE 2. HAZARDOUS WASTES

Article 2, reserved Sections R18-8-202 through R18-8-258, now listed in full, numerical order to maintain consistency in this Chapter.

Article 2 consisting of Section R18-8-273 adopted effective June 13, 1996 (Supp. 96-2).

Article 2 consisting of Sections R9-8-1860 through R9-8-1866, R9-8-1869 through R9-8-1871, and R9-8-1880 amended and renumbered as Article 2, Sections R18-8-260 through R18-8-266, R18-8-269 through R18-8-271, and R18-8-280 (Supp. 87-2).

ARTICLE 3. RECODIFIED

Title 18, Chapter 8, Article 3, consisting of Sections R18-8-301 through R18-8-305, R18-8-307, Table A, Exhibit 1, and Appendices A and B, recodified to Title 18, Chapter 13, Article 13, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Article 3, consisting of Sections R18-8-301 through R18-8-305, adopted effective August 16, 1993 (Supp. 93-3).

Article 3, consisting of Section R18-8-306, adopted again by emergency action effective May 26, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-2).

Article 3, consisting of Section R18-8-306, adopted by emergency action effective February 22, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-1). Emergency expired.

ARTICLE 4. RECODIFIED

Title 18, Chapter 8, Article 4, consisting of Section R18-8-402, recodified to Title 18, Chapter 13, Article 9, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Article 17 consisting of Sections R9-8-1711 and R9-8-1717 renumbered as Article 4, Sections R18-8-401 and R18-8-402 (Supp. 87-3).

ARTICLE 5. RECODIFIED

Title 18, Chapter 8, Article 5, consisting of Sections R18-8-502 through R18-8-512, recodified to Title 18, Chapter 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Article 4 consisting of Sections R9-8-411 through R9-8-416, R9-8-421, R9-8-426 through R9-8-428, and R9-8-431 through R9-8-433 renumbered as Article 5, Sections R18-8-501 through R18-8-513 (Supp. 87-3).

ARTICLE 6. RECODIFIED

Existing Sections in Article 6 recodified to 18 A.A.C. 13, Article 11 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

Article 12 consisting of Sections R9-8-1211 through R9-8-1216, R9-8-1221 through R9-8-1225, R9-8-1231 through R9-8-1236, and R9-8-1241 through R9-8-1244 renumbered as Article 6, Sections R18-8-601 through R18-8-621 (Supp. 87-3).

ARTICLE 7. RECODIFIED

18 A.A.C. 8, Article 7, consisting of Sections R18-8-701 through R18-8-710, recodified to Title 18, Chapter 13, Article 12, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Article 7, consisting of Sections R18-8-701 through R18-8-708, adopted permanently with changes effective July 6, 1993 (Supp. 93-3).

Article 7, consisting of Sections R18-8-709 and R18-8-710, adopted again by emergency action effective May 6, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-2). Emergency expired.

Article 7, consisting of Sections R18-8-709 and R18-8-710, adopted by emergency action effective February 5, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-1).

ARTICLE 1. REMEDIAL ACTION REQUIREMENTS

R18-8-101. Remedial Action Requirements; Level and Extent of Cleanup

A. This Article is applicable to Chapter 8 of this Title.

B. In any instance where soil remediation is done under this Chapter, it shall be conducted in accordance with 18 A.A.C. 7, Article 2.

Historical Note

Emergency rule adopted effective March 22, 1996, pursuant to A.R.S. §§ 49-152 and 41-1026; in effect until permanent rules are adopted (Supp. 96-1). Historical note revised to clarify exemptions of emergency adoption (Supp. 97-1 & Supp. 97-3). Adopted permanently through the regular rulemaking process, effective December 4, 1997 (Supp. 97-4). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1).

ARTICLE 2. HAZARDOUS WASTES

R18-8-201. Expired

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 846, effective July 1, 2010 (Supp. 10-2). Section expired pursuant to A.R.S. § 41-1056(J), at 22 A.A.R. 2983, effective September 15, 2016 (Supp. 16-2).

R18-8-260. Hazardous Waste Management System: General

A. All Federal regulations cited in this Article are those revised as of July 1, 2020 (and no future editions), unless otherwise noted, and are applicable only as incorporated by this Article. 40 CFR 124, 260 through 266, 268, 270 and 273 or portions of these regulations, are incorporated by reference, as noted in the text. Federal statutes and regulations that are cited within 40 CFR 124, 260 through 270, and 273 that are not incorporated by reference may be used as guidance in interpreting federal regulatory language.

B. Any reference or citation to 40 CFR 124, 260 through 266, 268, 270, and 273, or portions of these regulations, appearing in the body of this Article and regulations incorporated by reference, includes any modification to the CFR section made by this Article. When federal regulatory language that has been

incorporated by reference has been amended, brackets [ ] enclose the new language. The subsection labeling in this Article may or may not conform to the Secretary of State's formatting requirements, because the formatting reflects the structure of the incorporated federal regulations.

C. All of 40 CFR 260, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the Department of Environmental Quality (DEQ) with the exception of the following:

1. 40 CFR 260.1(b)(4) through (6), 260.20(a), 260.21, 260.22, 260.30, 260.31, 260.32, and 260.33; and
2. The revisions for standardized permits as published at 70 FR 53419. Copies of 40 CFR 260 are available at https://www.eCFR.gov. Copies of the Federal Register (FR) are available at https://www.federalregister.gov.

D. § 260.2, titled "Availability of information; confidentiality of information" is amended by the following:

1. § 260.2(a). Any information provided to [the DEQ] under [R18-8-260 through R18-8-266 and R18-8-268 shall] be made available to the public to the extent and in the manner authorized by the [Hazardous Waste Management Act (HWMA), A.R.S. § 49-921 et seq.; the Open Meeting Law, A.R.S. § 38-431 et seq.; the Public Records Statute, A.R.S. § 39-121 et seq.; the Administrative Procedure Act, A.R.S. § 41-1001 et seq.; and rules promulgated pursuant to the above-referenced statutes], as applicable.
2. § 260.2(b) is replaced with the following:
   a. The DEQ shall make a record or other information, such as a document, a writing, a photograph, a drawing, sound or a magnetic recording, furnished to or obtained by the DEQ pursuant to the HWMA and regulations promulgated thereunder, available to the public to the extent authorized by the Public Records Statute, A.R.S. §§ 39-121 et seq.; the Administrative Procedure Act, A.R.S. §§ 41-1001 et seq.; and the HWMA, A.R.S. §§ 49-921 et seq. Specifically, the DEQ shall disclose the records or other information to the public unless:
      i. A statutory exemption authorizes the withholding of the information; or
      ii. The record or other information contains a trade secret concerning processes, operations, style of work, or apparatus of a person, or other information that the Director determines is likely to cause substantial harm to the person's competitive position.
   b. Notwithstanding subsection (a):
      i. The DEQ shall make records and other information available to the EPA upon request without restriction;
      ii. As required by the HWMA and regulations promulgated thereunder the DEQ shall disclose the name and address of a person who applies for, or receives, a HWM facility permit;
      iii. The DEQ and any other appropriate governmental agency may publish quantitative and qualitative statistics pertaining to the generation, transportation, treatment, storage, or disposal of hazardous waste; and
      iv. An owner or operator may expressly agree to the publication or to the public availability of records or other information.
   c. A person submitting records or other information to the DEQ may claim that the information contains a confidential trade secret or other information likely to cause substantial harm to the person's competitive position. In the absence of such claim, the DEQ shall make the information available to the public on request without further notice. No claim of confidentiality may be asserted by any person with respect to information entered on a Hazardous Waste Manifest (EPA Form 8700–22), a Hazardous Waste Manifest Continuation Sheet (EPA Form 8700–22A), or an electronic manifest format that may be prepared and used in accordance with 40 CFR 262.20(a)(3). EPA will make any electronic manifest that is prepared and used in accordance with § 262.20(a)(3), or any paper manifest that is submitted to the system under §§ 264.71(a)(6) or 265.71(a)(6) available to the public under this section when the electronic or paper manifest is a complete and final document. Electronic manifests and paper manifests submitted to the system are considered by EPA to be complete and final documents and publicly available information after 90 days have passed since the delivery to the designated facility of the hazardous waste shipment identified in the manifest. A person making a claim of confidentiality shall assert the claim:
      i. At the time the information is submitted to, or otherwise obtained by, the DEQ;
      ii. By either stamping or clearly marking the words "confidential trade secret" or "confidential information" on each page of the material containing the information. The person may assert the claim only for those portions or pages that actually contain a confidential trade secret or confidential information; and
      iii. During the course of a DEQ inspection, or other observation, pursuant to the administration of the HWMA Program, by clearly indicating to the inspector which specific processes, operations, styles of work, or apparatus constitute a trade secret. The inspector shall record the claim on the inspection report and the claimant shall sign the report.
   d. The Director shall provide the claimant with an opportunity to submit written comments to demonstrate that the information constitutes a legitimate confidential trade secret or confidential information. The comments shall be limited to confidential use by the DEQ pursuant to A.R.S. § 49-928. Pertinent factors to be considered by the Director for making a determination of confidentiality, and that the claimant may address in the claimant's written comments, include the following:
      i. Whether the information is proprietary;
      ii. Whether the information has been disclosed to persons other than the employees, agents, or other representatives of the owner; and
      iii. Whether public disclosure would harm the competitive position of the claimant.
   e. The Director shall make a determination of each confidentiality claim using the following procedures:
      i. When a claim of confidentiality is asserted for information submitted as part of a HWM facility permit application:

(1) The claimant shall submit written comments demonstrating the legitimacy of the claim of confidentiality; and
(2) The Director shall evaluate the confidentiality claim and notify the claimant of the result of that determination as part of the completeness review pursuant to R18-8-271(C).

ii. When a claim of confidentiality is asserted for information submitted or obtained during an inspection, or for any other information submitted to or obtained by the DEQ pursuant to this Article, but not as part of a HWM facility permit application:
(1) The claimant may submit written comments demonstrating the legitimacy of the claim of a confidential trade secret or other confidential information within 10 working days of asserting the confidentiality claim; and
(2) If a request for disclosure is made, the Director shall evaluate the confidentiality claim and notify the claimant of the result of that determination. In all other instances, the Director may, on the Director's own initiative, evaluate the confidentiality claim and notify the claimant of the result of that determination within 20 working days after the time for submission of comments.

iii. When any person, hereinafter referred to as the "requestor," submits a request to the DEQ for public disclosure of records or information, the DEQ shall disclose the records or information to the requestor unless the information has been determined to be confidential by the Director, or is subject to a claim of confidentiality that is being considered for determination by the Director.
(1) If a confidentiality claim is under consideration by the Director, the requestor shall be notified that the information requested is under a confidentiality claim consideration and therefore is unavailable for public disclosure pending the Director's determination pursuant to subsection (D)(2)(e)(ii)(2).
(2) When a request for disclosure is made, the claimant shall be notified, within seven working days by certified mail with return receipt requested, that the information under a claim of confidentiality has been requested and is subject to the Director's determination pursuant to subsection (D)(2)(e)(ii)(2).
(3) If the Director disagrees with the confidentiality claim, the claimant shall have 20 working days to submit written comments either agreeing or disagreeing with the Director's evaluation.
(4) If a confidentiality claim is denied by the Director, the Director may request the attorney general to seek a court order authorizing disclosure pursuant to A.R.S. § 49-928.

f. Records or information determined by the Director to be legitimate confidential trade secrets or other confidential information shall not be disclosed by the DEQ at administrative proceedings pursuant to A.R.S. § 49-923(A) unless the following procedure is observed:
i. The DEQ shall notify both the claimant and the hearing officer of its intention to disclose the information at least 30 days prior to the hearing date. The DEQ shall send with the notice a copy of the confidential information that the DEQ intends to disclose;
ii. The claimant and the DEQ shall be allowed 10 days to present to the hearing officer comments concerning the disclosure of such information;
iii. The hearing officer shall determine whether the confidential information is relevant to the subject of the administrative proceeding and shall allow disclosure upon finding that the information is relevant to the subject of the administrative proceeding;
iv. The hearing officer may set conditions for disclosure of confidential and relevant information or the making of protective arrangements and commitments as warranted; and
v. The hearing officer shall give the claimant at least five days' notice before allowing disclosure of the information in the course of the administrative proceeding.

E. § 260.10, titled "Definitions," is amended by adding all definitions from § 270.2 to this Section, including the following changes, applicable throughout this Article unless specified otherwise:
1. ["Acute Hazardous Waste" means waste found to be fatal to humans in low doses or, in the absence of data on human toxicity, that has been shown in studies to have an oral lethal dose (LD) 50 toxicity (rat) of less than 50 milligrams per kilogram, an inhalation lethal concentration (LC) 50 toxicity (rat) of less than 2 milligrams per liter, or a dermal LD 50 toxicity (rabbit) of less than 200 milligrams per kilogram or that is otherwise capable of causing or significantly contributing to an increase in serious irreversible, or incapacitating reversible, illness,] and therefore are either listed in § 261.31 with the assigned hazard code of (H) or are listed in § 261.33(e).
2. ["Application" means the standard United States Environmental Protection Agency forms for applying for a permit, including any additions, revisions or modifications to the forms. Application also includes the information required pursuant to §§ 270.14 through 270.29 (regarding the contents of a Part B HWM facility permit application).]
3. ["Chapter" means "Article" except in § 264.52(b), see R18-8-264, and § 265.52(b), see R18-8-265.]
4. "Closure" means [, for facilities with effective hazardous waste permits, the act of securing a HWM facility pursuant to the requirements of R18-8-264. For facilities subject to interim status requirements, "closure" means the act of securing a HWM facility pursuant to the requirements of R18-8-265.]
5. ["Concentration" means the amount of a substance in weight contained in a unit volume or weight.]

6. ["Department" or "the DEQ" means the Arizona Department of Environmental Quality.]
7. "Department of Transportation" or "DOT" means the U.S. Department of Transportation.
8. ["Director" or "state Director" means the Director of the Department of Environmental Quality or an authorized representative, except in §§ 262.80 through 262.84, 268.5 through 268.6, 268.42(b), and 268.44 which are non-delegable to the state of Arizona.]
9. ["Draft permit" means a document prepared under § 124.6 indicating the Director's tentative decision to issue, deny, modify, revoke, reissue, or terminate a permit. A denial of a request for modification, revocation, reissuance or termination, as discussed in § 124.5, is not a draft permit.]
10. ["Emergency permit" means a permit that is issued in accordance with § 270.61.]
11. ["EPA," "Environmental Protection Agency," "United States Environmental Protection Agency," "U.S. EPA," "EPA HQ," "EPA Regions," and "Agency" mean the DEQ with the following exceptions:
    a. Any references to EPA identification numbers;
    b. Any references to EPA hazardous waste numbers;
    c. Any reference to EPA test methods or documents;
    d. Any reference to EPA forms;
    e. Any reference to EPA publications;
    f. Any reference to EPA manuals;
    g. Any reference to EPA guidance;
    h. Any reference to EPA Acknowledgment of Consent;
    i. References in §§ 260.1(b);
       260.2(d);
       260.4(a)(4);
       260.10 (definitions of "Administrator," "EPA region," "Federal agency," "Person," and "Regional Administrator");
       260.11(a);
       260.34;
       261, Appendix IX;
       261.4(a)(24), but in § 261.24(a)(24)(v)(B)(2), "EPA" means "DEQ";
       261.4(a)(25);
       261.39(a)(5);
       261.41;
       262.21;
       262.24(a)(3);
       262.25;
       262.32(b);
       Part 262, subpart H;
       263.10(a) Note;
       264.12(a)(2), 264.71(a)(3), 264.71(d), 265.12(a)(2), 265.71(a)(3), 265.71(d);
       268.1(e)(3);
       268.5, 268.6, 268.42(b), and 268.44, which are non-delegable to the state of Arizona;
       270.1(a)(1);
       270.1(b);
       270.2 (definitions of "Administrator," "Approved program or Approved state," "Director," "Environmental Protection Agency," "EPA," "Final authorization," "Permit," "Person," "Regional Administrator," and "State/EPA agreement");
       270.3;
       270.5;
       270.10(e)(1) through (2);
       270.11(a)(3);
       270.32(a) and (c);
       270.51;
       270.72(a)(5) and (b)(5);
       273.32(a)(3);
       124.1(f);
       124.5(d);
       124.6(e);
       124.10(c)(1)(ii); and
       124.13.]
12. ["Federal Register" means a daily or weekly major local newspaper of general circulation, within the area affected by the facility or activity, except in §§ 260.11(b) and 270.10(e)(2).]
13. ["HWMA" or "State HWMA" means the State Hazardous Waste Management Act, A.R.S. § 49-921 et seq., as amended.]
14. ["Hazardous Waste Management facility" or "HWM facility" means any facility or activity, including land or appurtenances thereto, that is subject to regulation under this Article.]
15. ["Key employee" means any person employed by an applicant or permittee in a supervisory capacity or empowered to make discretionary decisions with respect to the solid waste or hazardous waste operations of the applicant or permittee. Key employee does not include an employee exclusively engaged in the physical or mechanical collection, transportation, treatment, storage, or disposal of solid or hazardous waste.]
16. ["National" means "state" in §§ 264.1(a) and 265.1(a).]
17. ["Off-site" means any site that is not on-site.]
18. ["Permit" means an authorization, license, or equivalent control document issued by the DEQ to implement the requirements of this Article. Permit includes "permit-by-rule" in § 270.60 and "emergency permit" in § 270.61, and it does not include interim status as in § 270.70 or any permit which has not yet been the subject of final action, such as a "draft permit" or a "proposed permit."]
19. ["Permit-by-rule" means a provision of this Article stating that a facility or activity is considered to have a HWM facility permit if it meets the requirements of the provision.]
20. ["Physical construction" means excavation, movement of earth, erection of forms or structures, or similar activity to prepare a HWM facility to accept hazardous waste.]
21. ["RCRA," "Resource Conservation and Recovery Act," "Subtitle C of RCRA," "RCRA Subtitle C," or "Subtitle C" when referring either to an operating permit or to the federal hazardous waste program as a whole, mean the "State Hazardous Waste Management Act, A.R.S. § 49-921 et seq., as amended" with the following exceptions:
    a. Any reference to a specific provision of "RCRA," "Resource Conservation and Recovery Act," "Subtitle C of RCRA," "RCRA Subtitle C," or "Subtitle C";
    b. References in §§ 260.10 (definition of "Act or RCRA"); 260, Appendix I,; 261, Appendix IX,; Part 262, subpart H, 270.1(a)(2); 270.2, definition of "RCRA,"; and 270.51, "EPA-issued RCRA permit,".]
22. [Following any references to a specific provision of "RCRA," "Resource Conservation and Recovery Act," or "Subtitle C," the phrase "or any comparable provisions of the state Hazardous Waste Management Act, A.R.S. § 49-

921 et seq., as amended" shall be deemed to be added except in §§ 270.72(a)(5) and (b)(5).]

23. ["RCRA § 3005(a) and (e)" means "A.R.S. § 49-922."]
24. ["RCRA § 3007" means "A.R.S. § 49-922."]
25. ["RCRA § 3008" means "A.R.S. §§ 49-921 through 49-926"]
26. ["RCRA § 3010" means "A.R.S. § 49-922."]
27. ["Recyclable Materials" mean hazardous wastes that are recycled.]
28. ["Region" or "Region IX" means "state" or "state of Arizona."]
29. ["Schedule of compliance" means a schedule of remedial measures included in a permit, including an enforceable sequence of interim requirements, such as actions, operations, or milestone events, leading to compliance with the HWMA and this Article.]
30. ["Site" means the land or water area where any facility or activity is physically located or conducted, including adjacent land used in connection with the facility or activity.]
31. ["State," "authorized state," "approved state," or "approved program" means the state of Arizona with the following exceptions:
    References at §§ 260.10, definitions of "person," "state," and "United States,"; 262;
    264.143(e)(1);
    264.145(e)(1);
    264.147(a)(1)(ii);
    264.147(b)(1)(ii);
    264.147(g)(2);
    264.147(i)(4);
    265.143(d)(1);
    265.145(d)(1);
    265.147(a)(1)(ii);
    265.147(g)(2);
    265.147(i)(4); and
    270.2, definitions of "Approved program or Approved state," "Director," "Final authorization," "Person," and "state".]
32. ["The effective date of these regulations" means the following dates: "May 19, 1981," in §§ 265.112(a) and (d), 265.118(a) and (d), 265.142(a) and 265.144(a); "November 19, 1981," in §§ 265.112(d) and 265.118(d);.]
33. ["TSD facility" means a "Hazardous Waste Management facility" or "HWM facility."]

F. § 260.10, titled "Definitions," as amended by subsection (E) also is amended as follows, with all definitions in § 260.10, applicable throughout this Article unless specified otherwise.

1. "Act" or ["the Act" means the state Hazardous Waste Management Act or HWMA, except in R18-8-261(B) and R18-8-262(B).]
2. "Administrator," "Regional Administrator," "EPA Regional Administrator", "state Director," or "Assistant Administrator for Solid Waste and Emergency Response" mean the [Director or the Director's authorized representative, except in §§:
    260.10, in the definitions of "Administrator," "AES filing compliance date", "Electronic import-export reporting compliance date", "Regional Administrator," and "hazardous waste constituent";
    260.20
    260.40
    260.41;
    261, Appendix IX;
    262.11(c);
    262.41;
    262.43;
    262, Subpart H;
    264.12(a);
    264.71;
    265.12(a);
    265.71;
    268.2(j);
    268.5, 268.6, 268.42(b), and 268.44, which are non-delegable to the state of Arizona; 270.2, in the definitions of "Administrator", "Director", "Major facility", "Regional Administrator", and "State/EPA agreement";
    270.3;
    270.5;
    270.10(e)(1), (2), and (4);
    270.10(f) and (g);
    270.11(a)(3);
    270.14(b)(20);
    270.32(b)(2);
    270.51;
    124.5(d);
    124.6(e);
    124.10(b)].
3. "Facility" [or "activity" means:
    [a]. Any HWM facility or other facility or activity, including] all contiguous land, and structures, other appurtenances, and improvements on the land [which are] used for treating, storing, or disposing of hazardous waste, [that is subject to regulation under the HWMA program] or for managing hazardous secondary materials prior to reclamation. A facility may consist of several treatment, storage, or disposal operational units ([that is], one or more landfills, surface impoundments, or combinations of them).
    [b]. For the purpose of implementing corrective action under 40 CFR 264.101, all contiguous property under the control of the owner or operator seeking a permit under Subtitle C of RCRA. This definition also applies to facilities implementing corrective action under RCRA Section 3008(h).
    [c]. Notwithstanding paragraph ([b]) of this definition, a remediation waste management site is not a facility that is subject to 40 CFR 264.101, but is subject to corrective action requirements if the site is located within such a facility.
4. "Final closure" means the closure of all hazardous waste management units at the facility in accordance with all applicable closure requirements so that hazardous waste management activities under parts 264 and 265 of this chapter are no longer conducted at the facility unless subject to the provisions in [§§ 262.15 and 262.17.]
5. "New HWM facility" or "new facility" means a HWM facility which began operation, or for which construction commenced, [after November 19, 1980].
6. "Person" means an individual, trust, firm, joint stock company, federal agency, corporation, including a government corporation, [or a limited liability corporation], partnership, association, state, municipality, commission, political subdivision of a state, or any interstate body, [state agency, or an agent or employee of a state agency].
7. "United States" or "U.S." means [Arizona except for the following:

a. The definitions of "CRT exporter" and "recognized trader" in § 260.10.
b. §§ 261.4(a)(23) and 261.4(a)(25).
c. § 261.4(d)(4) and (e)(4).
d. § 261.39(a)(5).
e. § 262.14(a)(5).
f. Part 262, subpart H.
g. All references in Part 263 except §§ 263.10(a) and 263.22(c).
h. § 266.80.]

G. § 260.20(a), titled "General" pertaining to rulemaking petitions, is replaced by the following:

Where the Administrator of EPA has granted a rulemaking petition pursuant to 40 CFR 260.20(a), 260.21, or 260.22, the Director may accept the Administrator's determination and amend the Arizona rules accordingly, if the Director determines the action to be consistent with the policies and purposes of the HWMA.

H. § 260.23, titled "Petitions to amend 40 CFR 273 to include additional hazardous wastes" pertaining to rulemaking petitions, is amended as follows: (a) Any person seeking to add a hazardous waste or a category of hazardous waste to the universal waste regulations of part 273 of this chapter may petition for a regulatory amendment under this Section, 40 CFR 260.20(b) through (e), and Subpart G of 40 CFR 273.

I. § 260.30, titled "Non-waste determinations and variances from classification as a solid waste," is replaced by the following: Any person wishing to submit a variance petition shall submit the petition, under this subsection, to the EPA. Where the administrator of EPA has granted a variance from classification as a solid waste under 40 CFR 260.30, 260.31, 260.33, and 260.34, the director shall accept the determination, if the director determines the action is consistent with the policies and purposes of the HWMA.

J. § 260.32, titled "Variances to be classified as a boiler," is replaced by the following:

Any person wishing to submit a variance petition shall submit the petition, under this subsection, to the EPA. Where the administrator of EPA has granted a variance from classification as a boiler pursuant to 40 CFR 260.32 and 260.33, the director shall accept the determination, if the director determines the action is consistent with the policies and purposes of the HWMA.

K. 40 CFR 260.41, titled "Procedures for case-by-case regulation of hazardous waste recycling activities," is amended by deleting the following from the end of paragraph (a):

"or unless review by the Administrator is requested. The order may be appealed to the Administrator by any person who participated in the public hearing. The Administrator may choose to grant or to deny the appeal."

L. As required by A.R.S. § 49-929, generators and transporters of hazardous waste shall register annually with DEQ and submit the appropriate registration fee, prescribed below, with their registration. Registration shall be done through DEQ's myDEQ portal. For registration, go to http://www.azdeq.gov/mydeq.

1. A hazardous waste transporter that picks up or delivers hazardous waste in Arizona shall pay $200 by March 1 of the year following the date of the pick-up or delivery;
2. A large-quantity generator that generated 1,000 kilograms or more of hazardous waste in any month of the previous calendar year shall pay $300; or
3. A small-quantity generator that generated 100 kilograms or more but less than 1,000 kilograms of hazardous waste in any month of the previous year shall pay $100.

M. A person shall pay hazardous waste generation and disposal fees as required under A.R.S. § 49-931 after the rates are updated for the billing period. The billing period for large-quantity generators shall be quarterly and for small-quantity generators, including very small quantity generators who become a small quantity generator due to an episodic event, annually. The person shall pay the fee within 30 days of the close of the billing period. The following hazardous waste fees shall apply:

1. A person who generates hazardous waste in calendar year 2023 that is shipped off site shall pay $87.00 per ton but not more than $258,000 per generator site per year of hazardous waste generated. For each succeeding calendar year, these rates shall be adjusted according to subsection (4).
2. An owner or operator of a facility that disposes of hazardous waste in calendar year 2023 shall pay $348 per ton but not more than $6,245,000 per disposal site per year of hazardous waste disposed. For each succeeding calendar year, these rates shall be adjusted according to subsection (4).
3. A person who generates hazardous waste in calendar year 2023 that is retained on site for disposal or that is shipped off site for disposal to a facility that is owned and operated by that generator shall pay $34.83 per ton but not more than $206,000 per generator site per year of hazardous waste disposed. For each succeeding calendar year, these rates shall be adjusted according to subsection (4).
4. From and after January 1, 2024, the amounts in subsections (1), (2) and (3), and R18-8-270(G)(6) shall be updated annually before each April 1 by the following method:
   a. On or about January 15 after the calendar year to be updated, ADEQ shall use the United States Bureau of Labor Statistics CPI Inflation Calculator at bls.gov/data/inflation_calculator.htm, as follows unless updated:
      i. Insert the current maximum fee, per ton rate, or hourly rate in the first box.
      ii. Insert December of the calendar year 13 months previous in the before-inflation box. Insert the previous December in the after-inflation box.
      iii. Select "Calculate". The new maximum, per ton rate, or hourly rate for the billing period beginning January 1 will be shown.
   b. ADEQ shall post the new rates on its webpage and install them in the billing software as soon as practicable.

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsections (A), (C), and (E) effective June 27, 1985 (Supp. 85-3). Amended subsections (A) and (C) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1860 renumbered as Section R18-8-260, and subsections (A) and (C) amended effective May 29, 1987 (Supp. 87-2). Amended subsections (D) and (E) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4).

Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998; R18-8-260 corrected, text was inadvertently omitted (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Subsections in R18-8-260(F)(2) reinstated at request of the Department after a clerical error in 9 A.A.C. 816 omitted the subsections from the rule text, Office File No. M10-288, filed July 20, 2010 (Supp. 10-2). Amended by final rulemaking at 18 A.A.R. 1202, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4). Subsection (J) published after subsection (M) removed; this clerical error was published in Supp. 20-4 and corrected in Supp. 21-4. Amended by final rulemaking at 29 A.A.R. 729 (March 17, 2023), with an immediate effective date of March 8, 2023 (Supp. 23-1).

R18-8-261. Identification and Listing of Hazardous Waste

A. All of 40 CFR 261 and accompanying appendices, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the DEQ with the exception of the following:

1. The revisions for standardized permits as published at 70 FR 53419; and
2. 40 CFR §§ 261.149, 261.400(a), 261.400(b), 261.410(e), 261.410(f), 261.411, and 261.420; Copies of 40 CFR 261 are available at https://www.eCFR.gov. Copies of the Federal Register (FR) are available at https://www.federalregister.gov.

B. In the above-adopted federal regulations "section 1004(5) of RCRA" or "section 1004(5) of the Act" means A.R.S. § 49-921(5).

C. § 261.4, titled "Exclusions," paragraph (b)(6)(i), is amended as follows:

(i) Wastes which fail the test for the Toxicity Characteristic because chromium is present or are listed in subpart D due to the presence of chromium, which do not fail the test for the Toxicity Characteristic for any other constituent or are not listed due to the presence of any other constituent, and which do not fail the test for any other characteristic, if [documentation is provided to the Director] by a waste generator or by waste generators that:

(A) The chromium in the waste is exclusively (or nearly exclusively) trivalent chromium; and

(B) The waste is generated from an industrial process which uses trivalent chromium exclusively (or nearly exclusively) and the process does not generate hexavalent chromium; and

(C) The waste is typically and frequently managed in non-oxidizing environments.

D. § 261.4, titled "Exclusions," paragraph (e)(1) is amended as follows:

(1) Except as provided in paragraphs (e)(2) and (4) of this section, persons who generate or collect samples for the purpose of conducting treatability studies as defined in 40 CFR 260.10, are not subject to any requirement of 40 CFR parts 261 through 263 or to the notification requirements of Section 3010 of RCRA, nor are such samples included in the quantity determinations of [40 CFR 262.13 and 262.16(b)] when:

(i) The sample is being collected and prepared for transportation by the generator or sample collector; or

(ii) The sample is being accumulated or stored by the generator or sample collector prior to transportation to a laboratory or testing facility; or

(iii) The sample is being transported to the laboratory or testing facility for the purpose of conducting a treatability study.

E. § 261.4, titled "Exclusions," is amended by deleting the phrase "in the Region where the sample is collected" in paragraph (e)(3)iii.

F. § 261.6, titled "Requirements for recyclable materials," paragraphs (a)(1) through (a)(3) are amended as follows:

(a)(1)Hazardous wastes that are recycled are subject to the requirements for generators, transporters, and storage facilities of paragraphs (b) and (c) of this section, except for the materials listed in paragraphs (a)(2) and (a)(3) of this section. Hazardous wastes that are recycled [shall] be known as "recyclable materials."

(2) The following recyclable materials are not subject to the requirements of this section but are regulated under [40 CFR 266, subparts C through N] and all applicable provisions in parts 268, 270 and 124 of this chapter:

(i) Recyclable materials used in a manner constituting disposal (40 CFR part 266, subpart C);

(ii) Hazardous wastes burned (as defined in section 266.100(a)) in boilers and industrial furnaces that are not regulated under [40 CFR 264 or 265, subpart O] (40 CFR part 266, subpart H);

(iii) Recyclable materials from which precious metals are reclaimed (40 CFR part 266, subpart F);

(iv) Spent lead acid batteries that are being reclaimed (40 CFR part 266, subpart G).

(3) The following recyclable materials are not subject to regulation under [40 CFR 262 through 266, 268, 270, or 124] and are not subject to the notification requirements of section 3010 of RCRA:

(i) Industrial ethyl alcohol that is reclaimed except that exports and imports of such recyclable materials [shall] comply with the requirements of 40 CFR part 262, subpart H.

(A) A person initiating a shipment for reclamation in a foreign country, and any intermediary arranging for the shipment, [shall] comply with the requirements applicable to a primary exporter in [§ 262.83(b), (g) and (i),] export such materials only upon consent of the receiving country and in conformance with the EPA Acknowledgment of Consent as defined in [subpart H] of part 262, and provide a copy of the EPA Acknowledgment of Consent to the

shipment to the transporter transporting the shipment for export;

(B) Transporters transporting a shipment for export may not accept a shipment if [the transporter] knows the shipment does not conform to the EPA Acknowledgment of Consent, [shall] ensure that a copy of the EPA Acknowledgment of Consent accompanies the shipment and [shall] ensure that [the EPA Acknowledgment of Consent] is delivered to the [subsequent transporter or] facility designated by the person initiating the shipment.

(ii) Scrap metal that is not excluded under § 261.4(a)(13);

(iii) Fuels produced from the refining of oil-bearing hazardous waste along with normal process streams at a petroleum refining facility if such wastes result from normal petroleum refining, production, and transportation practices (this exemption does not apply to fuels produced from oil recovered from oil-bearing hazardous waste, where such recovered oil is already excluded under § 261.4(a)(12);

(iv)(A)Hazardous waste fuel produced from oil-bearing hazardous wastes from petroleum refining, production, or transportation practices, or produced from oil reclaimed from such hazardous wastes, where such hazardous wastes are reintroduced into a process that does not use distillation or does not produce products from crude oil so long as the resulting fuel meets the used oil specification under [A.R.S. § 49-801] and so long as no other hazardous wastes are used to produce the hazardous waste fuel;

(B) Hazardous waste fuel produced from oil-bearing hazardous waste from petroleum refining[,] production, and transportation practices, where such hazardous wastes are reintroduced into a refining process after a point at which contaminants are removed, so long as the fuel meets the used oil fuel specification under [A.R.S. § 49-801]; and

(C) Oil reclaimed from oil-bearing hazardous wastes from petroleum refining, production, and transportation practices, which reclaimed oil is burned as a fuel without reintroduction to a refining process, so long as the reclaimed oil meets the used oil fuel specification under [A.R.S. § 49-801].

G. § 261.11, titled "Criteria for listing hazardous waste," paragraph (a) is amended as follows:

(a) The [Director] shall list a solid waste as a hazardous waste only upon determining that the solid waste meets one of the following criteria:

(1) It exhibits any of the characteristics of hazardous waste identified in subpart C.

(2) It has been found to be fatal to humans in low doses or, in the absence of data on human toxicity, it has been shown in studies to have an oral LD 50 toxicity (rat) of less than 50 milligrams per kilogram, an inhalation LC 50 toxicity (rat) of less than 2 milligrams per liter, or a dermal LD 50 toxicity (rabbit) of less than 200 milligrams per kilogram or is otherwise capable of causing or significantly contributing to an increase in serious irreversible, or incapacitating reversible, illness. (Waste listed in accordance with these criteria shall be designated Acute Hazardous Waste.)

(3) It contains any of the toxic constituents listed in Appendix VIII and, after considering the following factors, the [Director] concludes that the waste is capable of posing a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed:

(i) The nature of the toxicity presented by the constituent.

(ii) The concentration of the constituent in the waste.

(iii) The potential of the constituent or any toxic degradation product of the constituent to migrate from the waste into the environment under the types of improper management considered in (a)(3)(vii) of this [subsection].

(iv) The persistence of the constituent or any toxic degradation product of the constituent.

(v) The potential for the constituent or any toxic degradation product of the constituent to degrade into nonharmful constituents and the rate of degradation.

(vi) The degree to which the constituent or any degradation product of the constituent bioaccumulates in ecosystems.

(vii) The plausible types of improper management to which the waste could be subjected.

(viii)The quantities of the waste generated at individual generation sites or on a regional or national basis.

(ix) The nature and severity of the human health and environmental damage that has occurred as a result of the improper management of wastes containing the constituent.

(x) Action taken by other governmental agencies or regulatory programs based on the health or environmental hazard posed by the waste or waste constituent.

(xi) Such other factors as may be appropriate.

H. § 261.11, titled "Criteria for listing hazardous waste," paragraph (c) is amended as follows:

(c) The Administrator will use the criteria for listing specified in this section to establish the exclusion limits referred to in [§ 262.13(c).]

I. § 261.30, titled "General", paragraph (d) is amended as follows:

(d) The following hazardous wastes listed in § 261.31 are subject to the exclusion limits for acutely hazardous wastes established in [§ 261.13:] EPA Hazardous Wastes Nos. F020, F021, F022, F023, F026 and F027.

J. Notwithstanding the definitions of "EPA" and "EPA Regional Administrator" in R18-8-260(E)(11) and (F)(2):

1. In § 261.151(g), the third sentence is replaced by the following: "If the facilities covered by the mechanism are in more than one State, identical evidence of financial assurance must be submitted to and maintained with each state agency regulating hazardous waste or with the appropriate Regional Administrator if a facility is located in an unauthorized State."

2. § 261.151 is amended by adding at the end: "Whenever this section requires that the owner or operator of a reclamation or intermediate facility notify several Regional

Administrators of their financial obligations, the notice shall be to both DEQ and all Regional Administrators of the United States Environmental Protection Agency of Regions that are affected by the owner or operator's financial assurance mechanisms."

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsections (A) and (E) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1861 renumbered as Section R18-8-261, and subsections (A), (D) and (F) amended effective May 29, 1987 (Supp. 87-2). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4). Due to a clerical error, subsection (J) was inadvertently published with text underlined in Supp. 20-4; the underlining has been removed in Supp. 21-4.

R18-8-262. Standards Applicable to Generators of Hazardous Waste

A. All of 40 CFR 262, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 262 are available at https://www.eCFR.gov.

B. In 40 CFR 262:
1. ["Section 3008 of RCRA" means both section 3008 of RCRA and A.R.S. §§ 49-923, 49-924 and 49-925.]
2. ["Section 2002(a) of the Act" means A.R.S. § 49-922.]
3. ["Section 3002(6) of the Act" means A.R.S. § 49-922.]

C. § 262.10, titled "Purpose, scope, and applicability," paragraph (i) is amended as follows:

(i) [For the limited time period required to control, mitigate, or eliminate the immediate threat,] persons responding to an explosives or munitions emergency in accordance with 40 CFR 264.1(g)(8)(i)(D) or (iv), or 265.1(c)(11)(i)(D) or (iv), and 270.1(c)(3)(i)(D) or (iii) are not required to comply with the standards of this part. [As soon as the immediate response activities are completed, all standards of this part apply. For purposes of this rule, DEQ does not consider emergency response personnel to be generators of residuals resulting from immediate responses, unless they are also the owner of the object of an emergency response. The owner of the object of an emergency response, the owner of the property on which the object of an emergency rests or where the emergency response initiates, or the requestor for an emergency response is responsible for addressing any residual contamination that results from an emergency response.]

D. § 262.11, titled "Hazardous waste determination and recordkeeping," paragraphs (d)(1) and (d)(2) are amended by deleting the following:
", or an equivalent test method approved by the Administrator under 40 CFR 260.21,"

E. § 262.13, titled "Generator category determinations", paragraph (f)(1)(iii) is amended as follows:
(iii) If a very small quantity generator's wastes are mixed with used oil, the mixture is subject to 40 CFR 279 [(as incorporated by A.R.S. § 49-802)]. Any material produced from such a mixture by processing, blending, or other treatment is also [so regulated].

F. § 262.16, titled "Conditions for exemption for a small quantity generator that accumulates hazardous waste", paragraph (b)(9)(iv)(C) is amended as follows:

(C) In the event of a fire, explosion, or other release that could threaten human health outside the facility or when the small quantity generator has knowledge that a spill has reached surface water [or when a spill has discharged into a storm sewer or dry well, or such an event has resulted in any other discharge that may reach groundwater], the small quantity generator immediately [shall] notify the National Response Center (using their 24-hour toll-free number 800/424-8802) [and the DEQ (using their 24-hour number (602) 771-2330 or 800/234-5677)]. The report [shall contain] the following information:
(1) The name, address, and [the EPA Identification Number] of the generator;
(2) Date, time, [location,] and type of incident (for example, spill or fire);
(3) Quantity and type of hazardous waste involved in the incident;
(4) Extent of injuries, if any; and
(5) Estimated quantity and disposition of recovered materials, if any.

G. Any generator who must comply with 40 CFR 262.16 or 262.17 shall keep a written log of the inspections of container, tank, drip pad, and containment building areas and for the containers, tanks, and other equipment located in these storage areas in accordance with 40 CFR 265.174, 265.195, 265.444, and 265.1101(c)(4). The inspection log shall be kept by the generator for three years from the date of the inspection. The generator shall ensure that the inspection log is filled in after each inspection and includes the following information: inspection date, inspector's name and signature, and remarks or corrections.

H. §262.17, titled "Conditions for exemption for a large quantity generator that accumulates hazardous waste", paragraph (f)(1) is amended as follows:

(1) The large quantity generator notifies [DEQ] at least 30 days prior to receiving the first shipment from a very small quantity generator(s) using EPA Form 8700-12; and

I. § 262.18, titled "EPA identification numbers and re-notification for small quantity generators and large quantity generators," paragraphs (a), (b) and (d) are amended as follows:

(a) A generator must not treat, store, dispose of, transport, or offer for transportation, hazardous waste without having received an EPA identification number from the [DEQ].

(b) A generator who has not received an EPA identification number may obtain one by applying to the [DEQ] using EPA form 8700-12. [The completed form shall be submitted to DEQ through the myDEQ online portal.] Upon receiving the request, the [DEQ] will assign an EPA identification number to the generator.

(d) Re-notification. (1) A small quantity generator must re-notify [DEQ] starting in 2021 and every four years thereafter using EPA Form 8700–12. This re-notification must be submitted through the myDEQ online portal by September 1 of each year in which re-notifications are required.

(2) A large quantity generator must re-notify [DEQ] by March 1 of each even numbered year thereafter using EPA Form 8700–12. A large quantity generator may submit this re-notification as part of its Report required under § 262.41.

J. § 262.20, titled "General requirements", paragraph (a)(2) is amended as follows:

(2) The revised manifest form and procedures in 40 CFR 260.10, 261.7, [262.16, 262.17, 262.20, 262.21, 262.27, 262.32, 262.83(c) through (e), 262.84,] shall not apply until September 5, 2006. The manifest form and procedures in 40 CFR 260.10, 261.7, [262.16, 262.17, 262.20, 262.21, 262.32, 262.83(c) through (e), 262.84,] contained in the 40 CFR, parts 260 to 265, edition revised as of July 1, 2004, shall be applicable until September 5, 2006.

K. § 262.212, titled "Making the hazardous waste determination at an on-site interim status or permitted treatment, storage or disposal facility", paragraph (e)(3) is amended as follows:

(3) Count the hazardous waste toward the eligible academic entity's generator status, pursuant to [§ 262.13(c) and (d)] in the calendar month that the hazardous waste determination was made, and

L. § 262.265, titled "Emergency procedures", paragraph (d)(2) is amended as follows:

(2) The emergency coordinator [shall] immediately notify either the government official designated as the on-scene coordinator for that geographical area, or the National Response Center (using their 24-hour toll free number 800/424–8802) [and the DEQ (using their 24-hour number (602) 771-2330 or 800/234-5677)]. The report [shall contain the following information:]

(i) The name, address, and [the EPA Identification Number] of the generator;

(ii) Date, time, [location,] and type of incident (for example, spill or fire);

(iii) Quantity and type of hazardous waste involved in the incident;

(iv) Extent of injuries, if any; and

(v) Estimated quantity and disposition of recovered materials, if any.]

M. A generator who accumulates ignitable, reactive, or incompatible waste shall comply with 40 CFR 265.17.

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsections (A) and (D) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1862 renumbered as R18-8-262, and amended effective May 29, 1987 (Supp. 87-2). Amended effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-263. Standards Applicable to Transporters of Hazardous Waste

A. All of 40 CFR 263, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 263 are available at https://www.eCFR.gov.

B. § 263.11, titled "EPA identification numbers," is amended by the following:

(a) A transporter must not transport hazardous wastes without having received an EPA identification number from the [DEQ].

(b) A transporter who has not received an EPA identification number may obtain one by applying to the [DEQ] using EPA form 8700-12. [The completed form shall be submitted to DEQ through the myDEQ online portal.] Upon receiving the request, the [DEQ] will assign an EPA identification number to the transporter.

C. § 263.30, titled "Immediate action," paragraph (c)(2) is amended by the following:

(2) Report in writing as required by 49 CFR 171.16 to the Director, Office of Hazardous Materials Regulations, Materials Transportation Bureau, Department of Transportation, Washington, DC 20590 [and send a copy to the DEQ, Hazardous Waste Unit, 1110 W. Washington St., Phoenix, AZ 85007.]

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsection (A) effective August 5, 1986 (Supp. 86-5). Former Section R9-8-1863 renumbered as R18-8-263, and subsection (A) amended effective May 29, 1987 (Supp. 87-2). Amended subsection (A) effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective Novem-

ber 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-264. Standards for Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities

A. All of 40 CFR 264 and accompanying appendices, revised as of July 1, 2020 (and no future editions), with the exception of §§ 264.1(d) and (f), 264.149, 264.150, and 264.301(l), is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 264 are available at https://www.eCFR.gov.

B. § 264.1, titled "Purpose, scope and applicability," paragraph (g)(1) is amended as follows:

(1) The owner or operator of a facility [with operational approval from the Director] to manage [public, private,] municipal or industrial solid waste [pursuant to R18-13-312, A.R.S. §§ 49-104 and 49-762], if the only hazardous waste the facility treats, stores, or disposes of is excluded from regulation under [R18-8-264] pursuant to § 262.14;

C. § 264.1, titled "Purpose, scope, and applicability," paragraph (g)(8)(i)(D) is amended as follows:

(D) An immediate threat to human health, public safety, property, or the environment, from the known or suspected presence of military munitions, other explosive material, or an explosive device, as determined by an explosive or munitions emergency response specialist as defined in 40 CFR 260.10. [The DEQ Emergency Response Unit shall be notified as soon as possible, using the 24-hour number (602) 771-2330 or (800) 234-5677.]

D. § 264.11, titled "Identification number," is replaced by the following:

1. A facility owner or operator shall not treat, store, dispose of, transport, or offer for transportation, hazardous waste without having received an EPA identification number from the DEQ.
2. A facility owner or operator who has not received an EPA identification number may obtain one by applying to the DEQ using EPA form 8700-12. The completed form shall be submitted to DEQ through the myDEQ online portal. Upon receiving the request, the DEQ will assign an EPA identification number to the facility owner or operator.

E. § 264.18, titled "Location standards," paragraph (c) is amended by deleting the following:

(c) ", except for the Department of Energy Waste Isolation Pilot Project in New Mexico."

F. § 264.56, titled "Emergency procedures," paragraph (d)(2) is amended as follows:

(2) [The emergency coordinator, or designee, shall] immediately notify [the DEQ at (602) 771-2330 or (800) 234-5677, extension 771-2330, and notify] either the government official designated as the on-scene coordinator for that geographical area, or the National Response Center (using their 24-hour toll free number (800) 424-8802). The report [shall include the following]:

(i) Name and telephone number of reporter;
(ii) Name and address of facility;
(iii) Time and type of incident (for example, release, fire);
(iv) Name and quantity of material(s) involved, to the extent known;
(v) The extent of injuries, if any; and
(vi) The possible hazards to human health, or the environment, outside the facility.

G. § 264.93, titled "Hazardous constituents," paragraph (c) is amended as follows:

(c) In making any determination under [§ 264.93(b)] about the use of ground water in the area around the facility, the [Director shall] consider any identification of underground sources of drinking water and exempted aquifers made under [40 CFR] § 144.7, [and any identification of uses of ground water made pursuant to 18 A.A.C. 9 or 11].

H. § 264.94, titled "Concentration limits," paragraph (c) is amended as follows:

(c) In making any determination under [§ 264.94(b)] about the use of ground water in the area around the facility, the [Director shall] consider any identification of underground sources of drinking water and exempted aquifers made under [40 CFR] 144.7, [and any identification of uses of ground water made pursuant to 18 A.A.C. 9 or 11].

I. § 264.143, titled "Financial assurance for closure," paragraph (h), and 264.145, titled "Financial assurance for post-closure care," paragraph (h), are amended by replacing the third sentence in each citation with the following: "Evidence of financial assurance must be submitted to and maintained with the Director for those facilities located in Arizona."

J. § 264.147, titled "Liability requirements," paragraphs (a)(1)(i) and (b)(1)(i) are amended by deleting the following from the fourth sentence in each citation: ", or Regional Administrators if the facilities are located in more than one Region."

K. § 264.151, titled "Wording of the instruments," is adopted except any reference to "{of/for} the Regions in which the facilities are located" is deleted and "an agency of the United States Government" is deleted from the second paragraph of the Trust Agreements.

L. § 264.301, titled "Design and operating requirements," is amended by adding the following:

[The DEQ may require that hazardous waste disposed in a landfill operation be treated prior to landfilling to reduce the water content, water solubility, and toxicity of the waste. The decision by the DEQ shall be based upon the following criteria:

1. Whether the action is necessary to protect public health;
2. Whether the action is necessary to protect the groundwater, particularly where the groundwater is a source, or potential source, of a drinking water supply;
3. The type of hazardous waste involved and whether the waste may be made less hazardous through treatment;
4. The degree of water content, water solubility, and toxicity of the waste;
5. The existence or likelihood of other wastes in the landfill and the compatibility or incompati-

bility of the wastes with the wastes being considered for treatment;

6. Consistency with other laws, rules and regulations, but not necessarily limited to laws, rules, and regulations relating to landfills and solid wastes.]

M. § 264.1030, titled "Applicability", paragraph (b)(3) is amended as follows:

(3) A unit that is exempt from permitting under the provisions of [40 CFR 262.17(a)] (i.e., a "90-day" tank or container) and is not a recycling unit under the provisions of 40 CFR 261.6.

N. § 264.1050, titled "Applicability", paragraph (b)(2) is amended as follows:

(2) A unit (including a hazardous waste recycling unit) that is not exempt from permitting under the provisions of [40 CFR 262.17(a)] (i.e., a hazardous waste recycling unit that is not a "90-day" tank or container) and that is located at a hazardous waste management facility otherwise subject to the permitting requirements of 40 CFR part 270, or

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsection (A) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1864 renumbered as Section R18-8-264, and subsection (A) amended effective May 29, 1987 (Supp. 87-2). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-265. Interim Status Standards for Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities

A. All of 40 CFR 265 and accompanying appendices, revised as of July 1, 2020 (and no future editions), with the exception of §§ 265.1(c)(2), 265.1(c)(4), 265.149, 265.150, and 265.430, is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 265 are available at https://www.eCFR.gov

B. § 265.1, titled "Purpose, scope, and applicability," paragraph (c)(5) is amended as follows:

(5) The owner or operator of a facility [with operational approval from the Director] to manage [public, private,] municipal or industrial solid waste [pursuant to R18-13-312, A.R.S. §§ 49-104 and 49-762], if the only hazardous waste the facility treats, stores, or disposes of is excluded from regulation under § 261.5;

C. § 265.1, titled "Purpose, scope, and applicability," paragraph (c)(11)(i)(D) is amended as follows:

(D) An immediate threat to human health, public safety, property, or the environment, from the known or suspected presence of military munitions, other explosive material, or an explosive device, as determined by an explosive or munitions emergency response specialist as defined in 40 CFR 260.10. [The DEQ Emergency Response Unit shall be notified as soon as possible, using the 24-hour number (602) 771-2330 or (800) 234-5677]

D. § 265.11, titled "Identification number," is replaced by the following:

[1. A facility owner or operator shall not treat, store, dispose of, transport, or offer for transportation, hazardous waste without having received an EPA identification number from the DEQ.

2. A facility owner or operator who has not received an EPA identification number may obtain one by applying to the DEQ using EPA form 8700-12. The completed form shall be submitted to DEQ through the myDEQ online portal. Upon receiving the request, the DEQ shall assign an EPA identification number to the facility owner or operator.]

E. § 265.18, titled "Location standards," is amended by deleting the following:

", except for the Department of Energy Waste Isolation Pilot Project in New Mexico."

F. § 265.56, titled "Emergency procedures," paragraph (d)(2) is amended as follows:

(2) [The emergency coordinator, or designee, immediately shall] notify [the DEQ at (602) 771-2330 or 800/234-5677, and notify] either the government official designated as the on-scene coordinator for that geographical area, or the National Response Center (using their 24-hour toll-free number 800/424-8802). The report [shall include the following]:

(i) Name and telephone number of the reporter;

(ii) Name and address of the facility;

(iii) Time and type of incident (for example, release, fire);

(iv) Name and quantity of material(s) involved, to the extent known:

(v) The extent of injuries, if any; and

(vi) The possible hazards to human health, or the environment, outside the facility.

G. § 265.71, titled "Use of the manifest system", is amended in the Comment following paragraph (c) as follows:

Comment: The provisions of [§§ 262.15, 262.16 and 262.17] are applicable to the on-site accumulation of hazardous wastes by generators. Therefore, the provisions of [§§ 262.15, 262.16 and 262.17] only apply to owners or operators who are shipping hazardous waste which they generated at that facility.

H. § 265.90, titled "Applicability," paragraphs (a) and (d)(1), and § 265.93, titled "Preparation, evaluation, and response," paragraph (a), are amended by deleting the following phrase: "within one year"; and § 265.90, titled "Applicability," para-

graph (d)(2), is amended by deleting the following phrase: "Not later than one year."

I. § 265.112(d), titled "Notification of partial closure and final closure," subparagraph (1) is amended as follows:

1. The owner or operator must submit the closure plan to the [Director] at least 180 days prior to the date on which [the owner or operator] expects to begin closure of the first surface impoundment, waste pile, land treatment, or landfill unit, [tank, container storage, or incinerator unit], or final closure if it involves such a unit, whichever [occurs earlier. The owner or operator with approved closure plans shall notify the Director] in writing at least 60 days prior to the date on which [the owner or operator expects] to begin closure of a surface impoundment, waste pile, landfill, or land treatment unit, or final closure of a facility [if it involves such a unit. The owner or operator] with approved closure plans must notify the [Director] in writing at least 45 days prior to the date on which [the owner or operator expects] to begin final closure of a facility with only tanks, container storage, or incinerator units.

J. §§ 265.143, titled "Financial assurance for closure," paragraph (g), and 265.145, titled "Financial assurance for post-closure care," paragraph (g), are amended by replacing the third sentence in each citation with the following: "Evidence of financial assurance must be submitted to and maintained with the Director for those facilities located in Arizona."

K. § 265.193, titled "Containment and detection of releases", is amended by adding the following:

[For existing underground tanks and associated piping systems not yet retrofitted in accordance with § 265.193, the owner or operator shall ensure that:

1. A level is measured daily;
2. A material balance is calculated and recorded daily; and
3. A yearly test for leaks in the tank and piping system, using a method approved by the DEQ is performed.]

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsection (A) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1865 renumbered as Section R18-8-265, subsection (A) amended and a new subsection (I) added effective May 29, 1987 (Supp. 87-2). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-266. Standards for the Management of Specific Hazardous Wastes and Specific Hazardous Waste Management Facilities

A. All of 40 CFR 266 and accompanying appendices, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 266 are available at https://www.eCFR.gov.

B. § 266.100, titled "Applicability" paragraph (c) is amended as follows:

(c) The following hazardous wastes and facilities are not subject to regulation under this subpart:

(1) Used oil burned for energy recovery that is also a hazardous waste solely because it exhibits a characteristic of hazardous waste identified in subpart C of part 261 of this chapter. Such used oil is subject to regulation under [A.R.S. §§ 49-801 through 49-818];

(2) Gas recovered from hazardous or solid waste landfills when such gas is burned for energy recovery;

(3) Hazardous wastes that are exempt from regulation under §§ 261.4 and 261.6(a)(3)(iii) and (iv) of this chapter, and hazardous wastes that are subject to the special requirements for [very] small quantity generators under [§§ 262.13 and 262.14] of this chapter; and

(4) Coke ovens, if the only hazardous waste burned is EPA Hazardous Waste No. K087, decanter tank tar sludge from coking operations.

C. § 266.108, titled "Small quantity on-site burner exemption" is amended in the Note following paragraph (c) as follows:

Note: Hazardous wastes that are subject to the special requirements for small quantity generators under [§§ 262.13 and 262.14] of this chapter may be burned in an off-site device under the exemption provided by § 266.108, but must be included in the quantity determination for the exemption.

Historical Note

Adopted effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1866 renumbered as Section R18-8-266, and amended effective May 29, 1987 (Supp. 87-2). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14

A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-267. Reserved

R18-8-268. Land Disposal Restrictions

All of 40 CFR 268 and accompanying appendices, revised as of July 1, 2020 (and no future editions), with the exception of Part 268, Subpart B, is incorporated by reference and on file with the DEQ. Copies of 40 CFR 268 are available at https://www.eCFR.gov.

Historical Note

Adopted effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R18-8-269. Expired

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Former Section R9-8-1869 renumbered without change as Section R18-8-269 (Supp. 87-2). Amended subsections (A) and (B) effective December 1, 1988 (Supp. 88-4). Amended effective December 2, 1994 (Supp. 94-4). Section expired pursuant to A.R.S. § 41-1056(J), at 23 A.A.R. 3428, effective October 10, 2017 (Supp. 17-4).

R18-8-270. Hazardous Waste Permit Program

A. All of 40 CFR 270 and the accompanying appendices, revised as of July 1, 2020 (and no future editions), is incorporated by reference, modified by the following subsections, and on file with the DEQ with the exception of the following:

1. §§ 270.1(a), 270.1(c)(1)(i), 270.3, 270.10(g)(1)(i), 270.60(a) and (b), and 270.64; and
2. The revisions for standardized permits as published at 70 FR 53419. Copies of 40 CFR 270 are available at https://www.eCFR.gov. Copies of the Federal Register are available at https://www.federalregister.gov.

B. § 270.1, titled "Purpose and scope of these regulations," paragraph (b) is replaced by the following:

1. [After the effective date of these regulations the treatment, storage, or disposal of any hazardous waste is prohibited except as follows:
   a. As allowed under § 270.1(c)(2) and (3);
   b. Under the conditions of a permit issued pursuant to these regulations; or
   c. At an existing facility accorded interim status under the provisions of § 270.70.
2. The direct disposal or discharge of hazardous waste into or onto any of the following is prohibited:
   a. Waters of the state as defined in A.R.S. § 49-201, excluding surface impoundments as defined in § 260.10; and
   b. Injection well, ditch, alleyway, storm drain, leachfield, or roadway.]

C. § 270.1, titled "Purpose and scope of these regulations," paragraph (c)(3)(i)(D) is amended as follows:

(D) An immediate threat to human health, public safety, property, or the environment, from the known or suspected presence of military munitions, other explosive material, or an explosive device, as determined by an explosive or munitions emergency response specialist as defined in 40 CFR 260.10. [The DEQ Emergency Response Unit shall be notified as soon as possible, using the 24-hour number (602) 771-2330 or (800) 234-5677.]

D. § 270.10, titled "General application requirements," paragraph (e)(2), is amended as follows:

(2) The [Director] may extend the date by which owners and operators of specified classes of existing [HWM facilities shall submit Part A of their permit application if the Administrator has published in the Federal Register that EPA is granting an extension under 40 CFR § 270.10(e)(2) for those classes of facilities.]

E. § 270.10(g), titled "Updating permit applications," subparagraph (1)(ii) is amended as follows:

(ii) With the [Director] no later than the effective date of regulatory provisions listing or designating wastes as hazardous in [the] state if the facility is treating, storing, or disposing of any of those newly listed or designated wastes; or

F. § 270.10(g), titled "Updating permit applications," subparagraph (1)(iii), is amended as follows:

(iii) As necessary to comply with provisions of § 270.72 for changes during interim [status]. Revised Part A applications necessary to comply with the provisions of § 270.72 [shall be filed with the [Director.]

G. § 270.10, titled "General application requirements," is amended by adding the following:

1. When submitting an application for any of the license types in the Table below, an applicant shall remit to the DEQ an application fee as shown in the Table.

Table - Hazardous Waste Permitting Application and Maximum Fees For Various License Types

License Type	Application Fee	Maximum Fee
Permit for: Container Storage/Container Treatment	$20,000	$250,000
Permit for: Tank Storage/Tank Treatment	$20,000	$300,000
Permit for: Surface Impoundment	$20,000	$400,000
Permit for: Incinerator/Boiler and Industrial Furnace (BIF)/Landfill/Miscellaneous Unit	$20,000	$500,000

Permit for: Waste Pile/Land Treatment/Drip Pad/Containment Building/ Research, Development, and Demonstration	$20,000	$300,000
Corrective Action Permit/Remedial Action Plan (RAP) Approval	$20,000	$300,000
Post-Closure Permit	$20,000	$400,000
Closure of Container/Tank/Drip Pad/ Containment Building	$5,000/unit	$100,000
Closure of Miscellaneous Unit/Incinerator/BIF/Surface Impoundment/ Waste Pile/Land Treatment Unit/Landfill	$5,000/unit	$300,000
Class 1 Modification (requiring Director Approval)	$1,000	$50,000
Class 2 Modification	$5,000	$250,000
Class 3 Modification (for a permit with an Incinerator, BIF, Surface Impoundment, Waste Pile, Land Treatment Unit, or Landfill)	$20,000	$400,000
Class 3 Modification (for a permit without an Incinerator, BIF, Surface Impoundment, Waste Pile, Land Treatment Unit, or Landfill)	$10,000	$250,000

2. If the total cost of processing the application identified in the Table is less than the application fee listed in the Table, the DEQ shall refund the difference between the total cost and the amount listed in the Table to the applicant.
   a. Permits and permit modifications other than post-closure permits and closure plans. If the total cost of processing the application is greater than the amount listed plus other amounts paid, the DEQ shall bill the applicant for the difference upon permit approval. The applicant shall pay the difference in full before the DEQ issues the permit.
   b. Post-closure permits. If the total cost of processing the application is greater than the amount listed plus other amounts paid, the DEQ shall bill the applicant for the difference upon permit issuance. The applicant shall pay the difference in full within 45 days of the date of the bill.
   c. Withdrawals. In the event of a valid withdrawal of the permit application by the applicant, if the total costs of processing the application are less than the amount paid, the DEQ shall refund the difference. If the total costs are greater than the amount paid, the DEQ shall bill the applicant for the difference, and the applicant shall pay the difference within 45 days of the date of the bill.
3. With an application for a closure plan for a facility, the applicant shall remit to the DEQ an application fee of $5,000 for each hazardous waste management unit involved in the closure plan or $20,000, whichever is less. If the total cost of processing the application, including review and approval of the closure report, is more than the application fee paid, the applicant shall be billed for the difference, and the difference shall be paid in full after the DEQ completes review and approval of the closure report and within 30 days of notification by the Director. If the reasonable cost is less than the fee paid by the applicant, the DEQ shall refund the difference within 30 days of the closure report review and approval. The maximum fee for a closure plan is shown in the Table.
4. The fee for a land treatment demonstration permit issued under § 270.63 for hazardous waste applies toward the $20,000 permit fee for a Part B land treatment permit when the owner or operator seeks to treat or dispose of hazardous waste in land treatment units based on the successful treatment demonstration.
5. The DEQ shall provide the applicant itemized bills at least semiannually for the expenses associated with evaluating the application and approving or denying the permit or permit modification. The following information shall be included in each bill:
   a. The dates of the billing period;
   b. The date and number of review hours performed during the billing period itemized by employee name, position type and specifically describing;
      i. Each review task performed;
      ii. The facility and operational unit involved;
      iii. The hourly rate;
   c. A description and amount of review-related costs as described in subsection (G)(6)(b); and
   d. The total fees paid to date, the total fees due for the billing period, the date when the fees are due, and the maximum fee for the project.
6. Fees shall consist of processing charges and review-related costs as follows:
   a. Processing charges. From and after April 1, 2023 until April 1, 2024, the DEQ shall calculate the processing charges using a rate of $175 per hour, multiplied by the number of review hours used to evaluate and approve or deny the permit or permit modification. From and after April 1, 2024, the hourly rate shall be adjusted annually each April 1 according to R18-8-260(M)(4).
   b. Review-related costs means any of the following costs applicable to a specific application:
      i. Per diem expenses,
      ii. Transportation costs,
      iii. Reproduction costs,
      iv. Laboratory analysis charges performed during the review of the permit or permit modification,
      v. Public notice advertising and mailing costs,
      vi. Presiding officer expenses for public hearings on a permitting decision,
      vii. Court reporter expenses for public hearings on a permitting decision,
      viii. Facility rentals for public hearings on a permitting decision, and
      ix. Other reasonable and necessary review-related expenses documented in writing by the DEQ and agreed to by the applicant.
   c. Total itemized billings for an application shall not exceed the maximum amounts listed in the Table in this Section.
7. A person may seek review of a bill by filing a written request for reconsideration with the Director.
   a. The request shall specify, in detail, why the bill is in dispute and shall include any supporting documentation.
   b. The written request for reconsideration shall be delivered to the Director in person, by mail, or by facsimile on or before the payment due date or within 35 days of the invoice date, whichever is later.

8. The Director shall make a final decision on the request for reconsideration of the bill and mail a final written decision to the person within 20 working days after the date the Director receives the written request.
9. For the purposes of subsection (G), "review hours" means the hours or portions of hours that the DEQ's staff spends on a permit or permit modification. Review hours include the time spent by the project manager and technical review team members, and if requested by the applicant, the supervisor or unit manager.

H. § 270.12, titled "Confidentiality of information," paragraph (a) is amended as follows:

(a) In accordance with [R18-8-260(D)(2)], any information submitted to [the DEQ] pursuant to these regulations may be claimed as confidential by the submitter. [Such a claim shall] be asserted at the time of submission in the manner prescribed [in R18-8-260(D)(2)(c)(ii)]. If no [such] claim is made at the time of submission, [the DEQ] may make the information available to the public without further notice. If a claim is asserted, the information [shall] be treated in accordance with the procedures in [R18-8-260(D)(2)(d) and (e).]

I. § 270.13, titled "Contents of Part A of the permit application," paragraph (k)(9) is amended as follows:

(9) Other relevant environmental permits, including [any federal, state, county, city, or fire department] permits.

J. § 270.14, titled "Contents of Part B: General requirements," paragraph (b) is amended by adding the following:

[(23) Any additional information required by the DEQ to evaluate compliance with facility standards and informational requirements of R18-8-264 and R18-8-270.

(24)(i) A signed statement, submitted on a form supplied by the DEQ that demonstrates:

(A) An individual owner or operator has sufficient reliability, expertise, integrity and competence to operate a HWM facility, and has not been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the permit application; or

(B) In the case of a corporation or business entity, no officer, director, partner, key employee, other person, or business entity who holds 10% or more of the equity or debt liability has been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the permit application.

(ii) Failure to comply with subsection (i), the requirements of A.R.S. § 49-922(C)(1), and the requirements of § 270.43 and §§ 124.3(d) and 124.5(a), may cause the Director to refuse to issue a permit to a TSD facility pursuant to A.R.S. § 49-922(C) as amended, including requirements in § 270.43 and §§ 124.3(d) and 124.5(a).]

K. § 270.30, titled "Conditions applicable to all permits" paragraph (l)(10) is amended as follows:

(10) Other noncompliance. The permittee shall report all instances of noncompliance not reported under [§ 270.30(l)(4),(5), and (6)] at the same time monitoring [(including annual)] reports are submitted. The reports shall contain the information listed in [§ 270.30(l)(6)].

L. § 270.30, titled "Conditions applicable to all permits" paragraph (l) is amended by adding the following:

[All reports listed above shall be submitted to the Director in such a manner that the reports are received within the time periods required under this Article.]

M. § 270.32, titled "Establishing permit conditions," paragraph (a), is amended by deleting the following:

"and 270.3 (considerations under Federal law)."

N. § 270.32, titled "Establishing permit conditions," paragraph (b) is amended by deleting the reference to 40 CFR 267.

O. § 270.32, titled "Establishing permit conditions," paragraph (c) is amended by deleting the second sentence.

P. § 270.42, titled "Permit modification at the request of permittee", paragraph (f)(3), is amended as follows:

(3) An automatic authorization that goes into effect under paragraph (b)(6)(iii) or (v) of this section may be appealed under [Title 41, Chapter 6, Article 10, Arizona Revised Statutes.]

Q. § 270.51, titled "Continuation of expiring permits," paragraph (a) is amended by deleting the following:

"under 5 USC 558(c)."

R. § 270.51, titled "Continuation of expiring permits," paragraph (d) is amended by replacing "EPA-issued" with "EPA, joint EPA/DEQ, or DEQ-issued."

S. § 270.65, titled "Research, development, and demonstration permits," is amended as follows:

(a) The [Director] may issue a research, development, and demonstration permit for any hazardous waste treatment facility which proposes to utilize an innovative and experimental hazardous waste treatment technology or process for which permit standards for such experimental activity have not been promulgated under part 264 or 266. [A research, development, and demonstration] permit shall include such terms and conditions as will assure protection of human health and the environment. Such permits:

(1) Shall provide for the construction of such facilities as necessary, and for operation of the facility for not longer than one year unless renewed as provided in paragraph (d) of this section, and

(2) Shall provide for the receipt and treatment by the facility of only those types and quantities of hazardous waste which the [Director] deems necessary for purposes of determining the efficacy and performance capabilities of the technology or process and the effects of such technology or process on human health and the environment, and

(3) Shall include such requirements as the [Director] deems necessary to protect human health and the environment [, including requirements regarding monitoring, operation, financial responsibility, closure, and remedial action, and such requirements as the Director] deems necessary regarding testing and providing of information [relevant] to the [Director] with respect to the operation of the facility.

(b) For the purpose of expediting review and issuance of permits under this section, the [Director] may, consistent with the protection of human health and the environment, modify or waive permit application and permit issuance requirements [, or add conditions to the permit in accordance with the permitting procedures set forth in R18-8-270 and R18-8-271,] except that there may be no modification or waiver of regulations regarding financial responsibility (including insurance) or of procedures regarding public participation.

(c) The [Director] may order an immediate termination of all operations at the facility at any time [the Director] determines that termination is necessary to protect human health and the environment.

(d) Any permit issued under this section may be renewed not more than three times. Each such renewal shall be for a period of not more than one year.

T. § 270.110, titled "What must I include in my application for a RAP?," is amended by adding paragraphs (j) and (k) as follows:

[(j) A signed statement, submitted on a form supplied by DEQ that demonstrates:

(1) An individual owner or operator has sufficient reliability, expertise, integrity and competence to operate a HWM facility, and has not been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the RAP application.

(2) In the case of a corporation or business entity, no officer, director, partner, key employee, other person or business entity who holds 10% or more of the equity or debt liability has been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the RAP application.

(k) Failure to comply with subsection (j), the requirements of A.R.S. § 49-922(C)(1), and the requirements of § 270.43 and §§ 124.3(d) and 124.5(a), may cause the Director to refuse to issue a permit to a TSD facility pursuant to A.R.S. § 49-922(C) as amended, including requirements in § 270.43 and §§ 124.3(d) and 124.5(a).]

U. § 270.155 titled "May the decision to approve or deny my RAP application be administratively appealed?", paragraph (a), is amended as follows:

(a) Any commenter on the draft RAP or notice of intent to deny, or any participant in any public hearing(s) on the draft RAP, may appeal the Director's decision to approve or deny your RAP application [under Title 41, Chapter 6, Article 10, Arizona Revised Statutes.] Any person who did not file comments, or did not participate in any public hearing(s) on the draft RAP, may petition for administrative review only to the extent of the changes from the draft to the final RAP decision. Appeals of RAPs may be made to the same extent as for final permit decisions under § 124.15 of this chapter (or a decision under § 270.29 to deny a permit for the active life of a RCRA hazardous waste management facility or unit.)

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsections (A) and (K) effective June 27, 1985 (Supp. 85-3). Amended subsection (A) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1870 renumbered as R18-8-270, subsection (A) amended and a new subsection (S) added effective May 29, 1987 (Supp. 87-2). Amended subsections (B) and (K) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective December 7, 1995 (Supp. 95-4). Amended effective June 13, 1996 (Supp. 96-2). Amended effective August 8, 1997 (Supp. 97-3). Amended effective June 4, 1998 (Supp. 98-2). Amended by final rulemaking at 5 A.A.R. 4625, effective November 15, 1999 (Supp. 99-4). Amended by final rulemaking at 6 A.A.R. 3093, effective July 24, 2000 (Supp. 00-3). Amended by final rulemaking at 9 A.A.R. 816, effective April 15, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 4364, effective December 4, 2004 (Supp. 04-4). Amended by final rulemaking at 11 A.A.R. 5523, effective February 4, 2006 (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 3061, effective October 1, 2006 (Supp. 06-3). Amended by final rulemaking at 14 A.A.R. 409, effective March 8, 2008 (Supp. 08-1). Amended by final rulemaking at 18 A.A.R. 1202, effective July 1, 2012 (Supp. 12-2). Amended by final rulemaking at 21 A.A.R. 1246, effective September 5, 2015 (Supp. 15-3). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). R18-8-271(B)(2) corrected at the request of the Department to reflect the final rulemaking amendments made at 25 A.A.R. 435 (Supp. 19-2). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 29 A.A.R. 729 (March 17, 2023), with an immediate effective date of March 8, 2023 (Supp. 23-1).

R18-8-271. Procedures for Permit Administration

A. All of 40 CFR 124, revised as of July 1, 2020 (and no future editions), with the exception of §§ 124.1 (b) through (e), 124.2, 124.4, 124.16, 124.20, 124.21, and subparts C, D, and G, and with the exception of the revisions for standardized permits as published at 70 FR 53419, is incorporated by reference, modified by the following subsections, and on file with the DEQ. Copies of 40 CFR 124 are available at https://www.eCFR.gov. Copies of the Federal Register are available at https://www.federalregister.gov.

B. § 124.1, titled "Purpose and scope," paragraph (a) is replaced by the following:

[This Section contains the DEQ procedures for issuing, modifying, revoking and reissuing, or terminating all hazardous waste management facility permits. This Section describes the procedures the DEQ shall follow in reviewing permit applications, preparing draft permits, issuing public notice, inviting public comment, and holding public hearings on draft permits. This Section also includes procedures for assembling an administrative record, responding to comments, issuing a final permit decision, and allowing for administrative appeal of the final permit decision. The procedures of this Section also apply to denial of a permit for the active life of a RCRA HWM facility or unit under § 270.29.]

C. § 124.3, titled "Application for a permit," is replaced by the following:

[(a)(1)Any person who requires a permit under this Article shall complete, sign, and submit to the Director an application for each permit required under § 270.1. Applications are not required for RCRA permits-by-rule in § 270.60.

(2) The Director shall not begin processing a permit until the applicant has fully complied with the application requirements for that permit. (Refer to §§ 270.10 and 270.13).

(3) An applicant for a permit shall comply with the signature and certification requirements of § 270.11.

(b) Reserved.

(c) The Director shall review for completeness every application for a permit. Each application submitted by a new HWM facility shall be reviewed for completeness by the Director in the order of priority on the basis of hazardous waste capacity established in a list by the Director. The Director shall make the list available upon request. Upon completing the review, the Director shall notify the appli-

cant in writing whether the application is complete. If the application is incomplete, the Director shall list the information necessary to make the application complete. When the application is for an existing HWM facility, the Director shall specify in the notice of deficiency a date for submitting the necessary information. The Director shall notify the applicant that the application is complete upon receiving this information. After the application is completed, the Director may request additional information from an applicant but only when necessary to clarify, modify, or supplement previously submitted material. Requests for additional information do not render an application incomplete.

(d) If an applicant fails or refuses to correct deficiencies in the application, the permit may be denied and the Director may take appropriate enforcement actions against an existing HWM facility pursuant to A.R.S. §§ 49-923, 49-924 and 49-925.

(e) If the Director decides that a site visit is necessary for any reason in conjunction with the processing of an application, the Director shall notify the applicant and schedule a date for a site visit.

(f) The effective date of an application is the date on which the Director notifies the applicant that the application is complete as provided in paragraph (c) of this subsection.

(g) For each application from a new HWM facility, the Director shall, no later than the effective date of the application, prepare and mail to the applicant a project decision schedule. The schedule shall specify target dates by which the Director intends to do the following:
(1) Prepare a draft permit or Notice of Intent to Deny;
(2) Give public notice;
(3) Complete the public comment period, including any public hearing;
(4) Make a decision to issue or deny a final permit; and
(5) Issue a final decision.

D. § 124.5, titled "Modification, revocation and reissuance, or termination of permits," is replaced by the following:

[(a) Permits may be modified, revoked and reissued, or terminated either at the request of any interested person (including the permittee) or upon the Director's initiative. However, permits may only be modified, revoked and reissued, or terminated for the reasons specified in §§ 270.41 or 270.43. All requests shall be in writing and shall contain facts or reasons supporting the request.

(b) If the Director decides the request is not justified, the Director shall send the requester a brief written response giving a reason for the decision. Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, or hearings.

(c) Modification, revocation or reissuance of permits procedures.
(1) If the Director tentatively decides to modify or revoke and reissue a permit under §§ 270.41 or 270.42(c), the Director shall prepare a draft permit under § 124.6, incorporating the proposed changes. The Director may request additional information and, in the case of a modified permit, may require the submission of an updated application. In the case of revoked and reissued permits, the Director shall require the submission of a new application.
(2) In a permit modification under this [subsection], only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the unmodified permit. The permit modification shall have the same expiration date as the unmodified permit. When a permit is revoked and reissued under this subsection, the entire permit is reopened just as if the permit had expired and was being reissued. During any revocation and reissuance proceeding the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.
(3) "Classes 1 and 2 modifications" as defined in § 270.42 are not subject to the requirements of this subsection.

(d) If the Director tentatively decides to terminate a permit under § 270.43, the Director shall issue a notice of intent to terminate. A notice of intent to terminate is a type of draft permit which follows the same procedures as any draft permit prepared under § 124.6. In the case of permits that are processed or issued jointly by both the DEQ and the EPA, a notice of intent to terminate shall not be issued if the Regional Administrator and the permittee agree to termination in the course of transferring permit responsibilities from the EPA to the state.

(e) The Director shall base all draft permits, including notices of intent to terminate, prepared under this subsection on the administrative record as defined in § 124.9.]

E. § 124.6, titled "Draft permits," is replaced by the following:

(a) Once an application is complete, the Director shall tentatively decide whether to prepare a draft permit or to deny the application.

(b) If the Director tentatively decides to deny the permit application, the Director shall issue a notice of intent to deny. A notice of intent to deny the permit application is a type of draft permit which follows the same procedures as any draft permit prepared under (e) of this subsection.

(c) Reserved.

(d) If the Director decides to prepare a draft permit, the Director shall prepare a draft permit that contains the following information:
(1) All conditions under §§ 270.30 and 270.32, unless not required under 40 CFR 264 and 265;
(2) All compliance schedules under § 270.33;
(3) All monitoring requirements under § 270.31; and
(4) Standards for treatment, storage, and/or disposal and other permit conditions under § 270.30.

(e) All draft permits prepared by the DEQ under this subsection shall be accompanied by a statement of basis (§ 124.7,) or fact sheet (§ 124.8,), and shall be based on the administrative record (§ 124.9,), publicly noticed (§ 124.10,) and made available for public comment (§ 124.11,). The Director shall give notice of opportunity for a public hearing (§ 124.12,), issue a final decision (§ 124.15,) and respond to comments (§ 124.17,).

F. § 124.7, titled "Statement of basis," is replaced by the following:

The DEQ shall prepare a statement of basis for every draft permit for which a fact sheet under § 124.8 is not prepared. The statement of basis shall briefly describe the derivation of the conditions of the draft permit and the reasons for them or, in the case of notices of intent to deny or terminate, reasons supporting the tentative decision. The statement of basis shall be sent to the applicant and, on request, to any other person.

G. § 124.8, titled "Fact sheet," is replaced by the following:

(a) The DEQ shall prepare a fact sheet for every draft permit for a new HWM facility, and for every draft permit that the Director finds is the subject of widespread public interest or raises major issues. The fact sheet shall briefly set forth the principal facts and the significant factual, legal, methodological and policy questions considered in preparing the draft permit. The Director shall send this fact sheet to the applicant and, on request, to any other person.
(b) The fact sheet shall include, when applicable:
(1) A brief description of the type of facility or activity that is the subject of the draft permit;
(2) The type and quantity of wastes, that are proposed to be or are being treated, stored, or disposed;
(3) Reserved.
(4) A brief summary of the basis for the draft permit conditions including references to applicable statutory or regulatory provisions and appropriate supporting references to the administrative record required by § 124.9;
(5) Reasons why any requested variances or alternatives to required standards do or do not appear justified;
(6) A description of the procedures for reaching a final decision on the draft permit including:
(i) The beginning and ending dates of the comment period under §§ 124.10 and the address where comments will be received;
(ii) Procedures for requesting a hearing and the nature of that hearing; and
(iii) Any other procedures by which the public may participate in the final decision; and
(7) Name and telephone number of a person to contact for additional information.
(8) Reserved.

H. § 124.9 titled "Administrative record for draft permits" is replaced by the following:
(a) The provisions of a draft permit prepared under § 124.6 shall be based on the administrative record defined in this subsection.
(b) For preparing a draft permit under § 124.6, the record consists of:
(1) The application, if required, and any supporting data furnished by the applicant, subject to paragraph (e) of this subsection;
(2) The draft permit or notice of intent to deny the application or to terminate the permit;
(3) The statement of basis under §§ 124.7 or fact sheet under § 124.8;
(4) All documents cited in the statement of basis or fact sheet; and
(5) Other documents contained in the supporting file for the draft permit.
(6) Reserved.
(c) Material readily available at the DEQ or published material that is generally available, and that is included in the administrative record under paragraphs (b) and (c) of this subsection, need not be physically included with the rest of the record as long as it is specifically referred to in the statement of basis or the fact sheet.
(d) This subsection applies to all draft permits when public notice was given after the effective date of these rules.
(e) All items deemed confidential pursuant to A.R.S. § 49-928 shall be maintained separately and not disclosed to the public.

I. § 124.10, titled "Public notice of permit actions and public comment period," is replaced by the following:
(a) Scope.
(1) The Director shall give public notice that the following actions have occurred:
(i) A permit application has been tentatively denied under § 124.6(b);
(ii) A draft permit has been prepared under § 124.6(d); and
(iii) A hearing has been scheduled under § 124.12.
(2) No public notice is required when a request for permit modification, revocation and reissuance, or termination is denied under § 124.5(b). Written notice of that denial shall be given to the requester and to the permittee.
(3) Public notices may describe more than one permit or permit actions.
(b) Timing.
(1) Public notice of the preparation of a draft permit (including a notice of intent to deny a permit application) required under paragraph (a) of this subsection shall allow at least 45 days for public comment.
(2) Public notice of a public hearing shall be given at least 30 days before the hearing. (Public notice of the hearing may be given at the same time as public notice of the draft permit and the two notices may be combined.)
(c) Methods. Public notice of activities described in paragraph (a)(1) of this subsection shall be given by the following methods:
(1) By mailing a copy of a notice to the following persons (any person otherwise entitled to receive notice under this subparagraph may waive his or her rights to receive notice for any classes and categories of permits):
(i) An applicant;
(ii) Any other agency which the Director knows has issued or is required to issue a HWM facility permit or any other federal environmental permit for the same facility or activity;
(iii) Federal and state agencies with jurisdiction over fish, shellfish, and wildlife resources, the Advisory Council on Historic Preservation, State Historic Preservation Officers, including any affected states (Indian Tribes). For purposes of this paragraph, and in the context of the Underground Injection Control Program only, the term State includes Indian Tribes treated as States;
(iv) Reserved.
(v) Reserved.
(vi) Reserved.
(vii) Reserved.
(viii)Reserved.
(ix) Persons on a mailing list developed by:
(A) Including those who request in writing to be on the list;
(B) Soliciting persons for "area lists" from participants in past permit proceedings in that area; and
(C) Notifying the public of the opportunity to be put on the mailing list through periodic publication in the public press and in such publications as regional and state-funded

newsletters, environmental bulletins, or state law journals. (The Director may update the mailing list from time to time by requesting written indication of continued interest from those listed. The Director may delete from the list the name of any person who fails to respond to the request.); and

(x) (A) To any unit of local government having jurisdiction over the area where the facility is proposed to be located; and

(B) To each state agency having any authority under state law with respect to the construction or operation of the facility;

(2) By newspaper publication and radio announcement broadcast, as follows:

(i) Reserved.

(ii) For all permits, publication of a notice in a daily or weekly major local newspaper of general circulation within the area affected by the facility or activity, at least once, and in accordance with the provisions of paragraph (b) of this subsection; and

(iii) For all permits, a radio announcement broadcast over two local radio stations serving the affected area at least once during the period two weeks prior to the public hearing. The announcement shall contain:

(A) A brief description of the nature and purpose of the hearing;

(B) The information described in items (i), (ii), (iii), (iv), and (vii) of subparagraph (d)(1) of this subsection;

(C) The date, time, and place of the hearing; and

(D) Any additional information considered necessary or proper; or

(3) Reserved.

(4) Any other method reasonably calculated to give actual notice of the action in question to the persons potentially affected by it, including press releases or any other forum or medium to elicit public participation.

(d) (1) Each public notice issued under this Article shall contain the following minimum information:

(i) Name and address of the office processing the permit action for which notice is being given;

(ii) Name and address of the permittee or permit applicant and, if different, of the facility or activity regulated by such permit;

(iii) A brief description of the business conducted at the facility or activity described in the permit application;

(iv) Name, address and telephone number of a person from whom interested persons may obtain further information, including copies of the statement of basis or fact sheet;

(v) A brief description of the comment procedures required by §§ 124.11 and 124.12 and the time and place of any hearing that shall be held, including a statement of procedures to request a hearing (unless a hearing has already been scheduled) and other procedures by which the public may participate in the final permit decision;

(vi) The location of the administrative record required by § 124.9, the times at which the record will be open for public inspection, and a statement that all data submitted by the applicant (except for confidential information pursuant to A.R.S. § 49-928) is available as part of the administrative record;

(vii) The locations where a copy of the application and the draft permit may be inspected and the times at which these documents are available for public review; and

(viii) Reserved.

(ix) Any additional information considered necessary or proper.

(2) Public notices for hearings. In addition to the general public notice described in paragraph (d)(1) of this subsection, the public notice of a hearing under § 124.12 shall contain the following information:

(i) Reference to the date of previous public notices relating to the permit;

(ii) Date, time, and place of the hearing; and

(iii) A brief description of the nature and purpose of the hearing, including the applicable rules and procedures.

(iv) Reserved.

(e) In addition to the general public notice described in paragraph (d)(1) of this subsection, all persons identified in paragraphs (c)(1)(i), (ii), and (iii) of this subsection shall be mailed a copy of the fact sheet or statement of basis, the permit application (if any), and the draft permit (if any).

J. § 124.11, titled "Public comments and requests for public hearings," is replaced by the following:

During the public comment period provided under § 124.10, any person may submit written comments on the draft permit and may request a public hearing, if no hearing has already been scheduled. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. All comments shall be considered in making the final decision and shall be answered as provided in § 124.17.

K. § 124.12, titled "Public hearings," is replaced by the following:

[(a) (1) The Director shall hold a public hearing whenever the Director finds, on the basis of requests, a significant degree of public interest in a draft permit.

(2) The Director may also hold a public hearing at the Director's discretion whenever, for instance, such a hearing might clarify one or more issues involved in the permit decision.

(3) The Director shall hold a public hearing whenever written notice of opposition to a draft permit and a request for a hearing has been received within 45 days of public notice under § 124.10(b)(1). Whenever possible the Director shall schedule a hearing under this subsection at a location convenient to the nearest population center to the proposed facility.

(4) Public notice of the hearing shall be given as specified in § 124.10.

(b) Reserved.

(c) Any person may submit oral or written statements and data concerning the draft permit. Reasonable limits may

be set upon the time allowed for oral statements, and the submission of statements in writing may be required. The public comment period under § 124.10 shall automatically be extended to the close of any public hearing under this subsection. The hearing officer may also extend the comment period by so stating at the hearing.

(d) A tape recording or written transcript of the hearing shall be made available to the public.

(e) Reserved.]

L. § 124.13, titled "Obligation to raise issues and provide information during the public comment period," is replaced by the following:

[All persons, including applicants, who believe any condition of a draft permit is inappropriate or that the Director's tentative decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting their position by the close of the public comment period (including any public hearing) under § 124.10. Any supporting materials that a commenter submits shall be included in full and shall not be incorporated by reference, unless they are already part of the administrative record in the same proceeding or consist of state or federal statutes and regulations, EPA documents of general applicability, or other generally available reference materials. Commenters shall make supporting material not already included in the administrative record available to the DEQ as directed by the Director.]

M. § 124.14, titled "Reopening of the public comment period," is replaced by the following:

(a) (1) The Director may order the public comment period reopened if the procedures of this paragraph could expedite the decision-making process. When the public comment period is reopened under this paragraph, all persons, including applicants, who believe any condition of a draft permit is inappropriate or that the Director's tentative decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, must submit all reasonably available factual grounds supporting their position, including all supporting material, by a date, not less than 60 days after public notice under paragraph (a)(2) of this subsection, set by the Director. Thereafter, any person may file a written response to the material filed by any other person, by a date, not less than 20 days after the date set for filing of the material, set by the Director.

(2) Public notice of any comment period under this paragraph shall identify the issues to which the requirements of § 124.14(a) apply.

(3) On the Director's own motion or on the request of any person, the Director may direct that the requirements of paragraph (a)(1) of this subsection shall apply during the initial comment period where it reasonably appears that issuance of the permit will be contested and that applying the requirements of paragraph (a)(1) of this subsection will substantially expedite the decision-making process. The notice of the draft permit shall state whenever this has been done.

(4) A comment period of longer than 60 days will often be necessary in complicated proceedings to give commenters a reasonable opportunity to comply with the requirements of this subsection. Commenters may request longer comment periods and they shall be granted under § 124.10 to the extent they appear necessary.

(b) If any data, information, or arguments submitted during the public comment period, including information or arguments required under § 124.13, appear to raise substantial new questions concerning a permit, the Director may take one or more of the following actions:

(1) Prepare a new draft permit, appropriately modified, under §§ 124.6;

(2) Prepare a revised statement of basis under § 124.7, a fact sheet or revised fact sheet under this § 124.8, and reopen the comment period under this subsection; or,

(3) Reopen or extend the comment period under § 124.10 to give interested persons an opportunity to comment on the information or arguments submitted.

(c) Comments filed during the reopened comment period shall be limited to the substantial new questions that caused its reopening. The public notice under § 124.10 shall define the scope of the reopening.

(d) Reserved.

(e) Public notice of any of the above actions shall be issued under §§ 124.10.

N. § 124.15, titled "Issuance and effective date of permit," is replaced by the following:

(a) After the close of the public comment period under § 124.10 on a draft permit, the Director shall issue a final permit decision or a decision to deny a permit for the active life of a RCRA hazardous waste management facility or unit under § 270.29. The Director shall notify the applicant and each person who has submitted written comments or requested notice of the final permit decision. This notice shall include reference to the procedures for appealing a decision on a permit or a decision to terminate a permit. For purposes of this subsection, a final permit decision means a final decision to issue, deny, modify, revoke and reissue, or terminate a permit.

(b) A final permit decision or a decision to deny a permit for the active life of a RCRA hazardous waste management facility or unit under § 270.29 becomes effective on the date specified by the Director in the final permit notice.

(1) Reserved.

(2) Reserved.

(3) Reserved.

O. § 124.17, titled "Response to comments," is replaced by the following:

(a) At the time that any final decision to issue a permit is made under § 124.15, the Director shall issue a response to comments. This response shall:

(1) Specify which provisions, if any, of the draft permit have been changed in the final permit decision, and the reasons for the change; and

(2) Briefly describe and respond to all significant comments on the draft permit raised during the public comment period, or during any hearing.

(b) Any documents cited in the response to comments shall be included in the administrative record for the final permit decision as defined in § 124.18. If new points are raised or new material supplied during the public comment period, the DEQ may document its response to those matters by adding new materials to the administrative record.

(c) The response to comments shall be available to the public.

P. § 124.18, titled "Administrative record for final permit" is replaced by the following:

(a) The Director shall base final permit decisions under § 124.15 on the administrative record defined in this subsection.

(b) The administrative record for any final permit shall consist of the administrative record for the draft permit, and:

(1) All comments received during the public comment period provided under § 124.10, including any extension or reopening under § 124.14;

(2) The tape or transcript of any hearing(s) held under § 124.12;

(3) Any written materials submitted at such a hearing;

(4) The response to comments required by § 124.17 and any new material placed in the record under that subsection;

(5) Reserved.

(6) Other documents contained in the supporting file for the permit; and

(7) The final permit.

(c) The additional documents required under (b) of this subsection shall be added to the record as soon as possible after their receipt or publication by the DEQ. The record shall be complete on the date the final permit is issued.

(d) This subsection applies to all final permits when the draft permit was subject to the administrative record requirement of § 124.9.

(e) Material readily available at the DEQ, or published materials which are generally available and which are included in the administrative record under the standards of this subsection or of § 124.17, ("Response to comments"), need not be physically included in the same file as the rest of the record as long as the materials and their location are specifically identified in the statement of basis or fact sheet or in the response to comments.

Q. § 124.19, titled "Appeal of RCRA, UIC, and PSD permits," is replaced by the following:

A final permit decision (or a decision under § 270.29 to deny a permit for the active life of a RCRA hazardous waste management facility or unit issued under § 124.15 is an appealable agency action as defined in A.R.S. § 41-1092 and is subject to appeal under A.R.S. Title 41, Ch. 6, Art. 10.

R. § 124.31(a) titled "Pre-application public meeting and notice" is amended by deleting the following sentence:

"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."

S. § 124.32(a) titled "Public notice requirements at the application stage" is amended by deleting the following sentence:

"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."

T. § 124.33(a) titled "Information repository" is amended by deleting the following sentence:

"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (A) effective June 27, 1985 (Supp. 85-3). Amended subsection (A) effective August 5, 1986 (Supp. 86-4). Former Section R9-8-1871 renumbered as R18-8-271; subsections (A), (C), (E), (I), (L) and (M) amended effective May 29, 1987 (Supp. 87-2). Amended subsection (C) effective December 1, 1988 (Supp. 88-4). Amended effective October 11, 1989 (Supp. 89-4). Amended effective August 14, 1991 (Supp. 91-3). R18-8-280. Compliance

A. Inspection and entry. For purposes of ensuring compliance with the provisions of HWMA, any person who generates, stores, treats, transports, disposes of, or otherwise handles hazardous wastes, including used oil that may be classified as hazardous waste pursuant to A.R.S. Title 49, Chapter 4, Article 7, and hazardous secondary materials, shall, upon request of any officer, employee, or representative of the DEQ duly designated by the Director, furnish information pertaining to such wastes and permit such person at reasonable times:

1. To enter any establishment or other place maintained by such person where such wastes are or have been generated, stored, treated, disposed, or transported from;
2. To have access to, and to copy all records relating to such wastes;
3. To inspect any facilities, equipment (including monitoring and control equipment), practices, and operations, relating to such wastes;
4. To inspect, monitor, and obtain samples from such person of any such wastes and of any containers or labeling for such wastes; and
5. To record any inspection by use of written, electronic, magnetic and photographic media.

B. Penalties. A person who violates HWMA or any permit, rule, regulation, or order issued pursuant to HWMA is subject to civil and/or criminal penalties pursuant to A.R.S. §§ 49-923 through 49-925, as amended. Nothing in this Article shall be construed to limit the Director's or Attorney General's enforcement powers authorized by law including but not limited to the seeking or recovery of any civil or criminal penalties.

C. A certification statement may be required on written submittals to the DEQ in response to Compliance Orders or in response to information requested pursuant to subsection (A) of this Section. In addition, the DEQ may request in writing that a certification statement appear in any written submittal to the DEQ. The certification statement shall be signed by a person authorized to act on behalf of the company or empowered to make decisions on behalf of the company on the matter contained in the document.

D. Site assessment plan.

1. The requirement to develop a site assessment plan shall be contained in a Compliance Order. The Director may require an owner or operator to develop a site assessment plan based on one or more of the following conditions:
   a. Unauthorized disposal or discharges of hazardous waste or hazardous waste constituents which have not been remediated.
   b. Results of environmental sampling by the DEQ that indicate the presence of a hazardous waste or hazardous waste constituents.
   c. Visual observation of unauthorized disposal or discharges which cannot be verified pursuant to § 262.11, § 264.13, or § 265.13 as not containing a hazardous waste or hazardous waste constituents.
   d. Other evidence of disposal or discharges of hazardous waste or hazardous waste constituents into the environment which have not been remediated.
2. The site assessment plan shall describe in detail the procedures to determine the nature, extent and degree of hazardous waste contamination in the environment.
3. The site assessment plan shall be approved by the DEQ before implementation.
4. The site assessment shall be conducted and the results shall be submitted to the DEQ within the time limitations established by the DEQ.
5. The DEQ may request in writing that a site assessment plan be conducted. The DEQ will review a voluntarily submitted site assessment plan if the plan satisfies the requirements listed in subsections (D)(2) through (4).

Historical Note

Adopted effective July 24, 1984 (Supp. 84-4). Amended subsection (B) effective June 27, 1985 (Supp. 85-3). Former Section R9-8-1880 renumbered as Section R18-8-280, and subsection (A) amended effective May 29, 1987 (Supp. 87-2). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Amended October 11, 1989 (Supp. 89-4). Amended effective October 6, 1992 (Supp. 92-4). Amended effective December 2, 1994 (Supp. 94-4). Amended effective June 13, 1996 (Supp. 96-2). Amended by final rulemaking at 25 A.A.R. 435, effective February 5, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 2949, with an immediate effective date of November 3, 2020 (Supp. 20-4).

ARTICLE 3. RECODIFIED

Title 18, Chapter 8, Article 3, consisting of Sections R18-8-301 through R18-8-305, R18-8-307, Table A, Exhibit 1, and Appendices A and B, recodified to Title 18, Chapter 13, Article 13, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-301. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Amended effective March 24, 1994 (Supp. 94-1). Section

recodified to A.A.C. R18-13-1301, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-302. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1302, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-303. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1303, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-304. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1304, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-305. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1305, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-306. Repealed

Historical Note

Emergency rule adopted effective February 22, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-1). Emergency expired. Emergency rule adopted again effective May 26, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-2). Emergency expired. Emergency rule adopted again effective August 30, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-3). Permanent rule adopted effective December 2, 1993 (Supp. 93-4). The permanent rule that was adopted effective December 2, 1993, was inadvertently published without the changes the agency made. Those changes appear here. (Supp. 95-4). Section repealed by summary rulemaking with an interim effective date of July 16, 1999, filed in the Office of the Secretary of State June 25, 1999 (Supp. 99-2). Interim effective date of July 16, 1999 now the permanent effective date (Supp. 99-4).

R18-8-307. Recodified

Historical Note

Emergency rule adopted effective December 21, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-4). Permanent rule adopted with changes effective March 24, 1994 (Supp. 94-1). Section recodified to A.A.C. R18-13-1307, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Table A. Recodified

Historical Note

Emergency rule adopted effective December 21, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-4). Permanent rule adopted with changes effective March 24, 1994 (Supp. 94-1). Table A recodified to 18 A.A.C. 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Exhibit 1. Recodified

Historical Note

Emergency rule adopted effective December 21, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-4). Permanent rule adopted with changes effective March 24, 1994 (Supp. 94-1). Exhibit 1 recodified to 18 A.A.C. 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Appendix A. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Appendix A recodified to 18 A.A.C. 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

Appendix B. Recodified

Historical Note

Adopted effective August 16, 1993 (Supp. 93-3). Appendix B recodified to 18 A.A.C. 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 4. RECODIFIED

Title 18, Chapter 8, Article 4, consisting of Section R18-8-402, recodified to Title 18, Chapter 13, Article 9, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-401. Expired

Historical Note

Adopted effective December 21, 1977 (Supp. 77-6). Former Section R9-8-1711 renumbered without change as Section R18-8-401 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-402. Recodified

Historical Note

Adopted effective December 21, 1977 (Supp. 77-6). Former Section R9-8-1717 renumbered without change as Section R18-8-402 (Supp. 87-3). Section recodified to A.A.C. R18-13-902, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

ARTICLE 5. RECODIFIED

Title 18, Chapter 8, Article 5, consisting of Sections R18-8-502 through R18-8-512, recodified to Title 18, Chapter 13, Article 3, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-501. Expired

Historical Note

Former Section R9-8-411 renumbered without change as Section R18-8-501 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-502. Recodified

Historical Note

Former Section R9-8-412 renumbered without change as Section R18-8-502 (Supp. 87-3). Section recodified to

A.A.C. R18-13-302, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-503. Recodified

Historical Note

Former Section R9-8-413 renumbered without change as Section R18-8-503 (Supp. 87-3). Section recodified to A.A.C. R18-13-303, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-504. Recodified

Historical Note

Former Section R9-8-414 renumbered without change as Section R18-8-504 (Supp. 87-3). Section recodified to A.A.C. R18-13-304, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-505. Recodified

Historical Note

Former Section R9-8-415 renumbered without change as Section R18-8-505 (Supp. 87-3). Section recodified to A.A.C. R18-13-305, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-506. Recodified

Historical Note

Former Section R9-8-416 renumbered without change as Section R18-8-506 (Supp. 87-3). Section recodified to A.A.C. R18-13-306, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-507. Recodified

Historical Note

Former Section R9-8-421 renumbered without change as Section R18-8-507 (Supp. 87-3). Section recodified to A.A.C. R18-13-307, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-508. Recodified

Historical Note

Amended effective August 6, 1976 (Supp. 76-4). Former Section R9-8-426 renumbered without change as Section R18-8-508 (Supp. 87-3). Section recodified to A.A.C. R18-13-308, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-509. Recodified

Historical Note

Former Section R9-8-427 renumbered without change as Section R18-8-509 (Supp. 87-3). Section recodified to A.A.C. R18-13-309, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-510. Recodified

Historical Note

Former Section R9-8-428 renumbered without change as Section R18-8-510 (Supp. 87-3). Section recodified to A.A.C. R18-13-310, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-511. Recodified

Historical Note

Former Section R9-8-431 renumbered without change as Section R18-8-511 (Supp. 87-3). Section recodified to A.A.C. R18-13-311, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-512. Recodified

Historical Note

Amended effective August 6, 1976 (Supp. 76-4). Correction in spelling, paragraph (5), “feeding”; former Section R9-8-432 renumbered without change as Section R18-8-512 (Supp. 87-3). Section recodified to A.A.C. R18-13-312, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-513. Expired

Historical Note

Adopted effective March 14, 1979 (Supp. 79-2). Former Section R9-8-433 renumbered without change as Section R18-8-513 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

ARTICLE 6. RECODIFIED

Existing Sections in Article 6 recodified to 18 A.A.C. 13, Article 11 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-601. Expired

Historical Note

Former Section R9-8-1211 renumbered without change as Section R18-8-601 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-602. Recodified

Historical Note

Former Section R9-8-1212 renumbered without change as Section R18-8-602 (Supp. 87-3). Section R18-8-602 recodified to R18-13-1102 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-603. Recodified

Historical Note

Former Section R9-8-1213 renumbered without change as Section R18-8-603 (Supp. 87-3). Section R18-8-603 recodified to R18-13-1103 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-604. Recodified

Historical Note

Former Section R9-8-1214 renumbered without change as Section R18-8-604 (Supp. 87-3). Section R18-8-604 recodified to R18-13-1104 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-605. Expired

Historical Note

Former Section R9-8-1215 renumbered without change as Section R18-8-605 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-606. Recodified

Historical Note

Former Section R9-8-1216 renumbered without change as Section R18-8-606 (Supp. 87-3). Section R18-8-606

recodified to R18-13-1106 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-607. Expired

Historical Note
Former Section R9-8-1221 renumbered without change as Section R18-8-607 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-608. Recodified

Historical Note
Former Section R9-8-1222 renumbered without change as Section R18-8-608 (Supp. 87-3). Section R18-8-608 recodified to R18-13-1108 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-609. Expired

Historical Note
Former Section R9-8-1223 renumbered without change as Section R18-8-609 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-610. Expired

Historical Note
Former Section R9-8-1224 renumbered without change as Section R18-8-610 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-611. Expired

Historical Note
Former Section R9-8-1225 renumbered without change as Section R18-8-611 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

R18-8-612. Recodified

Historical Note
Former Section R9-8-1231 renumbered without change as Section R18-8-612 (Supp. 87-3). Section R18-8-612 recodified to R18-13-1112 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-613. Recodified

Historical Note
Former Section R9-8-1232 renumbered without change as Section R18-8-613 (Supp. 87-3). Section R18-8-613 recodified to R18-13-1113 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-614. Recodified

Historical Note
Former Section R9-8-1233 renumbered without change as Section R18-8-614 (Supp. 87-3). Section R18-8-614 recodified to R18-13-1114 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-615. Recodified

Historical Note
Former Section R9-8-1234 renumbered without change as Section R18-8-615 (Supp. 87-3). Section R18-8-615 recodified to R18-13-1115 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-616. Recodified

Historical Note
Former Section R9-8-1235 renumbered without change as Section R18-8-616 (Supp. 87-3). Section R18-8-616 recodified to R18-13-1116 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-617. Recodified

Historical Note
Former Section R9-8-1236 renumbered without change as Section R18-8-617 (Supp. 87-3). Section R18-8-617 recodified to R18-13-1117 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-618. Recodified

Historical Note
Former Section R9-8-1241 renumbered without change as Section R18-8-618 (Supp. 87-3). Section R18-8-618 recodified to R18-13-1118 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-619. Recodified

Historical Note
Former Section R9-8-1242 renumbered without change as Section R18-8-619 (Supp. 87-3). Section R18-8-619 recodified to R18-13-1119 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-620. Recodified

Historical Note
Former Section R9-8-1243 renumbered without change as Section R18-8-620 (Supp. 87-3). Section R18-8-620 recodified to R18-13-1120 at 8 A.A.R. 5172, effective November 27, 2002 (Supp. 02-4).

R18-8-621. Expired

Historical Note
Former Section R9-8-1244 renumbered without change as Section R18-8-621 (Supp. 87-3). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 15, 2000 (Supp. 00-1).

ARTICLE 7. RECODIFIED

18 A.A.C. 8, Article 7, consisting of Sections R18-8-701 through R18-8-710, recodified to Title 18, Chapter 13, Article 12, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-701. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1201, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-702. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1202, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-703. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1203, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-704. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1204, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-705. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1205, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-706. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1206, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-707. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1207, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-708. Recodified

Historical Note
Adopted effective July 6, 1993 (Supp. 93-3). Section recodified to A.A.C. R18-13-1208, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-709. Recodified

Historical Note
Emergency rule adopted effective February 5, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-1). Emergency rule adopted again effective May 6, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-2). Emergency expired (Supp. 93-3). Emergency rule permanently adopted without change effective February 1, 1994 (Supp. 94-1). Section recodified to A.A.C. R18-13-1209, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

R18-8-710. Recodified

Historical Note
Emergency rule adopted effective February 5, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-1). Emergency rule adopted again effective May 6, 1993, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 93-2). Emergency expired (Supp. 93-3). Emergency rule permanently adopted without change effective February 1, 1994 (Supp. 94-1). Section recodified to A.A.C. R18-13-1210, filed in the Office of the Secretary of State September 29, 2000 (Supp. 00-3).

41-1003. Required rule making

Each agency shall make rules of practice setting forth the nature and requirements of all formal procedures available to the public.

49-104. Powers and duties of the department and director

A. The department shall:

1. Formulate policies, plans and programs to implement this title to protect the environment.

2. Stimulate and encourage all local, state, regional and federal governmental agencies and all private persons and enterprises that have similar and related objectives and purposes, cooperate with those agencies, persons and enterprises and correlate department plans, programs and operations with those of the agencies, persons and enterprises.

3. Conduct research on its own initiative or at the request of the governor, the legislature or state or local agencies pertaining to any department objectives.

4. Provide information and advice on request of any local, state or federal agencies and private persons and business enterprises on matters within the scope of the department.

5. Consult with and make recommendations to the governor and the legislature on all matters concerning department objectives.

6. Promote and coordinate the management of air resources to ensure their protection, enhancement and balanced utilization consistent with the environmental policy of this state.

7. Promote and coordinate the protection and enhancement of the quality of water resources consistent with the environmental policy of this state.

8. Encourage industrial, commercial, residential and community development that maximizes environmental benefits and minimizes the effects of less desirable environmental conditions.

9. Ensure the preservation and enhancement of natural beauty and man-made scenic qualities.

10. Provide for the prevention and abatement of all water and air pollution including that related to particulates, gases, dust, vapors, noise, radiation, odor, nutrients and heated liquids in accordance with article 3 of this chapter and chapters 2 and 3 of this title.

11. Promote and recommend methods for the recovery, recycling and reuse or, if recycling is not possible, the disposal of solid wastes consistent with sound health, scenic and environmental quality policies. The department shall report annually on its revenues and expenditures relating to the solid and hazardous waste programs overseen or administered by the department.

12. Prevent pollution through regulating the storage, handling and transportation of solids, liquids and gases that may cause or contribute to pollution.

13. Promote the restoration and reclamation of degraded or despoiled areas and natural resources.

14. Participate in the state civil defense program and develop the necessary organization and facilities to meet wartime or other disasters.

15. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

16. Unless specifically authorized by the legislature, ensure that state laws, rules, standards, permits, variances and orders are adopted and construed to be consistent with and not more stringent than the corresponding federal law that addresses the same subject matter. This paragraph does not adversely affect standards adopted by an Indian tribe under federal law.

17. Provide administrative and staff support for the oil and gas conservation commission.

B. The department, through the director, shall:

1. Contract for the services of outside advisers, consultants and aides reasonably necessary or desirable to enable the department to adequately perform its duties.

2. Contract and incur obligations reasonably necessary or desirable within the general scope of department activities and operations to enable the department to adequately perform its duties.

3. Use any medium of communication, publication and exhibition when disseminating information, advertising and publicity in any field of its purposes, objectives or duties.

4. Adopt procedural rules that are necessary to implement the authority granted under this title but that are not inconsistent with other provisions of this title.

5. Contract with other agencies, including laboratories, in furthering any department program.

6. Use monies, facilities or services to provide matching contributions under federal or other programs that further the objectives and programs of the department.

7. Accept gifts, grants, matching monies or direct payments from public or private agencies or private persons and enterprises for department services and publications and to conduct programs that are consistent with the general purposes and objectives of this chapter. Monies received pursuant to this paragraph shall be deposited in the department fund corresponding to the service, publication or program provided.

8. Provide for the examination of any premises if the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed on the premises. The director shall give the owner or operator the opportunity for its representative to accompany the director on an examination of those premises. Within forty-five days after the date of the examination, the department shall provide to the owner or operator a copy of any report produced as a result of any examination of the premises.

9. Supervise sanitary engineering facilities and projects in this state, authority for which is vested in the department, and own or lease land on which sanitary engineering facilities are located, and operate the facilities, if the director determines that owning, leasing or operating is necessary for the public health, safety or welfare.

10. Adopt and enforce rules relating to approving design documents for constructing, improving and operating sanitary engineering and other facilities for disposing of solid, liquid or gaseous deleterious matter.

11. Define and prescribe reasonably necessary rules regarding the water supply, sewage disposal and garbage collection and disposal for subdivisions. The rules shall:

(a) Provide for minimum sanitary facilities to be installed in the subdivision and may require that water systems plan for future needs and be of adequate size and capacity to deliver specified minimum quantities of drinking water and to treat all sewage.

(b) Provide that the design documents showing or describing the water supply, sewage disposal and garbage collection facilities be submitted with a fee to the department for review and that no lots in any subdivision be offered for sale before compliance with the standards and rules has been demonstrated by approval of the design documents by the department.

12. Prescribe reasonably necessary measures to prevent pollution of water used in public or semipublic swimming pools and bathing places and to prevent deleterious conditions at those places. The rules shall prescribe minimum standards for the design of and for sanitary conditions at any public or semipublic swimming pool or bathing place and provide for abatement as public nuisances of premises and facilities that do not comply with the minimum standards. The rules shall be developed in cooperation with the director of the department of health services and shall be consistent with the rules adopted by the director of the department of health services pursuant to section 36-136, subsection I, paragraph 10.

13. Prescribe reasonable rules regarding sewage collection, treatment, disposal and reclamation systems to prevent the transmission of sewage borne or insect borne diseases. The rules shall:

(a) Prescribe minimum standards for the design of sewage collection systems and treatment, disposal and reclamation systems and for operating the systems.

(b) Provide for inspecting the premises, systems and installations and for abating as a public nuisance any collection system, process, treatment plant, disposal system or reclamation system that does not comply with the minimum standards.

(c) Require that design documents for all sewage collection systems, sewage collection system extensions, treatment plants, processes, devices, equipment, disposal systems, on-site wastewater treatment facilities and reclamation systems be submitted with a fee for review to the department and may require that the design documents anticipate and provide for future sewage treatment needs.

(d) Require that construction, reconstruction, installation or initiation of any sewage collection system, sewage collection system extension, treatment plant, process, device, equipment, disposal system, on-site wastewater treatment facility or reclamation system conform with applicable requirements.

14. Prescribe reasonably necessary rules regarding excreta storage, handling, treatment, transportation and disposal. The rules may:

(a) Prescribe minimum standards for human excreta storage, handling, treatment, transportation and disposal and shall provide for inspection of premises, processes and vehicles and for abating as public nuisances any premises, processes or vehicles that do not comply with the minimum standards.

(b) Provide that vehicles transporting human excreta from privies, septic tanks, cesspools and other treatment processes be licensed by the department subject to compliance with the rules. The department may require payment of a fee as a condition of licensure. The department shall establish by rule a fee as a condition of licensure, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee fund established by section 49-881.

15. Perform the responsibilities of implementing and maintaining a data automation management system to support the reporting requirements of title III of the superfund amendments and reauthorization act of 1986 (P.L. 99-499) and article 2 of this chapter.

16. Approve remediation levels pursuant to article 4 of this chapter.

17. Establish or revise fees by rule pursuant to the authority granted under title 44, chapter 9, articles 8 and 9 and chapters 4 and 5 of this title for the department to adequately perform its duties. All fees shall be fairly assessed and impose the least burden and cost to the parties subject to the fees. In establishing or revising fees, the department shall base the fees on the direct and indirect costs of the department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to issuing licenses as defined in title 41, chapter 6 and enforcing the requirements of the applicable regulatory program.

18. Appoint a person with a background in oil and gas conservation to act on behalf of the oil and gas conservation commission and administer and enforce the applicable provisions of title 27, chapter 4 relating to the oil and gas conservation commission.

C. The department may:

1. Charge fees to cover the costs of all permits and inspections it performs to ensure compliance with rules adopted under section 49-203 except that state agencies are exempt from paying the fees.

2. Monies collected pursuant to this subsection shall be deposited, pursuant to sections 35-146 and 35-147, in the water quality fee fund established by section 49-210.

3. Contract with private consultants for the purposes of assisting the department in reviewing applications for licenses, permits or other authorizations to determine whether an applicant meets the criteria for issuance of the license, permit or other authorization. If the department contracts with a consultant under this paragraph, an applicant may request that the department expedite the application review by requesting that the department use the services of the consultant and by agreeing to pay the department the costs of the consultant's services. Notwithstanding any other law, monies paid by applicants for expedited reviews pursuant to this paragraph are appropriated to the department for use in paying consultants for services.

D. The director may:

1. If the director has reasonable cause to believe that a violation of any environmental law or rule exists or is being committed, inspect any person or property in transit through this state and any vehicle in which the person or property is being transported and detain or disinfect the person, property or vehicle as reasonably necessary to protect the environment if a violation exists.

2. Authorize in writing any qualified officer or employee in the department to perform any act that the director is authorized or required to do by law.

49-152. Soil remediation standards; restrictions on property use

A. Notwithstanding any other remediation levels established under this title, the director shall approve remediation levels calculated in accordance with this subsection and shall accomplish the following for remediation of contaminated soil to protect public health and the environment in accordance with the applicable provisions of this title and section 33-434.01:

1. Establish predetermined risk based standards by rule. At a minimum, separate standards shall be established for residential and nonresidential exposure assumptions. Until risk based remediation standards are formally established by rule, the director shall establish interim standards adopting:

(a) The Arizona health based guidance levels developed by the department of health services to include a health based standard for total petroleum hydrocarbons as the standards for residential uses.

(b) The guidance levels in subdivision (a) of this paragraph modified to reflect the United States environmental protection agency published assumptions for exposures that are not residential as the standards for nonresidential uses. The initial adoption of these interim standards shall be effective by December 15, 1995 and shall be deemed emergency rules pursuant to section 41-1026.

2. Issue guidance on methods for calculating case-by-case, site specific risk based remediation levels in accordance with risk assessment methodologies that are accepted in the scientific community and shall not preclude the use of newly developed risk assessment methodologies that are accepted in the scientific community.

B. The owner of a property may elect to remediate the property to meet a site specific residential or nonresidential risk based remediation standard or a predetermined residential or nonresidential risk based remediation standard. The property is suitable for unrestricted use if it has been remediated without the use of engineering or institutional controls to meet either of the following:

1. The predetermined residential risk based remediation standard.

2. A site specific risk based hazard index equal to or less than one or a risk of carcinogenic health effects that is less than or equal to the range of risk levels set forth in 40 Code of Federal Regulations section 300.430(e)(2)(i)(A)(2), based on residential exposure.

C. If the owner has elected to use an engineering or institutional control to meet the standards prescribed in subsection B of this section, or if the owner has elected to leave contamination on the property that exceeds the applicable residential standard for the property at a site remediated under programs, settlements or orders administered by the department under this title, the owner shall record in each county where the property is located an institutional control that consists of a restrictive covenant that is labeled "declaration of environmental use restriction" pertaining to the area of the property necessary to protect the public health and the environment. A person who is conducting a remedial action, remediation, corrective action or response action that requires an institutional or engineering control and who is not the owner of the property shall obtain written consent from the owner before implementing the institutional control or constructing the engineering control. On implementation of the institutional or engineering control, the owner shall record a declaration of environmental use restriction in each county where the property is located. If the institutional control or engineering control will affect right-of-way that is owned, maintained or controlled by a public entity for public benefit, the person shall also obtain the public entity's written consent before implementing the institutional control or constructing the engineering control. The declaration of environmental use restriction shall limit by legal description:

1. The area of the property where the institutional control or engineering control shall be maintained.

2. The area of the property to be restricted to nonresidential use, because contamination remains on the property above the standards prescribed in subsection B, paragraph 1 or 2 of this section.

D. At the written request of the owner of property that is subject to a declaration of environmental use restriction, the director shall determine whether release or modification of the declaration of environmental use restriction is appropriate. If a release has been requested, the director shall make this determination within sixty days after the date of the property owner's request. If the director determines that release of the declaration of environmental use restriction is appropriate, the director shall record in each county where the property is located a notice releasing the declaration of environmental use restriction. The declaration of environmental use restriction is perpetual unless released pursuant to this section. The director shall determine that release of a declaration of environmental use restriction is appropriate if the property has been remediated, without the use of institutional controls or engineering controls, to either:

1. Meet predetermined risk based remedial standards for residential exposure assumptions.

2. Present a risk based hazard index equal to or less than one from noncancer health effects and a risk estimate of carcinogenic health effects equal to or less than the range of risk levels set forth in 40 Code of Federal Regulations section 300.430(e)(2)(i)(A)(2).

E. The department shall establish a repository in the department listing sites remediated under programs administered by the department under this title. The repository shall include the name and address of the owner of the property, when the remediation was conducted, the legal description and street address of the property, the applicability of section 33-434.01, the type of financial assurance mechanism that is being used, if applicable, and a description of the purpose of the declaration of environmental use restriction.

F. When recorded, an owner's declaration of environmental use restriction under subsection B of this section is a covenant that runs with and burdens the property, binds the owner and the owner's heirs, successors and assigns and inures to the benefit of the department and the state. If notice of the declaration of environmental use restriction that includes a specific description of the area of the property that is subject to the declaration of environmental use restriction is contained in the repository maintained by the department pursuant to subsection E of this section, a declaration of environmental use restriction may not be extinguished, limited or impaired through any of the following:

1. Sale of a real property tax lien.

2. Foreclosure of a tax lien.

3. Foreclosure of any mortgage, deed of trust or other encumbrance or lien on the property.

4. Adverse possession.

5. Exercise of eminent domain.

6. Application of the doctrine of abandonment, the doctrine of waiver or any other common law doctrine.

G. Each party to a declaration of environmental use restriction shall incorporate the terms of the declaration of environmental use restriction into any lease, license or other agreement that is signed by the party and that grants a right with respect to the property that is subject to the declaration of environmental use restriction. The incorporation may be in full or by reference.

H. A declaration of environmental use restriction is sufficient if it contains all of the following information:

1. A legal description and the address of the area of the property that is subject to the declaration.

2. The date that remediation was completed and a map of the area of the property that is subject to the declaration.

3. A description of the environmental contaminants that were the subject of the remediation, remedial action, corrective action or response action.

4. A statement that more detailed information is available at the department, including the address at which that information will be maintained.

5. A notarized signature of a department official indicating approval of the declaration of environmental use restriction.

6. The notarized signature of the owner.

I. If institutional controls are used in addition to a declaration of environmental use restriction to satisfy the requirements of this section, the declaration of environmental use restriction, in addition to the information required by subsection H of this section, shall include all of the following:

1. A statement documenting any requirements for maintenance of the institutional control, including a description of the institutional control and the reason it must remain in place to protect public health and the environment.

2. A statement indicating that if any person desires to cancel or modify the institutional control in the future, the person must obtain prior written approval from the department pursuant to this section.

3. A statement acknowledging the department's right of access to the property at all reasonable times to verify that institutional controls are being maintained.

J. If engineering controls are used to satisfy the requirements of this section, the declaration of environmental use restriction, in addition to the information required by subsection H of this section, shall include all of the following:

1. A statement of all requirements for maintenance of the engineering control including a description of the control, the date it was constructed and the reason it must remain in place to protect public health and the environment.

2. A statement that if any person desires to change the engineering controls in the future that person shall obtain prior written approval from the department.

3. A statement acknowledging the department's right of access to the property at all reasonable times to verify that engineering controls are being maintained.

4. A brief description of the engineering control plan and financial assurance mechanism prescribed by section 49-152.01, if applicable.

K. When the declaration of environmental use restriction is recorded or modified, an owner electing to use institutional or engineering controls to satisfy the requirements of this section shall pay the department a fee established by rule. If the control is an institutional control, the owner shall submit to the department a written report once each calendar year regarding the status of the institutional control. If the control is an engineering control, the owner shall maintain the engineering control on the property to ensure that it continues to protect public health and the environment and shall inspect each engineering control at least once each calendar year. Within thirty days after each inspection, the owner shall submit to the department a written report that:

1. Describes the condition of the engineering control.

2. States the nature and cost of all restoration made to the engineering control during the calendar year.

3. Includes current photographs of the engineering control.

4. Describes the status of the financial assurance mechanism prescribed by section 49-152.01, if applicable, and a certification that the financial assurance mechanism is being maintained.

L. The department shall provide a copy of the declaration of environmental use restriction to the local jurisdiction with zoning and development plan approval for the property. The receipt of this copy does not create any new obligation or confer additional powers on the local jurisdiction. A declaration of environmental use restriction does not authorize a use of property that is otherwise prohibited by zoning ordinances or other ordinances or laws. A declaration of environmental use restriction may include activity limitations and use restrictions that would otherwise be permitted by zoning ordinances or other ordinances or laws.

M. The department shall adopt rules as necessary to implement this section. These rules may be combined with any rules necessary to implement section 49-158.

N. The department may enter on the property at all reasonable times to assess the condition of each engineering control. When the department enters on property to assess the condition of an engineering control, the department shall:

1. Provide twenty-four hours' advance notice of the entry to the property owner, if practicable.

2. Allow the owner or an authorized representative of the owner to accompany the department representative.

3. Present photographic identification on entry of the property.

4. Provide the owner or an authorized representative of the owner with notice of the right to have a duplicate sample or split of any sample taken during the inspection if the duplicate or split of any sample would not prohibit an analysis from being conducted or render an analysis inconclusive.

O. Nothing in this section shall preclude the department from initiating an action under other provisions of state or federal law.

49-922. Department rules and standards; prohibited permittees

A. The director shall adopt rules to establish a hazardous waste management program equivalent to and consistent with the federal hazardous waste regulations promulgated pursuant to subtitle C of the federal act. Federal hazardous waste regulations may be adopted by reference. The director shall not adopt a nonprocedural standard that is more stringent than or conflicts with those found in 40 Code of Federal Regulations parts 260 through 268, 270 through 272, 279 and 124. The director shall not identify a waste as hazardous if not so identified in the federal hazardous waste regulations unless the director finds, based on all the factors in 40 Code of Federal Regulations section 261.11(a)(1), (2), or (3), that the waste may cause or significantly contribute to an increase in serious irreversible or incapacitating reversible illness or pose a substantial present or potential hazard to human health or the environment when it is improperly treated, stored, transported, disposed or otherwise managed.

B. These rules shall establish criteria and standards for the characteristics, identification, listing, generation, transportation, treatment, storage and disposal of hazardous waste within this state. In establishing the standards the director shall, where appropriate, distinguish between new and existing facilities. The criteria and standards shall include requirements respecting:

1. Maintaining records of hazardous waste identified under this article and the manner in which the waste is generated, transported, treated, stored or disposed.

2. Submitting reports, data, manifests and other information necessary to ensure compliance with such standards.

3. Transporting hazardous waste, including appropriate packaging, labeling and marking requirements and requirements respecting the use of a manifest system, which are consistent with the regulations of the state and United States departments of transportation governing transporting hazardous materials.

4. The operation, maintenance, location, design and construction of hazardous waste treatment, storage or disposal facilities, including such additional qualifications as to ownership, continuity of operation, contingency plans, corrective actions and abatement of continuing releases, monitoring and inspection programs, personnel training, closure and postclosure requirements and financial responsibility as may be necessary and appropriate.

5. Requiring a permit for a hazardous waste treatment, storage or disposal facility including the modification and termination of permits, the authority to continue activities and permits existing on July 27, 1983 consistent with the federal hazardous waste regulations and the payment of reasonable fees. The director shall establish and collect reasonable fees from the applicant to cover the cost of administrative services and other expenses associated with evaluating the application and issuing or denying the permit. The director shall establish by rule an application fee to cover the cost of administrative services and other expenses associated with evaluating the application and issuing or denying the permit, including a maximum fee. The fees shall be deposited, pursuant to sections 35-146 and 35-147, in the hazardous waste management fund established by section 49-927.

6. Providing the right of entry for inspection and sampling to ensure compliance with the standards.

7. Providing for appropriate public participation in developing, revising, implementing, amending and enforcing any rule, guideline, information or program under this article consistent with the federal hazardous waste program.

C. The director may refuse to issue a permit for a facility for storage, treatment or disposal of hazardous waste to a person if any of the following applies:

1. The person fails to demonstrate sufficient reliability, expertise, integrity and competence to operate a hazardous waste facility.

2. The person has been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the permit application.

3. In the case of a corporation or business entity, if any of its officers, directors, partners, key employees or persons or business entities holding ten percent or more of its equity or debt liability has been convicted of, or pled guilty or no contest to, a felony in any state or federal court during the five years before the date of the permit application.

D. This article does not affect the validity of any existing rules adopted by the director that are equivalent to and consistent with the federal hazardous waste regulations until new rules for hazardous waste are adopted.

E. This article does not authorize the regulation of small quantity generators as defined by 40 Code Of Federal Regulations part 262 in a manner inconsistent with the federal hazardous waste regulations. However, the director may require reports of any small quantity generator or group of small quantity generators regarding the treatment, storage, transportation, disposal or management of hazardous waste if the hazardous waste of such generator or generators may pose a substantial present or potential hazard to human health or the environment when it is improperly treated, stored, transported, disposed or otherwise managed.

ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM
Title 9, Chapter 22, Article 16

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: March 13, 2025

SUBJECT: **ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM**
Title 9, Chapter 22, Article 16

Summary

This Five-Year Review Report (5YRR) from the Arizona Health Care Cost Containment System (AHCCCS) relates to one (1) rule in Title 9, Chapter 22, Article 16 regarding Hospital Presumptive Eligibility. The Hospital Presumptive Eligibility (HPE) process that allows qualified hospitals to temporarily enroll persons who meet specific federal criteria for full Medicaid benefits in AHCCCS immediately. Rule R9-22-1601 provides the eligibility bases for the hospital presumptive eligibility program.

In the prior 5YRR for this rule, which was approved by the Council in April 2020, AHCCCS indicates there was no proposed course of action.

Proposed Action

In the current report, AHCCCS does not propose to take any action regarding this rule.

1. Has the agency analyzed whether the rules are authorized by statute?

AHCCCS cites both general and specific statutory authority for this rule.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

AHCCCS states that when this rulemaking was enacted in 2015, AHCCCS was unable to calculate the cost to the State, businesses, or the public and in 2019, there was no utilization by any of the six hospitals registered in the program. The Agency indicates that all six hospitals allowed their system credential to lapse and were terminated from the program over four years ago. The Agency states, currently, AHCCCS has no hospitals registered in the HPE program.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

AHCCCS states that in 2015, the HPE program was enacted by AHCCCS pursuant to the Affordable Care Act (ACA). AHCCCS states, when the rulemaking for Article 16 was enacted, AHCCCS was unable to estimate any costs due to a knowledge gap regarding how many AHCCCS members might be found eligible through this new initiative. AHCCCS indicates that hospitals found the risk of bearing the cost of member's care for any patient found ineligible after the quality check completed by AHCCCS to outweigh the benefits of the program and have been encouraging patients to apply for benefits by more traditional means through the use of community assistors. The HPE program continues to be an option for hospitals to register as required under the ACA.

4. Has the agency received any written criticisms of the rules over the last five years?

AHCCCS indicates it has not received any written criticisms of the rule in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

AHCCCS indicates the rule is clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

AHCCCS indicates the rule is consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

AHCCCS indicates the rule is effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

AHCCCS indicates the rule is currently enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

AHCCCS indicates the rule is not more stringent than corresponding federal law, specifically, 42 U.S.C. § 1396a(a)(47)(B) and 42 C.F.R. § 435.1110.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

AHCCCS indicates the rule does not require the issuance of a regulatory permit, license, or agency authorization.

11. Conclusion

This 5YRR from the AHCCCS relates to one (1) rule in Title 9, Chapter 22, Article 16 regarding Hospital Presumptive Eligibility. AHCCCS indicates the rule is clear, concise, understandable, consistent, effective, and enforced as written. As such, AHCCCS does not propose to take any action regarding this rule.

Council staff recommends approval of this report.

RE: AHCCCS Title 9, Chapter 22, Article 16

Dear Ms. Klein,

Please find enclosed AHCCCS's Five-Year Review Report for Title 9, Chapter 22, Article 16 due on December 31, 2024.

AHCCCS hereby certifies compliance with A.R.S. 41-1091.

For questions about this report, please contact Sladjana Kuzmanovic at 602-417-4116 or sladjana.kuzmanovic@azahcccs.gov.

Sincerely,

Nicole Fries
Chief Deputy General Counsel

Arizona Health Care Cost Containment System (AHCCCS)

5 YEAR REVIEW REPORT

A.A.C. Title 9, Chapter 22, Article 16

December 2024

1. **Authorization of the rule by existing statutes**

General Statutory Authority: A.R.S. §§ 36-2903 and 36-2903.01

Specific Statutory Authority: A.R.S. § 36-2901

2. **The objective of each rule:**

Rule	Objective
R9-22-1601	This rule provides the eligibility bases for the hospital presumptive eligibility program.

3. **Are the rules effective in achieving their objectives?** **Yes _X__** **No ___**

4. **Are the rules consistent with other rules and statutes?** **Yes _X_** **No __**

5. **Are the rules enforced as written?** **Yes _X__** **No ___**

6. **Are the rules clear, concise, and understandable?** **Yes _X__** **No __**

7. **Has the agency received written criticisms of the rules within the last five years?** **Yes ___** **No _X_**

8. **Economic, small business, and consumer impact comparison:**

When the rulemaking was enacted in 2015, AHCCCS was unable to calculate the cost to the State, businesses, or the public and in 2019, there was no utilization by any of the six hospitals registered in the program. All six hospitals allowed their system credentials to lapse and were terminated from the program over four years ago. Currently, AHCCCS has no hospitals registers in the Hospital Presumptive Eligibility (HPE) program.

9. **Has the agency received any business competitiveness analyses of the rules?** **Yes ___** **No _X_**

10. **Has the agency completed the course of action indicated in the agency's previous five-year-review report?**

There were no proposed changes in the previous five-year-review report.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

In 2015, the Hospital Presumptive Eligibility program was enacted by AHCCCS pursuant to the Affordable Care Act. When the rulemaking for R9-22-Article 16 was enacted, AHCCCS was unable to estimate any costs due to a knowledge gap regarding how many AHCCCS members might be found eligible through this new initiative. Hospitals found the risk of bearing the cost of member's care for any patient found ineligible after the quality check completed by AHCCCS to outweigh

the benefits of the program and have been encouraging patients to apply for benefits by more traditional means through the use of community assistors. The HPE program continues to be an option for hospitals to register as required under the ACA.

12. Are the rules more stringent than corresponding federal laws? Yes ___ No _X_

It is not more stringent than 42 U.S.C. § 1396a(a)(47)(B); 42 C.F.R. § 435.1110.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

These rules do not require an issuance of a regulatory permit, license, or agency authorization, therefore, compliance with the general permit requirements of A.R.S. 41-1037 or explanation why the agency believes an exception applies is not applicable.

14. Proposed course of action:

There are no proposed changes.

b. Lost SSI cash benefits effective July 1, 1997, or later, due to a disability determination under Section 211(d) of Subtitle B of P.L. 104-193;
c. Continues to meet the disability requirements for a child that were in effect on August 21, 1996; and
d. Meets the requirements under this Article;

3. A disabled adult child (DAC), under 42 U.S.C. 1383c(c) who:
a. Was determined disabled by the Social Security Administration before attaining the age of 22 years,
b. Became entitled to or received an increase in child's insurance benefits under Title II of the Act on the basis of blindness or disability,
c. Was terminated from SSI cash benefits due to entitlement to or an increase in income under Title II of the Act,
d. Meets the requirements under this Article, and
e. Is 18 years of age or older;

4. A disabled widow or widower (DWW) under 42 U.S.C. 1383c(b) and (d) who:
a. Is blind or disabled,
b. Is ineligible for Medicare Part A benefits,
c. Received SSI cash benefits the month before Title II of the Act benefit payments began,
d. Meets the requirements under this Article;
e. Is at least 50 years of age but under age 65; and
f. Is unmarried.

5. Under 42 CFR 435.135, a person who:
a. Is aged, blind, or disabled;
b. Receives benefits under Title II of the Act;
c. Received SSI cash benefits in the past;
d. Received SSI cash benefits and Title II of the Social Security Act benefits concurrently for at least one month anytime after April 1977;
e. Became ineligible for SSI cash benefits while receiving SSI and benefits under Title II of the Act concurrently; and
f. Meets the requirements under this Article.

B. Income for special groups.
1. Except as provided in subsection (B)(2), income eligibility is determined using the income criteria in R9-22-1503.
2. Exceptions to income for special groups.
a. For a person in the DAC coverage group under subsection (A)(3), the applicant's Title II of the Social Security Act benefits are disregarded in determining income eligibility under 42 U.S.C. 1383c(c).
b. For a person in the DWW coverage group, under subsection (A)(4), the applicant's Title II of the Social Security Act benefits are disregarded in determining income eligibility under 42 U.S.C. 1383c(b) and (d).
c. For an applicant or member in the coverage group under subsection (A)(5), the portion of the applicant's or member's Title II of the Social Security Act benefits attributed to cost-of-living adjustments received by the applicant since the effective date of SSI ineligibility is disregarded in determining income eligibility under 42 CFR 435.135.

C. 100 percent FBR. As a condition of eligibility for all special groups, countable income shall be equal to or less than 100 percent of the SSI FBR, as adjusted annually.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Section repealed; new Section made by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3). Amended by final rulemaking at 11 A.A.R. 4942, effective December 31, 2005 (Supp. 05-4). Amended by final rulemaking at 20 A.A.R. 192, with an immediate effective date of January 7, 2014 (Supp. 14-1).

R9-22-1506. Repealed

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Section repealed by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3).

R9-22-1507. Repealed

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Section repealed by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3).

R9-22-1508. Repealed

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Section repealed by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3).

ARTICLE 16. HOSPITAL PRESUMPTIVE ELIGIBILITY

R9-22-1601. General Eligibility Requirements

A. Notwithstanding Article 3, a qualified hospital may determine Hospital Presumptive Eligibility (HPE), on the basis of preliminary information, that an individual is eligible for AHCCCS medical coverage during the presumptive eligibility period described in this section, if the individual is a United States citizen or eligible qualified alien, and the individual is:
1. Pregnant with gross household income that does not exceed 156% of the FPL;
2. An adult who meets the requirements of R9-22-1427(E);
3. A caretaker relative as defined in R9-22-1401(B) with gross household income that does not exceed 106% of the FPL;
4. Under age 19 with gross household income that does not exceed the limit set in R9-22-1427(D) for the child's age;
5. A woman screened for breast or cervical cancer by an Arizona program of the National Breast and Cervical Cancer Early Detection Program who meets the requirements of R9-22-2003(A); or
6. A former foster care child who meets the requirements of R9-22-1432.

B. Definitions. In addition to definitions contained in R9-22-101 and A.R.S. § 36-2901, the words and phrases in this Article have the following meanings unless the context explicitly requires another meaning: "Qualified hospital" means a hospital that has signed an agreement with the Administration to process HPE applications and has not been disqualified.

C. Application Process:
1. Right to apply. A person may apply for presumptive eligibility for AHCCCS medical coverage by submitting an Administration-approved application to the qualified hospital.

2. Application. To initiate the application process, the qualified hospital will accept an application from the applicant, an adult who is in the applicant's household, as defined in 42 CFR 435.603(f), or family, as defined in section 36B(d)(1) of the Internal Revenue Service (IRS) Code, an authorized representative, or if the applicant is a minor or incapacitated, someone acting responsibly for the applicant by submitting a written or online application under 42 CFR 435.907.

D. To establish presumptive eligibility, an applicant must complete and submit an AHCCCS-approved presumptive eligibility application signed under penalty of perjury to a qualified hospital. The applicant must attest to the name(s), relationship(s), and income of all persons in the household. In addition, the applicant must provide and attest to the following information regarding each household member on whose behalf AHCCCS medical coverage is sought:

1. The individual's date of birth;
2. Whether the individual is pregnant;
3. Whether the individual has been determined eligible for Breast and Cervical Cancer Treatment Program, described under Article 20;
4. Whether the individual is a former foster child, described under R9-22-1432;
5. The U.S. citizenship status or eligible qualified alien status under A.R.S. 36-2903.03 of the individual; and
6. The individual's permanent and mailing addresses;
7. The individual's Arizona residency status; and
8. Whether the individual has Medicare coverage.

E. Presumptive eligibility begins on the date the hospital determines an individual's presumptive eligibility and ends with the earlier of:

1. In the case of an individual on whose behalf an application has been submitted to AHCCCS or its designee under Article 3, the day on which AHCCCS or its designee makes a determination on that application; or
2. In the case of an individual on whose behalf an application has not been submitted to AHCCCS or its designee under Article 3, on the last day of the following month in which the determination of presumptive eligibility was made by the qualified hospital.

F. An individual may not be determined presumptively eligible more often than once every two years.

G. Coverage and reimbursement of services.

1. The Administration shall provide coverage of medically necessary services described under Article 2 to persons determined eligible for HPE on a fee-for-service basis.
2. Providers shall submit claims for services provided to persons determined eligible for HPE to the Administration as described under Article 7.

H. A member may withdraw from HPE coverage by notifying the Administration or its designee.

I. Upon determining an individual presumptively eligible, the qualified hospital shall:

1. Notify the applicant at the time a determination regarding presumptive eligibility is made, in writing and orally if appropriate, of the determination for each individual on whose behalf presumptive eligibility was requested and the effective date of the presumptive eligibility;
2. Provide the applicant with a regular AHCCCS-approved application form and inform the applicant that the applicant may file an application for Medicaid with the Administration or its designee;
3. Notify AHCCCS of the presumptive eligibility determination;
4. Notify the applicant at the time the determination is made that presumptive eligibility ends with the earlier of:
   a. In the case of an individual on whose behalf an application has been submitted to AHCCCS or its designee under Article 3, the day on which AHCCCS or its designee makes a determination on that application; or
   b. In the case of an individual on whose behalf an application has not been submitted to AHCCCS or its designee under Article 3, on the last day of the following month in which the determination of presumptive eligibility was made by the qualified hospital.

J. A determination by a qualified hospital that an individual is not presumptively eligible is not appealable under Chapter 34. If a qualified hospital denies an individual presumptive eligibility, the individual may apply for coverage by submitting an application to the Administration or its designee.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Section repealed by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3). New Section made by exempt rulemaking at 12 A.A.R. 3892, effective October 1, 2006 (Supp. 06-3). Section expired under A.R.S. § 41-1056(E) at 17 A.A.R. 2384, effective October 31, 2011 (Supp. 11-4). New Section made by final rulemaking at 20 A.A.R. 3436, effective January 1, 2015 (Supp. 14-4).

ARTICLE 17. ENROLLMENT

R9-22-1701. Enrollment-Related Definitions

In addition to definitions contained in A.R.S. § 36-2901, the words and phrases in this Chapter have the following meanings unless the context explicitly requires another meaning:

"Annual enrollment choice" means the annual opportunity for a person to change contractors.

"Auto-assignment algorithm" or "Algorithm" means a formula used by the Administration to assign to a contractor a member who did not make a timely choice under R9-22-1702.

"CMDP" means Comprehensive Medical and Dental Program.

"Disenrollment" means the discontinuance of a person's entitlement to receive covered services from a contractor of record.

"Enrollment" means the process by which an eligible person becomes a member of a contractor's plan.

Historical Note

New Section adopted by final rulemaking at 5 A.A.R. 294, effective January 8, 1999 (Supp. 99-1). Amended by final rulemaking at 6 A.A.R. 2435, effective June 9, 2000 (Supp. 00-2). Amended by exempt rulemaking at 7 A.A.R. 4593, effective October 1, 2001 (Supp. 01-3). Amended to correct a typographical error, filed in the Office of the Secretary of State October 30, 2001 (Supp. 01-4). Amended by exempt rulemaking at 7 A.A.R. 5701, effective December 1, 2001 (Supp. 01-4). Amended by exempt rulemaking at 10 A.A.R. 4588, effective October 12, 2004 (Supp. 04-4). Section repealed; new Section made by final rulemaking at 14 A.A.R. 1598, effective May 31, 2008 (Supp. 08-2).

R9-22-1702. Enrollment of a Member with an AHCCCS Contractor

A. General enrollment requirements. The Administration shall enroll a member with a contractor as described in this Section, unless the member has pre-selected a contractor on the application:

1. Except as provided in subsections (A)(3), (A)(5), and (C), a member who is determined to be eligible under this Chapter and resides in an area served by more than one contractor, may choose an available contractor serving the member's GSA within 30 days from the date of notice of enrollment. A Native American member may select IHS or another available contractor.
2. If the member does not make a choice under subsection (A)(1), the Administration shall immediately auto-assign the member to:
   a. IHS if the member is a Native American living on a reservation,
   b. A contractor based on family continuity, or
   c. A contractor by using the auto-assignment algorithm.
3. If the member's period of ineligibility and disenrollment from the contractor of record is for a period of less than 90 days, the Administration shall enroll the member with the member's most recent contractor of record, if available, except if:
   a. The member no longer resides in the contractor's GSA;
   b. The contractor's contract is suspended or terminated;
   c. The member was previously enrolled with CMDP but at the time of re-enrollment the member is not a foster care child;
   d. The member chooses another contractor or chooses IHS, if available to the member, during the annual enrollment choice period; or
   e. The member was previously enrolled with a contractor but at the time of re-enrollment the member is a foster care child.
4. When the member's disenrollment period is more than 90 days, the member may select a contractor as described in subsection (A)(1).
5. The Administration shall not enroll a member with a contractor if a member:
   a. Is eligible for the FESP under R9-22-1419;
   b. Is eligible for less than 30 days from the date the Administration receives notification of a member's eligibility, except for a member who is enrolled with CMDP or IHS;
   c. Is eligible only for a retroactive period of eligibility, except for a member who is enrolled with CMDP or IHS; or
   d. Resides in an area not served by a contractor.

B. Fee-for-service coverage. A member not enrolled with a contractor under subsection (A)(5) shall obtain covered medical services from an AHCCCS-registered provider on a fee-for-service basis under Article 7.

C. Foster care child. The Administration shall enroll a member with CMDP if the member is a foster care child under A.R.S. § 8-512.

D. Family Planning Services Extension Program. A member eligible for the Family Planning Services Extension Program under R9-22-1431, shall remain enrolled with the member's contractor of record or IHS.

E. Contractor or IHS enrollment change for a member.

1. The Administration shall change a member's enrollment if the member requests a change to an available contractor or IHS during an annual enrollment period. A Native American may change from an available contractor to IHS or from IHS to an available contractor at any time.
2. The Administration shall approve a change in enrollment for any member if the change is a result of the final outcome of a grievance under 9 A.A.C. 34.
3. A member may choose a different contractor if the member moves into a GSA not served by the current contractor or if the contractor is no longer available. If the member does not select a contractor, the Administration shall auto-assign the member as provided in subsection (A)(2).
4. The Administration shall provide the member 60-day advance notice of the member's option to change plans by the member's annual enrollment date.
5. A member may disenroll from a plan if:
   a. The member moves out of the GSA;
   b. The plan does not, because of moral or religious objections, cover the service a member seeks; or

36-2901. Definitions

In this article, unless the context otherwise requires:

1. "Administration" means the Arizona health care cost containment system administration.

2. "Administrator" means the administrator of the Arizona health care cost containment system.

3. "Contractor" means a person or entity that has a prepaid capitated contract with the administration pursuant to section 36-2904 or chapter 34 of this title to provide health care to members under this article or persons under chapter 34 of this title either directly or through subcontracts with providers.

4. "Department" means the department of economic security.

5. "Director" means the director of the Arizona health care cost containment system administration.

6. "Eligible person" means any person who is:

(a) Any of the following:

(i) Defined as mandatorily or optionally eligible pursuant to title XIX of the social security act as authorized by the state plan.

(ii) Defined in title XIX of the social security act as an eligible pregnant woman or a woman who is less than one year postpartum with a family income that does not exceed one hundred fifty percent of the federal poverty guidelines, as a child under the age of six years and whose family income does not exceed one hundred thirty-three percent of the federal poverty guidelines or as children who have not attained nineteen years of age and whose family income does not exceed one hundred thirty-three percent of the federal poverty guidelines.

(iii) Under twenty-six years of age and who was in the custody of the department of child safety pursuant to title 8, chapter 4 when the person became eighteen years of age.

(iv) Defined as eligible pursuant to section 36-2901.01.

(v) Defined as eligible pursuant to section 36-2901.04.

(vi) Defined as eligible pursuant to section 36-2901.07.

(b) A full-time officer or employee of this state or of a city, town or school district of this state or other person who is eligible for hospitalization and medical care under title 38, chapter 4, article 4.

(c) A full-time officer or employee of any county in this state or other persons authorized by the county to participate in county medical care and hospitalization programs if the county in which such officer or employee is employed has authorized participation in the system by resolution of the county board of supervisors.

(d) An employee of a business within this state.

(e) A dependent of an officer or employee who is participating in the system.

(f) Not enrolled in the Arizona long-term care system pursuant to article 2 of this chapter.

(g) Defined as eligible pursuant to section 1902(a)(10)(A)(ii)(XV) and (XVI) of title XIX of the social security act and who meets the income requirements of section 36-2929.

7. "Graduate medical education" means a program, including an approved fellowship, that prepares a physician for the independent practice of medicine by providing didactic and clinical education in a medical discipline to a

medical student who has completed a recognized undergraduate medical education program.

8. "Malice" means evil intent and outrageous, oppressive or intolerable conduct that creates a substantial risk of tremendous harm to others.

9. "Member" means an eligible person who enrolls in the system.

10. "Modified adjusted gross income" has the same meaning prescribed in 42 United States Code section 1396a(e)(14).

11. "Noncontracting provider" means a person who provides health care to members pursuant to this article but not pursuant to a subcontract with a contractor.

12. "Physician" means a person who is licensed pursuant to title 32, chapter 13 or 17.

13. "Prepaid capitated" means a mode of payment by which a health care contractor directly delivers health care services for the duration of a contract to a maximum specified number of members based on a fixed rate per member notwithstanding:

(a) The actual number of members who receive care from the contractor.

(b) The amount of health care services provided to any member.

14. "Primary care physician" means a physician who is a family practitioner, general practitioner, pediatrician, general internist, or obstetrician or gynecologist.

15. "Primary care practitioner" means a nurse practitioner or certified nurse midwife who is certified pursuant to title 32, chapter 15 or a physician assistant who is licensed pursuant to title 32, chapter 25. This paragraph does not expand the scope of practice for nurse practitioners or certified nurse midwives as defined pursuant to title 32, chapter 15 or for physician assistants as defined pursuant to title 32, chapter 25.

16. "Regional behavioral health authority" has the same meaning prescribed in section 36-3401.

17. "Section 1115 waiver" means the research and demonstration waiver granted by the United States department of health and human services.

18. "Special health care district" means a special health care district organized pursuant to title 48, chapter 31.

19. "State plan" has the same meaning prescribed in section 36-2931.

20. "System" means the Arizona health care cost containment system established by this article.

36-2903. Arizona health care cost containment system; administrator; powers and duties of director and administrator; exemption from attorney general representation; definition

A. The Arizona health care cost containment system is established consisting of contracts with contractors for the provision of hospitalization and medical care coverage to members. Except as specifically required by federal law and by section 36-2909, the system is only responsible for providing care on or after the date that the person has been determined eligible for the system, and is only responsible for reimbursing the cost of care rendered on or after the date that the person was determined eligible for the system.

B. An agreement may be entered into with an independent contractor, subject to title 41, chapter 23, to serve as the statewide administrator of the system. The administrator has full operational responsibility, subject to supervision by the director, for the system, which may include any or all of the following:

1. Development of county-by-county implementation and operation plans for the system that include reasonable access to hospitalization and medical care services for members.

2. Contract administration and oversight of contractors, including certification instead of licensure for title XVIII and title XIX purposes.

3. Provision of technical assistance services to contractors and potential contractors.

4. Development of a complete system of accounts and controls for the system including provisions designed to ensure that covered health and medical services provided through the system are not used unnecessarily or unreasonably including but not limited to inpatient behavioral health services provided in a hospital. Periodically the administrator shall compare the scope, utilization rates, utilization control methods and unit prices of major health and medical services provided in this state in comparison with other states' health care services to identify any unnecessary or unreasonable utilization within the system. The administrator shall periodically assess the cost effectiveness and health implications of alternate approaches to the provision of covered health and medical services through the system in order to reduce unnecessary or unreasonable utilization.

5. Establishment of peer review and utilization review functions for all contractors.

6. Assistance in the formation of medical care consortiums to provide covered health and medical services under the system for a county.

7. Development and management of a contractor payment system.

8. Establishment and management of a comprehensive system for assuring the quality of care delivered by the system.

9. Establishment and management of a system to prevent fraud by members, subcontracted providers of care, contractors and noncontracting providers.

10. Coordination of benefits provided under this article to any member. The administrator may require that contractors and noncontracting providers are responsible for the coordination of benefits for services provided under this article. Requirements for coordination of benefits by noncontracting providers under this section are limited to coordination with standard health insurance and disability insurance policies and similar programs for health coverage.

11. Development of a health education and information program.

12. Development and management of an enrollment system.

13. Establishment and maintenance of a claims resolution procedure to ensure that ninety per cent of the clean claims shall be paid within thirty days of receipt and ninety-nine per cent of the remaining clean claims shall be

paid within ninety days of receipt. For the purposes of this paragraph, "clean claims" has the same meaning prescribed in section 36-2904, subsection G.

14. Establishment of standards for the coordination of medical care and patient transfers pursuant to section 36-2909, subsection B.

15. Establishment of a system to implement medical child support requirements, as required by federal law. The administration may enter into an intergovernmental agreement with the department of economic security to implement this paragraph.

16. Establishment of an employee recognition fund.

17. Establishment of an eligibility process to determine whether a medicare low income subsidy is available to persons who want to apply for a subsidy as authorized by title XVIII.

C. If an agreement is not entered into with an independent contractor to serve as statewide administrator of the system pursuant to subsection B of this section, the director shall ensure that the operational responsibilities set forth in subsection B of this section are fulfilled by the administration and other contractors as necessary.

D. If the director determines that the administrator will fulfill some but not all of the responsibilities set forth in subsection B of this section, the director shall ensure that the remaining responsibilities are fulfilled by the administration and other contractors as necessary.

E. The administrator or any direct or indirect subsidiary of the administrator is not eligible to serve as a contractor.

F. Except for reinsurance obtained by contractors, the administrator shall coordinate benefits provided under this article to any eligible person who is covered by workers' compensation, disability insurance, a hospital and medical service corporation, a health care services organization, an accountable health plan or any other health or medical or disability insurance plan including coverage made available to persons defined as eligible by section 36-2901, paragraph 6, subdivisions (b), (c), (d) and (e), or who receives payments for accident-related injuries, so that any costs for hospitalization and medical care paid by the system are recovered from any other available third party payors. The administrator may require that contractors and noncontracting providers are responsible for the coordination of benefits for services provided under this article. Requirements for coordination of benefits by noncontracting providers under this section are limited to coordination with standard health insurance and disability insurance policies and similar programs for health coverage. The system shall act as payor of last resort for persons eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2974 or section 36-2981, paragraph 6 unless specifically prohibited by federal law. By operation of law, eligible persons assign to the system and a county rights to all types of medical benefits to which the person is entitled, including first party medical benefits under automobile insurance policies based on the order of priorities established pursuant to section 36-2915. The state has a right to subrogation against any other person or firm to enforce the assignment of medical benefits. The provisions of this subsection are controlling over the provisions of any insurance policy that provides benefits to an eligible person if the policy is inconsistent with the provisions of this subsection.

G. Notwithstanding subsection E of this section, the administrator may subcontract distinct administrative functions to one or more persons who may be contractors within the system.

H. The director shall require as a condition of a contract with any contractor that all records relating to contract compliance are available for inspection by the administrator and the director subject to subsection I of this section and that such records be maintained by the contractor for five years. The director shall also require that these records be made available by a contractor on request of the secretary of the United States department of health and human services, or its successor agency.

I. Subject to existing law relating to privilege and protection, the director shall prescribe by rule the types of information that are confidential and circumstances under which such information may be used or released, including requirements for physician-patient confidentiality. Notwithstanding any other provision of law, such rules shall be designed to provide for the exchange of necessary information among the counties, the administration and the department of economic security for the purposes of eligibility determination under this article. Notwithstanding any law to the contrary, a member's medical record shall be released without the member's consent in situations or suspected cases of fraud or abuse relating to the system to an officer of the state's certified Arizona health care cost containment system fraud control unit who has submitted a written request for the medical record.

J. The director shall prescribe rules that specify methods for:

1. The transition of members between system contractors and noncontracting providers.

2. The transfer of members and persons who have been determined eligible from hospitals that do not have contracts to care for such persons.

K. The director shall adopt rules that set forth procedures and standards for use by the system in requesting county long-term care for members or persons determined eligible.

L. To the extent that services are furnished pursuant to this article, and unless otherwise required pursuant to this chapter, a contractor is not subject to title 20.

M. As a condition of the contract with any contractor, the director shall require contract terms as necessary in the judgment of the director to ensure adequate performance and compliance with all applicable federal laws by the contractor of the provisions of each contract executed pursuant to this chapter. Contract provisions required by the director shall include at a minimum the maintenance of deposits, performance bonds, financial reserves or other financial security. The director may waive requirements for the posting of bonds or security for contractors that have posted other security, equal to or greater than that required by the system, with a state agency for the performance of health service contracts if funds would be available from such security for the system on default by the contractor. The director may also adopt rules for the withholding or forfeiture of payments to be made to a contractor by the system for the failure of the contractor to comply with a provision of the contractor's contract with the system or with the adopted rules. The director may also require contract terms allowing the administration to operate a contractor directly under circumstances specified in the contract. The administration shall operate the contractor only as long as it is necessary to assure delivery of uninterrupted care to members enrolled with the contractor and accomplish the orderly transition of those members to other system contractors, or until the contractor reorganizes or otherwise corrects the contract performance failure. The administration shall not operate a contractor unless, before that action, the administration delivers notice to the contractor and provides an opportunity for a hearing in accordance with procedures established by the director. Notwithstanding the provisions of a contract, if the administration finds that the public health, safety or welfare requires emergency action, it may operate as the contractor on notice to the contractor and pending an administrative hearing, which it shall promptly institute.

N. The administration for the sole purpose of matters concerning and directly related to the Arizona health care cost containment system and the Arizona long-term care system is exempt from section 41-192.

O. Notwithstanding subsection F of this section, if the administration determines that according to federal guidelines it is more cost-effective for a person defined as eligible under section 36-2901, paragraph 6, subdivision (a) to be enrolled in a group health insurance plan in which the person is entitled to be enrolled, the administration may pay all of that person's premiums, deductibles, coinsurance and other cost sharing obligations for services covered under section 36-2907. The person shall apply for enrollment in the group health insurance plan as a condition of eligibility under section 36-2901, paragraph 6, subdivision (a).

P. The total amount of state monies that may be spent in any fiscal year by the administration for health care shall not exceed the amount appropriated or authorized by section 35-173 for all health care purposes. This

article does not impose a duty on an officer, agent or employee of this state to discharge a responsibility or to create any right in a person or group if the discharge or right would require an expenditure of state monies in excess of the expenditure authorized by legislative appropriation for that specific purpose.

Q. Notwithstanding section 36-470, a contractor or program contractor may receive laboratory tests from a laboratory or hospital-based laboratory for a system member enrolled with the contractor or program contractor subject to all of the following requirements:

1. The contractor or program contractor shall provide a written request to the laboratory in a format mutually agreed to by the laboratory and the requesting health plan or program contractor. The request shall include the member's name, the member's plan identification number, the specific test results that are being requested and the time periods and the quality improvement activity that prompted the request.

2. The laboratory data may be provided in written or electronic format based on the agreement between the laboratory and the contractor or program contractor. If there is no contract between the laboratory and the contractor or program contractor, the laboratory shall provide the requested data in a format agreed to by the noncontracted laboratory.

3. The laboratory test results provided to the member's contractor or program contractor shall only be used for quality improvement activities authorized by the administration and health care outcome studies required by the administration. The contractors and program contractors shall maintain strict confidentiality about the test results and identity of the member as specified in contractual arrangements with the administration and pursuant to state and federal law.

4. The administration, after collaboration with the department of health services regarding quality improvement activities, may prohibit the contractors and program contractors from receiving certain test results if the administration determines that a serious potential exists that the results may be used for purposes other than those intended for the quality improvement activities. The department of health services shall consult with the clinical laboratory licensure advisory committee established by section 36-465 before providing recommendations to the administration on certain test results and quality improvement activities.

5. The administration shall provide contracted laboratories and the department of health services with an annual report listing the quality improvement activities that will require laboratory data. The report shall be updated and distributed to the contracting laboratories and the department of health services when laboratory data is needed for new quality improvement activities.

6. A laboratory that complies with a request from the contractor or program contractor for laboratory results pursuant to this section is not subject to civil liability for providing the data to the contractor or program contractor. The administration, the contractor or a program contractor that uses data for reasons other than quality improvement activities is subject to civil liability for this improper use.

R. For the purposes of this section, "quality improvement activities" means those requirements, including health care outcome studies specified in federal law or required by the centers for medicare and medicaid services or the administration, to improve health care outcomes.

36-2903.01. Additional powers and duties; report; definition

A. The director of the Arizona health care cost containment system administration may adopt rules that provide that the system may withhold or forfeit payments to be made to a noncontracting provider by the system if the noncontracting provider fails to comply with this article, the provider agreement or rules that are adopted pursuant to this article and that relate to the specific services rendered for which a claim for payment is made.

B. The director shall:

1. Prescribe uniform forms to be used by all contractors. The rules shall require a written and signed application by the applicant or an applicant's authorized representative, or, if the person is incompetent or incapacitated, a family member or a person acting responsibly for the applicant may obtain a signature or a reasonable facsimile and file the application as prescribed by the administration.

2. Enter into an interagency agreement with the department to establish a streamlined eligibility process to determine the eligibility of all persons defined pursuant to section 36-2901, paragraph 6, subdivision (a). At the administration's option, the interagency agreement may allow the administration to determine the eligibility of certain persons, including those defined pursuant to section 36-2901, paragraph 6, subdivision (a).

3. Enter into an intergovernmental agreement with the department to:

(a) Establish an expedited eligibility and enrollment process for all persons who are hospitalized at the time of application.

(b) Establish performance measures and incentives for the department.

(c) Establish the process for management evaluation reviews that the administration shall perform to evaluate the eligibility determination functions performed by the department.

(d) Establish eligibility quality control reviews by the administration.

(e) Require the department to adopt rules, consistent with the rules adopted by the administration for a hearing process, that applicants or members may use for appeals of eligibility determinations or redeterminations.

(f) Establish the department's responsibility to place sufficient eligibility workers at federally qualified health centers to screen for eligibility and at hospital sites and level one trauma centers to ensure that persons seeking hospital services are screened on a timely basis for eligibility for the system, including a process to ensure that applications for the system can be accepted on a twenty-four hour basis, seven days a week.

(g) Withhold payments based on the allowable sanctions for errors in eligibility determinations or redeterminations or failure to meet performance measures required by the intergovernmental agreement.

(h) Recoup from the department all federal fiscal sanctions that result from the department's inaccurate eligibility determinations. The director may offset all or part of a sanction if the department submits a corrective action plan and a strategy to remedy the error.

4. By rule establish a procedure and time frames for the intake of grievances and requests for hearings, for the continuation of benefits and services during the appeal process and for a grievance process at the contractor level. Notwithstanding sections 41-1092.02, 41-1092.03 and 41-1092.05, the administration shall develop rules to establish the procedure and time frame for the informal resolution of grievances and appeals. A grievance that is not related to a claim for payment of system covered services shall be filed in writing with and received by the administration or the prepaid capitated provider or program contractor not later than sixty days after the date of the adverse action, decision or policy implementation being grieved. A grievance that is related to a claim for payment of system covered services must be filed in writing and received by the administration or the prepaid capitated provider or program contractor within twelve months after the date of service, within twelve months

after the date that eligibility is posted or within sixty days after the date of the denial of a timely claim submission, whichever is later. A grievance for the denial of a claim for reimbursement of services may contest the validity of any adverse action, decision, policy implementation or rule that related to or resulted in the full or partial denial of the claim. A policy implementation may be subject to a grievance procedure, but it may not be appealed for a hearing. The administration is not required to participate in a mandatory settlement conference if it is not a real party in interest. In any proceeding before the administration, including a grievance or hearing, persons may represent themselves or be represented by a duly authorized agent who is not charging a fee. A legal entity may be represented by an officer, partner or employee who is specifically authorized by the legal entity to represent it in the particular proceeding.

5. Apply for and accept federal funds available under title XIX of the social security act (P.L. 89-97; 79 Stat. 344; 42 United States Code section 1396 (1980)) in support of the system. The application made by the director pursuant to this paragraph shall be designed to qualify for federal funding primarily on a prepaid capitated basis. Such funds may be used only for the support of persons defined as eligible pursuant to title XIX of the social security act or the approved section 1115 waiver.

6. At least thirty days before the implementation of a policy or a change to an existing policy relating to reimbursement, provide notice to interested parties. Parties interested in receiving notification of policy changes shall submit a written request for notification to the administration.

7. In addition to the cost sharing requirements specified in subsection D, paragraph 4 of this section:

(a) Charge monthly premiums up to the maximum amount allowed by federal law to all populations of eligible persons who may be charged.

(b) Implement this paragraph to the extent permitted under the federal deficit reduction act of 2005 and other federal laws, subject to the approval of federal waiver authority and to the extent that any changes in the cost sharing requirements under this paragraph would permit this state to receive any enhanced federal matching rate.

C. The director is authorized to apply for any federal funds available for the support of programs to investigate and prosecute violations arising from the administration and operation of the system. Available state funds appropriated for the administration and operation of the system may be used as matching funds to secure federal funds pursuant to this subsection.

D. The director may adopt rules or procedures to do the following:

1. Authorize advance payments based on estimated liability to a contractor or a noncontracting provider after the contractor or noncontracting provider has submitted a claim for services and before the claim is ultimately resolved. The rules shall specify that any advance payment shall be conditioned on the execution before payment of a contract with the contractor or noncontracting provider that requires the administration to retain a specified percentage, which shall be at least twenty percent, of the claimed amount as security and that requires repayment to the administration if the administration makes any overpayment.

2. Defer liability, in whole or in part, of contractors for care provided to members who are hospitalized on the date of enrollment or under other circumstances. Payment shall be on a capped fee-for-service basis for services other than hospital services and at the rate established pursuant to subsection G of this section for hospital services or at the rate paid by the health plan, whichever is less.

3. Deputize, in writing, any qualified officer or employee in the administration to perform any act that the director by law is empowered to do or charged with the responsibility of doing, including the authority to issue final administrative decisions pursuant to section 41-1092.08.

4. Notwithstanding any other law, require persons eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 to be financially responsible for any cost sharing requirements established in a state plan or a section 1115 waiver and approved by the centers for medicare and

medicaid services. Cost sharing requirements may include copayments, coinsurance, deductibles, enrollment fees and monthly premiums for enrolled members, including households with children enrolled in the Arizona long-term care system.

E. The director shall adopt rules that further specify the medical care and hospital services that are covered by the system pursuant to section 36-2907.

F. In addition to the rules otherwise specified in this article, the director may adopt necessary rules pursuant to title 41, chapter 6 to carry out this article. Rules adopted by the director pursuant to this subsection shall consider the differences between rural and urban conditions on the delivery of hospitalization and medical care.

G. For inpatient hospital admissions and outpatient hospital services on and after March 1, 1993, the administration shall adopt rules for the reimbursement of hospitals according to the following procedures:

1. For inpatient hospital stays from March 1, 1993 through September 30, 2014, the administration shall use a prospective tiered per diem methodology, using hospital peer groups if analysis shows that cost differences can be attributed to independently definable features that hospitals within a peer group share. In peer grouping the administration may consider such factors as length of stay differences and labor market variations. If there are no cost differences, the administration shall implement a stop loss-stop gain or similar mechanism. Any stop loss-stop gain or similar mechanism shall ensure that the tiered per diem rates assigned to a hospital do not represent less than ninety percent of its 1990 base year costs or more than one hundred ten percent of its 1990 base year costs, adjusted by an audit factor, during the period of March 1, 1993 through September 30, 1994. The tiered per diem rates set for hospitals shall represent no less than eighty-seven and one-half percent or more than one hundred twelve and one-half percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1994 through September 30, 1995 and no less than eighty-five percent or more than one hundred fifteen percent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1995 through September 30, 1996. For the periods after September 30, 1996 no stop loss-stop gain or similar mechanisms shall be in effect. An adjustment in the stop loss-stop gain percentage may be made to ensure that total payments do not increase as a result of this provision. If peer groups are used, the administration shall establish initial peer group designations for each hospital before implementation of the per diem system. The administration may also use a negotiated rate methodology. The tiered per diem methodology may include separate consideration for specialty hospitals that limit their provision of services to specific patient populations, such as rehabilitative patients or children. The initial per diem rates shall be based on hospital claims and encounter data for dates of service November 1, 1990 through October 31, 1991 and processed through May of 1992. The administration may also establish a separate reimbursement methodology for claims with extraordinarily high costs per day that exceed thresholds established by the administration.

2. For rates effective on October 1, 1994, and annually through September 30, 2011, the administration shall adjust tiered per diem payments for inpatient hospital care by the data resources incorporated market basket index for prospective payment system hospitals. For rates effective beginning on October 1, 1999, the administration shall adjust payments to reflect changes in length of stay for the maternity and nursery tiers.

3. Through June 30, 2004, for outpatient hospital services, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to the covered charges. Beginning on July 1, 2004 through June 30, 2005, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to covered charges. If the hospital increases its charges for outpatient services filed with the Arizona department of health services pursuant to chapter 4, article 3 of this title, by more than 4.7 percent for dates of service effective on or after July 1, 2004, the hospital specific cost-to-charge ratio will be reduced by the amount that it exceeds 4.7 percent. If charges exceed 4.7 percent, the effective date of the increased charges will be the effective date of the adjusted Arizona health care cost containment system cost-to-charge ratio. The administration shall develop the methodology for a capped fee-for-service schedule and a statewide cost-to-charge ratio. Any covered outpatient service not included in the capped fee-for-service schedule shall be reimbursed by applying the statewide cost-to-charge ratio that is based on the services not included in the capped fee-for-service schedule. Beginning on July 1, 2005, the administration shall reimburse clean claims with dates of service on or after July 1, 2005, based on the capped fee-for-service schedule or the statewide cost-to-charge

ratio established pursuant to this paragraph. The administration may make additional adjustments to the outpatient hospital rates established pursuant to this section based on other factors, including the number of beds in the hospital, specialty services available to patients and the geographic location of the hospital.

4. Except if submitted under an electronic claims submission system, a hospital bill is considered received for purposes of this paragraph on initial receipt of the legible, error-free claim form by the administration if the claim includes the following error-free documentation in legible form:

(a) An admission face sheet.

(b) An itemized statement.

(c) An admission history and physical.

(d) A discharge summary or an interim summary if the claim is split.

(e) An emergency record, if admission was through the emergency room.

(f) Operative reports, if applicable.

(g) A labor and delivery room report, if applicable.

Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I is considered payment by the administration or the contractor of the administration's or contractor's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third-party payors or in situations covered by title 33, chapter 7, article 3.

5. For services rendered on and after October 1, 1997, the administration shall pay a hospital's rate established according to this section subject to the following:

(a) If the hospital's bill is paid within thirty days of the date the bill was received, the administration shall pay ninety-nine percent of the rate.

(b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate.

(c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the administration shall pay one hundred percent of the rate plus a fee of one percent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. In developing the reimbursement methodology, if a review of the reports filed by a hospital pursuant to section 36-125.04 indicates that further investigation is considered necessary to verify the accuracy of the information in the reports, the administration may examine the hospital's records and accounts related to the reporting requirements of section 36-125.04. The administration shall bear the cost incurred in connection with this examination unless the administration finds that the records examined are significantly deficient or incorrect, in which case the administration may charge the cost of the investigation to the hospital examined.

7. Except for privileged medical information, the administration shall make available for public inspection the cost and charge data and the calculations used by the administration to determine payments under the tiered per diem system, provided that individual hospitals are not identified by name. The administration shall make the data and calculations available for public inspection during regular business hours and shall provide copies of the data and calculations to individuals requesting such copies within thirty days of receipt of a written request. The administration may charge a reasonable fee for the provision of the data or information.

8. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the prospective payment of inpatient hospital capital related costs. The capital payment shall

include hospital specific and statewide average amounts. For tiered per diem rates beginning on October 1, 1999, the capital related cost component is frozen at the blended rate of forty percent of the hospital specific capital cost and sixty percent of the statewide average capital cost in effect as of January 1, 1999 and as further adjusted by the calculation of tier rates for maternity and nursery as prescribed by law. Through September 30, 2011, the administration shall adjust the capital related cost component by the data resources incorporated market basket index for prospective payment system hospitals.

9. For graduate medical education programs:

(a) Beginning September 30, 1997, the administration shall establish a separate graduate medical education program to reimburse hospitals that had graduate medical education programs that were approved by the administration as of October 1, 1999. The administration shall separately account for monies for the graduate medical education program based on the total reimbursement for graduate medical education reimbursed to hospitals by the system in federal fiscal year 1995-1996 pursuant to the tiered per diem methodology specified in this section. The graduate medical education program reimbursement shall be adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Subject to legislative appropriation, on an annual basis, each qualified hospital shall receive a single payment from the graduate medical education program that is equal to the same percentage of graduate medical education reimbursement that was paid by the system in federal fiscal year 1995-1996. Any reimbursement for graduate medical education made by the administration shall not be subject to future settlements or appeals by the hospitals to the administration. The monies available under this subdivision shall not exceed the fiscal year 2005-2006 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement, except for monies distributed for expansions pursuant to subdivision (b) of this paragraph.

(b) The monies available for graduate medical education programs pursuant to this subdivision shall not exceed the fiscal year 2006-2007 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Graduate medical education programs eligible for such reimbursement are not precluded from receiving reimbursement for funding under subdivision (c) of this paragraph. Beginning July 1, 2006, the administration shall distribute any monies appropriated for graduate medical education above the amount prescribed in subdivision (a) of this paragraph in the following order or priority:

(i) For the direct costs to support the expansion of graduate medical education programs established before July 1, 2006 at hospitals that do not receive payments pursuant to subdivision (a) of this paragraph. These programs must be approved by the administration.

(ii) For the direct costs to support the expansion of graduate medical education programs established on or before October 1, 1999. These programs must be approved by the administration.

(c) The administration shall distribute to hospitals any monies appropriated for graduate medical education above the amount prescribed in subdivisions (a) and (b) of this paragraph for the following purposes:

(i) For the direct costs of graduate medical education programs established or expanded on or after July 1, 2006. These programs must be approved by the administration.

(ii) For a portion of additional indirect graduate medical education costs for programs that are located in a county with a population of less than five hundred thousand persons at the time the residency position was created or for a residency position that includes a rotation in a county with a population of less than five hundred thousand persons at the time the residency position was established. These programs must be approved by the administration.

(d) The administration shall develop, by rule, the formula by which the monies are distributed.

(e) Each graduate medical education program that receives funding pursuant to subdivision (b) or (c) of this paragraph shall identify and report to the administration the number of new residency positions created by the funding provided in this paragraph, including positions in rural areas. The program shall also report information related to the number of funded residency positions that resulted in physicians locating their practices in this state. The administration shall report to the joint legislative budget committee by February 1 of each year on the number of new residency positions as reported by the graduate medical education programs.

(f) Local, county and tribal governments and any university under the jurisdiction of the Arizona board of regents may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies for providers, programs or positions in a specific locality and costs incurred pursuant to a specific contract between the administration and providers or other entities to provide graduate medical education services as an administrative activity. Payments by the administration pursuant to this subdivision may be limited to those providers designated by the funding entity and may be based on any methodology deemed appropriate by the administration, including replacing any payments that might otherwise have been paid pursuant to subdivision (a), (b) or (c) of this paragraph had sufficient state general fund monies or other monies been appropriated to fully fund those payments. These programs, positions, payment methodologies and administrative graduate medical education services must be approved by the administration and the centers for medicare and medicaid services. The administration shall report to the president of the senate, the speaker of the house of representatives and the director of the joint legislative budget committee on or before July 1 of each year on the amount of money contributed and number of residency positions funded by local, county and tribal governments, including the amount of federal matching monies used.

(g) Any funds appropriated but not allocated by the administration for subdivision (b) or (c) of this paragraph may be reallocated if funding for either subdivision is insufficient to cover appropriate graduate medical education costs.

10. Notwithstanding section 41-1005, subsection A, paragraph 9, the administration shall adopt rules pursuant to title 41, chapter 6 establishing the methodology for determining the prospective tiered per diem payments that are in effect through September 30, 2014.

11. For inpatient hospital services rendered on or after October 1, 2011, the prospective tiered per diem payment rates are permanently reset to the amounts payable for those services as of October 1, 2011 pursuant to this subsection.

12. The administration shall adopt a diagnosis-related group based hospital reimbursement methodology consistent with title XIX of the social security act for inpatient dates of service on and after October 1, 2014. The administration may make additional adjustments to the inpatient hospital rates established pursuant to this section for hospitals that are publicly operated or based on other factors, including the number of beds in the hospital, the specialty services available to patients, the geographic location and diagnosis-related group codes that are made publicly available by the hospital pursuant to section 36-437. The administration may also provide additional reimbursement for extraordinarily high cost cases that exceed a threshold above the standard payment. The administration may also establish a separate payment methodology for specific services or hospitals serving unique populations.

H. The director may adopt rules that specify enrollment procedures, including notice to contractors of enrollment. The rules may provide for varying time limits for enrollment in different situations. The administration shall specify in contract when a person who has been determined eligible will be enrolled with that contractor and the date on which the contractor will be financially responsible for health and medical services to the person.

I. The administration may make direct payments to hospitals for hospitalization and medical care provided to a member in accordance with this article and rules. The director may adopt rules to establish the procedures by which the administration shall pay hospitals pursuant to this subsection if a contractor fails to make timely payment to a hospital. Such payment shall be at a level determined pursuant to section 36-2904, subsection H

or I. The director may withhold payment due to a contractor in the amount of any payment made directly to a hospital by the administration on behalf of a contractor pursuant to this subsection.

J. The director shall establish a special unit within the administration for the purpose of monitoring the third-party payment collections required by contractors and noncontracting providers pursuant to section 36-2903, subsection B, paragraph 10 and subsection F and section 36-2915, subsection E. The director shall determine by rule:

1. The type of third-party payments to be monitored pursuant to this subsection.

2. The percentage of third-party payments that is collected by a contractor or noncontracting provider and that the contractor or noncontracting provider may keep and the percentage of such payments that the contractor or noncontracting provider may be required to pay to the administration. Contractors and noncontracting providers must pay to the administration one hundred percent of all third-party payments that are collected and that duplicate administration fee-for-service payments. A contractor that contracts with the administration pursuant to section 36-2904, subsection A may be entitled to retain a percentage of third-party payments if the payments collected and retained by a contractor are reflected in reduced capitation rates. A contractor may be required to pay the administration a percentage of third-party payments that are collected by a contractor and that are not reflected in reduced capitation rates.

K. The administration shall establish procedures to apply to the following if a provider that has a contract with a contractor or noncontracting provider seeks to collect from an individual or financially responsible relative or representative a claim that exceeds the amount that is reimbursed or should be reimbursed by the system:

1. On written notice from the administration or oral or written notice from a member that a claim for covered services may be in violation of this section, the provider that has a contract with a contractor or noncontracting provider shall investigate the inquiry and verify whether the person was eligible for services at the time that covered services were provided. If the claim was paid or should have been paid by the system, the provider that has a contract with a contractor or noncontracting provider shall not continue billing the member.

2. If the claim was paid or should have been paid by the system and the disputed claim has been referred for collection to a collection agency or referred to a credit reporting bureau, the provider that has a contract with a contractor or noncontracting provider shall:

(a) Notify the collection agency and request that all attempts to collect this specific charge be terminated immediately.

(b) Advise all credit reporting bureaus that the reported delinquency was in error and request that the affected credit report be corrected to remove any notation about this specific delinquency.

(c) Notify the administration and the member that the request for payment was in error and that the collection agency and credit reporting bureaus have been notified.

3. If the administration determines that a provider that has a contract with a contractor or noncontracting provider has billed a member for charges that were paid or should have been paid by the administration, the administration shall send written notification by certified mail or other service with proof of delivery to the provider that has a contract with a contractor or noncontracting provider stating that this billing is in violation of federal and state law. If, twenty-one days or more after receiving the notification, a provider that has a contract with a contractor or noncontracting provider knowingly continues billing a member for charges that were paid or should have been paid by the system, the administration may assess a civil penalty in an amount equal to three times the amount of the billing and reduce payment to the provider that has a contract with a contractor or noncontracting provider accordingly. Receipt of delivery signed by the addressee or the addressee's employee is prima facie evidence of knowledge. Civil penalties collected pursuant to this subsection shall be deposited in the state general fund. Section 36-2918, subsections C, D and F, relating to the imposition, collection and enforcement of civil penalties, apply to civil penalties imposed pursuant to this paragraph.

L. The administration may conduct postpayment review of all claims paid by the administration and may recoup any monies erroneously paid. The director may adopt rules that specify procedures for conducting postpayment review. A contractor may conduct a postpayment review of all claims paid by the contractor and may recoup monies that are erroneously paid.

M. Subject to title 41, chapter 4, article 4, the director or the director's designee may employ and supervise personnel necessary to assist the director in performing the functions of the administration.

N. The administration may contract with contractors for obstetrical care who are eligible to provide services under title XIX of the social security act.

O. Notwithstanding any other law, on federal approval the administration may make disproportionate share payments to private hospitals, county operated hospitals, including hospitals owned or leased by a special health care district, and state operated institutions for mental disease beginning October 1, 1991 in accordance with federal law and subject to legislative appropriation. If at any time the administration receives written notification from federal authorities of any change or difference in the actual or estimated amount of federal funds available for disproportionate share payments from the amount reflected in the legislative appropriation for such purposes, the administration shall provide written notification of such change or difference to the president and the minority leader of the senate, the speaker and the minority leader of the house of representatives, the director of the joint legislative budget committee, the legislative committee of reference and any hospital trade association within this state, within three working days not including weekends after receipt of the notice of the change or difference. In calculating disproportionate share payments as prescribed in this section, the administration may use either a methodology based on claims and encounter data that is submitted to the administration from contractors or a methodology based on data that is reported to the administration by private hospitals and state operated institutions for mental disease. The selected methodology applies to all private hospitals and state operated institutions for mental disease qualifying for disproportionate share payments.

P. Disproportionate share payments made pursuant to subsection O of this section include amounts for disproportionate share hospitals designated by political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents. Subject to the approval of the centers for medicare and medicaid services, any amount of federal funding allotted to this state pursuant to section 1923(f) of the social security act and not otherwise spent under subsection O of this section shall be made available for distribution pursuant to this subsection. Political subdivisions of this state, tribal governments and universities under the jurisdiction of the Arizona board of regents may designate hospitals eligible to receive disproportionate share payments in an amount up to the limit prescribed in section 1923(g) of the social security act if those political subdivisions, tribal governments or universities provide sufficient monies to qualify for the matching federal monies for the disproportionate share payments.

Q. Notwithstanding any law to the contrary, the administration may receive confidential adoption information to determine whether an adopted child should be terminated from the system.

R. The adoption agency or the adoption attorney shall notify the administration within thirty days after an eligible person receiving services has placed that person's child for adoption.

S. If the administration implements an electronic claims submission system, it may adopt procedures pursuant to subsection G of this section requiring documentation different than prescribed under subsection G, paragraph 4 of this section.

T. In addition to any requirements adopted pursuant to subsection D, paragraph 4 of this section, notwithstanding any other law, subject to approval by the centers for medicare and medicaid services, beginning July 1, 2011, members eligible pursuant to section 36-2901, paragraph 6, subdivision (a), section 36-2931 and section 36-2981, paragraph 6 shall pay the following:

1. A monthly premium of fifteen dollars, except that the total monthly premium for an entire household shall not exceed sixty dollars.

2. A copayment of five dollars for each physician office visit.

3. A copayment of ten dollars for each urgent care visit.

4. A copayment of thirty dollars for each emergency department visit.

U. Subject to the approval of the centers for medicare and medicaid services, political subdivisions of this state, tribal governments and any university under the jurisdiction of the Arizona board of regents may provide to the Arizona health care cost containment system administration monies in addition to any state general fund monies appropriated for critical access hospitals in order to qualify for additional federal monies. Any amount of federal monies received by this state pursuant to this subsection shall be distributed as supplemental payments to critical access hospitals.

V. For the purposes of this section, "disproportionate share payment" means a payment to a hospital that serves a disproportionate share of low-income patients as described by 42 United States Code section 1396r-4.

E-4.

INDUSTRIAL COMMISSION OF ARIZONA
Title 20, Chapter 5, Articles 8 & 10

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **INDUSTRIAL COMMISSION OF ARIZONA**
Title 20, Chapter 5, Articles 8 & 10

Summary

This Five-Year Review Report (5YRR) from the Industrial Commission of Arizona (Commission) relates to twenty-seven (27) rules in Title 20, Chapter 5, Article 8 regarding Occupational Safety and Health Rules of Procedure and nine (9) rules in Title 20, Chapter 5, Article 10 regarding Wage Claims.

In the previous 5YRR for Article 8, which was approved by the Council in August 2020, the Commission proposed to amend rules to clarify and update their language. The Commission indicates it completed the proposed course of action, amending rules by rulemaking which was completed in 2024.

In the previous 5YRR for Article 10, which was also approved by the Council in August 2020, the Commission proposed to amend rules to improve their clarity, conciseness, understandability, consistency and enforcement. The Commission indicates it completed the proposed course of action, amending rules by rulemaking which was completed in 2021.

Proposed Action

In the current report, the Commission proposes to amend three (3) rules in Article 10 that are not clear, concise, and understandable as outlined in more detail below. The Commission intends to submit a rulemaking to the Council to address these issues by December 2026.

1. Has the agency analyzed whether the rules are authorized by statute?

The Commission cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Commission states that the 2024 rulemaking for Article 8 did not have an adverse economic impact on either small businesses or consumers. Further, the Commission states the rulemaking was intended to reduce regulatory burden by clarifying, modernizing and eliminating antiquated language in the prior rules to allow for the affected stakeholders to have a clearer understanding of what is required. The Commission believes the current rules' impact on consumers and businesses was as anticipated by the 2024 rulemaking. Employers, as defined in A.R.S. § 23-401, are covered by the rules within Article 8 and will be directly affected by the proposed rulemaking.

The Commission states that the most recent Economic Impact Statement related to Article 10 was in 2021. The Commission does not believe that the current estimated economic, small business, and consumer impact of the rules is substantially different from that set out in the 2021 Economic Impact Statement. The Commission states the economic impact of the rules has been consistent with the economic impact predicted in the 2021 Economic Impact Statement. The Department states the amendment primarily benefits all persons and businesses that have a wage claim under Title 20, Chapter 5, Article 10 and the Labor Department Investigators.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Commission believes the probable benefits of the rules in both Article 8 and Article 10 outweigh the probable costs. The Commission states that in addition, it believes that the rules impose the least burden and costs on the regulated community.

4. Has the agency received any written criticisms of the rules over the last five years?

The Commission indicates it has not received any written criticisms of the rule in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Commission indicates the rules in Articles 8 and 10 are mostly clear, concise, and understandable except for the following rules in Article 10:

- **R20-5-1002**
  - Simplify the language in this section to include nonwage compensation.
- **R20-5-1003(F)**
  - Delete redundant language and processes to simplify the handling of incomplete wage claims and reduce administrative burden.
- **R20-5-1004**
  - (A) Extend Employer response time from 14 to 21 days.
  - (B) Delete section to streamline the rule, as remedies are addressed in Section D.
  - (C) Extend the Claimant's reply time from 14 to 21 days

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Commission indicates the rules are consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Commission indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Commission indicates the rules are currently enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Commission indicates the rules in Article 8 implement the procedures for occupational safety and health hearings and are not more stringent than corresponding federal law. The Commission indicates the rules in Article 10 implement state law and there is no corresponding federal law.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Commission indicates there have been no rules adopted in either Article 8 or 10 after July 29, 2010, which require the issuance of a regulatory permit, license, or agency authorization.

11. Conclusion

This 5YRR from the Commission relates to twenty-seven (27) rules in Title 20, Chapter 5, Article 8 regarding Occupational Safety and Health Rules of Procedure and nine (9) rules in Title 20, Chapter 5, Article 10 regarding Wage Claims. The Commission proposes to amend three rules in Article 10 to improve their clarity, conciseness, and understandability. The Commission anticipates submitting a rulemaking to the Council to address these issues by December 2026.

Council staff recommends approval of this report.

RE: A.A.C. Title 20, Chapter 5, Article 8, Five-year Review Report

Dear Ms. Klein:

The Industrial Commission of Arizona ("Commission"), through its Director, submits for approval by the Governor's Regulatory Review Council ("Council") the attached Five-year Review Report on 20 A.A.C. 5, Article 8. The Commission has timely filed this report on or before Friday, January 31, 2025.

An electronic copy of this cover letter, the report, general and specific statutes, rules reviewed, and most recent economic impact statement are concurrently submitted by email to Simon Larscheidt. The Commission believes that the report complies with the requirements of A.R.S. § 41-1056.

The Commission has reviewed all rules in Article 8 and has complied with A.R.S. § 41-1091, which requires the Commission to annually publish a directory summarizing the subject matter of all currently applicable rules and substantive policy statements, by posting directories of its current rules and substantive policy statements on the Commission's website, as required by A.R.S. § 41-1091.01(1) & (2). Should you have any questions concerning the report, please contact Chief Counsel Afshan Peimani at (602) 542-5905 or Staff Attorney Robert Irani at (602) 542-5293.

Sincerely,

Gaetano Testini
Director

RE: A.A.C. Title 20, Chapter 5, Article 10, Five-year Review Report

Dear Ms. Klein:

The Industrial Commission of Arizona ("Commission"), through its Director, submits for approval by the Governor's Regulatory Review Council ("Council") the attached Five-year Review Report on 20 A.A.C. 5, Article 10. The Commission has timely filed this report on or before Friday, January 31, 2025.

An electronic copy of this cover letter, the report, general and specific statutes, rules reviewed, and most recent economic impact statement are concurrently submitted by email to Simon Larscheidt. The Commission believes that the report complies with the requirements of A.R.S. § 41-1056.

The Commission has reviewed all rules in Article 10 and has complied with A.R.S. § 41-1091, which requires the Commission to annually publish a directory summarizing the subject matter of all currently applicable rules and substantive policy statements, by posting directories of its current rules and substantive policy statements on the Commission's website, as required by A.R.S. § 41-1091.01(1) & (2). Should you have any questions concerning the report, please contact Chief Counsel Afshan Peimani at (602) 542-5905 or Staff Attorney Christina Lopez at (602) 542-5948.

Sincerely,

Gaetano Testini

FIVE-YEAR REVIEW REPORT
TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE
CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA
ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE

FIVE -YEAR REVIEW REPORT

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE

FIVE-YEAR REVIEW SUMMARY

The Industrial Commission of Arizona (the "Commission") was created in 1925 as a result of legislation implementing the constitutional provisions establishing a workers' compensation system. From 1925 to 1969, the workers' compensation system consisted of the State Compensation Fund, which was then a part of the Commission, and self-insured employers, which generally comprised the mining and the railroad companies. In 1969, the workers' compensation system reorganized and expanded to include private insurance companies. The State Compensation Fund was split off from the Commission and established as a separate agency responsible for providing workers' compensation insurance coverage. The Commission retained both its responsibility as the file of record and its authority over the processing of workers' compensation claims. Since that time, the role of the Commission has grown to include other labor-related issues such as occupational safety and health, youth employment laws, resolution of wage-related disputes, minimum wage, vocational rehabilitation, workers' compensation coverage for claimants of uninsured employers, and self-insured employers.

Certification Regarding Compliance with A.R.S. § 41-1091

In the cover letter for this report, the Commission's Director certifies that the Commission is in compliance with A.R.S. § 41-1091 with respect to the substantive policy statements relating to the rules in Article 8, as well as other substantive policy statements and all rules, which are available on the Commission's website.

About Article 8 Generally:

A.R.S. §§ 23-420 & 23-423 establish the right to a hearing, the right to review, and basic procedures for cases involving a disputed occupational safety and health citation, penalty, and/or abatement period issued under A.R.S. §§ 23-415, 23-417, or 23-418.01. Pursuant to A.R.S. § 23-405(4), the Commission is authorized to "promulgate […] rules and regulations as are necessary for the efficient functioning of the division." Article 8 establishes rules of procedures for occupational safety and health hearings before an Administrative Law Judge or before the Commission (in the case of a variance hearing).

Recent Article 8 Rulemaking:

The Commission conducted the following rulemaking to amend Article 8 in 2024.

- R20-5-801 (effective June 6, 2024). Amended to clarify and modernize.
- R20-5-802 Repealed (effective June 6, 2024). Repealed by final rulemaking at 30 A.A.R. 2122 (June 28, 2024).
- R20-5-803 (effective June 6, 2024). Amended to remove gender-specific pronouns. This change was proposed in the previous five year review report.
- R20-5-804 (effective June 6, 2024).
- R20-5-805 (effective June 6, 2024). Amended to remove gender-specific pronouns. This change was proposed in the previous five year review report.
- R20-5-806 (effective June 6, 2024). Amended to clarify and modernize.
- R20-5-807 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.
- R20-5-808 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.
- R20-5-809 (effective June 6, 2024). Amended to clarify and modernize.
- R20-5-810 (effective June 6, 2024). Amended to fix a spelling error. This change was proposed in the previous five year review report.
- R20-5-811 (effective June 6, 2024). Amended to remove gender-specific pronouns and modernize. These changes were proposed in the previous five year review report.
- R20-5-812 (effective June 6, 2024). Amended to eliminate antiquated language.
- R20-5-813 (effective June 6, 2024). Amended to clarify and modernize.
- R20-5-814 (effective June 6, 2024). Amended to replace outdated terms (hearing officer), and to remove gender-specific pronouns. These changes were proposed in the previous five year review report.
- R20-5-815 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.

- R20-5-817 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.
- R20-5-818 (effective June 6, 2024). Amended to replace outdated terms (title and rule - hearing officer), and to remove gender-specific pronouns. These changes were proposed in the previous five year review report.
- R20-5-819 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.
- R20-5-820 (effective June 6, 2024). Amended to replace outdated terms (hearing officer), to remove gender-specific pronouns, to include the addition of R20-5-819 before the reference to subsections (A), (D), (E), and (F), and R20-5-820(D) amended to eliminate outdated and unnecessary practices. These changes were proposed in the previous five year review report.
- R20-5-821 (effective June 6, 2024). R20-5-821(A) amended to eliminate outdated and unnecessary practices. This change was proposed in the previous five year review report.
- R20-5-822 (effective June 6, 2024). Amended to replace outdated terms (hearing officer), to remove gender-specific pronouns, and to eliminate outdated and unnecessary practices. These changes were proposed in the previous five year review report.
- R20-5-823 (effective June 6, 2024). Amended to clarify and modernize.
- R20-5-824 (effective June 6, 2024). Amended to replace outdated terms (title and rule - hearing officer). This change was proposed in the previous five year review report.
- R20-5-825 (effective June 6, 2024). Amended to replace outdated terms (hearing officer). This change was proposed in the previous five year review report.
- R20-5-826 (effective June 6, 2024). Amended to replace outdated terms (title and rule - hearing officer), and to provide clarification as to the jurisdictional responsibilities of the Commission and the Office of Administrative Hearings. These changes were proposed in the previous five year review report.

- R20-5-827 (effective June 6, 2024). Amended to replace outdated terms (hearing officer and chief hearing officer). This change was proposed in the previous five year review report.
- R20-5-828 (effective June 6, 2024). Amended to replace outdated terms (hearing officer), and to remove gender-specific pronouns. These changes were proposed in the previous five year review report.
- R20-5-829 (effective June 6, 2024). Amended to eliminate antiquated language.

FIVE-YEAR REVIEW REPORT
TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE
CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA
ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE

1. General and specific statutes authorizing the rules, including any statute that authorizes the agency to make rules.

The rules in Article 8 have general and specific authority in A.R.S. §§ 23-107 and 23-405(4). A.R.S. § 23-107(A)(1) generally provides that the Commission "has full power, jurisdiction, and authority to formulate and adopt rules . . . for effecting the purposes of [A.R.S. Title 23, Chapter 1, Article 1]." A.R.S. §23-405(4) specifically provides that the Commission has authority to "promulgate such other rules and regulations as are necessary for the efficient functioning of the division." *See also* A.R.S. § 23-420(F) (referencing rules of procedure adopted by ADOSH under A.R.S. § 23-405(4)).

2. Objective of the rules, including the purposes for the existence of the rules.

The overarching objective of Article 8 is to establish rules of procedure for cases involving a disputed occupational safety and health citation, penalty, and/or abatement period issued under A.R.S. §§ 23-415, 23-417, or 23-418.01.

R20-5-801. Notice of Rules
This rule defines the scope of application of the rules of procedure found in Article 8.

R20-5-802. Repealed

R20-5-803. Definitions
This rule defines seven terms used in Article 8.

R20-5-804. Computation of Time
This rule outlines how periods of time prescribed in Article 8 are to be calculated.

R20-5-805. Record Address

This rule sets forth the requirement to include a name, address and telephone number in an initial pleading, and the requirement to notify the Commission and all other parties of a change in such information. This rule additionally sets forth the consequences associated with failing to keep the Commission and all other parties notified of a change.

R20-5-806. Service and Notice

This rule sets forth the service and notice requirements for filings, and the service, notice, and posting requirements for a Notice of Hearing.

R20-5-807. Consolidation

This rule allows for consolidation of cases in which there are common questions of law or fact.

R20-5-808. Severance

This rule allows issues and parties to be severed in a proceeding.

R20-5-809. Election to Appear

This rule advises affected employees of their right to appear at the hearing and procedures for providing notice of intent to appear.

R20-5-810. Employee Representatives

This rule allows for authorized employee representatives and outlines the authority that is given to such representatives.

R20-5-811. Form of Pleadings

This rule advises parties of the requirements for pleadings filed with the Commission.

R20-5-812. Caption; Titles of Cases

This rule advises the parties of the caption requirements for pleadings.

R20-5-813. Requests for Hearing

This rule describes the requirements for the filing of a request for hearing.

R20-5-814. Pre-hearing Conference

This rule provides for the scheduling of prehearing conferences to facilitate the exchange of information, simplify issues, or expedite the hearing process.

R20-5-815. Payment of Witness Fees and Mileage

This rule allows for compensation for witnesses "summoned" by the administrative law judge for their time and travel to the hearing, to be borne by the party requesting the witness.

R20-5-816. Expired

R20-5-817. Failure to Appear – Withdrawal of Request for Hearing

This rule advises parties of the consequences of failing to appear at a scheduled hearing and the consequences of the withdrawal of their request for hearing.

R20-5-818. Duties and Powers of Administrative Law Judges

This rule advises parties of the duties and powers of the administrative law judge presiding over contested matters and defines the parameters of the judge's authority.

R20-5-819. Witness Deposition; In State

This rule describes the procedures for the taking of depositions of persons residing in the State of Arizona.

R20-5-820. Witness Deposition; Out-of-State

This rule describes the procedures for the taking of depositions of persons residing outside the State of Arizona.

R20-5-821. Written Interrogatories and Request for Production of Documents

This rule describes the procedural and substantive requirements for the use of written interrogatories.

R20-5-822. Refusal to Answer; Refusal to Attend

This rule describes the procedure for compelling parties to cooperate with discovery and describes the consequences of refusing to cooperate when ordered by an administrative law judge.

R20-5-823. Burden of Proof

This rule describes with whom the burden of proof lies with regard to contested matters.

R20-5-824. Intermediary Rulings or Orders by the Administrative Law Judge

This rule advises the parties that rulings or orders issued by an administrative law judge prior to a final disposition of a case cannot be

immediately appealed to the Review Board but shall become a part of the record.

R20-5-825. Legal Memoranda

This rule permits the filing of legal memoranda to fully advise an administrative law judge of the factual and legal arguments raised by the parties.

R20-5-826. Administrative Law Judge Decisions

This rule describes the form and substantive requirements of decisions issued by administrative law judges.

R20-5-827. Settlement

This rule describes the parameters and requirements of settlement agreements.

R20-5-828. Special Circumstances; Waiver of Rules

This rule authorizes the administrative law judge to waive any rule or enter such orders as justice requires.

R20-5-829. Variances

This rule describes one component of the variance process and advises that hearings regarding variances shall be before the Commission.

3. Effectiveness of the rules in achieving their objectives, including a summary of any available data supporting the conclusion reached.

The rules reviewed are effective in achieving their respective objectives.

4. Consistency of the rules with state and federal statutes and other rules made by the agency, and a listing of the statutes or rules used in determining the consistency.

The rules are consistent with state and federal statutes and rules, including A.R.S. §§ 23-401 through 23-433.

5. Agency enforcement policy, including whether the rules are currently being enforced and, if so, whether there are any problems with enforcement.

The rules reviewed are enforced as written.

6. Clarity, conciseness, and understandability of the rules.

The rules in Article 8 are clear, concise, and understandable.

7. Written criticisms of the rules received by the agency within the five years immediately preceding the five-year review report.

The Commission has not received any written criticisms of the rules within the five years immediately preceding this report.

8. A comparison of the estimated economic, small business, and consumer impact of the rules with the economic, small business, and consumer impact statement prepared on the last making of the rules or, if no economic, small business, and consumer impact statement was prepared on the last making of the rules, an assessment of the actual economic, small business, and consumer impact of the rules.

The 2024 rulemaking did not have an adverse economic impact on either small businesses or consumers. The rulemaking was intended to reduce regulatory burden by clarifying, modernizing and eliminating antiquated language in the prior rules to allow for the affected stakeholders to have a clearer understanding of what is required. The current rules impact on consumers and businesses was as anticipated by the 2024 rulemaking.

9. Any analysis submitted to the agency by another person regarding the rules' impact on this state's business competitiveness as compared to the competitiveness of businesses in other states.

No business competitiveness analysis has been submitted to the Commission regarding Article 8.

10. If applicable, whether the agency completed the course of action indicated in the agency's previous five-year-review report.

The previous Five-Year-Review Report outlined proposed amendments to the rules that sought to clarify and update some of the language in the rules. All of the suggested updates were addressed in 2024.

11. A determination after analysis that probable benefits outweigh probable costs and that the rules impose the least burden and costs on persons regulated.

The probable benefits of the rules in Article 8 outweigh the probable costs. In addition, the Commission believes that the rules impose the least burden and costs on regulated community.

12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law.

The rules in Article 8 implement the procedures for occupational safety and health hearings and are not more stringent than corresponding federal law.

13. For rules adopted after July 29, 2010, that require issuance of a regulatory permit, license or agency authorization, whether the rule complies with A.R.S. § 41-1037.

There have been no rules adopted after July 29, 2010, in Article 8 which require the issuance of a regulatory permit, license, or agency authorization.

14. Proposed course of action

Given the Commission engaged in extensive review and rulemaking in 2024, there is no proposed course of action at this time.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA
ARTICLE 10. WAGE CLAIMS

TABLE OF CONTENTS

FIVE-YEAR REVIEW SUMMARY

The Industrial Commission of Arizona (the "Commission") was created in 1925 as a result of legislation implementing the constitutional provisions establishing a workers' compensation system. From 1925 to 1969, the workers' compensation system consisted of the State Compensation Fund, which was then a part of the Commission, and self-insured employers, which generally comprised the mining and the railroad companies. In 1969, the workers' compensation system reorganized and expanded to include private insurance companies. The State Compensation Fund was split off from the Commission and established as a separate agency responsible for providing workers' compensation insurance coverage. The Commission retained both its responsibility as the file of record and its authority over the processing of workers' compensation claims. Since that time, the role of the Commission has grown to include other labor-related issues such as occupational safety and health, youth employment laws, resolution of wage-related disputes, minimum wage, vocational rehabilitation, workers' compensation coverage for claimants of uninsured employers, and self-insured employers.

Certification Regarding Compliance with A.R.S. § 41-1091

In the cover letter for this report, the Commission's Director certifies that the Commission is in compliance with A.R.S. § 41-1091 with respect to the substantive policy statements relating to the rules in Article 10, as well as other substantive policy statements and all rules, which are available on the Commission's website.

About Article 10

Pursuant to A.R.S. 23-356, an employee may file a claim with the Commission's Labor Department (the "Department") for unpaid wages of $5,000.00 or less in lieu of pursuing a civil action against an employer. Article 10 establishes the administrative process for wage claims, including the procedure an employee must follow to submit a wage claim, the procedure an employer must follow in responding to a wage claim, and the Department's process for investigating and rendering a determination on a claim. The

Department processed 3,646 wage claims in fiscal year 2024, the latest year for which complete data is available.

Recent Article 10 Rulemaking

The Commission conducted the following rulemaking in 2021 to amend Article 10.

• R20-5-1001(8), R20-5-1002, R20-5-1003(F), R20-5-1004, R20-5-1008(B), R20-5-1009- Modernize rules to authorize service of documents by electronic means, with a party's consent.

• R20-5-1002 – Correct website address of Commission, clarify information that must be provided by parties to a wage claim, and specifically authorize electronic signatures on wage claim and employer response forms.

• R20-5-1003(E) – Delete antiquated and unnecessary language regarding forms being completed in "ink or type."

• R20-5-1003(F) – Extend time for a claimant's response to a deficiency notice from 10 to 14 calendar days.

• R20-5-1004(A) – Delete unnecessary and burdensome requirement that the Labor Department serve wage claims "within 10 days" of the Department's receipt and extend time period for an employer's response from 10 to 14 calendar days.

• R20-5-1004(B) - Extend time period for an employer's response from 10 to 14 calendar days.

• R20-5-1004(C) – Delete redundant and unnecessary provision that requires additional Labor Department action when an employer's response is incomplete. Pursuant to R20-5-1004(F), the Labor Department already has authority to request additional information from a claimant or employer.

• R20-5-1004(D) – Streamline the wage claim investigation process to always provide a claimant with an opportunity to reply to an employer's response to a wage claim and extend the time period for a claimant's reply from 10 to 14 days.

• R20-5-1004(F) – Allow, rather than require, the Department to administer oaths for the purpose of taking affidavits and allow, rather than require, the Department to record interviews or discussions with a claimant or employer.

• R20-5-1006(A)(3) – Update jurisdictional limit for wage claims filed with the Department to be consistent with A.R.S. § 23-356.

• R20-5-1007(B) – Delete the provision, as it is redundant of R20-5-1005(G).

• R20-5-1008(A) – Authorize a wage claimant to pick up a wage payment in person from the Department.

• R20-5-1008(B) – Streamline the process where an employer claims to have paid wages due directly to the claimant by authorizing dismissal of a wage claim either where the claimant confirms receipt of the wages or where the claimant does not timely respond to a notice of wage payment from the Department. Extend the time period for a claimant to respond to such a notice from 10 to 14 calendar days.

FIVE-YEAR-REVIEW REPORT
TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE
CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA
ARTICLE 10. WAGE CLAIMS

1. General and specific statutes authorizing the rules, including any statute that authorizes the agency to make rules.

The rules in Article 10 have general and specific authorization under A.R.S. §§ 23-107 and 23-361. A.R.S. § 23-107(A)(1) provides that the Commission "has full power, jurisdiction, and authority to formulate and adopt rules . . . for effecting the purposes of [A.R.S. Title 23, Chapter 1, Article 1]." A.R.S. § 23-361 provides that "[t]he commission may adopt such rules and regulations as necessary for the purpose of administering and enforcing [A.R.S. Title 23, Chapter 2, Article 7]."

2. Objective of the rules, including the purposes for the existence of the rules.

The objective of Article 10 is to set forth clear procedures for filing, processing, investigating, and rendering decisions on wage claims.

R20-5-1001. Definitions

This rule sets forth the definitions for Article 10.

R20-5-1002. Forms

This rule establishes the wage claim and employer response forms and sets forth the information required in the forms.

R20-5-1003. Filing Requirements; Time for Filing; Computation of Time

This rule outlines the procedure for filing a wage claim, time for filing a wage claim, how time is calculated under the rule, and the consequences of not providing all required information in a wage claim.

R20-5-1004. Investigation of Claim

This rule outlines the procedures used by the Labor Department to conduct a wage investigation and gather information from a claimant and an employer. The rule also outlines the consequences of an employer's failure to respond to a wage claim or provide complete information.

R20-5-1005. Mediation of Disputes

This rule outlines the Labor Department's authority to mediate and conciliate wage-related disputes.

R20-5-1006. Dismissal of Claim

This rule outlines the circumstances under which the Labor Department will dismiss a wage claim.

R20-5-1007. Notice of Right of Review

This rule establishes review rights following issuance of a determination under A.R.S. § 23-357.

R20-5-1008. Payment of Claim

This rule outlines procedures the Labor Department follows regarding payment of wages.

R20-5-1009. Service of Determinations, Notices, and Other Documents

This rule describes the manner of service of determinations and when service is completed.

3. Effectiveness of the rules in achieving their objectives, including a summary of any available data supporting the conclusion reached.

The rules reviewed are effective in achieving their respective objectives. This determination is based on the Commission's experience using the rules and the significant number of wage claims processed by the Labor Division. The Department processed 3,646 wage claims in fiscal year 2024, the latest year for which complete data is available.

4. Consistency of the rules with state and federal statutes and other rules made by the agency, and a listing of the statutes or rules used in determining the consistency.

The rules are consistent with state and federal statutes and rules, including A.R.S. §§ 23-350 through 23-362. The Commission is not aware of any conflicting or duplicative statutes or rules.

5. Agency enforcement policy, including whether the rules are currently being enforced and, if so, whether there are any problems with enforcement.

The rules reviewed are enforced as written.

6. Clarity, conciseness, and understandability of the rules.

Except as noted below, the rules in Article 10 are clear, concise, and understandable.

- R20-5-1002 -Simplify the language in this section to include nonwage compensation.
- R20-5-1003 (F)-Delete redundant language and processes to simplify the handling of incomplete wage claims and reduce administrative burden.
- R20-5-1004(A)- Extend Employer response time from 14 to 21 days.
- R20-5-1004(B)-Delete this section to streamline the rule, as remedies are addressed in Section D.
- R20-5-1004(C)-Extend the Claimant's reply time from 14 to 21 days.

7. Written criticisms of the rules received by the agency within the five years immediately preceding the five-year review report.

The Commission has not received any written criticisms of the rules within the five years immediately preceding this report.

8. A comparison of the estimated economic, small business, and consumer impact of the rules with the economic, small business, and consumer impact statement prepared on the last making of the rules or, if no economic, small business, and consumer impact statement was prepared on the last making of the rules, an assessment of the actual economic, small business, and consumer impact of the rules.

The most recent Economic Impact Statement related to Article 10 was in 2021. The Commission does not believe that the current estimated economic, small business, and consumer impact of the rules is substantially different from that set out in the 2021

Economic Impact Statement. The economic impact of the rules has been consistent with the economic impact predicted in the 2021 Economic Impact Statement.

9. Any analysis submitted to the agency by another person regarding the rules' impact on this state's business competitiveness as compared to the competitiveness of businesses in other states.

No business competitiveness analysis has been submitted to the Commission regarding Article 10.

10. If applicable, whether the agency completed the course of action indicated in the agency's previous five-year-review report.

The previous Five-Year-Review Report on Article 10 was approved by the Governor's Regulatory Review Council ("GRRC") on August 4, 2020. All the proposed changes identified in the previous five-year-review report were addressed in the Article 10 2021 Rulemaking.

11. A determination after analysis that probable benefits outweigh probable costs and that the rules impose the least burden and costs on persons regulated.

The probable benefits of the rules in Article 10 outweigh the probable costs. In addition, the Commission believes that the rules impose the least burden and costs on the regulated community.

12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law.

The rules in Article 10 implement state law. There is no corresponding federal law.

13. For rules adopted after July 29, 2010, that require issuance of a regulatory permit, license or agency authorization, whether the rule complies with A.R.S. § 41-1037.

There have been no rules adopted after July 29, 2010, which require the issuance of a regulatory permit, license, or agency authorization.

14. Proposed course of action.

The Commission plans to review and complete any necessary rulemaking to address the possible changes outlined in section six (6) by the end of 2026.

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE ~~BEFORE THE INDUSTRIAL COMMISSION OF ARIZONA~~

1. Identification of the proposed rulemaking:

The Commission is proposing to amend A.A.C. R20-5-801 (Notice of Rules), A.A.C. R20-5-802 (~~Location of Office and Office Hours~~ Expire), A.A.C. R20-5-803 (Definitions), A.A.C. R20-5-804 (Computation of Time), A.A.C. R20-5-805 (Record Address), A.A.C. R20-5-806 (Service and Notice), A.A.C. R20-5-807 (Consolidation), A.A.C. R20-5-808 (Severance), A.A.C. R20-5-809 (Election to Appear), A.A.C. R20-5-810 (Employee Representatives), A.A.C. R20-5-811 (Form of Pleadings), A.A.C. R20-5-812 (Caption; Titles of Cases), A.A.C. R20-5-813 (Requests for Hearing), A.A.C. R20-5-814 (Pre-hearing Conference), A.A.C. R20-5-815 (Payment of Witness Fees and Mileage), A.A.C. R20-5-817 (Failure to Appear -- Withdrawal of Request for Hearing), A.A.C. R20-5-818 (Duties and Powers of ~~Hearing Officers~~ Administrative Law Judges), A.A.C. R20-5-819 (Witness~~es' Oral~~ Deposition; In State), A.A.C. R20-5-820 (Witness~~es' Oral~~ Deposition; Out-of-State), A.A.C. R20-5-821 (~~Parties' Disposition upon~~ Written Interrogatories and Request for Production of Documents), A.A.C. R20-5-822 (Refusal to Answer; Refusal to Attend), A.A.C. R20-5-823 (Burden of Proof), A.A.C. R20-5-824 (Intermediary Rulings or Orders by the ~~Hearing Officer~~ Administrative Law Judge), A.A.C. R20-5-825 (Legal Memoranda), A.A.C. R20-5-826 (Administrative Law Judge Decisions ~~of Hearing Officers~~), A.A.C. R20-5-827 (Settlement), A.A.C. R20-5-828 (Special Circumstances; Waiver of Rules), A.A.C. R20-5-829 (Variances).

2. Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the proposed rulemaking:

Employers, as defined in A.R.S. § 23-401 are covered by the rules within Article 8 and will be directly affected by the proposed rulemaking.

3. A cost benefit analysis of the following:

a. Costs and benefits to state agencies directly affected by the rulemaking, including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

The Commission does not anticipate an increase in costs from the new rulemaking. The Commission will not need to hire additional staff to enforce the new rules.

b. Costs and benefits to political subdivisions directly affected by the rulemaking:

Political subdivisions would enjoy the same benefits as outlined below to businesses affected by the proposed amendments.

c. Costs and benefits to businesses directly affected by the rulemaking:

The Industrial Commission anticipates that the proposed rulemaking will have no adverse economic, small business, or consumer impact. The proposed rulemaking is intended to reduce regulatory burden by amending antiquated language and achieving the regulatory objectives as prescribed by the Arizona Occupational Safety and Health Act of 1972.

4. Impact on private and public employment in businesses, agencies and political subdivisions:

There is no anticipated impact on private and public employment in businesses, agencies and political subdivisions.

5. Impact on small businesses:

a. Identification of the small businesses subject to the rulemaking:

Arizona small businesses who are employers, as defined in A.R.S. § 23-401 will be directly affected by the proposed rulemaking.

b. Administrative and other costs required for compliance with the rulemaking:

The proposed rules do not place new obligations, costs, or time constraints on employers. Adoption of the final rules is not expected to impose administrative or other costs required for compliance in Arizona.

c. Description of the methods that may be used to reduce the impact on small businesses:

The Commission did not consider methods of reducing the impact on small businesses.

d. Cost and benefit to private persons and consumers who are directly affected by proposed rulemaking:

Private Persons and consumers are not directly affected by this rulemaking.

6. Probable effect on state revenues:

The Commission anticipates state revenues remaining neutral.

7. Less intrusive or less costly alternative methods considered:

The Commission did not consider alternative methods.

8. Data on which the rule is based:

The Commission did not perform any studies as a basis for the rulemaking.

ECONOMIC, SMALL BUSINESS, AND CONSUMER IMPACT STATEMENT

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ARTICLE 5. WAGE CLAIMS

1. **Identification of the proposed rulemaking:**

Title 20, Chapter 5, Article 10 of the Arizona Administrative Code contains rules related to wage claims filed with the Industrial Commission of Arizona (the "Commission"), Labor Department ("Labor Department" or "Department"). The amendments will modernize the rules, including by: (1) allowing for service of documents by electronic means; (2) streamlining and eliminating redundancies in the wage claim investigation process to both reduce burdens on the parties involved in wage claim disputes and accelerate the processing of wage claims; and (3) bringing R20-5-1006(A)(3) into compliance with A.R.S. § 23-356. Specifically, the rulemaking includes following rule changes:

- R20-5-1001(8), R20-5-1002, R20-5-1003(F), R20-5-1004, R20-5-1008(B), R20-5-1009 - Modernize rules to authorize service of documents by electronic means, with a party's consent.
- R20-5-1002 – Correct website address of Commission, clarify information that must be provided by parties to a wage claim, and specifically authorize electronic signatures on wage claim and employer response forms.
- R20-5-1003(E) – Delete antiquated and unnecessary language regarding forms being completed in "ink or type."
- R20-5-1003(F) – Extend time for a claimant's response to a deficiency notice from 10 to 14 calendar days.
- R20-5-1004(A) – Delete unnecessary and burdensome requirement that the Labor Department serve wage claims "within 10 days" of the Department's receipt and extend time period for an employer's response from 10 to 14 calendar days.
- R20-5-1004(B) - Extend time period for an employer's response from 10 to 14 calendar days.
- R20-5-1004(C) – Delete redundant and unnecessary provision that requires

additional Labor Department action when an employer's response is incomplete. Pursuant to R20-5-1004(F), the Labor Department already has authority to request additional information from a claimant or employer.

- R20-5-1004(D) – Streamline the wage claim investigation process to always provide a claimant with an opportunity to reply to an employer's response to a wage claim and extend the time period for a claimant's reply from 10 to 14 days.
- R20-5-1004(F) – Allow, rather than require, the Department to administer oaths for the purpose of taking affidavits and allow, rather than require, the Department to record interviews or discussions with a claimant or employer.
- R20-5-1006(A)(3) – Update jurisdictional limit for wage claims filed with the Department to be consistent with A.R.S. § 23-356.
- R20-5-1007(B) – Delete the provision, as it is redundant of R20-5-1005(G).
- R20-5-1008(A) – Authorize a wage claimant to pick up a wage payment in person from the Department.
- R20-5-1008(B) – Streamline the process where an employer claims to have paid wages due directly to the claimant by authorizing dismissal of a wage claim either where the claimant confirms receipt of the wages or where the claimant does not timely respond to a notice of wage payment from the Department. Extend the time period for a claimant to respond to such a notice from 10 to 14 calendar days.

2. <u>Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the proposed rulemaking:</u>

The proposed changes to Article 10: (1) authorize service of documents by electronic means; (2) clarify information that must be provided by parties to a wage claim: (3) authorize electronic signatures on wage claim and employer response forms; (4) extend time periods for claimants and employers to respond to the Labor Department; (5) delete unnecessary and burdensome requirement that the Labor Department serve wage claims "within 10 days" of the Department's receipt; (6) streamline the wage claim investigation process to always provide a claimant with an opportunity to reply to an employer's response to a wage claim; (7) allow, rather than require, the Department to administer oaths

for the purpose of taking affidavits; (8) allow, rather than require, the Department to record interviews or discussions with a claimant or employer; (9) authorize a wage claimant to pick up a payment in person from the Department; and (10) streamline the wage process when an employer claims to have paid wages due directly to the claimant by authorizing dismissal of a wage claim either where the claimant confirms receipt of the wages or where the claimant does not timely respond to a notice of wage payment from the Department. The Commission anticipates that each of the amendments will reduce regulatory burden on participants in wage claim proceedings (without impacting the regulatory objective) and will serve to accelerate the efficient processing of wage claims. The Commission anticipates that the rulemaking will have no adverse economic impact on businesses or consumers. The amendments will primarily benefit all persons and businesses that have a wage claim under A.A.C. Title 20, Chapter 5, Article 10 and the Labor Department Investigators.

3. A cost benefit analysis of the following:

(a) Costs and benefits to state agencies directly affected by the rulemaking, including the number of new full-time employees at the implementing agency required to implement and enforce the proposed rule:

The Commission is the only state agency directly affected by the rulemaking. However, no new full-time employees will be required as a result of the rulemaking. The amendments should benefit the Commission by: (1) authorizing service of documents by electronic means; (2) clarifying information that must be provided by parties to a wage claim: (3) authorizing electronic signatures on wage claim and employer response forms; (4) deleting unnecessary and burdensome requirement that the Labor Department serve wage claims "within 10 days" of the Department's receipt; (5) streamlining the wage claim investigation process to always provide a claimant with an opportunity to reply to an employer's response to a wage claim; (6) allowing, rather than requiring, the Department to administer oaths for the purpose of taking affidavits; (7) allowing, rather than requiring, the Department to record interviews or discussions with a claimant or employer; (8) authorizing a wage claimant to pick up a payment in person from the Department; and (9) streamlining the wage process when an employer claims to have paid wages due directly to the claimant by authorizing dismissal of a wage claim either where the claimant confirms

receipt of the wages or where the claimant does not timely respond to a notice of wage payment from the Department. The Commission anticipates that each of the amendments will serve to accelerate the efficient processing of wage claims.

(b) Costs and benefits to political subdivisions directly affected by the rulemaking;

The rulemaking applies to political subdivisions subject to Title 23, Chapter 2, Article 7. For further discussion regarding the anticipated benefits to entities affected by the rulemaking, *see supra* Section 2.

(c) Costs and benefits to businesses directly affected by the rulemaking:

See supra Section 2.

4. Impact on private and public employment in businesses, agencies and political subdivisions:

The Commission anticipates that each of the amendments will reduce regulatory burden on participants in wage claim proceedings and will serve to accelerate the efficient processing of wage claims. The Commission anticipates that the rulemaking will have no adverse economic impact on private and public employment in businesses, agencies, and political subdivisions. The amendments will primarily benefit all persons and businesses that have a wage claim under A.A.C. Title 20, Chapter 5, Article 10.

5. Impact on small businesses:

(a) Identification of the small businesses subject to the rulemaking:

Title 20, Chapter 5, Article 10 of the Arizona Administrative Code contains rules related to wage claims filed with the Labor Department. As such, Article 10 and the proposed amendments to Article 10 apply to all persons and businesses (including small businesses) that have a wage claim under A.A.C. Title 20, Chapter 5, Article 10.

(b) Administrative and other costs required for compliance with the rulemaking:

The rulemaking is not intended to impose new costs for compliance on employers or employees. Instead, the amendments are intended to reduce regulatory burden. *See supra* Section 2.

(c) Description of the methods that may be used to reduce the impact on small businesses:

Not applicable.

(d) Cost and benefit to private persons and consumers who are directly affected by proposed rulemaking:

The amendments are not anticipated to increase any costs on private persons and instead are expected to benefit individuals by providing clear, streamlined, and modern rules.

6. Probable effect on state revenues:

The Commission does not anticipate that the amendments will have an effect on state revenues.

7. Less intrusive or less costly alternative methods considered:

Not applicable. The Commission crafted the amendments to reduce regulatory burden. *See supra* Section 2

8. Data on which the rule is based:

The Commission did not perform any studies or review data as a basis for the rulemaking.

RULES REVIEWED

ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE

A.A.C. R20-5-801
R20-5-801. Notice of Rules

This Article applies to all actions and proceedings before an administrative law judge pertaining to those issues arising out of Title 23, Chapter 2, Article 10. In the event of a conflict between A.R.S. §§ 23-401 through 23-433 or this Article and the rules of procedure pertaining to OAH, A.R.S. §§ 23-401 through 23-433 and this Article control.

A.A.C. R20-5-802
R20-5-802. [Repealed]

A.A.C. R20-5-803
R20-5-803. Definitions

In addition to the definitions provided in A.R.S. § 23-401, the following definitions apply to this Article:
"Act" means the Arizona Occupational Safety and Health Act of 1972.
"Affected employee" means an employee of a cited employer who is exposed to the alleged hazard described in a citation, as a result of assigned duties.
"Authorized employee representative" means a labor organization which has a collective bargaining relationship with the cited employer and which represents affected employees.
"Citation" means a written communication issued by the Division of Occupational Safety and Health of the Industrial Commission of Arizona pursuant to A.R.S. § 23-415.
"OAH" means the Arizona Office of Administrative Hearings.
"Party" shall have the same meaning as "interested party," as defined in A.R.S. § 23-401.
"Representative" means any person, including an authorized employee representative, authorized by a party to represent the party under A.R.S. § 23-429 in a proceeding.

A.A.C. R20-5-804
R20-5-804. Computation of Time

In computing any period of time prescribed or allowed in this Article, the day from which the designated period begins to run shall not be included. The last day of the period so computed shall be included unless it is a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than seven days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation.

A.A.C. R20-5-805
R20-5-805. Record Address

The initial pleading filed by any interested party shall contain the party's name, address, e-mail address, and telephone number. Any change in such information must be communicated promptly in writing to the Commission, OAH, and all other interested parties. An interested party who fails to furnish such correct and current information shall be deemed to have waived the right to object to the validity of any notice and/or service which has been made to the last known address of the party as shown by the records of the Commission.

A.A.C. R20-5-806
R20-5-806. Service and Notice

A. At the time of filing pleadings or other documents a copy thereof shall be served by the filing party on every other interested party.

B. Service upon an interested party who has appeared through a representative shall be made only upon such representative.

C. Unless otherwise herein indicated, service may be accomplished by (1) postage prepaid first class mail; (2) by personal delivery; or (3) with an interested party's consent, transmission by e-mail. Service is deemed effected at the time of mailing or e-mailing (if by mail or e-mail) or at the time of personal delivery (if by personal delivery).

D. Proof of service shall be accomplished by a written statement of the same which sets forth the date and manner of service. Such statement shall be filed with the pleading or document.

E. Service and notice to employees represented by an authorized employee representative shall be deemed accomplished by serving the authorized employee representative in the manner prescribed in subsection (C).

F. In the event that there are any affected employees who are not represented by an authorized employee representative, the employer shall, immediately upon receipt of notice of the time and place of hearing, post, where the citation is required to be posted, a copy of the notice of the time and place of hearing and a notice informing such affected employees of their right to appear at the hearing and state their position and of the availability of all pleadings for inspection and copying at reasonable times. A notice in the following form shall be deemed to comply with this subsection:
(Name of employer)

> Your employer has been cited by the Arizona Division of Occupational Safety and Health for violating the Arizona Occupational Safety and Health Act of 1972. The citation has been contested and will be the subject of a hearing before the Arizona Office of Administrative Hearings. Affected employees are entitled to appear in this hearing under the terms and conditions established by the Industrial Commission and the Arizona Office of Administrative Hearings in published rules of procedure. Notice of Intent to Participate should be sent to:
>
> Arizona Office of Administrative Hearings 1740 West Adams Street, Lower Level, Phoenix, Arizona 85007.

All papers relevant to this matter may be inspected at:

(Place reasonably convenient to employees, preferably at or near workplace.)

Where appropriate, the second sentence of the above Notice may be deleted and the following sentence will be substituted:

The reasonableness of the period prescribed by the Industrial Commission for abatement of the violation has been contested and will be the subject of a hearing before the Arizona Office of Administrative Hearings.

G. Where service is accomplished by posting, proof of such posting shall be filed with OAH not later than five days following the posting.

H. The authorized employee representative, if any, shall be served with the proof of posting set forth in subsection (G) and with a copy of the notice of time and place of hearing.

I. A copy of the notice of time and place of hearing shall be served by the employer on the authorized employee representative of affected employees in the manner prescribed in subsection (C) of this Section, if the employer has not been informed that the authorized employee representative has entered an appearance with OAH as of the date such notice is received by the employer.

J. Where a request for hearing is filed by an affected employee who is not represented by an authorized employee representative and there are other affected employees who are represented by an authorized employee representative, the unrepresented employee shall, upon receipt of the notice of time and place of hearing, serve a copy thereof on such authorized employee representative in the manner prescribed in subsection (C) of this Section and shall file proof of such service with OAH.

K. Where a request for hearing is filed by an affected employee or an authorized employee representative, a copy of the request for hearing shall be provided to the employer for posting by the employer at the place the citation is required to be posted.

L. An authorized employee representative who files a request for hearing shall be responsible for serving any other authorized employee representative whose members are affected employees.

M. Where posting is required by this Section, such posting shall be maintained until the commencement of the hearing or until earlier disposition.

A.A.C. R20-5-807
R20-5-807. Consolidation

Cases may be consolidated on the motion of any interested party, or on the administrative law judge's own motion, where there exist common parties, common questions of law or fact, or both, or in such other circumstances as justice and the administration of the Act require.

A.A.C. R20-5-808
R20-5-808. Severance

Upon an administrative law judge's own motion, or upon motion of any party, the administrative law judge may, for good cause, order any part of a proceeding severed with respect to some or all issues or parties.

A.A.C. R20-5-809
R20-5-809. Election to Appear

A. Affected employees may elect to appear at a hearing for the purpose of testifying or stating their position concerning the subject matter of a hearing.

B. An affected employee desiring to appear at a hearing must notify the administrative law judge in writing.

A.A.C. R20-5-810
R20-5-810. Employee Representatives

A. Affected employees may appear in person or through a representative.

B. An authorized employee representative shall be deemed to control all matters respecting the interest of represented employees during the proceedings.

C. Affected employees who are represented by an authorized employee representative may appear only through the authorized employee representative.

D. Any representative may withdraw from representation by filing a written notice of withdrawal with the administrative law judge and by serving a copy thereof on all interested parties.

A.A.C. R20-5-811
R20-5-811. Form of Pleadings

A. Except as provided in A.R.S. § 23-420 and this Article, there are no specific requirements as to the form of any pleading or filing. All pleading and filings shall contain a caption sufficient to identify the parties in accordance with R20-5-812. All pleadings and motions shall include the citation number and a clear and plain statement of the relief that is sought, together with the grounds therefor.

B. Pleadings and other filings (other than exhibits and petitions for hearing) shall be typewritten and double spaced, on standard letter size paper.

C. Pleadings and motions shall be signed or electronically signed by the party filing or by the representative. Such signing constitutes a representation by the signer that the signer has read the

pleading or motion, that to the best of the signer's knowledge, information and belief the statements made therein are true, and that it is not interposed for delay.

D. OAH may refuse for filing any pleading or document which does not comply with the requirements of subsections (A), (B), and (C) of this Section.

A.A.C. R20-5-812
R20-5-812. Caption; Titles of Cases

A. Cases initiated by a cited employer filing a request for hearing contesting citations and/or proposed penalties shall be titled:
Arizona Division of Occupational Safety and Health, Complainant, vs. (name of employer), Respondent.

B. Cases initiated by a cited employer filing a request for hearing for modification of the abatement period shall be titled:

(name of employer), Petitioner vs. Arizona Division of Occupational Safety and Health, Respondent.

C. Cases initiated by an affected employee filing a request for hearing for modification of the abatement period shall be titled:

(name of affected employee or authorized employee representative), Petitioner vs. Arizona Division of Occupational Safety and Health, Respondent, and (employer), Respondent.

D. The case titles listed in subsections (A), (B), and (C) of this Section shall appear in the left upper portion of the initial page of any pleading, motion, or filing (other than exhibits).

E. The initial page of any pleading, motion, or filing (other than exhibits and requests for hearing) shall show the citation number at the upper right of the page, opposite the title.

A.A.C. R20-5-813
R20-5-813. Requests for Hearing

A. Requests for hearing shall be filed with the Arizona Division of Occupational Safety and Health.

B. Requests for hearing shall be in writing and contain a clear and plain statement of the relief that is sought, together with the grounds thereof.

C. The Commission shall, after receipt of a request for hearing, refer the file to OAH for hearing and determination.

A.A.C. R20-5-814
R20-5-814. Pre-hearing Conference

A. At any time before a hearing, the administrative law judge, sua sponte or on motion of an interested party, may direct the parties, or their representatives, to exchange information or to participate in a pre-hearing conference for the purpose of considering matters which will tend to simplify the issues or expedite the proceedings.

B. The administrative law judge may issue a pre-hearing order which includes the agreements reached by the parties. Such order shall be served on all parties and shall be part of the record.

A.A.C. R20-5-815
R20-5-815. Payment of Witness Fees and Mileage

Witnesses summoned before OAH shall be paid the same fees and mileage that are paid to witnesses in the courts of Arizona. Witness fees and mileage shall be paid by the party at whose request the witness appears.

A.A.C. R20-5-816
R20-5-816. Notice of Hearing--Expired

A.A.C. R20-5-817
R20-5-817. Failure to Appear -- Withdrawal of Request for Hearing

A. The failure of an interested party who has requested a hearing to appear at such scheduled hearing shall be deemed to be an admission of the validity of any citation, abatement period, or penalty issued pursuant to A.R.S. § 23-417(A), and additionally a waiver of all rights except the right to be served with a copy of the decision of the administrative law judge and to request review.

B. Withdrawal of a request for hearing shall be construed as an admission of the validity of any citation, abatement period or penalty issued pursuant to A.R.S. § 23-417(A). No decision need be issued in this case, as the subject instrument is deemed to be admitted.

A.A.C. R20-5-818
R20-5-818. Duties and Powers of Administrative Law Judges

It shall be the duty of the administrative law judge to conduct a fair and impartial hearing, to assure that the facts are fully elicited, to adjudicate all issues and avoid delay. The administrative law judge shall have authority with respect to assigned cases, between the time a case is assigned and the time a decision is issued, subject to the rules and regulations of the Commission and OAH, to:

1. Administer oaths and affirmations;

2. Rule upon admissibility of exhibits;

3. Rule upon applications for depositions;

4. Regulate the course of the hearing and, if appropriate or necessary, exclude persons or counsel from the hearing for contemptuous conduct and strike all related testimony of witnesses refusing to answer any proper questions;

5. Call and examine witnesses;

6. Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;

7. Adjourn the hearing as the needs of justice and good administration require;

8. Issue appropriate orders for protection of trade secrets;

9. Take any other action necessary under the foregoing and authorized by the rules and regulations of the Commission and OAH.

A.A.C. R20-5-819
R20-5-819. Witness Deposition; In State

A. After a request for hearing has been filed with the Commission, any party desiring to take the deposition of any other interested party or witness residing within the State of Arizona shall file with the administrative law judge, a notice of deposition. Copies of such notice shall be served at least five days prior to the date of the deposition upon the deponent and upon every interested party by the party desiring to take the deposition.

B. If any interested party or the deponent has any objection to the taking of a deposition, the objecting party shall file with the administrative law judge and serve on all interested parties written objections thereto setting forth the basis of the opposition to the deposition. Such objection shall be filed with the administrative law judge within two days after the notice of deposition by is received.

C. If objections to the taking of the deposition are filed with the administrative law judge as provided in subsection (B), the administrative law judge shall rule on the objections within five days of the filing of the objections. The taking of the deposition shall be held in abeyance pending the ruling of the administrative law judge. The administrative law judge shall either order the deposition to proceed, order that the deposition not be taken, or enter such other protective order as may be appropriate.

D. The party taking a deposition shall comply with the Arizona Rules of Civil Procedure governing the taking of depositions.

E. The expense of any deposition shall be borne by the party taking the deposition but shall not include the expense of any other interested party.

F. A scheduled hearing shall not be cancelled or continued for failure to timely take or complete a deposition pursuant to the provisions of this Section.

G. Depositions taken pursuant to the provisions of this Section shall only be used at the time of a hearing for impeachment of a witness, unless the deponent is deceased or a non-party witness is unavailable at the time of the scheduled hearing, in which event the deposition transcript may be admitted into evidence. The transcript shall be filed with the administrative law judge at least 15 days prior to the hearing date if an interested party intends to introduce it into evidence. If the deposition transcript is not filed within the time prescribed herein, it shall not be considered for any purpose except by stipulation of all interested parties, and then only with the concurrence of the administrative law judge.

A.A.C. R20-5-820
R20-5-820. Witness Deposition; Out-of-State

A. After a request for hearing is filed with the Commission, any interested party desiring to take the deposition of any other interested party or witness residing outside the State of Arizona shall file with the administrative law judge, a request for permission to take the deposition. The request shall include the name and address of the witness and set forth the reason why the witness's testimony is necessary for an adjudication of the case. Copies of the request shall be served upon each interested party by the party requesting permission to take the deposition. If no objection to the request for permission to take the deposition is filed as provided in subsection (B), the administrative law judge may, within 10 days, in the administrative law judge's discretion, grant or deny the permission to take the deposition. If the administrative law judge permits the taking of the deposition, the requesting party may proceed in the manner provided by and subject to the limitations of R20-5-819, subsections (A), (D), (E), and (F).

B. If any interested party objects to the taking of the deposition of an interested party or witness, the objecting party shall file with the administrative law judge and serve on all other interested parties written objections thereto setting forth the basis for the opposition to the deposition. Such objection shall be filed with the administrative law judge within five days after the request to take the deposition is served.

C. If objections to the taking of a deposition are filed with the administrative law judge as provided in subsection (B), the hearing officer shall rule on the objections within five days after the filing of the objections. The taking of the deposition shall be held in abeyance pending the ruling of the administrative law judge. The administrative law judge shall either order the deposition to proceed, order that the deposition not be taken, or enter such other protective order as may be appropriate. If the administrative law judge orders that the deposition proceed, the party may proceed to take the deposition in the manner provided by and subject to the limitation of R20-5-819, subsections (A), (D), (E), and (F).

D. The transcript of any deposition taken pursuant to this Section shall be filed with the administrative law judge at least 15 days prior to the hearing date and may be admitted into evidence. If the transcript is not filed within the time prescribed herein, it shall not be considered for any purpose except by stipulation of all interested parties, and then only with the concurrence of the administrative law judge.

A.A.C. R20-5-821
R20-5-821. Written Interrogatories and Request for Production of Documents

A. After a request for hearing is filed with the Commission, any interested party desiring to issue written interrogatories or a request for production of documents to another interested party shall be limited to 25 in number, inclusive of sub-parts.

B. Answers to written interrogatories or a request for production of documents shall be served on all interested parties by the answering party within 30 days after service of the interrogatories or a request for production of documents, or within 30 days after a ruling by the administrative law judge that the interrogatories must be answered or documents must be produced.

C. No scheduled hearing shall be cancelled or continued for failure of a party to timely issue interrogatories or a request for production of documents to another interested party.

D. Written interrogatories issued pursuant to the provisions of this Section may only be used at the time of hearing for impeachment of a witness unless the answering party is deceased at the time of the scheduled hearing in which event the interrogatory answers may be admitted into evidence.

A.A.C. R20-5-822
R20-5-822. Refusal to Answer; Refusal to Attend

A. If an interested party or witness refuses to answer any question propounded during deposition pursuant to R20-5-819 and R20-5-820, the deposition shall be completed in other matters, as the proponent of the question may prefer. Thereafter on reasonable notice to all parties and persons affected thereby the proponent of the question may apply to the administrative law judge for an order compelling an answer. Upon the refusal of an interested party to answer any interrogatory submitted under R20-5-821, or produce a document requested under R20-5-821, the proponent of the interrogatory or requestor of the document may on like notice make like application for such an order from the administrative law judge. If the motion is granted and if the administrative law judge finds that the refusal was without substantial justification, the administrative law judge shall require the refusing party, witness, or representative advising the refusal or either of them to pay to the party propounding the interrogatory or requesting the document the amount of the reasonable attorney's fees incurred in obtaining the order and the reasonable expenses which will be incurred to obtain the requested answers or documents. If the motion is denied and if the administrative law judge finds that the motion was made without substantial justification, the administrative law judge shall require the party filing the motion or the representative advising the party to file the motion, or both, to pay to the refusing party or witness the amount of the reasonable attorney's fees incurred in opposing the motion.

B. If an interested party or a representative of an interested party willfully fails to appear for deposition after being served with the proper notice, or fails to serve answers to interrogatories or produce requested documents after proper service of such interrogatories or request for production of documents, the administrative law judge, on motion and notice, may strike out all or any part of any pleading of that party, dismiss the action or proceeding or any part thereof, or preclude the introduction of evidence.

A.A.C. R20-5-823
R20-5-823. Burden of Proof

A. In all proceedings other than those stated in subsection (B) commenced by the filing of a request for hearing, the burden of proof shall rest with the Arizona Division of Occupational Safety and Health.

B. In proceedings commenced by a request for hearing requesting modification of the abatement period, the burden of establishing the necessity for such modification shall rest with the petitioner.

A.A.C. R20-5-824
R20-5-824. Intermediary Rulings or Orders by the Administrative Law Judge

No intermediary rulings or orders by the administrative law judge may be appealed to the Review Board, but shall become a part of the record.

A.A.C. R20-5-825
R20-5-825. Legal Memoranda

Legal memoranda may be filed if authorized by the applicable rules of procedure or the administrative law judge. When authorized, the administrative law judge shall establish reasonable briefing deadlines for all interested parties.

A.A.C. R20-5-826
R20-5-826. Administrative Law Judge Decisions

A. The decision of the administrative law judge shall be signed, include findings and conclusions of fact and law, and include an order.

B. OAH shall retain jurisdiction to require compliance with the order, or to determine a breach of an approved settlement agreement.

C. A request to determine breach of a settlement agreement shall be filed with the administrative law judge and served upon all interested parties.

D. A request for review by the Review Board shall be filed with the administrative law judge and served upon all interested parties and the Commission.

A.A.C. R20-5-827
R20-5-827. Settlement

A. Settlement is encouraged at any stage of the proceedings where such settlement is consistent with the provisions and objectives of the Act.

B. A settlement agreement submitted by interested parties shall be accompanied by a proposed order which, if appropriate, shall be approved and signed by the administrative law judge.

C. Where parties enter into a settlement agreement, the settlement agreement shall be served upon represented and unrepresented affected employees in the manner set forth in R20-5-806. Proof of such service shall accompany the proposed settlement when submitted to the administrative law judge.

A.A.C. R20-5-828
R20-5-828. Special Circumstances; Waiver of Rules

In special circumstances, or for good cause shown, the administrative law judge may, upon application by any interested party, or on sua sponte, waive any rule or make such orders as justice or the administration of the Act requires.

A.A.C. R20-5-829
R20-5-829. Variances

A. Any hearing concerning variances shall be filed with the Commission and shall be heard by the Commission at a time set by the Commission.

B. Such proceeding shall be informal but shall be transcribed at the expense of the person seeking the variance if a written record of the proceeding is requested.

RULES REVIEWED

ARTICLE 10. WAGE CLAIMS

R20-5-1001. Definitions

In this Article, unless the context otherwise requires:

1. "Claim" means a wage claim pursuant to A.R.S. § 23-356.
2. "Claimant" means an individual who files a claim.
3. "Day" means calendar day.
4. "Department" means the Labor Department of the Industrial Commission of Arizona.
5. "Determination" means a finding by the Department under A.R.S. § 23-357 that a claim is either valid or invalid or that the Department cannot resolve the dispute.
6. "Director" means the Director of the Department.
7. "Dismissal" means an action by the Department in which the Department dismisses the claim and refers the claimant to other statutory remedies.
8. "Notice" or "notification" when made by the Department or the Director means a written communication served on the employer or claimant, or both.

R20-5-1002. Forms

The following forms are available upon request from the Department or from the Industrial Commission of Arizona's website at www.azica.gov:

1. Wage claim. When making a claim, a claimant shall provide the following information to the Department:

    a. Claimant's name, mailing address, e-mail address, telephone number, and date of birth;

    b. Employer's name, address, telephone number, and description of business;

    c. Claimant's dates of employment, position, and pay;

    d. The amount of the wages owed and the time period worked related to the unpaid wages; and

    e. Claimant's signature or electronic signature and signature date.

2. Employer response. The employer responding to a claim shall provide the following information to the Department:

    a. Employer's legal name, including any trade names, legal domicile state, address, telephone number, description of business, and an e-mail address for the designated representative of employer;

    b. Claimant's dates of employment, position, and pay;

c. Whether claimant is owed any wages, and, if so, employer's reason for nonpayment; and

d. Employer's signature or electronic signature and signature date.

R20-5-1003. Filing Requirements; Time for Filing; Computation of Time

A. A claimant shall file a claim with the Department within one year of the date of the accrual of the claim.

B. In computing any period of time prescribed or allowed by this Article, the day of the act or event from which the designated period of time begins to run is not included. The last day of the period and Saturdays, Sundays, and legal holidays are included in the computation of time.

C. The date of filing of the claim is the date the claimant's wage claim form is received by the Department.

D. The Department shall deem a form, document, instrument, or other written record filed at the Tucson office as filed at the Phoenix office for the purpose of computing time.

E. An individual filing a form or document related to a claim shall legibly fill out the form or document.

F. If the wage claim form received from a claimant does not include the information required by R20-5-1002(1), the Department shall return the wage claim form to the claimant with a request that the claimant provide the required information and return the completed wage claim form to the Department within 14 days of the date of service of the Department's request. If the Department does not receive the completed wage claim form within 14 days, the Department shall not initiate an investigation of the claim and the Department shall consider the claim withdrawn without prejudice. The claimant may re-file a withdrawn wage claim with the information required by R20-5-1002(1), if the claim is re-filed within one year of the date of the accrual of the claim.

R20-5-1004. Investigation of Claim

A. The Department shall serve a copy of a claimant's wage claim form on the employer listed on the wage claim, with a request that the employer complete and file the employer response form within 14 days of the date of service of the Department's request.

B. If the Department does not receive the employer response form under subsection (A), the Department shall serve written notice on the employer stating that the employer must pay the amount claimed or file a written response to the wage claim within 14 days of the date of service of the Department's written notice.

C. The Department shall serve a copy of the employer's response on the claimant and offer the claimant the opportunity to file a written reply to the employer's response within 14 days from the date of service. If the Department does not receive claimant's reply within 14 days, the Department shall make a determination of the claim based on the evidence in the file.

D. If the employer fails or refuses to pay the amount claimed or submit a written response to the claim in accordance with subsection (B), the Department shall make a determination of the claim based on the evidence in the file.

E. Upon request from the Department, and if necessary to complete the Department's investigation, the claimant, the employer, or both, shall submit further written information or meet with the Director or the Director's designee. Except for statements made during settlement, mediation, or an informal conference, the Director or the Director's designee may administer oaths for the purpose of taking affidavits and may record the meeting.

F. Upon completion of its investigation, the Department shall serve the Department's determination in writing on the parties.

R20-5-1005. Mediation of Disputes

A. During the investigation of a claim, the Department may mediate and conciliate a dispute between the claimant and the employer.

B. If mediation results in an informal resolution of the claim, the Director or the Director's designee shall prepare and ensure execution of documents providing for the resolution of the claim.

R20-5-1006. Dismissal of Claim

A. The Department shall dismiss a claim if:

1. The claim is filed more than one year after the date of the accrual of the claim,

2. The claimant does not comply with R20-5-1003(F),

3. The amount of wages owed exceeds $5,000.00,

4. The Department's investigation of the claimant's evidence reveals no possible violation of A.R.S. § 23-350 et seq.,

5. The claimant has filed a civil action regarding the same claim,

6. The employer listed on the claim is in bankruptcy,

7. The Department is unable to locate the employer based on the information provided by the claimant, or

8. The wages in question have been withheld from the claimant pursuant to the claimant's prior written authorization.

B. The Department shall send a notice of dismissal to the claimant and, except as provided in subsections (A)(1) through (A)(3) and (7), the Department shall send a notice of dismissal to the employer. Notices of dismissal shall notify the claimant of the availability of other remedies.

R20-5-1007. Notice of Right of Review

A determination issued under A.R.S. § 23-357 shall include a notice informing the parties of their right to seek review under A.R.S. § 23-358 and § 12-901 et seq.

R20-5-1008. Payment of Claim

A. The Department shall send any payment of a wage claim received by the Department to the claimant by certified mail, return receipt requested, unless the claimant elects to pick up the check in person at the Department.

B. If the Department discovers that payment of a wage claim is alleged to have been made directly to the claimant, the Department shall verify the payment by serving the claimant with notice that payment of the wage claim is alleged to have been made directly to the claimant. If the claimant confirms that payment of the wage claim was made directly to the claimant or does not respond to the Department's notice within 14 days of the date of service of the Department's notice, the Department shall deem the claim to have been paid and shall dismiss the wage claim.

C. Payment of a partial amount of a wage claim does not preclude the Department from completing its investigation of the balance of the claim.

D. In the case of a determination and directive for payment issued by the Department under A.R.S. § 23-357, the Department shall, if the employer agrees and with the written consent of the claimant, enter into a payment agreement with the employer for payment of the amount of wages found to be owed the claimant.

R20-5-1009. Service of Determinations, Notices, and Other Documents

A. A determination, notice, or other document required by this Article or other law to be served upon a party, shall be made upon the party, or, if represented by legal counsel, the party's legal counsel. Service upon legal counsel is considered service upon the party.

B. Service may be made and is deemed complete by:

1. Depositing the document in regular or certified mail, addressed to the party served at the address shown in the records of the Department, or by personal delivery upon the party.
2. With a party's consent, transmission by e-mail to the e-mail address shown in the records of the Department.

GENERAL AND SPECIFIC STATUTES

A.R.S. 23-107. General powers

A. The commission has full power, jurisdiction and authority to:

1. Formulate and adopt rules and regulations for effecting the purposes of this article.

2. Administer and enforce all laws for the protection of life, health, safety and welfare of employees in every case and under every law when such duty is not specifically delegated to any other board or officer, and, when such duty is specifically delegated, to counsel, advise and assist in the administration and enforcement of such laws and for such purposes may conduct investigations.

3. Promote the voluntary arbitration, mediation and conciliation of disputes between employers and employees.

4. License and supervise the work of private employment offices, bring together employers seeking employees and working people seeking employment, and make known the opportunities for employment in the state.

5. Collect, collate and publish all statistical and other information relating to employees, employers, employments and places of employment with other appropriate statistics.

6. Act as the regulatory agency insuring that workers' compensation carriers are processing claims in accordance with chapter 6 of this title.

7. Provide nonpublic, confidential or privileged documents, materials or other information to another state, local or federal regulatory agency for the purpose of the legitimate administrative needs of the programs administered by that agency if the recipient agency agrees and warrants that it has the authority to maintain and will maintain the confidentiality and privileged status of the documents, materials or other information.

8. Receive nonpublic documents, materials and other information from another state, local or federal regulatory agency to properly administer programs of the commission. The commission shall maintain as confidential or privileged any document, material or other information that is identified by the exchange agency as confidential or privileged under the laws of the jurisdiction that is the source of the document, material or other information.

9. Enter into agreements that govern the exchange of nonpublic documents, materials and other information that are consistent with paragraphs 7 and 8. The commission may request nondisclosure of information that is identified as privileged or confidential. Any disclosure pursuant to paragraph 7 or 8 or this paragraph is not a waiver of any applicable privilege or claim of confidentiality in the documents, materials or other information.

B. Upon petition by any person that any employment or place of employment is not safe or is injurious to the welfare of any employee, the commission has power and authority, with or without notice, to make investigations necessary to determine the matter complained of.

C. The members of the commission may confer and meet with officers of other states and officers of the United States on matters pertaining to their official duties.

D. Notwithstanding any other law, the commission may protect from public inspection the financial information that is received from a private entity that applies to self-insure or that renews its self-insurance plan pursuant to section 23-961, subsection A if the information is kept confidential by the private entity in its ordinary and regular course of business.

A.R.S. 23-405. Duties and powers of the industrial commission relative to occupational safety and health

The commission shall:

1. Administer the provisions of this article through the division of occupational safety and health.

2. Appoint the director of the division of occupational safety and health.

3. Cooperate with the federal government to establish and maintain an occupational safety and health program as effective as the federal occupational safety and health program.

4. Promulgate standards and regulations as required, pursuant to section 23-410, and promulgate such other rules and regulations as are necessary for the efficient functioning of the division.

5. Have the authority to issue reasonable temporary, experimental and permanent variances pursuant to sections 23-411 and 23-412.

6. Exercise such other powers as are necessary to carry out the duties and requirements of this article.

A.R.S. 23-420. Hearing rights and procedures

A. Subject to section 23-417, an interested party may request a hearing.

B. A request for hearing shall be made in writing, signed by or on behalf of the interested party and including the requesting party's address and e-mail address, stating that a hearing is desired, and mailed or e-mailed to the commission. The request shall also state with particularity the violation, abatement period or penalty that is being protested. Any violation, abatement period or penalty not protested within the time limit specified on the citation or penalty notice will be deemed admitted.

C. The commission shall refer the request for hearing to the office of administrative hearings for determination as expeditiously as possible. The administrative law judge assigned to hear a case arising out of this article shall either be employed or contracted by the office of administrative hearings.

D. At least five days before any hearing, notice of the time and place of the hearing shall be given to all parties in interest by mail at their last known address. The hearing shall be held in the county where the violation has occurred or such other place as selected by the administrative law judge.

E. A record of all proceedings at the hearing shall be kept but need not be transcribed unless a party requests a review of the decision of the administrative law judge.

F. Except as otherwise provided in this section and by rules of procedure promulgated by the commission pursuant to section 23-405, paragraph 4, the administrative law judge is not bound by common law or statutory rules of evidence or by technical or formal rules of procedure and shall conduct the hearing in any manner that will achieve substantial justice.

G. An interested party is entitled to the issuance of subpoenas for the attendance of witnesses, parties and the production of reports, papers, contracts, books, accounts, documents and testimony that are relevant and material to the issue. The commission or the administrative law judge shall issue such subpoenas. The commission may initiate contempt proceedings against any person who refuses to comply with a duly issued subpoena, on application to the superior court. Any person held in contempt may be punished by a fine of not more than one thousand dollars.

GENERAL AND SPECIFIC STATUTES

A.R.S. § 23-107. General powers

A. The commission has full power, jurisdiction and authority to:

1. Formulate and adopt rules and regulations for effecting the purposes of this article.

2. Administer and enforce all laws for the protection of life, health, safety and welfare of employees in every case and under every law when such duty is not specifically delegated to any other board or officer, and, when such duty is specifically delegated, to counsel, advise and assist in the administration and enforcement of such laws and for such purposes may conduct investigations.

3. Promote the voluntary arbitration, mediation and conciliation of disputes between employers and employees.

4. License and supervise the work of private employment offices, bring together employers seeking employees and working people seeking employment, and make known the opportunities for employment in the state.

5. Collect, collate and publish all statistical and other information relating to employees, employers, employments and places of employment with other appropriate statistics.

6. Act as the regulatory agency insuring that workers' compensation carriers are processing claims in accordance with chapter 6 of this title.1

7. Provide nonpublic, confidential or privileged documents, materials or other information to another state, local or federal regulatory agency for the purpose of the legitimate administrative needs of the programs administered by that agency if the recipient agency agrees and warrants that it has the authority to maintain and will maintain the confidentiality and privileged status of the documents, materials or other information.

8. Receive nonpublic documents, materials and other information from another state, local or federal regulatory agency to properly administer programs of the commission. The commission shall maintain as confidential or privileged any document, material or other information that is identified by the exchange agency as confidential or privileged under the laws of the jurisdiction that is the source of the document, material or other information.

9. Enter into agreements that govern the exchange of nonpublic documents, materials and other information that are consistent with paragraphs 7 and 8. The commission may request nondisclosure of information that is identified as privileged or confidential. Any disclosure pursuant to paragraph 7 or 8 or this paragraph is not a waiver of any applicable privilege or claim of confidentiality in the documents, materials or other information.

B. Upon petition by any person that any employment or place of employment is not safe or is injurious to the welfare of any employee, the commission has power and authority, with or without notice, to make investigations necessary to determine the matter complained of.

C. The members of the commission may confer and meet with officers of other states and officers of the United States on matters pertaining to their official duties.

D. Notwithstanding any other law, the commission may protect from public inspection the financial information that is received from a private entity that applies to self-insure or that

renews its self-insurance plan pursuant to § 23-961, subsection A if the information is kept confidential by the private entity in its ordinary and regular course of business.

A.R.S. § 23-361. Rules and regulations

The commission may adopt such rules and regulations as necessary for the purpose of administering and enforcing this article.

E-5.

ARIZONA GAME AND FISH COMMISSION
Title 12, Chapter 4, Article 8

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 13, 2025

SUBJECT: **ARIZONA GAME AND FISH COMMISSION**
Title 12, Chapter 4, Article 8

Summary

This Five-Year Review Report (5YRR) from the Arizona Game and Fish Commission (Commission) relates to three (3) rules in Title 12, Chapter 4, Article 8 regarding Wildlife Areas and Department Property. Specifically, the rules establish the purposes for wildlife areas, specify the types of Commission-owned or managed property that may be designated as a wildlife area, and provide notice to the public of restrictions that apply to each specific wildlife area.

In the previous 5YRR for these rules, which was approved by the Council in April 2020, the Commission proposed to amend rule R12-4-802 to establish camping time-frames applicable to all wildlife areas that are less restrictive, reduce confusion, and increase consistency between the Commission's wildlife area rules. Additionally, the Commission proposed to amend rule R12-4-801 to establish the Department may post signs placing additional restrictions on the use of wildlife areas related to timing, type, duration, nature of use, or to prohibit access. The Commission indicates it completed the prior proposed course of action through an exempt rulemaking which became effective in February 2021

Proposed Action

In the current report, the Commission indicates the rules are clear, concise, understandable, consistent, effective, and enforced as written. Nevertheless, the Commission states it typically amends the Article 8 rules on a biennial basis to implement recommendations resulting from the most recent data/research for specific wildlife areas and boundary descriptions which includes adjusting wildlife boundary descriptions for properties acquired and sold by the Commission, increasing consistency between wildlife areas regarding camping, recreational shooting, and travel; and ensuring public safety. Every five years, recommendations are submitted to the Compliance and Strategies Section by Commission wildlife managers and biologists after the previous years wildlife, harvest, and habitat data are collected and evaluated. Recommendations are intended to promote and maintain public safety and protect and enhance Arizona's diverse wildlife. As such, the Commission proposes to amend the rules to implement recommendations resulting from data and research gathered over the last five years for specific wildlife areas. Additionally, while the Commission has determined the rules are enforceable, the Commission proposes to amend Rl2-4-801 and Rl2-4-802, based on comments submitted by regional personnel to reduce confusion and lessen burdens and costs wherever practical, and make other changes supported by data gathered over the last five years. The Commission anticipates submitting the Notice of Final Exempt Rulemaking for actions proposed in this report to the Secretary of State's office and a copy of the final exempt rules to the Council in compliance with A.R.S. §41-1024(G) by February 2026.

1. Has the agency analyzed whether the rules are authorized by statute?

The Commission cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Commission states that it promulgated the rules in Article 8 under exemption from the Administrative Procedure Act (Act). The Commission states there are no previous economic impact statements for the rulemaking associated with Article 8 rules because the Commission promulgated the rules under an exemption from the Act. The Commission indicates that the Act does not apply to any rule that relates to the use of public works, including streets and highways, under the jurisdiction of an agency if the effect of the order is indicated to the public by means of signs or signals.

The Commission states that with respect to the Article 8 rules, the rules do not impose any direct or indirect costs on the regulated community, other state agencies, political subdivisions, private business, or the public. The Commission states the recreational use of wildlife areas by members of the public is a voluntary activity; and the authorized uses and restrictions are intended to promote and maintain public safety and protect and enhance Arizona's diverse wildlife.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Commission states that the Arizona Game and Fish Department tasked a team of employees to review the rules contained within Article 8. The Department prepared a report of its findings based on Council standards. In its report, the review team addressed all internal comments from agency staff; and the one comment received from the public over the last five years. The Commission states that the team took a customer-focused approach, considering each comment from a resource perspective and determining whether the request would cause undue harm to the state's wildlife or negatively affect the Department's wildlife objectives. The review team then determined whether the request was consistent with the Department's overall mission, if it could be effectively implemented given agency resources, and if it was acceptable to the public.

The Commission states that wildlife areas are comprised of lands owned or leased by the Commission, federally-owned lands of unique wildlife habitat where cooperative agreements provide wildlife management and research implementation, and any lands with property interest conveyed to the Commission through an approved land use agreement, where said property interest is sufficient for management of the lands consistent with the objectives of the wildlife area. The Commission states that the rules provide balance to protect and ensure public access to and use of these properties, while also affording protection to wildlife. The Department believes that once the proposed amendments indicated in the report are made, the rules will impose the least burden and costs to persons regulated by the rules.

4. Has the agency received any written criticisms of the rules over the last five years?

The Commission indicates it received comments on November 8 and 11, 2020 from an individual who had concerns about the Department's management of their wildlife areas (WLA) and in particular the Lamar Haines WLA. The individual's concerns and the Commission's response are outlined in Section 7 of the Commission's report. Council staff believes the Commission has adequately addressed the written criticisms received in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Commission indicates that the rules are clear, concise, and understandable. The Commission acknowledges that the legal descriptions of the wildlife areas provided under R12-4-803 are complex, but are necessary from a legal standpoint as they identify the areas in a manner consistent with real property standards and facilitate enforcement of restrictions established under R12-4-802.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Commission indicates the rules are consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Commission indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Commission indicates the rules are currently enforced as written.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Commission indicates the rules are based on state law and no federal law is directly applicable to the subject of the rules.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Commission indicates that the rules do not require the issuance of a regulatory permit, license, or agency authorization.

11. Conclusion

This 5YRR from the Commission relates to three (3) rules in Title 12, Chapter 4, Article 8 regarding Wildlife Areas and Department Property. The Commission indicates the rules are clear, concise, understandable, consistent, effective, and enforced as written. Nevertheless, the Commission states it typically amends the Article 8 rules on a biennial basis to implement recommendations resulting from the most recent data/research for specific wildlife areas and boundary descriptions which includes adjusting wildlife boundary descriptions for properties acquired and sold by the Commission, increasing consistency between wildlife areas regarding camping, recreational shooting, and travel; and ensuring public safety. Additionally, while the Commission has determined the rules are enforceable, the Commission proposes to amend Rl2-4-801 and Rl2-4-802, based on comments submitted by regional personnel to reduce confusion and lessen burdens and costs wherever practical, and make other changes supported by data gathered over the last five years. The Commission anticipates submitting the Notice of Final Exempt Rulemaking for actions proposed in this report to the Secretary of State's office and a copy of the final exempt rules to the Council in compliance with A.R.S. §41-1024(G) by February 2026.

Council staff recommends approval of this report.

RE: Arizona Game and Fish Commission, 12 A.A.C, Ch 4, Article 8 Wildlife Areas and Department Property Five-year Review Report

Dear Jessica Klein:

Please find enclosed the Five-year Review Report of Arizona Game and Fish Department (AZGFD) for 12 A.A.C, Ch 4, Article 8 which is due on March 31, 2025.

AZGFD hereby certifies compliance with A.R.S. 41-1091.

For questions about this report, please contact Celeste Cook at (623) 236-7390 or ccook@azgfd.gov.

Sincerely,

Tom Finley, Director

ARIZONA GAME AND FISH COMMISSION

2024 FIVE-YEAR REVIEW REPORT

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

ARTICLE 8. WILDLIFE AREAS AND DEPARTMENT PROPERTY

PREPARED FOR THE

GOVERNOR'S REGULATORY REVIEW COUNCIL

Under A.R.S. § 41-1056, every agency shall review its rules at least once every five years to determine whether any rule should be amended or repealed. Each agency shall prepare a report summarizing its findings, its supporting reasons, and any proposed course of action; and obtain approval of the report from the Governor's Regulatory Review Council (G.R.R.C.).

G.R.R.C. determines the review schedule. The Arizona Game and Fish Commission's rules listed under Article 8, Wildlife Areas and Department Property, are scheduled to be reviewed by March 2025.

This five-year-review report covers three rules in A.A.C. Title 12, Chapter 4, Article 8 that relate to wildlife areas and Department property:

- R12-4-801. General Provisions
- R12-4-802. Wildlife Area and Other Department Managed Property Restrictions
- Rl2-4-803. Wildlife Area and Other Department Managed Property Boundary Descriptions

The Commission promulgated the rules in Article 8 under an exemption from the Administrative Procedure Act (Act). Under A.R.S. § 41-1005(A)(l), the Act does not apply to any "[r]ule that relates to the use of public works, including streets and highways, under the jurisdiction of an agency if the effect of the order is indicated to the public by means of signs or signals." The term "public works" is not defined under Title 17, but the ordinary dictionary definition is '[a]ny building or structure on land ... built by the government for public use and paid for by public funds." The rules identify public usage requirements for public works under the Department's jurisdiction.

1. **General and specific statutes authorizing the rule, including any statute that authorizes the agency to make rules.**

   For all of the Article 8 rules, the authorizing statute is A.R.S. § 17-231(A)(l) and the implementing statutes are A.R.S. §§ 17-23l(B)(2) and 41-1005(A).

2. **Objective of the rule, including the purpose for the existence of the rule.**

   For Rl2-4-801 General Provisions, the objective of this rule is to establish the purposes for wildlife areas, to specify the types of Commission-owned or -managed property that may be designated as a wildlife area, and to notice the public of restrictions that apply to each specific wildlife area. The rule provides protections to Commission-owned and -managed wildlife areas and other properties, while maximizing public access and use of the same properties.

   For Rl2-4-802 Wildlife Area and Other Department Managed Property Restrictions, the objective of this rule is to establish the restrictions and allowable activities applicable to the use of wildlife areas and other Department managed property. The rule provides protections to Commission-owned and -managed wildlife areas and other properties, while maximizing public access and use of the same properties.

For RI 2-4-803 Wildlife Area and Other Department Managed Property Boundary Descriptions, the objective of the rule is to establish the legal boundary descriptions for designated wildlife areas.

3. Effectiveness of the rule in achieving the objective, including a summary of any available data supporting the conclusion reached.

For all of the Article 8 rules, the rules appear to be effective in achieving the objective stated above. At the beginning of each rule review, Department employees are asked to provide comments and suggested rule changes for any areas of concern, etc. Responses indicate the rules are understandable and applicable. The Department believes this data indicates the rules are effective.

The Department typically amends the Article 8 rules on a biennial basis to implement recommendations resulting from the most recent data/research for specific wildlife areas and boundary descriptions which includes adjusting wildlife boundary descriptions for properties acquired and sold by the Department, increasing consistency between wildlife areas regarding camping, recreational shooting, and travel; and ensuring public safety. Every five years, recommendations are submitted to the Compliance and Strategies Section by Department wildlife managers and biologists after the previous years wildlife, harvest, and habitat data are collected and evaluated. Recommendations are intended to promote and maintain public safety and protect and enhance Arizona's diverse wildlife.

The Department proposes to amend the rules to implement recommendations resulting from data and research gathered over the last five years for specific wildlife areas. These amendments may include allowing fires in designated areas wherever practical or prohibiting fires to protect human life, property, and natural resources in areas where high fuel loads exist or the wildlife area is in a high fire risk area. Allowing firewood cutting or gathering for noncommercial onsite use only wherever practical or prohibiting firewood gathering in areas that do not support appreciable quantities of utilizable wood, with the possible exception of riparian tree species that are of high wildlife value. Allowing overnight public camping for up to 14 days within any 30-day period wherever practical. Allowing motorized big game retrieval wherever hunting for big game is permitted, where big game animals are present in or near the wildlife area, and the surrounding habitat lends itself to off-road motorized big game retrieval or prohibiting big game retrieval in areas where wildlife, wildlife habitat, crop production, or research activities may be harmed by cross country travel. Allowing hunting and fishing wherever practical, when authorized by Commission Order or prohibiting the use of firearms for the purpose of taking wildlife when the wildlife area is not conducive to the use of firearms due to its proximity to populated areas or occupied dwellings.

4. Consistency of the rule with state and federal statutes and other rules made by the agency, and a listing of the statutes or rules used in determining the consistency.

For R12-4-801 through R12-4-803, which relate to wildlife areas, the Commission may "[e]stablish game management units or refuges for the preservation and management of wildlife." A.R.S. § 17-231(B)(2). Game management unit boundaries are prescribed under Rl2-4-108, while wildlife area boundaries are prescribed under Rl2-4-803. A "management unit" is defined as "an area established by the Commission for management purposes." only. In contrast, a "wildlife area" designation is used for "preservation and management of wildlife."

For all of the Article 8 rules, the rules appear to be consistent with and are not in conflict with applicable statutes and rules. Statutes and rules used in determining consistency include A.R.S. Title 17 and A.A.C. Title 12, Chapter 4."

5. Agency enforcement policy, including whether the rule is currently being enforced and, if so, whether there are any problems with enforcement.

For all of the Article 8 rules, the rules are currently being enforced and the Department is not aware of any problems with the enforcement of the rule.

While the Department has determined the rules are enforceable, the Department proposes to amend Rl2-4-801 and Rl2-4-802, based on comments submitted by regional personnel to reduce confusion and lessen burdens and costs wherever practical, and make other changes supported by data gathered over the last five years.

6. Clarity, conciseness, and understandability of the rule.

For all of the Article 8 rules, the rules are clear, concise, and understandable. While the legal descriptions of the wildlife areas provided under Rl2-4-803 (Wildlife Area and Other Department Managed Property Boundary Descriptions) are often complex, previous Attorney General reviews indicate the wildlife area boundary descriptions are necessary from a legal standpoint as they identify areas in a manner consistent with real property standards and facilitate enforcement of the restrictions established under Rl2-4-802.

7. Summary of the written criticisms of the rule received by the agency within the five years immediately preceding the Five-year Review Report, including letters, memoranda, reports, written analyses submitted to the agency questioning whether the rules is based on scientific or reliable principles, or methods, and written allegations made in litigation and administrative proceedings in which the agency was a party that the rule is discriminatory, unfair, unclear, inconsistent with statute, or beyond the authority of the agency to enact, and the conclusion of the litigation and administrative proceedings.

Written Criticism: On November 8 and 11, 2020 the Department received comments from an individual who had concerns about the Department's management of their wildlife areas (WLA) and in particular the Lamar Haines WLA. The comments had to do with the following: allowing camping and fires on WLA's (which would

lead to increased littering, human/wildlife conflicts, deterrent from wildlife using water on the property, and damage to cultural resources) and target shooting (would lead to illegal take of wildlife). In addition, they were interested in additional signage on hunting regulations. They felt that in some cases WLA's should not allow hunting (Cibola WLA) and that it was a public safety risk with an increasing population in Arizona being interested in watchable wildlife. They felt that WLA's should be safe zones for wildlife and that they did not have to be managed consistently with the surrounding lands. With these concerns they wanted to know why WLAs were established, if not to protect wildlife.

Agency Response: Thank you for taking the time to your comment regarding the proposed changes to the Lamar Haines Wildlife Area restrictions. Please consider this letter as a response to your comments submitted to the Department on November 8th and 11th. Although your comments were received after the public comment period (September 28 through October 28th), please know your comments were shared with the team and the Lamar Haines Wildlife Areas property stewards. Your comments have also been placed in the rule record for consideration by future rule review and rulemaking teams. As stated in R12-4-801 (general provisions) wildlife areas are established to provide protective measures for wildlife, habitat, or both; allow for hunting, fishing, and other recreational activities that are determined to be compatible with wildlife habitat conservation and education; allow for special management or research practices; and enhance wildlife and habitat conservation. "Other recreational activities" include camping, backpacking, hiking, general wildlife viewing and photography, etc. R12-4-802 (wildlife area and other department managed property restrictions) establishes the restrictions and limitations on recreational uses of Commission-owned and -managed wildlife areas, with the intent of maximizing public access and use of these properties. The Commission amends wildlife area restrictions to affect recommendations made from data gathered by regional staff and those submitted by local government agencies (includes political subdivisions), local law enforcement, members of the public, etc. The Commission allows target shooting and, when authorized by Commission Order, hunting, wherever practical. The use of firearms for the purpose of target shooting and/or taking wildlife is prohibited when the wildlife area is not conducive to the use of firearms due to its proximity to populated areas or occupied dwellings. It is important to note, grebes are federally protected migratory birds and may not be taken as defined and protected under federal law. We hope the wildlife biologist who discovered the violation reported the incident to the U.S. Fish and Wildlife Migratory Bird Program for further investigation. The proposal to allow dispersed camping on the Lamar Haines Wildlife Area is based on the foundation of increasing public access where possible, increasing consistency between wildlife area rules when applicable, and increasing consistency across multiple jurisdictions whenever possible, such as bringing the wildlife area rules in alignment with the surrounding Coconino National Forest regulations. Please note that dispersed camping for no more than 14 consecutive days in a 30-day period is allowed on the land surrounding the wildlife area (Coconino National Forest). The Department does not believe the proposed change will elevate the risk of human/wildlife conflicts in the wildlife area because Coconino National Forest management has allowed camping on their lands within the San Francisco Peaks for some time and the Department is not aware of any incidents or received any reports of human/wildlife conflicts involving campers in that area. Overnight camping would be managed by signage, such as informational signs at the entrance to the

wildlife area outlining allowed activities and restrictions. In addition, new map signage posted at the entrance to the wildlife area will not depict the locations of cultural significant sites within the property and informational signs will be utilized to mitigate possible camping impacts to the property and its cultural resources (such as signage stating the area is under surveillance; it is against the law to deface cultural sites, etc.). Because camping access may only be gained by foot and vehicular access is controlled through a locked gate, Regional staff does not expect an influx of recreational or semi-permanent campers as a result of the proposed rule change. Additionally, there are no indications that the property is incurring any significant damage as a result of current public access and use. However, the Department is meeting with U.S.F.S staff to discuss this proposal further. The Commission prohibits fires to protect human life, property, and natural resources in areas where high fuel loads exist or the wildlife. R12-4-802 (wildlife area and other department managed property restrictions) currently prohibits campfires on this wildlife area due to the fuel loads, no fires are allowed on the property; and this rulemaking does not propose to change that. Fire restrictions are implemented in alignment with Coconino National Forest designations based on scientific data gathered by the Coconino National Forest. The Department follows a multi-tiered process for setting hunting season structures, hunting season dates, hunt permit allocations, and other controlling elements for regulating hunting of game animals. This is done by using a science-based process designed to ensure sustainable populations of wildlife for future generations to enjoy. Hunt recommendations are proposed three times annually and are made final through Commission Orders. There are times when a hunt structure is modified mid-cycle. Posting signage that is subject to change on a frequent basis is not cost effective and burdensome to the Department. A person need only review the information provided on the Department's website prior to visiting a wildlife area to determine whether a hunt is occurring in a specific area. Information regarding when and where hunts are going on is readily available in the hunting regulations and on the Department's website. This web page provides access to hunt regulations where you can obtain information on hunt seasons and units: https://www.azgfd.com/hunting/regulations/. In addition, to make it simpler, R12-4-802 (wildlife area and other department managed property restrictions) specifies which unit(s) a wildlife area is located in. Simply search for the unit number for the wildlife area that you plan to visit. Please note, small game and nongame hunts may occur in certain areas throughout the entire year. The Commission and Department are entrusted to conserve and protect more than 800 native wildlife species in the state. Wildlife areas provide a benefit to the general public by providing quality space for people to recreate and, when authorized by Commission Order, hunt and fish. These activities and public visitation can draw people into local communities and businesses, resulting in a positive impact to local economies. The rules provide balance to protect and ensure public access to and use of these properties, while also affording protection to wildlife. The Department believes that once the proposed amendments indicated in the report are made, the rules will impose the least burden and costs to persons regulated by the rules.

8. **A comparison of the estimated economic, small business, and consumer impact of the rule with the economic, small business, and consumer impact statement prepared on the last making of the rule or, if no economic, small business, and consumer impact statement was prepared on the last making of the rule, an assessment of the actual economic, small business, and consumer impact of the rule.**

There are no previous economic impact statements for the rulemakings associated with the Article 8 rules because the Commission promulgated the rules under an exemption from the Act. The Act does not apply to any "[r]ule that relates to the use of public works, including streets and highways, under the jurisdiction of an agency if the effect of the order is indicated to the public by means of signs or signals."

With respect to the Article 8 rules, the rules do not impose any direct or indirect costs on the regulated community, other state agencies, political subdivisions, private business, or the public. The recreational use of wildlife areas by members of the public is a voluntary activity; and the authorized uses and restrictions are intended to promote and maintain public safety and protect and enhance Arizona's diverse wildlife.

The Department believes the rules do not impose any costs to agencies or political subdivisions of this state directly affected by the implementation and enforcement of the rules, and does not impose any additional costs or reduction in revenues to businesses (large or small). The Department believes the rules have no effect on the revenues or payroll expenditures of employers in the state. The rules have resulted in minimal administrative costs to the Department. The Department has determined that the benefits of the rules outweigh any costs.

9. Any analysis submitted to the agency by another person regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states.

The Department did not receive any analyses.

10. If applicable, how the agency completed the course of action indicated in the agency's previous five-year review report.

The Department completed the course of action indicated in the previous five-year review report as follows: Notice of Final Exempt Rulemaking: 27 A.A.R. 242, February 19, 2021, R21-15.

11. A determination after analysis that the probable benefits of the rule within this state outweigh the probable costs of the rule and the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective.

The Arizona Game and Fish Department tasked a team of employees to review the rules contained within Article 8. The Department prepared a report of its findings based on G.R.R.C. standards. In its report, the review team addressed all internal comments from agency staff; and the one comment received from the public over the last five years. The team took a customer-focused approach, considering each comment from a resource perspective and determining whether the request would cause undue harm to the state's wildlife or negatively affect the Department's wildlife objectives. The review team then determined whether the request was

consistent with the Department's overall mission, if it could be effectively implemented given agency resources, and if it was acceptable to the public.

Wildlife areas are intended to conserve and protect wildlife and to provide public recreational opportunities to the general public. Wildlife areas are comprised of lands owned or leased by the Commission, federally-owned lands of unique wildlife habitat where cooperative agreements provide wildlife management and research implementation, and any lands with property interest conveyed to the Commission through an approved land use agreement, where said property interest is sufficient for management of the lands consistent with the objectives of the wildlife area. Wildlife areas provide a benefit to the general public by providing quality space for people to recreate and, when authorized by Commission Order, hunt and fish. In addition, these activities and public visitation can draw people into local communities and businesses, positively impacting local economies. The rules provide balance to protect and ensure public access to and use of these properties, while also affording protection to wildlife. The Department believes that once the proposed amendments indicated in the report are made, the rules will impose the least burden and costs to persons regulated by the rules.

12. A determination after analysis that the rule is not more stringent than a corresponding federal law unless there is statutory authority to exceed the requirements of that federal law.

Federal law is not directly applicable to the subject of the rule; the rule is based on state law.

13. For a rule adopted after July 29, 2010, that require the issuance of a regulatory permit, license, or agency authorization, whether the rule complies with A.R.S. § 41-1037.

The rules do not require the issuance of a regulatory permit, license, or agency authorization.

14. Course of action the agency proposes to take regarding the rule, including the month and year in which the agency anticipates submitting the rule to the Council if the agency determines it is necessary to amend or repeal an existing rule or make a rule. If no issues are identified for a rule in the report, an agency may indicate that no action is necessary for the rule.

The Department anticipates submitting the Notice of Final Exempt Rulemaking for actions proposed in this report to the Secretary of State's office and a copy of the final exempt rules to the Council in compliance with A.R.S. §41-1024(G) by February 2026.

NOTICES OF EXEMPT RULEMAKING

The Administrative Procedure Act requires the *Register* publication of the rules adopted by the state's agencies under an exemption from all or part of the Administrative Procedure Act. Some of these rules are exempted by A.R.S. §§ 41-1005 or 41-1057; other rules are exempted by other statutes; rules of the Corporation Commission are exempt from Attorney General review pursuant to a court decision as determined by the Corporation Commission.

NOTICE OF EXEMPT RULEMAKING

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

PREAMBLE

1. Sections Affected — **Rulemaking Action**

Article 8	New Article
R12-4-801	New Section
R12-4-802	New Section
R12-4-803	New Section

2. The specific authority for the rulemaking, including both the authorizing statute (general) and the statutes the rules are implementing (specific);

Authorizing statute: A.R.S. § 17-231(A)(1)(2) and (3) for all rules

Implementing statute: A.R.S. § 17-231(B)(2), (B)(3) and (B)(7)

3. The effective date of the rules:

May 1, 2000

4. A list of all previous notices appearing in the Register addressing the final rule:

Not applicable

5. The name and address of agency personnel with whom persons may communicate regarding the rulemaking:

Name: Dona Marie Markley, Rulewriter

Address: Arizona Game and Fish Department DORR
2221 West Greenway Road
Phoenix, AZ 85023-4399

Telephone: (602) 789-3271

Fax: (602) 789-3677

6. An explanation of the rule, including the agency's reasons for initiating the rule:

A.R.S. § 41-1005(A)(1) exempts the Commission from the rulemaking requirements of A.R.S. Title 41, Chapter 6 for wildlife area rules. Based upon this statutory exemption, the Commission has adopted new wildlife area rules to replace Commission Rule R12-4-109, which is repealed effective May 1, 2000. The new wildlife area rules provide protective measures for wildlife and habitat, allow for special management and research practices, and enhance wildlife and habitat conservation. R12-4-801 prescribes criteria for lands that qualify as wildlife areas; R12-4-802 prescribes how public access to wildlife areas may be restricted or closed to entry; and R12-4-803 describes the boundaries of the wildlife areas.

7. A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study and any analysis of the study and other supporting material:

Not applicable

8. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. The summary of the economic, small business, and consumer impact:

The rules will result in no new costs to the Department or any other persons. The adoption of exempt wildlife area rules that adequately protect wildlife and habitat will benefit the public and the Department.

10. A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):

A.R.S. § 41-1005(A)(1) exempts the Commission from the rulemaking requirements of A.R.S. Title 41, Chapter 6 for wildlife area rules. Based upon this statutory exemption, the Commission has adopted new wildlife area rules to replace Commission Rule R12-4-109, which is repealed effective May 1, 2000. The changes from current R12-4-109 and from the new, exempt rules as originally drafted and distributed to the public are as follows:

Changes from R12-4-109:

• The new wildlife area rules are exempt rules: As such, the rulemaking process is not subject to the confines of the Arizona Administrative Procedure Act. This will allow the Commission to amend the rules annually in conjunction with the adoption of Commission Orders.

• R12-4-801. General Provisions: The only change under general provisions is the addition of language in subsection (B)(3) allowing the Department to designate existing forms of property interests as wildlife areas.

• R12-4-802. Wildlife Area Restrictions: This is a new rule that lists land use restrictions for each wildlife area and prescribes how public access to wildlife areas may be restricted or closed to entry. Land use and access restrictions previously included in Commission Order 1 are now identified here instead.

• R12-4-803. Wildlife Area Boundary Descriptions: Eight new wildlife areas (Chevelon Ranches, Colorado River Nature Center, Quigley, Sipe White Mountain, Sunflower Flat, Upper Verde River, Wenima, and White Mountain Grasslands) are added. Two existing wildlife areas that no longer meet the criteria for establishment of a wildlife area (Painted Rock and Santa Rita) are deleted. Existing boundaries for some wildlife areas are amended to reflect changes in ownership status.

Changes from the new, exempt rules as originally drafted:

• R12-4-801. General Provisions: No changes.

• R12-4-802. Wildlife Area Restrictions: White Mountain Grasslands Wildlife Area was added and corresponding restrictions listed. In addition, language among the areas was standardized whenever possible and amended to be consistent with Commission Orders.

• R12-4-803. Wildlife Area Boundary Descriptions: A boundary description for White Mountain Grasslands Wildlife Area was added. At this time, this new area will include Cross L Ranch, which was recently purchased by the Department. In the near future, Ocote Ranch parcel (which the Department is in the process of acquiring) will be added.

11. A summary of the principal comments and the agency response to them:

Notice of the rulemaking, including an explanation of the rules and draft rule language, was given to the public through mailings and distribution at 14 statewide 2000 Hunt Regulations meetings. Public Hearings were also held at Alamo Lake on February 14, 2000; in Showlow, Arizona on February 16, 2000; in Yuma, Arizona on February 16, 2000; and in Springerville, Arizona on February 17, 2000. Written public comments were also accepted through February 22, 2000.

A summary of the principal comments and the agency response to them are as follows:

1. **Comment:** Support for the proposed rules.

Evaluation: The Department agrees that the rules are necessary.

2. **Comment:** Support for the proposed rules, but concern that the rules are not always fairly and reasonably enforced.

Evaluation: The Department agrees that the rules are necessary and that they should be fairly and reasonably enforced at all times.

3. **Comment:** Support for the changes that will allow the Department to designate existing forms of property interests as wildlife areas.

Evaluation: The Department agrees.

4. **Comment:** Support for adding land use restrictions to the rule; but a request that the Department accept pub-

lic comment about the restrictions and list the restrictions on the Department's web site and in its publications.

Evaluation: The Department agrees and will include the land use restrictions in public access information whenever possible.

5. **Comment:** Burro impacts should be addressed in R12-4-801. General Provisions.

Evaluation: The Department does not believe it is necessary to add oversight regarding burros on wildlife areas.

6. **Comment:** Request that closure dates for wildlife areas 17 (Mittry Lake), 19 (Quigley), 22 (Roosevelt Lake), and 3 (Whitewater Draw) be consistent whenever possible.

Evaluation: The Department agrees that whenever possible restrictions should be consistent throughout wildlife areas. However, the Department found that based upon the differences in area elevations and the species of wildlife seeking refuge the differences in closure dates for these areas are necessary.

7. **Comment:** Restrictions or prohibitions on skiing and/or jet skiing should be added to wildlife areas like Mittry Lake.

Evaluation: The Department does not believe that it is necessary to add restrictions regarding skiing or jet skiing to wildlife areas.

8. **Comment:** The 10-day camping rule should be strictly enforced at Mittry Lake.

Evaluation: The Department agrees.

9. **Comment:** Fishing access should be addressed for Quigley Wildlife Area.

Evaluation: The Department believes that fishing access is adequately addressed in the fishing regulations per Commission Order 40 and does not need to be addressed in R12-4-802.

10. **Comment:** Motorized vehicle restrictions should be clarified for Alamo Wildlife Area.

Evaluation: The Department believes that motorized vehicle restrictions are adequately addressed in the Alamo Wildlife Area restriction identifying that such travel is permitted on designated roads, trails, or areas only.

12. Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:

Not applicable

13. Incorporations by reference and their location in the rules:

None

14. Was this rule previously adopted as an emergency rule?

No

15. The full text of the rules follows:

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

ARTICLE 8. WILDLIFE AREAS

Section
R12-4-801. General Provisions
R12-4-802. Wildlife Area Restrictions
R12-4-803. Wildlife Area Boundary Descriptions

ARTICLE 8. WILDLIFE AREAS

R12-4-801. General Provisions

A. Wildlife areas shall be established to:
1. Provide protective measures for wildlife, habitat, or both; and
2. Allow for special management or research practices; and
3. Enhance wildlife and habitat conservation.

B. Wildlife areas shall be:

1. Lands owned or leased by the Commission and managed by the Department, or
2. Federally-owned lands of unique wildlife habitat where cooperative agreements provide wildlife management and research implementation.
3. Any lands with property interest conveyed to the Commission by any entity, through approved land use agreement, including but not limited to deeds, patents, leases, conservation easements, special use permits, licenses, agreement, management agreement, inter-agency agreements, letter agreements, and right-of-entry, where said property interest is sufficient for management of the lands consistent with the objectives of the wildlife area.

C. Wildlife area designation shall not be given to any private lands, or lands in which private parcels are located, solely for the purpose of protecting private property. Wildlife area designation on private property, or where private property is involved, shall be considered by the Commission only when the Commission and the owners arrive at a mutual agreement that shall not confine or restrict the Department in fulfilling management or research objectives, nor close the area to hunting, trapping, or fishing.

D. Land qualified for wildlife areas shall be:
1. Lands with unique topographic or vegetative characteristics that contribute to wildlife,
2. Lands where certain wildlife species are confined because of habitat demands,
3. Lands that can be physically managed and modified to attract wildlife, or
4. Lands that are identified as critical habitat for certain wildlife species during critical periods of their life cycles.

E. The Department may restrict public access to and public use of wildlife areas and the resources of wildlife areas for up to 90 days when necessary to protect property, ensure public safety, or to ensure maximum benefits to wildlife. Closures or restrictions exceeding 90 days shall require Commission approval.

F. Closures of all or any part of a wildlife area to public entry, and any restriction to public use of a wildlife area, shall be listed in this Article or shall be clearly posted at each entrance to the wildlife area. No person shall conduct an activity restricted by this Article or by such posting.

G. When a wildlife area is posted against travel except on existing roads, no person shall drive a motor-operated vehicle over the countryside except by road.

F. Effective May 1, 2000.

R12-4-802. Wildlife Area Restrictions

A. No person shall violate the following restrictions on Wildlife Areas:
1. Alamo Wildlife Area (located in Units 16A & 44A):
   a. Wood collecting limited to dead and down material, for onsite noncommercial use only.
   b. Overnight public camping in the wildlife area outside of Alamo State Park allowed for no more than 14 days within a 45-day period.
   c. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
   d. Open to hunting in season.
2. Allen Severson Wildlife Area (located in Unit 3B):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Posted portions closed to discharge of all firearms from April 1 to July 31 annually.
   e. Open to hunting in season, except posted portions closed to hunting from April 1 to July 31 annually.
3. Aravaipa Canyon Wildlife Area (located in Units 31 & 32):
   a. Access to Aravaipa Canyon Wilderness Area is by permit only, available through the Safford Office of the Bureau of Land Management.
   b. Closed to discharge of all firearms.
   c. Open to hunting in season with bow and arrow only.
4. Arlington Wildlife Area (located in Unit 39):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
   e. Open to hunting in season.
5. Base and Meridan Wildlife Area (located in Units 39 M & 42M):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
   e. Closed to discharge of rifled firearms.
   f. Open to hunting in season.
6. Becker Lake Wildlife Area (located in Unit 1):

a. No open fires.
b. No overnight public camping.
c. Motorized vehicle travel permitted on designated roads only.
d. Closed to discharge of rifled firearms.
e. Posted portions closed to public entry from December 15 to June 15 annually.
f. Open to hunting in season, except posted portions closed to hunting from December 15 to June 15 annually.

7. Bog Hole Wildlife Area (located in Unit 35B):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
   e. Open to hunting in season.
8. Chevelon Canyon Ranches Wildlife Area (located in Unit 4A):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads only, except as permitted by R12-4-110 (G).
   e. Open to hunting in season.
9. Chevelon Creek Wildlife Area (located in Unit 4B):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads only, except as permitted by R12-4-110 (G).
   e. Posted portions closed to public entry from October 1 to February 1 annually.
   f. Open to hunting in season, except posted portions closed to hunting from October 1 to February 1 annually.
10. Clarence May & C.H.M. May Memorial Wildlife Area (located in Unit 29):
    a. Closed to discharge of all firearms.
    b. Closed to hunting.
11. Cluff Ranch Wildlife Area (located in Unit 31):
    a. Open fires allowed in designated areas only.
    b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
    c. Overnight public camping allowed in designated areas only, for no more than 5 days within a 14-day period.
    d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    e. Posted portions around Department housing closed to discharge of all firearms.
    f. Closed to discharge of centerfire rifled firearms.
    g. Open to hunting in season.
12. Colorado River Nature Center Wildlife Area (located in Unit 15D):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    e. Closed to hunting.
13. House Rock Wildlife Area (located in Unit 12A):
    a. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    b. Open to hunting in season.
14. Jaques Marsh Wildlife Area (located in Unit 3B):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Open to hunting in season.
15. Lamar Haines Wildlife Area (located in Unit 7):
    a. No firewood cutting or gathering.
    b. No overnight public camping.
    c. No motorized vehicles.
    d. Open to hunting in season.
16. Luna Lake Wildlife Area (located in Unit 1):
    a. Posted portions closed to public entry from April 1 to July 31 annually.
    b. Open to hunting in season, except closed to hunting from April 1 to July 31 annually.
17. Mittry Lake Wildlife Area (located in Unit 43B):

a. Open fires allowed in designated areas only.
b. Overnight public camping allowed in designated areas only, for no more than 10 days per calendar year.
c. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
d. Posted portions closed to public entry from November 15 to February 15 annually.
e. Open to hunting in season, except posted portions closed to hunting from November 15 to February 15 annually.

18. Powers Butte (Mumme Farm) Wildlife Area (located in Unit 39):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Motorized vehicle travel permitted on posted designated roads, on designated trails, or in designated areas only.
e. Open to hunting only per Commission Order 19 (Dove), except posted portions closed to hunting.

19. Quigley Wildlife Area (located in Unit 41):
a. No open fires.
b. No overnight public camping.
c. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
d. Posted portions closed to public entry from September 1 to March 31 annually.
e. Open to hunting in season, except posted portions closed to hunting from September 1 to March 31 annually.

20. Raymond Ranch Wildlife Area (located in Unit 5B):
a. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
b. Open to hunting in season.

21. Robbins Butte Wildlife Area (located in Unit 39):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only from 1 hour before sunrise to 1 hour after sunset daily.
e. Parking in designated areas only.
f. Target or claybird shooting permitted in designated areas only.
g. Posted portions around Department housing closed to discharge of all firearms.
h. Closed to discharge of centerfire rifled firearms.
i. Open to hunting in season.

22. Roosevelt Lake Wildlife Area (located in Units 22, 23, & 24B):
a. Posted portions closed to public entry from November 15 to February 15 annually.
b. Open to hunting in season, except posted portions closed to hunting from November 15 to February 15 annually.

23. Sipe White Mountain Wildlife Area (located in Unit 1):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Motorized vehicle travel permitted on designated roads only, except as permitted by R12-4-110 (G).
e. Posted portions around Department housing closed to discharge of all firearms.
f. Open to hunting in season.

24. Springerville Marsh Wildlife Area (located in Unit 2B):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Closed to discharge of all firearms.
e. Closed to hunting.

25. Sunflower Flat Wildlife Area (located in Unit 8):
a. No overnight public camping.
b. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
c. Open to hunting in season.

26. Three Bar Wildlife Area (located in Unit 22):
a. Portions within the fenced enclosure inside the loop formed by Tonto National Forest Road 647 closed to public entry.
b. Open to hunting in season, except portions within the fenced enclosure inside the loop formed by Tonto National Forest Road 647 closed to hunting.

27. Tucson Mountain Wildlife Area (located in Unit 37M):
    a. Closed to discharge of all firearms.
    b. Open to hunting in season with bow and arrow only.
    c. Archery deer and archery javelina hunters must check in with the Arizona Game and Fish Tucson Regional Office prior to going afield.
28. Upper Verde River Wildlife Area (located in Unit 19A):
    a. No firewood cutting or gathering.
    b. Overnight public camping allowed in designated areas only.
    c. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    d. Open to hunting in season.
29. Wenima Wildlife Area (located in Unit 2B):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Motorized vehicle travel permitted on designated roads only, except as permitted by R12-4-110 (G).
    e. Posted portions closed to discharge of all firearms.
    f. Open to hunting in season.
30. White Mountain Grasslands Wildlife Area (located in Unit 1):
    a. No open fires.
    b. No overnight public camping
    c. Motorized vehicle travel permitted on designated roads only, except as permitted by R12-4-110 (G).
    d. Posted portions closed to public entry.
    e. Open to hunting in season.
31. Whitewater Draw Wildlife Area (located in Unit 30B):
    a. Open fires allowed in designated areas only.
    b. Overnight public camping allowed in designated areas only, for no more than 3 days within a 7-day period.
    c. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    d. Closed to discharge of centerfire rifled firearms.
    e. Posted portions closed to public entry from October 15 to March 15 annually.
    f. Open to hunting in season, except posted portions closed to hunting from October 15 through March 15 annually.
32. Willcox Playa Wildlife Area (located in Unit 30A):
    a. Open fires allowed in designated sites only.
    b. No firewood cutting or gathering.
    c. Overnight public camping allowed in designated areas only, for no more than 5 days within a 14-day period.
    d. Motorized vehicle travel permitted on designated roads, on designated trails, or in designated areas only.
    e. Posted portions closed to public entry from October 15 through March 15 annually.
    f. Open to hunting in season, except posted portions closed to hunting from October 15 through March 15 annually.

B. Effective May 1, 2000.

R12-4-803. Wildlife Area Boundary Descriptions

A. Wildlife Areas are described as follows:

1. Alamo Wildlife Area: The Alamo Wildlife Area shall be those areas described as:

T10N, R13W
Section 1, W1/2NW1/4, NW1/4SW1/4;
Section 2 and Section 3;
Section 4, E1/2SW1/4, SE1/4;
Section 9, NE1/4, E1/2NW1/4;
Section 10, N1/2NW1/4, NW1/4NE1/4.

T11N, R11W
Section 7, S1/2SW1/4;
Section 18, N1/2 NW1/4.

T11N, R12W
Section 4, Lots 2, 3 and 4, SW1/4NE1/4, S1/2NW1/4, SW1/4, W1/2SE1/4;
Section 5, Lot 1, SE1/4NE1/4, E1/2SE1/4;
Section 7, S1/2, SE1/4 NE1/4;
Section 8, NE1/4, S1/2NW1/4, S1/2;
Section 9;
Section 10, S1/2NW1/4, S1/2;

Section 11, S1/2S1/2;
Section 12, S1/2S1/2;
Section 13, N1/2, N1/2SW1/4, NW1/4SE1/4;
Section 14, N1/2, E1/2SE1/4;
Section 15, N1/2, SW1/4SW1/4, SW1/4SE1/4;
Section 16, 17, 18 and 19;
Section 20, N1/2, N1/2SW1/4;
Section 21, NW1/4;
Section 29, SW1/4, SW1/4SE1/4;
Section 30;
Section 31, N1/2, N1/2S1/2;
Section 32, NW1/4, N1/2SW1/4.

T11N, R13W
Section 12, SE1/4SW1/4, SW1/4SE1/4, E1/2SE1/4;
Section 13;
Section 14, S1/2NE1/4, SE1/4SW1/4, SE1/4;
Section 22, S1/2SW1/4, SE1/4;
Section 23, E1/2, E1/2NW1/4, SW1/4NW1/4, SW1/4;
Section 24, 25 and 26;
Section 27, E1/2, E1/2W1/2;
Section 34, E1/2, E1/2NW1/4, SW1/4;
Sections 35 and 36.

T12N, R12W
Section 19, E1/2, SE1/4SW1/4;
Section 20, NW1/4NW1/4, SW1/4SW1/4;
Section 28, W1/2SW1/4;
Section 29, W1/2NW1/4, S1/2, SE1/4NW1/4;
Section 30, E1/2, E1/2NW1/4, NE1/4SW1/4;
Section 31, NE1/4NE1/4;
Section 32, N1/2, N1/2SE1/4, SE1/4SE1/4;
Section 33, W1/2E1/2, W1/2.
All in G&SRB&M, Mohave and La Paz Counties, Arizona.

2. Allen Severson Memorial Wildlife Area: The Allen Severson Memorial Wildlife Area shall be that area including Pintail Lake and South Marsh lying within the fenced and posted portions of:

T10N, R22E
Section 32, SE1/4;
Section 33, S1/2SW1/4.

T11N, R22E
Section 4, N1/2NW1/4.

T10N, R22E
Section 4: the posted portion of the NW1/4SW1/4.
All in G&SRB&M, Navajo County, Arizona, consisting of approximately 300 acres.

3. Aravaipa Canyon Wildlife Area: The Aravaipa Canyon Wildlife Area shall be that area within the flood plain of Aravaipa Creek and the first 50 vertical feet above the streambed within the boundaries of the Aravaipa Canyon Wilderness Area administered by the Bureau of Land Management, Graham and Pinal Counties, Arizona.

4. Arlington Wildlife Area: The Arlington Wildlife Area shall be those areas described as:

T1S, R5W
Section 33, E1/2SE1/4.

T2S, R5W
Section 3, W1/2W1/2;
Section 4, E1/2;
Section 9, E1/2, SW1/4;
Section 15, those portions of S1/2N1/2 and NW1/2SW1/4 lying west of the primary through road;
Section 16;
Section 21, E1/2, E1/2SW1/4, SE1/4NW1/4.
All in G&SRB&M, Maricopa County, Arizona.

5. Base and Meridian Wildlife Area: The Base and Meridian Wildlife Area shall be those areas described as:

T1N, R1E
Section 31, Lots 3, 5, 6, and 8, and NE1/4SW1/4.

T1N, R1W
Section 34, N1/2SE1/4;
Section 35, S1/2;
Section 36, S1/2N1/2SE1/4.
All in the G&SRB&M, Maricopa County, Arizona.

6. Becker Lake Wildlife Area: The Becker Lake Wildlife Area shall be that area including Becker Lake lying within the fenced and posted portions of:
T9N, R29E
Section 19, SE1/4SW1/4;
Section 20, SW1/4SW1/4, W1/2NW1/4, and NW1/4SW1/4;
Section 29, E1/2NE1/4;
Section 30, NE1/4SE1/4.
All in the G&SRB&M, Apache County, Arizona, consisting of approximately 325 acres.

7. Bog Hole Wildlife Area: The Bog Hole Wildlife Area lying in Sections 29, 32 and 33, T22S, R17E shall be the fenced and posted area described as follows: Beginning at the southeast corner of Section 32, Township 22 South, Range 17 East, G&SRB&M, Santa Cruz County, Arizona; thence North 21°42'20" West 1394.86 feet to the true point of beginning; thence North 9°15'26" West 1014.82 feet; thence North 14°30'58" West 1088.82 feet; thence North 36°12'57" West 20.93 feet; thence North 50°16'38" West 1341.30 feet; thence North 57°51'08" West 1320.68 feet; thence N39°03'53" East 1044.90 feet; thence North 39°07'43" East 1232.32 feet; thence South 36°38'48" East 1322.93 feet; thence South 43°03'17" East 1312.11 feet; thence South 38°19'38" East 1315.69 feet; thence South 13°11'59" West 2083.31 feet; thence South 69°42'45" West 920.49 feet to the true point of beginning.

8. Chevelon Canyon Ranches Wildlife Area: The Chevelon Canyon Ranches Wildlife Area shall be those areas described as:
Duran Ranch: T12N, R14E
Sections 6 and 7, more particularly bounded and described as follows: Beginning at Corner No. 1, from which the Standard Corner to Section 31 in T13N, R14E and Section 36 T13N, R13E, bears North 11°41' West 21.53 chains distant; thence South 26°5' East 6.80 chains to Corner No. 2; thence South 66° West 12.74 chains to Corner No. 3; thence South 19°16' West 13.72 chains to Corner No. 4; thence South 29°1' West 50.02 chains to Corner No. 5; thence North 64°15' West five chains to Corner No. 6; thence North 28°54' East 67.97 chains to Corner No. 7; thence North 55°36' East 11.02 to Corner No. 1; the place of beginning, all in G&SRB&M, Coconino County, Arizona.
Dye Ranch: T12N, R14E
Sections 9 and 16, more particularly described as follows: Beginning at Corner No. 1 from which the Standard corner to Sections 32 and 33 in T13N, R14E, bears North 2° 24' East 127.19 chains distant; thence South 50°20' East 4.96 chains to corner No. 2; thence South 29°48' West 21.97 chains to Corner No. 3; thence South 14°45' West 21.00 chains to Corner No. 4; thence North 76°23' West 3.49 chains to Corner No. 5; thence North 10°13' West 14.02 chains to Corner No. 6; thence North 19°41' East 8.92 chains to Corner No. 7; thence North 38°2' East 24.79 chains to Corner No. 1, the place of beginning, all in G&SRB&M, Coconino County, Arizona.
Tillman Ranch: T12N, R14E
Sections 9 and 10.
All in G&SRB&M, Coconino County, Arizona.
Vincent Ranch: T12N, R13E
Sections 3 and 4, more particularly described as follows: Begin at corner No. 1, from which the South 1/4 corner to Sec. 33, T13N, R13E, bears North 40°53' West 16.94 chains distance; thence South 53° 08' East 2.98 chains to corner No. 2; thence South 11°26' West 6.19 chains to corner No. 3; thence South 49°43' West 22.41 chains to corner No. 4; thence South 22°45' West 30.03 chains to corner No. 5; thence North 67°35' West 6.00 chains to corner No. 6; thence North 23° East 30.03 chains to corner No. 7; thence North 42°18' East 21.19 chains to corner No. 8; thence North 57°52' East 8.40 chains to corner No. 1, the place of beginning, all in G&SRB&M, Coconino County, Arizona.
Wolf Ranch: T12N, R14E
Sections 18 and 19, more particularly bounded and described as follows: Beginning at Corner No. 1, from which the U.S. Location Monument No. 184 H. E. S. bears South 88°53' East 4.41 chains distant; thence South 34°4' East 11.19 chains to Corner No. 2; thence South 40°31' West 31.7 chains to Corner No. 3; thence South 63°3' West 7.97 chains to Corner No. 4; thence South 23°15' West 10.69 chains to Corner No. 5; thence North 59° West 2.60 chains to Corner No. 6; thence North 18°45' East 10.80 chains to Corner No. 7; thence North 51°26' East 8.95 chains to Corner No. 8; thence North 30°19' East 34.37 chains to Corner No. 1; the place of beginning, all in G&SRB&M, Coconino County, Arizona.

9. Chevelon Creek Wildlife Area: The Chevelon Creek Wildlife Area shall be that area lying in the NE1/4 Section 26, and E1/2 of Section 23, all in T18N, R17E, G&SRB&M, Navajo County, Arizona, consisting of approximately 668 acres.
10. Clarence May & C.M.H. May Memorial Wildlife Area: Clarence May & C.M.H. May Memorial Wildlife Area shall be the SE1/4 of Section 8 and N1/2NE1/4 of Section 17, Township 17 South, Range 31 East, and the W1/2SE1/4, S1/2NW1/4, SW1/4 of Section 9, T17S, R31E, G&SRB&M, Cochise County, Arizona, consisting of approximately 560 acres.
11. Cluff Ranch Wildlife Area: The Cluff Ranch Wildlife Area is that area within the fenced and posted portions of Sections 13, 14, 23, 24, and 26, T7S, R24E, G&SRB&M, Graham County, Arizona; consisting of approximately 788 acres.
12. Colorado River Nature Center Wildlife Area: The Colorado River Nature Center Wildlife Area is Section 10 of T19N, R22W, that is bordered by the Fort Mojave Indian Reservation to the West, the Colorado River to the North, and residential areas of Bullhead City to the South and East, G&SRB&M, Mohave County, Arizona.
13. House Rock Wildlife Area: House Rock Wildlife Area is that area described as: Beginning at the common one-quarter corner of Sections 17 and 20, T36N, R4E; thence east along the south section lines of Sections 17, 16, 15, 14, 13 T36N, R4E, and Section 18, T36N, R5E, to the intersection with the top of the southerly escarpment of Bedrock Canyon; thence meandering southeasterly along the top of said escarpment to the top of the northerly escarpment of Fence Canyon; thence meandering along the top of said north escarpment to its intersection with the top of the southerly escarpment of Fence Canyon; thence meandering northeasterly along the top of said southerly escarpment to its intersection with the top of the escarpment of the Colorado River; thence meandering southerly along top of said Colorado River escarpment to its intersection with Boundary Ridge in Section 29, T34N, R5E; thence meandering westerly along Boundary Ridge to its intersection with the top of the escarpment at the head of Saddle Canyon; thence northerly along the top of the westerly escarpment to its intersection with a line beginning approximately at the intersection of the Cockscomb and the east fork of South Canyon extending southeast to a point approximately midway between Buck Farm Canyon and Saddle Canyon; thence northwest to the bottom of the east fork of South Canyon in the SW1/4SW1/4 of Section 16, T34N, R4E; thence meandering northerly along the west side of the Cockscomb to the bottom of North Canyon in the SE1/4 of Section 12, T35N, R3E; thence meandering northeasterly along the bottom of North Canyon to a point where the slope of the land becomes nearly flat; thence northerly along the westerly edge of House Rock Valley to the point of beginning; all in G&SRB&M, Coconino County, Arizona.
14. Jacques Marsh Wildlife Area: The Jacques Marsh Wildlife Area is that area within the fenced and posted portions of the SE1/4SW1/4, NE/4SW1/4, NE1/4SW1/4SW1/4, NW1/4SW1/4, N1/2NW1/4SE1/4, SW1/4SW1/4NE1/4, S1/2SE1/4NW1/4, SE1/4SE1/4NW1/4, Section 11; and N1/2NE1/4NW1/4 Section 14; T9N, R22E, G&SRB&M, Navajo County, Arizona.
15. Lamar Haines Wildlife Area: The Lamar Haines Wildlife Area is that area described as: T22N, R6E, Section 12 NW1/4, G&SRB&M, Coconino County, Arizona; together with all improvements thereon, and that certain water right on "Hudsonian Spring" as evidenced by certificate of Water Right from the State Water Commissioner of the State of Arizona, dated December 13, 1935 and recorded in Book 5 of Water Rights, pages 374-375, records of Coconino County, Arizona, and being Certificate #624.
16. Luna Lake Wildlife Area: The Luna Lake Wildlife Area shall be the fenced, buoyed, and posted area lying north of U.S. Highway 180 T5N, R31E, Section 17 N1/2, G&SRB&M, Apache County, Arizona.
17. Mittry Lake Wildlife Area: The Mittry Lake Wildlife Area shall be those areas described as:

    T6S, R21W

    Section 31: All of Lots 1, 2, 3, 4, E1/2W1/2, and that portion of E1/2 lying westerly of Gila Gravity Main Canal Right-of-Way.

    T7S, R21W

    Section 5: that portion of SW1/4SW1/4 lying westerly of Gila Gravity Main Canal Right-of-Way;
    Section 6: all of Lots 2, 3, 4, 5, 6, 7 and that portion of Lot 1, S1/2NE1/4, SE1/4 lying westerly of Gila Gravity Main Canal R/W;
    Section 7: all of Lots 1, 2, 3, 4, E1/2W1/2, S1/2E1/2, and that portion of E1/2E1/2 lying westerly of Gila Gravity Main Canal R/W;
    Section 8: that portion of W1/2W1/2 lying westerly of Gila Gravity Main Canal R/W;
    Section 18: all of Lots 1, 2, 3, E1/2NW1/4, and that portion of Lot 4, NE1/4, E1/2 SW1/4, NW1/4SE1/4 lying westerly of Gila Gravity Main Canal R/W.

    T6S, R22W

    Section 36: all of Lots 1, 2.

    T7S, R22W

    Section 1: all of Lot 1;
    Section 12: all of Lots 1, 2, SE1/4SE1/4;

Section 13: all of Lots 1, 2, 3, 4, 5, 6, 7, 8, NE1/4, N1/2SE1/4, and that portion of S1/2SE1/4 lying northerly of Gila Gravity Main Canal R/W, all in G&SRB&M, Yuma County, Arizona.

18. Powers Butte (Mumme Farm) Wildlife Area: The Powers Butte Wildlife Area shall be that area described as:
T1S, R5W
Section 25, N1/2SW1/4, SW1/4SW1/4;
Section 26, S1/2;
Section 27, E1/2SE1/4;
Section 34.
T2S, R5W
Section 3, E1/2W1/2, W1/2SE1/4, NE1/4SE1/4, NE1/4;
Section 10, NW1/4, NW1/4NE1/4;
Section 15, SE1/4SW1/4;
Section 22, E1/2NW1/4, NW1/4NW1/4.
All in G&SRB&M, Maricopa County, Arizona.
19. Quigley Wildlife Area: The Quigley Wildlife Area shall be those areas described as:
T8S, R17W
Section 13, W1/2SE1/4, SW1/4NE1/4, and a portion of land in the West half of Section 13, more particularly described as follows: Beginning at the South Quarter corner, thence South 89º17'09" West along the south line of said Section 13, a distance of 2627.50 feet to the southwest corner of said Section 13; thence North 41º49'46" East, a distance of 3026.74 feet to a point; thence North 0º13'30" West, a distance of 1730.00 feet to a point on the north 1/16th line of said Section 13; thence North 89º17'36" East along said north 1/16th line, a distance of 600.00 feet to the Center of said Section 13; thence South 0º13'30" E. along the north-south Mid-section line, a distance of 3959.99 feet to the point of beginning.
Section 23, SE1/4NE1/4, and a portion of land in the NE1/4NE1/4 of Section 23, more particularly described as follows: Beginning at the Northeast Corner, thence South 0º10'19" East along the east line of said Section 23, a distance of 1326.74 feet to a point on the south line of the NE1/4NE1/4 of said Section 23; thence South 89º29'58" West along said south line, a distance of 1309.64 feet to a point; thence North 44º17'39" East, a distance of 1869.58 feet to the point of beginning.
Section 24, NW1/4, N1/2SW1/4, W1/2NE1/4 all in G&SRB&M, Yuma County, Arizona.
20. Raymond Ranch Wildlife Area: The Raymond Ranch Wildlife Area is that area described as: All of Sections 24, 25, 26, 34, 36, and the portions of Sections 27, 28, and 33 lying east of the following described line: Beginning at the west one-quarter corner of Section 33; thence northeasterly through the one-quarter corner common to Sections 28 and 33, one-quarter corner common to Sections 27 and 28 to the north one-quarter corner of Section 27 all in T19N, R11E. All of Sections 16, 17, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, and 34 all in T19N, R12E, all in G&SRB&M, Coconino County, Arizona.
21. Robbins Butte Wildlife Area: The Robbins Butte Wildlife Area shall be those areas described as:
T1S, R3W
Section 17, S1/2NE1/4, SE1/4, NW1/4SW1/4;
Section 18, Lots 3, 4, and E1/2SW1/4, S1/2NE1/4, W1/2SE1/4, NE1/4SE1/4.
T1S, R4W
Section 13, all EXCEPT that portion of W1/2SW1/4SW1/4 lying west of State Route 85;
Section 14, all EXCEPT the W1/2NW1/4 and that portion of the SW1/4 lying north of the Arlington Canal;
Section 19, S1/2SE1/4;
Section 20, S1/2S1/2, NE1/4SE1/4;
Section 21, S1/2, S1/2NE1/4, SE1/4NW1/4;
Section 22, all EXCEPT for NW1/4NW1/4;
Section 23;
Section 24, that portion of SW1/4, W1/2SW1/4NW1/4 lying west of State Route 85;
Section 25, that portion of the NW1/4NW1/4 lying west of State Route 85;
Section 26, NW1/4, W1/2NE1/4, NE1/4NE1/4;
Section 27, N1/2, SW1/4;
Section 28;
Section 29, N1/2N1/2, SE1/4NE1/4;
Section 30, Lots 1,2, and E1/2NW1/4, NE1/4, SE1/4SE1/4.
All in G&SRB&M, Maricopa County, Arizona.
22. Roosevelt Lake Wildlife Area: The Roosevelt Lake Wildlife Area is that area described as: Beginning at the junction of A-Cross Road and AZ. Hwy. 188; south on AZ. Hwy. 188 to junction of AZ. Hwy. 88; east on AZ. Hwy. 88 to Carson's Landing; northeast across Roosevelt Lake to the south tip of Bass Point; directly north to the Long

Gulch Road; northeast on this road to the A-Cross Road; northwest on the A-Cross Road to the point of beginning; all in G&SRB&M, Gila County, Arizona.

23. Sipe White Mountain Wildlife Area: The Sipe White Mountain Wildlife Area shall be those areas described as:
T7N, R29E
Section 1, SE1/4, SE1/4NE1/4, S1/2NE1/4NE1/4, SE1/4SW1/4NE1/4, NE1/4SE1/4SW1/4, and the SE1/4NE1/4SW1/4.
T7N, R30E
Section 5, W1/2W1/2SE1/4SW1/4, and the SW1/4SW1/4;
Section 6, Lots 1, 2, 3, 7 and 8, SW1/4NW1/4NW1/4, SW1/4NW1/4, S1/2NW1/4NE1/4SE1/4, S1/2NE1/4SE1/4, S1/2NE1/4SE1/4, N1/2SE1/4SE1/4, E1/2SE1/4SE1/4SE1/4, SW1/4SE1/4 and the SE1/4SW1/4;
Section 7, Parcel 10: Lots 1 and 2, E1/2NW1/4, E1/2E1/2NE1/4NE1/4, W1/2SW1/4NE1/4, NW1/4SE1/4, W1/2NE1/4SE1/4, NE1/4SW1/4, E1/2NW1/4SW1/4, and the NW1/4NE1/4;
Section 8, NW1/4NW1/4, and the W1/2W1/2NE1/4NW1/4.
T8N, R30E
Section 31, SE1/4NE1/4, SE1/4, and the SE1/4SW1/4, all in G&SRB&M, Apache County, Arizona.
24. Springerville Marsh Wildlife Area: The Springerville Marsh Wildlife Area shall be those areas described as: S1/2 SE1/4 Section 27 and N1/2 NE1/4 Section 34, T9N, R29E, G&SRB&M, Apache County, Arizona.
25. Sunflower Flat Wildlife Area: The Sunflower Flat Wildlife Area shall be those areas described as:
T20N, R3E
Section 11, NE1/4SE1/4, N1/2NW1/4SE1/4, SE1/4NW1/4SE1/4, NE1/4SE1/4SE1/4, W1/2SE1/4NE1/4, S1/2SE1/4SE1/4NE1/4, E1/2SW1/4NE1/4;
Section 12, NW1/4SW1/4SW1/4, NW1/4NE1/4SW1/4SW1/4, SW1/4NW1/4SW1/4, S1/2NW1/4NW1/4SW1/4, W1/2SE1/4NW1/4SW1/4, SW1/4NE1/4NW1/4 SW1/4 all in the G&SRB&M, Coconino County, Arizona.
26. Three Bar Wildlife Area: The Three Bar Wildlife Area shall be that area lying within the following described boundary: Beginning at Roosevelt Dam, northwesterly on AZ. Hwy. 188 to milepost 252 (Bumble Bee Wash); westerly along the boundary fence for approximately 7-1/2 miles to the boundary of Gila and Maricopa counties; southerly along this boundary through Four Peaks to a fence line south of Buckhorn Mountain; southerly along the barbed wire drift fence at Ash Creek to Apache Lake; northeasterly along Apache Lake to Roosevelt Dam.
27. Tucson Mountain Wildlife Area: The Tucson Mountain Wildlife Area shall be that area lying within the following described boundary: Beginning at the northwest corner of Section 33; T13S, R11E on the Saguaro National Monument boundary; due south approximately 1 mile to the El Paso Natural Gas Pipeline; southeast along this pipeline to Sandario Road; south on Sandario Road approximately 2 miles to the southwest corner of Section 15; T14S, R11E, east along the section line to the El Paso Natural Gas Pipeline; southeast along this pipeline to its junction with State Route 86, also known as the Ajo Highway; easterly along this highway to the Tucson city limits; north along the city limits to Silverbell Road; northwest along this road to Twin Peaks Road; west along this road to Sandario Road; south along this road to the Saguaro National Monument boundary; west and south along the monument boundary to the point of beginning, all in G&SRB&M, Pima County, Arizona.
28. Upper Verde River Wildlife Area: The Upper Verde River Wildlife Area consists of four parcels totaling approximately 796 acres located eight miles north of Chino Valley in Yavapai County, Arizona, along the upper Verde River and lower Granite Creek described as:
    a. Sullivan Lake Parcel: Located immediately downstream of Sullivan Lake, the headwaters of the Verde River: the NE1/4NE1/4 lying east of the California, Arizona, and Santa Fe Railway Company right-of-way in Section 15, T17N, R2W; and also the NW1/4NE1/4 of sec. 15 consisting of approximately 80 acres.
    b. Granite Creek Parcel: Includes one mile of Granite Creek to its confluence with the Verde River: The SE1/4SE1/4 of Section 11; the NW1/4SW1/4 and SW1/4NW1/4 of Section 13; the E1/2NE1/4 of Section 14; all in T17N, R1W consisting of approximately 239 acres.
    c. Campbell Place Parcel: Tracts 40 and 41 in Section 7, T17N, R1W and Section 12, T17N, R2W consisting of approximately 315 acres.
    d. Tract 39 Parcel: The east half of Tract 39 within the Prescott National Forest boundary, SE1/4SW1/4 and SW1/4SE1/4 of Section 5, T18N, R1W; and the W1/2 of Tract 39 outside the Forest boundary, SW1/4SW1/4 of Section 5 and NW1/4NW1/4 of Section 8, T18N, R1W consisting of approximately 163 acres.
29. Wenima Wildlife Area: The Wenima Wildlife Area shall be those areas described as:
T9N, R29E
Section 5, SE1/4 SW1/4, and SW1/4 SE1/4 EXCEPT E1/2 E1/2 SW1/4 SE1/4
Section 8, NE1/4 NW1/4, and NW1/4 NE1/4
Sections 8, 17 and 18, within the following boundary: From the quarter corner of Sections 17 and 18, the true point of beginning; thence North 00°12’56” East 1302.64 feet along the Section line between Sections 17 and 18 to the North 1/16 corner; then North 89°24’24” West 1331.22 feet to the Northeast 1/16 corner of Section

18; thence North 00°18'02" East 1310.57 feet to the East 1/16 corner of Sections 7 and 18; thence South 89°03'51" East 1329.25 feet to the Northeast Section corner of said Section 18; thence North 01°49'10" East 1520.28 feet to a point on the Section line between Sections 7 and 8; thence North 38°21'18" East 370.87 feet to a point; thence North 22°04'51" East 590.96 feet to a point; thence North 57°24'55" East 468.86 feet to a point on the East West mid-section line of said Section 8; thence North 89°38'03" East 525.43 feet along said mid-section line to the center West 1/16 corner; thence South 02°01'25" West 55.04 feet to a point; thence South 87°27'17" East 231.65 feet to a point; thence South 70°21'28" East 81.59 feet to a point; thence North 89°28'36" East 111.27 feet to a point; thence North 37°32'54" East 310.00 feet to a point; thence North 43°58'37" West 550.00 feet to a point; thence North 27°25'53" West 416.98 feet to the North South 1/16 line of said Section 8; thence North 02°01'25" East 380.04 feet along said 1/16 line to the Northwest 1/16 corner of said Section 8; thence North 89°45'28" East 1315.07 feet along the East West mid-sixteenth line to a point; thence South 45°14'41" East 67.69 feet to a point; thence South 49°28'18" East 1099.72 feet to a point; thence South 08°04'43" West 810.00 feet to a point; thence South 58°54'47" West 341.78 feet to a point; thence South 50°14'53" West 680.93 feet to a point in the center of that cul-de-sac at the end of Jeremy's Point Road; thence North 80°02'20" West 724.76 feet to a point, said point lying North 42°15'10" West 220.12 feet from the Northwest corner of Lot 72; thence North 34°19'23" East 80.64 feet to a point; thence North 15°54'25" East 51.54 feet to a point; thence North 29°09'53" East 45.37 feet to a point; thence North 40°09'33" East 69.21 feet to a point; thence North 25°48'58" East 43.28 feet to a point; thence North 13°24'51" East 63.12 feet to a point; thence North 16°03'10" West 30.98 feet to a point; thence North 57°55'25" West 35.50 feet to a point; thence North 80°47'38" West 48.08 feet to a point; thence South 87°28'53" West 82.84 feet to a point; thence South 72°07'06" West 131.85 feet to a point; thence South 43°32'45" West 118.71 feet to a point; thence South 02°37'48" East 59.34 feet to a point; thence South 33°03'29" East 57.28 feet to a point; thence South 28°30'29" East 54.75 feet to a point; thence South 36°39'47" East 105.08 feet to a point; thence South 24°55'07" West 394.78 feet to a point; thence South 61°32'16" West 642.77 feet to the Northwest corner of Lot 23; thence North 04°35'23" West 90.62 feet to a point; thence South 85°24'37" West 26.00 feet to a point; thence North 64°21'36" West 120.76 feet to a point; thence South 61°07'57" West 44.52 feet to a point; thence South 39°55'58" West 80.59 feet to a point; thence South 11°33'07" West 47.21 feet to a point; thence South 19°53'19" East 27.06 feet to a point; thence South 54°26'36" East 62.82 feet to a point; thence South 24°56'25" West 23.92 feet to a point; thence South 48°10'38" West 542.79 feet to a point; thence South 17°13'48" West 427.83 feet to the Northwest corner of Lot 130; thence South 29°10'58" West 104.45 feet to the Southwest corner of Lot 130; thence Southwesterly along a curve having a radius of 931.52 feet, and arc length of 417.52 feet to the Southwest corner of Lot 134; thence South 15°04'25" West 91.10 feet to a point; thence South 04º29'15" West 109.17 feet to a point; thence South 01°41'24" West 60.45 feet to a point, thence South 29°16'05" West 187.12 feet to a point; thence South 14°44'00" West 252.94 feet to a point; thence South 15°42'24" East 290.09 feet to a point; thence South 89°13'25" East 162.59 feet to a point; thence South 37°19'54" East 123.03 feet to the Southeast corner of Lot 169; thence South 20°36'30" East 706.78 feet to the Northwest corner of Lot 189; thence South 04°07'31" West 147.32 feet to a point; thence South 29°11'19" East 445.64 feet to a point; thence South 00°31'40" East 169.24 feet to the East West mid-section line of Section 17 and the Southwest corner of Lot 194; thence South 89°28'20" West 891.84 feet along said East West mid-section line to the true point of beginning. All in G&SRB&M, Apache County, Arizona.

30. White Mountain Grasslands Wildlife Area: The White Mountain Grasslands Wildlife Area shall be those areas described as:

Parcel No. 1: (CL1)

The South half of Section 24; the North half of the Northwest quarter of Section 25; the Northeast quarter and the North half of the Southeast quarter of Section 26; all in Township 9 North, Range 27 East of the Gila and Salt River Base and Meridian, Apache County, Arizona; EXCEPT all coal and other minerals as reserved to the United States in the Patent of said land.

Parcel No. 2: (CL2)

The Southeast quarter and the Southeast quarter of the Southwest quarter of Section 31, Township 9 North, Range 28 East of the Gila and Salt River Base and Meridian, Apache County, Arizona.

Parcel No. 3: (CL3)

The Northwest quarter of the Southwest quarter of Section 28; and the Southwest quarter, the South half of the Southeast quarter and the Northeast quarter of the Southeast quarter of Section 29, Township 9 North, Range 28 East of the Gila and Salt River Base and Meridian, Apache County, Arizona.

Parcel No. 4: (CL4)

The Southwest quarter of the Southwest quarter of Section 5; the Southeast quarter of the Southeast quarter of Section 6; the Northeast quarter of the Northeast quarter of Section 7; the Northwest quarter of the Northwest quarter, the East half of the Southwest quarter of the Northwest quarter, the West half of the Northeast quarter, the Southeast quarter of the Northwest quarter, and that portion of the South half which lies North of Highway

260, EXCEPT the West half of the Southwest quarter of Section 8; All in Township 8 North, Range 28 East of the Gila and Salt River Base and Meridian, Apache County, Arizona.

Parcel No. 1: (O1)

The South half of the North half of Section 10, Township 8 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona; EXCEPT that Parcel of land lying within the South one-half of the Northeast quarter of Section 10, Township 8 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona, more particularly described as follows:

From the North 1/16 corner of Sections 10 and 11, monumented with a 5/8 inch rebar with a cap marked LS 13014, said point being the TRUE POINT OF BEGINNING; thence North 89°44'54" West 1874.70 feet along the East-West 1/16 line to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence South 02°26'17" West 932.00 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence South 89°44'54" East 1873.69 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014, said point being on the East line of Section 10; thence North 02°30'00" East 932.00 feet along said Section line to the TRUE POINT OF BEGINNING.

Parcel No.2: (O2)

The North half of the South half of Section 10, Township 8 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona.

Parcel No.3: (O3)

The Southeast quarter of Section 25, Township 9 North, Range 27 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona; EXCEPT all coal and other minerals as reserved to the United States in the Patent of said land.

Parcel No.4: (O4)

Lots 3 and 4; the East half of the Southwest quarter; the West half of the Southeast quarter; and the Northeast quarter of the Southeast quarter of Section 30, Township 9 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona; EXCEPT all coal and other minerals as reserved to the United States in the Patent of said land.

Parcel No.5: (O5)

Lots 1, 2 and 3; the South half of the Northeast quarter; the Northwest quarter of the Northeast quarter; the East half of the Northwest quarter; and the Northeast quarter of the Southwest quarter of Section 31, Township 9 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona; EXCEPT all coal and other minerals as reserved to the United States in the Patent of said land.

Parcel No.6: (O6)

Beginning at the Northwest corner of the Southeast quarter of Section 27, Township 9 North, Range 28 East, of the Gila and Salt River Base and Meridian, Apache County, Arizona; thence East 1320.00 feet; thence South 925.00 feet: thence West 320.00 feet to the center of a stock watering tub; thence North 83° West 1000.00 feet; thence North 740.00 feet to the point of beginning; EXCEPT all gas, oil, metals and mineral rights as reserved to the State of Arizona in the Patent to said land.

31. White Water Draw Wildlife Area: The White Water Draw Wildlife Area shall be those areas described as:

T21S, R26E

Section 19, S1/2 SE1/4
Section 29, W1/2 NE1/4, and E1/2 NE1/4
Section 30, N1/2 NE1/4
Section 32

T22S, R26E

Section 4, Lots 3 and 4

T22S, R26E

Section 5, Lots 1 to 4, EXCEPT an undivided 1/2 interest in all minerals, oil, and/or gas as reserved in Deed recorded in Docket 209, page 117, records of Cochise County, Arizona.

32. Willcox Playa Wildlife Area: The Willcox Playa Wildlife Area shall be that area within the posted Arizona Game and Fish Department fences enclosing the following described area: Beginning at the section corner common to Sections 2, 3, 10 and 11, T15S, R25E, G&SRB&M, Cochise County, Arizona; thence, South O°15'57" West 2645.53 feet to the east 1/4 corner of Section 10; thence South 89°47'15" West 2578.59 feet to the center 1/4 corner of Section 10; thence, North 1°45'24" East 2647.85 feet to the center 1/4 corner of Section 3; thence, North 1°02'42" West 2647.58 feet to the center 1/4 corner of said Section 3; thence North 89°41'37" East to the common 1/4 corner of Section 2 and Section 3; thence, South O°00'03" West 1323.68 feet to the south 1/16 corner of said Sections 2 and 3; thence South 44°46'30" East 1867.80 feet to a point on the common section line of Section 2 and Section 11; thence South 44°41'13" East 1862.94 feet to a point; thence South 44°42'35" East 1863.13 feet to a point; thence North O°13'23" East 1322.06 feet to a point; thence South 89°54'40" East 1276.24 Feet to a point on the west right-of-way fence line of Kansas Settlement Road; thence South O°12'32" West 2643.71 feet along said

fence line to a point; thence North 89°55'43" West 2591.30 feet to a point; thence North O°14'14" East 661.13 feet to a point; thence North 89D°55'27" West 658.20 feet to a point; thence North O°14'39" East 1322.36 feet to a point; thence North 44°41'19" West 931.44 feet to a point; thence North 44°40'31" West 1862.85 feet to the point of beginning. Said wildlife area contains 543.10 acres approximately.

B. Effective May 1, 2000.

ARTICLE 8. WILDLIFE AREAS AND DEPARTMENT PROPERTY

ARTICLE 8. WILDLIFE AREAS AND DEPARTMENT PROPERTY

R12-4-801. General Provisions

A. Wildlife Areas:
1. Wildlife areas shall be established to:
   a. Provide protective measures for wildlife, habitat, or both;
   b. Allow for hunting, fishing, and other recreational activities that are compatible with wildlife habitat conservation and education;
   c. Allow for special management or research practices; and
   d. Enhance wildlife and habitat conservation.
2. Wildlife areas shall be:
   a. Lands owned, leased, or otherwise managed by the Commission;
   b. Federally-owned lands of unique wildlife habitat where cooperative agreements provide wildlife management and research implementation; or
   c. Any lands with property interest conveyed to the Commission by any entity, through an approved land use agreement, including but not limited to deeds, patents, leases, conservation easements, special use permits, licenses, management agreements, inter-agency agreements, letter agreements, and right-of-entry, where the property interest conveyed is sufficient for management of the lands consistent with the objectives of the wildlife area.
3. Land qualified for wildlife areas shall be:
   a. Lands with unique topographic or vegetative characteristics that contribute to wildlife,
   b. Lands where certain wildlife species are confined because of habitat demands,
   c. Lands that can be physically managed and modified to attract wildlife, or
   d. Lands that are identified as critical habitat for certain wildlife species during critical periods of their life cycles.
4. The Department may restrict public access to and public use of wildlife areas and the resources of wildlife areas for up to 90 days when necessary to protect property, ensure public safety, or to ensure maximum benefits to wildlife. Closures or restrictions exceeding 90 days shall require Commission approval.
5. Closures of all or any part of a wildlife area to public entry, and any restriction to public use of a wildlife area, shall be listed in this Article or shall be clearly posted at each entrance to the wildlife area. No person shall conduct an activity restricted by this Article or by such posting.
6. When a wildlife area is posted against travel except on existing roads, no person shall drive a motor-operated vehicle over the countryside except by road.
7. The Department may post signs that place additional restrictions on the use of wildlife areas. Such restrictions may include the timing, type, or duration of certain activities, including the prohibition of access or nature of use.
8. A person shall not access or use any wildlife area or facility in violation of any Department actions authorized under subsection (A)(7) when signs are posted providing notice of the restrictions.

B. Commission-owned real property and -managed lands other than Wildlife Areas:
1. The Department may take action to manage public access and use of any Commission-owned real property or facilities. Such actions may include restrictions on the timing, type, or duration of certain activities, including the prohibition of access or nature of use.
2. A person shall not access or use any Commission-owned real property, facilities, or -managed lands in violation of any Department actions authorized under subsection (B)(1), if signs are posted providing notice of the restrictions.

Historical Note

New Section adopted by exempt rulemaking at 6 A.A.R. 1731, effective May 1, 2000 (Supp. 00-2). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Amended by exempt rulemaking at 18 A.A.R. 1070, effective June 15, 2012 (Supp. 12-2). Amended by exempt rulemaking at 22 A.A.R. 951, effective June 7, 2016 (Supp. 16-2). Amended by final exempt rulemaking at 27 A.A.R. 242, effective April 5, 2021 (Supp. 21-1).

R12-4-802. Wildlife Area and Other Department Managed Property Restrictions

A. No person shall violate the following restrictions on Wildlife Areas:
1. Alamo Wildlife Area (located in Units 16A and 44A):
   a. Posted portions closed to all public entry.

b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.

2. Allen Severson Wildlife Area (located in Unit 3B):
   a. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   b. Posted portions closed to discharge of all firearms from April 1 through July 25 annually.
   c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from April 1 through July 25 annually.
3. Aravaipa Canyon Wildlife Area (located in Units 31 and 32):
   a. Access through the Aravaipa Canyon Wildlife Area within the Aravaipa Canyon Wilderness Area is by permit only, available through the Safford Office of the Bureau of Land Management.
   b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of all firearms.
4. Arivaca Lake Wildlife Area (located in Unit 36B):
   a. Open fires allowed in designated areas only.
   b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
   c. Overnight public camping in the wildlife area allowed in designated areas only, for no more than 14 days within a 30-day period.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
5. Arlington Wildlife Area (located in Unit 39):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Target or clay bird shooting permitted in designated areas only.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
      i. Posted portions around Department housing are closed to the discharge of all firearms; and
      ii. Wildlife area is closed to the discharge of centerfire rifled firearms.
6. Base and Meridian Wildlife Area (located in Units 39, 26M, and 47M):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel is not permitted on the wildlife area, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. No target or clay bird shooting.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of centerfire rifled firearms.
7. Becker Lake Wildlife Area (located in Unit 1):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. The Becker Lake boat launch access road and parking areas along with any other posted portions of the wildlife area will be closed to all public entry from one hour after sunset to one hour before sunrise daily.
   f. Posted portions closed to all public entry.
   g. Posted portions closed to hunting.
   h. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rifled firearms.

8. Bog Hole Wildlife Area (located in Unit 35B):
   a. Motorized vehicle travel is not permitted on the wildlife area. This subsection does not apply to Department authorized vehicles or law enforcement, fire response or other emergency vehicles.
   b. Open to all hunting in season, by foot access only, as permitted under R12-4-304 and R12-4-318.
9. Chevelon Canyon Ranches Wildlife Area (located in Unit 4A):
   a. Open fires allowed in designated areas only.
   b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
   c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. No target or clay bird shooting.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
10. Chevelon Creek Wildlife Area (located in Unit 4B):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads or areas only. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Posted portions closed to all public entry.
   f. Additional posted portions closed to all public entry from October 1 through February 1 annually.
   g. No target or clay bird shooting.
   h. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from October 1 through February 1 annually.
11. Cibola Valley Conservation and Wildlife Area (located in unit 43A):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Posted portions closed to all public entry.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
12. Clarence May and C.H.M. May Memorial Wildlife Area (located in Unit 29): Closed to hunting, except for predator hunts authorized by Commission Order.
13. Cluff Ranch Wildlife Area (located in Unit 31):
   a. Open fires allowed in designated areas only.
   b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
   c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Posted portions around Department housing and Pond Three are closed to discharge of all firearms.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of centerfire rifled firearms.
14. Coal Mine Spring Wildlife Area (located in Unit 34A):
   a. Overnight public camping allowed for no more than 14 days within a 30-day period.
   b. Motorized vehicle travel is not permitted on the wildlife area, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response or other emergency vehicles.
   b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
15. Colorado River Nature Center Wildlife Area (located in Unit 15D):
   a. No open fires.
   b. No firewood cutting or gathering.
   c. No overnight public camping.

d. Motorized vehicle travel permitted on designated roads or areas only. This subsection does not apply to Department authorized vehicles, law enforcement, fire response, or other emergency vehicles.
e. Closed to the discharge of firearms.
f. Closed to hunting.

16. Fool Hollow Lake Wildlife Area (located in Unit 3C):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. The parking area adjacent to Sixteenth Avenue and other posted portions of the wildlife area will be closed to all public entry daily from one hour after sunset to one hour before sunrise, except for anglers possessing a valid fishing license accessing Fool Hollow Lake/Show Low Creek.
    f. Closed to the discharge of firearms.
    g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of firearms.
17. House Rock Wildlife Area (located in Unit 12A):
    a. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles, law enforcement, fire response, or other emergency vehicles.
    b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
    c. Members of the public shall remain in an enclosed vehicle at all times when within one-quarter mile of the House Rock bison herd, except when taking bison or accompanied by Department personnel.
18. Jacques Marsh Wildlife Area (located in Unit 3B):
    a. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rimfire and centerfire rifled firearms.
19. Lamar Haines Wildlife Area (located in Unit 7):
    a. No open fires.
    b. Wood cutting by permit only and collecting limited to dead and down material, for noncommercial use only. Members of the public shall obtain a wood cutting permit from the Flagstaff Game and Fish Department regional office.
    c. Overnight public camping allowed for no more than 14 days within a 30-day period.
    d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
20. Lower San Pedro River Wildlife Area (located in Units 32 and 37B):
    a. Open fires allowed in designated areas only. The following acts are prohibited:
        i. Building, attending, maintaining, or using a fire without removing all flammable material from around the fire to adequately prevent the fire from spreading from the fire pit.
        ii. Carelessly or negligently throwing or placing any ignited substance or other substance that may cause a fire.
        iii. Building, attending, maintaining, or using a fire in any area that is closed to fires.
        iv. Leaving a fire without completely extinguishing it.
    b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
    c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
    d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. Posted portions closed to all public entry.
    f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.
    g. Parking allowed within 300 feet of designated open roads and in designated areas only.
    h. Discharge of a firearm or pre-charged pneumatic weapon prohibited within 1/4 mile of buildings.

i. A person shall not use a metal detector or similar device except as authorized by the Department. This subsection does not apply to law enforcement officers in the scope of their official duties, or to persons duly licensed, permitted, or otherwise authorized to investigate historical or cultural artifacts by a government agency with regulatory authority over cultural or historic artifacts.

21. Luna Lake Wildlife Area (located in Unit 1):
    a. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    b. Posted portions closed to all public entry from February 15 through July 31 annually.
    c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except when closed to hunting from April 1 through July 31 annually.
22. Manhattan Claims Wildlife Area (located in Unit 29):
    a. Wood collecting limited to dead and down material, for onsite noncommercial use only.
    b. Overnight public camping allowed for no more than 14 days within a 30-day period.
    c. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
23. Mittry Lake Wildlife Area (located in Unit 43B):
    a. Open fires allowed in designated areas only.
    b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
    c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
    d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. Posted portions closed to all public entry.
    f. Mittry Lake is a "No Ski" waterway as defined under R12-4-501.
    g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
24. Planet Ranch Conservation and Wildlife Area (located in Units 16A and 44A):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
    d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except for big game retrieval as permitted under R12-4-110(H), outside the posted Lower Colorado River Multi-Species Conservation Program habitat area. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. Posted portions closed to public entry.
    f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.
25. Powers Butte (Mumme Farm) Wildlife Area (located in Unit 39):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. If conducted during an event approved under R12-4-125, target or clay bird shooting is permitted in designated areas only.
    f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
        i. Posted portions around Department housing are closed to the discharge of all firearms; and
        ii. Wildlife area is closed to the discharge of centerfire rifled firearms.
26. Quigley-Achee Wildlife Area (located in Unit 41):
    a. No open fires.
    b. No overnight public camping.
    c. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency

vehicles.
d. Posted portions closed to all public entry.
e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.

27. Raymond Wildlife Area (located in Unit 5B):
a. Open fires allowed in designated areas only.
b. Overnight public camping permitted in designated sites only, for no more than 14 days within a 30-day period.
c. Motorized vehicle travel permitted on designated roads, trails, or areas only, except for big game retrieval as permitted under R12-4-110(H). All-terrain and utility type vehicles are prohibited. For the purpose of this subsection, all-terrain and utility type vehicle means a motor vehicle having three or more wheels fitted with large tires and is designed chiefly for recreational use over roadless, rugged terrain. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
d. Posted portions closed to all public entry from May 1 through July 29 annually.
e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting periodically during hunting seasons.
f. Members of the public shall remain in an enclosed vehicle at all times when within one-quarter mile of the Raymond bison herd, except when taking bison or accompanied by Department personnel.

28. Robbins Butte Wildlife Area (located in Unit 39):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
e. Parking in designated areas only.
f. If conducted during an event approved under R12-4-125, target or clay bird shooting is permitted in designated areas only.
g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318 except the wildlife area is closed to the discharge of centerfire rifled firearms.

29. Roosevelt Lake Wildlife Area (located in Units 22, 23, and 24B):
a. Posted portions closed to all public entry from November 15 through February 15 annually.
b. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from November 15 through February 15 annually.

30. Santa Rita Wildlife Area (located in Unit 34A): Open to all hunting in season as permitted under R12-4-304 and R12-4-318.

31. Sipe White Mountain Wildlife Area (located in Unit 1):
a. Open fires allowed in designated areas only.
b. No firewood cutting or gathering.
c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions around Department housing is closed to the discharge of all firearms.

32. Springerville Marsh Wildlife Area (located in Unit 2B):
a. No open fires.
b. No firewood cutting or gathering.
c. No overnight public camping.
d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
e. Closed to the discharge of all firearms.

f. Open to all hunting as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of all firearms.

33. Sunflower Flat Wildlife Area (located in Unit 8):
    a. Overnight public camping allowed for no more than 14 days within a 30-day period.
    b. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
34. Three Bar Wildlife Area (located in Unit 22):
    a. Motorized vehicle travel:
        i. Is permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H).
        ii. Is prohibited within the Three Bar Wildlife and Habitat Study Area.
        iii. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    b. Open to all hunting in season, as permitted under R12-4-304 and R12-4-318.
35. Tucson Mountain Wildlife Area (located in Unit 38M):
    a. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
        i. Portions posted closed to hunting,
        ii. Portions closed to hunting as identified on the online check-in system wildlife area map, and
        iii. Firearms and pre-charged pneumatic weapons are prohibited for the take of wildlife.
    b. Archery hunters must check-in online with the Arizona Game and Fish Department prior to going afield.
36. Upper Verde River Wildlife Area (located in Unit 8 and 19A):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping allowed.
    d. Motorized vehicle travel is not permitted, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire department, or other emergency vehicles.
    e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
37. Wenima Wildlife Area (located in Unit 2B):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. No overnight public camping.
    d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. No target or clay bird shooting.
    f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
38. White Mountain Grasslands Wildlife Area (located in Unit 1):
    a. No open fires.
    b. No firewood cutting or gathering.
    c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
    d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    e. Posted portions closed to all public entry.
    f. If conducted during an event approved under R12-4-125, target or clay bird shooting is permitted in designated areas only.
    g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
39. Whitewater Draw Wildlife Area (located in Unit 30B):
    a. No open fires except as authorized by the Department.
    b. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
    c. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
    d. Posted portions closed to all public entry from October 15 through March 15 annually.

e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
   i. The wildlife area is closed to the discharge of centerfire rifled firearms, and
   ii. Posted portions closed to hunting from October 15 through March 15 annually.

40. Willcox Playa Wildlife Area (located in Unit 30A):
   a. Open fires allowed in designated areas only.
   b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
   c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 30-day period.
   d. Motorized vehicle travel permitted on designated roads or areas only, except for big game retrieval as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
   e. Posted portions closed to all public entry from October 15 through March 15 annually.
   f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from October 15 through March 15 annually.

B. Notwithstanding Commission Order 40, public access and use of the Hirsch Conservation Education Area and Biscuit Tank is limited to activities conducted and offered by the Department and in accordance with the Department's special management objectives for the property, which include, but are not limited to, flexible harvest, season, and methods that:
1. Allow for a variety of fishing techniques, fish harvest, fish consumption, and catch and release educational experiences;
2. Maintain a healthy, productive, and balanced fish community; and
3. Provide public education activities and training courses that are compatible with the management of aquatic wildlife.

Amended by exempt rulemaking at 22 A.A.R. 2209, effective October 4, 2016 (Supp. 16-4). Amended by final exempt rulemaking at 27 A.A.R. 242, effective April 5, 2021 (Supp. 21-1).

R12-4-803. Wildlife Area and Other Department Managed Property Boundary Descriptions

A. For the purposes of this Section:
"B.C." means brass cap.
"B.C.F." means brass cap flush.
"G&SRB&M" means Gila and Salt River Base and Meridian.
"M&B" means metes and bounds.
"R" means Range line.
"T" means Township line.

B. Wildlife Areas are described as follows:
1. Alamo Wildlife Area: The Alamo Wildlife Area shall be those areas described as follows:
T10N, R13W; Section 3 N1/2, SW1/4, SE1/4 Mohave County only; Section 4, E1/2SW1/4, SE1/4; Section 9, NE1/4, E1/2NW1/4; Section 10, NW1/4NW1/4, NE1/4NW1/4 within designated Wilderness Area. T11N, R11W; Section 7, S1/2SW1/4; Section 18, N1/2 NW1/4; T11N, R12W; Section 4, Lots 2, 3 and 4, SW1/4NE1/4, S1/2NW1/4, SW1/4, W1/2SE1/4; Section 5, Lot 1, SE1/4NE1/4, E1/2SE1/4; Section 7, S1/2, SE1/4 NE1/4; Section 8, NE1/4, S1/2NW1/4, S1/2; Section 9; Section 10, S1/2NW1/4, S1/2; Section 11, S1/2S1/2; Section 12, S1/2S1/2; Section 13, N1/2, N1/2SW1/4, NW1/4SE1/4; Section 14, N1/2, E1/2SE1/4; Section 15, N1/2, SW1/4SW1/4, SW1/4SE1/4; Section 16, 17, 18 and 19; Section 20, N1/2, N1/2SW1/4; Section 21, NW1/4; Section 29, SW1/4, SW1/4SE1/4; Section 30; Section 31, N1/2, N1/2S1/2; Section 32, NW1/4, N1/2SW1/4; T11N, R13W; Section 12, SE1/4SW1/4, SW1/4SE1/4, E1/2SE1/4; Section 13; Section 14, S1/2NE1/4, SE1/4SW1/4, SE1/4; Section 22, S1/2SW1/4, SE1/4; Section 23, E1/2, E1/2NW1/4, SW1/4NW1/4, SW1/4; Section 24, 25 and 26; Section 27, E1/2, E1/2W1/2; Section 34, E1/2, E1/2NW1/4, SW1/4; Section 35 W1/2, W1/2NE1/4; T12N, R12W; Section 19, E1/2, SE1/4SW1/4; Section 20, NW1/4NW1/4, SW1/4SW1/4; Section 28, W1/2SW1/4; Section 29, W1/2NW1/4, S1/2, SE1/4NW1/4; Section 30,

E1/2, E1/2NW1/4, NE1/4SW1/4; Section 31, NE1/4NE1/4; Section 32, N1/2, N1/2SE1/4, SE1/4SE1/4; Section 33, W1/2E1/2, W1/2; all in G&SRB&M, Mohave and La Paz Counties, Arizona.

2. Allen Severson Memorial Wildlife Area: The Allen Severson Memorial Wildlife Area shall be that area including Pintail Lake and South Marsh lying within the fenced and posted portions of:
T11N, R22E; Section 32, SE1/4; Section 33, S1/2SW1/4; T10N, R22E; Section 4, N1/2NW1/4; T10N, R22E; Section 4: the posted portion of the NW1/4SW1/4; all in G&SRB&M, Navajo County, Arizona, consisting of approximately 300 acres.
3. Aravaipa Canyon Wildlife Area: The Aravaipa Canyon Wildlife Area shall be that area within the flood plain of Aravaipa Creek and the first 50 vertical feet above the streambed within the boundaries of the Aravaipa Canyon Wilderness Area administered by the Bureau of Land Management (BLM), Graham and Pinal Counties, Arizona.
4. Arivaca Lake Wildlife Area: The Arivaca Lake Wildlife Area shall be those areas described as:
A parcel or land located in Sections 6, 7 and 8 all of which being situated in T22S, R11E of the G&SRB&M, Pima County, Arizona described as follows: Commencing at the N1/4 corner of said Section 7 run thence S 43°42'30" E (assumed bearing) a distance of 742.14 feet to point 1, the point of Beginning: thence N 81°26'32" E a distance of 705.76 feet to point 2; thence N 09°54'25" E a distance of 305.96 feet to point 3; thence N 21°43'49" E a distance of 872.20 feet to point 4; thence S 84°14'14" E a distance of 471.36 feet to point 5; thence N 28°12'16" E a distance of 357.98 feet to point 6: thence N 85°30'7" E a distance of 110.05 feet to point 7; thence S 02°03'27" W a distance of 417.50 feet to point 8; thence N 88°20'00" E a distance of 141.99 feet to point 9; thence S 27°29'57" W a distance of 341.84 feet to point 10; thence N 60°20'59" W a distance of 297.87 feet to point 11; thence S 38°10'38" W a distance of 363.79 feet to point 12; thence S 03°36'24" E a distance of 222.07 feet to Point 13; thence S 59°52'05" E a distance of 133.71 feet to point 14 from which the northeast corner of said Section 7 bears N 76°07'51" E a distance of 689.94 feet, said northeast corner also being the common Section corner of Sections 5, 6, 7 and 8 of said Township and Range; thence S 59°18'56" W a distance of 225.86 feet to point 15; thence S 14°38'09" W a distance of 184.94 feet to point 16; thence N 73°08'58" E a distance of 282.60 feet to point 17; thence S 33°21'50" W a distance of 275.24 feet to point 18; thence S 16°37'03" E a distance of 294.45 feet to point 19; thence S 60°13'45" E a distance of 187.22 feet to point 20; thence N 09°21'57" E a distance of 502.65 feet to point 21; thence S 57°19'17" E a distance of 175.82 feet to point 22; thence S 06°20'39" W a distance of 405.88 feet to point 23: thence S 73°13'57" E a distance of 307.36 feet to point 24; thence N 72°27'59" E a distance of 108.77 feet to point 25; thence N 13°07'02" E a distance of 316.07 foot to point 26; thence N 15°41'38" E a distance of 292.54 feet to point 27; thence S 16°25'12" E a distance of 338.44 feet to point 28; thence N 60°53'52" E a distance of 349.03 feet to point 29; thence N 68°30'49" E a distance of 286.09 feet to point 30; thence S 09°14'22" W a distance of 396.67 feet to point 31; thence S 42°27'47" W a distance of 265.50 feet to point 32; thence N 86°09'01" W a distance of 253.50 feet to point 33; thence S 34°29'33" W a distance of 500.53 feet to point 34; thence S 59°56'05" W a distance of 120.42 feet to point 35; thence N 71°17'44" W a distance of 228.54 feet to point 36; thence S 69°42'17" W a distance of 120.88 feet to point 37; thence S 12°12'05" E a distance of 146.20 feet to point 38; thence S 83°22'20" E a distance of 339.63 feet to point 39; thence N 34°26'45" E a distance of 345.01 feet to point 40; thence N 88°14'41" E a distance of 272.60 feet to point 41; thence S 54°11'52" E a distance of 246.09 feet to point 42; thence S 76°42'33" W a distance of 304.58 feet to point 43; thence S 25°02'30" W a distance of 515.24 feet to point 44; thence N 54°58'47" W a distance of 330.22 feet to point 45; thence S 59°01'38" W a distance of 443.06 feet to point 46; thence S 28° 40' 19" E a distance of 381.98 feet to point 47; thence S 42°18'41" E a distance of 436.71 feet to point 48 from which the E1/4 corner of said Section 7 and common to the W1/4 corner of said Section 8 bears N 04°23'16" E a distance of 126.73 feet; thence N 87°40'07" E a distance of 385.96 feet to point 49; thence S 46°57'39" E a distance of 243.05 feet to point 50; thence S 13°06'06" W a distance of 183.34 feet to point 51; thence N 55°28'27" W a distance of 228.94 feet to point 52; thence S 55°08'41" W a distance of 330.40 feet to point 53; thence S 48°10'36" E a distance of 218.70 feet to point 54; thence S 06°38'09" E a distance of 140.86 feet to point 55; thence S 28° 04'14" E a distance of 892.21 feet to point 56; thence S 12°20'35" W a distance of 181.98 feet to point 58; thence S 63°52'33" E a distance of 230.70 feet to point 59; thence S 72°30'09" E a distance of 335.12 feet to point 60; thence S 41°39'07" W a distance of 498.00 feet to point 61; thence N 86°49'30" W a distance of 330.81 feet to point 62; thence N 34°09'15" W a distance of 1380.92 foot to point 63; thence S 86°14'38" W a distance of 310.49 feet to point 64; thence N 04°22'03" W a distance of 206.30 feet to point 65; thence N 70°41'46" E a distance of 226.45 feet to point 66; thence N 10°01'58" E a distance of 468.22 feet to point 67; thence N 67°59'02" W a distance of 220.56 feet to point 68; thence N 36°50'14" W a distance of 360.36 feet to point 69; thence N 04°31'00" E a distance of 187.56 feet to point 69A; thence N 53°13'11" W a distance of 85.56 feet to point 69B; thence S 31°01'48" W a distance of 322.05 feet to point 70; thence S 16°55'20" W a distance of 1033.42 feet to point 71; thence S 32°45'38" E a distance of 209.12 feet to point 72; thence S 64°28'24" W a distance of 319.54 feet to point 73; thence S 24°35'49" W a distance of 264.49 feet to point 74; thence S 42°38'39" W a distance of 428.36 feet to point 75; thence N 88°49'40" W a distance of 549.92 feet to point 76 from which the S1/4 corner of said Section 7 bears S 28°36'15" W a distance of 730.77 feet; thence N 27°38'55" W a distance of 456.55 feet to point 76A; thence N 21°18'02" E a distance of 2170.03 feet to point

78; thence N 00°01'17" E a distance of 958.28 feet to point 79; thence S 89°36'36" W a distance of 624.49 feet to point 80; thence N 00°05'06" E a distance of 553.06 feet to point 81 from which the N1/4 corner of said Section 7 bears N 14°02'18" W a distance of 734.38 feet; thence N 62°15'48" E a distance of 378.12 feet to the point of beginning; consisting of approximately 195.04 acres.

5. Arlington Wildlife Area: The Arlington Wildlife Area shall be those areas described as follows:
T1S, R5W, Section 33, E1/2SE1/4; T2S, R5W, Section 3, W1/2W1/2, Section 4, E1/2, and Parcel 401-58-001A as described by the Maricopa County Assessor's Office; a parcel of land lying within Section 4, T2S, R5W, more particularly described as follows: commencing at the southwest corner of said Section 4, 2-inch aluminum cap (A.C.) in pothole stamped "RLS 36562", from which the northwest corner of said Section, a 1 1/2-inch B.C. stamped "T1S R5W S32 S33 S5 S4 1968", bears N 00°09'36" E (basis of bearing) a distance of 4130.10 feet, said southwest corner being the point of beginning; thence along the west line of said Section, N 00°09'36" E a distance of 16.65 feet; thence leaving said west line, S 89°48'28" E a distance of 986.79 feet; thence N 00°47'35" E a distance of 2002.16 feet; thence N 01°07'35" E a distance of 2102.65 feet to the north line of said Section; thence along said north line S 89°18'45" E a distance of 1603.61 feet to the N1/4 corner of said Section, a 1/2-inch metal rod; thence leaving said north line, along the north-south midsection line of said Section, S 00°08'44" E a distance of 4608.75 feet to the S1/4 corner of said Section, a 3-inch B.C.F. stamped "T2S R5W 1/4S4 S9 RLS 46118 2008"; thence leaving said north-south midsection line, along the south line of said Section, N 79°10'54" W a distance of 2719.41 feet to the point of beginning. Subject to existing rights-of-way and easements. This parcel description is based on the Record of Survey for Alma Richardson Property, recorded in Book 996, page 25, Maricopa County Records and other client provided information. This parcel description is located within an area surveyed by Wood, Patel & Associates, Inc. during the month of April, 2008 and October, 2009 and any monumentation noted in this parcel description is within acceptable tolerance (as defined in Arizona Boundary Survey Minimum Standards dated 02/14/2002) of said positions based on said survey; all in G&SRB&M, Maricopa County, Arizona. Section 9; NW1/4 and SW1/4; Section 3; LOT 4 SW1/4NW1/4, W1/2SW1/4 NE1/4SE1/4; Section 3; M&B in LOT 1 SE1/4NE1/4E1/2SE1/4; Section 9; M&B in NE1/4NE1/4; Section 10; SW1/4NW1/4; Section 15; those portions of S1/2W1/4 and N1/2SW1/4 lying west of the primary through road; Section 16; W1/2 M&B in E1/2E1/2 W1/2E1/2; Section 21; NE1/4NW1/4 and Parcel 401-61-008D as described by the Maricopa County Assessor's Office, more particularly described as follows: commencing at the BLM B.C. marking the northeast corner of said Section 21, from which the BLM B.C. marking the northwest corner of said Section 21 bears N 82°26'05" W a distance of 5423.64 feet; thence N 82°26'05" W along the north line of Section 21 a distance of 2711.82 feet to the NW1/4 corner of said Section 21; thence S 00°33'45" W along the north-southerly midsection line of said Section 21 a distance of 33.25 feet to the True Point of Beginning; thence continuing S 00° 33'45" W along said north-south midsection line a distance of 958.00 feet to a point on a line which is parallel with and 983.85 feet southerly, as measured at right angles from the north line of said Section 21; thence N 82°26'05" W along said parallel line a distance of 925.54 feet; thence N 26°12'18" W a distance of 153.32 feet; thence N 13°26'18" W a distance of 303.93 feet; thence N 34°15'49" W a distance of 189.27 feet; thence N 21°32'45" W a distance of 215.60 feet; thence N 89°25'47" W a distance of 95.37 feet to a point on the west line of the NE1/4N1/4 of said Section 21; thence N 00°34'13" E, along said west line a distance of 223.54 feet to a point on a line which is parallel with and 33.00 feet southerly, as measured at right angles from the north line of said Section 21; thence S 82°26'05" E along said parallel line, a distance of 1355.91 feet to the True Point of Beginning; all in G&SRB&M, Maricopa County, Arizona.

6. Base and Meridian Wildlife Area: The Base and Meridian Wildlife Area shall be those areas described as follows:
T1N, R1E, Section 31; Maricopa County APN 101-44-023, also known as Lots 3, 5, 6, 7, 8 and NE1/4SW1/4, and Maricopa County APN 101-44-003J, also known as the S1/2S1/2SW1/4NW1/4 except the west 55 feet thereof; and 101-44-003K, also known as the S1/2S1/2SW1/4NW1/4 except the west 887.26 feet thereof; and Maricopa County APN 104-44-002S, also known as that portion of the N1/2SE1/4, described as follows: commencing at the aluminum cap set at the E1/4 corner of said Section 31, from which the 3" iron pipe set at the southeast corner of said Section 31, S 00°20'56" W a distance of 2768.49 feet; thence S 00°20'56" W along the east line of said SE1/4 of Section 31 a distance of 1384.25 feet to the southeast corner of said N1/2SE1/4; thence S 89"25'13" W along the south line of said N1/2SE1/4 a distance of 2644.35 feet to the southwest corner of said N1/2SE1/4 and the point of beginning; thence N 00°03'37" W along the west line of said SE1/4 a distance of 746.86 feet to the south line of the north 607.00 feet of said N1/2SE1/4; thence N 88°46'12" E along said south line of the north 607.00 feet of the N1/2SE1/4 a distance of 656.09 feet; thence S 00°03'37" E parallel with said west line of the SE1/4 a distance of 754.31 feet to said south line of the N1/2SE1/4; Thence S 89"25' 13" W along said south line of the N1/2SE1/4 a distance of 655.98 feet to the point of beginning. T1N, R1W, Section 34, N1/2SE1/4; Section 35, S1/2; Section 36. The Maricopa County APN 500-69-099; the W1/2SE1/4NE1/4. APN 500-69-099, 500-69-100, also known as that portion of the SE1/4SE1/4NE1/4. 500-69-010C, also known as that portion of the W1/2SE1/4NE1/4, except any portion of said W1/2SE1/4NE1/4 of Section 36 lying within the following described four parcels: Exception 1: commencing at the northeast corner of said

W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°10' E a distance of 846.16 feet to the point of beginning; thence continuing S 00°18' E a distance of 141.17 feet; thence S 87°51'15" W a distance of 570.53 feet; thence S 00°29' E a distance of 310.00 feet to the south line of said W1/2SE1/4NE1/4 of Section 36; thence N 89°29' W along the west line of said W1/2SE1/4NE1/4 of Section 36 a distance of 425.93 feet; said point bears S 00°29' E a distance of 895.93 feet from the northwest corner of said W1/2SE1/4NE1/4 of Section 36; thence N 85°54C33" E a distance of 647.01 feet to the point of beginning. Exception 2: commencing at the northeast corner of said W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°18' E a distance of 846.16 feet to the point of beginning; said point being on the northerly line of the Flood Control District of Maricopa County parcel as shown in Document 84-26119, Maricopa County Records; thence S 85°54'33" W a distance of 647.01 feet to the west line of said W1/2SE1/4NE1/4 of Section 36; thence N 00°29' W along said west line a distance of 30 feet; thence N 84°23'15" E a distance of 228.19 feet; thence N 87°17'06" E a distance of 418.85 feet to the east line of the W1/2SE1/4NE1/4 of Section 36; thence S 00°18' E along said east line a distance of 26.00 feet to the point of beginning. Exception 3: the South 37.6 feet of said W1/2SE1/4NE1/4 of Section 36. Except all oil, gas and other hydrocarbon substances, helium or other substance of gaseous nature, coal, metals, minerals, fossils, fertilizer of every name and description and except all materials which may be essential to the production of fissionable material as reserved in Arizona Revised Statutes. Exception 4: that part of the W1/2SE1/4NE1/4 of Section 36, T1N, R1W lying north of the following described line: commencing at the northeast corner of said W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°18'00" E a distance of 820.16 feet, to the point of beginning; said point being on the northerly line of the Flood District of Maricopa County parcel as shown in Document 85-357813, Maricopa County Records; thence S 87°17'06" W a distance of 418.85 feet; thence S 84°23'15" W a distance of 228.19 feet to the west line of said W1/2SE1/4NE1/4 of Section 36 and the point of terminus. The above described parcel contains 162,550 sq. ft. or 3.7316 acres 500-69-001L and 500-69-001M, also known as the N1/2SE1/4, except the south 892.62 feet thereof. 500-69-001N, 500-69-001P, 500-69-001Q, 500-69-001R, 500-69-001T, 500-69-001X, 500-69-001Y, also known as that portion of the south 892.62 feet of the N1/2SE1/4. The SE1/4SE1/4NE1/4 of Section 36, T1N, R1W, except the south 37.6 feet of said SE1/4SE1/4NE1/4, and except the east 55 feet of said SE1/4SE1/4NE1/4, and except that part of said SE1/4SE1/4NE1/4 lying north of the most southerly line of the parcel described in Record 84-026119, Maricopa County Records, said southerly line being described as follows: beginning at the NE1/4S1/2NE1/4SE1/4NE1/4 of said Section 36; thence S 00°07' E along the east line of Section 36, a distance of 50.70 feet; thence S 89°53' W a distance of 55.00 feet to a point on the west line of the east 55.00 feet of said Section 36; thence S 00°07' E along said line, a distance of 510.00 feet; thence S 81°4'43" W a distance of 597.37 feet to a terminus point on the west line of said SE1/4SE1/4NE1/4 of Section 36, and except that part of said SE1/4SE1/4NE1/4 described as follows: commencing at the E1/4 corner of said Section 36; thence N 89°37'23" W along the south line of said SE1/4SE1/4NE1/4 of Section 36, a distance of 241.25 feet; thence N 18°53'04" E a distance of 39.65 feet to the point of beginning; thence continuing N 18°53'04" E a distance of 408.90 feet; thence S 81°04'43" W a distance of 222.55 feet; thence S 18°53'04" W a distance of 370.98 feet; thence S 89°37'23" E a distance of 207.58 feet to the point of beginning. That portion of land lying within the SE1/4SE1/4NE1/4 of Section 36, T1N, R1W, and the S1/2SW1/4NW1/4 of Section 31, T1N, R1E, as described in Document Number 99-1109246. Except the west 22 feet of the property described in Recorder Number 97-0425420, also known as APN 101-44-003G; and except the west 22 feet of the property described in Recorder Number 97-566498, also known as APN 101-44-013; all in G&SRB&M, Maricopa County, Arizona.

7. Becker Lake Wildlife Area: The Becker Lake Wildlife Area shall be that area including Becker Lake lying within the fenced and posted portions of:
T9N, R29E, Section 19, SE1/4SE1/4 also known as APN. 105-07-001; Section 20, SW1/4SW1/4; beginning at a point 1012 feet north of the southwest corner of the SE1/4SW1/4 of Section 20, T9N, R29E; thence north 1285 feet; thence east a distance of 462 feet; thence south a distance of 2122 feet, more or less to the center of U.S. Highway 60; thence in a northwesterly direction along the center of U.S. Highway 60 a distance of 944 feet, more or less; thence west a distance of 30 feet, more or less to the point of beginning, also known as APN 105-08-002); Section 29, W1/2NW1/4, NW1/4SW1/4, also known as APN 105-15-003; beginning at the S1/4 corner of said Section 29, said point being the True Point of Beginning; thence N 00°43'20" E along the western boundary of the SE1/4 of said Section 29, a distance of 1329.15 feet to the center-south 1/16 corner of said Section 29; thence S 89°53'01" W along the southern boundary of the NE1/4SW1/4 of said Section 29, a distance of 99.69 feet; thence N 00°43'20" E a distance of 417.54 feet; thence S 89°31'37" E a distance of 99.69 feet; thence N 00°43'20" E along the western boundary of the SE1/4 of said Section 29 a distance of 374.40 feet; thence N 88°49'48" E a distance of 474.94 feet; thence N 27°35' 15" E a distance of 99.21 feet; thence N 04°13'26" W a distance of 160.59 feet; thence N 37°38'44" E a distance of 12.27 feet; thence S 26°22'25" E a distance of 371.13 feet; thence N 31°21'35" E a distance of 58.00 feet; thence S 26°22'27" E a distance of 1203.23 feet; thence S 63°58'58" W a distance of 200.00 feet; thence S 36°24'36" E a distance of 375.11 feet; thence S 00°24'06" W a distance of 490.79 feet; thence S 01°22'24" E a distance of 110.21 feet; thence S 22°27'23" E a distance of 44.27 feet; thence N 89°48'03" W a distance of 1331.98 feet to the True Point of Beginning, also known as APN

105-15-014E; beginning at the corner of Sections 28, 29, 32 and 33, T9N, R29E of G&SRB&M, Apache County, Arizona; thence N 54°21'09" W a distance of 1623.90 feet; thence N 26°00'59" W a distance of 100.00 feet; thence N 26°22'14" W a distance of 1203.23 feet to the True Point of Beginning; thence N 26°22'27" W a distance of 351.19 feet; thence S 55°14'10" W a distance of 38.42 feet; thence S 37°38'44" W a distance of 12.38 feet; thence S 26°22'14" E a distance of 371.13 feet; thence N 31°21'35" E a distance of 58.00 feet to the True Point of Beginning, also known as APN 105-15-014C. S1/2SW1/4, except the following described parcel: commencing at a 2-inch aluminum cap monument stamped LS 8906 located at the Section corner common to Sections 29, 30, 31 and 32 of said Township and Range; thence bear S 89°46'16" E along the Section line common to Sections 29 and 32, a distance of 1038.05 feet to the True Point of Beginning; thence N 35°17'33" E along the northwest boundary of the Springerville Municipal Airport a distance of 328.32 feet; thence S 39°31'26" E a distance of 349.55 feet to a point on the Section line common to Sections 29 and 32; thence N 89°46'44" W a distance of 131.96 feet to the W1/16 corner of Sections 29 and 32; thence N 89°46'16" W a distance of 280.18 feet to the True Point of Beginning. Section 30, NE1/4SE1/4, E1/2NE1/4 also known as APN 105-16-001; W1/2NE1/4, W1/2NE1/4 also known as APN 105-16-002; Section 32, beginning at the N1/4 corner of said Section 32, said point being the True Point of Beginning; thence S 89°48'03" E along the north line of said Section 32 a distance of 1331.98 feet; thence S 21°49'15" E a distance of 198.07 feet; thence S 20°56'35" W a distance of 191.75 feet; thence S 19°53'23" W a distance of 24.65 feet; thence S 39°17'55" W a distance of 86.61 feet; thence S 01°41'36" E a distance of 13.60 feet; thence S 50°13'33" W a distance of 1.29 feet; thence S 02°24'23" E a distance of 906.39 feet; thence S 00°44'11" W a distance of 466.82 feet; thence S 35°26'56" W a distance of 218.51 feet; thence S 89°57'05" W a distance of 1141.87 feet; thence N 07°57'52" E a distance of 328.83 feet; thence N 77°39'30" W a distance of 68.79 feet; thence N 00°30'56" W a distance of 334.16 feet to a 1/16th section corner; thence N 00°30'56" W a distance of 1349.10 feet to the True Point of Beginning. Except therefrom any portion lying in the S1/2SW1/4NE1/4 of said Section 32 also known as APN 105-18-008A; all that portion of the NE1/4NW1/4 of Section 32, T9N, R29E of G&SRB&M, Apache County, Arizona, lying east of the Becker Lake Roadway; except for the following described parcel: from the NW1/16 corner of said Section 32; thence S 89°45'28" E along the 1/16 line a distance of 736.55 feet to the True Point of Beginning, said point being in the west rights-of-way limits of Becker Lake Rd.; thence N 06°09'00" W along the west line of said right-of-way a distance of 266.70 feet to a 1/2-inch rebar with a tag marked LS 13014; thence N 06°21'43" W a distance of 263.42 feet to a 1/2-inch rebar with a tag marked LS 13014; thence N 06°21'43" W a distance of 198.60 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence N 78°43'10" E a distance of 158.40 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 47°05'42" E a distance of 65.65 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 29°24'20" E a distance of 202.48 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 48°03'17" W a distance of 146.19 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence South 19°36'10" W a distance of 115.75 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence South 00°38'05" East a distance of 74.66 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 14°52' 53" E a distance of 125.09 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 15°08'20" E a distance of 136.60 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 89°58'07" W a distance of 144.13 feet to the True Point of Beginning, also known as APN 105-18-012G.

8. Bog Hole Wildlife Area: The Bog Hole Wildlife Area lying in Sections 29, 32 and 33, T22S, R17E shall be the fenced and posted area described as follows: beginning at the southeast corner of Section 32, T22S, R17E, G&SRB&M, Santa Cruz County, Arizona; thence N 21°42'20" W a distance of 1394.86 feet to the True Point of Beginning; thence N 9°15'26" W a distance of 1014.82 feet; thence N 14°30'58" W a distance of 1088.82 feet; thence N 36°12'57" W a distance of 20.93 feet; thence N 50°16'38" W a distance of 1341.30 feet; thence N 57°51'08" W a distance of 1320.68 feet; thence N 39°03'53" E a distance of 1044.90 feet; thence N 39°07'43" E a distance of 1232.32 feet; thence S 36°38'48" E a distance of 1322.93 feet; thence S 43°03'17" E a distance of 1312.11 feet; thence S 38°19'38" E a distance of 1315.69 feet; thence S 13°11'59" W a distance of 2083.31 feet; thence S 69°42'45" W a distance of 920.49 feet to the True Point of Beginning.
9. Chevelon Canyon Ranches Wildlife Area: The Chevelon Canyon Ranches Wildlife Area shall be those areas described as follows:
   Duran Ranch: T12N, R14E; Sections 6 and 7, more particularly bounded and described as follows: beginning at Corner 1, from which the Standard Corner to Section 31 in T13N, R14E and Section 36 T13N, R13E, bears N 11°41' W 21.53 chains distant; thence S 26°5' E 6.80 chains to Corner 2; thence S 66° W 12.74 chains to Corner 3; thence S 19°16' W 13.72 chains to Corner 4; thence S 29°1' W 50.02 chains to Corner 5; thence N 64°15' W five chains to Corner 6; thence N 28°54' E 67.97 chains to Corner 7; thence N 55°36' E 11.02 to Corner 1; the place of beginning,; all in G&SRB&M, Coconino County, Arizona. Dye Ranch: T12N, R14E Sections 9 and 16, more particularly described as follows: beginning at Corner 1 from which the Standard corner to Sections 32 and 33 in T13N, R14E, bears N 2° 24' E 127.19 chains distant; thence S 50°20' E 4.96 chains to corner 2; thence S 29°48' W 21.97 chains to Corner 3; thence S 14°45' W 21.00 chains to Corner 4; thence N 76°23' W 3.49 chains to Corner 5; thence N 10°13' W 14.02 chains to

Corner 6; thence N 19°41' E 8.92 chains to Corner 7; thence N 38°2' E 24.79 chains to Corner 1, the place of beginning; all in G&SRB&M, Coconino County, Arizona. Tillman Ranch: T12N, R14E land included in H.E. Survey 200 embracing a portion of approximately Sections 9 and 10 in T12N, R14E of G&SRB&M; all in G&SRB&M, Coconino County, Arizona. Vincent Ranch: T12N, R13E; Sections 3 and 4, more particularly described as follows: beginning at Corner 1, from which the south corner to Section 33, T13N, R13E, bears N 40°53' W 16.94 chains distance; thence S 53° 08' E 2.98 chains to Corner 2; thence S 11°26' W 6.19 chains to Corner 3; thence S 49°43' W 22.41 chains to Corner 4; thence S 22°45' W 30.03 chains to Corner 5; thence N 67°35' W 6.00 chains to Corner 6; thence N 23° E 30.03 chains to Corner 7; thence N 42°18' E 21.19 chains to Corner 8; thence N 57°52' E 8.40 chains to Corner 1, the place of beginning; all in G&SRB&M, Coconino County, Arizona. Wolf Ranch: T12N, R14E, Sections 18 and 19, more particularly bounded and described as follows: beginning at Corner 1, from which the U.S. Location Monument 184 H. E. S. bears S 88°53' E 4.41 chains distant; thence S 34°4' E 11.19 chains to Corner 2; thence S 40°31' W 31.7 chains to Corner 3; thence S 63°3' W 7.97 chains to Corner 4; thence S 23°15' W 10.69 chains to Corner 5; thence N 59° W 2.60 chains to Corner 6; thence N 18°45' E 10.80 chains to Corner 7; thence N 51°26' E 8.95 chains to Corner 8; thence N 30°19' E 34.37 chains to Corner 1; the place of beginning; all in G&SRB&M, Coconino County, Arizona.

10. Chevelon Creek Wildlife Area: The Chevelon Creek Wildlife Area shall be those areas described as follows:
Parcel 1: The S1/2S1/2NW1/4SW1/4 of Section 23, T18N, R17E of G&SRB&M; Parcel 2: Lots 1, 2, 3 and 4 of Section 26, T18N, R17E of G&SRB&M; Parcel 1: That portion of the NE1/4 of Section 26 lying northerly of Chevelon Creek Estates East Side 1 Amended, according to the plat of record in Book 5 of Plats, page 35, records of Navajo County, Arizona, all in T18N, R17E of G&SRB&M, Navajo County, Arizona. Parcel 2: That part of Tract A, Chevelon Creek Estates East Side 1 Amended, according to the plat of record in Book 5 of Plats, page 35, records of Navajo County, Arizona lying northerly of the following described line: beginning at the southwest corner of Lot 3 of said subdivision; thence southwesterly in a straight line to the southwest corner of Lot 6 of said subdivision.
11. Cibola Valley Conservation and Wildlife Area: The Cibola Valley Conservation and Wildlife Area shall be those areas described as follows:
Parcel 1: this parcel is located in the NW1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying east of the right of way line of the "Cibola Channelization Project of the United States Bureau of Reclamation Colorado River Front Work and Levee System," as indicated on Bureau of Reclamation Drawing 423-300-438, dated March 31, 1964, and more particularly described as follows: beginning at the northeast corner of the NW1/4 of said Section 36; thence south and along the east line of the NW1/4 of said Section 36, a distance of 2646.00 feet to a point being the southeast corner of the NW1/4 of said Section 36; thence westerly and along the south line of the NW1/4 a distance of 1711.87 feet to a point of intersection with the east line of the aforementioned right of way; thence northerly and along said east line of the aforementioned right of way, a distance of 2657.20 feet along a curve concave easterly, having a radius of 9260.00 feet to a point of intersection with the north line of the NW1/4 of said Section 36; thence easterly and along the north line of the NW1/4 of said Section 36, a distance of 1919.74 feet to the point of beginning. Parcel 2: this parcel is located in the U.S. Government Survey of Lot 1 and the E1/2SW1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying east of the right of way line of the "Cibola Channelization Project of the United States Bureau of Reclamation Colorado River Front Work and Levee System," as indicated on Bureau of Reclamation Drawing 423-300-438, dated March 31, 1964, and more particularly described as follows: beginning at the S1/4 corner of said Section 36; thence westerly and along the south line of said Section 36, a distance of 610.44 feet to a point of intersection with the east line of the aforementioned right of way; thence northerly along said east line of the of the aforementioned right of way and along a curve concave southwesterly, having a radius of 17350.00 feet, a distance of 125.12 feet; thence continuing along said right of way line and along a reverse curve having a radius of 9260.00 feet, a distance of 2697.10 feet to a point of intersection with the east-west midsection line of said Section 36; thence easterly along said east-west midsection line, a distance of 1711.87 feet to a point being the center of said Section 36; thence south and along the north-south midsection line, a distance of 2640.00 feet to the point of beginning. Parcel 3: this parcel is located in the E1/2NE1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona. Parcel 4: this parcel is located in the E1/2NW1/4SW1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the south right of way line of U.S.A. Levee; except therefrom that portion lying within Cibola Sportsman's Park, according to the plat thereof recorded in Book 4 of Plats, Page 58, records of Yuma (now La Paz) County, Arizona; and further excepting the N1/2E1/2NW1/4SW1/4. Parcel 5: this parcel is located in the S1/2SW1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona. Except the west 33.00 feet thereof; and further excepting that portion more particularly described as follows: the N1/2NW1/4SW1/4SW1/4 of said Section, excepting the north 33.00 feet and the east 33.00 feet thereof. Parcel 6: this parcel is located in the SW1/4SE1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona. Parcel 7: this parcel is located in Sections 24 and 25, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and east of Meander line per BLM Plat 2647C. Parcel 8: this parcel is located in the W1/2 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River. Except that portion in condemnation suit Civil 5188PHX filed in District

Court of Arizona entitled USA -vs- 527.93 acres of land; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 9: this parcel is located in the N1/2NE1/4SE1/4; and the W1/2SW1/4NE1/4SE1/4; and that portion of the SE1/4NE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the south right of way line of the U.S.B.R. Levee; except the east 33.00 feet thereof; and further excepting that portion more particularly described as follows: commencing at the northeast corner of the SE1/4 of said Section 20; thence S 0º24'00" E along the east line, a distance of 380.27 feet; thence S 89º36'00" W a distance of 50.00 feet to the True Point of Beginning; thence continuing S 89º36'00" W a distance of 193.00 feet; thence N 0º24'00" W a distance of 261.25 feet; thence S 70º11'00" E a distance of 205.67 feet to the west line of the east 50.00 feet of said SE1/4 of Section 20; thence S 0º24'00" E a distance of 190.18 feet to the True Point of Beginning; excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 10: this parcel is located in the S1/2SE1/4 Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona; except the east 33.00 feet thereof. Parcel 11: This parcel is located in the SW1/4NE1/4; and the NW1/4SE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and west of the Meander line per BLM Plat 2546B; except any portion thereof lying within U.S.A. Lots 5 and 6 of said Section 20, as set forth on BLM Plat 2546B; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 12: this parcel is located in the SE1/4NE1/4SE1/4; and the E1/2SW1/4NE1/4SE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona. Parcel 13: this parcel is located in the E1/2 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River; except the W1/2W1/2SE1/4SW1/4SE1/4; except the E1/2E1/2SW1/4SW1/4SE1/4; except the SW1/4SW1/4NE1/4; except the W1/2SE1/4SW1/4NE1/4; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 14: this parcel is located in the SW1/4SW1/4NE1/4; and the W1/2SE1/4SW1/4NE1/4 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and protection levees and front work, excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 15: this parcel is located in the W1/2 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona; except the west 133.00 feet thereof; except any portion lying within the U.S. Levee or Channel right of way or any portion claimed by the U.S. for Levee purposes or related works; and except the SE1/4SE1/4SW1/4 of said Section 20. Parcel 16: this parcel is located in the SE1/4SE1/4SW1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona.

12. Clarence May and C.M.H. May Memorial Wildlife Area: The Clarence May and C.M.H. May Memorial Wildlife Area shall be the SE1/4 of Section 8 and N1/2NE1/4 of Section 17, T17S, R31E, and the W1/2SE1/4, S1/2NW1/4, and SW1/4 of Section 9, T17S, R31E, G&SRB&M, Cochise County, Arizona, consisting of approximately 560 acres.
13. Cluff Ranch Wildlife Area: The Cluff Ranch Wildlife Area is that area within the fenced and posted portions of Sections 13, 14, 23, 24, and 26, T7S, R24E, G&SRB&M, Graham County, Arizona; consisting of approximately 788 acres.
14. Coal Mine Spring Wildlife Area: The Coal Mine Spring Wildlife Area shall be those areas described as:
    Phase I: That portion of the N1/2 of the Baca Location No. 3, also known as the Baca Float No. 3 in Santa Cruz County, Arizona according to the survey by Philip Contzen under Contract No. 133, dated June 17, 1905 and now filed and approved in the Office of the Commissioner of the General Land Office, Washington, D. C., described as follows: Beginning at the southeast corner of Lot 128, as shown on the record of survey of Salero Ranch Unit 7, recorded in Book 2 of Records of Survey, page 455, records of Santa Cruz County, Arizona. Thence the following 13 courses and distances upon the boundary line of said Salero Ranch Unit 7; N 29°42'21" E a distance of 2605.96 feet; S 58°19'30" E a distance of 1154.77 feet; thence N 19°14'52" E a distance of 1039.92 feet; thence N 56°11'38" E a distance of 1160.51 feet; thence N 26°24'15" W a distance of 1201.99 feet; thence N 12°43'46" W a distance of 1774.13 feet; thence N 60°37'49" W a distance of 1403.00 feet; thence S 87°25'09" W a distance of 2733.59 feet; thence S 69°40'43" W a distance of 1437.62 feet; thence S 90°00'00" W a distance of 640.89 feet; thence N 5°17'55" E a distance of 1274.34 feet; thence N 11°18'44" E a distance of 2193.00 feet; thence N 2°31'52" W a distance of 1109.93 feet to the northeast corner of Lot 110 of said Salero Ranch Unit 7, on the southerly boundary line of Salero Ranch Unit 4, as shown on the record of survey recorded in Book 2 of Records of Survey, page 454, records of Santa Cruz County, Arizona; thence S 77°20'10" E a distance of 1403.77 feet upon said southerly boundary line; thence N 85°19'15" E a distance of 415.73 feet upon said southerly boundary line; thence N 83°19'40" E a distance of 1332.97 feet upon said southerly boundary line; thence S 53°17'58" E a distance of 2353.56 feet; thence S 79°45'10" E a distance of 2127.16 feet; thence N 78°08'19" E a distance of 1754.99 feet; thence S 76°40'30" E a distance of 645.76

feet; thence N 8°06'04" E a distance of 2439.25 feet; thence N 83°38'56" E a distance of 2626.58 feet; thence S 4°32'48" E a distance of 1300.66 feet; thence S 22°28'06" E a distance of 1289.33 feet; thence S 41°28'30" E a distance of 693.93 feet; thence N 64°37'22" E a distance of 1137.61 feet; thence S 22°10'49" E a distance of 2355.11 feet; thence S 27°36'21" W a distance of 931.18 feet; thence S 42°06'28" E a distance of 800.14 feet; thence S 23°50'04" W a distance of 5166.49 feet; thence S 0°00'00" W a distance of 853.11 feet to the easterly projection of the south line of said Salero Ranch Unit 7; thence S 90°00'00" W 6 a distance of 239.35 feet upon said easterly projection; thence S 0°00'00" E a distance of 376.92 feet to a 1/2-inch rebar at the northeast corner of the abandonment and reversion to acreage plat, recorded in Book 4 of Maps and Plats at page 35, records of Santa Cruz County, Arizona, also being the northeast corner of the Sonoita Creek State Natural Area, recorded in Book 2 of Records of Survey at page 68, records of Santa Cruz County, Arizona; thence N 89°36'12" W a distance of 4547.83 feet upon the north line of said abandonment and reversion to acreage plat and said Sonoita Creek Natural State Area; thence N 29°42'21" E a distance of 397.69 feet to the point of beginning.

Phase II: Portions of the N1/2 of the Baca Location No. 3, also known as the Baca Float Location No. 3 in Santa Cruz County, Arizona, according to the survey by Philip Contzen under Contract No. 133, dated June 17, 1905 and now filed and approved in the Office of the Commissioner of the General Land Office, Washington, D. C., described as follows:

Parcel 1: Beginning at “PT 17", as shown in the record of survey Coal Mine Canyon, recorded in Book 2 of Records of Survey, page 651, records of Santa Cruz County, Arizona, also being the southwest corner of Lot 102 of Salero Ranch Unit 4, as shown on the record of survey recorded in Book 2 of Records of Survey, page 454, records of Santa Cruz County, Arizona; thence N 58°47'17" E a distance of 1817.43 feet upon the boundary line of said Salero Ranch Unit 4; thence N 34°12'25" E a distance of 2213.94 feet upon said boundary line; thence N 62°07'32" E a distance of 792.65 feet upon said boundary line; thence departing said boundary line, N 80°16'25" E a distance of 2588.25 feet; thence S 66°29'16" E a distance of 913.97 feet; thence S 48°56'10" E a distance of 3171.87 feet to “PT 23” of said record of survey of Coal Mine Canyon; thence the following 6 courses upon said boundary line of said record of survey; thence S 83°38'56" W a distance of 2626.58 feet; thence S 8°06'04" W a distance of 2439.25 feet; thence N 76°40'30" W a distance of 645.76 feet; thence S 78°08'19" W a distance of 1754.99 feet; thence N 79°45'10" W a distance of 2127.16 feet; thence N 53°17'58" W a distance of 2353.56 feet to the point of beginning. Containing approximately 634.858 acres.

Parcel 2: Beginning at “PT 23”, as shown in the record of survey Coal Mine Canyon; thence S 42°44'49" E a distance of 6724.97 feet; thence S 23°50'04" W a distance of 4984.18 feet; thence S 58°24'44" W a distance of 1555.88 feet to the easterly boundary line of said record of survey; thence N 23°50'04" E a distance of 4583.50 feet upon said easterly line to “PT 30”; thence following 7 courses upon the boundary line of said record of survey; thence N 42°06'28" W a distance of 800.14 feet; thence N H 27°36'21" E a distance of 931.18 feet; thence N 22°10'49" W a distance of 2355.11 feet; thence S 64°37'22" W a distance of 1137.61 feet; thence N 41°28'30" W a distance of 693.93 feet; thence N 22°28'06" W a distance of 1289.33 feet; thence N 4°32'48" W a distance of 1300.66 feet to the point of beginning. Containing approximately 238.928 acres, with both parcels containing approximately 873.8 acres.

Phase III: A portion of the N1/2 of the Baca Location No. 3, also known as the Baca Float Location No. 3 in Santa Cruz County, Arizona, according to the survey by Philip Contzen under Contract No. 133, dated June 17, 1905 and now filed and approved in the Office of the Commissioner of the General Land Office, Washington, D. C., described as follows:

Parcel l: Beginning at “PT 32”, as shown in the record of survey Coal Mine Canyon, recorded in Book 2 of Records of Survey, page 651, records of Santa Cruz County, Arizona, thence N 00°00'0" E a distance of 853.11 feet upon the east line of said Coal Mine Canyon; thence N 23°50'04" E a distance of 582.99 feet upon said east line; thence departing said east line, N 58°24'44" E a distance of 1555.88 feet; thence N H 23°50'04" E a distance of 4984.07 feet; thence N 42°44'46" W a distance of 6725.01 feet to “PT 23” of said record of survey; thence N 48°56'1 0" W a distance of 248.35 feet to the most southerly corner of Lot 167 of Salero Ranch Amended Unit 5, a record of survey recorded in Book 2 of Surveys at page 890, records of Santa Cruz County, Arizona; thence N 64°11'14" E a distance of 1596.01 feet upon the southerly line of said lot 167; thence departing said southerly line, N 05°09'36" E a distance of 1369.85 feet: thence N 53°17'18" E a distance of 65.27 feet; thence N 35°52'16" E a distance of 125.74 feet; thence N 74°11'01" E a distance of 169.04 feet; thence N 55°03'38" E a distance of 178.31 feet; thence N 85°27'03" E a distance of 214.56 feet; thence N 69°11'45" E a distance of 152.18 feet; thence N 38°28'18" E a distance of 21.66 feet; thence N 85°02'24" E a distance of 41.31 feet; thence N 38°28'18" E a distance of 586.88 feet; thence N 50°53'07" E a distance of 190.20 feet; thence S 18°53'17" E a distance of 63.40 feet; thence S 08°07'48" E a distance of 102.38 feet to a tangent curve concave northeasterly; thence southeasterly upon said arc of said curve to the left, having a radius of 380.00 feet and a central angle of 77°14'41", for an arc distance of 512.31 feet to a tangent line; thence S 85°22'29" E a distance of 279.02 feet; thence S 70°54'30" E a distance of 129.90 feet; thence N 83°37'47" E a distance of 142.49 feet; thence S 62°23'38" E a distance of 198.13 feet; thence S 36°56'10" E a distance of 113.72 feet; thence S 58°09'14" E a distance

of 170.59 feet; thence N 87°32'08" E a distance of 64.89 feet T to a tangent curve concave southerly; thence easterly upon the arc of said curve to the right, having a radius of 700.00 feet and a central angle of 23°48'20", for an arc distance of 290.84 feet to a compound curve concave southwesterly; thence southeasterly upon the arc of said curve to the right, having a radius of 100.00 feet and a central angle of 55°43'08", for an arc distance of 97.25 feet to a reverse curve concave northerly; thence easterly upon said arc of said curve to the left, having a radius of I 00.00 feet and a central angle of 176°30'32", for an arc distance of 308.07 feet to a non-tangent line; thence N 80°33'04" E a distance of 772.85 feet; thence S 00°31 '59" W a distance of 1378.17 feet; thence S 57°01'50" E a distance of 565.37 feet; thence S 11 °27'08" E a distance of 1517.29 feet; thence S 61°34'44" W a distance of 493.92 feet to the south line of Lot 162 of said Salero Ranch Amended Unit 5; thence continue S 61°34'44" W a distance of 125.58 feet; thence S 90°00'00" W a distance of 333.31 feet; thence S 00°00'00" W a distance of 807.64 feet; thence S 48°51'24" W a distance of 807.64 feet; thence S 12°09'23" E a distance of 879.27 feet; thence S 04°52'34" W a distance of 1219.26 feet; thence S 08°58'33" E a distance of 630.90 feet; thence S 02°41'39" W a distance of 683.84 feet; thence S 38°57'06" W a distance of 883.05 feet; thence S 00°36'34" W a distance of 695.56 feet; thence S 33°38'55" W a distance of 695.56 feet; thence S 39°38'10" E a distance of 521.88 feet; thence S 00°28'11" E a distance of 521.88 feet; thence S 89°31'49" W a distance of 980.46 feet; thence S 20°25'57" W a distance of 836.32 feet; thence S 36°28'11" E a distance of 2307.36 feet; thence S 00°00'00" W a distance of 611.63 feet to the south line of the N1/2 of said Baca Float No. 3; thence N 89°52'37" W a distance of 3334.98 feet upon said south line; thence N 00°00'00" W a distance of 200.46 feet to the point of beginning.

Phase IV: Portions of APN: l12-43-002B. A portion of the N1/2 of the Baca Location No. 3, also known as the Baca Float Location No. 3 in Santa Cruz County, Arizona, according to the survey by Philip Contzen under Contract No. 133, dated June 17, 1905 and now filed and approved in the Office of the Commissioner of the General Land Office, Washington, D. C., described as follows:

Parcel A: Beginning at the southwest corner of lot 161 of Salero Ranch 2nd Amended Unit 5 recorded as document No. 2008-01905, said records of the Santa Cruz County Recorder, said corner also being labeled as “PT 57” on the record of survey for trust for public land Phase II, recorded as document No. 2008-04365, said records of the Santa Cruz County Recorder; thence S 04°52'34"W a distance of 1219.26 feet upon the east line of Parcel 1, as shown on said survey for trust for public land Phase II, to the corner labeled “PT 56” on said record of survey; thence S 08°58'33" E a distance of 630.90 feet upon said east line to the corner labeled “PT 55”; thence S 02°41 '39" W a distance of 683.84 feet upon said east line to the corner labeled “PT 54”; thence S 38°57'06" W a distance of 450.07 feet upon said east line; thence departing said east line, N 72°31'14" E a distance of 380.13 feet; thence N 42°04'28" E a distance of 168.63 feet; thence N 06°07'23" E a distance of 458.79 feet; thence N 09°13'50" W a distance of 428.46 feet; thence N 16°07'21" W a distance of 689.05 feet; thence N 10°00'14" E a distance of 341.00 feet; thence N 00°15'23" W a distance of 754.93 feet to the point of beginning.

Parcel B: Commencing at said above noted corner labeled “PT 54” on said east line as shown on said record of survey of the trust for public land Phase III, thence S 38°57'06" W a distance of 883.05 feet upon said east line to the corner labeled “PT 53”, the point of beginning; thence S 00°36'34" W a distance of 695.56 feet upon said east line to the corner labeled “PT 52”; thence N 30°38'23" E a distance of 217.38 feet; thence N 03°24'47" W a distance of 299.47 feet; thence N 22° 12'34" W a distance of 226.35 feet to the point of beginning.

15. Colorado River Nature Center Wildlife Area: The Colorado River Nature Center Wildlife Area is Section 10 of T19N, R22W, bordered by the Fort Mojave Indian Reservation to the west, the Colorado River to the north, and residential areas of Bullhead City to the south and east, G&SRB&M, Mohave County, Arizona.
16. Fool Hollow Lake Wildlife Area: The Fool Hollow Lake Wildlife Area shall be that area lying in those portions of the S1/2 of Section 7 and of the N1/2N1/2 of Section 18, T10N, R22E, G&SRB&M, described as follows: beginning at a point on the west line of the said Section 7, a distance of 990 feet south of the W1/4 corner thereof; thence S 86°12' E a distance of 2533.9 feet; thence S 41°02' E a distance of 634.7 feet; thence east a distance of 800 feet; thence south a distance of 837.5 feet, more or less to the south line of the said Section 7; thence S 89°53' W along the south line of Section 7 a distance of 660 feet; thence S 0°07' E a distance of 164.3 feet; thence N 89°32' W a distance of 804.2 feet; thence N 20°46' W a distance of 670 feet; thence S 88°12' W a distance of 400 feet; thence N 68°04' W a distance of 692 feet; thence S 2°50' W a distance of 581 feet; thence N 89°32' W a distance of 400 feet; thence N 12°40' W a distance of 370.1 feet, more or less, the north line of the SW1/4SW1/4SW1/4 of said Section 7; thence west a distance of 483.2 feet, more or less, along said line to the west line of Section 7; thence north to the point of beginning.
17. House Rock Wildlife Area: The House Rock Wildlife Area is that area described as follows: beginning at the common 1/4 corner of Sections 17 and 20, T36N, R4E; thence east along the south Section lines of Sections 17, 16, 15, 14, 13 T36N, R4E, and Section 18, T36N, R5E, to the intersection with the top of the southerly escarpment of Bedrock Canyon; thence southeasterly along the top of said escarpment to the top of the northerly escarpment of Fence Canyon; thence along the top of said north escarpment to its intersection with the top of the southerly escarpment of Fence

Canyon; thence northeasterly along the top of said southerly escarpment to its intersection with the top of the escarpment of the Colorado River; thence southerly along top of said Colorado River escarpment to its intersection with Boundary Ridge in Section 29, T34N, R5E; thence westerly along Boundary Ridge to its intersection with the top of the escarpment at the head of Saddle Canyon; thence northerly along the top of the westerly escarpment to its intersection with a line beginning approximately at the intersection of the Cockscomb and the east fork of South Canyon extending southeast to a point approximately midway between Buck Farm Canyon and Saddle Canyon; thence northwest to the bottom of the east fork of South Canyon in the SW1/4SW1/4 of Section 16, T34N, R4E; thence northerly along the west side of the Cockscomb to the bottom of North Canyon in the SE1/4 of Section 12, T35N, R3E; thence northeasterly along the bottom of North Canyon to a point where the slope of the land becomes nearly flat; thence northerly along the westerly edge of House Rock Valley to the point of beginning; all in G&SRB&M, Coconino County, Arizona.

18 Jacques Marsh Wildlife Area: The Jacques Marsh Wildlife Area is that area within the fenced and posted portions of the SE1/4, SW1/4SW1/4NE1/4, SE1/4NW1/4, SW1/4NW1/4, Section 11; and NE1/4NW1/4, NW1/4NE1/4, NE1/4NE1/4, Section 14; T9N, R22E, G&SRB&M, Navajo County, Arizona.

19. Lamar Haines Wildlife Area: The Lamar Haines Wildlife Area is that area described as: T22N, R6E, Section 12 NW1/4, G&SRB&M, Coconino County, Arizona.

20. Lower San Pedro River Wildlife Area: The Lower San Pedro River Wildlife Area shall be those areas described as follows:

For the Triangle Bar Ranch Property: Parcel 1: that portion of the SE1/4 of Section 22, T7S, R16E, G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at the southeast corner of Section 22, to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence N 00°38'57" W along the east line of the SE1/4 of Section 22 a distance of 2626.86 feet to a point being the E1/4 corner of Section 22 a 2.5" Aluminum Cap stamped PLS 35235; thence S 89°00'32" W along the north line of the SE1/4 of Section 22 a distance of 1060.80 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 12°30'55" E a distance of 673.56 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 36°31'44" E a distance of 491.55 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°00'32" W a distance of 689 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 00°31'09" W a distance of 400.00 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°00'32" W a distance of 1320.00 feet to a point on the west line of the SE1/4 of Section 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 00°31'09" E a distance of 1454.09 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°51'39" E a distance of 1387.86 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 53°14'11" E a distance of 322.56 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 01°05'49" W a distance of 321.71 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°51'39" E along said South line of Section 22 a distance of 1011.31 feet to the point of beginning; containing 110.65 acres, more or less. Parcel 2: that portion of Sections 23 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at the point on the south line of Section 23, which point is 720 feet east of the southwest corner of Section 23, said point being a 1/2" Iron Pin tagged PLS 35235; thence N 23°45'32" W a distance of 1833.68 feet (N 22°28'00" W a distance of 1834 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 on the west line of Section 23; thence S 00°38'57" E a distance of 1691.03 feet (south, record) to the southwest corner of Section 23 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence along the south line of Section 23 N 89°02'45" E a distance of 720.00 feet (east, a distance of 720.00 feet, recorded) to the point of beginning; containing 13.98 acres, more or less. Parcel 3: lots 2 and 3, and the NE1/4NW1/4, SE1/4NW1/4, and NE1/4SW1/4 of Sections 18 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: commencing at the northwest corner of Section 18, said point being a GLO B.C. stamped Sec 18 CC; thence S 89°47'17" E along the north line of Section 18, a distance of 1271.33 feet to a point being a 1/2" Iron Pin tagged PLS 35235, and being the point of beginning, said point is the northwest corner of the NE1/4NW1/4; thence S 89°47'17" E a distance of 1320.00 feet to a point being the N1/4 corner of Section 18, to a point being a found stone marked 1/4; thence S 01°35'23" E a distance of 4020.67 feet to a point being a found 1/2" Iron Pin with added tag of PLS 35235 to a point being the southeast corner or the NE1/4SW1/4 of Section 18; thence N 89°37'16" W a distance of 2610.28 feet to a point on the west line of Section 18 to a point being a 1/2" Iron Pin tagged PLS 35235, to a point being the southwest corner of Lot 3; thence N 01°17 '05" W along the west line of Section 18, a distance of 1360.825 feet to a point being the W1/4 corner of Section 18, to a point being a found stone marked 1/4; thence N 01°20'34" W along the west line of Section 18 a distance of 1325.845 feet to a point being a 1/2" Iron Pin tagged PLS 35235, to a point being the northwest corner of Lot 2; thence S 89°32'47" E a distance of 1279.09 feet to a point being a found 1/2" Iron Pin with added tag of PLS 35235 approximately 0.8 feet down from natural grade, to a point being the northeast corner of Lot 2; thence N 01°40'11" W along the west line of the NE1/4NW1/4 of Section 18, a distance of 1331.47 feet to a point on the north line of Section 18 and the point of beginning; containing 200.78 acres, more or less. Parcel 4: lots 3, 4, 5, 6, and 7 of Section 9, T7S, R16E, of

G&SRB&M, Pinal County, Arizona more particularly described as follows: beginning at the S1/4 corner of said Section 9, to a point being a 1.5" Open Iron Pipe with added tag PLS 35235; thence N 00°00'03" E along the north-south midsection line a distance of 2641.16 feet (N 00°38'48" E a distance of 2641.20 feet, record) to the center section of Section 9 to a point being a 1/2" Iron Pin tagged PLS 35235; thence continuing N 00°00'03" E along the north-south midsection line, a distance of 1349.83 feet (N 00°38'48" E a distance of 1349.83 feet, record) to the northeast corner of Lot 5 to a point being a found 1/2" Iron Pin with added tag PLS 35235; thence S 89°09'38" W along the north line of Lot 5 a distance of 1346.80 feet (S 89°44'19" W a distance of 1347.21 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, and the northwest corner of Lot 5 and the southeast corner of Lot 3; thence N 00°58'35" E along the east line of Lot 3 a distance of 1357.74 feet (N 00°37'27" E a distance of 1357.74 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 and the northeast corner of Lot 3; thence N 89°24'33" W along the north line of Lot 3 a distance of 1323.90 feet (N 89°56'37" W a distance of 1323.945 feet, record) to the northwest corner of Section 9 to a point being a found Drill Steel with added tag PLS 35235; thence S 01°56'29" W along the west line of Section 9 a distance of 712.90 feet to a point on the west boundary line of Old Camp Grant and to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 23°03'26" E along said west boundary line of Old Camp Grant, a distance of 5011.05 feet to a point on the south line of Section 9 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 89°13'21" E along the south line of Section 9 a distance of 709.50 feet (N 89°51'39" E a distance of 709.50 feet, record) to the point of beginning; containing 181.71 acres, more or less. Together with those parts of Sections 15 and 22, T7S, R16E, of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point being a 1/2" Iron Pin tagged PLS 35235, N 89°00'32" E along the south line of the NE1/4 of Section 22, a distance of 2251.00 feet (east a distance of 2251 feet, record) of the center section corner of Section 22; thence N 47°16'51" W a distance of 1275.05 feet (N 46°47'00" W a distance of 1275.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 79°57'00" W a distance of 1344.00 feet (N 7°27'00" W a distance of 1344.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 65°05'02" W a distance of 399.00 feet (N 59°46'00" W a distance of 399.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 17°49'24" W a distance of 1382.47 feet (N 17°34'00" W a distance of 1385.00 feet, record) to a point on the Section line between Sections 15 and 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 21°43'45" W a distance of 1408.97 feet (N 20°49'00" W a distance of 1412.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 and the Center corner of the SW1/4 of Section 15; thence S 01°06'32" W along the west line of the SE1/4SW1/4 of Section 15, a distance of 1317.07 feet (south, record) to a point on the south line of Section 15 and the southwest corner of the SE1/4SW1/4 of Section 15 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 00°27'15" E along the west line of the E1/2NW1/4 of Section 22, a distance of 2637.50 feet (south, record) to a point on the south line of the NW1/4 of Section 22 and the southwest corner of the E1/2NW1/4 of Section 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 89°00'56" E along said south line of the NW1/4 of Section 22 a distance of 1320.895 feet (east, record) to the center section corner of Section 22 to a point being a found 2.5" Aluminum Cap stamped C1/4 PLS 35235; thence N 89°00'32" E along the south line of the NE1/4 of Section 22 a distance of 2251.00 feet (east, record) to the point of beginning; containing 110.28 acres, more or less. Parcel 5: those parts of Sections 26 and 35 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point N 89°31'56" E a distance of 571.74 feet (record 572 a distance of feet east) of the center section of Section 35 said point being a 1/2" Iron Pin tagged PE 9626; thence N 16°07'19" W a distance of 1369.92 feet (N 15°44'00" W a distance of 1371 feet, record) to a point being a Power Pole tagged PLS 35235; thence N 46°55'33" W a distance of 279.77 feet (N 45°00'00" W a distance of 283.00 feet, record) to the center of a 6" hollow iron fence post filled with concrete approximately 6 feet tall, tagged PLS 35235; thence N 79°45'23" W a distance of 500.00 feet (N 80°00'00" W a distance of 500.00 feet, record) to the center of a 6" hollow iron fence post filled with concrete approximately 6 feet tall, tagged PLS 35235; thence N 21°10'05" W a distance of 1104.18 feet (N 20°38 '00" W a distance of 1104.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being a distance of 3.55 feet south of the north line of Section 35; thence N 07°46'25" E a distance of 1334.00 feet (N 08°08'00" E a distance of 1334.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°37'04" W a distance of 630.00 feet to a point being a found 1/2" Iron Pin with added tag PLS 35235; thence N 01°11'34" W a distance of 1314.34 feet (north a distance of 1320.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being on the north line of the SW1/4; thence along the north line of the SW1/4 N 89°18'34" E a distance of 282.00 feet (east a distance of 282.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being S 89°18'34" W a distance of 992.74 from the center section corner of Section 26; thence N 13°48'15" W a distance of 1351.04 feet (N 13°40'00" W a distance of 1358.00 feet, record) to a point on the north line of the SE1/4NW1/4 of Section 26 to a point being a 1/2" Iron Pin tagged PLS 35235, said point being N 89°10'39" E a distance of 26.52 feet from the northwest corner of the SE1/4NW1/4 of Section 26; thence N 26°31'53" W a distance of 1458.00 feet (N 23°43'00" W a distance of 1442.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, that is on the north line of Section 26 said point being N 89°02'45" E along the north line of Section 26, a distance of 720.00 feet from the northwest corner of Section 26; thence N

23°45'32" W a distance of 1833.68 feet (N 22°28'00" W a distance of 1834.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being on the west line of Section 23; thence S 00°38'57" E along the west line of Section 23, a distance of 1690.37 feet (south, record) to the southwest corner of Section 23 and northwest corner of Section 26 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence continuing S 01°16'16" E along the west line of Section 26 a distance of 2625.56 feet (south a distance of 2640.00 feet, record) to the W1/4 corner of Section 26 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence S 01°16'16" E along the west line of Section 26, a distance of 2625.56 feet (south a distance of 2640.00 feet, record) to the southwest corner of Section 26 and northwest corner of Section 35 to a point being a 2.25" Capped Iron Pipe stamped with added tag PLS 35235; thence S 00°45'30" E along the west line of Section 35, a distance of 1317.94 feet (south a distance of 1320.00 feet, record) to a point being a 2.5" Capped Iron Pipe stamped with added tag PLS 35235, said point being the southwest corner of the N1/2NW1/4 of Section 35; thence N 89°41'45" E along the south line of the N1/2NW1/4 of Section 35, a distance of 2630.87 feet (east a distance of 2644.00 feet, record) to a point being an Oblong Iron Pin with added tag PLS 35235 said point being the southeast corner of the N1/2NW1/4 of Section 35; thence S 01°11'23" E a distance of 1319.08 (south a distance of 1320.00 feet, record) to a point being an Oblong Iron Pin, with added tag PLS 35235, said point being the center section corner of Section 35; thence N 89°31'56" E along the south line of the NE1/4 of Section 35 a distance of 571.74 feet (east a distance of 572.00 feet, record) to the point of beginning; excepting therefrom any portion of said lands lying and within Section 23, T7S, R16E, G&SRB&M; CONTAINING containing 249.46 acres, more or less. Parcel 6: that portion of Section 1, T8S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point N 88°25'39" E a distance of 507.07 feet (east a distance of 510 feet record) of the southwest corner of the SE1/4SW1/4 of Section 1 said point being a 1/2" Iron Pin tagged RLS 10046; thence N 18°38'44" E a distance of 1399.18 feet (record N 19°41' E a distance of 1402 feet) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 03°51'10" W a distance of 1314.74 feet (record N 02°44' W a distance of 1321 feet) to a point being a 1/2" Iron Pin tagged RLS 10046; thence S 88°45'59" W a distance of 918.71 feet (record west, a distance of 919 feet) to a point being a 1/2" Iron Pin tagged RLS 10046; thence N 01°02'04" W a distance of 977.00 feet (record north a distance of 977 feet) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 72°26'42" W a distance of 1384.43 feet (record N 71°22' W a distance of 1393 feet) to a point on the west line of Section 1 to a point being a 1/2" Iron Pin PLS 35235; thence S 01°07'43" E along the west line of Section 1, a distance of 1422.00 feet (record south a distance of 1412 feet) to the W1/4 corner of Section 1, said point being a 2.5" Aluminum Cap stamped PLS 35235; thence continuing S 01°07'43" E along the west line of Section 1, a distance of 1320.00 feet (record south a distance of 1320 feet) to the southwest corner of the NW1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°37'29" E a distance of 1311.56 feet (record east to the southwest corner of the NE1/4SW1/4) to the southwest corner of the NE1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 01°05'24" E a distance of 1316.31 feet (record, south a distance of 1320 feet) to the southwest corner of the SE1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°25'39" E a distance of 507.07 feet (record, east a distance of 510 feet) to the point of beginning; containing 126.84 acres, more or less. For the ASARCO Property: Parcel 1: Section 15: the W1/2SE1/4 and E1/2SW1/4 of Section 15, T7S, R16E of G&SRB&M, Pinal county, Arizona; except that portion of land situated in Government Lot 9 lying west of the center line of the San Pedro River, said portion being APN 300-35-002. Section 22: That portion of the NE1/4NW1/4 and the NE1/4 of Section 22 T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Section 23: that portion of the SW1/4 of Section 23, T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Section 26: that portion of the N1/2NW1/4 of Section 26, T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Parcel 2: Section 15: Government Lots 1, 2, 3, 4, 5, 6, and 7 of Section 15, T7S, R16E of G&SRB&M, Pinal County, Arizona. Parcel 3: Section 4: Government Lots 5, 8, 9, 11, 12, and 13 of Section 4 except that portion of land situated in Government Lot 13 lying east of State Highway 77 right-of-way, said portion of land being APN 300-31-005B. Section 5: Government Lots 2, 3, 4 and 5, except that portion of land situated in Government Lot 2, more particularly described as follows: beginning at the northeast corner of said Lot 2; thence along the east boundary of said Lot 2 due south 599.94 feet; thence leaving said east boundary due west 283.27 feet to the County Rd. right-of-way (El Camino Rd.); thence along said County Rd. right-of-way N 04°18'56" E a distance of 95.16 feet; thence continuing along said County Rd. right-of-way N 16°30'21" E a distance of 384.05 feet; thence continuing along said County Rd. right-of-way N 14°33'05" E a distance of 141.35 feet to the north boundary of said County Rd. right-of-way due east a distance of 131.48 feet along the north boundary of Government Lot 1 to the point of beginning.

21. Luna Lake Wildlife Area: The Luna Lake Wildlife Area shall be the fenced, buoyed, and posted area lying north of U.S. Highway 180 T5N, R31E, Section 17 N1/2, G&SRB&M, Apache County, Arizona.
22. Manhattan Claims Wildlife Area: Manhattan Claims Wildlife Area: The Manhattan Claims Wildlife Area shall be those areas described as the following mines or mining claims, situated in the California Mining District, in Cochise County, State of Arizona, to-wit: being Sections 3, 4, 5, 9, 10, in T17S., R30E., G&SRB&M, being known as the

"Manhattan Group," Cochise County, State of Arizona. Erion Cap: Fraction: Monarch: and Mogul Patented Mines, the United States patent to which is of record in the Recorder's Office in Book 23 of Deeds of Mines, at page 396; Copper trust' Smith No. 1' Iron Cap; wedge; Smith No. 2; Rodea; Standard Extension; Smith No. 4; Smith No. 3; JHU; Cottonwood; Tucson; Prince; Hidden Treasure; Joe Wheeler fraction; Bride of the West; Mackey; Sun Beam; Queen; Last Turn; Winner; and Winner Fraction; patented mines, in the U.S. Patent to which is of record in the Recorder's Office in Book 23 Deeds of Mines, at page 368. Badger; Badger Fraction; patented mines, the U.S. Patent to which is of record in said Recorder's Office, in Book 23 Deeds of Mines, at page 388; Standard patented mine, the U.S. Patent to which is of record in said Recorder's Office in Book 23 Deeds of Mines at page 393; The following patented mining claims situated in said California Mining District, patent records of which are set out with name of claim as follows: Bull Dog, Docket No. 27, at page No. 558; Copper King, Docket No. 27, at page No. 555; Copper Bluff, Docket No. 27, at page No. 552; Copper Top, Docket No. 27, at page No. 558; Copper Glance, Docket No. 27, at page No. 558; and AETNA, Docket No. 27, at page No. 558.

23. Mittry Lake Wildlife Area: The Mittry Lake Wildlife Area shall be those areas described as follows:
T6S, R21W, Section 31: All of Lots 1, 2, 3, 4, E1/2W1/2, and that portion of E1/2 lying westerly of Gila Gravity Main Canal Right-of-Way; T7S, R21W; Section 5: that portion of SW1/4SW1/4 lying westerly of Gila Gravity Main Canal Right-of-Way; Section 6: all of Lots 2, 3, 4, 5, 6, 7 and that portion of Lot 1, S1/2NE1/4, SE1/4 lying westerly of Gila Gravity Main Canal R/W; Section 7: all of Lots 1, 2, 3, 4, E1/2W1/2, W1/2E1/2, and that portion of E1/2E1/2 lying westerly of Gila Gravity Main Canal R/W; Section 8: that portion of W1/2W1/2 lying westerly of Gila Gravity Main Canal R/W; Section 18: all of Lots 1, 2, 3, 4, E1/2NW1/4, and that portion of NE1/4, E1/2SW1/4, NW1/4SE1/4 lying westerly of Gila Gravity Main Canal R/W; T6S, R22W; Section 36: all of Lot 1. T7S, R22W; Section 1: all of Lot 1; Section 12: all of Lots 1, 2, SE1/4SE1/4; Section 13: all of Lots 1, 2, 3, 4, 5, 6, 7, 8, NE1/4, N1/2SE1/4, and that portion of S1/2SE1/4 lying northerly of Gila Gravity Main Canal R/W; all in G&SRB&M, Yuma County, Arizona.
24. Planet Ranch Conservation and Wildlife Area: The Planet Ranch Wildlife Area shall be those areas described as follows: Mohave County (Parcels 1 through 5) Parcel No. 1: the S1/2S1/2 of Section 28, T11N, R16W of the G&SRB&M, Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. Parcel No. 2: all of sections 32 and 34 T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. Parcel No. 3: the S1/2S1/2 of Section 27, T11N, R16W of the G&SRB&M, Mohave County, Arizona; except oil, gas, coal, and minerals as reserved in deed recorded in Book 64 of Deeds, Page 599, records of Mohave County, Arizona. Parcel No. 4: all of Section 33 and 35, T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except oil, gas, coal, and minerals as reserved in deed recorded in Book 64 of Deeds, Page 599, records of Mohave County, Arizona. Parcel No. 5: the S1/2S1/2N1/2 and the S1/2 of Section 36, T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. La Paz County (Parcels 6 through 9) Parcel No. 6: that portion of the S1/2 of Lot 2, all of Lots 3, and 4, the S1/2SE1/4NW1/4 and the S1/2S1/2NE1/4 of Section 31, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except all oil, gas, coal, and minerals as set forth in instrument recorded in Book 57, of Dockets, Page 310. Parcel No. 7: all of Section 32, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except any part of Section 32 lying within the Copper Hill Mining Claim as shown on the Plat of Mineral Survey Number 2675; except that portion of the SW1/4 of Section 32, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona, described as follows: commencing at the S1/4 corner of Section 32; thence west along the south line of Section 32, a distance of 1270.58 feet to the point of beginning; thence north 634.31 feet; thence S 76º41'15" W a distance of 94.09 feet to the southeasterly line of the Planet Ranch Road; thence along said line S 28º55'W a distance of 101.23 feet; thence southwesterly 250.25 feet through an angle of 54º22', along a tangent curve concave to the northwest, having a radius of 263.73 feet to a point of tangency, from which a radial line bears N 07º05' W; thence along said line S 82º55' W a distance of 96.52 feet; thence westerly 184.42 feet through an angle of 17º40'14" along a tangent curve concave to the north, having a radius of 597.96 feet to a point of tangency from which a radial line bears N 10º35'14" E; thence N 79º24'46" W a distance of 260.38 feet; thence leaving the southwesterly line of said Planet Ranch Road, south a distance of 429.61 feet to the south line of said Section 32; thence south along said south line east a distance of 874.42 feet more or less back to the point of beginning; and except that portion of the SW1/4 of Section 32, T11N, R16W of the G&SRB&M, La Paz County, Arizona, described as follows: beginning at the S1/4 corner of Section 32; thence west along the south line of Section 32, a distance of 1270.58 feet; thence north a distance of 634.31 feet; thence S 76º41'15" W a distance of 214.08 feet; thence N 13º18'45" W a distance of 25 feet; thence N 76º41'15" E a distance of 220 feet; thence east a distance of 1270.58 feet;

thence south a distance of 660 feet back to the point of beginning. Parcel No. 8: those portions of Sections 33, 34, and 35, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except an undivided 1/16 of all oil, gases, and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer of every name and description, together with all uranium, thorium, or any other material which is or may be determined by the laws of the production of fissionable materials, whether or not of commercial value, as reserved by the State of Arizona in Section 37-231, Arizona Revised Statutes, and in patent of record (Section 34); also except all oil, gas, coal, and minerals as set forth in instrument recorded in Book 57 of Dockets, Page 310 (Section 33 and 35). Parcel No. 9: the S1/2S1/2N1/2 and the S1/2 of Section 36, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except an undivided 1/16 of all oil, gases, and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer of every name and description, together with all uranium, thorium, or any other material which is or may be determined by the laws of the production of fissionable materials, whether or not of commercial value, as reserved by the State of Arizona in Section 37-231, Arizona Revised Statutes, and in patent of record.

25. Powers Butte (Mumme Farm) Wildlife Area: The Powers Butte Wildlife Area shall be that area described as follows: T1S, R5W, Section 25, N1/2SW1/4, SW1/4SW1/4; Section 26, S1/2; Section 27, E1/2SE1/4; Section 34. T2S, R5W Section 3, E1/2W1/2, W1/2SE1/4, NE1/4SE1/4, NE1/4; Section 10, NW1/4, NW1/4NE1/4; Section 15, SE1/4SW1/4; Section 22, E1/2NW1/4, NW1/4NW1/4; all in G&SRB&M, Maricopa County, Arizona.
26. Quigley-Achee Wildlife Area: The Quigley-Achee Wildlife Area shall be those areas described as follows:
T8S, R17W; Section 13, W1/2SE1/4, SW1/4NE1/4, and a portion of land in the W1/2 of Section 13, more particularly described as follows: beginning at the S1/4 corner; thence S 89º17'09" W along the south line of said Section 13 a distance of 2627.50 feet to the southwest corner of said Section 13; thence N 41º49'46" E a distance of 3026.74 feet; thence N 0º13'30" W a distance of 1730.00 feet to a point on the north 1/16th line of said Section 13; thence N 89º17'36" E along said north 1/16th line a distance of 600.00 feet to the center of said Section 13; thence S 0º13'30" E. along the north-south midsection line a distance of 3959.99 feet to the point of beginning. Section 23, SE1/4NE1/4, and a portion of land in the NE1/4NE1/4 of Section 23, more particularly described as follows: beginning at the northeast corner; thence S 0º10'19" E along the east line of said Section 23, a distance of 1326.74 feet to a point on the south line of the NE1/4NE1/4 of said Section 23; thence S 89º29'58" W along said south line, a distance of 1309.64 feet; thence N 44º17'39" E a distance of 1869.58 feet to the point of beginning. Section 24, NW1/4, N1/2SW1/4, W1/2NE1/4, N1/2SE1/4NE1/4; all in G&SRB&M, Yuma County, Arizona.
27. Raymond Wildlife Area: The Raymond Wildlife Area is that area described as follows: All of Sections 24, 25, 26, 34, 35, 36, and the portions of Sections 27, 28, and 33 lying east of the following described line: beginning at the W1/4 corner of Section 33; thence northeasterly through the 1/4 corner common to Sections 28 and 33, 1/4 corner common to Sections 27 and 28 to the N1/4 corner of Section 27 all in T19N, R11E. All of Sections 15, 16, 17, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, and 34 all in T19N, R12E,; all in G&SRB&M, Coconino County, Arizona.
28. Robbins Butte Wildlife Area: The Robbins Butte Wildlife Area shall be those areas described as follows:
T1S, R3W, Section 17, S1/2NE1/4, SE1/4, NW1/4SW1/4; Section 18, Lots 3, 4, and E1/2SW1/4, S1/2NE1/4, W1/2SE1/4, NE1/4SE1/4. T1S, R4W, Section 13, all except that portion of W1/2SW1/4SW1/4 lying west of State Route 85; Section 14, all except the W1/2NW1/4 and that portion of the SW1/4 lying north of the Arlington Canal; Section 19, S1/2SE1/4; Section 20, S1/2S1/2, NE1/4SE1/4; Section 21, S1/2, S1/2NE1/4, SE1/4NW1/4; Section 22, all except for NW1/4NW1/4; Section 23; Section 24, that portion of SW1/4, W1/2SW1/4NW1/4 lying west of State Route 85; Section 25, that portion of the NW1/4NW1/4 lying west of State Route 85; Section 26, NW1/4, W1/2NE1/4, NE1/4NE1/4; Section 27, N1/2, SW1/4; Section 28; Section 29, N1/2N1/2, SE1/4NE1/4; Section 30, Lots 5, 6, 7, 8, NE1/4, SE1/4SE1/4; all in G&SRB&M, Maricopa County, Arizona.
29. Roosevelt Lake Wildlife Area: The Roosevelt Lake Wildlife Area is that area described as follows: beginning at the junction of A-Cross Rd. and Arizona Highway 188; south on Arizona Highway 188 to the main entrance of Roosevelt Lake Marina; northeast on this road towards the main marina launch; northeast across Roosevelt Lake to the south tip of Bass Point; northerly to Long Gulch Rd.; northeast on this road to the A-Cross Rd.; northwest on the A-Cross Rd. to the point of beginning; all in G&SRB&M, Gila County, Arizona.
30. Santa Rita Wildlife Area: The Santa Rita Experimental Range is that area described as follows: Concurrent with the Santa Rita Experimental Range boundary and includes the posted portion of the following sections: Sections 33 through 36, T17S, R14E, Section 25, Section 35 and Section 36, T18S, R13E, Sections 1 through 4, Sections 9 through 16, and Sections 21 through 36, T18S, R14E, Sections 3 through 9, Sections 16 through 21, Sections 26 through 34, T18S, R15E, Sections 1 through 6, Sections 9 through 16, Section 23, T19S, R14E, Sections 3 through 10, Sections 16 through 18, T19S, R15E; all in G&SRB&M, Pima County, Arizona, and all being coincidental with the Santa Rita Experimental Range Area.
31. Sipe White Mountain Wildlife Area: The Sipe White Mountain Wildlife Area shall be those areas described as follows: T7N, R29E, Section 1, SE1/4, SE1/4NE1/4, S1/2NE1/4NE1/4, SE1/4SW1/4NE1/4, NE1/4SE1/4SW1/4, and the SE1/4NE1/4SW1/4. T7N, R30E, Section 5, W1/2W1/2SE1/4SW1/4, and the SW1/4SW1/4; Section 6, Lots 1, 2, 3, 7,

and 8, SW1/4NW1/4NW1/4, S1/2NW1/4NE1/4SE1/4, N1/2SE1/4SE1/4, E1/2SE1/4SE1/4SE1/4, SW1/4SE1/4 and the SE1/4SW1/4; Section 7, Parcel 10: Lots 1 and 2, E1/2NW1/4, E1/2E1/2NE1/4NE1/4, W1/2SW1/4NE1/4, NW1/4SE1/4, W1/2NE1/4SE1/4, NE1/4SW1/4, E1/2NW1/4SW1/4, and the NW1/4NE1/4; Section 8, NW1/4NW1/4, and the W1/2W1/2NE1/4NW1/4. T8N, R30E; Section 31, SE1/4NE1/4, SE1/4, and the SE1/4SW1/4; all in G&SRB&M, Apache County, Arizona.

32. Springerville Marsh Wildlife Area: The Springerville Marsh Wildlife Area shall be those areas described as follows: S1/2 SE1/4 Section 27 and N1/2 NE1/4 Section 34, T9N, R29E, G&SRB&M, Apache County, Arizona.
33. Sunflower Flat Wildlife Area: The Sunflower Flat Wildlife Area shall be those areas described as follows:
T20N, R3E; Section 11, NE1/4SE1/4, N1/2NW1/4SE1/4, SE1/4NW1/4SE1/4, NE1/4SE1/4SE1/4, W1/2SE1/4NE1/4, S1/2SE1/4SE1/4NE1/4, E1/2SW1/4NE1/4; Section 12, NW1/4SW1/4SW1/4, NW1/4NE1/4SW1/4SW1/4, SW1/4NW1/4SW1/4, S1/2NW1/4NW1/4SW1/4, W1/2SE1/4NW1/4SW1/4, SW1/4NE1/4NW1/4 SW1/4; all in the G&SRB&M, Coconino County, Arizona.
34. Three Bar Wildlife Area: The Three Bar Wildlife Area shall be that area described as follows: beginning at Roosevelt Dam, northwesterly on 188 to milepost 252 (Bumble Bee Wash); westerly along the boundary fence for approximately 7 1/2 miles to the boundary of Gila and Maricopa counties; southerly along this boundary through Four Peaks to a fence line south of Buckhorn Mountain; southerly along the barbed wire drift fence at Ash Creek to Apache Lake; northeasterly along Apache Lake to Roosevelt Dam.
35. Tucson Mountain Wildlife Area: The Tucson Mountain Wildlife Area shall be that area described as follows: beginning at the northwest corner of Section 33; T13S, R11E on the Saguaro National Park boundary; due south approximately one mile to the El Paso Natural Gas Pipeline; southeast along this pipeline to Sandario Rd.; south on Sandario Rd. approximately two miles to the southwest corner of Section 15; T14S, R11E, east along the section line to the El Paso Natural Gas Pipeline; southeast along this pipeline to its junction with State Route 86, also known as the Ajo Highway; easterly along this highway to the Tucson city limits; north along the city limits to Silverbell Rd.; northwest along this road to Twin Peaks Rd.; west along this road to Sandario Rd.; south along this road to the Saguaro National Park boundary; west and south along the park boundary to the point of beginning, all in G&SRB&M, Pima County, Arizona.
36. Upper Verde River Wildlife Area: The Upper Verde River Wildlife Area consists of eight parcels totaling 1102.54 acres located eight miles north of Chino Valley in Yavapai County, Arizona, along the upper Verde River and lower Granite Creek described as follows:
Sullivan Lake: located immediately downstream of Sullivan Lake, the headwaters of the Verde River: the NE1/4NE1/4 lying east of the California, Arizona, and Santa Fe Railway Company right-of-way in Section 15, T17N, R2W; and also the NW1/4NE1/4 of Section 15 consisting of approximately 80 acres. Granite Creek Parcel: includes one mile of Granite Creek to its confluence with the Verde River: The SE1/4SE1/4 of Section 11; the NW1/4SW1/4 and SW1/4NW1/4 of Section 13; the E1/2NE1/4 of Section 14; all in T17N, R1W consisting of approximately 239 acres. E1/2SW1/4SW1/4, SE1/4SW1/4, NE1/4SW1/4 and NW1/4SE1/4 of Section 12, NW1/4NW1/4 of Section 13, T17N, R2W consisting of approximately 182.26 acres. Campbell Place Parcel: NE1/4NW1/4, NW1/4NE1/4, NE1/4NE1/4, SE1/4NW1/4, SW1/4NE1/4, SE1/4NE1/4, NE1/4SW1/4, NW1/4SE1/4, NE1/4SE1/4, NW1/4SW1/4, NE1/4SW1/4, and NW1/4SE1/4 in Section 7, T17N, R1W and SE1/4SE1/4 Section 12, T17N, R2W consisting of 315 acres. Tract 39 Parcel: the E1/2 of Tract 39 within the Prescott National Forest boundary, SE1/2SW1/4 and SW1/4SE1/4 of Section 5, T18N, R1W; and the W1/2 of Tract 39 outside the Forest boundary, SW1/4SW1/4, and SW1/4SW1/4 of Section 5 and NW1/4NW1/4 of Section 8, T18N, R1W consisting of approximately 163 acres. Wells Parcels: Parcel 1 and Parcel 2: all that portion of Government Lots 9 and 10, Section 7, along with Lot 3 and the SW1/4NW1/4, Section 8, located in T17N, R1W, of G&SRB&M, Yavapai County, Arizona, also known as APN 306-39-004L and 306-39-004M. Parcel 3 and Parcel 4: all that portion of the NE1/4SW1/4, NW1/4SE1/4, SW1/4SW1/4, and E1/2SW1/4SW1/4 of Section 12 and the NW1/4NW1/4 of Section 13, T17N, R2W, of G&SRB&M, Yavapai County, Arizona.
37. Wenima Wildlife Area: The Wenima Wildlife Area shall be those areas described as follows:
T9N, R29E; Section 5, SE1/4 SW1/4, and SW1/4 SE1/4 except E1/2 E1/2 SW1/4 SE1/4, Section 8, NE1/4 NW1/4, and NW1/4 NE1/4; Sections 8, 17 and 18, within the following boundary: From the 1/4 corner of Sections 17 and 18, the True Point of Beginning; thence N 00°12'56" E a distance of 1302.64 feet along the Section line between Sections 17 and 18 to the N1/16 corner; thence N 89°24'24" W a distance of 1331.22 feet to the NE1/16 corner of Section 18; thence N 00°18'02" E a distance of 1310.57 feet to the E1/16 corner of Sections 7 and 18; thence S 89°03'51" E a distance of 1329.25 feet to the northeast Section corner of said Section 18; thence N 01°49'10" E a distance of 1520.28 feet to a point on the Section line between Sections 7 and 8; thence N 38°21'18" E a distance of 370.87 feet; thence N 22°04'51" E a distance of 590.96 feet; thence N 57°24'55" E a distance of 468.86 feet to a point on the east-west midsection line of said Section 8; thence N 89°38'03" E a distance of 525.43 feet along said midsection line to the center W1/16 corner; thence S 02°01'25" W a distance of 55.04 feet; thence S 87°27'17" E a distance of 231.65 feet; thence S 70°21'28" E a distance of 81.59 feet; thence N 89°28'36" E a distance of 111.27 feet; thence N 37°32'54" E

a distance of 310.00 feet; thence N 43°58'37" W a distance of 550.00 feet; thence N 27°25'53" W a distance of 416.98 feet to the NS1/16 line of said Section 8; thence N 02°01'25" E a distance of 380.04 feet along said 1/16 line to the NW1/16 corner of said Section 8; thence N 89°45'28" E a distance of 1315.07 feet along the east-west middle 1/16 line; thence S 45°14'41" E a distance of 67.69 feet; thence S 49°28'18" E a distance of 1099.72 feet; thence S 08°04'43" W a distance of 810.00 feet; thence S 58°54'47" W a distance of 341.78 feet; thence 50°14'53" W a distance of 680.93 feet to a point in the center of that cul-de-sac at the end of Jeremy's Point Rd.; thence N 80°02'20" W a distance of 724.76 feet, said point lying N 42°15'10" W a distance of 220.12 feet from the northwest corner of Lot 72; thence N 34°19'23" E a distance of 80.64 feet; thence N 15°54'25" E a distance of 51.54 feet; thence N 29°09'53" E a distance of 45.37 feet; thence N 40°09'33" E a distance of 69.21 feet; thence N 25°48'58" E a distance of 43.28 feet; thence N 13°24'51" E a distance of 63.12 feet; thence N 16°03'10" W a distance of 30.98 feet; thence N 57°55'25" W a distance of 35.50 feet; thence N 80°47'38" W a distance of 48.08 feet; thence S 87°28'53" W a distance of 82.84 feet; thence S 72°07'06" W a distance of 131.85 feet; thence S 43°32'45" W a distance of 118.71 feet; thence S 02°37'48" E a distance of 59.34 feet; thence S 23°03'29" E a distance of 57.28 feet; thence S 28°30'39" E a distance of 54.75 feet; thence S 36°39'47" E a distance of 105.08 feet; thence S 24°55'07" W a distance of 394.78 feet; thence S 61°32'16" W a distance of 642.77 feet to the northwest corner of Lot 23; thence N 04°35'23" W a distance of 90.62 feet; thence S 85°24'37" W a distance of 26.00 feet; thence N 64°21'36" W a distance of 120.76 feet; thence S 61°07'57" W a distance of 44.52 feet; thence S 39°55'58" W a distance of 80.59 feet; thence S 11°33'07" W a distance of 47.21 feet; thence S 19°53'19" E a distance of 27.06 feet; thence S 54°26'36" E a distance of 62.82 feet; thence S 24°56'25" W a distance of 23.92 feet; thence S 48°10'38" W a distance of 542.79 feet; thence S 17°13'48" W a distance of 427.83 feet to the northwest corner of Lot 130; thence S 29°10'58" W a distance of 104.45 feet to the southwest corner of Lot 130; thence southwesterly along a curve having a radius of 931.52 feet, and arc length of 417.52 feet to the southwest corner of Lot 134; thence S 15°04'25" W a distance of 91.10 feet; thence S 04º29'15" W a distance of 109.17 feet; thence S 01°41'24" W a distance of 60.45 feet; thence S 29°16'05" W a distance of 187.12 feet; thence S 14°44'00" W a distance of 252.94 feet; thence S 15°42'24" E a distance of 290.09 feet; thence S 89°13'25" E a distance of 162.59 feet; thence S 37°19'54" E a distance of 123.03 feet to the southeast corner of Lot 169; thence S 20°36'30" E a distance of 706.78 feet to the northwest corner of Lot 189; thence S 04°07'31" W a distance of 147.32 feet; thence S 29°11'19" E a distance of 445.64 feet; thence S 00°31'40" E a distance of 169.24 feet to the east-west midsection line of Section 17 and the southwest corner of Lot 194; thence S 89°28'20" W a distance of 891.84 feet along said east-west midsection line to the True Point of Beginning; all in G&SRB&M, Apache County, Arizona.

38. White Mountain Grasslands Wildlife Area: The White Mountain Grasslands Wildlife Area shall be those areas described as follows:

Parcel 1 (CL1): the S1/2 of Section 24; the N1/2NW1/4 of Section 25; the NE1/4 and N1/2SE1/4 of Section 26; all in T9N, R27E of G&SRB&M, Apache County, Arizona; except all coal and other minerals as reserved to the U.S. in the Patent of said land. Parcel 2 (CL2): the SE1/4 and the SE1/4SW1/4 of Section 31, T9N, R28E of G&SRB&M, Apache County, Arizona. Parcel 3 (CL3): the NW1/4SW1/4 of Section 28; and the SW1/4S1/2SE1/4 and NE1/4SE1/4 of T9N, R28E of G&SRB&M, Apache County, Arizona. Parcel 4 (CL4): the SW1/4SW1/4 of Section 5; the SE1/4SE1/4 of Section 6; the NE1/4NE1/4 of Section 7; the NW1/4NW1/4, E1/2SW1/4NW1/4, W1/2NE1/4, SE1/4NW1/4, and that portion of the S1/2 which lies North of Highway 260, except the W1/2SW1/4 of Section 8; all in T8N, R28E of G&SRB&M, Apache County, Arizona. Parcel 1 (O1): the S1/2N1/2 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona; except that Parcel of land lying within the S1/2NE1/4 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona, more particularly described as follows: From the N1/16 corner of Sections 10 and 11, monumented with a 5/8-inch rebar with a cap marked LS 13014, said point being the True Point of Beginning; thence N 89°44'54" W a distance of 1874.70 feet along the east-west 1/16 line to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence S 02°26'17" W a distance of 932.00 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence S 89°44'54" E a distance of 1873.69 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014, said point being on the east line of Section 10; thence N 02°30'00" E a distance of 932.00 feet along said Section line to the True Point of Beginning. Parcel 2 (O2): the N1/2S1/2 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona. Except for that portion lying South of State Highway 260. Parcel 3 (O3): the SE1/4 of Section 25, T9N, R27E, of G&SRB&M, Apache County, Arizona. Parcel 4 (O4): lots 3 and 4; the E1/2SW1/4; W1/2SE1/4; and NE1/4SE1/4 of Section 30, T9N, R28E, of G&SRB&M, Apache County, Arizona. Parcel 5 (O5): lots 1, 2 and 3; the S1/2NE1/4; NW1/4NE1/4; E1/2NW1/4; and NE1/4SW1/4 of Section 31, T9N, R28E, of G&SRB&M, Apache County, Arizona. Parcel 6 (O6): beginning at the northwest corner of the SE1/4 of Section 27, T9N, R28E, of G&SRB&M, Apache County, Arizona; thence east a distance of 1320.00 feet; thence south a distance of 925.00 feet: thence west a distance of 320.00 feet to the center of a stock watering tub; thence N 83° W a distance of 1000.00 feet; thence north a distance of 740.00 feet to the point of beginning. State Land Special Use Permit: SE1/4SW1/4 of Section 5; E1/2NE1/4 of Section 08; NE1/4NW1/4 of Section 8; M&B in N1/2NW1/4 north of Hwy 260 of Section 17, all in T8N, R28E of the G&SRB&M, Apache County, Arizona. S1/2NW1/4 and

SW1/4 of Section 26; all of Section 36, all in T9N, R27E of the G&SRB&M, Apache County, Arizona. SE1/4 lying easterly of Carnero Creek in Section 18; Lots 3 and 4, E1/2SW1/4, SE1/4, NE1/4, and SE1/4NW1/4, lying southeasterly of Carnero Creek in Section 19; NW1/4SE1/4 of Section 29, Lots 1 and 2 and NE1/4 and E1/2NW1/4 and SE1/4SE1/4 of Section 30; and Lot 4, and the NE1/4NE1/4 of Section 31; all in T9N, R28E of the G&SRB&M, Apache County, Arizona. State Grazing Lease: Legal Description of the White Mountain Grassland State Land Grazing Lease. Lots 1 thru 4, and S1/2N1/2, SW1/4, N1/2N1/2SE1/4, S SW1/4NW1/4SE1/4, and W1/2SW1/4SE1/4 of Section 3; Lots 1 thru 4, and the S1/2N1/2 and S1/2 of Section 4; SE1/4SW1/4 of Section 5; E1/2NE1/4, NE1/4NW1/4 of Section 8; SE1/4NE1/4 and N1/2N1/2 of Section 9; S1/2NE1/4NE1/4, SE1/4NW1/4NE1/4, W1/2NW1/4NE1/4, N1/2NW1/4, all in Section 10; NE1/4NW1/4 lying north of the centerline of State Highway 260, in Section 17, T8N, R28E of the G&SRB&M, Apache County; NE1/4, S1/2NW1/4, and the SW1/4 of Section 25, and all of Section 36; in T9N, R27E of the G&SRB&M, Apache County; a portion of the SE1/4 of Section 18 lying southeasterly of Carnero Creek, Lots 3 and 4, E1/2SW1/4, SE1/4, NE1/4, and SE1/4NW1/4 lying southeast of Carnero Creek in Section 19; all of Section 20 and Section 21; SW1/4NE1/4, S1/2NW1/4, and M&B in N1/2SW1/4, of Section 27; N1/2E1/2SW1/4, SW1/4SW1/4 and SE1/4 of Section 28; Lots 1 and 2, and NE1/4, E1/2NW1/4, and SE1/4SE1/4 of Section 30; Lot 4 and NE1/4NE1/4 of Section 31; all of Section 32 and Section 33, in T9N, R28E, in the G&SRB&M, Apache County. SE1/4NE1/4SE1/4 of Section 31; T09N, R28E, G&SRB&M, Apache County, Arizona.

39. Whitewater Draw Wildlife Area: The Whitewater Draw Wildlife Area shall be those areas described as follows: T21S, R26E; Section 19, S1/2 SE1/4; Section 29, W1/2 NE1/4, and E1/2 NE1/4; Section 30, N1/2 NE1/4; Section 32; T22S, R26E; Section 4, Lots 3 and 4; T22S, R26E; Section 5, Lots 1 to 4, except an undivided 1/2 interest in all minerals, oil, and/or gas as reserved in Deed recorded in Docket 209, page 117, records of Cochise County, Arizona.
40. Willcox Playa Wildlife Area: The Willcox Playa Wildlife Area shall be that area within the posted Arizona Game and Fish Department fences enclosing the following described area: beginning at the Section corner common to Sections 2, 3, 10 and 11, T15S, R25E, G&SRB&M, Cochise County, Arizona; thence S 0°15'57" W a distance of 2645.53 feet to the east 1/4 corner of Section 10; thence S 89°47'15" W a distance of 2578.59 feet to the center 1/4 corner of Section 10; thence N 1°45'24" E a distance of 2647.85 feet to the center 1/4 corner of Section 3; thence N 1°02'42" W a distance of 2647.58 feet to the center 1/4 corner of said Section 3; thence N 89°41'37" E to the common 1/4 corner of Section 2 and Section 3; thence S 0°00'03" W a distance of 1323.68 feet to the south 1/16 corner of said Sections 2 and 3; thence S 44°46'30" E a distance of 1867.80 feet to a point on the common Section line of Section 2 and Section 11; thence S 44°41'13" E a distance of 1862.94 feet; thence S 44°42'35" E a distance of 1863.13 feet; thence N 0°13'23" E a distance of 1322.06 feet; thence S 89°54'40" E a distance of 1276.24 feet to a point on the west right-of-way fence line of Kansas Settlement Rd.; thence S 0°12'32" W a distance of 2643.71 feet along said fence line; thence N 89°55'43" W a distance of 2591.30 feet; thence N 0°14'14" E a distance of 661.13 feet; thence N 89°55'27" W a distance of 658.20 feet; thence N 0°14'39" E a distance of 1322.36 feet; thence N 44°41'19" W a distance of 931.44 feet; thence N 44°40'31" W a distance of 1862.85 feet to the point of beginning. Said wildlife area contains 543.10 acres approximately.

C. Department Controlled Properties are described as follows: Hirsch Conservation Education Area and Biscuit Tank: The Hirsch Conservation Education Area and Biscuit Tank shall be that area lying in Section 3 T5N R2E, beginning at the north-east corner of Section 3,T5N, R2E, G&SRB&M, Maricopa County, Arizona; thence S 35°33'23.43" W a distance of 2938.12 feet; to the point of true beginning; thence S 81°31'35.45" W a distance of 147.25 feet; thence S 45°46'21.90" W a distance of 552.25 feet; thence S 21°28'21.59" W a distance of 56.77 feet; thence S 16°19'49.19" E a distance of 384.44 feet; thence S 5°27'54.02" W a distance of 73.43 feet; thence S 89°50'44.45" E a distance of 431.99 feet; thence N 4°53'57.68" W a distance of 81.99 feet; thence N 46°49'53.27" W a distance of 47.22 feet; thence N 43°3'3.68" E a distance of 83.74 feet; thence S 47°30'40.79" E a distance of 47.71 feet; thence N 76°2'59.67" E a distance of 105.91 feet; thence N 15°45'0.24" W a distance of 95.87 feet; thence N 68°48'27.79" E a distance of 69.79 feet; thence N 8°31'53.39" W a distance of 69.79 feet; thence N 30°5'32.34" E a distance of 39.8 feet; thence N 46°17'32.32" E a distance of 63.77 feet; thence N 22°17'26.17" W a distance of 517.05 feet to the point of true beginning.

Historical Note

New Section adopted by exempt rulemaking at 6 A.A.R. 1731, effective May 1, 2000 (Supp. 00-2). Amended by exempt rulemaking at 9 A.A.R. 3141, effective August 23, 2003 (Supp. 03-2). Amended by exempt rulemaking at 11 A.A.R. 1927, effective May 20, 2005 (Supp. 05-2). Amended by exempt rulemaking at 16 A.A.R. 397, effective March 5, 2010 (Supp. 10-1). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Amended by exempt rulemaking at 18 A.A.R. 1070, effective June 15, 2012 (Supp. 12-2). Amended by exempt rulemaking at 19 A.A.R. 931, effective June 17, 2013 (Supp 13-2). Amended by exempt rulemaking at 20 A.A.R. 841, effective June 17, 2014 (Supp 14-1). Amended by exempt rulemaking at 22 A.A.R. 951, effective June 7, 2016 (Supp. 16-2). Amended by exempt rulemaking at 22 A.A.R. 2209, effective October 4, 2016 (Supp. 16-4). Amended by final exempt rulemaking at 27 A.A.R. 242, effective April 5, 2021 (Supp. 21-1).

R12-4-804. Renumbered

Historical Note

New Section made by exempt rulemaking at 9 A.A.R. 1424, effective June 14, 2003 (Supp. 03-2). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Section R12-4-804 renumbered to R12-4-125, by final rulemaking at 21 A.A.R. 3025, effective January 2, 2016 (Supp. 15-4).

17-231. General powers and duties of the commission

A. The commission shall:

1. Adopt rules and establish services it deems necessary to carry out the provisions and purposes of this title.

2. Establish broad policies and long-range programs for the management, preservation and harvest of wildlife.

3. Establish hunting, trapping and fishing rules and prescribe the manner and methods that may be used in taking wildlife, but the commission shall not limit or restrict the magazine capacity of any authorized firearm.

4. Be responsible for the enforcement of laws for the protection of wildlife.

5. Provide for the assembling and distribution of information to the public relating to wildlife and activities of the department.

6. Prescribe rules for the expenditure, by or under the control of the director, of all funds arising from appropriation, licenses, gifts or other sources.

7. Exercise such powers and duties necessary to carry out fully the provisions of this title and in general exercise powers and duties that relate to adopting and carrying out policies of the department and control of its financial affairs.

8. Prescribe procedures for use of department personnel, facilities, equipment, supplies and other resources in assisting search or rescue operations on request of the director of the division of emergency management.

9. Cooperate with the Arizona-Mexico commission in the governor's office and with researchers at universities in this state to collect data and conduct projects in the United States and Mexico on issues that are within the scope of the department's duties and that relate to quality of life, trade and economic development in this state in a manner that will help the Arizona-Mexico commission to assess and enhance the economic competitiveness of this state and of the Arizona-Mexico region.

B. The commission may:

1. Conduct investigations, inquiries or hearings in the performance of its powers and duties.

2. Establish game management units or refuges for the preservation and management of wildlife.

3. Construct and operate game farms, fish hatcheries, fishing lakes or other facilities for or relating to the preservation or propagation of wildlife.

4. Expend funds to provide training in the safe handling and use of firearms and safe hunting practices.

5. Remove or permit to be removed from public or private waters fish which hinder or prevent propagation of game or food fish and dispose of such fish in such manner as it may designate.

6. Purchase, sell or barter wildlife for the purpose of stocking public or private lands and waters and take at any time in any manner wildlife for research, propagation and restocking purposes or for use at a game farm or fish hatchery and declare wildlife salable when in the public interest or the interest of conservation.

7. Enter into agreements with the federal government, with other states or political subdivisions of the state and with private organizations for the construction and operation of facilities and for management studies, measures or procedures for or relating to the preservation and propagation of wildlife and expend funds for carrying out such agreements.

8. Prescribe rules for the sale, trade, importation, exportation or possession of wildlife.

9. Expend monies for the purpose of producing publications relating to wildlife and activities of the department for sale to the public and establish the price to be paid for annual subscriptions and single copies of such publications. All monies received from the sale of such publications shall be deposited in the game and fish publications revolving fund.

10. Contract with any person or entity to design and produce artwork on terms that, in the commission's judgment, will produce an original and valuable work of art relating to wildlife or wildlife habitat.

11. Sell or distribute the artwork authorized under paragraph 10 of this subsection on such terms and for such price as it deems acceptable.

12. Consider the adverse and beneficial short-term and long-term economic impacts on resource dependent communities, small businesses and the state of Arizona, of policies and programs for the management, preservation and harvest of wildlife by holding a public hearing to receive and consider written comments and public testimony from interested persons.

13. Adopt rules relating to range operations at public shooting ranges operated by and under the jurisdiction of the commission, including the hours of operation, the fees for the use of the range, the regulation of groups and events, the operation of related range facilities, the type of firearms and ammunition that may be used at the range, the safe handling of firearms at the range, the required safety equipment for a person using the range, the sale of firearms, ammunition and shooting supplies at the range, and the authority of range officers to enforce these rules, to remove violators from the premises and to refuse entry for repeat violations.

14. Solicit and accept grants, gifts or donations of money or other property from any source, which may be used

for any purpose consistent with this title.

C. The commission shall confer and coordinate with the director of water resources with respect to the commission's activities, plans and negotiations relating to water development and use, restoration projects under the restoration acts pursuant to chapter 4, article 1 of this title, where water development and use are involved, the abatement of pollution injurious to wildlife and in the formulation of fish and wildlife aspects of the director of water resources' plans to develop and utilize water resources of the state and shall have jurisdiction over fish and wildlife resources and fish and wildlife activities of projects constructed for the state under or pursuant to the jurisdiction of the director of water resources.

D. The commission may enter into one or more agreements with a multi-county water conservation district and other parties for participation in the lower Colorado river multispecies conservation program under section 48-3713.03, including the collection and payment of any monies authorized by law for the purposes of the lower Colorado river multispecies conservation program.

17-241. Acquisition and disposition of lands and waters; retention of rights; disposition of proceeds

A. The commission, in the name of the state, with the approval of the governor may:

1. Acquire by purchase, lease, exchange, gift or condemnation lands for use as fish hatcheries, game farms, firing ranges, reservoir sites or rights of way to fishing waters.

2. Acquire by purchase, lease, exchange or gift lands or waters for use as fish hatcheries, game farms, shooting areas, firing ranges or other purposes necessary to carry out the provisions of this title.

3. Acquire by condemnation waters for use as fish hatcheries. The acquisition of land acquired by condemnation shall be limited to a maximum of one hundred sixty acres unless first approved by the legislature.

B. The commission may, with approval of the governor and state land commissioner, lease, sublease, exchange, or sell, in the name of the state, any land acquired by gift, purchase, lease, exchange, or other method.

C. Notwithstanding any other provision of law, the sale or transfer of any lands under the provisions of this section shall be subject to a reservation to the state of all mineral rights and may be subject to the right of entry thereon by the public for hunting and fishing purposes.

D. Money derived from a sale or lease shall be deposited in the game and fish fund.

17-452. Restrictions on motor vehicle use; recommendations; agreements; rules

A. When the commission determines that the operation of motor vehicles within a certain area, except private land, is or may be damaging to wildlife reproduction, wildlife management or wildlife habitat of such area, the commission, with the concurrence of the land management agency involved and after a public hearing, may order such area closed to motor vehicles for not more than five years from the date of such closure, provided that all roads in such area shall remain open unless specifically closed.

B. The commission may also recommend that particular areas of land be set aside or made available for the use of recreational vehicles.

C. The commission may enter into agreements with landowners and agencies controlling areas that the commission has made recommendations on pursuant to subsection B. Any such agreement shall stipulate the restrictions, prohibitions and permitted uses of motor vehicles in such area and the duties of the commission and such landowner or agency relating to the enforcement of the terms of such agreement.

D. The commission shall adopt rules pursuant to title 41, chapter 6 to carry out the provisions of this section.

17-453. Notices of restrictions; posting; publication

A. For all areas specified under agreements pursuant to section 17-452, the commission shall cause notices of the restrictions, prohibitions or permitted uses of such area to be posted, prior to the effective date of such restrictions, prohibitions or permitted uses, on the main traveled roads and highways entering such area and such locations that the commission deems appropriate.

B. In addition to the posted notices required by subsection A of this section, the commission shall cause a notice of such restrictions, prohibitions or permitted uses, together with a description of the area, to be published three times in a newspaper of general circulation in the state prior to the effective date of such restrictions, prohibitions or permitted uses.

17-454. Prohibition against vehicle travel

No person shall drive a motor operated vehicle cross-country on public or private lands where such cross-country driving is prohibited by rule or regulation or, in the case of private lands, by proper posting.

17-455. Exceptions

A. The restrictions, prohibitions or permitted uses established pursuant to section 17-452 shall not apply to:

1. Public employees acting in the scope of their employment.

2. Valid licensees and permittees of state agencies and land management agencies. Holders of such licenses and permits shall be limited to the specific purposes and areas of travel for which such licenses or permits were issued or granted.

3. Necessary travel within or across restricted or prohibited land by employees and agents of public utilities, subject to Arizona corporation commission (or any successor agency) or federal power commission regulation, of suppliers of water or power acting as agents of the federal government, and employees or agents of mining companies exercising rights pursuant to any state or federal mining law or regulation. Other persons who are regularly engaged in prospecting or mineral exploration shall upon application be issued vehicular access permits by the director.

4. A licensed hunter who enters an area solely to pick up a big game animal which he has legally killed.

B. Emergency situations, such as fire or other disasters, or when otherwise necessary to protect life or property shall not require a permit.

C. Parking and camping shall be allowed along open roads in closed areas, except that no vehicle shall be parked or operated at a distance greater than three hundred feet from such roads.

41-1005. Exemptions

A. This chapter does not apply to any:

1. Rule that relates to the use of public works, including streets and highways, under the jurisdiction of an agency if the effect of the order is indicated to the public by means of signs or signals.

2. Order or rule of the Arizona game and fish commission that does the following:

(a) Opens, closes or alters seasons or establishes bag or possession limits for wildlife.

(b) Establishes a fee pursuant to section 5-321, 5-322 or 5-327.

(c) Establishes a license classification, fee or application fee pursuant to title 17, chapter 3, article 2.

(d) Limits the number or use of licenses or permits that are issued to nonresidents pursuant to section 17-332.

3. Rule relating to section 28-641 or to any rule regulating motor vehicle operation that relates to speed, parking, standing, stopping or passing enacted pursuant to title 28, chapter 3.

4. Rule concerning only the internal management of an agency that does not directly and substantially affect the procedural or substantive rights or duties of any segment of the public.

5. Rule that only establishes specific prices to be charged for particular goods or services sold by an agency.

6. Rule concerning only the physical servicing, maintenance or care of agency owned or operated facilities or property.

7. Rule or substantive policy statement concerning inmates or committed youths of a correctional or detention facility in secure custody or patients admitted to a hospital if made by the state department of corrections, the department of juvenile corrections, the board of executive clemency or the department of health services or a facility or hospital under the jurisdiction of the state department of corrections, the department of juvenile corrections or the department of health services.

8. Form whose contents or substantive requirements are prescribed by rule or statute and instructions for the execution or use of the form.

9. Capped fee-for-service schedule adopted by the Arizona health care cost containment system administration pursuant to title 36, chapter 29.

10. Fees prescribed by section 6-125.

11. Order of the director of water resources adopting or modifying a management plan pursuant to title 45, chapter 2, article 9.

12. Fees established under section 3-1086.

13. Fees established under sections 41-4010 and 41-4042.

14. Rule or other matter relating to agency contracts.

15. Fees established under section 32-2067 or 32-2132.

16. Rules made pursuant to section 5-111, subsection A.

17. Rules made by the Arizona state parks board concerning the operation of the Tonto natural bridge state park, the facilities located in the Tonto natural bridge state park and the entrance fees to the Tonto natural bridge state park.

18. Fees or charges established under section 41-511.05.

19. Emergency medical services protocols except as provided in section 36-2205, subsection B.

20. Fee schedules established pursuant to section 36-3409.

21. Procedures of the state transportation board as prescribed in section 28-7048.

22. Rules made by the state department of corrections.

23. Fees prescribed pursuant to section 32-1527.

24. Rules made by the department of economic security pursuant to section 46-805.

25. Schedule of fees prescribed by section 23-908.

26. Procedure that is established pursuant to title 23, chapter 6, article 6.

27. Rules, administrative policies, procedures and guidelines adopted for any purpose by the Arizona commerce authority pursuant to chapter 10 of this title if the authority provides, as appropriate under the circumstances, for notice of an opportunity for comment on the proposed rules, administrative policies, procedures and guidelines.

28. Rules made by a marketing commission or marketing committee pursuant to section 3-414.

29. Administration of public assistance program monies authorized for liabilities that are incurred for disasters declared pursuant to sections 26-303 and 35-192.

30. User charges, tolls, fares, rents, advertising and sponsorship charges, services charges or similar charges established pursuant to section 28-7705.

31. Administration and implementation of the hospital assessment pursuant to section 36-2901.08, except that the Arizona health care cost containment system administration must provide notice and an opportunity for public comment at least thirty days before establishing or implementing the administration of the assessment.

32. Rules made by the Arizona department of agriculture to adopt and implement the provisions of the federal milk ordinance as prescribed by section 3-605.

33. Rules made by the Arizona department of agriculture to adopt, implement and administer the United States food and drug administration produce safety rule (21 Code of Federal Regulations part 112) and any other federal produce safety regulation, order or guideline or other requirement adopted pursuant to the FDA food safety modernization act (P.L. 111-353; 21 United States Code sections 2201 through 2252) as provided by title 3, chapter 3, article 4.1.

34. Calculations that are performed by the department of economic security and that are associated with the adjustment of the sliding fee scale and formula for determining child care assistance pursuant to section 46-805.

35. Rules made by the Arizona department of agriculture to implement and administer the livestock operator fire and flood assistance grant program established by section 3-109.03.

B. Notwithstanding subsection A, paragraph 21 of this section, if the federal highway administration authorizes the privatization of rest areas, the state transportation board shall make rules governing the lease or license by the department of transportation to a private entity for the purposes of privatization of a rest area.

C. Coincident with the making of a final rule pursuant to an exemption from the applicability of this chapter under this section, another statute or session law, the agency shall:

1. Prepare a notice and follow formatting guidelines prescribed by the secretary of state.

2. Prepare the rulemaking exemption notices pursuant to chapter 6.2 of this title.

3. File a copy of the rule with the secretary of state for publication pursuant to section 41-1012 and provide a copy to the council.

D. Unless otherwise required by law, articles 2, 3, 4 and 5 of this chapter do not apply to the Arizona board of regents and the institutions under its jurisdiction, except that the Arizona board of regents shall make policies or rules for the board and the institutions under its jurisdiction that provide, as appropriate under the circumstances, for notice of and opportunity for comment on the policies or rules proposed.

E. Unless otherwise required by law, articles 2, 3, 4 and 5 of this chapter do not apply to the Arizona state schools for the deaf and the blind, except that the board of directors of all the state schools for the deaf and the blind shall adopt policies for the board and the schools under its jurisdiction that provide, as appropriate under the circumstances, for notice of and opportunity for comment on the policies proposed for adoption.

F. Unless otherwise required by law, articles 2, 3, 4 and 5 of this chapter do not apply to the state board of education, except that the state board of education shall adopt policies or rules for the board and the institutions under its jurisdiction that provide, as appropriate under the circumstances, for notice of and opportunity for comment on the policies or rules proposed for adoption. In order to implement or change any rule, the state board of education shall provide at least two opportunities for public comment. The state board of education shall consider the fiscal impact of any proposed rule pursuant to this subsection.

G. Unless otherwise required by law, articles 2, 3, 4 and 5 of this chapter do not apply to the state board for charter schools, except that the board shall adopt policies or rules for the board and the charter schools sponsored by the board that provide, as appropriate under the circumstances, for notice of and opportunity for comment on the policies or rules proposed for adoption. In order to implement or change any policy or rule, the board shall provide at least two opportunities for public comment. The state board for charter schools shall consider the fiscal impact of any proposed rule pursuant to this subsection.

DEPARTMENT OF REVENUE
Title 15, Chapter 12 Articles 1-3

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF REVENUE**
Title 15, Chapter 12 Articles 1-3

Summary

This Five-Year Review Report (5YRR) from the Arizona Department Revenue ("Department") covers twenty-four (24) rules in Title 15, Chapter 12, Articles 1-3 relating to the Property Tax Oversight Commission. Article 1 covers general provisions, Article 2 covers property tax levy limits, and Article 3 covers hearing and appeal procedures. The purposes of the Property Tax Oversight Commission is to: (1) further the public confidence in property tax limitations; (2) provide a uniform methodology for determining those limitations; and (3) provide a continuing review of practices for ensuring a fair and equitable administration of the property tax laws.

The Department has not completed the proposed course of action from their previous three reports approved by the Council in July 2010, July 2015 and February 2020, respectively.

In the 2010 report, the Department proposed to amend 14 rules but this was not completed because the Department did not qualify for an exemption to the executive order concerning the Rulemaking Moratorium. In the 2015 report, the Department proposed to amend 14 rules but did not provide a timeline because of active litigation. In the 2020 report, the Department indicated that they did not complete this proposed course of action from the 2015

report because the Department was named as a defendant to a lawsuit on June 8, 2015. In the 2020 report, the Department indicated this lawsuit was resolved and the Department intended on completing a rulemaking by September 1, 2020.

In this 5YRR now before the Council, the Department has indicated that the course of action from the 2020 report was not completed as a result of litigation started in June 2024. The Department stated that they do not want to make any substantive changes to the rules prior to final adjudication in that matter, which concerns the calculation of levy limits.

Proposed Action

The Department indicates that they still intend on amending the 14 rules identified in the previous reports. The amendments are necessary to incorporate 2009 statutory changes and to update the rules to conform to modern rulewriting standards. Given the on-going litigation, the Department has not proposed any timeline for when they intend on completing a rulemaking.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Property Tax Oversight Commission was created by Laws 1987, Ch, 204. The Department indicates that the original economic impact statement estimated that the Department of Revenue, Property Tax Oversight Commission, the Attorney General's Office and political subdivisions would all experience cost savings due to the standardization of the Property Tax Oversight Commission's practices and procedures. The Department believes that the economic impacts projected in the original adoptions of the rules and in the subsequent amendments in 1997, 2000, and 2006 are generally accurate. However, the Department believes that one aspect that may generate costs that outweigh benefits is in the engagement of the Commission members and staff as well as a political subdivision, special taxing district or fire district that disputes the Commission's findings in a rehearing process that is unnecessary prior to the petitioner's appeal of the matter to tax court.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states that after analysis, the probable benefits of the rules outweigh the probable costs and the rules impose the least burden and costs to persons regulated by them, including paperwork and other costs necessary to achieve the underlying regulatory objective.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are mostly clear, concise, and understandable but that the following 7 rules need to be amended to conform with modern rulewriting standards, such as improving terminology and removing passive voice.

- R15-12-201
- R15-12-301
- R15-12-302
- R15-12-303
- R15-12-304
- R15-12-306
- R15-12-312

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules are generally consistent with other rules and statutes, with the exception of the following. The following rules are not compliant with the statutes that govern the Property Tax Oversight Commission because of laws 2009, Ch 118 which included fire districts.

- R15-12-106
- R15-12-201
- R15-12-203
- R15-12-204
- R15-12-205
- R15-12-301
- R15-12-302
- R15-12-303
- R15-12-305
- R15-12-306
- R15-12-308
- R15-12-311
- R15-12-312

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives with the exception of R15-12-312. The Department indicates that the current rehearing process could result in repetitive or unnecessary actions prior to the ability to take the matter to tax court.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written outside of those listed that are not compliant with statute, in which the statutes would govern.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no corresponding federal laws.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department Revenue ("Department") covers twenty-four (24) rules in Title 15, Chapter 12, Articles 1-3 relating to the Property Tax Oversight Commission. The Department has not completed their previous courses of action from the Department's last three 5YRR as a result of litigation. The Department is proposing to amend 14 rules but have not identified a timeframe for when they expect to complete the rulemaking, as a result of litigation filed in 2024.

The Department has not provided a course of action with a date and year in accordance with R1-6-301. Council staff recommends the Council ask the Department to clarify when the Department intends to complete a rulemaking.

DEPARTMENT OF REVENUE

5 YEAR REVIEW REPORT

A.A.C. Title 15 Revenue

Chapter 12 Department of Revenue

Property Tax Oversight Commission

Articles 1, 2, and 3

December 31, 2024

1. Authorization of the rule by existing statutes

All of the rules are generally authorized by A.R.S. § 42-1005, which provides that the Director ("Director") of the Department of Revenue ("Department") may make administrative rules as he deems necessary and proper to effectively administer the Department and enforce Arizona Revised Statutes ("A.R.S.") Title 42 and Title 43. Additionally, A.R.S § 42-17002(A) establishes the Property Tax Oversight Commission ("Commission") to: (1) further the public confidence in property tax limitations; (2) provide a uniform methodology for determining those limitations; and (3) provide a continuing review of practices for ensuring a fair and equitable administration of the property tax laws. A.R.S. § 42-17002(B) states that the Director or the Director's designee is to serve as chairman of the Commission and A.R.S. § 42-17002(D) states that the Department shall provide secretarial and staff support services to the Commission. The Commission is required "to make rules of practice setting forth the nature and requirements of "those hearing procedures. A.R.S. §41-1003.

Specific Authorization for the Rules:

1. A.R.S. §§ 42-17001 through 42-17003 are the specific statutes upon which the following rules are based:

   R15-12-101. Definitions

   R15-12-102. Principal Office of the Property Tax Oversight Commission

   R15-12-103. Quorum

   R15-12-104. Hearings

R15-12-104. Voting

R15-12-106. Decisions

R15-12.107. Copying and Recording Costs

2. A.R.S. §§ 42-17003 and 42-17051 are the specific statutes upon which the following rules are based:

R15-12-201. Primary Property Tax Calculations

R15-12-202. Involuntary Tort Judgments

3. A.R.S. §§ 42-17003 and 42-17054 are the specific statutes upon which the following rules are based:

R15-12-203. Primary Property Tax Calculations

R15-12-204. Involuntary Tort Judgments

R15-12-205. Actual Levies

4. A.R.S. §§ 42-17002 and 42-17004 are specific statutes upon which the following rules are based:

R15-12-301. Notice of Violation

R15-12-302. Petition

R15-12-303. Grounds for Petition

R15-12-304. Manner of Filing

R15-12-305. Supplementing the Petition

R15-12-306. Withdrawal of Petition

R15-12-307. Rescheduling of Hearing

R15-12-308. Evidence

2. <u>The objective of each rule</u>:

Rule	Objective
R15-12-101	*Definitions:* The objective of this rule is to define words and phrases used throughout the chapter.
R15-12-102	*Principal Office of the Property Tax Oversight Commission:* The objective of this rule is to provide the location of the principal office of the Property Tax Oversight Commission and where inquiries, correspondence, and filings are to be sent and the meeting and hearing are to be held.
R15-12-103	*Quorum*: The objective of this rule is to require a quorum of the Commission to make orders and decisions and conduct official business.
R15-12-104	*Hearings:* The objective of this rule is to provide that a quorum of the Commission shall directly conduct all hearings before the Commission regarding contested cases. Under A.R.S. §41-1092.02(F), a commission that directly conducts an administrative hearing is not required to use the services of the Office of Administrative Hearings.
R15-12-105	*Voting*: The objective of this rule is to provide when Commission members may vote and allows dissenting members to state the reason for their dissent.
R15-12-106	*Decisions*: The objective of this rule is to explain when Commission decisions are rendered and to whom these decisions must be sent.

R15-12-107	*Copying and Recording Costs*: The objective of this rule is to provide who will bear the costs of copying and the costs of employing a court reporter.
R15-12-201	*Primary Property Tax Calculations*: The objective of this rule is to expound on the proper calculations for determining the maximum allowable primary property tax levy limit and the allowable primary property tax rate.
R15-12-202	*Involuntary Tort Judgments*: The objective of this rule is to provide when the Commission shall recognize an involuntary tort judgment paid by a political subdivision and what the political subdivision may do with the involuntary tort judgment.
R15-12-203	*Levy Limit Worksheets*: The objective of this rule is to provide when and to whom the counties should submit a copy of the final levy limit worksheets. The rule also provides that the County Assessor must certify the copies as true and correct.
R15-12-204	*Political Subdivision Agreement*: The objective of this rule is to provide the procedure and deadlines for a political subdivision to disagree with the county's levy limit worksheet calculations. The rule also provides that the Commission may allow additional time to present objections to specific items if good cause is shown or on motion by the Commission.
R15-12-205	*Actual Levies*: The objective of this rule is to require the chief county fiscal officers in each county to certify and submit to the Commission the actual amount of primary property tax levied by each political subdivision in their counties within a certain time frame.
R15-12-301	*Notice of Violation*: The objective of this rule is to provide what kind of information must be contained on a notice of violation issued by the Commission
R15-12-302	*Petition*: The objective of this rule is to provide that all objections to the notice of violation must be made by way of a written petition to the Commission. The rule further explains the

	proper form of the petition and what information it must contain.
R15-12-303	*Grounds for Petition*: The objective of this rule is to require that objections to notices of violations be limited to factual findings and conclusions of law reached by the Commission
R15-12-304	*Manner of Filing*: The objective of this rule is to provide the manner for filing the petition. The rule specifies the number of copies of the petition that must be filed, that the Commission shall record the petition and supporting memorandum, and that no fee shall be charged for filing.
R15-12-305	*Supplementing the Petition*: The objective of this rule is to provide that the Commission may allow additional time, not to exceed 15 days, to supplement the petition
R15-12-306	*Withdrawal of Petition*: The object of this rule is to provide the procedure for withdrawal of a petition and the result of such a withdrawal.
R15-12-307	*Rescheduling of Hearing*: The objective of this rule is to allow the Commission to postpone or recess a hearing upon a showing of good cause. The Commission must then state the date, time, and place for the hearing to continue.
R15-12-308	*Evidence*: The objective of this rule is to describe the kinds of evidence that may be presented at a hearing before the Commission. The rule also provides guidance for admitting evidence and hearing oral evidence.
R15-12-309	*Subpoena*: The objective of this rule is to allow the Commission to issue subpoenas upon request of a party or its own initiative.
R15-12-310	*Post-Hearing Memoranda*: The objective of this rule is to provide information concerning the submission of post-hearing memoranda.
R15-12-311	*Prehearing Issue Resolution*: The objective of this rule is to explain the treatment of any agreement or resolution of issues prior to hearing between

	the Commission and a political subdivision.
R15-12-312	*Rehearing*: The objective of this rule is to provide a rehearing process and the circumstances under which a rehearing may be granted. The rules also provide the proper time frame for the Commission to grant or order a rehearing.

3. <u>Are the rules effective in achieving their objectives</u>? Yes _<u>X</u>_ No ____

Rule	Explanation
R15-12-312	*Rehearing*: The Department believes the rehearing process and the circumstances under which a rehearing is necessary may create scenarios in which both the Commission and petitioner are engaged in repetitive or unnecessary actions before the petitioner is able to appeal the matter to the tax court.

4. <u>Are the rules consistent with other rules and statutes</u>? Yes ___ No _<u>X</u>_

The following rules identified below are not consistent with other rules and statutes as written.

Rule	Explanation
R15-12-106	*Decisions*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-201	*Primary Property Tax Calculations*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-203	*Levy Limit Worksheets*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include

	fire districts.
R15-12-204	*Political Subdivision Agreement*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-205	*Actual Levies*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-301	*Notice of Violation*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-302	*Petition*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-303	*Grounds for Petition*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-305	*Supplementing the Petition*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-306	*Withdrawal of Petition*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-308	*Evidence*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include

	fire districts.
R15-12-311	*Prehearing Issue Resolution*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.
R15-12-312	*Rehearing*: The Department proposes to amend this rule to comply with the Secretary of State's guidelines and to reflect statutory changes made by Laws 2009, Ch. 118 to include fire districts.

5. <u>Are the rules enforced as written</u>? Yes _X_ No ___

6. <u>Are the rules clear, concise, and understandable</u>? Yes ___ No _X_

Rule	Explanation
R15-12-201	*Primary Property Tax Calculations*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-301	*Notice of Violation*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-302	*Petition*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-303	*Grounds for Petition*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-304	*Manner of Filing*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-306	*Withdrawal of Petition*: This rule contains language that does not conform to existing rulewriting standards.
R15-12-312	*Rehearing*: This rule contains language that does not conform to existing rulewriting standards.

7. <u>Has the agency received written criticisms of the rules within the last five years</u>? Yes___ No __<u>X</u>_

8. <u>Economic, small business, and consumer impact comparison</u>:

All of the rules in this chapter with the exception of R15-12-104 were adopted in one package in 1990. R15-12-104 was added in 1997 to replace the old R15-12-104 that was repealed. In addition, ten of the rules in this chapter were amended in 1997. Two more rules were amended in 2000. And, finally, two rules were amended in 2006.

The Property Tax Oversight Commission was created by Laws 1987, Ch. 204. Prior to the original adoption of these rules in 1990, the Property Tax Oversight Commission did not have any rules. Therefore, the original economic impact statement estimated that the Department of Revenue, Property Tax Oversight Commission, the Attorney General's Office and the political subdivisions would all experience cost savings due to the standardization of the Property Tax Oversight Commission's practices and procedures. A cost savings was also expected because of the streamlining and increased definitiveness of the contested issues and facts required by the rules. In addition, by placing the responsibility for arranging for special services on the party that makes the request, the burden on Department of Revenue clerical support is reduced, thereby reducing the costs to the Department and possibly increasing the costs of the political subdivision that makes the special request. These amounts could not be quantified. The Department also estimated minimal costs associated with the publishing of the rules and the public hearing process. Political subdivisions, other state agencies and the public would incur costs in obtaining copies of the rules.

On October 7, 1997, the Governor's Regulatory Review Council approved the amendment of R15-12-105, R15-12-202, R15-12-203, R15-12-305, and R15-12-307 through R15-12-312. In addition, a new R15-12-104 was added to replace the old R15-12-104 that was repealed. The economic impact statement estimated decreased costs from increased clarity of the rules to operate the Commission. This would eliminate the need to provide individual instruction to each representative of the 72 political subdivisions governed by the Commission. The Department of Revenue would decrease costs by not having to provide a hearing officer to the Commission. The Commission would save by not having to pay the Office of Administrative Hearings to administer the hearings. The only increased costs were the result of the rulemaking process and were estimated to be minimal. "Minimal" is defined as an impact of less than $1,000 in costs.

On October 4, 2000, the Department amended R15-12-101 and R15-12-103. The economic impact statement expected that the benefits of the rules would be greater than the costs. The amendment of these rules would benefit the political subdivisions that deal with the Property Tax Oversight Commission and the public by making the rules more accurate as well as clearer and easier to understand. The Department would incur the costs associated with the

rulemaking process. The political subdivisions and the public were not expected to incur any expense in the amendment of these rules other than the cost of obtaining copies.

On May 13, 2006, the Department amended R15-12-101 and R15-12-204. The economic impact statement expected minimal costs in amending the rules to conform to current rule writing standards and statutory changes. The Department and the Commission expected to benefit from time saved by customer service and taxpayer assistance personnel in answering questions from the political subdivisions on issues that are addressed by each rule. The political subdivisions would experience cost savings due to the increased clarity and correctness of the rules. The public was not expected to incur any expense in the amendment of these rules other than the cost of obtaining copies.

The Department of Revenue believes that the economic impacts projected in the original adoption of the rules and in the subsequent amendments in 1997, 2000 and 2006 are generally accurate. However, the Department believes that one aspect that may generate costs that outweigh benefits is in the engagement of the Commission members and staff as well as a political subdivision, special taxing district or fire district that disputes the Commission's findings in a rehearing process that is unnecessary prior to the petitioner's appeal of the matter to tax court.

9. Has the agency received any business competitiveness analyses of the rules?

No analysis regarding the property tax commission rules' impact on business competitiveness in this state compared with the impact on businesses in other states has been submitted to the Department within the last five years.

10. Has the agency completed the course of action indicated in the agency's previous five-year-review report?

The 2019 five-year report stated that the Department would amend thirteen (13) rules. However, since June 2024, the Commission was named in a lawsuit, *Coconino Community College v. Property Tax Oversight Commission* (No. TX2024-000143), in regards to the interpretation of the language in the Arizona Constitution Art. IX, § 19 and A.R.S. §§ 42-17051 and 17056 and how those statutes relate to the calculation of the levy limits by the Commission. Accordingly, the Department has held off on making any substantive changes to the rules, pending a final adjudication of the court case.

11. A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:

After analysis, the probable benefits of the rules outweigh the probable costs and the rules impose the least burden and costs to persons regulated by them, including paperwork and other costs necessary to achieve the underlying regulatory objective.

12. Are the rules more stringent than corresponding federal laws? Yes __ No __X_

There are no corresponding federal laws. The rules are based on state law.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

None of the rules were adopted after July 29, 2010 and none of the rules being reviewed require the issuance of a regulatory permit, license or agency authorization.

14. Proposed course of action

The 2019 five-year report stated that the Department would amend thirteen (13) rules. However, since June 2024, the Commission was named in a lawsuit, *Coconino Community College v. Property Tax Oversight Commission* (No. TX2024-000143), in regards to the interpretation of the language in the Arizona Constitution Art. IX, § 19 and A.R.S. §§ 42-17051 and 17056 and how those statutes relate to the calculation of the levy limits by the Commission. While the Department has not prioritized making substantive changes to the rules pending final adjudication of the court case, it may do so if it becomes apparent that the rulemaking will neither create confusion for the public nor adversely impact the case.

At that time the Department would include the following rules:

Rule	Explanation
R15-12-106	*Decisions*
R15-12-201	*Primary Property Tax Calculations*
R15-12-203	*Levy Limit Worksheets*
R15-12-204	*Political Subdivision Agreement*

R15-12-205	*Actual Levies*
R15-12-301	*Notice of Violation*
R15-12-302	*Petition*
R15-12-303	*Grounds for Petition*
R15-12-304	*Manner of Filing*
R15-12-305	*Supplementing the Petition*

R15-12-311	*Prehearing Issue Resolution*
R15-12-312	*Rehearing*

TITLE 15. REVENUE

CHAPTER 12. DEPARTMENT OF REVENUE
PROPERTY TAX OVERSIGHT COMMISSION

ARTICLE 1. GENERAL PROVISIONS

Section

ARTICLE 2. PROPERTY TAX LEVY LIMITS

Section

ARTICLE 3. HEARING AND APPEAL PROCEDURE

Section

ARTICLE 1. GENERAL PROVISIONS

R15-12-101. Definitions

Unless the context requires otherwise, the following definitions shall apply:

1. "Excess collections" means the amount collected during the previous fiscal year in excess of the previous fiscal year's maximum allowable primary property tax levy.
2. "Excess expenditures" means the amount under A.R.S. § 42-17051(C) that is certified by the Auditor General's office.
3. "Quorum" means a majority of the members of the Commission.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended by final rulemaking at 6 A.A.R. 4114, effective October 4, 2000 (Supp. 00-4). Amended by final rulemaking at 12 A.A.R. 1096, effective May 13, 2006 (Supp. 06-1).

R15-12-102. Principal Office of the Property Tax Oversight Commission

The principal office of the Property Tax Oversight Commission shall be the Department of Revenue Building, 1600 West Monroe, Phoenix, Arizona 85007. All inquiries, correspondence, and filings shall be delivered to the Property Tax Oversight Commission at this location. All meetings and hearings shall be held at this location unless designated in writing by the Commission.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-103. Quorum

The Commission shall have a quorum for making orders and decisions or transacting other official business, as delineated in A.R.S. § 42-17003.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended by final rulemaking at 6 A.A.R. 4114, effective October 4, 2000 (Supp. 00-4).

R15-12-104. Hearings

A quorum of the Commission shall directly conduct all hearings regarding contested cases before the Commission.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Section repealed; new Section adopted effective October 10, 1997 (Supp. 97-4).

R15-12-105. Voting

A. A Commission member may vote on decisions if:
   1. The member was present at all hearings during which the matter being voted on was discussed;
   2. The member was not present at all hearings but the member reviewed the evidence submitted at the hearings and attended or listened to tape recordings of all hearings during which the matter being voted on was discussed; or
   3. The parties submitted the matter for a decision based on a joint stipulation of facts.

B. Any member who dissents may state the reasons for the member's dissent.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Section amended effective October 10, 1997 (Supp. 97-4).

R15-12-106. Decisions

A. A Commission decision is rendered when signed by the Chairman.

B. Decisions of the Commission shall be sent to the affected political subdivision and the affected County Board of Supervisors.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-107. Copying and Recording Costs

A. The costs of copying shall be paid by the person making the request.

B. Court reporting arrangements and costs shall be the responsibility of the person employing the court reporter.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

ARTICLE 2. PROPERTY TAX LEVY LIMITS

R15-12-201. Primary Property Tax Calculations

A. The Commission shall calculate the maximum allowable primary property tax levy limits for political subdivisions as follows:
   1. The maximum allowable primary property tax rate shall equal the resulting value of the following rounded to four decimal places:
      a. 102% of the sum of the previous fiscal year's maximum primary property tax levy divided by;
      b. the sum of the values provided by the County Assessor's office and the Department for the current year's value of the previous year's centrally assessed, locally assessed real, locally assessed secured personal, and locally assessed unsecured personal property, divided by 100.
   2. The maximum allowable primary property tax levy limit shall equal the sum of the current value of the current year's property as provided by the County Assessor and the Department including centrally assessed, locally real, locally assessed secured personal, and locally assessed unsecured personal property, divided by 100 and multiplied by the maximum allowable primary property tax rate.
   3. Political subdivisions may request that a specific alternative methodology be considered by the Commission. If the Commission determines the alternative methodology will more accurately calculate the levy limit of the political subdivision, such alternative methodology shall be used.

B. The Commission shall calculate the allowable primary property tax levy limit by reducing the maximum allowable primary property tax levy limit by the sum of the amount of excess levies, excess collections and excess expenditures.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-202. Involuntary Tort Judgments

A. A political subdivision that paid an involuntary tort judgment may only use the judgment to:
   1. Offset excess collections from the previous fiscal year; or
   2. Justify a primary property tax levy limit being set above the maximum allowable rate in the current fiscal year.

B. The Commission shall recognize an involuntary tort judgment if:
   1. The judgment is pursuant to a court order or settlement agreement;
   2. The judgment is approved for payment by the political subdivision's governing board;
   3. The Attorney General certifies that the judgment is an involuntary tort judgment; and
   4. The political subdivision submits copies of the court order or settlement agreement and the minutes of the governing board's pay approval to the Commission on or before the 1st Monday of July.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Spelling of the word "tort" in subsection (A) corrected (Supp. 94-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-203. Levy Limit Worksheets

A. The counties shall simultaneously submit copies of the final levy limit worksheets for all political subdivisions in their respective counties to the Commission and the affected political subdivision. The County Assessor shall verify that the copies are true and correct and, if so, certify the copies.

B. The counties shall deliver the worksheets to affected political subdivisions and the Commission on or before the 2nd Monday of August.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-204. Political Subdivision Agreement

A. If a political subdivision disagrees with the county's final levy limit worksheet calculations, the political subdivision shall, within 10 days of receipt of the county's calculations, file in writing with the Commission a statement of disagreement and the figures it deems appropriate. Failure to act within the 10 days shall be deemed agreement by the political subdivision.

B. Upon timely petition of the political subdivision for good cause shown, or on its own motion, the Commission may permit the political subdivision to present objections to specific items at a later date.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended by final rulemaking at 12 A.A.R. 1096, effective May 13, 2006 (Supp. 06-1).

R15-12-205. Actual Levies

The chief county fiscal officers shall certify and submit to the Commission the amount of the primary property tax levied for each political subdivision within their counties within three days after each levy is determined.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

ARTICLE 3. HEARING AND APPEAL PROCEDURE

R15-12-301. Notice of Violation

The notice of violation shall specify the violations found and the monetary amount in dispute. The notice shall inform the political subdivision of the right to petition on or before October 1 for a hearing on the Commission's finding of violation.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-302. Petition

A. All objections to the Commission's notice of violation shall be by written petition to the Commission. The petition shall include the following information:
   1. Name, title, address, and phone number of the political subdivision's contact person;
   2. A particularized statement of the errors allegedly committed by the Commission in its findings;
   3. A statement of facts upon which the political subdivision relies to support the assignment of errors alleged to have been committed by the Commission;
   4. The relief sought; and
   5. Whether an oral hearing is requested.

B. The petition shall be addressed to the Chairman of the Commission.

C. The petition shall be in a form that can readily be duplicated on standard office equipment.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-303. Grounds for Petition
A. Objections to notices of violation shall be limited to disputing the factual findings and conclusions of law of the Commission.
B. The Commission shall refuse all petitions not based on a dispute of its factual findings or conclusions of law. Financial impacts on the political subdivision shall not be considered by the Commission in its decision-making.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-304. Manner of Filing
A. An original and six copies of the petition and any supporting memoranda shall be filed with the Chairman.
B. No fee shall be charged for the filing of any petition or supporting memoranda.
C. Upon receipt of a petition, the Commission staff shall record the filing of the petition and supporting memoranda.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-305. Supplementing the Petition
The Commission may grant a political subdivision's request for an additional period of time, not to exceed 15 days, within which to supplement a timely filed petition. The Commission shall not consider a supplement to the petition that the political subdivision files after the additional period of time granted.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-306. Withdrawal of Petition
A. The petition may be withdrawn at the written request of the political subdivision before a final decision by the Commission is issued.
B. When the petition is withdrawn, the Commission's finding shall be deemed final and shall not be subject to any further appeal.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-307. Rescheduling of Hearing
The Commission may postpone or recess the hearing for good cause shown. The Commission shall specify the date, time, and place for the hearing to continue.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3).

R15-12-308. Evidence
A. The political subdivision and the Commission may:
1. Call and examine witnesses,
2. Introduce exhibits,
3. Cross-examine opposing witnesses on any matter relevant to the issues, even though the matter was not covered in the direct examination,
4. Impeach any witness regardless of which party first called the witness to testify,
5. Rebut the evidence against it, and
6. Call and examine as if under cross-examination a party or its employees, agents, or officers.
B. The Commission shall be liberal in admitting evidence, but the Commission shall consider objections to the admission of and comments on the weakness of evidence in assigning weight to the evidence.
C. The Commission shall take oral evidence only on oath or affirmation.
D. Legible copies may be admitted into evidence or substituted in place of the original documents.
E. The original records and files of the Commission or the Department of Revenue shall not be removed from their offices for use as evidence or for other purposes.
F. The Commission may take official notice of the records maintained by the Department of Revenue.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-309. Subpoena
The Commission may, on request of a party or on its own initiative, issue subpoenas.

Historical Note
Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-310. Post-Hearing Memoranda

If the Commission desires the submission of post-hearing memoranda or information, the Commission shall, at the time of the hearing, direct the parties to submit the post-hearing memoranda or information within a period of time set by the Commission.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-311. Prehearing Issue Resolution

If the Commission and a political subdivision agree as to the resolution of some or all of the issues prior to the hearing, the Commission shall stipulate to the agreed issues in the record and shall consider those issues withdrawn. The Commission shall then issue an order of partial resolution that becomes part of the Commission's record. The Commission shall forward copies of the order to the political subdivision, County Assessor and the Department of Revenue.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

R15-12-312. Rehearing

A. Any party in a contested case before the Commission may file a petition for rehearing or review with the Commission within 30 days after receiving the final decision. The party shall attach a supporting memorandum, specifying the grounds for the petition.

B. The party who filed the petition for rehearing or review may amend it at any time before the Commission rules. Any other party to the original hearing may file a response within 5 days after the Commission's receipt of the petition for rehearing or review. The party shall support the response with a memorandum discussing the legal and factual issues. Either party or the Commission may request oral argument.

C. The Commission may grant a rehearing or review of the decision for any of the following causes that materially affect a party's rights:

1. Irregularity in the administrative proceedings, or any order or abuse of discretion which deprived a party of a fair hearing;
2. Misconduct of the Commission, its staff, or the prevailing party;
3. Accident or surprise which could not have been prevented by ordinary prudence;
4. Newly discovered material evidence which could not with reasonable diligence have been discovered and produced at the original hearing;
5. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceeding; or
6. The decision is not justified by the evidence or is contrary to law.

D. The Commission shall not consider the financial impact to the political subdivision as a cause for rehearing.

E. The Commission may grant a rehearing or review within 15 days after its receipt of the petition for rehearing or review. The Commission may grant a petition for rehearing or review for a reason not stated in the petition. An order modifying a decision or granting a rehearing shall specify the ground or grounds for the order, and any rehearing shall only cover those matters. If the Commission fails to take action on a petition for rehearing or review within 15 days of the Commission's receipt of the petition, the petition shall be deemed denied.

F. The Commission may on its own initiative order a rehearing or review within 15 days after its decision is rendered for any reason set forth in subsection (C) of this rule. The order shall specify the grounds for rehearing or review.

G. The petitioner shall include all affidavits with the petition for rehearing or review when the petition for rehearing is based upon affidavits. An opposing party may, within 5 days after the petition for rehearing or review is filed, submit opposing affidavits. The Commission may extend this period for an additional period of time not to exceed 5 days for good cause shown. Reply affidavits may be permitted.

Historical Note

Adopted effective September 14, 1990 (Supp. 90-3). Amended effective October 10, 1997 (Supp. 97-4).

General and Specific Authorizing Statutes:

42-1005. Powers and duties of director

A. The director shall be directly responsible to the governor for the direction, control and operation of the department and shall:

1. Make such administrative rules as he deems necessary and proper to effectively administer the department and enforce this title and title 43.

2. On or before November 15 of each year issue a written report to the governor and legislature concerning the department's activities during the year. In any election year a copy of this report shall be made available to the governor-elect and to the legislature-elect.

3. On or before December 15 of each year issue a supplemental report which shall also contain proposed legislation recommended by the department for the improvement of the system of taxation in the state.

4. In addition to the report required by paragraph 2 of this subsection, on or before November 15 of each year issue a written report to the governor and legislature detailing the approximate costs in lost revenue for all state tax expenditures in effect at the time of the report. For the purpose of this paragraph, "tax expenditure" means any tax provision in state law which exempts, in whole or in part, any persons, income, goods, services or property from the impact of established taxes including deductions, subtractions, exclusions, exemptions, allowances and credits.

5. Annually, on or before January 10, prepare and submit to the legislature a report containing a summary of all the revisions made to the internal revenue code during the preceding calendar year.

6. Provide such assistance to the governor and the legislature as they may require.

7. Delegate such administrative functions, duties or powers as he deems necessary to carry out the efficient operation of the department.

B. The director may enter into an agreement with the taxing authority of any state which imposes a tax on or measured by income to provide that compensation paid in that state to residents of this state is exempt in that state from liability for income tax, the requirement for filing a tax return and withholding tax from compensation. Compensation paid in this state to residents of that state is reciprocally exempt from the requirements of title 43.

42-17001. Definitions

In this chapter, unless the context otherwise requires:

1. "Commission" means the property tax oversight commission established by section 42-17002.

2. “Fire district” means a fire district established pursuant to title 48, chapter 5.

2. "Political subdivision" means a county, charter county, city, charter city, town, community college district or school district.

42-17002. Property tax oversight commission

A. The property tax oversight commission is established to:

1. Further the public confidence in property tax limitations.

2. Provide a uniform methodology for determining those limitations.

3. Provide a continuing review of practices for ensuring a fair and equitable administration of the property tax laws.

B. The commission consists of:

1. The director of the department of revenue, who serves as chairman.

2. Four persons who are knowledgeable in the area of property tax assessment and levy, one appointed by the governor and three appointed jointly by the president of the senate and the speaker of the house of representatives. The appointive members' terms are three years.

C. An appointment to fill a vacancy on the commission resulting from other than expiration of a term is for the unexpired portion of the term only.

D. The department shall provide secretarial and staff support services to the commission.

E. The private citizen members of the commission shall receive fifty dollars per day for time spent in performing their duties.

F. The commission shall meet at least annually and, in addition, at the call of the chairman. The commission shall meet at such other times and places as convenient or necessary to conduct its affairs and shall render its findings, reports and recommendations in writing to the governor, to the director of the department of revenue and to the legislature.

42-17003. Duties

A. The commission shall:

1. Establish procedures for deriving the information required by sections 15-905.01, 15-1461.01 and 42-17107 and article 2 of this chapter, section 48-254 and paragraph 4 of this subsection.

2. Review the primary property tax levy of each political subdivision to determine violations of sections 15-905.01, 15-1461.01 and 42-17107 and article 2 of this chapter.

3. Beginning in tax year 2017, review the secondary property tax levy of each special taxing district to determine violations of section 48-254.

4. Review the secondary property tax levy of each county, city, town and community college district to identify violations of constitutional and statutory requirements.

5. Review the secondary property tax levy of each fire district to determine violations of section 48-807.

6. Review for accuracy the tax levy and rate as prescribed by section 15-992.

7. Review the reports made by the department concerning valuation accuracy.

8. Hold hearings to determine the adequacy of compliance with articles 2 and 3 of this chapter.

9. Upon the request of a county, city, town or community college district, hold hearings as prescribed in section 42-17004 regarding the calculation of the maximum allowable primary property tax levy limits prescribed in section 42-17051, subsection A.

B. If the commission determines that a political subdivision has violated section 15-905.01, 15-1461.01 or 42-17107 or article 2 of this chapter, that a special taxing district has violated section 48-254, that a fire district has violated section 48-807 or that a school district incorrectly calculated the tax levy and rate as prescribed by section 15-992, on or before September 15 the commission shall notify the political subdivision or district, and the county board of supervisors, in writing, of:

1. The nature of the violation.

2. The necessary adjustment to:

(a) The primary property tax levy and tax rate to comply with section 15-905.01, 15-1461.01 or 42-17107 or article 2 of this chapter.

(b) The secondary property tax levy and tax rate to comply with sections 48-254 and 48-807.

(c) For school districts, the tax levy and rate to comply with section 15-992.

C. If the commission determines that a county, city, town or community college district has levied a secondary property tax in violation of constitutional or statutory law, on or before December 31 the commission shall notify in writing the affected political subdivision, the county board of supervisors, the county attorney and the attorney general of the violation.

42-17004. Hearing and appeals of commission findings

A. If the commission notifies a political subdivision of a violation of section 15-905.01, 15-1461.01 or 42-17107 or article 2 of this chapter, notifies a special taxing district of a violation of section 48-254, notifies a fire district of a violation of section 48-807 or notifies a school district of an incorrect calculation of the tax levy and rate as prescribed by section 15-992, and the political subdivision, special taxing district or fire district disputes the commission's findings, then on or before October 1 the political subdivision, special taxing district or fire district may request a hearing before the commission to attempt to resolve the dispute.

B. A governing body of a county, city, town, community college district, school district or fire district may request a hearing before the commission regarding the calculation of the maximum allowable primary or secondary property tax levy limits prescribed in section 42-17051 or 48-807 or the calculation of the tax levy and rate as prescribed in section 15-992, as applicable. The commission may resolve any disputes.

C. The commission shall conduct the hearing as prescribed in title 41, chapter 6, article 10.

D. If the dispute is resolved at the hearing, the commission shall immediately notify the county board of supervisors of the proper primary or secondary tax levy and tax rate.

E. If a political subdivision, special taxing district or fire district continues to dispute the commission's findings after the hearing under this section, the political subdivision, special taxing district or fire district may:

1. Appeal the matter to tax court within thirty days after the commission renders the decision.

2. Levy primary or secondary property taxes in the amount that the political subdivision, special taxing district or fire district considers to be proper, pending the outcome of the appeal.

42-17005. Adjustments to levy

A. If a governing body of a political subdivision or a fire district receives written notice of a violation of its allowable levy limit or truth in taxation limit under section 42-17003, and has not appealed the commission's decision pursuant to section 42-17004, the governing body shall correct its property tax levy and tax rate to properly reflect the

allowable levy for the current year. The county board of supervisors shall make the necessary adjustments to the political subdivision's or district's property tax levy and tax rate to ensure that the corrected information is contained in the assessment and tax roll that is transmitted to the county treasurer pursuant to section 42-18003. If the governing body receives the notice after it is too late to correct the levy in the current year, the difference between the amount actually levied and the allowable property tax levy shall be set aside in a special fund and used to reduce the property taxes levied in the following year.

B. If, after a hearing under section 42-17004, the commission determines that errors were made in the calculation of the maximum allowable primary property tax levy limit pursuant to section 42-17051, subsection A, the primary property tax levy pursuant to section 15-992 or the secondary property tax levy limit pursuant to section 48-807, the commission shall have five days to notify the governing body of the county, city, town, community college district, school district or fire district of the corrected levy limit. The commission shall also notify the county board of supervisors within five days. The corrected maximum allowable primary property tax levy shall be used in section 42-17051, subsection A, paragraph 1 in determining the following year's levy limit. The corrected maximum allowable secondary property tax levy shall be used in section 48-807 in determining the following year's levy limit.

C. If, after a hearing under section 42-17004, it is impossible for the board of supervisors to correct a property tax levy in the current year, the political subdivision or fire district shall hold the difference between the amount the political subdivision or district actually levied and the allowable property tax levy prescribed by the commission in a separate fund to be used to reduce the property taxes levied by the political subdivision or district in the following year.

D. If the commission discovers that it has made an error in computing the levy limit after September 15, it shall notify the political subdivision's or fire district's governing body about the error. The error shall be corrected as prescribed in subsection A of this section. If the error results in the maximum allowable property tax levy being raised:

1. The corrected maximum allowable primary property tax levy shall be used in section 42-17051, subsection A, paragraph 1 in determining the following year's levy limit.

2. The corrected maximum allowable secondary property tax levy shall be used for the purposes of section 48-807 in determining the following year's levy limit.

E. If, on appeal under section 42-17004, subsection E, the ruling of the court provides for a property tax levy in an amount that is less than the amount levied by the political subdivision or fire district, the political subdivision or district shall hold the difference between the amounts in a separate fund to be used to reduce the property taxes levied by the political subdivision or district in the following year.

42-17051. Limit on county, municipal and community college primary property tax levy

A. In addition to any other limitation that may be imposed, a county, charter county, city, charter city, town or community college district shall not levy primary property taxes in any year in excess of an aggregate amount computed as follows:

1. Determine the maximum allowable primary property tax levy limit for the jurisdiction for the preceding tax year.

2. Multiply the amount determined in paragraph 1 of this subsection by 1.02.

3. Determine the assessed value for the current tax year of all property in the political subdivision that was subject to tax in the preceding tax year.

4. Divide the dollar amount determined in paragraph 3 of this subsection by one hundred and then divide the dollar amount determined in paragraph 2 of this subsection by the resulting quotient. The result, rounded to four decimal places, is the maximum allowable tax rate for the political subdivision.

5. Determine the finally equalized valuation of all property, less exemptions, appearing on the tax roll for the current tax year including an estimate of the personal property tax roll determined pursuant to section 42-17053.

6. Divide the dollar amount determined in paragraph 5 of this subsection by one hundred and then multiply the resulting quotient by the rate determined in paragraph 4 of this subsection. The resulting product is the maximum allowable primary property tax levy limit for the current year for all political subdivisions.

7. The allowable levy of primary property taxes for the current fiscal year for all political subdivisions is the maximum allowable primary property tax levy limit less any amounts required to reduce the levy pursuant to subsections B and C of this section.

B. Any monies that a political subdivision received from primary property taxation in excess of the sum of the amount of taxes collectible pursuant to section 42-15053, subsection G, paragraph 2 and the allowable levy determined under subsection A of this section shall be maintained in a separate fund and used to reduce the primary property tax levy in the following year. Monies that are received and that are attributable to the payment of delinquent taxes that were properly assessed in prior years shall not be applied to reduce the levy in the following year.

C. If, pursuant to section 41-1279.07, the auditor general determines that in any fiscal year a county has exceeded its expenditure limitation, the allowable levy of primary property taxes of the county determined under subsection A of this section shall be reduced in the fiscal year following the auditor general's hearing by the amount of the expenditures that exceeded the county's expenditure limitation.

D. The limitations prescribed by this section do not apply to levies made pursuant to article 5 of this chapter.

E. The levy limitation for a political subdivision is considered to be increased each year to the maximum permissible limit under subsection A of this section regardless of whether the county, city, town or district actually levies taxes in any year up to the maximum permissible amount.

F. For purposes of determining a county's levy limit under this article, remote municipal property, as defined in section 42-15251, is considered to be taxable property in the county.

42-17054. Levy limit worksheet

A. When the county assessor transmits valuations under section 42-17052, the assessor shall prepare and transmit a final levy limit worksheet to each city, town and community college district that imposes a primary property tax, to each fire district that imposes a secondary property tax and to the property tax oversight commission.

B. Each city, town, community college district and fire district shall notify the property tax oversight commission in writing within ten days of its agreement or disagreement with the final levy limit worksheet.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF REVENUE**
Title 15, Chapter 10 Articles 1-5

Summary

This Five-Year Review Report (5YRR) from the Arizona Department Revenue ("Department") covers thirty-four (34) rules in Title 15, Chapter 10, Articles 1-5 relating to the General Administration. Article 1 covers Appeal Procedures (17 rules), Article 2 covers administration (1 rule), Article 3 covers authorized transfer of funds (7 rules), Article 4 covers reimbursement of fees and other costs related to an administrative proceeding (4 rules), and Article 5 covers the electronic filing program (5 rules).

The Department has not completed the proposed course of action from their previous 5YRR, which stated that they would amend R15-10-101, R15-106, R15-10-107, R15-10-131, and R15-10-132 by September 1, 2020. The previous 5YRR was approved by the Council in February 2020. The Department indicated that the previous Course of Action was not completed because of a lack of human resources. Additionally, the Department indicated that these amendments were non-substantive and did not require immediate attention.

Proposed Action

The Department indicates that they still intend on amending the 5 rules identified in the previous reports. The Department did not provide a month or year of when they intend on completing a rulemaking.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that based on information received from Department personnel responsible for the administration of these Articles, the Department believes that the economic impacts previously projected are accurate. The rules in Chapter 10 deal with the General Administration of the Department of Revenue.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department believes that after analysis, the probable benefits of all of Chapter 10's rules within this state outweigh the probable costs and the rules impose the least burden and costs to persons regulated by them, including paperwork and other costs necessary to achieve the underlying regulatory objective.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are mostly clear, concise, and understandable but that the following 4 rules can be improved

- R15-10-101: The Department is proposing to remove the definition of "day" because the term is already defined in statute.
- R15-10-106: The Department is proposing to amend the rule relating to incomplete petitions by switching the term "dismiss" with "reject'.
- R15-10-107: The Department is proposing to amend the rule relating to timeliness of petitions by adding a reference to A.R.S. § 42-1251(B), which includes the time frame for filing a petition protesting a deficiency.
- R15-10-131: The Department is proposing to amend the rule relating to review of a decision by a hearing officer by clarifying how it is determined that a claimant receives notice.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules are generally consistent with other rules and statutes, with the exception of the R15-10-101, which includes a duplicative definition of the term day. The term does not impact enforcement of the rule.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives with the exception of R15-10-132. The Department has indicated that this rule can be improved by allowing a taxpayer to skip Director review during the appeal process. The Department has stated that the Director review increases the delay in taxpayer appeals and adds an extra unnecessary step in the appeal process.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written outside of those listed that are not compliant with statute, in which the statutes would govern.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no corresponding federal laws.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department Revenue ("Department") covers thirty-four (34) rules in Title 15, Chapter 10, Articles 1-5 concerning general administration. The Department did not complete the previous course of action as a result of lack of human resources. The Department has indicated that in this report they intend on amending 5 rules but have not provided Council staff with an expected timeframe.

The Department has not provided a course of action with a date and year in accordance with R1-6-301. Council staff recommends that the Council ask the Department to clarify when the Department intends on completing a rulemaking.

5 YEAR REVIEW REPORT

Title 15 Revenue

Chapter 10 Department of Revenue

General Administration

Articles 1, 2, 3, 4 and 5

December 31, 2024

1. **Authorization of the rule by existing statutes**

General Statutory Authority:

- A.R.S. § 42-1005
- A.R.S. § 41-1003

Specific Statutory Authority:

1. A.R.S. §§ 41-1003 and 42-1251 are the specific statutes on which the following rules are based.

R15-10-101 Definitions
R15-10-102 Scope of Article 1
R15-10-103 Taxpayer Hearing Rights
R15-10-105 Petition
R15-10-106 Incomplete Petition
R15-10-107 Timeliness of Petition
R15-10-110 Withdrawal of Petition
R15-10-115 Request for Hearings; Waiver
R15-10-116 Hearing Procedure
R15-10-117 Evidence
R15-10-119 Stipulation of Facts
R15-10-120 Official Notice
R15-10-121 Subpoena by Petitioner
R15-10-122 Transcripts and Records
R15-10-130 Decisions and Orders
R15-10-131 Review of Decision of the Hearing Officer or ALJ
R15-10-132 Appeal of the Final Order of the Department of Revenue

2. A.R.S. § 42-2056 is the specific statute on which the following rule is based.

R15-10-201 Closing Agreements Relating to Tax Liability

3. A.R.S. § 42-1129 is the specific statute on which the following rules are based.

R15-10-301 Definitions
R15-10-302 General Requirements
R15-10-303 Voluntary Participation
R15-10-304 Authorization Agreement

R15-10-305 Methods of Electronic Funds Transfer
R15-10-306 Procedures for Payment
R15-10-307 Timely Payment

4. A.R.S. § 42-2064 is the specific statute on which the following rules are based.

R15-10-401 Application for Reimbursement of Fees and Other Costs Related to an Administrative Proceeding
R15-10-402 Documentation of Payment of Fees and Other Costs
R15-10-403 Filing an Application
R15-10-404 Decisions

5. A.R.S. §§ 42-1103.03, 42-1105, 42-1105.01, 42-1105.02, and 42-1125.01 are the specific statutes on which the following rules are based.

R15-10-501 Definitions
R15-10-502 Recordkeeping Requirements
R15-10-503 Electronic Signatures for Income Tax Returns
R15-10-504 Electronic Signatures for Withholding Tax
R15-10-505 Electronic Signatures for Transaction Privilege and Use Tax
R15-10-506 Transaction Privilege and Use Tax Electronic File Bulk Transmitters

2. **The objective of each rule:**

Rule	Objective
R15-10-101	(*Definitions*) This rule defines terms used in the rules governing the Department's hearing procedures.
R15-10-102	(*Scope of Article 1*) This rule clarifies the applicability of hearing procedure rules to any administrative matter for which a formal departmental hearing is required.
R15-10-103	(*Taxpayer Hearing Rights*) This rule informs taxpayers of their right in a protest hearing to review and obtain documents applicable to their protest.
R15-10-105	(*Petition*) This rule explains how to file a petition and delineates what must be included in the petition.
R15-10-106	(*Incomplete Petition*) This rule informs taxpayers that so long as the petition is complete within the original or extended time allowed to file a petition, they may correct incomplete petitions initially filed. The Hearing Officer may grant additional time upon a showing of good cause.
R15-10-107	(*Timeliness of Petition*) This rule delineates the specific time frames for filing petitions regarding taxes administered by the Department, provides that the Hearing Officer may grant an extension of time not to exceed 60 days to file the petition, and informs taxpayers who fail to timely file the petition that they may apply for a refund after paying the assessment in full.
R15-10-110	(*Withdrawal of Petition*) This rule allows taxpayers to withdraw petitions prior to the Hearing Officer issuing a decision.
R15-10-115	(*Request for Hearings; Waiver*) This rule requires an oral hearing if requested by either the taxpayer or the Department, and delineates the actions the Hearing Officer may take if any party to the hearing fails to appear.
R15-10-116	(*Hearing Procedure*) This rule explains how a hearing may be conducted and conveys that the procedure is open and relaxed.
R15-10-117	(*Evidence*) This rule explains the types of evidence that may be presented at a hearing.

R15-10-119	(*Stipulation of Facts*) This rule allows the taxpayer and the Department to file a stipulation of facts.
R15-10-120	(*Official Notice*) This rule allows the Hearing Officer to take official notice of certain items.
R15-10-121	(*Subpoena by Petitioner*) This rule addresses the procedure for requesting a subpoena.
R15-10-122	(*Transcripts and Records*) This rule requires the Hearing Office to record all oral proceedings, allows a party to arrange for the hearing to be manually transcribed at that party's expense, requires that the party citing a transcript submit a copy of the transcript to the Department's Hearing Officer, and gives the parameters for the use of the Department's records.
R15-10-130	(*Decisions and Orders*) This rule requires the Hearing Officer to issue a written decision containing the reasons for the decision and to forward the decision to applicable parties.
R15-10-131	(*Review of Decision of the Hearing Officer or ALJ*) This rule addresses the process by which the Director may review a decision of the Hearing Officer or Administrative Law Judge.
R15-10-132	(*Appeal of the Final Order of the Department of Revenue*) This rule informs taxpayers that if they dispute the final order of the Department, they may appeal to the State Board of Tax Appeals or, if the amount in dispute is not an individual income tax dispute less than $5,000, bring an action in Tax Court.
R15-10-201	(*Closing Agreements Relating to Tax Liability*) This rule explains the application of closing agreements and addresses the procedure for entering into a closing agreement.
R15-10-301	(*Definitions*) This rule defines terms used in the rules regarding the authorized transmission of funds.
R15-10-302	(*General Requirements*) This rule specifies which taxpayers are required to remit tax payments by electronic funds transfer.
R15-10-303	(*Voluntary Participation*) This rule allows taxpayers that do not meet the tax liability threshold to voluntarily participate in or withdraw from the electronic funds transfer program.
R15-10-304	(*Authorization Agreement*) This rule requires participants in the electronic funds transfer program to complete an authorization agreement and delineates the information required in an authorization agreement.
R15-10-305	(*Methods of Electronic Funds Transfer*) This rule prescribes the methods of electronic funds transfer that are acceptable to the Department and specifies the conditions under which each method may be used.
R15-10-306	(*Procedures for Payment*) This rule prescribes the procedures for making tax payments under the automated clearing house debit method and under the automated clearing house credit method.
R15-10-307	(*Timely Payment*) This rule prescribes the procedures to follow to ensure timely payment of taxes and informs taxpayers of the penalty if payments are not timely made.
R15-10-401	(*Application for Reimbursement of Fees and Other Costs Related to an Administrative Proceeding*) This rule delineates the procedures for applying for reimbursement of fees and other costs related to an administrative proceeding.
R15-10-402	(*Documentation of Payment of Fees and Other Costs*) This rule explains what documentation a taxpayer must submit with an application for reimbursement of fees and other costs related to an administrative hearing.
R15-10-403	(*Filing an Application*) This rule explains to the taxpayer how to determine when the conclusion of administrative proceedings has occurred for purposes of filing an application for reimbursement of fees.

R15-10-404	(*Decisions*) This rule tells the taxpayer when and how the problem resolution officer will inform the taxpayer of the decision made concerning the taxpayer's application for reimbursement.
R15-10-501	(*Definitions*) This rule defines terms used in the rules regarding the electronic filing program.
R15-10-502	(*Recordkeeping Requirements*) This rule sets forth the length of time an electronic return preparer must keep the documents specified in A.R.S. § 42-1105(F).
R15-10-503	(*Electronic Signatures for Income Tax Returns*) This rule lists the methods by which an electronically filed individual income tax return may be signed by an individual taxpayer.
R15-10-504	(*Electronic Signatures for Withholding Tax*) This rule provides taxpayers with information regarding the use of the taxpayer's signature, as obtained through either the business registration process or the taxpayer service center registration process, to sign the taxpayer's withholding tax returns.
R15-10-505	(*Electronic Signatures for Transaction Privilege and Use Tax*) This rule provides taxpayers with information regarding the use of the taxpayer's signature, as obtained through either the business registration process or the taxpayer service center registration process, to sign the taxpayer's transaction privilege and use tax returns.
R15-10-506	(*Transaction Privilege and Use Tax Electronic File Bulk Transmitters*) This rule provides a taxpayer with instructions on what is required to participate in the Department's bulk electronic filing program.

3. **Are the rules effective in achieving their objectives?** **Yes____** **No X**

The rule below is not effective in meeting its stated objective.

Rule	Explanation
R15-10-132	(*Appeal of the Final Order of the Department of Revenue*). The Department proposes to amend this rule to remove R15-10-132(B) to allow a taxpayer to continue with its appeal to the Board of Tax Appeals or the Tax Court without the Director having to complete a review of the decision. This would reduce regulation and allow the taxpayer to continue with its appeal without delay.

4. **Are the rules consistent with other rules and statutes?** **Yes____** **No X**

The rule below is not consistent with other rules and statutes

Rule	Explanation
R15-10-101	(*Definitions*) The Department proposes to amend the rule to remove the definition of the term "day." This rule is considered unnecessary because the issues dealt with in the definition are already dealt with in statute. See A.R.S.§1-218 (filing by mail; date of filing) and A.R.S.§42-1105.02 (date of filing by electronic means; definition).

5. **Are the rules enforced as written?** **Yes X** **No __**

The rules are enforced as written.

6. **Are the rules clear, concise, and understandable?** **Yes___No** X

The following rules are not clear, concise, and understandable.

Rule	Explanation
R15-10-101	(*Definitions*) The Department proposes to amend the rule to remove the definition of the term "day." This definition is considered unnecessary because the issues dealt with in the definition are already addressed in statute. See A.R.S.§1-218 (filing by mail; date of filing) and A.R.S.§42-1105.02 (date of filing by electronic means; definition).
R15-10-106	(*Incomplete Petition*) The Department proposes to amend the rule to remove the term "dismiss" and replace it with the term "reject."
R15-10-107	(*Timeliness of Petition*) The Department proposes to amend rule 15-10-107(F) to include a statutory reference to A.R.S. § 42-1251(B) which prescribes the exact time for filing a petition protesting a deficiency.
R15-10-131	(*Review of Decision of the Hearing Officer or ALJ*). The Department proposes to amend the rule to add a section to clarify when a taxpayer is deemed to receive a notice and clarify when a decision is deemed to be received.

7. **Has the agency received written criticisms of the rules within the last five years?** **Yes___No** X

The Department has not received any written criticisms during the last five years of any of the rules in Chapter 10.

8. **Economic, small business, and consumer impact comparison:**

1. Rules in A.A.C. Title 15, Chapter 10, Article 1

The majority of the rules in Article 1 were adopted effective June 22, 1981. There is no available economic, small business, and consumer impact statement ("EIS") or other economic impact documentation regarding the predicted economic impact at the time of the original adoption of Article 1.

Effective December 23, 1993, Article 1 was repealed and a new article was adopted. The July 15, 1991 impact statement provided that the Department, the Attorney General, the Board of Tax Appeals, and private entities were expected to benefit from increased clarity of the hearing procedures. The Department would incur the costs of meeting Administrative Procedure Act requirements and other state agencies would incur the cost of reviewing, publishing, or obtaining copies of the rules. The impact statement stated that the Department's hearing office would experience time and cost savings in the more efficient running of hearings and in the enhanced flow of information from the taxpayer.

R15-10-131 was amended effective October 11, 1995. The proposed economic impact statement provided that the Department would incur costs meeting the Administrative Procedure Act but that the Department would benefit from having additional time to file a petition for review by the Director of the Department. The economic impact statement stated that other state agencies would incur costs noticing, obtaining copies and reviewing the proposed amendment to the rule. It was believed that private entities would incur a direct cost of obtaining copies of the new rule but would benefit from having additional time to prepare and file a petition for review of the hearing office decision to the Director.

R15-10-101, R15-10-105, R15-10-107, R15-10-117, R15-10-121, R15-10-130, R15-10-131 and R15-10-132 were amended effective January 20, 1998. In addition, R15-10-102 was repealed and a new R15-10-102 was added effective January 20, 1998. The EIS provided that the Department would incur the costs of

meeting the Administrative Procedure Act requirements and other state agencies would incur the cost of reviewing, publishing, or obtaining copies of the rules. The economic impact statement stated that rules would result in time and cost savings to the Department since it would reduce the need for Department personnel to explain to taxpayers the requirements and procedures addressed in the rules. The Department also expected taxpayers to benefit from these rules by having definitive requirements and procedures to follow when appealing a decision of the Department.

Rules 15-10-102, 15-10-105, 15-10-106, 15-10-110, 15-10-115, 15-10-116, 15-10-119, 15-10-120 and 15-10-122, were amended effective June 13, 2001. The EIS provided that the Department, the Governor's Regulatory Review Council and the Secretary of State's Office would incur costs because of the rulemaking. However, the EIS provided that the Department and public would benefit from increased clarity of the rule.

Rule R15-10-122 was amended effective January 30, 2010. The EIS stated that changes to the rule are intended to allow the Hearing Office to be efficient in the administration of hearing procedures by allowing the Hearing Office to use recording equipment other than a tape recorder. The EIS provided that the amended rule may result in time and cost savings from the use of recording devices other than outdated tape recorders.

Effective January 7, 2016 rule R15-10-105 was amended. The probable costs were minimal, if any, as the rule change required no additional hiring of Department personnel, and the benefit was found to exceed the cost as the rule change allowed for a streamlined and quicker processing of a taxpayer's assessment appeal.

Based on information received from Department personnel responsible for the administration of this Article, the Department believes that the economic impacts previously projected are accurate.

2. Rules in A.A.C. Title 15, Chapter 10, Article 2

Rule 15-10-201 was adopted effective September 16, 1987. Former Section R15-10-201 was later renumbered to R15-5-2207 and new Section R15-10-201 was renumbered from R15-2-231. R15-2-231 was adopted effective December 22, 1981. There was no EIS requirement for administrative rules adopted in 1981.

The February 11, 1994 letter to the Governor's Regulatory Review Council stated that the proposed amendment and renumbering of R15-10-201 would result in costs to the Department, the Department of Administration, the Office of the Attorney General, and the Secretary of State's Office. This statement provided that the rule making would result in clarification and guidance to the Department, private entities and taxpayers.

The EIS for the amendment of Rule 15-10-201 effective January 20, 1998 stated that the Department would incur minimal costs in meeting the Administrative Procedure Act requirements, and that the Secretary of State and other state agencies would incur minimal costs amending R15-10-201.

When Rule 15-10-201 was amended effective June 13, 2001, the EIS provided that the Department, the Governor's Regulatory Review Council, and the Secretary of State's Office would incur costs because of the rulemaking. However, the EIS provided that the Department and public would benefit from increased clarity of the rule.

Based on information received from Department personnel responsible for the administration of this Article, the Department believes that the economic impacts previously projected are accurate.

3. Rules in A.A.C. Title 15, Chapter 10, Article 3

The rules in Article 3 were adopted as a group effective July 30, 1993. At the time the rules were adopted, the Department determined that the Department would incur the costs of meeting the Administrative

Procedure Act requirements, but would have time and cost savings from relieving personnel of explaining the requirements and procedures covered in the rules to taxpayers. Other state agencies would incur the costs of reviewing, publishing, or obtaining copies of the rules. The Department estimated that private entities could incur the direct cost of obtaining copies of the new rule. The Department stated that there would be no direct or indirect costs or benefits to consumers. The Department estimated that there would be no additional reporting or compliance requirements for small businesses.

R15-10-302 and R15-10-303 were amended effective December 17, 1993. In the 1993 rules package the estimated consequences to the Department, other state agencies, private entities, consumers, and small businesses were similar to those estimated at the time the rules were originally adopted.

R15-10-302 and R15-10-303 were amended effective October 4, 1996. The Department estimated that these changes would increase the number of taxpayers using electronic funds transfer to pay corporate income and withholding taxes and that the number of taxpayers using electronic funds transfer for the additional tax types would also increase. The Department estimated the lower thresholds would result in increased cash flow of an additional day's interest with a positive impact on the general fund.

Effective June 15, 1998, R15-10-301, R15-10-303, R15-10-304, R15-10-305, R15-10-306, and R15-10-307 were amended. The Department expected that the Department would incur minimal costs in meeting the Administrative Procedure Act requirements and that other state agencies would incur minimal costs in processing the rules and obtaining copies. Private entities could also incur a minimal cost in obtaining copies of the rules and changing their processing and accounting systems.

Effective June 13, 2001, Rule 15-10-307 was amended. The EIS stated that the Department, the Governor's Regulatory Review Council, the Secretary of State and businesses would incur costs associated with the rulemaking. The Department estimated that the Department and businesses would benefit from the increased clarity of the rules regarding the Department's hearing process.

Effective July 1, 2017, rules R15-10-301, R15-10-302, R15-10-303, R15-10-303, R15-10-304, R15-10-305 and R15-10-306 were amended. The EIS found the changes resulting from the rule change did not require the Department to hire additional personnel and any costs associated with the change were minimal in comparison to the anticipated economic benefit. Accordingly, the Department anticipated the rule change benefits would exceed the costs as they lead to improved cash flows.

Effective January 1, 2018, rules R15-10-302, and R15-10-303 were amended. The EIS anticipated minimal costs to the Department, as the implementation did not require any additional personnel or capital expenditures, and only minimal costs to certain taxpayers who might be affected by the rulemaking. The Department estimated the savings in processing returns and payments and increased accuracy and efficiency, would exceed the anticipated costs.

Effective October 1, 2019, rules R15-10-301 and R15-10-532 were amended. Laws 2019, 1st Reg. Sess., Ch. 273, § 32 exempted the rulemaking package from the requirements of an EIC.

Based on information received from Department personnel responsible for the administration of this Article, the Department believes that the economic impacts previously projected are accurate.

4. Rules in A.A.C. Title 15, Chapter 10, Article 4

All the rules in Article 4 were adopted as a group effective March 13, 1998. The economic impact statement estimated minimal costs to the Department for meeting Administrative Procedure Act requirements, to other state agencies for printing and obtaining copies of the rules, and to taxpayers or consumers for obtaining copies of the rules and preparing an application, as prescribed by the rules, when the reimbursement of fees and other costs is sought. Both taxpayers or consumers and the Department benefit from time and cost savings in having definitive requirements and procedures available for those who wish to apply for

reimbursement of fees and other costs relating to administrative procedures.

Rule 15-10-401 was amended effective June 13, 2001. The EIS stated that the Department, the Governor's Regulatory Review Council, the Secretary of State and businesses would incur costs associated with the rulemaking. The Department estimated that the Department and businesses would benefit from the increased clarity of the rules regarding the reimbursement of fees and other costs related to an administrative proceeding.

Based on information received from Department personnel responsible for the administration of this Article, the Department believes that the economic impacts previously projected are accurate.

5. Rules in A.A.C. Title 15, Chapter 10, Article 5

Rule 15-10-501, R15-10-502 and R15-10-503 were adopted effective November 8, 2001. The EIS estimated that the Department would incur minimal costs in meeting the Administrative Procedure Act rulemaking requirements and in changing the instructions to the Arizona tax forms. The Department was expected to experience time and cost savings in processing electronically filed returns instead of paper tax returns. Taxpayers were expected to incur minimal costs with the adoption of these rules. The EIS stated that the Secretary of State, other state agencies and the Governor's Regulatory Review Council would incur costs in noticing, printing, reviewing and analyzing the new rules. Overall, the benefits were expected to be greater than the costs.

R15-10-501 and R15-10-502 were amended effective November 4, 2003. R15-10-504 was adopted effective November 4, 2003. The EIS provided that the Department, Governor's Regulatory Review Council and the Secretary of State would incur costs because of the rulemaking. The Department stated that Department personnel would experience time and cost savings in processing electronically filed returns because the Department would not have to process any paper documents related to the electronic return.

Effective January 7, 2016, rules R15-10-501, R15-10-502 and R15-10-504 were amended. R15-10-505 was adopted effective January 7, 2016. The EIS anticipated that the Department would bear the burden of the cost and any costs to the political subdivisions would be minimal. However, the benefits to the political subdivisions of the State and current and prospective TPT license holders outweighed any associated costs. The EIS stated that the Department would experience savings in time and costs in processing license applications with the rule changes.

Effective January 1, 2018, rule R15-10-505 was amended. The EIS anticipated minimal costs to the Department, as the implementation did not require any additional personnel or capital expenditures, and only minimal costs to certain taxpayers who might be affected by the rulemaking. The Department estimated the savings in processing returns and payments and increased accuracy and efficiency would exceed the anticipated costs.

Effective October 1, 2019, rules R15-10-501 and R15-10-502 were amended. Laws 2019, 1st Reg. Sess., Ch. 273, § 32 exempted the rulemaking package from the requirements of an EIC.

Effective December 1, 2019, rules R15-10-502 and R15-10-503 were amended. The EIS found the benefits of having a simplified procedure for both filing and processing returns which piggy backed on the federal filing authorization would exceed the costs of implementation. It was anticipated that if the new rules were not adopted, taxpayers would incur costs of increased return preparation time and the Department would incur costs of providing education and customer assistance in assisting taxpayers.

Based on information received from Department personnel responsible for the administration of this Article, the Department believes that the economic impacts previously projected are accurate.

9. **Has the agency received any business competitiveness analyses of the rules?** **Yes____ No** X

No analysis regarding the Department's general administration rules impact on business competitiveness in this state compared with the impact on businesses in other states has been submitted to the Department within the last five years.

10. **Has the agency completed the course of action indicated in the agency's previous five-year-review report?**

In the previous five year review the Department's anticipated amendments to the following five (5) rules, R15-10-101, R15-106, R15-10-107, R15-10-131 and R15-10-132 were not made. The Department did not seek an exception to the rule moratorium. The Department did not have available human resources and did not believe the proposed changes required immediate response but would change the rules when more substantive changes were necessary.

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

After analysis, the probable benefits of all of Chapter 10's rules within this state outweigh the probable costs and the rules impose the least burden and costs to persons regulated by them, including paperwork and other costs necessary to achieve the underlying regulatory objective.

12. **Are the rules more stringent than corresponding federal laws?** **Yes____** **No _X_**

The Department has determined after analysis that there are no federal laws that apply or correspond to the rules being reviewed.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:**

None of the rules being reviewed require the issuance of a regulatory permit, license or agency authorization.

14. **Proposed course of action**

The Department proposes to amend the following rules to update administrative code references, add/or delete statutory references, remove archaic language, and to update to be consistent with statute when more substantive and immediate changes to the rules are necessary.

Rules	
R15-10-101	Definitions The Department proposes to amend the rule to remove the definition of the term "day." This rule is considered unnecessary because the issues dealt with in the definition are already dealt with in statute. See A.R.S.§1-218 (filing by mail; date of filing) and A.R.S.§42-1105.02 (date of filing by electronic means; definition).
R15-10-106	Incomplete Petition The Department proposes to amend the rule to remove the term "dismiss" and replace it with the term "reject."

R15-10-107	Timeliness of Petition The Department proposes to amend rule 15-10-107(F) to include a statutory reference to A.R.S. § 42-1251(B) which prescribes the exact time for filing a petition protesting a deficiency.
R15-10-131	Review of Decision of the Hearing Officer or ALJ The Department proposes to amend the rule to add a section to clarify when a taxpayer is deemed to receive a notice and clarify when a decision is deemed to be received.
R15-10-132	Appeal of the Final Order of the Department of Revenue The Department proposes to amend this rule to remove R15-10-132(B) to allow a taxpayer to continue with its appeal to the Board of Tax Appeals or the Tax Court without the Director having to complete a review of the decision. This would reduce regulation and allow the taxpayer to continue with its appeal without delay.

Arizona Department of Revenue

FIVE-YEAR-REVIEW REPORT

Arizona Administrative Code

Title 15 Revenue
Chapter 10 Department of Revenue
General Administration

Articles 1, 2, 3, 4 and 5

December 2024

ARTICLE 1. APPEAL PROCEDURES

R15-10-101. Definitions For purposes of this Article:

1. "ALJ" means an administrative law judge who issues decisions on behalf of the Office of Administrative Hearings established by A.R.S. § 41-1092.01.
2. "Day" means a calendar day. If the last day for filing a document under the provisions of this Article falls on a Saturday, Sunday, or legal holiday, the document is considered timely if filed on the following business day.
3. "Department" means the Arizona Department of Revenue as represented by personnel of the applicable section or area.
4. "Notice" means a written notification, issued by the Department, of a tax assessment, refund denial, or any other action taken or proposed to be taken that is subject to appeal as a contested case or an appealable agency action under A.R.S Title 41, Chapter 6.
5. "Petition" means a written request for hearing, correction, or redetermination, including all applicable attachments.
6. "Petitioner" means the taxpayer or the representative of the taxpayer who files a petition.
7. "Refund denial" means a taxpayer's claim for a refund of tax, penalty, interest, or refundable credit that has been denied by the Department.
8. "Tax assessment" means any tax issue whether associated with a proposed amount due or the application of penalties and interest.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Section repealed, new Section adopted effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1).

R15-10-102. Scope of Article 1

A Department hearing officer shall conduct all hearings regarding the taxes under A.R.S. § 42-1101, unless A.R.S. § 41-1092.02 requires that an ALJ hear the matter.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Section repealed, new Section adopted effective December 23, 1993 (Supp. 93-4). Section repealed, new Section adopted effective January 20,

1998 (Supp. 98-1). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-103. Taxpayer Hearing Rights

With respect to a protest hearing, the taxpayer has the right, subject to confidentiality laws, to:

1. Review documents applicable to the protest, or
2. Obtain from the Department copies of documents relevant to the taxpayer at the discretion of the Hearing Officer.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-103 renumbered to R15-10-105, new Section R15-10-103 adopted effective December 23, 1993 (Supp. 93-4). R15-10-104. Repealed Historical Note Adopted effective June 22, 1981 (Supp. 81-3). Repealed effective December 23, 1993 (Supp. 93-4).

R15-10-105. Petition

A. A taxpayer may protest a tax assessment or a refund denial by filing a petition that includes the following:

1. The taxpayer's name, address, federal identification number, and all applicable state identification numbers;
2. An explanation of the difference between the taxpayer's name in the notice and the taxpayer's name in the petition, if applicable;
3. The last known name and address of both individuals if the petition concerns a married-filing-joint return;
4. A copy of the notice or a statement that references the:
    a. Tax type,
    b. Tax period involved,
    c. The amount of the tax assessment or refund claimed including tax, penalties, interest, and refundable credits, and
    d. The jurisdiction or jurisdictions to which the tax assessment or refund denial relates.
5. A statement of the amount of the tax assessment or refund denial being protested;

6. A statement of any alleged error committed by the Department in determining the tax assessment or refund denial being protested;

7. A statement of facts and legal arguments upon which the taxpayer relies to support the petition;

8. The relief sought;

9. The payment for all unprotested amounts of tax, interest, and penalties; and

10. The petitioner's signature.

B. A taxpayer may protest a matter other than a tax assessment or refund denial by filing a petition that includes the following:

1. The taxpayer's name, address, federal identification number, and all applicable state identification numbers;

2. An explanation of the difference between the taxpayer's name in the notice and the taxpayer's name in the petition, if applicable;

3. A copy of the notice or a statement describing the Department's action, proposed action, or determination for which a hearing is sought;

4. A statement of any alleged error committed by the Department in its action, including the jurisdiction or jurisdictions to which the alleged error relates;

5. A statement of facts and legal arguments upon which the taxpayer relies to support the petition;

6. The relief sought; and

7. The petitioner's signature.

C. The petitioner shall file the petition by:

1. Mailing the petition to the applicable section at the Department of Revenue headquarters in Phoenix, Arizona; or

2. Hand-delivering the petition to the applicable section at the Department of Revenue headquarters in Phoenix, Arizona. A petitioner who hand-delivers a petition shall clearly mark the envelope to indicate that it is a petition. The Department shall provide a receipt to a petitioner who hand-delivers a petition.

D. The Department shall not charge a fee for filing a petition or any supporting documents.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-105 renumbered to R15-10-107, new Section R15-10-105 renumbered from R15-10-103 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R.

R15-10-106. Incomplete Petition

A. The Department hearing officer may dismiss a petition for a hearing that does not contain all of the information required by R15-10-105, unless the petitioner completes the petition within the time allowed to file the petition under R15-10-107, including any extension.

B. The Department hearing officer may, on a showing of good cause by the petitioner, grant additional time to complete a timely-filed petition.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Section repealed, new Section adopted effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-107. Timeliness of Petition

A. A petition regarding taxes other than individual income tax is timely filed with the Department if it is filed as prescribed by R15-10-105(A) within 45 days after the taxpayer receives the tax assessment or refund denial from the Department.

B. A petition for an individual income tax assessment or refund denial is timely filed with the Department if it is filed as prescribed by R15-10-105(A) within 90 days after the Department mails a notice to the taxpayer.

C. A petition or an extension request filed by mail is considered filed on the date shown by its U.S. Postal Service postmark.

D. A taxpayer or the taxpayer's representative may request that the Hearing Office grant an extension of time to file a petition.

1. The taxpayer or the taxpayer's representative shall submit an extension request before the expiration of the time allowed for filing the petition in subsection (A) or subsection (B). The request shall be in writing and shall show good cause for the extension. The

Department may grant additional time not to exceed 60 days at the discretion of the Hearing Office or on stipulation of the parties.

2. If the Hearing Office does not grant the request for an extension in writing, the petition is due on the date specified in subsection (A) or (B).

E. The Hearing Office shall dismiss a petition which the Hearing Office determines is not timely filed.

F. If the taxpayer does not file a petition protesting a deficiency assessment within the time prescribed, the taxpayer may, after paying the tax assessment in full, apply for a refund according to statutory provisions.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-107 renumbered to R15-10-109, new Section R15-10-107 renumbered from R15-10-105 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1).

R15-10-115. Request for Hearings; Waiver

A. The hearing officer shall schedule an oral hearing upon request of the petitioner or the Department. If neither the petitioner nor the Department requests an oral hearing, the hearing officer shall:

1. Consider the petition submitted for decision based on the petition and any memoranda filed, or

2. Schedule an oral hearing.

B. The hearing officer may, for good cause shown by any party to the hearing, postpone, recess, or continue an oral hearing to a specified date, time, and place. The hearing officer shall notify all the parties regarding a rescheduled hearing.

C. If any party to the hearing fails to appear at the oral hearing without good cause, the hearing officer may:

1. Proceed with the hearing,

2. Reschedule the hearing, or

3. Issue a decision based on the petition and memoranda provided.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-115 renumbered to R15-10-120, new Section R15-10-115 renumbered from R15-10-109 and amended effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-116. Hearing Procedure

A. The hearing officer may hold hearings:

1. In person,
2. By telephone,
3. By the submission of memoranda, or
4. By a combination of these methods.

B. For hearings by memoranda, the hearing officer shall prescribe a schedule for the submission of the memoranda.

C. The hearing officer may:

1. Conduct the hearing in an informal manner,
2. Accept a stipulation of facts,
3. Allow any party in the hearing to make an opening statement,
4. Allow each party to state its position and present evidence,
5. Allow each party to reply to any statements or arguments, and 6. Allow any party to make closing statements or arguments.

D. The hearing officer may remand any matter to the applicable section of the Department at the request of either party or at the hearing officer's discretion.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-116 renumbered to R15-10-121, new Section R15-10-116 renumbered from R15-10-112 and amended effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-117. Evidence

A. Each party to a hearing may:

1. Call and examine witnesses,

2. Introduce exhibits,

3. Cross-examine opposing witnesses on any matter relevant to the issues even though the matter was not covered in the direct examination,

4. Dispute the testimony of any witness regardless of which party first called the witness to testify, and

5. Challenge the evidence presented.

B. The Hearing Officer shall admit any relevant evidence, but shall consider objections to the admission of and comments on the weakness of evidence in assigning weight to the evidence. The Hearing Officer may deny admission of evidence that the Hearing Officer considers irrelevant, immaterial, or unduly repetitious.

C. A party may substitute an exact copy of an original exhibit.

D. The Hearing Officer may call anyone at the hearing to testify.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-117 renumbered to R15-10-118, new Section R15-10-117 renumbered from R15-10-114 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1). R15-10-118. Expired Historical Note Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-118 renumbered to R15-10-122, new Section R15-10-118 renumbered from R15-10-117 and amended effective December 23, 1993 (Supp. 93-4). Section expired under A.R.S. § 41-1056(J) at 21 A.A.R. 1197, effective July 7, 2015 (Supp. 15-3).

R15-10-119. Stipulation of Facts

The petitioner and the Department may file a stipulation of facts stating:

1. The facts upon which they agree,

2. The facts that are in dispute, and

3. The reasons for the dispute.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Amended effective July 24, 1986 (Supp. 86-4). Former Section R15-10-119 renumbered to R15-10-130, new Section R15-10-119 renumbered from R15-10-113 and amended effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-120. Official Notice

The Department hearing officer may take official notice of the following:

1. The records that the Department maintains,

2. Tax returns filed with the Department for or on behalf of the taxpayer or any affiliated person together with related records on file with the Department, or

3. A fact that is generally known in this state or that is capable of accurate and ready determination by reference to a source whose accuracy cannot reasonably be questioned.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-120 repealed, new Section R15-10-120 adopted effective July 24, 1986 (Supp. 86-4). Former Section R15-10-120 renumbered to R15-10-131, new Section R15-10-120 renumbered from R15-10-115 and amended effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-121. Subpoena by Petitioner

A. A petitioner requesting a subpoena shall apply, to the Hearing Officer submitting a proposed subpoena at least 10 days before the hearing.

B. The Hearing Office shall not issue a subpoena for confidential or privileged information.

Historical Note

Adopted effective June 22, 1981 (Supp. 81-3). Former Section R15-10-121 repealed, new Section R15-10-121 adopted effective July 24, 1986 (Supp. 86-4). Former Section R15-10-121 renumbered to Section R15-10-132, new Section R15-10-121 renumbered from R15-10-116 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1).

R15-10-122. Transcripts and Records

A. The hearing officer shall record all oral hearings. Upon request of any party to the hearing, the hearing office shall provide a copy of the recording of the hearing, without charge, to the requesting party.

B. A party to an oral hearing may:

1. Transcribe the hearing at the party's own expense; and

2. Cite a transcript in any proceeding, if the party provides a full copy of the transcript to the opposing party and the hearing officer.

C. The petitioner shall not remove the records and files of the Department from the Department for use as evidence or other purposes. The Department shall, as permitted by law, provide a certified copy of Department records and files as requested by the petitioner for use in the proceedings. The Department shall provide the copy at a reasonable charge not to exceed the commercial rate for the service.

Historical Note

Renumbered from R15-10-118 and amended effective December 23, 1993 (Supp. 93-4). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2). Amended by final rulemaking at 15 A.A.R. 2140, effective January 30, 2010 (Supp. 09-4).

R15-10-130. Decisions and Orders

A. The Hearing Officer shall issue a written decision, which sets forth the reasons for the decision, after reviewing the evidence submitted by the petitioner and the Department.

B. A decision dismissing a petition as incomplete or not timely filed shall be based on the Hearing Officer's review of the petition, documents available, and any information officially noticed.

C. The Hearing Office shall mail the decision of the Hearing Officer, by certified mail, to the last known address of the taxpayer. The Hearing Office shall immediately forward a copy of the decision to the applicable section in the Department of Revenue and to the Director.

Historical Note

Renumbered from R15-10-119 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1).

R15-10-131. Review of Decision of the Hearing Officer or ALJ

A. The decision of the Hearing Officer or ALJ is the final order of the Department of Revenue 30 days after the taxpayer receives the decision unless prior to that time:

1. The petitioner or the Department petitions the Director to review the decision, or

2. The Director independently determines that the decision requires review.

B. The Director may grant an extension of time for filing a petition for review on a showing of good cause, if the request for an extension is in writing and is filed with the Director before the expiration of the 30-day period prescribed in subsection (A).

C. A petition or an extension request filed by mail is considered filed on the date shown by the U.S. Postal Service postmark. D. The Director may grant a review of the decision of the Hearing Officer or ALJ if one of the parties asserts that any of the following causes has materially affected the party's rights:

1. The findings of fact, conclusions of law, order, or decision are not supported by the evidence or are contrary to law;
2. The party seeking review was deprived of a fair hearing due to irregularity in the proceedings, abuse of discretion, or misconduct of the prevailing party;
3. Accident or surprise which could not have been prevented by ordinary prudence;
4. Material evidence which has been newly discovered;
5. Error in admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the action; or 6. That the decision is the result of bias or prejudice.

E. The Director may independently determine to review a decision of the Hearing Officer or ALJ if it appears that any of the causes listed in subsection (D) may have materially affected a party's rights.

F. The petition for review of the Hearing Officer's or ALJ's decision shall be in writing, shall state the grounds upon which the petition is based, and the Director may grant leave to amend the petition at any time before it is ruled upon by the Director. At the time of filing, the petitioning party shall also serve a copy of the petition on the other party.

G. If the Director has independently determined that the decision requires review, the Director shall send, by certified mail, notification of intent to review to the taxpayer, not more than 30 days after the taxpayer's receipt of the Hearing Officer's or ALJ's decision.

H. On petition for review, or on the Director's independent review:

1. The Director may open the decision of the Hearing Officer or ALJ, take additional evidence, amend findings of fact and conclusions of law, or make new findings and conclusions, and issue a new decision;

2. The Director may issue a decision that summarily affirms the decision of the Hearing Officer or ALJ; or

3. The Director may remand any matter to the Hearing Office, the Office of Administrative Hearings, or the appropriate section or area of the Department at the request of either party or at the Director's discretion.

I. The Director's decision shall be sent by certified mail to the taxpayer, at the taxpayer's last known address.

J. The taxpayer may appeal a Director's decision or a decision that is final according to subsection (A) to the State Board of Tax Appeals or tax court under R15-10-132.

Historical Note

Renumbered from R15-10-120 and amended effective December 23, 1993 (Supp. 93-4). Amended effective October 11, 1995 (Supp. 95-4). Amended effective January 20, 1998 (Supp. 98-1).

R15-10-132. Appeal of the Final Order of the Department of Revenue

A. Within 30 days of the date an order of the Department becomes final, a taxpayer disputing the final order of the Department of Revenue may:

1. File an appeal with the State Board of Tax Appeals, or

2. Bring an action in tax court, unless the case involves an individual income tax dispute of less than $5,000.

B. If the Director is reviewing the Hearing Officer's or ALJ's decision under R15-10-131, such review by the Director shall be completed before an appeal can be taken to the State Board of Tax Appeals or an action can be brought in tax court.

Historical Note

Renumbered from R15-10-121 and amended effective December 23, 1993 (Supp. 93-4). Amended effective January 20, 1998 (Supp. 98-1).

ARTICLE 2. ADMINISTRATION

R15-10-201. Closing Agreements Relating to Tax Liability

A. A closing agreement under A.R.S. § 42-1113 or A.R.S. § 42- 2056 may relate to any taxable period.

1. The Department and a taxpayer may enter into a closing agreement for:

a. A taxable period that ends before the date of the agreement that: i. Relates to one or more separate items affecting the liability of the taxpayer, or ii. Relates to the total liability of the taxpayer.

b. A taxable period that ends after the date of the agreement only if the agreement relates to one or more separate items affecting the liability of the taxpayer.

2. The Department and the taxpayer may enter into a closing agreement even if under the agreement the taxpayer is not liable for any tax for the period to which the agreement relates.

3. The Department and a taxpayer may enter into more than one closing agreement for a taxable period relating to the liability of the taxpayer.

B. A closing agreement shall be in writing and shall state the conditions of the agreement.

C. A closing agreement is not effective until it is signed by the taxpayer or an authorized representative of the taxpayer and by an authorized representative of the Department.

Historical Note

Adopted effective September 16, 1987 (Supp. 87-3). Former Section R15-10-201 renumbered to R15-5-2207 (Supp. 94-1).New Section R15-10-201 renumbered from R15-2-231 (Supp. 94-1). Amended effective January 20, 1998 (Supp. 98-1). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

ARTICLE 3. AUTHORIZED TRANSMISSION OF FUNDS

R15-10-301. Definitions In this Article:

1. “ACH” means an automated clearing house that is a central distribution and settlement point for the electronic clearing of debits and credits between financial institutions.

2. “ACH credit” means an electronic funds transfer generated by a payor, cleared through an ACH for deposit to the Department account.

3. “ACH debit” means an electronic transfer of funds from a payor’s account, as indicated on a signed authorization agreement, that is generated at a payor’s instruction on AZTaxes.gov and cleared through an ACH for deposit to the Department account.

4. “Addenda record” means the information required by the Department in an ACH credit transfer or wire transfer, in the approved electronic format prescribed in R15-10- 306(B).

5. “ALTO” is the Arizona Luxury Tax Online web site, luxury.aztaxes.gov or such other web site as the Department may determine from time to time, and means the Department’s luxury taxpayer service center web site that provides luxury taxpayers with the ability to conduct transactions, make electronic funds transfer payments and review tax account information over the internet.
6. “Authorized means of transmission” means the deposit of funds into the Department account by electronic funds transfer.
7. “AZTaxes.gov” means the Department’s taxpayer service center web site, or such other web site as the Department may determine from time to time, that provides taxpayers with the ability to conduct transactions, make electronic funds transfer payments and review tax account information over the internet.
8. “Cash Concentration or Disbursement plus” or “CCD plus” means the standardized data format approved by the National Automated Clearing House Association for remitting tax payments electronically.
9. “Department” means the Arizona Department of Revenue.
10. “EFT Program” means the payment of taxes by electronic funds transfer as specified by this Article.
11. “Electronic Funds Transfer” or “EFT” means the electronic transfer of funds from one bank account to another via computer based systems, where the person initiating the transfer orders, instructs, or authorizes a financial institution to debit or credit an account using the methods specified in these rules.
12. “Financial institution” means a state or national bank, a trust company, a state or federal savings and loan association, a mutual savings bank, or a state or federal credit union.
13. “Marketplace facilitator” has the same meaning as prescribed in A.R.S. § 42-5001.
14. “Payment information” means the data that the Department requires of a payor making an electronic funds transfer payment.
15. “Payor” means a taxpayer or payroll service.
16. “Payroll service” means a third party, under contract with a taxpayer to provide tax payment services on behalf of the taxpayer.
17. “Remote seller” has the same meaning as prescribed in A.R.S. § 42-5001.
18. “State Servicing Bank” means a bank designated under A.R.S. Title 35, Chapter 2, Article 2.

19. “Tax type” means a tax that is subject to electronic funds transfer, each of which shall be considered a separate category of payment. 20. “Wire transfer” or “Fedwire” means an instantaneous electronic funds transfer initiated by a payor.

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2). Amended by exempt rulemaking at 25 A.A.R. 3023, effective October 1, 2019 (Supp. 19-3).

R15-10-302. General Requirements

A. For tax periods beginning on or after January 1, 1997, corporations that had an Arizona income tax liability during the prior tax year of $20,000 or more shall remit Arizona estimated income tax payments by an authorized means of transmission.

B. For tax periods beginning on or after July 1, 2017, taxpayers who, under A.R.S. Title 43, Chapter 4, had an average Arizona quarterly withholding tax liability during the prior tax year of $5,000 or more shall remit Arizona withholding tax payments by an authorized means of transmission.

C. The average Arizona quarterly withholding tax liability is determined by dividing the taxpayer’s total Arizona withholding tax liability for the calendar year by 4.

D. For tax periods beginning on and after July 1, 2017, any taxpayer who under A.R.S. Title 42 Chapter 5 and Chapter 6, Articles 1 and 3, had an annual tax liability during the prior calendar year of $20,000 or more shall remit these tax payments by an authorized means of transmission.

E. For tax periods after July 1, 2015, tobacco tax taxpayers are required to remit tobacco tax payments by an authorized means of transmission.

F. Unless otherwise waived, according to A.R.S. § 42-1129, for tax periods beginning on or after the following tax years, any taxpayer, other than an individual income taxpayer, that had a tax liability equal to or more than the following amounts during the prior tax year or that can reasonably anticipate tax liability in the current tax year exceeding the following amounts, shall remit tax payments to the Department by an authorized means of transmission. For periods on or after:

1. January 1, 2018, prior tax year or expected current year tax liability of $20,000;
2. January 1, 2019, prior tax year or expected current year tax liability of $10,000;

3. January 1, 2020, prior tax year or expected current year tax liability of $5,000;

4. January 1, 2021, prior tax year or expected current year tax liability of $500.

G. For tax periods beginning on and after October 1, 2019, marketplace facilitators and remote sellers who, at the time of registering for a transaction privilege tax license, can reasonably anticipate their tax liability will exceed the thresholds detailed in subsection (F) above are required to remit any applicable taxes to the Department by an authorized means of transmission, unless granted a waiver according to A.R.S. § 42-1129.

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective December 17, 1993 (Supp. 93-4). Amended effective October 4, 1996 (Supp. 96-4). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2). Amended by final rulemaking at 23 A.A.R. 3308, effective January 1, 2018 (Supp. 17-4). Amended by exempt rulemaking at 25 A.A.R. 3023, effective October 1, 2019 (Supp. 19-3).

R15-10-303. Voluntary Participation

A. For tax periods beginning on or after January 1, 1997, a taxpayer who, during the prior tax year, had a corporate income tax liability of less than $20,000 may elect to participate in the EFT Program by submitting to the Department an electronic funds transfer authorization agreement that complies with R15-10-304.

B. For tax periods beginning on or after July 1, 2017, a taxpayer who, during the prior tax year, had an average quarterly withholding tax liability of less than $5,000 may elect to participate in the EFT Program by submitting to the Department an electronic funds transfer authorization agreement that complies with R15-10-304.

C. For tax periods beginning on and after July 1, 2017, any taxpayer who has a liquor tax liability may elect to participate in the EFT Program by submitting to the Department an electronic funds transfer authorization agreement that complies with R15-10-304.

D. For tax periods beginning on and after July 1, 2017, any taxpayer who, under Title 42 Chapter 5 and Chapter 6, Articles 1 and 3, had an annual tax liability of less than $20,000 during the prior calendar year may elect to participate in the EFT Program by submitting to the Department an electronic funds transfer authorization agreement that complies with R15-10- 304.

E. For tax periods beginning on or after January 1, 2018, any taxpayer, other than an individual income taxpayer, that does not meet the statutory requirements under A.R.S. § 42-1129 and A.A.C. R15-10-302(F) to remit tax payments to the Department electronically, may elect to participate in the EFT Program by submitting to the Department an electronic funds transfer authorization agreement that complies with R15-10- 304.

F. A taxpayer authorized to participate in the EFT Program shall provide at least 30 days prior written notice to the Department if the taxpayer elects to cease voluntary participation in the EFT Program.

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective December 17, 1993 (Supp. 93-4). Amended effective October 4, 1996 (Supp. 96-4). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2). Amended by final rulemaking at 23 A.A.R. 3308, effective January 1, 2018 (Supp. 17-4).

R15-10-304. Authorization Agreement

A. The payor shall register for an account and complete an electronic funds transfer authorization agreement on AZTaxes.gov, ALTO or ACH Credit Form prescribed by the Department, as applicable, or such other form prescribed by the Department at least 30 days prior to initiation of the first applicable transaction. The form shall include the following information:

1. Name and address of the taxpayer;
2. The taxpayer's tax identification number including a federal identification number, withholding tax identification number, transaction privilege tax identification number or other tax identification number, as appropriate;
3. Name and phone number of taxpayer's EFT contact person;
4. Name and address of any payroll service, if applicable;
5. Name and phone number of the payroll service's EFT contact person, if applicable;
6. For payments initiated on AZTaxes.gov or ALTO, the information must include the type of bank account, the bank account number and the bank routing transit number.

B. A payor shall submit a revised authorization agreement to the Department at least 30 days prior to any change in the information required in subsection (A).

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2).

R15-10-305. Methods of Electronic Funds Transfer

A. Payors shall use the ACH debit transfer method available through registration on AZTaxes.gov or ALTO to remit payment by electronic funds transfer unless the Department grants permission to use the ACH credit method.

B. The Department may authorize under a form prescribed by the Department in R15-10-304 the use of the ACH credit method for payors desiring to use this method. A payor that chooses to use the ACH credit method shall provide the payment information required in R15-10-306(B)(2).

C. The Department may withdraw permission to use the ACH credit method of payment if the payor shows disregard for the requirements and specifications of these rules by failing to:

1. Make timely electronic funds transfer payments,
2. Provide timely payment information,
3. Provide the required addenda record with the electronic funds transfer payment, or
4. Make correct payment.

D. Payors who are unable to use their established method of payment may request that the Department accept deposits to the Department account via wire transfer in accordance with the following:

1. The payor shall contact the Department, and obtain verbal approval to wire transfer the tax payment to the Department account prior to initiating the transmission.
2. Approved wire transfers shall be accompanied by an addenda record, that includes the same information required for ACH credit transfers under R15-10- 306(B)(2).

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2).

R15-10-306. Procedures for Payment

A. Payors using the ACH Debit Method shall log in to their account on AZTaxes.gov or ALTO as appropriate and, unless registering for the first time, shall arrange for electronic payment of the applicable taxes no later than the time prescribed by the AZTaxes.gov or ALTO on the last

business day before the due date of the payment. Payment information shall be communicated automatically to the Department through AZTaxes.gov or ALTO, as applicable, once payment arrangements have been made by payors and accepted by AZTaxes.gov or ALTO.

B. Payors authorized to use the ACH credit method shall initiate payment transactions directly with a financial institution in a timely manner to ensure that the payment is deposited to the Department account on or before the payment due date.

1. All ACH credit transfers shall be in the CCD-plus addenda format. Payments not in this format may be rejected.

2. The addenda format, as specified in subsection (B)(1), shall include the following information:

a. Taxpayer identification number,

b. Tax type,

c. Payment amount,

d. Tax period,

e. Taxpayer verification number,

f. Department account number, and g. American Bank Association 9-digit number of the receiving bank.

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 23 A.A.R. 1899, effective July 1, 2017 (Supp. 17-2).

R15-10-307. Timely Payment

A. A taxpayer remitting a tax payment through an electronic funds transfer shall initiate the transfer so that the payment is deposited to the Department account on or before the payment due date.

B. If a tax due date falls on a Saturday, Sunday, or legal holiday, the deposit by an electronic funds transfer shall be made no later than 5:00 p.m. on the next banking day.

C. A taxpayer required to, or who voluntarily elects to, participate in the EFT Program is subject to the penalty prescribed by A.R.S. § 42-1125(D) if the payment is not deposited to the Department account on or before the payment due date.

Historical Note

Adopted effective July 30, 1993 (Supp. 93-3). Amended effective June 15, 1998 (Supp. 98-2). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

ARTICLE 4. REIMBURSEMENT OF FEES AND OTHER COSTS RELATED TO AN ADMINISTRATIVE PROCEEDING

R15-10-401. Application for Reimbursement of Fees and Other Costs Related to an Administrative Proceeding

A. To apply for reimbursement of reasonable fees and other costs, as provided in A.R.S. § 42-2064, a taxpayer shall file a written application with the Department's problem resolution officer.

B. An application shall include the following:

1. Taxpayer's name, address, and identification number;
2. Identification of the tax type and the administrative proceeding for which reimbursement is sought;
3. An explanation of why the taxpayer alleges that the position of the Department in the administrative proceeding was not substantially justified;
4. If multiple issues were presented in the administrative proceeding and the taxpayer did not prevail on all issues, an explanation of:
    a. The issue or set of issues on which the taxpayer prevailed,
    b. The issue or set of issues on which the taxpayer did not prevail, and
    c. The issue or set of issues on which the taxpayer prevailed and why the issue or set of issues presented in the administrative proceeding is the most significant.
5. A statement that the taxpayer did not unduly and unreasonably protract the administrative proceeding for which reimbursement is sought;
6. A statement that the reason the taxpayer prevailed is not due to an intervening change in the applicable law; and
7. A detailed explanation of the nature and amount of each specific item for which reimbursement is sought.

C. An application may also include any other matters that the taxpayer wishes the Department's problem resolution officer to consider in determining whether and in what amount reimbursement should be made.

D. The taxpayer shall sign the application and verify under penalty of perjury that the information provided in the application and any accompanying material is accurate and complete.

E. If a paid representative of the taxpayer prepares the application, the representative shall also sign the application and verify under penalty of perjury that the information provided in the application and all accompanying material is accurate and complete.

F. Fees and costs incurred in making application for reimbursement or regarding an appeal of a decision for reimbursement do not relate to an administrative proceeding in connection with an assessment, determination, collection, or refund of tax and are not reimbursable.

Historical Note

Adopted effective March 13, 1998 (Supp. 98-1). Amended by final rulemaking at 7 A.A.R. 2900, effective June 13, 2001 (Supp. 01-2).

R15-10-402. Documentation of Payment of Fees and Other Costs

The taxpayer shall submit with the application documentation which shows payment of the fees and costs for which the taxpayer seeks reimbursement. The taxpayer shall submit a separate itemized statement for each firm or individual that provided services covered by the application. The itemized statement shall show the hours spent in connection with the administrative proceeding by each individual, a description of the specific services performed, and the rates used in computing each fee. Each statement shall reflect payment or the taxpayer shall attach proof of payment to the statement. Separate, itemized statements of any other costs incurred by the taxpayer, together with proof of payment, shall also accompany an application.

Historical Note

Adopted effective March 13, 1998 (Supp. 98-1).

R15-10-403. Filing an Application

A. A taxpayer shall file an application for reimbursement of fees and other costs only after the conclusion of administrative proceedings, but not later than 30 days after the conclusion of administrative proceedings.

B. For purposes of this rule, the conclusion of administrative proceedings is determined as follows:

1. For a decision of a hearing officer or administrative law judge, the conclusion of administrative proceedings occurs 30 days after the taxpayer receives the decision unless, within the 30-day period, one of the following occurs:

a. The taxpayer appeals the decision, or any part of the decision, to the State Board of Tax Appeals;

b. The taxpayer or the Department petitions the Director to review the decision, or any part of the decision;

c. The Director independently determines that the decision, or any part of the decision, requires review.

2. When a decision of a hearing officer or administrative law judge is subject to a review by the Director, the conclusion of administrative proceedings occurs 30 days after the taxpayer receives the Director's decision unless, within the 30-day period, the taxpayer appeals the decision, or any part of the decision to the State Board of Tax Appeals.

3. When a taxpayer appeals a decision, or any part of a decision, to the State Board of Tax Appeals, the conclusion of administrative proceedings occurs 30 days after the taxpayer receives the decision of the State Board of Tax Appeals.

Historical Note

Adopted effective March 13, 1998 (Supp. 98-1).

R15-10-404. Decisions

A. The Department's problem resolution officer shall issue a written decision on each application for reimbursement of fees and other costs. The problem resolution officer shall issue the decision within 30 days after receipt of the application and shall set forth the reason for the decision.

B. The problem resolution officer's decision is issued when mailed to the taxpayer's address furnished in the application.

Historical Note

Adopted effective March 13, 1998 (Supp. 98-1).

ARTICLE 5. ELECTRONIC FILING PROGRAM

R15-10-501. Definitions

In addition to the definitions provided in A.R.S. §§ 42-1101.01, 42- 1103.01, 42-1103.02, 42-1103.03, and 42-1105.02, unless the context provides otherwise, the following definitions apply to this Article and to A.R.S. Title 42, Chapter 2:

1. "AZTaxes.gov" means the Department's taxpayer service center web site that provides taxpayers with the ability to conduct transactions and review tax account information over the internet.
2. "Authorized user" means an individual, primary user, or delegate user, including a return preparer or electronic return preparer, who has been granted authority by the taxpayer, an owner of the taxpayer or an authorized officer of the taxpayer to access taxpayer information available on AZTaxes.gov.
3. "Bulk Transmitter" is an electronic return transmitter that submits multiple electronic returns, statements or other documents to the Department for filing or processing at one time.
4. "Delegate user" means a registered customer of AZTaxes.gov, other than a primary user, who is authorized by a taxpayer, an owner of the taxpayer or an authorized officer of the taxpayer to access the taxpayer's account information on AZTaxes.gov. A Delegate user who uses a PIN to sign and file transaction privilege or use tax returns on behalf of a taxpayer shall be presumed to be authorized by that taxpayer to take such action on behalf of the taxpayer.
5. "Department" means the Arizona Department of Revenue.
6. "Electronic return preparer" has the same meaning as prescribed in A.R.S. § 42-1101.01.
7. "Electronic return, statement or other document" means all data entered into a return, statement, or other document that is prepared using computer software and transmitted electronically to the Department.
8. "Electronic return transmitter" includes a person who is part of the chain of transmission of an electronic return, statement, or other document from the taxpayer or from an electronic return preparer to the Department even though the person did not receive the transmitted return, statement, or other document directly from the taxpayer or electronic return preparer.
9. "Electronic signature" has the same meaning as prescribed in A.R.S. § 18-106.

10. “License” means one or more transaction privilege, use, or withholding tax licenses or registrations obtained from the Department by completing and submitting a mail-in paper application or by completing the AZTaxes.gov registration process and, where applicable, submitting an executed AZTaxes.gov Registration Signature Card.
11. “Marketplace facilitator” has the same meaning as prescribed in A.R.S. § 42-5001.
12. “PIN” means a user-created personal identification number made up of a prescribed number of characters and used as an electronic signature to sign returns, statements or other documents submitted to the Department through AZTaxes.gov or by any other electronic means.
13. “Primary user” means the taxpayer, an owner of the taxpayer or any authorized officer of the taxpayer who registers to use AZTaxes.gov. A primary user has the unlimited ability to access the taxpayer’s online accounts, conduct online transactions for the taxpayer, designate delegate users, specify the level of access granted to a delegate user and modify or terminate the access of any delegate user.
14. “Registered customer” means any individual who has, by means of providing specific information requested by the Department through the AZTaxes.gov registration process, selected a username and password entitling that individual to conduct transactions and access information through AZTaxes.gov.
15. “Remote seller” has the same meaning as prescribed in A.R.S. § 42-5001.
16. “Return preparer” has the same meaning as prescribed in A.R.S. § 42-1101.01.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5383, effective November 8, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 5044, effective November 4, 2003 (Supp. 03-4). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 116, effective January 7, 2016 (Supp. 16-1). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 1852, effective June 24, 2016 (Supp. 16-2). Amended by exempt rulemaking at 25 A.A.R. 3023, effective October 1, 2019 (Supp. 19-3).

R15-10-502. Recordkeeping Requirements

For each electronic return of income tax or withholding tax filed with the Department, the electronic return preparer shall keep the documents listed in A.R.S. § 42-1105(F) for four years

following the later of the date on which the return was due to be filed with the Department or was presented to the taxpayer for signature.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5383, effective November 8, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 5044, effective November 4, 2003 (Supp. 03-4). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 116, effective January 7, 2016 (Supp. 16-1). Amended by final rulemaking at 25 A.A.R. 3057, effective December 1, 2019 (Supp. 19-4).

R15-10-503. Electronic Signatures for Income Tax Returns

A. If a taxpayer electronically signs the taxpayer's federal income tax return, the taxpayer may elect to use the electronic signature from the federal return to sign the taxpayer's Arizona income tax return. By electing to use the federal electronic signature for the Arizona electronic return, the taxpayer is declaring, under penalties of perjury, that the electronic return is, to the best of the taxpayer's knowledge and belief, true, correct, and complete.

B. A taxpayer makes an election under subsection (A) by doing the following:

1. If the taxpayer is preparing the taxpayer's Arizona electronic return, the taxpayer makes the election by signifying the election during the electronic filing process.

2. If the taxpayer uses an electronic return preparer to prepare the taxpayer's Arizona electronic return, the taxpayer makes the election by:

a. Signifying the election during the electronic filing process, or

b. Authorizing, in writing on a form prescribed by the Department, the electronic return preparer to make the election on behalf of the taxpayer.

C. A taxpayer that does not elect to electronically sign the taxpayer's electronic federal income tax return shall not electronically sign the taxpayer's electronic Arizona income tax return.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5383, effective November 8, 2001 (Supp. 01-4). Amended by final rulemaking at 25 A.A.R. 3057, effective December 1, 2019 (Supp. 19-4).

R15-10-504. Electronic Signatures for Withholding Tax

A. A taxpayer that has obtained a withholding tax license from the Department shall do the following to become a registered customer of the AZTaxes.gov web site:

1. Provide the following information during the AZTaxes.gov web site registration process:

a. The legal name of the registrant and any one of the following numbers:

i. The registrant's federal employer identification number, and

ii. The registrant's social security number, if the registrant is a sole proprietor, or

iii. Any other identification number assigned to the registrant by the Department or the Internal Revenue Service for the purpose of electronic filing.

b. The registrant's e-mail address,

c. Agree to the Department's Terms of Service, and

2. Submit to the Department an executed AZTaxes.gov Registration Signature Card as evidence of the following:

a. If submitted during web site registration, the information provided during the AZTaxes.gov registration process is true and correct,

b. If previously submitted, the information contained in the Arizona Joint Tax Application or submitted during the online business registration is true and correct, and

c. The signatory is duly authorized to act on behalf of the business, receive confidential information, and waive any rights of confidentiality.

B. A taxpayer that has not obtained a withholding tax license from the Department shall do the following to become a registered customer of the AZTaxes.gov web site:

1. Obtain a withholding tax license by completing either the mail-in Arizona Joint Tax Application or the online business registration,

2. Provide the following information during the AZTaxes.gov web site registration process:

a. The legal name of the registrant and any one of the following numbers:

i. The registrant's federal employer identification number,

ii. The registrant's social security number, if the registrant is a sole proprietor, or

iii. Any other identification number assigned to the registrant by the Department or the Internal Revenue Service for the purposes of electronic filing, and

3. Submit to the Department either the executed, mail-in Arizona Joint Tax Application or the AZTaxes.gov Registration Signature Card as evidence of the following:

a. If submitted during web site registration, the information provided during the AZTaxes.gov registration process is true and correct,

b. The information contained in the Arizona Joint Tax Application or submitted during the online business registration is true and correct, and

c. The signatory is duly authorized to act on behalf of the business, receive confidential information, and waive any rights of confidentiality.

C. A taxpayer or authorized user shall use the taxpayer's signature on the document submitted under subsection (B)(3) to electronically sign a taxpayer's electronic withholding tax returns. Use of the taxpayer's signature is the taxpayer's declaration, under penalties of perjury that the electronic return is, to the best of the taxpayer's knowledge and belief, true, correct, and complete.

D. To file an electronic withholding tax return under subsection (C):

1. If the taxpayer is preparing the taxpayer's electronic return, the taxpayer, shall access the AZTaxes.gov web site and electronically file the return.

2. If the taxpayer's authorized user is preparing the taxpayer's electronic return, the taxpayer shall:

a. Access the AZTaxes.gov web site and electronically file the return, or

b. Authorize, in writing on a form prescribed by the Department, the authorized user to access the taxpayer's account on the AZTaxes.gov web site and electronically file the return on behalf of the taxpayer.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5044, effective November 4, 2003 (Supp. 03-4). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 116, effective January 7, 2016 (Supp. 16-1).

R15-10-505. Electronic Signatures for Transaction Privilege and Use Tax

A. As a registrant for AZTaxes.gov, a taxpayer, primary user or delegate user shall do the following to become a registered customer of AZTaxes.gov for transaction privilege and use tax purposes:

1. Provide the registrant's legal name and e-mail address,

2. Create a unique username and password entitling the registrant access to AZTaxes.gov,

3. Select a prescribed number of security questions and submit their answers,

4. Create a PIN, and

5. Agree to the Department's Terms of Service.

B. By becoming a registered customer of AZTaxes.gov and continuing to use AZTaxes.gov, the registrant declares that:

1. The information provided during the AZTaxes.gov registration process is accurate and complete, and

2. If a mail-in paper application was previously submitted, the information contained in the application is accurate and complete.

C. A taxpayer that has not obtained a transaction privilege or use tax license from the Department shall obtain a license by completing either the mail-in paper application or the AZTaxes.gov online application. From and after January 9, 2016, a taxpayer, primary user or delegate user may use the PIN created according to subsection (A)(4) to electronically sign the taxpayer's online application.

D. A delegate user shall do the following to become associated with a taxpayer on the AZTaxes.gov web site:

1. Provide answers to prescribed questions about the taxpayer if the taxpayer has a license, or

2. Complete the online or mail-in paper application and provide answers to prescribed questions about the taxpayer.

E. If filing a taxpayer's transaction privilege or use tax return by electronic means, an authorized user shall, from and after July 5, 2016, use the authorized user's PIN to electronically sign a taxpayer's electronic transaction privilege tax or use tax returns. By using the PIN, the

authorized user declares under penalties of perjury that the electronic return is, to the best of the authorized user's knowledge and belief, true, correct, and complete.

F. To file an electronic transaction privilege or use tax return under subsection (E) above, a taxpayer, primary user, or delegate user preparing the electronic return may access AZTaxes.gov and electronically file the return after signing the return with the PIN created under subsection (A)(4).

G. From and after July 5, 2016, unless otherwise required by Article 3 of this Title and Chapter, an authorized user may pay its transaction privilege and use tax liability by electronic check.

H. For tax periods beginning on or after the following years, any taxpayer that, under A.R.S. Title 42 Chapters 5 and 6, had total annual tax liability of at least the following amounts during the prior tax year or can reasonably anticipate that its current year tax liability will exceed the following amounts, shall, unless otherwise waived according to A.R.S. § 42-5014, file the required return using an electronic filing program established by the Department. For periods on or after:

1. January 1, 2018, prior tax year or expected current year total tax liability of $20,000;

2. January 1, 2019, prior tax year or expected current year total tax liability of $10,000;

3. January 1, 2020, prior tax year or expected current year total tax liability of $5,000;

4. January 1, 2021, prior tax year or expected current year total tax liability of $500.

I. For tax periods beginning on and after October 1, 2019, marketplace facilitators and remote sellers who, at the time of registering for a transaction privilege tax license, can reasonably anticipate their tax liability will exceed the thresholds detailed in subsection (G) above shall, unless granted a waiver or if instructed to file by paper by the Department according to A.R.S. § 42-5014, file the required return using an electronic program established by the Department.

J. Any taxpayer that, under A.R.S. Title 42 Chapters 5 and 6, was required to file a return using an electronic filing program according to subsection (H) or (I) of this rule and that fails to do so after notice and demand by the Department shall, unless reasonable cause exists, be subject to the penalty imposed under A.R.S. § 42-1125(X) and (Y).

Historical Note

New Section made by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 116, effective January 7, 2016 (Supp. 16-1). Amended by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 1852, effective June 24, 2016 (Supp. 16-2). Amended by final rulemaking

at 23 A.A.R. 3308, effective January 1, 2018 (Supp. 17-4). Amended by exempt rulemaking at 25 A.A.R. 3023, effective October 1, 2019 (Supp. 19-3).

R15-10-506. Transaction Privilege and Use Tax Electronic File Bulk Transmitters

A. A transaction privilege and use tax Bulk Transmitter shall complete and submit to the Department an application to participate in the Department's bulk electronic filing program as a direct transmitter of transaction privilege or use tax returns. The application shall contain the following information:

1. The company name;

2. The product name, software ID and specifications;

3. The company's website address and IP address or addresses;

4. Contact name and information; and

5. Such other information as the Department may require to be completed from time to time in its application form.

B. As part of the application process the Bulk Transmitter shall sign a memorandum of understanding with the Department outlining the terms under which it will be allowed to transmit electronic returns directly to the Department.

C. After the application is reviewed by the Department, the Bulk Transmitter shall submit any software it created or will use for the transmittal process to the Department for testing and certification.

D. Upon certification by the Department, the Department shall issue authorization codes to the Bulk Transmitter for the purpose of accessing its servers.

Historical Note

New Section made by exempt rulemaking under Laws 2014, Ch. 263, § 25 at 22 A.A.R. 1852, effective June 24, 2016 (Supp. 16-2).

Arizona Department of Revenue

FIVE-YEAR-REVIEW REPORT

Authorizing General and Specific Arizona Revised Statutes

Title 15 Revenue
Chapter 10 Department of Revenue
General Administration

Articles 1, 2, 3, 4 and 5

December 2024

42-1005. Powers and duties of director

A. The director shall be directly responsible to the governor for the direction, control and operation of the department and shall:

1. Make such administrative rules as he deems necessary and proper to effectively administer the department and enforce this title and title 43.

2. On or before November 15 of each year issue a written report to the governor and legislature concerning the department's activities during the year. In any election year a copy of this report shall be made available to the governor-elect and to the legislature-elect.

3. On or before December 15 of each year issue a supplemental report which shall also contain proposed legislation recommended by the department for the improvement of the system of taxation in the state.

4. In addition to the report required by paragraph 2 of this subsection, on or before November 15 of each year issue a written report to the governor and legislature detailing the approximate costs in lost revenue for all state tax expenditures in effect at the time of the report. For the purpose of this paragraph, "tax expenditure" means any tax provision in state law which exempts, in whole or in part, any persons, income, goods, services or property from the impact of established taxes including deductions, subtractions, exclusions, exemptions, allowances and credits.

5. Annually, on or before January 10, prepare and submit to the legislature a report containing a summary of all the revisions made to the internal revenue code during the preceding calendar year.

6. Provide such assistance to the governor and the legislature as they may require.

7. Delegate such administrative functions, duties or powers as he deems necessary to carry out the efficient operation of the department.

B. The director may enter into an agreement with the taxing authority of any state which imposes a tax on or measured by income to provide that compensation paid in that state to residents of this state is exempt in that state from liability for income tax, the requirement for filing a tax return and withholding tax from compensation. Compensation paid in this state to residents of that state is reciprocally exempt from the requirements of title 43.

41-1003 Required rule making

Each agency shall make rules of practice setting forth the nature and requirements of all formal procedures available to the public.

42-1103.03. Suspension from electronic filing program

A. The department may suspend an electronic return preparer from participating in the electronic filing program if the department determines that the electronic return preparer has failed to comply with any of the department's electronic filing program requirements, including requirements that are set forth in rules, manuals, rulings or procedures prescribed by the department for the program.

B. Within one hundred eighty days of the mailing date of the notice of suspension from the electronic filing program, the electronic return preparer may petition the department to review the action taken pursuant to section 42-1251. The petition shall set forth the reasons why the suspension should be lifted. Within fifteen days after the request for review, the department shall determine whether the suspension should be lifted.

C. Within thirty days after the department notifies the electronic return preparer of the determination under subsection B of this section, the electronic return preparer may bring a civil action in tax court for a determination under this subsection. Within twenty days after service of process is made on the department, the tax court shall determine whether the suspension should be lifted. If the electronic return preparer requests an extension of the twenty day period and establishes reasonable grounds why an extension should be granted, the court may grant an extension of not more than forty additional days. A determination made by the tax court under this subsection is final except as provided in section 12-170, subsection C.

42-1105. Taxpayer identification, verification and records; retention

A. The federal taxpayer identification number, assigned pursuant to section 6109 of the internal revenue code, is the taxpayer identifier for purposes of the taxes administered pursuant to this article. Each person who is required to make a return, statement or other document shall include the identifier in order to secure the person's proper identification. If the return, statement or other document is made, electronically or otherwise, by another person on behalf of the taxpayer, the

taxpayer shall furnish the identifier to the other person, and the person shall furnish both the taxpayer's identifier and the person's own identifier with the return, statement or document.

B. The department may prescribe by administrative rule alternative methods for signing, subscribing or verifying a return, statement or other document required or authorized to be filed with the department that have the same validity and consequence as the actual signature or written declaration of the taxpayer or other person required to sign, subscribe or verify the return, statement or other document. While the department is adopting a rule prescribing alternative methods for signing, subscribing or verifying a return, statement or other document, the director, by tax ruling, may waive the requirement of a signature for a particular type or class of return, statement or other document required to be filed with the department. This subsection does not apply if the alternative method for signing a return, statement or other document is an electronic signature. The department shall accept or require electronic signatures in the manner prescribed in section 42-1131. For purposes of this subsection, "tax ruling" has the same meaning prescribed in section 42-2052.

C. A person who is a return preparer or an electronic return preparer shall furnish a completed copy of the return, statement or other document to the taxpayer no later than the time the return, statement or other document is presented for the taxpayer's signature.

D. Except as provided in section 42-3010, every person who is subject to the taxes administered pursuant to this article shall keep and preserve copies of filed tax returns, including any attachments to the tax return, any signature documents used for the tax return, suitable records and other books and accounts necessary to determine the tax for which the person is liable for the period prescribed in section 42-1104. The books, records and accounts shall be open for inspection at any reasonable time by the department or its authorized agent.

E. Except as provided in section 42-3010, a return preparer or electronic return preparer shall keep copies of the return, statement or other document for six years for transaction privilege and use tax returns and four years for all other returns, statements and other documents following the date on which the return, statement or other document was due to be filed or was presented to the taxpayer for signature, whichever is later.

F. Except as provided in section 42-3010, the department may require by administrative rule electronic return preparers to keep for each prepared return, statement or other document the following documents for six years for transaction privilege and use tax returns and four years for

all other returns, statements and other documents following the later of either the date on which the return, statement or other document was due to be filed with the department or was presented to the taxpayer for signature:

1. The signature document or tax return form bearing the taxpayer's original signature in a manner prescribed by the department by administrative rule or tax ruling.

2. Any attachments to the return, statement or other document required to be submitted to the department if the return, statement or other document had not been electronically transmitted to the department.

G. The operator of a swap meet, flea market, fair, carnival, festival, circus or other transient selling event shall maintain a current list of vendors conducting business on the premises as sellers. The list shall include each vendor name, business name and business address. On written notice, the department may require an operator to submit a copy of the list at any time to the department.

H. For at least the period of time prescribed by section 42-1104, the department shall retain any return, statement or other document as a record pursuant to sections 41-151.14, 41-151.15, 41-151.16, 41-151.17 and 41-151.19. Anything submitted with the return, statement or other document that is not required, authorized or requested by the department is not part of the record and may be destroyed, unless it is, at the department's reasonable discretion, of more than de minimis value. Copies of original documents of which the department reasonably expects the taxpayer has retained any originals are presumed to be of de minimis value for purposes of this section. If the department determines that any document that is not required, authorized or requested by the department pursuant to this subsection is of more than de minimis value, within ten days after receipt the department shall notify the taxpayer in writing or by electronic means of its intent to destroy the document. If the taxpayer requests the return of any document included in the notice, the department shall immediately comply, although the director may require the taxpayer to pay any shipping costs to return the document. If the taxpayer does not request the return of the documents within thirty days after the date on the notice or the taxpayer consents to the destruction of the documents, whichever occurs first, the department may destroy the documents included in the notice.

42-1105.01. Signatures; return preparers and electronic return preparers; definition

Any person who is a return preparer or an electronic return preparer shall sign the prepared return, statement or other document according to the department's administrative rules or tax rulings. For the purposes of this section, "tax ruling" has the same meaning prescribed in section 42-2052.

42-1105.02. Date of filing by electronic means; definitions

A. Any return, statement or other document that is electronically filed pursuant to an electronic filing program established by the department shall be deemed filed and received by the department on the date of the electronic postmark. If the taxpayer and the electronic return preparer or the electronic return transmitter are in different time zones, it is the taxpayer's time zone, as determined by the taxpayer's address, that controls the timeliness of the electronically filed return, statement or other document. When a return, statement or other document has been electronically received on the host system of more than one electronic return preparer or electronic return transmitter during its ultimate transmission to the department, the return, statement or other document shall be deemed filed and received by the department on the date of the earliest electronic postmark.

B. Any return, statement or other document that is filed under subsection A of this section and that is not received by the department shall be deemed filed and received on the date of the electronic filing, as evidenced by the electronic postmark if the sender:

1. Establishes the date of the electronic filing.
2. Files a duplicate filing with the department within ten days after the department notifies the sender in writing of the nonreceipt of the filing.

C. If the due date of any return, statement or other document filed under subsection A of this section falls on a Saturday, Sunday or legal holiday, the filing shall be considered timely if it is performed on the next business day.

D. In this section, unless the context otherwise requires:

1. "Electronic filing program" means any program established by the department that authorizes the electronic filing of a return, statement or other document.

2. "Electronic postmark" means a record of the date and time in a particular time zone that the return, statement or other document is electronically received on the host system of the electronic return preparer or electronic return transmitter that participates in the transmission of the electronic return, statement or other document to the department.

42-1113. Closing agreements

The department or any person authorized in writing by the department may enter into a written agreement with a taxpayer relating to the liability of the taxpayer, or relating to the liability of the person or estate for whom he acts, in respect of any tax administered pursuant to this article for any taxable period. If an agreement is approved by the department within the time stated in the agreement, or later agreed to, it is final and conclusive, except on a showing of fraud, malfeasance or misrepresentation of a material fact. The case shall not be reopened as to the matters agreed on or the agreement modified by any officer, employee or agent of this state. In any suit, action or proceeding, the agreement, or any determination, assessment, collection, payment, abatement, refund or credit made pursuant to the agreement, shall not be annulled, modified, set aside or disregarded.

42-1125.01. Civil penalties for return preparers, electronic filing and payment participants

A. If a return preparer or electronic return preparer fails to furnish a completed copy of any return, statement or other document to the taxpayer when the return, statement or other document is presented for the taxpayer's signature, the return preparer shall pay a penalty of fifty dollars unless it is shown that the failure is due to reasonable cause and not due to wilful neglect. The maximum penalty amount for a return preparer under this subsection during any calendar year shall not exceed twenty-five thousand dollars.

B. If a return preparer or electronic return preparer fails to sign any return, statement or other document, the return preparer or electronic return preparer shall pay a penalty of fifty dollars unless it is shown that the failure is due to reasonable cause and not due to wilful neglect. The maximum penalty amount for a return preparer or electronic return preparer under this subsection during any calendar year shall not exceed twenty-five thousand dollars.

C. If a return preparer or electronic return preparer fails to furnish the preparer's identifying number on any return, statement or other document, the return preparer or electronic return preparer shall pay a penalty of fifty dollars unless it is shown that the failure is due to reasonable cause and not due to wilful neglect. The maximum penalty amount for a return preparer or electronic return preparer under this subsection during any calendar year shall not exceed twenty-five thousand dollars.

D. If a return preparer or electronic return preparer fails to retain a copy of any return, statement or other document for six years for transaction privilege and use tax returns and four years for all other returns, statements or other documents following the later of either the date on which the return, statement or other document was due to be filed with the department or was presented to the taxpayer for signature, the return preparer or electronic return preparer shall pay a penalty of fifty dollars unless it is shown that the failure is due to reasonable cause and not due to wilful neglect. The maximum penalty amount for a return preparer or electronic return preparer under this subsection during any calendar year shall not exceed twenty-five thousand dollars.

E. If a return preparer or electronic return preparer fraudulently endorses or negotiates any check that is issued to a taxpayer, the return preparer or electronic return preparer shall pay a penalty of five hundred dollars.

F. An electronic return preparer or electronic return transmitter that fails to comply with any electronic filing program requirement shall pay a penalty of fifty dollars for each failure unless it is shown that the failure is due to reasonable cause and not due to wilful neglect. The maximum penalty amount for a return preparer, electronic return preparer or electronic return transmitter under this subsection during any calendar year shall not exceed twenty-five thousand dollars.

G. The penalties provided in this section are in addition to other penalties provided by law.

H. All penalties are payable on notice and demand from the department.

I. This section applies to all taxes administered by the department.

42-1129. Payment of tax by electronic funds transfer or other immediately available monies

A. The department may require by rule, consistent with the state treasurer's cash management policies, that any tax administered pursuant to this article, except for individual income tax or as required under section 42-3053, be paid on or before the payment date prescribed by law in

monies that are immediately available to this state on the date of the transfer as provided by subsection B of this section by any taxpayer that owes:

1. $20,000 or more for any taxable year beginning before January 1, 2019.
2. $10,000 or more for any taxable year beginning from and after December 31, 2018 through December 31, 2019.
3. $5,000 or more for any taxable year beginning from and after December 31, 2019 through December 31, 2020.
4. $500 or more for any taxable year beginning from and after December 31, 2020.

B. A payment in immediately available monies shall be made by electronic funds transfer, with the state treasurer's approval, that ensures the availability of the monies to this state on the date of payment.

C. A taxpayer may apply to the director, on a form prescribed by the department, for an annual waiver from the electronic payment requirement prescribed by subsection B of this section. The application must be received by the department on or before December 31. The director may grant the waiver, which may be renewed, if any of the following applies:

1. The taxpayer has no computer.
2. The taxpayer has no internet access.
3. Any other circumstance considered to be worthy by the director exists, including the taxpayer having a sustained record of timely payments and no delinquent tax account with the department.

D. The taxpayer shall furnish evidence as prescribed by the department that an electronic payment was remitted on or before the due date. For the purposes of determining the timeliness of electronic payments made under this section, an electronic payment is deemed to have been made at the date and time, consistent with section 1-242, that the taxpayer successfully authorizes the electronic funds transfer from the taxpayer's financial institution to the department as evidenced by an electronic payment confirmation issued by any of the following:

1. The department.
2. The taxpayer's financial institution.
3. A vendor certified by the department.

E. A taxpayer who is required to pay by electronic funds transfer but who fails to do so may be subject to the civil penalties prescribed by section 42-1125, subsection O.

F. A failure to make a timely payment in immediately available monies as prescribed pursuant to this section is subject to the civil penalties prescribed by section 42-1125, subsection D.

42-1251. Appeal to the department; hearing

A. Except in the case of individual income taxes, a person from whom an amount is determined to be due under article 3 of this chapter may apply to the department by a petition in writing within forty-five days after the notice of a proposed assessment made pursuant to section 42-1109, subsection B or the notice required by section 42-1108, subsection B is received, or within such additional time as the department may allow, for a hearing, correction or redetermination of the action taken by the department. In the case of individual income taxes, the period is ninety days after the date the notice is mailed. The petition shall set forth the reasons why the hearing, correction or redetermination should be granted and the amount in which any tax, interest and penalties should be reduced. If only a portion of the deficiency assessment is protested, all unprotested amounts of tax, interest and penalties must be paid at the time the protest is filed. The department shall consider the petition and grant a hearing, if requested. To represent the taxpayer at the hearing or to appear on the taxpayer's behalf is deemed not to be the practice of law.

B. Except in the case of individual income taxes, at any time during which an appeal to the department under subsection A of this section is pending, a person that has conferred with a designated appeals officer of the department to clarify any fact or legal issue in dispute and to discuss the availability of additional documentation that may assist in resolving outstanding issues may bypass the hearing process before the department's hearing officer or the office of administrative hearings and either:

1. Appeal to the state board of tax appeals by filing a notice of appeal in writing pursuant to section 42-1253, subsection A.
2. Bring an action in tax court by filing a notice of appeal in writing pursuant to section 42-1254, subsection C.

C. If the department fails to schedule a meeting within forty-five days after the time a person files a written request with the department to confer with a designated appeals officer about bypassing the hearing process before the department's hearing officer or the office of

administrative hearings, the person may bypass the meeting and appeal directly to the state board of tax appeals or bring an action in tax court.

D. If the taxpayer does not file a petition for hearing, correction, redetermination or appeal within the period provided by subsection A, B or C of this section, the amount determined to be due becomes final at the expiration of the period. The taxpayer is deemed to have waived and abandoned the right to question the amount determined to be due, unless the taxpayer pays the total deficiency assessment, including interest and penalties. The taxpayer may then file a claim for refund pursuant to section 42-1118 within six months after paying the deficiency assessment or within the time limits prescribed by section 42-1106, whichever period expires later.

E. All orders or decisions made on the filing of a petition for a hearing, correction or redetermination under subsection A of this section become final thirty days after notice has been received by the petitioner, unless the petitioner appeals the order or decision to the state board of tax appeals.

42-1253. Appeal to state board of tax appeals; definition

A. Except for the provisions of section 42-1251, subsection B and section 42-1254, subsection C that provide for an option to bypass all or part of the administrative appeals process in certain tax disputes, a person aggrieved by a final decision or order of the department under section 42-1251, article 3 of this chapter or section 42-2065, 42-2068, 42-2069, 42-2074, 42-2201 or 42-2202 may appeal to the state board of tax appeals by filing a notice of appeal in writing within thirty days after the decision or order from which the appeal is taken has become final.

B. The board shall take testimony and examine documentary evidence as necessary to determine the appeal, all pursuant to administrative rules to govern such appeals.

C. On determining the appeal the board shall issue a decision consistent with its determination. The board's decision is final on the expiration of thirty days from the date when notice of its action is received by the taxpayer, unless either the department or the taxpayer brings an action in tax court as provided in section 42-1254.

D. If the amount in any single dispute before the board is less than twenty-five thousand dollars, a taxpayer may be represented in that dispute before the board by:

1. A certified public accountant.

2. A person who is enrolled to practice before the United States internal revenue service and is recognized as an enrolled agent.
3. Any other person who is authorized by the taxpayer under a properly executed power of attorney and who was previously or is currently retained by the taxpayer for purposes other than representation in a hearing before the board.
E. If a practitioner who represents a taxpayer before the board pursuant to subsection D of this section fails to comply with an order or rule of the board, the board may impose sanctions including one or both of the following:
1. Order that the stipulation of the facts proposed by the department of revenue be accepted.
2. Suspend the practitioner from further practice before the board either for a specific period of time or until the board removes the suspension.
F. For the purposes of this section, "practitioner" means a person, other than a party, who files documents with or appears before the board in connection with a matter before the board.

42-1254. Appeal to tax court

A. The department or a taxpayer aggrieved by a decision of the state board of tax appeals may bring an action in tax court.
B. If the department is aggrieved by a decision of the board and the amount in dispute is less than five thousand dollars, the department may not bring an action in tax court unless the department determines that the decision of the board involves an issue of substantial significance to the state. A taxpayer aggrieved by a determination of the department that an issue is of substantial significance to the state may file a motion with the tax court to dismiss the action brought by the department on the grounds that the determination constitutes an abuse of discretion.
C. Except in the case of individual income tax cases in which the amount in dispute is less than five thousand dollars, a person who is aggrieved by a final decision or order of the department under section 42-1251 or article 3 of this chapter, in lieu of appealing to the state board of tax appeals under section 42-1253, may bring an action in tax court by filing a notice of appeal in writing within thirty days after the decision or order from which the appeal is taken has become final. In addition, as provided by section 42-1251, subsections B and C, a person may bypass all or part of the administrative appeals process in certain tax disputes by bringing an action in tax

court by filing a notice of appeal in writing within the time prescribed by section 42-1251, subsection B.

D. Any appeal that is taken to tax court pursuant to this section is subject to the following provisions:

1. An injunction, writ of mandamus or other legal or equitable process may not issue in an action in any court in this state against an officer of this state to prevent or enjoin the collection of any tax, penalty or interest.

2. The action shall not begin more than thirty days after the order or decision of the board or department becomes final. Failure to bring the action within thirty days after the order or decision of the board or department becomes final constitutes a waiver of the protest and a waiver of all claims against this state arising from or based on the illegality in the tax, penalties and interest at issue, except that within the time limits set forth in section 42-1106, a taxpayer who fails to bring an action within thirty days may pay the tax under protest stating the grounds of objection to the legality of the tax and then file a claim for refund of the taxes paid. The refund claim shall then be governed by section 42-1119 and this section.

3. The tax court shall hear and determine the appeal as a trial de novo.

4. Either party to such an action may appeal to the court of appeals or supreme court as provided by law.

5. If a final judgment is rendered in favor of the taxpayer in the action, the amount or such portion of the judgment as may be necessary shall first be credited to any taxes, penalties and interest due from the plaintiff taxpayer, and the amount of the balance remaining due the taxpayer shall be certified by the department of revenue to the department of administration, with a certified copy of the final judgment and a claim for refund authenticated by the department of revenue. On receipt, the department of administration shall draw a warrant payable to the taxpayer in an amount equal to the amount of the tax found by the judgment to be illegal, minus the amount of any taxes, penalties and interest due from the taxpayer. The department of administration shall draw a separate warrant payable to the taxpayer in an amount equal to the interest and other costs recovered against the department of revenue by the judgment, which shall be paid from the appropriate tax account.

42-2056. Closing agreements in cases of extensive taxpayer misunderstanding or misapplication; attorney general approval; rules; definition

A. If the department determines that noncompliance with tax obligations results from extensive misunderstanding or misapplication of provisions of this title or title 43 it may enter into closing agreements with those taxpayers under the following terms and conditions:

1. Extensive misunderstanding or misapplication of the tax laws occurs if the department determines that more than sixty per cent of the persons in the affected class have failed to properly account for their taxes owing to the same misunderstanding or misapplication of the tax laws.

2. The department shall make an initial determination as to the existence of an affected class of taxpayers. After a review of the taxpayer's request, the department may determine that there has not been an extensive misunderstanding or misapplication of the tax laws by an affected class of taxpayers. At that time, the department will notify the taxpayer that the request is denied.

3. The department shall publicly declare the nature of the possible misunderstanding or misapplication and the proposed definition of the class of affected taxpayers and shall conduct a public hearing to hear testimony regarding the extent of the misunderstanding or misapplication and the definition of the affected class. Within sixty days after close of the public hearing, the department shall notify the attendees at the public hearing and publish a public notice on its website stating whether relief will be granted.

4. If, after the public hearing, the department determines that a class of affected taxpayers has failed to comply with their tax obligations because of extensive misunderstanding or misapplication of the tax laws it shall issue a tax ruling announcing that finding and publish the ruling in a newspaper of general circulation.

5. A closing agreement under this section may abate some or all of the penalties, interest and tax that the taxpayers have failed to remit, or the agreement may provide for the prospective treatment of the matter as to the class of affected taxpayers. Notwithstanding section 42-1113, all taxpayers in the class shall be offered the opportunity to enter into a similar agreement for the same tax periods.

6. Taxpayers in the affected class who have properly accounted for their tax obligations for these tax periods shall be offered the opportunity to enter into a similar closing agreement providing

for a pro rata credit or refund of their taxes previously paid, subject to section 42-1104, subsection A and section 42-1106, subsection A.

7. The closing agreement shall require the taxpayers to properly account for and pay such taxes in the future. If a taxpayer fails to comply with that requirement, the agreement is voidable by the department and the department may assess the taxpayer for the delinquent taxes. The department may issue such a proposed assessment within six months after the date that it declares the agreement void or within the period prescribed by section 42-1104, whichever is later.

B. A person who filed a written request for relief under this section but has been denied relief as the result of the department's determination that the elements of subsection A, paragraph 3 of this section have not been established may appeal that determination pursuant to the same procedure as provided in chapter 1, article 6 of this title. A person who files an appeal under this subsection, who also has another appeal pending pursuant to chapter 1, article 6 of this title on a matter solely related to the matter at issue in the department's determination under this section, may petition the relevant appellate forum to hold that appeal in abeyance pending the resolution of the person's appeal pursuant to this section, and the agency, tribunal or court must grant the petition.

C. Before entering into closing agreements pursuant to this section, the department shall secure the approval of the attorney general of the tax ruling and the agreements. The department may not enter into the agreements without such approval from the attorney general.

D. After a closing agreement has been signed pursuant to this section, and subject to the taxpayer's compliance with the requirements of subsection A, paragraph 6 of this section, it is final and conclusive except on a showing of fraud, malfeasance or misrepresentation of a material fact. The case shall not be reopened as to the matters agreed on, and the agreement shall not be modified by any officer, employee or agent of the state. The agreement or any determination, assessment, collection, payment abatement, refund or credit made pursuant to the agreement shall not be annulled, modified, set aside or disregarded in any suit, action or proceeding.

E. The department shall report in writing its activities under this section to the governor, the president of the senate and the speaker of the house of representatives on or before February 1 of each year.

F. The department may adopt rules to implement this section.

G. For the purposes of this section, "affected class" means taxpayers who are similarly situated and directly affected by the department's position in a tax matter. For transaction privilege or use tax purposes, affected class may include taxpayers in the same industry code under the North American industrial classification system code, if applicable to the tax matter or taxpayers that directly compete with each other. For the purposes of this section, affected class shall not be broadly described unless such description increases the number of taxpayers who are eligible for relief.

42-2064. Reimbursement of fees and other costs; definitions

A. A taxpayer who is a prevailing party may be reimbursed for reasonable fees and other costs related to an administrative proceeding that is brought by or against the department in connection with an assessment, determination, collection or refund of any tax listed in section 42-1101. For the purposes of this subsection, a taxpayer is considered to be a prevailing party only if both of the following are true:

1. The department's position was not substantially justified.
2. The taxpayer prevails as to the most significant issue or set of issues.

B. Reimbursement under this section may be denied if any of the following circumstances apply:

1. During the course of the proceeding the taxpayer unduly and unreasonably protracted the final resolution of the matter.
2. The reason that the taxpayer prevailed is due to an intervening change in the applicable law.

C. The taxpayer shall present an itemization of the reasonable fees and other costs to the taxpayer problem resolution officer within thirty days after the conclusion of the administrative proceedings. The taxpayer problem resolution officer shall determine the validity of the fees and other costs within thirty days after receiving the itemization. The taxpayer problem resolution officer's decision is considered the department's final decision or order and is subject to appeal to the state board under section 42-1253.

D. The department of revenue shall pay the fees and other costs awarded as provided in this section from any monies appropriated for such purpose. If the department of revenue does not pay the fees and other costs within thirty days after demand by a person who has received an award pursuant to this section, and if no further review or appeals of the award are pending, the

person may file a claim for the fees and other costs with the department of administration, which shall pay the claim within thirty days, in the same manner as an uninsured property loss under title 41, chapter 3.1, article 1. If, at the time the department of revenue failed to pay the award, it had appropriated monies either designated or assignable for the purpose of paying such awards, the legislature shall reduce the department of revenue's operating appropriation for the following year by the amount of the award and appropriate the amount of the reduction to the department of administration, risk management division, as reimbursement for the loss.

E. Reimbursement to a taxpayer under this section shall not exceed seventy-five thousand dollars or actual monies spent, whichever is less. The reimbursable attorney or other representative fees shall not exceed three hundred fifty dollars per hour or actual monies spent, whichever is less, unless the state board of tax appeals determines that an increase in the cost of living or a special factor such as the limited availability of qualified attorneys for the proceeding involved justifies a higher fee.

F. For each calendar year beginning from and after December 31, 2015, the income dollar amounts for maximum awards made pursuant to subsection E of this section shall be adjusted by the attorney general according to the average annual change in the metropolitan phoenix consumer price index published by the United States bureau of labor statistics. The revised dollar amounts shall be raised to the nearest whole dollar. The income dollar amounts may not be revised below the amounts prescribed in the prior calendar year.

G. The department shall adopt administrative rules to implement this section.

H. Notwithstanding any provision of title 12, chapter 3, article 5, a taxpayer who is a prevailing party may only be reimbursed pursuant to this section.

I. For the purposes of this section:

1. "Administrative proceeding" means any review proceeding or appeal pursuant to section 42-1251 that is conducted under the authority of section 42-1003 and an appeal to the state board of tax appeals pursuant to section 42-1253.

2. "Reasonable fees and other costs" means fees and other costs that are based on prevailing market rates for the kind and quality of the furnished services, but not exceeding the amounts actually spent for expert witnesses, the cost of any study, analysis, report, test or project that is found to be necessary to prepare the party's case and necessary fees for attorneys or other representatives.

DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS
Title 20, Chapter 6, Article 24

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS**
Title 20, Chapter 6, Article 24

Summary

This Five-Year Review Report (5YRR) from the Arizona Department of Insurance and Financial Institutions (Department) covers six (6) rules in Title 20, Chapter 6, Article 24 related to Out of Network Claim Dispute Resolutions. Specifically, these rules cover the Surprise Billing Act.

These rules became effective on January 2, 2019 and this is the first time that a Five-Year Review Report has been completed. The Department requested a one year extension to submit the report on November 1, 2023 and that request was approved by the Council on December 5, 2024. The Department requested the extension because the Federal government approved the No Surprises Act which provides the same protections as the Arizona Surprise Billing Act. The Department requested the extension with the expectation that the rules would be unnecessary by the new due date, as a result of the subject matter being pre-empted and ultimately resulting in the rules being repealed.

Proposed Action

The Department indicates that the rules cannot be repealed right now but they should be able to repeal them within the next five years. The Department has indicated that while the

subject matter is pre-empted, there are still appeals for plans that were renewed in 2022 under the state laws. Once those appeals have been resolved then these 6 rules will be repealed.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states this is the first review of this article since its adoption in 2019. The Department is unaware of any economic impact of the rules that varies from the original economic impact statement it filed when it promulgated these rules. The rules in Chapter 6, Article 24 deals with Out-of-Network Claims Dispute resolution.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department believes the probable benefits of the rule to consumers outweigh the probable costs of the rule to insurers. The Department also believes the rule imposes the least burden and costs to regulated person by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department has indicated that the Arizona Surprise Billing Act offers the same functions and protections as the Federal No Surprises Act. Act" (Consolidated Appropriations Act, 2021, Public Law 116-260). The Department does indicate that the Arizona Act is more restrictive than the federal counterpart when it comes to appeals, which is found at A.R.S. § 20-3111 through 20-3119.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department of Insurance and Financial Institutions covers six (6) rules in Title 20, Chapter 6, Article 24 related to Out of Network Claim Dispute Resolutions, more specifically the Surprise Billing Act. The rules have not previously undergone a Five-Year Review. The Department has indicated that the Surprise Billing Act has been pre-empted by the Federal No Surprises Act, and the Department intends on repealing the rules once all pending appeals have been resolved.

The report meets the requirements of A.R.S. § 41-1056 and R1-6-301. Staff recommends approval of this report.

RE: Arizona Department of Insurance and Financial Institutions
Insurance Division ("Department")
Article 24 Out-of-Network Claim Dispute Resolution
Five-Year Review Report

Dear Chairperson Klein:

Please find enclosed the Five-Year Review Report for Article 24 (Out-of-Network Claim Dispute Resolution) being submitted by the Department which is due on January 30, 2025. This is the first review for Article 24.

The Department's due date for the original Five-Year Review Report on Article 24 was January 31, 2024. However, on November 1, 2023, the Department requested a 1-Year extension to submit the report. On December 5, 2023, the Council approved an extension to January 30, 2025.

The Department hereby certifies compliance with A.R.S. § 41-1091.

For questions about this report, please contact Mary Kosinski at (602) 364-3476 or mary.kosinski@difi.az.gov.

Sincerely,

Barbara D. Richardson

5 YEAR REVIEW REPORT

Title 20. Commerce, Financial Institutions, and Insurance

Chapter 6. Department of Insurance

Article 24. Out-of-Network Claim Dispute Resolution

January 30, 2025[1]

1. Authorization of the rule by existing statutes:

General Statutory Authority: A.R.S. § 20-143

Specific Statutory Authority: A.R.S. §§ 20-3111, 20-3112, 20-3113, 20-3114, 20-3115, and 20-3116

2. The objective of each rule:

Rule	Objective
R20-6-2401	**Definitions.** The objective of this Section is to augment the definitions found at A.R.S. § 20-3111 that relate to the Out-of-Network Claim Dispute Resolution process so that consumers may understand what qualifies as a surprise bill that can be appealed.
R20-6-2402	**Request for Arbitration.** The objective of this Section is to inform an enrollee who wishes to request arbitration of their Out-of-Network claim how to file the claim and the deadline to file their claim. This Section also outlines the Department's role in determining whether the request qualifies for arbitration. It also defines the enrollee's financial responsibility.
R20-6-2403	**Informal Settlement Teleconference.** The objective of this Section is to define the different parties' roles for participating in the informal settlement teleconference and the duties of the insurer if a settlement is reached. It also instructs the Department to arrange for the arbitration in the event the claim does not settle.
R20-6-2404	**Arbitrators.** The objective of this Section is to establish how the Department will contract with Arbitrators and their qualifications.
R20-6-2405	**Before the Arbitration.** The objective of this Section is to inform the enrollee and the insurer of their duties prior to the arbitration.

[1] The Council granted an extension to the Department to file this Five-Year Review Report for Article 24 on December 5, 2023. A.R.S. § 41-1056(F). This is the first review for this Article.

R20-6-2406	**The Arbitration.** The objective of this Section is to describe the conduct of the arbitration, the arbitrator's determination, the payment of the claim, and the costs of the arbitration. It also ensures the confidentiality of the information considered during the arbitration and the details of the report the arbitrator must submit that summarizes each arbitration.

3. Are the rules effective in achieving their objectives? **Yes _x_ No ___**

4. Are the rules consistent with other rules and statutes? **Yes _x_ No ___**

5. Are the rules enforced as written? **Yes _x_ No ___**

6. Are the rules clear, concise, and understandable? **Yes _x_ No ___**

7. Has the agency received written criticisms of the rules within the last five years?

Yes ___ No _x_

8. Economic, small business, and consumer impact comparison:

This is the first review of this Article since its adoption in 2019[2]. The Department is unaware of any economic impact of the rules that varies from the original economic impact statement it filed when it promulgated these rules.

9. Has the agency received any business competitiveness analyses of the rules?

Yes ___ No _x_

10. Has the agency completed the course of action indicated in the agency's previous five-year-review report?

Not applicable. This report is the first five-year-review of this Article. (25 A.A.R. 155, effective January 2, 2019)

11. A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:

The probable benefits of the rule to consumers outweigh the probable costs of the rule to insurers. The rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective

[2] The Department's due date for the original Five-Year Review Report on this Article was January 31, 2024. On November 1, 2023, the Department requested a 1-Year extension to submit the report. On December 5, 2023, the Council approved an extension to January 30, 2025.

12. Are the rules more stringent than corresponding federal laws? Yes _x__ No ___

In 2021, after the Department promulgated this Article, the Federal government passed the "No Surprises Act" (Consolidated Appropriations Act, 2021, Public Law 116-260). The No Surprises Act (the "Federal law") became effective for plans issued on or after January 1, 2022. The Federal law provides to consumers much of the same functions and protections of Arizona's Surprise Billing Act, A.R.S. §§ 20-3111 through 20-3119 (the "Arizona law"). However, the Arizona law is more restrictive than the Federal law for the appeals it will allow.

The Arizona law will eventually be pre-empted in its entirety by the Federal law once all potential appeals for plans renewed in 2022 are expired. Pre-emption of the Arizona law will make the Surprise Billing statutes and rules obsolete.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

Not applicable. Article 24 does not require the issuance of a regulatory permit.

14. Proposed course of action:

Because the Department anticipates that these rules will eventually be preempted in their entirety by the federal scheme, the only course of action it proposes is to repeal the rules once the statutory sections are repealed. The Department anticipates this to occur before the next Five-Year Review Report is due to the Council in 2029.

liminary justification supporting the rate increase; and

b. Prominently post on its website, on a form and in the manner prescribed by the Secretary under 45 CFR 154.230 the following information:
   i. The Department's determination that the rate increase is unreasonable and Department's explanation of the Department's analysis of the relevant factors set forth in R20-6-2305(A)(1) and (2), and
   ii. The health insurer's final justification for implementing the rate increase.

c. Continue to make the information in subsection (3)(b) available to the public on its website for at least three years.

Historical Note

New Section made by final rulemaking at 18 A.A.R. 2721, effective October 3, 2012 (Supp. 12-4).

R20-6-2305. Threshold Rate Increase Documentation Requirements

A. For a threshold rate increase, a health insurer shall submit to the Department documentation that is sufficient to allow the Department to assess:
1. The reasonableness of the assumptions used by the health insurer to develop the proposed rate increase and the validity of the historical data underlying the assumptions, and
2. The health insurer's data related to past projections and actual experience.

B. To the extent applicable to the submission under review by the Department, the health insurer shall submit documentation that includes all of the following:
1. The impact of medical trend changes by major service categories;
2. The impact of utilization changes by major service categories;
3. The impact of cost-sharing changes by major service categories, including actuarial values;
4. The impact of geographic factors and variations;
5. The impact of changes to all plans within the single risk pool product;
6. The impact of reinsurance and risk adjustment payments and changes;
7. The impact of benefit changes;
8. The impact of changes in enrollee risk profile;
9. The impact of any overestimate or underestimate of medical trend for prior year periods related to the rate increase;
10. The impact of changes in reserve needs;
11. The impact of changes in administrative costs related to programs that improve health care quality;
12. The impact of changes in other administrative costs;
13. The impact of changes in applicable taxes, licensing or regulatory fees;
14. Medical loss ratio;
15. The health insurer's capital and surplus; and
16. Other relevant documentation at the discretion of the Director.

C. A health insurer shall submit all documentation required under subsection (A) or (B) at the same time that:
1. The health insurer submits the preliminary justification required under R20-6-2302, or
2. The health insurer submits any new preliminary justification required under R20-6-2304(2)(b) and (c).

Historical Note

New Section made by final rulemaking at 18 A.A.R. 2721, effective October 3, 2012 (Supp. 12-4). Section amended by final rulemaking at 30 A.A.R. 3767 (December 13, 2024), effective February 3, 2025 (Supp. 24-4).

ARTICLE 24. OUT-OF-NETWORK CLAIM DISPUTE RESOLUTION

R20-6-2401. Definitions

The definitions in A.R.S. § 20-3111 and this Section apply to this Article.
1. "Allowed Amount" is the amount reimbursable for a covered service under the terms of the enrollee's benefit plan. The allowed amount includes both the amount payable by the insurer and the amount of the enrollee's cost sharing requirements.
2. "Alternative Arbitrator" is an individual who is mutually agreeable to the health insurer and health care provider to act as the arbitrator of a surprise out-of-network billing dispute. If the person is contracted with the State of Arizona to conduct arbitration proceedings, the provisions of that contract shall apply. Department staff may not serve as an Alternative Arbitrator.
3. "Amount of the enrollee's cost sharing requirements" means the amount determined by the insurer prior to the dispute resolution process to be owed by the enrollee for out-of-network copayment, coinsurance and deductible pursuant to the enrollee's health care policy.
4. "Arbitrator" has the same meaning as A.R.S. § 20-3111(2) and may include a mediator, arbitrator or other alternative dispute resolution professional who is contracted with the Department to arbitrate a surprise out-of-network billing dispute. Department staff may not serve as an Arbitrator.
5. "A.R.S. § 20-3113 Disclosure" means a written, dated document that contains the following information:
   a. The name of the billing health care provider;
   b. A statement that the health care provider is not a contracted provider;
   c. The estimated total cost to be billed by the health care provider or the provider's representative for the health care services being provided;
   d. A notice that the enrollee or the enrollee's authorized representative is not required to sign the A.R.S. § 20-3113 Disclosure to obtain health care services;
   e. A notice that if the enrollee or the enrollee's authorized representative signs the A.R.S. § 20-3113 Disclosure, they may have waived any rights to request arbitration of a qualifying surprise out-of-network bill.
6. "Balance bill" means all charges that exceed the enrollee's cost sharing requirements and the amount paid by the insurer.
7. "Date of service" means the latest date on which the health care provider rendered a related health care service that is the subject of a qualifying surprise out-of-network bill.
8. "Days" as used in this Article means calendar days unless specified as business days and does not include the day of the filing of a document.

9. "Department" means the Arizona Department of Insurance and Financial Institutions or an entity with which it contracts to administer the out-of-network claim dispute resolution process.
10. "Enrollee's authorized representative" means a person to whom an enrollee has given express written consent to represent the enrollee, the enrollee's parent or legal guardian, a person appointed by the court to act on behalf of the enrollee or the enrollee's legal representative. An enrollee's authorized representative shall not be someone who represents the provider's interests.
11. "Final resolution of a health care appeal" means that a member has a final decision under the review process provided by A.R.S. Title 20, Chapter 15, Article 2.
12. "Informal Settlement Teleconference" means a teleconference arranged by the Department that is held to settle the enrollee's qualifying surprise out-of-network bill prior to an Arbitration being scheduled. The parties to the Informal Settlement Teleconference are: (a) the enrollee or the enrollee's authorized representative; (b) the health insurer; and (c) the provider or the provider's representative.
13. "Qualifying surprise out-of-network bill" is a surprise out-of-network bill for health care services provided on or after January 1, 2019, that is disputed by the enrollee and:
    a. Is for health care services covered by the enrollee's health plan;
    b. Is for health care services provided in a network health care facility;
    c. Is for health care services performed by a provider who is not contracted to participate in the network that serves the enrollee's health plan;
    d. The enrollee has resolved any health care appeal pursuant to A.R.S. Title 20, Chapter 15, Article 2, that the enrollee may have had against the insurer following the health insurer's initial adjudication of the claim;
    e. The enrollee has not instituted a civil lawsuit or other legal action against the insurer or health care provider related to the surprise out-of-network bill or the health care services provided;
    f. The amount of the surprise out-of-network bill for which the enrollee is responsible for all related health care services provided by the health care provider whether contained in one or multiple bills, after deduction of the enrollee's cost sharing requirements and the insurer's allowable reimbursement, is at least $1,000.00; and
    g. One of the following applies:
        i. The bill is for emergency services, including under circumstances described by A.R.S. § 20-2803(A);
        ii. The bill is for health care services directly related to the emergency services that are provided during an inpatient admission to any network facility;
        iii. The bill is for a health care service that was not provided in the case of an emergency and the health care provider or provider's representative did not provide the enrollee a written dated A.R.S. § 20-3113 Disclosure:
        iv. The bill is for a health care service that was not provided in the case of an emergency and the health care provider or provider's representative did not provide the enrollee a written dated A.R.S. § 20-3113 Disclosure within a reasonable amount of time before the enrollee received the service;
        v. The bill is for a health care service that was not provided in the case of an emergency and the health care provider or provider's representative provided the enrollee a written dated A.R.S. § 20-3113 Disclosure ("Disclosure") and the enrollee or the enrollee's authorized representative chose not to sign the Disclosure;
        vi. The bill is for a health care service that was not provided in the case of an emergency and the health care provider or provider's representative provided the enrollee a written dated A.R.S. § 20-3113 Disclosure ("Disclosure") and the enrollee or the enrollee's authorized representative signed the Disclosure but the amount actually billed to the enrollee is greater than the estimated cost provided in the signed Disclosure.

Historical Note

New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1). Section amended by final rulemaking at 29 A.A.R. 3621 (November 24, 2023), effective January 7, 2024 (Supp. 23-4). Effective date corrected (Supp. 23-4, Ver. 2).

R20-6-2402. Request for Arbitration

A. Request for Arbitration. An enrollee may request dispute resolution of a surprise out-of-network bill by filing a timely Request for Arbitration with the Department on a Request for Arbitration form available on the Department's website.

B. Deadline for filing a Request for Arbitration with the Department. A Request for Arbitration must be received by the Department within one year after the date of service listed on the surprise out-of-network bill. If the enrollee filed a health care appeal pursuant to A.R.S. Title 20, Chapter 15, Article 2, the one year deadline is tolled from the date the enrollee filed the health care appeal to the date of the final resolution of the appeal.

C. Evaluation of the Request for Arbitration by the Department. Within 15 days after receipt of a Request for Arbitration, the Department shall do one of the following:
1. Determine that the surprise out-of-network bill is a qualifying surprise out-of-network bill and notify the enrollee, health insurer and health care provider that the Request for Arbitration qualifies for Arbitration;
2. Determine that the surprise out-of-network bill is not a qualifying surprise out-of-network bill and notify the enrollee of the reason for the Department's determination;
3. Determine that the Request for Arbitration is incomplete; or
4. Return the Request for Arbitration to the enrollee without making a determination if the enrollee's request should instead be filed as a health care appeal within the meaning of A.R.S. Title 20, Chapter 15, Article 2.

D. Request for additional information for an incomplete Request for Arbitration. If the Department determines that the Request for Arbitration is incomplete, the Department may send a written request for additional information to the enrollee, health

insurer, health care provider or health care provider's billing company.

E. Time to respond to the Department's Request for Additional Information. The enrollee, health insurer, health care provider or the health care provider's billing company shall have 15 days from the date of the request to respond to the Department's Request for Additional Information.

F. Failure to respond to the Department's Request for Additional Information.
1. If the enrollee fails to respond to the Department's Request for Additional Information, the Department shall deny the enrollee's Request for Arbitration.
2. If either the health insurer or the health care provider or health care provider's billing company fail to respond to the Department's Request for Additional Information, the Department shall deem that the enrollee's Request for Arbitration qualifies for arbitration.

G. Receipt of Additional Information. Upon receipt of the additional information requested by the Department under subsection (D) of this Section, the Department shall determine, within seven days, whether the enrollee's Request for Arbitration qualifies for Arbitration and send the notice required under subsection (C)(1) or subsection (C)(2) of this Section, whichever applies.

H. Final Determination. The Department's determination whether an enrollee's Request for Arbitration qualifies for Arbitration is a final decision and not an appealable agency action within the meaning of A.R.S. § 41-1092(3). A claim that is the subject of a qualifying surprise out-of-network bill is not subject to the timely payment of claims law during the pendency of the Arbitration.

I. Enrollee's payment responsibility.
1. Notwithstanding any informal settlement or Arbitrator's Final Written Decision, the enrollee is responsible for only the following:
   a. The amount of the enrollee's cost sharing requirements; and
   b. Any amount received by the enrollee from the enrollee's health insurer as payment for the health care services at issue in a qualifying surprise out-of-network bill.
2. A health care provider may not issue, either directly or indirectly through its billing company, any additional balance bill to the enrollee for the same health care services.

Historical Note
New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1).

R20-6-2403. Informal Settlement Teleconference

A. Deadline to arrange the Informal Settlement Teleconference. Upon a determination that an enrollee has made a Request for Arbitration that qualifies for Arbitration, the Department shall arrange an Informal Settlement Teleconference between the parties within 30 days of notifying the enrollee that the enrollee's Request for Arbitration qualifies for Arbitration required by Section R20-6-2402(C)(1).

B. Notice of Informal Settlement Teleconference. At least 14 days prior to the scheduled date, the Department shall send a Notice of Informal Settlement Teleconference to the enrollee, the enrollee's authorized representative, the health insurer, the health care provider and the health care provider's representative informing them of the date, time and instructions on how to participate in the Informal Settlement Teleconference.

C. Health Insurer documentation. On or before the Informal Settlement Teleconference, the health insurer shall provide to the parties the enrollee's cost sharing requirements under the enrollee's health plan based on the qualifying surprise out-of-network bill.

D. Consequences of non-participation in the Informal Settlement Teleconference. If a party fails to participate in the Informal Settlement Teleconference, it shall be subject to the following consequences:
1. If the health insurer, provider or provider's representative fails to participate in an Informal Settlement Teleconference scheduled by the Department, the participating party may notify the Department which shall promptly schedule the Arbitration. The non-participating party shall pay the entire cost of the Arbitration.
2. If the enrollee or the enrollee's authorized representative fails to participate in the original Informal Settlement Teleconference, the original Informal Settlement Teleconference is terminated.
3. If the enrollee or the enrollee's authorized representative fails to participate in a rescheduled Informal Settlement Teleconference, the enrollee's Request for Arbitration is terminated.

E. One-time opportunity for the enrollee to reschedule the Informal Settlement Teleconference. If the enrollee or the enrollee's representative fails to participate in the Informal Settlement Teleconference originally scheduled by the Department, the enrollee may request that the Department reschedule the Informal Settlement Conference. The enrollee's request to reschedule must be received by the Department within 14 days after the originally scheduled Informal Settlement Teleconference. Failure to submit a request to the Department to reschedule the Informal Settlement Teleconference within the 14 day period terminates the enrollee's Request for Arbitration.

F. Notification to the Department after the Informal Settlement Teleconference. Within seven days after the date of the Informal Settlement Teleconference, the health insurer shall:
1. Notify the Department whether a settlement was reached between the parties; and
2. If a settlement was reached, notify the Department of the terms of the settlement on a form prescribed by the Department.

G. Failure to settle. If the parties fail to settle the qualifying surprise out-of-network bill at the Informal Settlement Teleconference, the Department shall arrange for the Arbitration.

H. Settlement. If the parties settle the qualifying surprise out-of-network bill at the Informal Settlement Teleconference, the health insurer shall remit its portion of the payment to the health care provider within 30 days after the Informal Settlement Teleconference. A claim that is reprocessed by a health insurer as a result of informal settlement is not in violation of A.R.S. § 20-3102(L).

Historical Note
New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1).

R20-6-2404. Arbitrators

A. Contracted entities. The Department shall contract with one or more persons to provide Arbitrators. The Department must have a list of at least four Arbitrators to assign to Arbitrations. The Department shall publish the list of contracted entities and a list of each entity's qualified Arbitrators on its website.

B. Arbitrator Qualifications. Any person contracting with the Department must be able to provide Arbitrators who possess at least three years of experience in health care services claims.

C. Alternative Arbitrators. A health insurer and provider may mutually agree to use an Alternative Arbitrator if either the health insurer or the health care provider objects to an Arbitrator appointed by the Department.

D. Appointment of an Arbitrator.
1. The Department shall appoint an Arbitrator for each Arbitration.
2. If the health insurer and health care provider do not agree to the Arbitrator appointed by the Department, they shall either:
   a. Mutually agree to use an Alternative Arbitrator; or
   b. Participate in the following procedure:
      i. The Department shall assign three Arbitrators.
      ii. The health insurer shall strike one Arbitrator.
      iii. The health care provider shall strike one Arbitrator.
      iv. If one Arbitrator remains, the Department shall appoint the remaining Arbitrator to the Arbitration.
      v. If the health insurer and health care provider strike the same Arbitrator, the Department shall randomly assign the Arbitrator from the remaining two Arbitrators.

Historical Note
New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1).

R20-6-2405. Before the Arbitration

A. Enrollee's duties. Before the Arbitration, the enrollee shall:
1. Pay or make arrangements in writing to pay to the health care provider the amount stated by the health insurer in the Informal Settlement Teleconference which shall be the total amount of the enrollee's cost sharing requirements due for the health care services that are the subject of the qualifying surprise out-of-network bill.
2. Pay to the health care provider any amount that the enrollee has received from the health insurer as payment for the health care services that are the subject of the qualifying surprise out-of-network bill.

B. Health insurer's duties. Before the Arbitration, the health insurer shall remit any amount due to the health care provider if the health care insurer pays for out-of-network services directly to health care providers and the health insurer has not remitted any amounts due.

Historical Note
New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1).

R20-6-2406. The Arbitration

A. Conduct of Arbitration. An Arbitration of a qualifying out-of-network surprise bill shall be conducted:
1. Telephonically unless the parties agree otherwise;
2. With or without the enrollee's participation;
3. Within 120 days after the Department's Notice of Arbitration unless agreed otherwise by the parties; and
4. For a maximum duration of four hours unless agreed otherwise by the parties.

B. Arbitrator's Determination. The Arbitrator or Alternative Arbitrator shall determine the amount the health care provider is entitled to receive as payment for the health care services that are the subject of the qualifying surprise out-of-network bill.

C. Allowable Evidence. The Arbitrator or Alternative Arbitrator shall allow each party to provide relevant information for evaluating the qualifying surprise out-of-network bill including:
1. The average contracted amount that the health insurer pays for the health care services at issue in the county where the health care provider performed the health care services;
2. The average amount that the health care provider has contracted to accept for the health care services at issue in the county where the health care provider performed the services;
3. The amount Medicare and Medicaid pay for the health care services at issue;
4. The health care provider's direct pay rate for the health care services at issue, if any, under A.R.S. § 32-3216;
5. Any information that would be evaluated in determining whether a fee is reasonable under title 32 and not excessive for the health care services at issue, including the usual and customary charges for the health care services at issue performed by a health care provider in the same or similar specialty and provided in the same geographic area; and
6. Any other reliable sources of information, including databases, that provide the amount paid for the health care services at issue in the county where the health care provider performed the services.

D. Final Written Decision. Within 10 business days following the Arbitration, the Arbitrator or Alternative Arbitrator shall issue a Final Written Decision and provide a copy to the enrollee, the health insurer, the health care provider, the health care provider's billing company (if applicable) and the health care provider's authorized representative (if applicable).

E. Payment of the claim. The health insurer shall remit its portion of the payment awarded by the Arbitrator or Alternative Arbitrator to the health care provider within 30 days of the date of the Final Written Decision. A claim that is reprocessed by a health insurer as a result of the Arbitration is not in violation of A.R.S. § 20-3102(L).

F. Payment of the Costs of Arbitration. The health insurer and health care provider shall make payment arrangements with the Arbitrator or Alternative Arbitrator to pay their respective shares of the costs of the Arbitration within 30 days after the date of the Final Written Decision. The respective shares of the costs of Arbitration are determined as follows:
1. The enrollee is not responsible for any portion of the cost of the Arbitration.
2. The health insurer and the health care provider shall share the costs of the Arbitration equally unless one of the following exceptions applies:
   a. The health insurer and health care provider agree to share the costs of the Arbitration in non-equal portions.
   b. The health insurer pays the entire cost of the Arbitration for failing to participate in the Informal Settlement Teleconference after receiving proper notice from the Department.
   c. The health care provider or the health care provider's representative pays the entire cost of the Arbitration for failing to participate in the Informal Settlement Teleconference after receiving proper notice from the Department.

G. Confidentiality. In connection with the Arbitration of a qualifying surprise out-of-network bill, all of the following apply:

1. All pricing information provided by a health insurer or health care provider is confidential.
2. Pricing information provided by a health insurer or health care provider may not be disclosed by the Arbitrator, Alternative Arbitrator or any other party participating in the Arbitration.
3. Pricing information provided by a health insurer or health care provider may not be used by anyone, except the party providing the information, for any purpose other than to resolve the qualifying surprise out-of-network bill.
4. All information received by the Department in connection with the Arbitration is confidential and may not be disclosed to any person except the Arbitrator or Alternative Arbitrator.

H. Arbitrator's Report. At the conclusion of each Arbitration, the Arbitrator shall produce a report to the Department that contains the following information:

1. Date of Arbitration;
2. Date the Arbitrator issued the Final Written Decision;
3. Whether the parties settled the qualifying surprise out-of-network bill during the Arbitration;
4. The initial amount billed by the health care provider;
5. The payment amount awarded to the health care provider; and
6. Any other information the Department may request an Arbitrator to report prior to an Arbitration.

Historical Note

New Section made by exempt rulemaking at 25 A.A.R. 155, effective January 2, 2019 (Supp. 19-1).

20-143. Rule-making power

A. The director may make reasonable rules necessary for effectuating any provision of this title.

B. The director shall make rules concerning proxies, consents or authorizations in respect of securities issued by domestic stock insurance companies having a class of equity securities held of record by one hundred or more persons to conform with the requirements of section 12(g)(2)(G)(ii) of the securities exchange act of 1934, as amended, and as may be amended. Such rule shall not apply to any such company having a class of equity securities which are registered or are required to be registered pursuant to section 12 of the securities exchange act of 1934, as amended, or as may be amended. Whenever such equity securities of any such company are registered or are required to be registered pursuant to section 12 of the securities exchange act of 1934, as amended, or as may be amended, then, no person shall solicit or permit the use of his name to solicit, in any manner whatsoever, any proxy, consent or authorization in respect of any equity security of such company without having first complied with the rules prescribed by the securities and exchange commission pursuant to section 14 of the securities exchange act of 1934, as amended, or as may be amended.

C. All rules made pursuant to this section shall be subject to title 41, chapter 6.

D. In addition to any other penalty provided, wilful violation of any rule made by the director is a violation of this title.

20-3111. Definitions

In this article, unless the context otherwise requires:

1. "Arbitration" means a dispute resolution process in which an impartial arbitrator determines the dollar amount a health care provider is entitled to receive for payment of a surprise out-of-network bill.

2. "Arbitrator" means an impartial person who is appointed to conduct an arbitration.

3. "Billing company" means any affiliated or unaffiliated company that is hired by a health care provider or health care facility to coordinate the payment of bills with health insurers and to generate or bill and collect payment from enrollees on the health care provider's or health care facility's behalf.

4. "Contracted provider" means a health care provider that has entered into a contract with a health insurer to provide health care services to the health insurer's enrollees at agreed on rates.

5. "Cost sharing requirements" means an enrollee's applicable out-of-network coinsurance, copayment and deductible requirements under a health plan based on the adjudicated claim.

6. "Emergency services" has the same meaning prescribed in section 20-2801.

7. "Enrollee" means an individual who is eligible to receive benefits through a health plan.

8. "Health care facility" has the same meaning prescribed in section 36-437.

9. "Health care provider" means a person who is licensed, registered or certified as a health care professional under title 32 or a laboratory or durable medical equipment provider that furnishes services to a patient in a network facility and that separately bills the patient for the services.

10. "Health care services" means treatment, services, medications, tests, equipment, devices, durable medical equipment, laboratory services or supplies rendered or provided to an enrollee for the purpose of diagnosing, preventing, alleviating, curing or healing human disease, illness or injury.

11. "Health insurer" means a disability insurer, group disability insurer, blanket disability insurer, hospital service corporation or medical service corporation that provides health insurance in this state.

12. "Health plan" means a group or individual health plan that finances or furnishes health care services and that is issued by a health insurer.

13. "Network facility" means a health care facility that has entered into a contract with a health insurer to provide health care services to the health insurer's enrollees at agreed on rates.

14. "Surprise out-of-network bill" means a bill for a health care service that was provided in a network facility by a health care provider that is not a contracted provider and that meets one of the requirements listed in section 20-3113.

20-3112. Applicability

This article does not apply to:

1. Health care services that are not covered by the enrollee's health plan.

2. Limited benefit coverage as defined in section 20-1137.

3. Charges for health care services that are subject to a direct payment agreement under section 32-3216 or 36-437.

4. Health plans that do not include coverage for out-of-network health care services, unless otherwise required by law.

5. State health and accident coverage for full-time officers and employees of this state and their dependents that is provided pursuant to title 38, chapter 4, article 4.

6. A self-funded or self-insured employee benefit plan if the regulation of that plan is preempted by the employee retirement income security act of 1974 (P.L. 93-406; 88 Stat. 829; 29 United States Code section 1144(b)).

20-3113. Surprise out-of-network bill; requirements; notice

A. A bill for a health care service that was provided in a network facility by a health care provider that is not a contracted provider must meet one of the following requirements to qualify as a surprise out-of-network bill:

1. The bill was for emergency services, including under circumstances described by section 20-2803, subsection A and health care services directly related to the emergency services that are provided during an inpatient admission to any network facility.

2. The bill was for a health care service that was not provided in the case of an emergency and the health care provider or the provider's representative did not provide to the enrollee, or did not provide to the enrollee within a reasonable amount of time before the enrollee received the services, a written dated disclosure that contained the following information:

(a) Notice that contains the name of the billing health care provider and that states the health care provider is not a contracted provider.

(b) The estimated total cost to be billed by the health care provider or the provider's representative.

(c) Notice that the enrollee or the enrollee's authorized representative is not required to sign the disclosure to obtain medical care but if the enrollee or the enrollee's representative signs the disclosure, the enrollee may have waived any rights to dispute resolution under this article.

3. The bill was for a health care service that was not provided in the case of an emergency and the enrollee received the disclosure prescribed in paragraph 2 of this subsection, but the enrollee or the enrollee's authorized representative chose not to sign the disclosure.

B. Notwithstanding any provision of this article, a health insurer and any health plan offered by a health insurer shall comply with chapter 17, article 1 of this title.

20-3114. Dispute resolution; settlement teleconference; arbitration; surprise out-of-network bills

A. An enrollee who has received a surprise out-of-network bill and who disputes the amount of the bill may seek dispute resolution of the bill by filing a request for arbitration with the department not later than one year after the date of service noted in the surprise out-of-network bill, except as otherwise provided in this section, if all of the following apply:

1. The enrollee has resolved any health care appeal pursuant to chapter 15, article 2 of this title that the enrollee may have had against the health insurer following the health insurer's initial adjudication of the claim. The one-year time period for requesting arbitration is tolled from the date that the enrollee files a health care appeal until the date of final resolution of the appeal.

2. The enrollee has not instituted a civil lawsuit or other legal action against the insurer or health care provider related to the same surprise out-of-network bill or the health care services provided.

3. The amount of the surprise out-of-network bill for which the enrollee is responsible for all related health care services provided by the health care provider whether contained in one or multiple bills, after deduction of the enrollee's cost sharing requirements and the insurer's allowable reimbursement, is at least one thousand dollars.

B. If an enrollee requests dispute resolution of a surprise out-of-network bill, the enrollee or the enrollee's authorized representative shall participate in an informal settlement teleconference and may participate in the arbitration of the bill. If the enrollee or enrollee's authorized representative fails to attend the informal settlement teleconference, the conference shall be terminated and the enrollee, within fourteen days after the first scheduled informal settlement teleconference, may request that the department reschedule the informal settlement teleconference. If the enrollee does not request that the department reschedule the informal settlement teleconference, the enrollee forfeits the right to arbitrate the surprise out-of-network bill. The health care provider or the provider's representative and the health insurer shall participate in the informal settlement teleconference and the arbitration.

C. An enrollee may not seek dispute resolution of a bill if the enrollee or the enrollee's authorized representative signed the disclosure prescribed in section 20-3113, subsection A, paragraph 2 and the amount actually billed to the enrollee is less than or equal to the estimated total cost provided in the disclosure.

20-3115. Conduct of arbitration proceedings

A. The department shall develop a simple, fair, efficient and cost-effective arbitration procedure for surprise out-of-network bill disputes and specify time frames, standards and other details of the arbitration proceeding, including procedures for scheduling and notifying the parties of the settlement teleconference required by subsection E of this section. The department shall contract with one or more entities to provide arbitrators who are qualified under section 20-3116 for this process. Department staff may not serve as arbitrators.

B. An enrollee may request arbitration of a surprise out-of-network bill by submitting a request for arbitration to the department on a form prescribed by the department, which shall include contact, billing and payment information regarding the surprise out-of-network bill and any other information the department believes is necessary to confirm that the bill qualifies for arbitration. The form shall be made available on the department's website.

C. Within fifteen days after receipt of a request for arbitration, the department shall do one of the following:

1. Determine that the surprise out-of-network bill qualifies for arbitration under this article and notify the enrollee, health insurer and health care provider that the request qualifies.

2. Determine that the surprise out-of-network bill does not qualify for arbitration under this article and notify the enrollee that the surprise out-of-network bill does not qualify and state the reason for the determination.

3. If the department cannot determine whether the surprise out-of-network bill qualifies for arbitration, request in writing any additional information from the enrollee, health insurer or health care provider or its billing company that is needed to determine whether the surprise out-of-network bill qualifies for arbitration and all of the following apply:

(a) The enrollee, health insurer or health care provider or its billing company shall respond to the department's request for additional information within fifteen days after the date of the department's request.

(b) Within seven days after receipt of the additional requested information, the department shall determine whether the surprise out-of-network bill qualifies for arbitration and send the notices required under this subsection.

(c) If the health insurer or health care provider or its billing company fails to respond within the time frame specified in subdivision (a) of this paragraph to a department request for information, the department shall deem the request for arbitration as eligible for arbitration. If the enrollee fails to respond within the time frame specified in subdivision (a) of this paragraph, the request for arbitration is denied.

D. The determination by the department of whether a surprise out-of-network bill qualifies for arbitration is a final and binding decision with no right of appeal to the department. The department's determination is solely an administrative remedy and does not bar any private right or cause of action for or on behalf of any enrollee, health care provider or other person. The court shall decide the matter, including any interpretation of statute or rule, without deference to any previous determination that may have been made on the question by the department.

E. In an effort to settle the surprise out-of-network bill before arbitration, the department shall arrange an informal settlement teleconference within thirty days after the department sends the notices required by this section. The department is not a party to and may not participate in the informal settlement teleconference. As part of the settlement teleconference the health insurer shall provide to the parties the enrollee's cost sharing requirements under the enrollee's health plan based on the adjudicated claim. The health insurer shall notify the department whether the informal settlement teleconference resulted in settlement of the disputed surprise out-of-network bill and, if settlement was reached, notify the department of the terms of the settlement within seven days.

F. If after proper notice from the department or contracted entity either the health insurer or health care provider or the provider's representative fails to participate in the teleconference, the other party may notify the department to immediately initiate arbitration and the nonparticipating party shall be required to pay the total cost of the arbitration.

G. On receipt of notice that the dispute has not settled or that a party has failed to participate in the teleconference, the department shall appoint an arbitrator and shall notify the parties of the arbitration and the appointed arbitrator. The department's notice shall specify whether one party is responsible for the total cost of the arbitration pursuant to subsection F of this section. The health insurer and health care provider must agree on the arbitrator and may mutually agree to use an arbitrator who is not on the department's list. If either the health insurer or health care provider objects to the arbitrator, and the parties are unable to agree on a mutually acceptable alternative arbitrator, the department or contracted entity shall randomly assign three arbitrators. The health insurer and the health care provider shall each strike one arbitrator, and the last arbitrator shall conduct the arbitration unless there are two arbitrators remaining, in which case the department or contracted entity shall randomly assign the arbitrator.

H. Before the arbitration:

1. The enrollee shall pay or make arrangements in writing to pay the health care provider the total amount of the enrollee's cost sharing requirements that is due for the health care services that are the subject of the surprise out-of-network bill as stated by the health insurer in the settlement teleconference.

2. The enrollee shall pay any amount that has been received by the enrollee from the enrollee's health insurer as payment for the out-of-network health care services that were provided by the health care provider.

3. If a health insurer pays for out-of-network health care services directly to a health care provider, the health insurer that has not remitted its payment for the out-of-network health care services shall remit the amount due to the health care provider.

I. Arbitration of any surprise out-of-network bill shall be conducted telephonically unless otherwise agreed by all of the required participants.

J. Arbitration of the surprise out-of-network bill shall take place with or without the enrollee's participation.

K. The arbitrator shall determine the amount the health care provider is entitled to receive as payment for the health care services. The arbitrator shall allow each party to provide information the arbitrator reasonably determines to be relevant in evaluating the surprise out-of-network bill, including the following information:

1. The average contracted amount that the health insurer pays for the health care services at issue in the county where the health care services were performed.

2. The average amount that the health care provider has contracted to accept for the health care services at issue in the county where the services were performed.

3. The amount that medicare and medicaid pay for the health care services at issue.

4. The health care provider's direct pay rate for the health care services at issue, if any, under section 32-3216.

5. Any information that would be evaluated in determining whether a fee is reasonable under title 32 and not excessive for the health care services at issue, including the usual and customary charges for the health care services at issue performed by a health care provider in the same or similar specialty and provided in the same geographic area.

6. Any other reliable databases or sources of information on the amount paid for the health care services at issue in the county where the services were performed.

L. Except on the agreement of the parties participating in the arbitration, the arbitration shall be conducted within one hundred twenty days after the department's notice of arbitration.

M. Except on the agreement of the parties participating in the arbitration, the arbitration may not last more than four hours.

N. The arbitrator shall issue a final written decision within ten business days following the arbitration hearing. The arbitrator shall provide a copy of the decision to the enrollee, the health insurer and the health care provider or its billing company or authorized representative.

O. All pricing information provided by health insurers and health care providers in connection with the arbitration of a surprise out-of-network bill is confidential and may not be disclosed by the arbitrator or any other party participating in the arbitration or used by anyone, other than the providing party, for any purpose other than to resolve the surprise out-of-network bill.

P. All information received by the department or contracted entity in connection with an arbitration is confidential and may not be disclosed by the department or contracted entity to any person other than the arbitrator.

Q. A claim that is the subject of an arbitration request is not subject to article 1 of this chapter during the pendency of the arbitration. A health insurer shall remit its portion of the payment resulting from the informal settlement teleconference or the amount awarded by the arbitrator within thirty days after resolution of the claim.

R. A claim that is reprocessed by a health insurer as a result of a settlement, arbitration decision or other action under this article is not in violation of section 20-3102, subsection N.

S. Notwithstanding any informal settlement or the arbitrator's decision under this article, the enrollee is responsible for only the amount of the enrollee's cost sharing requirements and any amount received by the enrollee from the enrollee's health insurer as payment for the out-of-network health care services that were provided by the health care provider, and the health care provider may not issue, either directly or through its billing company, any additional balance bill to the enrollee related to the health care service that was the subject of the informal settlement teleconference or arbitration.

T. Unless all the parties otherwise agree or unless required by subsection F of this section, the health insurer and the health care provider shall share the costs of the arbitration equally, and the enrollee is not responsible for any portion of the cost of the arbitration. The health insurer and health care provider shall make payment arrangements with the arbitrator for their respective share of the costs of the arbitration.

20-3116. Arbitrator qualifications

To qualify as an arbitrator, a person shall have at least three years' experience in health care services claims and shall comply with any other qualifications established by the department.

E-9.

DEPARTMENT OF TRANSPORTATION
Title 17, Chapter 5, Article 5

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF TRANSPORTATION**
Title 17, Chapter 5, Article 5

Summary

This Five-Year Review Report (5YRR) from the Arizona Department of Transportation ("Department") covers two (2) rules in Title 17, Chapter 5, Article 5 related to Motor Carrier Financial Responsibility. The rules cover reporting requirements for proof of motor carrier financial responsibility, including the requirements if a vehicle is insured by an insurance carrier that does not electronically report insurance status to the Department.

The Department did not propose any amendments to the rules in Article in the report approved by the Council in April 2020.

Proposed Action

The Department indicates that the rules are clear, concise, understandable, and enforced as written. As a result, the Department does not intend on amending any rules at this time.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that the economic impact of these rules has been the same as estimated by the Department in the economic impact statement prepared on the last amendment of each rule. Stakeholders include the Arizona Department of Transportation, the Arizona Department of Public Safety, the Arizona Motor Carriers, Arizona Motorists. Commercial Motor Vehicle Insurers, and local law enforcement agencies electing to engage in commercial vehicle enforcement.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states it is committed to facilitating effective motor vehicle licensing and safety programs in compliance with all state and federal motor vehicle laws. The Department states that in rulemaking, it routinely adopts the least costly and least burdensome option for any process or procedure required of the regulated public or industry. Therefore, the Department has determined that the benefits provided for these industry partners under the rules far outweigh any costs associated with the rules.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates the rules are not more stringent than the corresponding

federal law, 49 U.S.C. 13906, 49 U.S.C. 31138, and 49 U.S.C. 31139, which is the federal motor carrier financial responsibility law and accompanying regulations.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department of Transportation ("Department") covers two (2) rules in Title 17, Chapter 5, Article 5 related to Motor Carrier Financial Responsibility. As with the previous report, the Department indicates that the rules are clear, concise, understandable, and enforced as written. As a result, the Department does not intend on amending any rules at this time.

The report meets the requirements of A.R.S. § 41-1056 and R1-6-301. Staff recommends approval of this report.

Phoenix, AZ 85007

Re: Arizona Department of Transportation Five-year Review Report – 17 A.A.C. 5, Article 5

Dear Ms. Klein:

Please find enclosed the Arizona Department of Transportation's Five-year Review Report covering rules located under 17 A.A.C. Chapter 5, Article 5, which is due to the Council on January 31, 2025. This document complies with all requirements under A.R.S. § 41-1056 and A.A.C. R1-6-301.

The Department certifies that it is in full compliance with the requirements of A.R.S. § 41-1091.

For information regarding the report, please communicate directly with John Lindley, Senior Rules Analyst, at (480) 267-6543 or email JLindley@azdot.gov.

Sincerely,

Jennifer Toth
Director

Five-Year Review Report

A.A.C. Title 17 – Transportation

Chapter 5. Department of Transportation

Commercial Programs

Article 5. Motor Carrier Financial Responsibility

Submitted to the Governor's Regulatory Review Council
January 2025

Five-Year-Review Report

Arizona Department of Transportation

17 A.A.C. Chapter 5. Department of Transportation - Commercial Programs

Article 5. Motor Carrier Financial Responsibility

1. **Authorization of the rule by existing statutes**

General Statutory Authority:

The Director of the Department of Transportation (Department) has broad authority under A.R.S. §§ 28-366 and 28-7045 for these rules. This authority allows the Department to adopt rules for the collection of taxes and license fees, public safety and convenience, enforcement of the provisions of the laws the Director administers or enforces, and the use of state highways and routes to prevent abuse and unauthorized use of all highways and routes under the jurisdiction of the Department.

Specific Statutory Authority:

R17-5-501 R17-5-504	The specific statutory authority used by the Department for maintaining these rules is provided under A.R.S. §§ 28-4002 and 28-4034.

2. **The objective of each rule:**

The stated objectives for each of the rules maintained by the Department under 17 A.A.C. 5, Article 5, are as follows:

Rule	Objective
R17-5-501	To clarify the Department's intended meaning for certain terms and phrases used throughout the Article.
R17-5-504	To provide persons subject to the financial responsibility requirements of A.R.S. Title 28, Chapter 9, Article 2, with information regarding a manual process that can be used to certify the existence of adequate financial responsibility if requested by the Department and the person's motor vehicle or vehicle combination is not insured through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8.

3. **Are the rules effective in achieving their objectives?** **Yes _X_ No ___**

If not, please identify the rules that are not effective and provide an explanation for why the rules are not effective.

The Department believes that these rules are effective in achieving all stated objectives.

4. **Are the rules consistent with other rules and statutes?** **Yes _X_ No ___**

If not, please identify the rules that are not consistent. Also, provide an explanation and identify the provisions that are not consistent with the rules.

Rule	Explanation
R17-5-501 R17-5-504	These rules were written to ensure continuous consistency by referencing all other applicable rules and statutes that govern the various types of evidence the Department may accept as proof of an adequate amount of financial responsibility: A.R.S. § 28-4032 for applicability; A.R.S. § 28-4033 for the minimum amounts of financial responsibility required if operating a motor vehicle or vehicle combination in the furtherance of a commercial enterprise in this state; A.R.S. § 28-4007 and R17-5-810 for options involving self-insurance; A.R.S. § 28-4148 and 17 A.A.C. 8 for the insurance industry's obligation to electronically report financial responsibility information to the Department; and A.R.S. § 28-4135 regarding acceptable evidence of financial responsibility to be carried by any person operating a motor vehicle or vehicle combination on a highway in this state. 49 U.S.C. 31138 prescribes the minimum amounts of financial responsibility that a motor carrier is required to file with the Federal Motor Carrier Safety Administration if operating in interstate commerce.

5. Are the rules enforced as written? **Yes _X_ No ___**

If not, please identify the rules that are not enforced as written and provide an explanation of the issues with enforcement. In addition, include the agency's proposal for resolving the issues.

The Department enforces these rules as written.

6. Are the rules clear, concise, and understandable? **Yes _X_ No ___**

If not, please identify the rules not clear, concise, or understandable and provide an explanation as to how the agency plans to amend the rules to improve clarity, conciseness, and understandability.

The Department believes that these rules are clear, concise, and understandable as written.

7. Has the agency received written criticisms of the rules within the last five years? **Yes ___ No _X_**

If yes, please fill out the table below:

Commenter	Comment	Agency's Response
N/A	N/A	N/A

8. Economic, small business, and consumer impact comparison:

The economic impact of these rules has been the same as estimated by the Department in the economic impact statement prepared on the last amendment of each rule.

At the time of the Department's last rulemaking on motor carrier financial responsibility reporting in 2012, the Department estimated that more than 50% of all motor carriers registering vehicles in Arizona were insuring their vehicles through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8. Currently, 99% of all Arizona motor carriers use insurance

companies that routinely report this essential information to the Department electronically, as required by law.

These rules support efforts by the Department, in partnership with Arizona's motor carriers and insurance agencies, to prevent unnecessary regulatory burden by recognizing and eliminating any duplicative reporting of motor carrier financial responsibility information. The rules have helped the Department and its industry partners to eliminate the unnecessary administrative costs previously expended by the Department and these industries as a result of the excessive monitoring and record keeping involved with the reporting, maintaining, and storing of duplicative information regarding a motor carrier's evidence of financial responsibility.

According to the most recent edition of *Arizona's Employment Report* (dated December 19, 2024), as published by the Governor's Office of Economic Opportunity, the private sector recorded a gain of 28,300 jobs in November, led by gains in Trade, Transportation & Utilities (18,200 jobs). The Transportation and Warehousing sector, which includes Truck Transportation, added 5,900 jobs between October 2024 and November 2024, and employment in Arizona's Trade, Transportation, and Utilities sector is projected to grow 1.2% by the end of calendar year 2025. Motor carriers in for-hire transit and ground passenger transport continue to play an important role in support of Arizona's booming economy. Airport shuttle, charter, commuter, school bus, sightseeing, tour and transit are just a few of the essential services these motor carriers provide for the state of Arizona using scheduled intercity and other intrastate travel routes.

For-hire motor carriers of passengers support the entire state of Arizona by getting people where they need to be, when they need to be there, in a safe and economical way. Airport shuttle, charter, commuter, school bus, sightseeing, tour, and transit services are all essential services that for-hire motor carriers of passengers may provide or support throughout the state to connect residents and non-residents to all of the amenities Arizona has to offer. The wide array of transport services these motor carriers provide can also increase the profitability of all Arizona businesses they support by delivering customers right to their front door. Whether small or large, profit or non-profit, airports, hospitals, schools, casinos, entertainment venues, and even restaurants, all enjoy the economic benefits generated by the ease of movement enabled by for-hire motor carriers of passengers.

The Department believes that the nonmonetary benefits to all sectors are greater than the cost of the rules.

9. Has the agency received any business competitiveness analyses of the rules? **Yes ___ No _X_**

10. Has the agency completed the course of action indicated in the agency's previous five-year-review report?

Yes _X_ No ___ *Please state what the previous course of action was and if the agency did not complete the action, please explain why not.*

The Department indicated no course of action in the previous five-year review report for these rules.

11. A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objectives:

The Department is committed to facilitating effective motor vehicle licensing and safety programs in compliance with all state and federal motor vehicle laws. In rulemaking, the Department routinely adopts the least costly and least burdensome option for any process or procedure required of the regulated public or industry. Since for-hire motor carriers of passengers play such an important role in support of Arizona's booming economy, the Department works consistently to ensure that Arizona motor carriers can effectively report to the Department all statutorily required financial responsibility information as easily and efficiently as possible. Therefore, the Department has determined that the benefits provided for these industry partners under the rules far outweigh any costs associated with the rules.

These rules make the reporting of motor carrier financial responsibility to the Department as easy as possible, and any person or motor carrier that maintains a valid USDOT number and files proof of financial responsibility with the Federal Motor Carrier Safety Administration (FMCSA) under 49 CFR 387 is not required to submit additional proof of financial responsibility under the rules, except on written request by the Department. The Department takes advantage of current technology routinely used by the insurance industry, and service bureaus, to communicate and partner with regulatory agencies. The Arizona Mandatory Insurance Reporting System, prescribed by the Department under 17 A.A.C. 5, Article 8, is an insurance policy reporting system that greatly reduces any need for vehicle owners or drivers to additionally submit proof of insurance coverage.

Currently, the Arizona Mandatory Insurance Reporting System, using electronic data interchange technology and unique numerical insurance company identification numbers issued by the National Association of Insurance Commissioners (NAIC), receives and processes about 725,000 policy report transactions every month, from over 200 reporting entities involving about 500 NAIC identification numbers.

Non-vehicle specific policies are generally referred to as "all owned" or "blanket policies". These are issued to organizational entities for a specific coverage amount to insure all of that organization's vehicles at any given time. With this type of policy, the organizations do not provide the insurance company with specific details to identify each vehicle that will be covered under the policy. The Department can link reports of these types of policies to all vehicles owned by the organization if reported using the organization's unique identification number assigned by the Department's customer database. The customer number may be the organization's Federal Employer Identification Number (FEIN) or a Department issued customer number. Since the Department does not have all FEINs from every possible organization, some non-vehicle-specific reports with an organization's FEIN do not find a match in the Department's system and are returned to the reporting insurance companies as errors. Due to this failure to match, some vehicle owners with this type of policy may be sent a notice by the Department requesting proof of financial responsibility and the information they provide the Department in response to that notice will need to be entered manually by Department personnel.

12. Are the rules more stringent than corresponding federal laws? **Yes ___ No _X_**

Please provide a citation for the federal laws. And if the rules are more stringent, is there statutory authority to exceed the requirements of federal laws?

These rules apply to persons who operate a motor vehicle or vehicle combination in the furtherance of a commercial enterprise *in this state* (intrastate commerce). Therefore, the rules are not more stringent than the federal motor carrier financial responsibility law, 49 U.S.C. 13906, or the federal regulation provided under 49 CFR 387, which would apply only if the person intends to operate in more than one state (interstate commerce).

The minimum levels of financial responsibility covering public liability and property damage applicable to the various types of for-hire motor carriers transporting passengers in interstate or foreign commerce were established under Section 18 of the Bus Regulatory Reform Act of 1982 (Pub. L. 97-261, September 20, 1982, 96 Stat. 1102), as codified under 49 U.S.C. 31138.

The minimum levels of financial responsibility applicable to the various types of for-hire motor carriers of property involved in interstate or foreign transportation and for the transportation of hazardous materials in intrastate or interstate commerce were established under Section 30 of the Motor Carrier Act of 1980 (Pub. L. 96-296, July 1, 1980, 94 Stat. 793, at 820), as codified under 49 U.S.C. 31139.

13. For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:

These rules were adopted before July 29, 2010, and provide no regulatory permit, license, or agency authorization applicable to any criteria prescribed under A.R.S. § 41-1037.

14. Proposed course of action

If possible, please identify a month and year by which the agency plans to complete the course of action.

No action is necessary. All rules located in this Article were last amended by Final Rulemaking at 18 A.A.R. 2365, effective November 10, 2012, and generally meet objectives, are effective, consistent with statute, enforceable, clear, concise, and understandable. The Department proposes no immediate action for any of the rules under this Article.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT
TITLE 17. TRANSPORTATION
CHAPTER 5. DEPARTMENT OF TRANSPORTATION
COMMERCIAL PROGRAMS

R17-5-501, R17-5-504, and R17-5-506

A. Economic, small business and consumer impact summary:

1. Identification of the proposed rulemaking:

The rules prescribe financial responsibility reporting requirements for certain commercial motor carriers. The Department has determined that over the past several years statutory references and other information contained within the rules have changed. The rules need to be updated to provide accurate references and information for motor carriers to comply with Arizona's financial responsibility requirements.

Currently, applicants for registration of a vehicle subject to the gross weight fees imposed under A.R.S. Title 28, Chapter 15, Article 2, are required under A.R.S. §§ 28-2167, 28-2169, and A.A.C. R17-5-202 to provide the Department with the motor carrier's United States Department of Transportation (USDOT) number and federal taxpayer identification number before registering the vehicle for travel in Arizona. A person or motor carrier that maintains a valid USDOT number and files proof of financial responsibility with the Federal Motor Carrier Safety Administration (FMCSA) under 49 CFR 387 is not required to submit additional proof of financial responsibility under these rules, except on written request by the Department.

This rulemaking updates the Department's existing motor carrier financial responsibility reporting requirements to provide accurate references, information, and clarification for an intrastate motor carrier of non-hazardous commodities when not subject to the electronic financial responsibility reporting requirements of FMCSA under 49 CFR 387. The rules provide the methods that an eligible intrastate motor carrier may use to file evidence of financial responsibility with the Department when the motor carrier does not insure a motor vehicle or vehicle combination through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8.

Motor carriers that electronically file and maintain proof of a sufficient level of financial responsibility with the Department or FMCSA are not subject to the manual reporting process in these rules, including:

A motor carrier or intermodal equipment provider conducting operations in interstate commerce currently required under 49 CFR 390.19 and R17-5-202 to file a motor carrier identification report (Form MCS-150, MCS-150B, or MCS-150C) with FMCSA before beginning operations and every 24 months thereafter;

A motor carrier with valid operating authority and a United States Department of Transportation (USDOT) number currently required under 49 CFR 387 to file evidence of financial responsibility with FMCSA; or

A motor carrier with a commercial motor vehicle insurance provider that electronically reports motor carrier financial responsibility information to the Department under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8, by specific vehicle identification number or to FMCSA as provided under 49 CFR 387.

Additionally, the rulemaking repeals an antiquated motor carrier financial responsibility verification process no longer used by the Department. The Department currently uses the procedures prescribed under A.R.S. Title 28, Chapter 9, Article 4, to verify that a motor carrier maintains a sufficient level of financial responsibility.

a. The conduct and its frequency of occurrence that the rule is designed to change:

Insurance companies authorized to transact business in Arizona are required under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8, to report motor vehicle insurance information to the Department electronically. However, an insurer that holds a valid certificate of authority or that is permitted to transact surplus lines insurance in this state may not always have the ability to electronically report VIN-specific insurance information to the Department. In the interest of public safety, a motor carrier who wishes to remain in good standing, but has no control over how its insurance company chooses to report motor vehicle insurance information to the Department, may file the required information with the Department using the alternative manual filing method provided by these rules.

The Department estimates that more than 50% of all motor carriers registering vehicles in Arizona currently insure the vehicles through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and 17 A.A.C. 5, Article 8.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

If the rules are not updated, motor carriers and intermodal equipment providers subject to financial responsibility reporting may continue to report duplicative financial responsibility information to the Department. The motor carriers and the Department will continue to absorb unquantifiable administrative costs for the monitoring, record keeping, and reporting of duplicative financial responsibility information under the rules.

To preserve the public peace, health, and safety, ADOT and Department of Public Safety (DPS) officers inspect commercial trucks and buses under these rules. It is necessary to update the rules to include the most recent guidelines generally accepted by the motor carrier industry and law enforcement agencies. The rules ensure that all motor carriers are held to the same regulatory standards and ADOT and DPS officers are able to more expediently place commercial motor vehicles

out-of-service when finding non-compliance issues severe enough to warrant concern for public safety. The Department currently uses the statutory authority and procedures provided under A.R.S. Title 28, Chapter 9, Article 4, for financial responsibility verification.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

Since minimum levels of financial responsibility are required by law for every motor vehicle being operated in Arizona, updating these rules will provide clear direction for all affected carriers seeking to remain in compliance with the Department's financial responsibility requirements. Those no longer required to separately submit paper copies of their proof of financial responsibility to the Department may experience an unquantifiable reduction in administrative costs for the monitoring, record keeping, and reporting of duplicative financial responsibility information.

FMCSA requires exempt for-hire and private hazardous materials carriers and all freight forwarders providing transfer, collection, and delivery service to file and maintain proof of liability insurance to obtain and retain active operating authority and a USDOT number. All affected for-hire motor carriers, brokers, and certain freight forwarders will continue to file evidence of current financial responsibility with FMCSA to retain commercial operating authority. If an insurance company or surety notifies FMCSA of cancellation of coverage, the carrier, broker, or freight forwarder must file evidence of replacement coverage before the policy termination date. The FMCSA will deactivate the USDOT number of non-compliant entities, who are then required to pay a reinstatement fee (generally $80) for reactivation before resuming operations subject to FMCSA jurisdiction. In addition to the reinstatement fee, there may be a $10 fee for filing proof of replacement insurance coverage.

2. Brief summary of the information included in the economic, small business and consumer impact statement:

The Department is amending these rules to provide motor carriers operating in Arizona with updated procedures regarding the reporting and verification of sufficient levels of financial responsibility. The Department intends to ease a regulatory burden, without compromising public safety, by eliminating a duplicative reporting practice no longer necessary for motor carriers that have already provided adequate financial responsibility information to FMCSA. Under A.R.S. § 28-5432(A), persons subject to these rules include motor carriers and intermodal equipment providers who, unless exempt under A.R.S. § 28-5432(B), operate only in Arizona:

A trailer or semitrailer with a gross weight of ten thousand pounds or less and that is used in the furtherance of a commercial enterprise;

A motor vehicle or vehicle combination if the motor vehicle or vehicle combination is designed, used or maintained primarily for the transportation of passengers for compensation or for the transportation of property;

A hearse, an ambulance, or any other vehicle that is used by a mortician in the conduct of the mortician's business; and

A commercial motor vehicle as defined under A.R.S. § 28-5201(1), which includes a motor vehicle or combination of motor vehicles that is designed, used or maintained to transport passengers or property in the furtherance of a commercial enterprise on a highway in this state, that is not exempt from the gross weight fees as prescribed under A.R.S. § 28-5432(B), and that includes any of the following:

A single vehicle or combination of vehicles that has a gross vehicle weight rating of eighteen thousand one or more pounds and that is used for the purposes of intrastate commerce;

A single vehicle or combination of vehicles that has a gross vehicle weight rating of ten thousand one or more pounds and that is used for the purposes of interstate commerce;

A school bus;

A bus;

A vehicle that transports passengers for hire and that has a design capacity for eight or more persons; and

A vehicle that is used in the transportation of materials found to be hazardous for the purposes of the hazardous materials transportation authorization act of 1994 (49 United States Code sections 5101 through 5128) and that is required to be placarded under 49 Code of Federal Regulations section 172.504, as adopted by the department pursuant to this chapter.

FMCSA additionally regulates the levels of financial responsibility covering for-hire motor carriers of passengers operating in interstate commerce. However, these carriers are not always required to provide proof of insurance or other financial responsibility as a condition of receiving a USDOT Number. Instead, FMCSA verifies financial responsibility as a part of its compliance review process. The actual review of financial responsibility requires that an enforcement official ensure that there is at the motor carrier's place of business a valid endorsement (Form MCS-90 or Form MCS-82), or valid authorization to self-insure that indicates that the carrier possesses the required financial responsibility coverage meeting the minimum prescribed limits.

Certain information is collected and maintained by FMCSA at the time a motor carrier makes application for, or updates, its operating authority or USDOT number. The Department is able to verify a motor carrier’s insurance information using the FMCSA’s Licensing & Insurance (L&I) system. The real-time, up-to-date licensing and insurance information of authorized for-hire motor carriers, freight forwarders, and property brokers is contained in the L&I database and is provided to the public free-of-charge. Licensing application and insurance information will appear on the FMCSA website as soon as it is manually entered into the L&I database by FMCSA staff or electronically filed by authorized insurance filers. All information displayed via a database query is public information which has long been available under the Freedom of Information Act. FMCSA provides authorized for-hire motor carrier, freight forwarder, and property broker licensing and insurance data to the industry and public via telephone request, paper report, or electronically at http://li-public.fmcsa.dot.gov (choose carrier search at the top of the web page).

The FMCSA filing requirements provide the public with assurances that all for-hire motor carriers, and private carriers transporting hazardous materials in interstate commerce, have the financial means to compensate members of the public for injuries or damages caused by their negligence. These filings also increase public accessibility to insurance information and enable FMCSA to more effectively track insurance cancellations. The Department electronically verifies the existence of motor carrier financial responsibility under A.R.S. § 28-2167 and will not complete the registration of a motor carrier until the requirements under A.R.S. § 28-4033 are met.

The manual reporting methods provided in these rules are not applicable to the majority of motor carriers subject to financial responsibility reporting under A.R.S. § 28-4032 who currently insure their vehicles through insurance companies that electronically report coverage information directly to the Department under A.R.S. § 28-4148 and 17 A.A.C. 8. Additionally, a person listed on the department's records as the owner of a taxi, livery vehicle, or limousine used to transport passengers for hire already provides annual evidence of an adequate level of financial responsibility to the Arizona Department of Weights and Measures as a condition of vehicle registration. Duplicative reporting is no longer necessary.

The minimum levels of financial responsibility required to be maintained by Arizona motor carriers are provided under 49 CFR 387 and A.R.S. § 28-4033.

Minimum Coverage		Motor carriers subject to these rules are required under A.R.S. § 28-4033 to carry motor vehicle combined single limit liability insurance at or above the following minimum amounts:
Liability	Uninsured Motorist	
		For the transportation of nonhazardous property:
$750,000		A vehicle with a gross vehicle weight of more than 26,000 pounds.
$300,000		A vehicle with a gross vehicle weight of 20,001 to 26,000 pounds.
		For the transportation of passengers:
$5 million	$300,000	In a vehicle with a seating capacity of 16 passengers or more.
$750,000	$300,000	In a vehicle with a seating capacity of less than 16 passengers including the driver, but more than eight passengers including the driver.
$300,000	$300,000	In a vehicle with a seating capacity of not more than eight passengers including the driver.
		For the transportation of hazardous materials, hazardous substances, or hazardous wastes:
$5 million		(i) Hazardous substances, as defined in 49 Code of Federal Regulations part 171, transported in a cargo tank, portable tank or hopper-type vehicle with capacities in excess of three thousand five hundred water gallons. (ii) Any quantity of class A or B explosives.

$1 million		(iii) Any quantity of poison gas (poison A). (iv) Liquefied compressed gas or compressed gas transported in a cargo tank, portable tank or hopper-type vehicle with capacities in excess of three thousand five hundred water gallons. (v) The quantity of radioactive materials that requires specialized handling and transportation controls as indicated in 49 Code of Federal Regulations part 173. For the transportation of the following: (i) Any quantity of oil listed in 49 Code of Federal Regulations part 172. (ii) Any quantity of hazardous wastes, hazardous materials or hazardous substances as defined and listed in 49 Code of Federal Regulations part 171 and in 49 Code of Federal Regulations part 172 but not included above.

The Department of Public Safety's compliance review unit regularly conducts compliance reviews of interstate and intrastate motor carriers to improve safety ratings and meet the FMCSA strategic goals and objectives. The Arizona motor carrier enforcement and safety program, consisting of the Department of Public Safety and trained commercial motor vehicle inspectors from 36 state and local agencies, conducted over 65,894 commercial vehicle inspections in 2009. Roadside inspectors continue to ensure drivers are properly licensed, that motor carriers are operating as currently authorized, and that the carrier has met current and proper financial responsibility requirements. These activities are required on each commercial motor vehicle traffic stop and inspection. All available FMCSA databases are queried for commercial driver license and carrier status.

3. Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:

Name: John Lindley, Administrative Rules
Address: Arizona Department of Transportation
Government Relations and Policy Development Office
206 S. 17th Ave., Mail Drop 140A
Phoenix, AZ 85007
Telephone: (602) 712-8804
Fax: (602) 712-3232
E-mail: jlindley@azdot.gov

B. Economic, small business and consumer impact statement:

1. Identification of the proposed rulemaking:

See paragraph (A)(1) above.

2. **Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking:**

Persons to bear costs	**Persons directly benefiting**
Arizona Department of Transportation	Arizona Department of Transportation
	Arizona Department of Public Safety
	Arizona Motor Carriers
	Arizona Motorists
	Commercial Motor Vehicle Insurers
	Local law enforcement agencies electing to engage in commercial vehicle enforcement

3. **Analysis of costs and benefits occurring in this state:**

Cost-revenue scale. Annual costs or revenues are defined as follows:

Minimal less than $10,000

Moderate $10,000 to $99,999

Substantial $100,000 or more

Commercial motor vehicle insurers that hold a valid certificate of authority or that are permitted to transact surplus lines insurance in this state should experience no economic impact as a result of these rules. They will continue to report motor carrier financial responsibility information to FMCSA or the Department as they do today. All operators of commercial motor vehicles registered with a declared Gross Vehicle Weight of over 26,000 lbs. provide proof of commercial financial responsibility to the Department or to FMCSA as a condition of receiving a Use Fuel/Motor Carrier account.

Required filings vary based on the types of registration involved. This rulemaking is intended to decrease duplicative financial responsibility monitoring, record keeping, administrative costs, and reporting burdens on the Department and the following registered motor carriers:

Commercial Motor Vehicles with a Declared Gross Vehicle Weight Over 8,000 lbs. by Registration Type	Commercial Motor Vehicles Registered as of March 31, 2012
Allocated	62,348
Apportioned	137,129
Permanent Fleet	20,441
Special Interstate	1,525
Total Commercial Motor Vehicle Registrations	221,443

The Department believes that the nonmonetary benefits to all sectors are greater than the cost of the rules and estimates that the alternative reporting requirements provided in the rules may be used by the owners of up to 4,207 vehicles registered intrastate as either buses or taxis.

Buses	922
Taxis	3,285

a. Probable costs and benefits to ADOT and other agencies directly affected by the implementation and enforcement of the proposed rulemaking:

The Department does not anticipate any significant increase or decrease in costs or benefits to the agency or other agencies for implementation and enforcement of these rules. Any economic impact to the Department is minimal and includes the resources necessary for making and implementing the rules and updating internal policies and procedures. The Department may experience a moderate benefit by not having to process and store duplicative commercial motor vehicle insurance information received from Arizona motor carriers.

Since all outdated terms and references are being updated for clarity, and to reflect recent reorganizational changes made within the Department, the Department may benefit by not having to spend resources on providing individual clarification of the rules to regulated persons attempting to register an interstate or intrastate commercial motor vehicle.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking:

ADOT and DPS officers currently inspect commercial trucks and buses under these rules. The Department anticipates no costs to a political subdivision of this state as a result of the implementation and enforcement of these rules. A political subdivision of this state operating as a motor carrier will benefit by not having to provide duplicative commercial motor vehicle insurance information to the Department if the information is already on file with FMCSA.

Local enforcement cost estimates are difficult to quantify as they are contingent upon whether officers are dedicated to commercial vehicle enforcement or incorporate commercial vehicle enforcement together with other duties. Accordingly, local law enforcement electing to engage in commercial vehicle enforcement could stand to benefit moderately by not having to reconcile information received from multiple databases to determine if a motor carrier maintains a sufficient level of financial responsibility.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking:

The Department anticipates no direct increase in revenue for businesses affected by the rulemaking. An interstate commercial fleet operator operating a vehicle exclusively in Arizona, or operating a vehicle

if the sole purpose of operation in this state is for use in the conduct of intrastate business, may continue to file electronic proof of financial responsibility for those vehicles with the Department or FMCSA. Administrative costs may decrease slightly for businesses no longer required to file a paper copy of Form E with the Department if the appropriate financial responsibility information is electronically filed with either FMCSA or the Department.

There are no new fees associated with this rulemaking. However, any motor carrier not currently in compliance with the federal law, state law, or existing rules may incur minimal costs to achieve compliance in relation to the electronic filing and verification of adequate levels of financial responsibility with FMCSA. Those costs arise from federal and state laws rather than from this rulemaking. If a motor carrier is found to be non-compliant with provisions of these rules, costs of sanctions under A.R.S. § 28-5238 could range from $5,000 to $25,000 per citation and the possible loss of a commercial driver license as prescribed under A.R.S. § 28-5238.

Benefits to motor carriers who maintain compliance with these rules include increased safety, lower financial responsibility premiums, the opportunity to increase profit margin through better customer service, and more expedient administrative processing by law enforcement.

4. General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking:

The Department anticipates no economic impact on private and public employment as a result of this rulemaking. Additionally, the Department has not notified the Joint Legislative Budget Committee (JLBC) under A.R.S. § 41-1055(B)(3)(a), since no new full time employees are necessary to enforce and implement these rules.

5. Statement of the probable impact of the proposed rulemaking on small businesses:

a. Identification of the small businesses subject to the proposed rulemaking:

The small businesses subject to these rules, as defined under A.R.S. § 41-1001(20), include any Arizona motor carriers and commercial motor vehicle insurance providers that are currently exempt from the FMCSA financial responsibility reporting requirements, or that do not electronically report motor carrier financial responsibility information to the Department using specific vehicle identification numbers. The manual reporting procedures authorized under these rules apply to Arizona motor carriers operating intrastate only.

b. Administrative and other costs required for compliance with the rulemaking:

Uniform safety and compliance costs for small businesses are the same as discussed under paragraph (B)(3)(c) above. The Department anticipates no new economic impact to persons and business entities as a result of this rulemaking. Motor carriers subject to this rulemaking are currently either required to file proof of financial responsibility with FMCSA on application for operating authority and issuance of a USDOT number, or with the Department under A.R.S. Title 28, Chapter 9, Articles 2 and 4, on

initial motor vehicle registration or on written request by the Department. Currently, all insurance companies that hold a valid certificate of authority or that are permitted to transact surplus lines insurance in this state have the opportunity to electronically report motor carrier financial responsibility information to the Department as a Certificate of Liability. Therefore, the Department does not anticipate any increase in motor carrier administrative or other costs as a result of this rulemaking.

Once electronically filed with the Department, a motor carrier's Certificate of Liability remains valid until electronically cancelled by the responsible insurance company. The responsible insurance company will systematically notify the Department if the motor carrier subsequently updates or changes financial responsibility coverage. If a motor carrier subsequently drops financial responsibility coverage, the insurance company will notify the Department for immediate corrective action under A.R.S. Title 28, Chapter 9, Article 4.

FMCSA requires motor carriers to update their financial responsibility information if the information changes or every two years if no changes were made. If a motor carrier subsequently drops financial responsibility coverage, the insurance company must notify FMCSA for immediate suspension of the motor carriers operating authority.

c. Description of the methods that ADOT may use to reduce the impact on small businesses:

The rules provide a more expedient and less-stringent application process for Arizona motor carriers and commercial motor vehicle insurers that already file and maintain evidence of a sufficient level of financial responsibility with FMCSA, while preserving some existing manual reporting methods for:

i. Insurance companies that hold a valid certificate of authority or that are permitted to transact surplus lines insurance in this state, but do not have the ability to electronically report VIN-specific insurance information to the Department; and

ii. Motor carriers who wish to remain in good standing, but have no control over how their insurance company reports insurance information to the Department.

The Department is unable to further reduce any impact on small businesses since uniform procedures and sanctions are required by federal and state mandates.

d. Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking:

The rules support the public interest and the interests of concerned parties by ensuring that all federal motor carrier safety and hazardous materials regulations and requirements of motor carriers are uniformly applied and enforced. The public benefits when all motor carriers remain in compliance with these rules as they ensure increased safety, lower financial responsibility premiums, provide

opportunity for increasing profit margins through better customer service, and facilitate more expedient administrative processing by law enforcement.

6. **Statement of the probable effect on state revenues:**

   This rulemaking will have no effect on state revenues.

7. **Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:**

   In rulemaking, the Department routinely adopts the least costly and least burdensome options for any process or procedure required of the regulated public or industry. See 5(c).

C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:

Due to the variety of commercial motor vehicle registration options available to Arizona motor carriers (allocated, apportioned, permanent fleet, etc.) the Department can only estimate the number of currently registered commercial motor vehicles that may be subject to these rules.

1. The motor vehicle is physically located in this state;
2. A notice of lien is filed with the Department;
3. A completed affidavit from the lienholder is submitted to the Department stating that the motor vehicle is physically located in this state and was repossessed on default pursuant to the terms of the lien and applicable law and that this state, its agencies, employees, and agents shall not be held liable for relying on the contents of the affidavit; and
4. In addition to the information required in subsection (A)(3), the affidavit contains the following information:
   a. The (VIN),
   b. The vehicle model year,
   c. The vehicle make,
   d. The registered owner's name,
   e. The date of repossession,
   f. The state in which the vehicle is titled,
   g. The lienholder company name,
   h. The lienholder agent or representative name,
   i. The lienholder signature, and
   j. The notary or Department agent signature.

B. The Department shall accept out-of-state affidavits of repossession that comply with the requirements in subsections (A)(3), (A)(4), and subsection (C) if all of the following apply:
1. The affidavit is submitted by an Arizona licensed dealer, and
2. The Arizona licensed dealer is transferring the title into the dealership's name.

C. A lienholder may sell a repossessed motor vehicle without transferring the title into the lienholder's name by completing a Bill of Sale for submission to the Department. The Bill of Sale may be combined with the affidavit of repossession and shall contain the following information:
1. The buyer's name;
2. The sale date;
3. The buyer's street address, including the city, state, and zip code;
4. The name of the new lienholder, if applicable;
5. The new lien date, if applicable;
6. The odometer certification statement, if required by A.R.S. § 28-2058, including odometer reading, and an acknowledgment with the buyer's name and signature;
7. A statement that the buyer is aware of the odometer certification made by the seller;
8. The seller's name;
9. The seller's notarized signature; and
10. The seller's address, including city, state, and zip code.

D. A completed repossession affidavit as prescribed in this Section is proof of ownership, right of possession, and right of transfer.

E. The Department has no responsibility relating to foreclosure on real property under A.R.S. Title 33, Chapter 7.

Historical Note
New Section recodified from R17-4-260 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 10 A.A.R. 3399, effective October 2, 2004 (Supp. 04-3). Section amended by final rulemaking at 23 A.A.R. 1434, effective July 4, 2017 (Supp. 17-2).

R17-5-408. Resale of a New Motor Vehicle

A. A motor vehicle dealer that sells a new motor vehicle that was delivered to a previous purchaser, shall provide written notice to the new purchaser under subsection (B).

B. A motor vehicle dealer shall ensure that the notice under A.R.S. § 28-4422 contains the following information:
1. The name of the dealership;
2. A vehicle description, including year, make, and VIN;
3. A statement that the new motor vehicle was delivered to a previous purchaser;
4. The printed name of the new purchaser; and
5. The signature of the new purchaser (initials are not acceptable) indicating that the new purchaser has received the notice.

C. The motor vehicle dealer shall:
1. Provide a copy of the notice under subsection (B) to the new purchaser, and
2. Keep a copy of the signed notice under subsection (B) at the new motor vehicle dealer's established place of business for at least three years.

D. The motor vehicle dealer is not required to submit the notice to the Department under subsection (B) unless otherwise required by state or federal law.

E. A new motor vehicle dealer shall not add additional language to the notice that would conflict with, or alter the intent of the provisions specified in subsection (B).

Historical Note
New Section made by final rulemaking at 12 A.A.R. 225, effective March 11, 2006 (Supp. 06-1). Section amended by final rulemaking at 23 A.A.R. 1434, effective July 4, 2017 (Supp. 17-2).

ARTICLE 5. MOTOR CARRIER FINANCIAL RESPONSIBILITY

R17-5-501. Definitions

In addition to the definitions provided under A.R.S. §§ 28-4001, 28-4031, 28-5201, and 28-5431, the following terms apply to this Article, unless the context otherwise requires:

"Binder" means a contract for temporary insurance as described in A.R.S. § 20-1120.

"Initial motor vehicle registration" means the first time a motor carrier registers a specific motor vehicle or a vehicle combination in Arizona.

"Insurance company" means an entity that is in the business of issuing motor carrier liability insurance policies.

Historical Note
New Section made by final rulemaking at 9 A.A.R. 235, effective March 11, 2003 (Supp. 03-1). Amended by final rulemaking at 18 A.A.R. 2365, effective November 10, 2012 (Supp. 12-3).

R17-5-502. Repealed

Historical Note
New Section recodified from R17-4-226 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 13 A.A.R. 858, effective March 6, 2007 (Supp. 07-1).

R17-5-503. Repealed

Historical Note
New Section recodified from R17-4-226.01 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 13 A.A.R. 858, effective March 6, 2007 (Supp. 07-1).

R17-5-504. Requirement to Submit Proof of Financial Responsibility; Applicability; Procedure; Exception

A. If a person or motor carrier subject to financial responsibility requirements under A.R.S. § 28-4032 does not insure its motor vehicle or vehicle combination through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and Article 8 of this Chapter, the person or motor car-

rier shall submit proof of financial responsibility as prescribed in this Section, and in the amount required under A.R.S. § 28-4033(A):
1. On initial motor vehicle registration, or
2. On written request by the Department.

B. An insurance company, its managing general agent, broker, or agent may submit proof of financial responsibility to the Department on behalf of a person or motor carrier.

C. As proof of financial responsibility, a person or motor carrier shall submit to the Department a photocopy of:
1. A valid liability insurance policy;
2. A binder dated within 90 days of filing with the Department;
3. A completed and signed Form E Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance, issued by an insurer that holds a valid certificate of authority or that is permitted to transact surplus lines insurance in this state, naming the Arizona Department of Transportation as the agency;
4. A completed and signed Certificate of Liability Insurance form, issued by an insurer that holds a valid certificate of authority or that is permitted to transact surplus lines insurance in this state, naming the Arizona Department of Transportation as the certificate holder; or
5. A certificate of self-insurance issued by the Department after a person or motor carrier meets the requirements of R17-5-810 and A.R.S. §§ 28-4007 and 28-4135.

D. Before a binder submitted as proof of financial responsibility expires, a motor carrier shall submit:
1. A binder from an insurance company other than the insurance company named in the first binder; or
2. Proof of financial responsibility listed in subsections (C)(1) or (C)(3) through (5).

E. A person or motor carrier that maintains a valid USDOT number and files proof of financial responsibility with the Federal Motor Carrier Safety Administration under 49 CFR 387 is not required to submit additional proof of financial responsibility under this Section, except on written request by the Department.

R17-5-506. Repealed

Historical Note
New Section recodified from R17-4-447 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Section repealed; new Section made by final rulemaking at 9 A.A.R. 235, effective March 11, 2003 (Supp. 03-1). Repealed by final rulemaking at 18 A.A.R. 2365, effective November 10, 2012 (Supp. 12-3).

R17-5-507. Repealed

Historical Note
New Section recodified from R17-4-448 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 9 A.A.R. 235, effective March 11, 2003 (Supp. 03-1).

ARTICLE 6. IGNITION INTERLOCK DEVICE MANUFACTURERS AND IGNITION INTERLOCK SERVICE PROVIDERS

R17-5-601. Definitions

In addition to the definitions provided under A.R.S. §§ 28-101 and 41-1072, in this Article, unless the context otherwise requires, the following terms apply:

"Alcohol concentration" means the weight amount of alcohol contained in a unit volume of breath or air, measured in grams of ethanol/210 liters of breath or air and expressed as grams/210 liters.

"Alveolar breath sample" means the last portion of a prolonged, uninterrupted exhalation from which breath alcohol concentrations can be determined.

"Anticircumvention feature" means any feature or circuitry incorporated into the ignition interlock device that is designed to prevent human activity that would cause the device not to operate as intended.

"Authorization agreement" or "agreement" means an agreement authorized by the Director that an IISP enters into with the Department to provide ignition interlock services under A.R.S. § 28-1468.

"Breath alcohol test" means analysis of a sample of the person's expired alveolar breath to determine alcohol concentration.

"Bump starting" means a method of starting a motor vehicle with an internal combustion engine by engaging the manual transmission while the vehicle is in motion.

"Business day" means a day other than a Saturday, Sunday, or state holiday.

"Calibration" means the testing, adjustment, or systematic standardization of an ignition interlock device to determine and verify its accuracy.

"Cancellation" means the termination of a manufacturer's ignition interlock device certification for ignition interlock device installation.

"Certification" means a status granted by the Department under this Article, which permits a certified ignition interlock device manufacturer to offer an ignition interlock device for installation.

"Certified ignition interlock device," "CIID," or "device" means a device that is based on alcohol specific electrochemical fuel sensor technology that meets the NHTSA specifications; that connects a breath analyzer to a motor vehicle's ignition system; that is constantly available to monitor the alcohol concentration in the breath of any person attempting to start the motor vehicle by using its ignition system; that deters starting the vehicle by use of its ignition system unless the person attempting to start the motor vehicle provides an appropriate breath sample for the device; and determines whether the alcohol concentration in the person's breath is below a preset level.

"Circumvent" or "circumvention" means an attempted or successful bypass of the proper functioning of a certified ignition interlock device and includes all of the following:

28-366. Director; rules

The director shall adopt rules pursuant to title 41, chapter 6 as the director deems necessary for:

1. Collection of taxes and license fees.

2. Public safety and convenience.

3. Enforcement of the provisions of the laws the director administers or enforces.

4. The use of state highways and routes to prevent the abuse and unauthorized use of state highways and routes.

28-4002. Director; duties

The director shall:

1. Administer and enforce this chapter.

2. Print for distribution to the public rules adopted to administer this chapter and furnish the rules to a person on application and payment of the cost as prescribed by the director.

28-4034. Maintenance, certification and verification of financial requirements

A. A person who operates a motor vehicle in this state and who is subject to the financial responsibility requirements of this article shall maintain at all times the amounts prescribed in section 28-4033 that obligates the person to pay compensation for injuries to persons and for loss or damage to property by reason of the ownership, maintenance or use of a motor vehicle or vehicle combination owned or operated by the person.

B. The department may require a person who is subject to the financial responsibility requirements of this article to certify the existence of financial responsibility in the form and at the times the department deems necessary. The department may forward the certification to the named insurer to determine if the certification is correct. Civil liability does not accrue to the insurer or any of its employees for reports made to the department if the reports are made in good faith based on the most recent information available to the insurer.

28-7045. Director; state highway and route use; rules

The director shall exercise complete and exclusive operational control and jurisdiction over the use of state highways and routes and adopt rules regarding the use as the director deems necessary to prevent the abuse and unauthorized use of these highways and routes.

E-10.

DEPARTMENT OF TRANSPORTATION
Title 17, Chapter 5, Articles 6-7

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **DEPARTMENT OF TRANSPORTATION**
Title 17, Chapter 5, Articles 6 and 7

Summary

This Five-Year Review Report (5YRR) from the Arizona Department of Transportation ("Department") covers twenty-three (23) rules in Title 17, Chapter 5, Articles 6 relating to Ignition Interlock Device Manufacturers and three (3) rules in Article 7 relating to Ignition Interlock Service Providers and Ignition Interlock Device Technicians.

These rules were initially made as a result of Laws 2017, Ch. 331 § 12, which provided an exemption to the Department to complete rulemaking. The rules have not previously undergone a 5YRR but the Council did approve a One-Year Review Report in August 2019. In the 2019 report, the Department proposed to make a fee permanent. The Department completed this proposed course of action in July 2020.

Proposed Action

The Department indicates that R17-5-615 is not meeting its objective and not enforced as written. The Department indicated that this rule deals with the rolling retest requirement and could be improved because of manufacturing issues that result in inaccurate violations. The Department has also indicated that 10 rules in Article 6 can be improved to make the rules more clear, concise, and understandable. The Department intends on seeking Governor's approval

upon the Council approving the report. The Department indicates that they expect to have a final rulemaking to the Council by December 2025.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states that these rules were last amended in 2020 and the economic impact remains unchanged as estimated in the economic impact statement prepared by the Department in relation to that rulemaking. Stakeholders include the Arizona Department of Transportation, ignition interlock users, manufacturers, and ignition interlock service providers, and the general public.

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department states it is committed to facilitating effective Certified Ignition Interlock Device (CIID) programming and best practices, in compliance with state laws. The Department states that in rulemaking, it routinely adopts the least costly and burdensome options for any process or procedure required of the regulated public or industry. Therefore, the Department has determined that the benefits of all the rules in this chapter outweigh the costs.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are mostly clear, concise, and understandable. The Department does indicate the following 10 rules in Article 6 could be improved.

- R17-5-601: The Department indicates the rule could be improved by editing terms to ensure consistency and to remove 12 definitions that are already found in statute.
- R17-5-602: The Department indicates that this rule could be improved by clarifying when a manufacturer or service provider can correct a deficiency or noncompliance identified by the Department. The Department also indicates that the Department can better clarify the process to assess civil penalties for non-compliance.

- R17-5-603: The Department indicates that this rule could be improved by updating the term CIID requirement period and to incorporate language that better reflect current practices.
- R17-5-606: The Department indicates that this rule could be improved by rearranging the current subsections to follow a more logical order.
- R17-5-607: The Department indicates that this rule could be improved by removing outdated language and to clarify what constitutes a lockout condition.
- R17-5-608: The Department indicates that this rule could be improved by removing outdated language.
- R17-5-609: The Department indicates that this rule could be improved by clarifying what procedures a manufacturer needs to follow when submitting items to the Department.
- R17-5-610: The Department indicates that this rule could be improved by clarifying information on improper reporting.
- R17-5-611: The Department indicates that this rule could be improved by removing outdated language.
- R17-5-615: The Department indicates that this rule could be improved by adding a GPS component to verify that the vehicle is actually being operated during a rolling test.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written with the exception of R17-5-615. The Department indicates that the rule does not currently require that a vehicle be in motion before requiring that a driver perform a rolling retest. This has resulted in the Department receiving violations that would later become void as a result of investigations. The Department has been enforcing the rule but amending the rule to clarify the in-motion component will result in fewer false violations and reduce the amount of investigations required.

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department indicates there are no rules that directly correspond with ignition interlock devices beyond general requirements of any manufactured product by the U.S. Consumer Product Safety Commission. The Department does indicate that under 23 U.S.C. 405(d) that the state may be eligible for federal grants because of the State's highway safety program, which includes the interlock ignition rules.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department of Transportation ("Department") covers twenty-three (23) rules in Title 17, Chapter 5, Articles 6 relating to Ignition Interlock Device Manufacturers and three (3) rules in Article 7 relating to Ignition Interlock Service Providers and Ignition Interlock Device Technicians. The Department completed the previous one year review report after these rules were added as result of an exempt rulemaking. The Department indicates the need to amend 10 rules to improve clarity, conciseness, and understandability. The Department also indicates the need to amend one rule that has resulted in unnecessary violations that have required Department investigations to clear, with the goal of the amendment being to ease the burden on those who require interlocks and the Department.

The report meets the requirements of A.R.S. § 41-1056 and R1-6-301. Staff recommends approval of this report.

Phoenix, Arizona 85007

RE: Arizona Department of Transportation, 17 A.A.C, Chapter 5, Articles 6 & 7 Five Year Review Report

Dear Chair Klein:

Please find enclosed the Five Year Review Report of the Arizona Department of Transportation (ADOT) for 17 A.A.C. Chapter 5, Articles 6 and 7 which is due on January 31, 2025.

ADOT hereby certifies it is in full compliance with A.R.S. 41-1091.

For questions about this report, please contact Kamaria McDonald, Rules & Policy Analyst, at 623-687-1703 or kmcdonald3@azdot.gov.

Sincerely,

Jennifer Toth
Director

Article 7 - Ignition Interlock Device Technicians

Five-Year Review Report

Submitted to the Governor's Regulatory Review Council
January 2025

Arizona Department of Transportation

Five-Year Review Report

17 A.A.C., Chapter 5, Articles 6 and 7

January 2025

1. **Authorization of the rule by existing statutes**

General Statutory Authority: A.R.S. §§ 28-366,

Specific Statutory Authority: A.R.S. § 28-1461; A.R.S. § 28-1462; A.R.S. § 28-1465; A.R.S. § 28-1468; Laws 2017, Chapter 331, § 12

2. **The objective of each rule:**

Rule	Objective
R17-5-601	To define terms necessary to ensure understanding the rules relating to ignition interlock device manufacturers, ignition interlock service providers, and ignition interlock technicians.
R17-5-602	To detail the certification requirements that a manufacturer must meet to certify an ignition interlock device and the Department's notification procedure regarding improper reporting.
R17-5-603	To detail the technical and operating requirements of an ignition interlock device.
R17-5-604	To establish the application and other requirements for a manufacturer to certify an ignition interlock device and provide the requirements for new ignition interlock installations.
R17-5-605	To establish the licensing time frames for manufacturer certification of an ignition interlock device.
R17-5-606	To detail the application process for a manufacturer to certify an ignition interlock device model and the circumstances in which the Department will deny device certification.
R17-5-607	To detail the circumstances and process by which the Director will cancel certification of an ignition interlock device.
R17-5-608	To detail the procedures and required notification process for a manufacturer to modify an ignition interlock device.
R17-5-609	To list the responsibilities of an ignition interlock service provider and a manufacturer regarding the Department's ignition interlock program.

R17-5-610	To list the ignition interlock activities and information that a manufacturer must electronically report to the Department.
R17-5-611	To detail the requirements for an ignition interlock service provider to provide assistance to persons with an ignition interlock device that fails to operate properly, the recordkeeping requirements for a manufacturer, and the notification process to ignition interlock users when ignition interlock services change.
R17-5-612	To delineate the recordkeeping requirements of an ignition interlock service provider and a manufacturer.
R17-5-613	To detail the requirements of how the Department is to investigate any complaint relating to an ignition interlock device or an ignition interlock service provider, and requires the Department to inspect service centers and the principal place of business of a manufacturer.
R17-5-614	To detail the requirements of how an ignition interlock service provider collects an ignition interlock device installation fee when an ignition interlock is installed in a motor vehicle to comply with A.R.S. § 28-1462(H).
R17-5-615	To detail the rolling retest requirements that an ignition interlock user must follow and the action that the Department will take when a user fails to take required rolling retests or when the ignition interlock device records breath alcohol concentration(s) equal to or greater than the legal limits.
R17-5-616	To detail the reasons for which the Director may prescribe civil penalties against an ignition interlock device manufacturer, the amount of civil penalties, and the steps in the overall process.
R17-5-617	To detail the circumstances in which the Director will issue a cease and desist order against a party to an ignition interlock service provider authorization agreement, the action required, and allows an ignition interlock service provider to request a hearing.
R17-5-618	To detail that an ignition interlock service provider must have at least one readily accessible service center in each county in the state that must provide installation, inspection, calibration, and removal of ignition interlock devices by trained technicians or employees.
R17-5-619	To specify the documents and the implementation plan that an ignition interlock service provider that applies for a service contract must submit to the Department.
R17-5-620	To specify the licensing time frames for each step of the authorization process.

R17-5-621	To detail the application process requirements for an ignition interlock service provider to submit a service center application and the time frames for processing an application.
R17-5-622	To detail the requirements for the technician application by an ignition interlock service provider and the time frames for processing an application.
R17-5-623	To detail the ineligibility provisions for an ignition interlock service provider whose agreement has been terminated and the process that the Department will use to notify ignition interlock users to obtain another service provider.
R17-5-701	To clarify the definitions that apply to Article 7.
R17-5-702	To outline the responsibilities of an ignition interlock service provider to ensure that a technician has specified qualifications and performs duties specified in the rules.
R17-5-706	To detail when an ignition interlock user must obtain calibration checks of an ignition interlock device, how calibration should be performed, and that a device that does not maintain calibration should be repaired to meet standards or be removed.

3. Are the rules effective in achieving their objectives? **Yes _X_** **No __**

The rules are generally effective in achieving their objectives, but the Department recommends the following change to increase the effectiveness of the rules related to the rolling retest requirement**:**

R17-5-615	The Department is suggesting additional terminology to clarify the specifications of the rolling retest requirements for vehicles being "in motion" and the validation of the violations by the manufacturer prior to reporting to the Department so as to avoid the additional inaccurate violations and increase effectiveness of the overall rules, as erroneous violations related to rolling retests are currently voided, however many go unnoticed and result in wasted resources.

4. Are the rules consistent with other rules and statutes? **Yes _X_** **No __**

5. Are the rules enforced as written? **Yes _X__** **No ___**

The rules are enforced as written, however, the Department notes the following issue with enforcement and compliance with the rolling retest requirement, but anticipates this will be addressed with some of the proposed changes included in this report.

Rule	Explanation
R17-5-615	This rule specifies when an ignition interlock user's CIID requires a person to take a rolling retest and when the Department will extend a user's ignition interlock period for failing to take rolling retests. Some users do not comply with the rolling retest requirement and incur a six- month extension of the rolling retest period. The Department provides written notification to the user and extends their ignition interlock period for six months for each failure to take a set of three consecutive rolling retests within 18 minutes, during a drive cycle. Continuous lack of compliance by a user with the rolling retest requirement over time can result in extension of their ignition interlock period for many years. The rules are consistent with the rolling retest statute requiring the Department to extend a user's ignition interlock period for six months for each set of three missed rolling retests. The Department is continuing to monitor and review the extent of this complex issue, which may require future rule, legislative, or other Departmental action.

6. **Are the rules clear, concise, and understandable?** **Yes _X__** **No ___**

Although these rules are generally, clear, concise, and understandable, the Department suggests the following minor technical corrections, updates, and other amendments to be made to provide additional regulatory relief for all Certified Ignition Interlock Device (CIID) manufacturers, Ignition Interlock Service Provider (IISP)'s, and users located throughout the state and address any other issues that may be identified by the Department's internal audit team to improve the operating efficiency of the Department's Certified Ignition Interlock Program, facilitate the providing of records to the Department in a timely manner, and reduce instances of improper reporting. The Department recommends the following:

Rule	Explanation
R17-5-601	Making minor adjustments to existing terms needed for consistency purposes.
R17-5-601	Removing definitions that only repeat statute; a. Alcohol Concentration b. Bump Starting

	c. Certified Ignition Interlock Device d. Circumvent e. Global Positioning System f. Ignition Interlock Service Provider g. Improper Reporting h. Retest Set Point i. Rolling Retest j. Tampering k. Technician
R17-5-602	Clarifying that a manufacturer or IISP who is out of compliance with the Department's program requirements, statutes, or rules may have an opportunity to correct a deficiency identified by the Department.
R17-5-602	Clarifying the process used by the Department to assess civil penalties against a manufacturer who remains out of compliance or refuses to correct a deficiency identified by the Department.
R17-5-603	Clarifying the use and meaning of the term "CIID requirement period" as used in these rules.
RI7-5-603	Updating the rules to incorporate the Department's current system requirements and statutes.
R17-5-606	Rearranging several Sections to provide a more logical order for the rules.
R17-5-607	Clarifying the temporary and permanent lockout processes to include when an action may trigger a lockout condition and that a test failure may trigger a violation or an extension of the user's CIID requirement period.
R17-5-607 & R-17-5-608	Removing outdated language.
R17-5-609	Clarifying the procedures a manufacturer shall use when submitting various items to the Department for consideration.
R17-5-609	Clarifying the procedures a manufacturer or IISP shall follow to ensure continuity of service to program participants if an IISP or service center goes out of business or otherwise discontinues services provided on behalf of a manufacturer.
R17-5-609	Clarifying further the responsibilities of the manufacturer and the IISP.
R17-5-610	Clarifying information related to Improper Reporting.
R17-5-611	Removing outdated language.
R17-5-615	Allowing the use of new GPS technology to determine that a vehicle equipped with a CIID is actually being operated before requesting a rolling retest and recording a violation.

7. <u>Has the agency received written criticisms of the rules within the last five years?</u> Yes ___ No _X__

8. **Economic, small business, and consumer impact comparison:**

These rules were last amended in 2020 and the economic impact remains unchanged as estimated in the economic impact statement prepared by the Department in relation to that rulemaking, due to similar operating costs and no change in the rules or fees. Since the Department's last rulemaking, the number of CIID manufacturers and devices installed have increased, however the only cost set by the Department, as outlined by statute, is the $20 installation fee that is used to cover administration costs of the CIID program. The IISP's set and retain additional CIID fees for the services they provide, therefore the Department anticipates no change to the economic impact with these recommended changes.

9. **Has the agency received any business competitiveness analyses of the rules?** **Yes_X__** **No ___**

The Department completed an internal audit of its CIID program, which focused primarily on the violation processes, however an analysis of overall best practices alongside those of the neighboring states of Colorado, Oregon, Washington, Texas, California, New Mexico and Wyoming, was also included. The findings determined that Arizona's CIID program fees are lower than those states, however additional best practices related to violations and quality controls can be improved in the processes of its CIID program. The Department anticipates that the recommended changes will address many of these improvements discussed in the audit.

10. **Has the agency completed the course of action indicated in the agency's previous five-year-review report?**

Yes ___ No ___ N/A _X__

This is the Department's first five year review report related to these rules, however a one year review report was submitted in 2019. The Department's previously stated course of action related to these rules was accomplished in a rulemaking, effective July 5, 2020, as outlined in the 2019 one year review report. The Department completed rule amendments that provided further clarification on existing processes to ensure public safety, corrected outdated information and statutory references, and ensured that the rules were clear, concise, and understandable. The rulemaking also included A.A.C. R17-5-614, the ignition interlock device installation fee rule, established through exempt rulemaking: https://apps.azsos.gov/public_services/register/2020/22/contents.pdf#page=5

11. **A determination that the probable benefits of the rule outweigh within this state the probable costs of the rule, and the rule imposes the least burden and costs to regulated persons by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective:**

The Department is committed to facilitating effective CIID programming and best practices, in compliance with state laws. In rulemaking, the Department routinely adopts the least costly and burdensome options for any process or procedure required of the regulated public or industry. Funding for the Department's CIID program consists of revenue from the Ignition Interlock Device Fund (IIDF), established by the legislature in FY 2019, under A.R.S. § 28-1469, which states, "monies in the fund must be used by the department for administering this article, including compliance measures, audits and investigating complaints that are related to ignition interlock devices and ignition

interlock service providers". R17-5-614, effective July 1, 2018 set a $20 fee per installation, to be used by the Department for administering the ignition interlock program and the Department personnel that work directly with CIID users. This fund is replenished on a continuous basis each time the CIID installation fee of $20 is collected by an IISP as required under A.R.S. § 28-1462 and the only fee that a user with a CIID pays that is transmitted to the Department, therefore the sole source of revenue for the IIDF. ADOT was appropriated $365,600 from the fund in FY 2025. This funding is allocated to MVD for the purposes outlined in statute. FY 2025 and FY 2026 revenue projections are based on a three-year average of actual revenue in FY 2022 through FY 2024. These revenue projections assume approximately 17,360 devices will be installed annually in FY 2025 and FY 2026 (17,360 devices multiplied by a $20 fee = $360,700).

Additionally, clarification of the improper reporting rules is expected to result in more accurate reporting of individual ignition interlock activity, which benefits ignition interlock users. The rules also benefit CIID users through the expansion of related services in IISP's located throughout all 15 counties, including rural areas, saving users time to obtain services. The recommended rule changes will allow compliance checks on the ignition interlock devices to be reported and performed electronically in real-time, thereby requiring fewer trips to service centers and lowering costs to IISP's as well as CIID persons. Therefore, the Department has determined that the benefits of all the rules in this chapter outweigh the costs.

12. Are the rules more stringent than corresponding federal laws? Yes ___ No __X_

The rules are not more stringent than federal law and there is no corresponding federal law that directly regulates the ignition interlock device manufacturing and installation industries other than what would be required of any product manufacturer by the U.S. Consumer Product Safety Commission.

Arizona is an ignition interlock state for the purpose of application for, and receipt of, federal highway safety grant funding administered through the U.S. Department of Transportation's National Highway Traffic Safety Administration, and the Arizona Governor's Office Highway Safety. These rules are in direct support of Arizona's efforts to curb the number of driving under the influence (DUI) offenses by helping to reduce recidivism rates for those users who have qualified for reinstatement of their Arizona driver license privileges after serving a statutorily prescribed suspension or revocation period for a previous conviction under Arizona's strict DUI laws.

In accordance with 23 U.S.C. 405(d), Highway Safety Programs, Arizona may be eligible to apply for federal grants, from time to time, which are awarded to states that adopt and implement effective programs to reduce traffic safety problems resulting from individuals driving motor vehicles while under the influence of alcohol, drugs, or the combination of alcohol and drugs or that enact alcohol ignition interlock laws if the state's highway safety program meets the requirements of 23 U.S.C. Chapter 4, and all of the applicable federal and state laws as outlined in the State of Arizona Highway Safety Plan for FY 2024 - 2026.

13. **For rules adopted after July 29, 2010 that require the issuance of a regulatory permit, license, or agency authorization, whether the rules are in compliance with the general permit requirements of A.R.S. § 41-1037 or explain why the agency believes an exception applies:**

A CIID manufacturer must first obtain Department certification of the manufacturer's ignition interlock device to allow device installation. A.R.S. § 28-1468 requires an IISP to apply for authorization of an ignition interlock provider contract. The manufacturers certification and IISP authorization can be considered general permits because authorization allows each IISP to conduct activities in a class that are substantially similar in nature and that are granted to a qualified applicant to conduct identified activities.

14. **Proposed course of action**

If the Department receives approval from the Governor's Office for an exemption from the rulemaking moratorium, A.R.S. § 41-1039, the Department anticipates filing ignition interlock rule changes with the Governor's Regulatory Review Council in a regular rulemaking by December 2025.

ECONOMIC, SMALL BUSINESS AND CONSUMER IMPACT STATEMENT

TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

ARTICLE 6. IGNITION INTERLOCK DEVICE MANUFACTURERS AND IGNITION INTERLOCK SERVICE PROVIDERS

ARTICLE 7. IGNITION INTERLOCK DEVICE TECHNICIANS

R17-5-601 to R17-5-623, R17-5-701, R17-5-702, and R17-5-706

A. Economic, small business and consumer impact summary:

1. Identification of the proposed rulemaking:

This rulemaking implements the provisions of Chapter 105, Laws 2018 and Chapter 331, Laws 2017 (SB 1401) relating to the Department of Transportation's ignition interlock program. Chapter 331 authorized the Department to approve an application to contract with Ignition Interlock Service Providers (IISP's) beginning July 1, 2018, to provide ignition interlock services to persons required by a court or the Department to have an ignition interlock device installed on their motor vehicle. Each IISP must develop an implementation plan and provide services through service centers with at least one service center in each county of the state. This legislation prescribes the responsibilities of an ignition interlock device manufacturer to electronically report ignition interlock activity to the Department daily in real-time; the services that an IISP and technicians must provide to ignition interlock users; and the required actions of an ignition interlock user.

The Department had a one-time rulemaking exemption from the Administrative Procedure Act to adopt rules to implement this legislation. The Department received approvals from Matt Clark at the Governor's Office for this rulemaking on June 17, 2017 and April 16, 2018. The Department filed exempt rules with the Secretary of State's Office on June 6, 2018 with an effective date of July 1, 2018.

a. The conduct and its frequency of occurrence that the rule is designed to change:

Prior to this revision, the rules and legislation required a manufacturer to certify an ignition interlock device. Following device certification, the manufacturer's certified device is available for installation. A manufacturer applied to the Department to set up established places of business operated by certified installers and service representatives to provide ignition interlock services at service center locations chosen. No requirement existed to have fixed service centers in each county of the state. Availability of ignition interlock services was limited in rural areas and often only mobile services were available. These rules prescribe the requirements for an IISP to apply for authorization for an ignition interlock contract to provide services at service centers operated by technicians certified by the IISP in all counties of the state. With the program changes, the number of service centers has expanded substantially in all counties of the state, including rural areas. Currently ignition interlock users may

select one of nine Ignition Interlock Service Providers in the state. Collectively, there are 279 existing ignition interlock service centers operating in counties throughout the state.

The rules define improper reporting and prescribe the requirements for a manufacturer to report ignition interlock activity, violations, and rolling retest data on a daily basis in real-time to the Department within 24 hours. A.R.S. § 28-1465 authorizes the Department to establish civil penalties for improper reporting by a manufacturer. The rules establish tiered civil penalties which may be imposed against an ignition interlock device manufacturer for improper reporting of ignition interlock data.

Ignition interlock devices installed after July 1, 2018 are required to have a camera and operate wirelessly. The program was streamlined so that ignition interlock device compliance checks are performed electronically, requiring fewer visits by users to service centers.

To comply with statute, the rules modify and strengthen the rolling retest requirements for ignition interlock users. The Department was granted authority to set an ignition interlock device installation fee by rule. The rules establish a new one-time ignition interlock device installation fee of $20 that an ignition interlock user is required to pay beginning July 1, 2018, when an ignition interlock device is installed on a user's vehicle.

b. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed:

Due to the statutory requirement for an IISP to provide ignition interlock services through service centers, with at least one service center located in each county in the state, ignition interlock users throughout the state have greater choice to select an IISP and obtain more accessible services. Without the legislative changes, this ignition interlock service expansion in the state would not have occurred. Use of new ignition interlock devices also allows devices to have compliance checks and violations reported automatically, offering benefits to ignition interlock users. The 2014 rules provided that an ignition interlock user would have a rolling retest violation for refusing or failing to provide any set of four valid breath samples during the user's ignition interlock period. SB 1401 provided that an ignition interlock user who has a set of three consecutive missed rolling retests within 18 minutes during a drive cycle has a violation and receives an extension of 6 months of the user's ignition interlock period. In 2018 the Department modified the rules to implement these provisions, thereby strengthening the rolling retest requirement during a shorter period of time. The rules clarify the information that a manufacturer must report to the Department. Improper reporting of certain activity as a violation has, in some cases, resulted in the Department taking initial corrective action against a driver, that was determined to be in error, and was voided. The Department believes that clarification of reporting requirements and the overall program changes will result in a more effective program for ignition interlock users and the public.

c. The estimated change in frequency of the targeted conduct expected from the rule change:

Expansion of ignition interlock services statewide provides greater choice and accessibility of service center locations in rural and urban areas of the state. Prior to these rule changes, a user's ignition interlock device needed to be calibrated every 30, 60, and 90 days after installation, and later at 60 to 90-day intervals to download user data. The new ignition interlock devices check compliance electronically and require fewer service center visits. With the clarification of reporting requirements and improper reporting, the Department anticipates that improper reporting of user ignition interlock activity will be reduced, which benefits ignition interlock users and the Department. The rules require an IISP to instruct an ignition interlock user and provide information about ignition interlock usage, alcohol violations, and how to avoid violations that extend a user's ignition interlock period. The Department anticipates that greater user compliance with, and understanding of the rules and individual user requirements, will benefit users and the driving public.

2. **Brief summary of the information included in the economic, small business and consumer impact statement:**

Impact on Ignition Interlock Service Providers

Legislation enacted in 2017 and 2018 modified the requirements and process for businesses to provide ignition interlock services. This entailed setting up a process to authorize Ignition Interlock Service Providers that meet set requirements and are approved by the Department to provide statewide ignition interlock services. Ignition interlock service providers who choose to provide statewide ignition interlock services to install, service, repair, and replace ignition interlock devices must meet requirements in the authorization agreement and statute, including fulfilling bond requirements and submitting an implementation plan. The Department has contracted with nine Ignition Interlock Service Providers that collectively operate a total of 279 service centers in 15 counties of the state. IISP's are also responsible for certifying, properly training, and hiring technicians to provide services at service centers to persons required to install an ignition interlock device on their vehicles.

The Department believes that, as a result of legislative changes, there has been a substantial economic impact on those Ignition Interlock Service Providers that have chosen to contract, locate, rent or purchase property, operate, equip, and staff service centers that provide ignition interlock services to residents in all counties of the state. Due to the expansion of service centers and ability to serve additional ignition interlock users in other areas of the state, the Department anticipates that revenue generated over the three-year contract period by the IISP's from various fees they establish and charge ignition interlock users will offset costs and increase substantially.

The rules include a number of new requirements for an IISP. The rules establish a multi-step application process, including submission of an implementation plan, service center and technician applications. Each IISP is required to collect an ignition interlock device installation fee from an ignition interlock user and must transmit this fee electronically to the Department monthly. Since the applications are electronic and fees are submitted electronically, it is anticipated that minimal costs are involved.

To comply with statutory requirements, the rules give the Department additional enforcement authority over an Ignition Interlock Service Provider that violates the contract, statute, or the rules through cease and desist authority. A cease and desist action against a service provider would prevent the provider from doing business, negatively impacting the operation and revenue of the provider.

Impact on Manufacturers

The Department has nine manufacturers that have certified an ignition interlock device. Most of the ignition interlock manufacturers are large businesses that design, construct, and produce ignition interlock devices in many states; several manufacturers operate internationally. For this reason, most manufacturers do not fall within the definition of a small business in A.R.S. § 41-1001.

The statutes require ignition interlock manufacturers to certify ignition interlock devices with cameras and global positioning systems that operate wirelessly, and have these devices available for installation beginning July 1, 2018. Those manufacturers that did not have a device with this capability incurred costs to manufacture a new device and for a laboratory test to ensure the device meets National Highway Traffic Safety Administration requirements. Ignition interlock users with a device installed before July 1, 2018 that was working properly were not required to install a new device. Manufacturers were required to have devices available for users with a new ignition interlock requirement beginning July 1, 2018. Manufacturers must also meet statutory requirements to have product liability insurance for their devices.

The ignition interlock statutes authorize the Department to impose civil penalties for improper reporting. The rules provide that if a manufacturer improperly reports ignition interlock data, the Department may impose a civil penalty that may range for the first occurrence from $100 to $1,000 (for a series of occurrences), for the second occurrence from $250 to $2,500 (for a series of occurrences), and for the third occurrence from $500 to $5,000 (for a series of occurrences).

Manufacturers are responsible for transmitting ignition interlock data and violations to the Department in real-time within 24 hours. The rules define improper reporting of ignition interlock data, violations, and the types of reports that manufacturers must transmit to the Department. The rules require a manufacturer to provide additional information and digital photos of user ignition interlock activity to the Department and require daily electronic reporting. These reporting requirements, changes in rolling retest and other device requirements have required additional programming and Internet transmission costs. A manufacturer provides certified devices for installation to a service provider, which performs installation, service, calibration, and repair services to users, with charges established by each service provider. It is expected that service providers will recover these additional costs through various fees that service providers charge their customers.

A manufacturer has certain recordkeeping requirements during and after the contract period, as well as maintaining individual records in a secure database. To maintain records, a manufacturer has employee, software, and technology costs.

Impact on Ignition Interlock Users

The impact of the rules is on the group of approximately 20,000 drivers, who as of December 2018 are required by the Department or a court to install an ignition interlock device following conviction for a DUI offense. The expansion of service centers throughout the state provides ignition interlock users more options to choose an IISP with a service center located closer to user homes and offices, saving customers time to reach a service center. The rules provide more convenience to ignition interlock users by reducing the number of times a user must drive to a service center to calibrate and download data from a device. The rules contain significant changes for an ignition interlock user by strengthening and increasing the rolling retest requirement. A user must take rolling retests approximately every 6 minutes while driving. For a user who fails to take a set of three consecutive rolling retests within an 18-minute time frame, the Department will extend the ignition interlock period for an additional six months. It should be noted that those users that have a longer ignition interlock period will be responsible for paying more fees and charges to the providers, however, these fees do not result from the rules. Ignition interlock users receive training and information about ignition interlock device operating requirements from service center staff at the time of installation. The rule changes require an ignition interlock user to go to a service center for a calibration check only every 90 days. Previously, a user needed to download data from a device at a service center at 30 and 60 days, but due to the fact that this data is reported in real-time and these compliance checks are performed electronically, users have greater convenience and may pay less in fees to the service provider.

As required by statute, the Department established an ignition interlock device installation fee. Persons who had a new ignition interlock device installed in their vehicle after July 1, 2018 following a DUI conviction are required to pay a one-time ignition interlock installation fee of $20. The Department established the fee at a modest cost to impose the least cost and burden on a user. The Department used an estimate of approximately 20,000 Arizona drivers that have an ignition interlock device on their vehicle at any given time. With a fee of $20 per device installation, the fee was estimated to raise annual revenue of $400,000, which fully covers the administrative costs of the ignition interlock program. This fee is transmitted monthly by a service provider to the Department and used to fund the Department's ignition interlock program. Ignition interlock users are required to pay other additional fees for ignition interlock services from Ignition Interlock Service Providers, however, those additional fees charged at a service center are set individually by that service provider, and not by rule.

3. Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:

Name: Jane McVay

Address: Rules and Policy Development
Arizona Department of Transportation
206 S. 17th Ave., MD 180A
Phoenix, AZ 85007

Telephone: (602) 712-4279

E-mail: jmcvay@azdot.gov

B. Economic, small business and consumer impact statement:

1. Identification of the proposed rulemaking:

See paragraph (A)(1) above.

2. Identification of the persons who will be directly affected by, bear the costs of or directly benefit from the proposed rulemaking:

Persons to bear costs	Persons directly benefiting
Ignition interlock users	Ignition interlock users and the public
Manufacturers	Ignition interlock users and the public
Ignition interlock service providers	Ignition interlock service providers, subcontractors, employees, ignition interlock users, and the public
Department of Transportation	Ignition interlock users and the public

3. Analysis of costs and benefits occurring in this state:

Cost-revenue scale. Annual costs or revenues are defined as follows:

Minimal less than $10,000

Moderate $10,000 to $99,999

Substantial $100,000 or more

a. Probable costs and benefits to ADOT and other agencies directly affected by the implementation and enforcement of the proposed rulemaking:

The economic impact of the rulemaking on the Department includes minimal resources necessary for the rulemaking. The Department also incurs the cost of necessary systems programming changes, database enhancements, and user interface improvements estimated at $77,000 to implement the ignition interlock installation fee, placing the costs in the moderate range. The Department has implemented these rules without hiring any new employees. The rulemaking benefits the Department because reporting from manufacturers of ignition interlock activity has improved, reducing staff time to review ignition interlock data and ensuring that data is reported accurately. Other law enforcement agencies also benefit from more accurate reporting of ignition interlock violations and activity. The Department also benefits from collection of the ignition interlock device installation fee that is used to operate the ignition interlock program. The FY 2020 state budget appropriates $320,000 to the Department from the ignition interlock device fund for the ignition interlock program.

b. Probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the proposed rulemaking:

The rules do not impose any costs on political subdivisions, however, the Department anticipates that law enforcement and courts in political subdivisions will benefit by having improved reporting of user

ignition interlock activity and violations. Ignition interlock users in cities and counties throughout the state will benefit from increased availability of ignition interlock services.

Prior to July 1, 2018, the Department used funds from the Driving Under the Influence Abatement Fund and the State Highway Fund to cover administrative costs of the ignition interlock program. Due to the implementation of the ignition interlock device installation fee, monies from the DUI Abatement Fund may be available to political subdivisions for DUI enforcement grants. Additionally, collection of the ignition interlock device installation fee frees up State Highway Fund monies for right-of-way construction and maintenance of state highways and interstates.

c. Probable costs and benefits to businesses directly affected by the proposed rulemaking, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rulemaking:

Legislation enacted in 2017 and 2018 authorized the Department to contract with Ignition Interlock Service Providers to provide calibration, installation, service, and removal of ignition interlock devices to users beginning July 1, 2018 for a period of at least three years. A total of nine Ignition Interlock Service Providers contracted with the Department to provide these services through subcontractors or employees. With the statutory requirement for an Ignition Interlock Service Provider to sign a three-year contract with the Department to provide ignition interlock services and have service center locations in all counties, Ignition Interlock Service Providers are expected to have significant increases in facility, payroll, equipment, and other business costs, as well as significant increases in revenue due to an increase in users served.

4. General description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the proposed rulemaking:

The Department has not hired any new employees to implement this rulemaking. The expansion of ignition interlock services throughout the state may have had a minor positive impact on private sector employment with the hiring of additional employees or subcontractors. The Department does not anticipate any other employment impacts due to the rulemaking.

5. Statement of the probable impact of the proposed rulemaking on small businesses:

a. Identification of the small businesses subject to the proposed rulemaking:

A.R.S. § 41-1001 defines a small business as a concern that is independently owned and operated, not dominant in its field, and which employs fewer than 100 full-time employees, or which had gross annual receipts of less than $4,000,000 last fiscal year. Most of the existing ignition interlock service providers offer ignition interlock services in numerous other states, and do not fall in the definition of a small business. One ignition interlock service provider offers ignition interlock and other services internationally in 140 countries with about 14,000 employees, generating revenue of $2.6 billion in Euros in 2018. At the present time, there are nine Ignition Interlock Service Providers contracted with the Department.

b. Administrative and other costs required for compliance with the proposed rulemaking:

The Department anticipates that the administrative requirements of the rules will have a minimal economic impact on qualified persons and businesses that provide ignition interlock services.

c. Description of the methods that ADOT may use to reduce the impact on small businesses:

The 2017 and 2018 ignition interlock legislation did not provide any options for Department to reduce the impact of the legislation or rules on small businesses. Small businesses that meet the qualifications to provide ignition interlock services in the state, fulfill the statutory and regulatory requirements, complete the necessary applications, and submit an implementation plan approved by the Department may provide ignition interlock services. The ignition interlock statutes do not contain an exemption for a small business owner who is required by a court or the Department to install an ignition interlock device on their vehicle.

d. Probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking:

The Department believes that the expansion of ignition interlock services from service centers throughout all Arizona counties benefits ignition interlock users, especially in the rural areas where ignition interlock services were limited and previously available only as mobile services. The rules also provide efficiencies and savings to users through electronic submission of compliance checks without requiring service center visits. As authorized by statute, the rules established a one-time ignition interlock device installation fee of $20 beginning July 1, 2018 for ignition interlock users following a DUI conviction. In order to impose the least burden on ignition interlock consumers, the Department chose this modest fee, which funds the monitoring, oversight, and administration of the ignition interlock program and the Ignition Interlock Service Providers. This is the only fee that an ignition interlock consumer pays that the Department receives to cover the ignition interlock program costs. Overall, the Department believes the rules impose the least burden and costs to consumers who need these services.

6. Statement of the probable effect on state revenues:

This ignition interlock device installation fee paid by ignition interlock users beginning July 1, 2018 is transmitted to the Department for deposit in the ignition interlock device fund, which must be used to cover administrative functions of the Department's ignition interlock program. The funds are not deposited in the state general fund, and will not increase state revenue. The expansion of ignition interlock services to users through Ignition Interlock Service Providers and the hiring of additional employees or contractors may have a minor increase in corporate and individual income tax payment in the state.

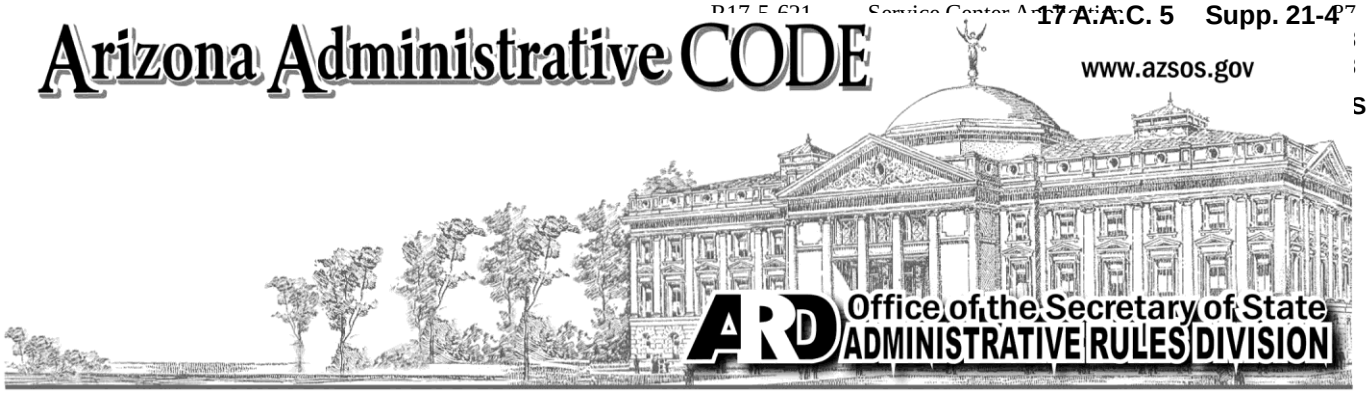
7. Description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rulemaking, including the monetizing of the costs and benefits for each option and providing the rationale for not using non-selected alternatives:

See 5(c)

C. Explanation of limitations of the data and the methods that were employed in the attempt to obtain the data and a characterization of the probable impacts in qualitative terms. The absence of adequate data, if

explained in accordance with this subsection, shall not be grounds for a legal challenge to the sufficiency of the economic, small business and consumer impact statement:

None



TITLE 17. TRANSPORTATION

CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

ARTICLE 6. IGNITION INTERLOCK DEVICE MANUFACTURERS AND IGNITION INTERLOCK SERVICE PROVIDERS

Editor's Note: The heading to Article 6 was corrected in this Table of Contents in Supp. 19-4 as amended by final exempt rulemaking at 24 A.A.R. 1725 and released in Supp. 18-2.

ber 1, 2007 (Supp. 07-4). Article 7 introduction added for clarifica- tion per the Department's request (Supp. 09-2).

Article 7, consisting of Sections R17-5-701 through R17-5-706, repealed by final rulemaking at 12 A.A.R. 2297, effective August 5, 2006 (Supp. 06-2).

ARTICLE 6. IGNITION INTERLOCK DEVICE MANUFACTURERS AND IGNITION INTERLOCK SERVICE PROVIDERS

R17-5-601. Definitions

In addition to the definitions provided under A.R.S. §§ 28-101 and 41-1072, in this Article, unless the context otherwise requires, the following terms apply:

"Alcohol concentration" means the weight amount of alcohol contained in a unit volume of breath or air, measured in grams of ethanol/210 liters of breath or air and expressed as grams/ 210 liters.

"Alveolar breath sample" means the last portion of a prolonged, uninterrupted exhalation from which breath alcohol concentrations can be determined.

"Anticircumvention feature" means any feature or circuitry incorporated into the ignition interlock device that is designed to prevent human activity that would cause the device not to operate as intended.

"Authorization agreement" or "agreement" means an agreement authorized by the Director that an IISP enters into with the Department to provide ignition interlock services under
A.R.S. § 28-1468.

"Breath alcohol test" means analysis of a sample of the person's expired alveolar breath to determine alcohol concentra- tion.

"Bump starting" means a method of starting a motor vehicle with an internal combustion engine by engaging the manual transmission while the vehicle is in motion.

"Business day" means a day other than a Saturday, Sunday, or state holiday.

"Calibration" means the testing, adjustment, or systematic standardization of an ignition interlock device to determine and verify its accuracy.

"Cancellation" means the termination of a manufacturer's ignition interlock device certification for ignition interlock device installation.

"Certification" means a status granted by the Department under this Article, which permits a certified ignition interlock device manufacturer to offer an ignition interlock device for installation.

"Certified ignition interlock device," "CIID," or "device" means a device that is based on alcohol specific electrochemi- cal fuel sensor technology that meets the NHTSA specifica- tions; that connects a breath analyzer to a motor vehicle's ignition system; that is constantly available to monitor the alcohol concentration in the breath of any person attempting to start the motor vehicle by using its ignition system; that deters starting the vehicle by use of its ignition system unless the per- son attempting to start the motor vehicle provides an appropri- ate breath sample for the device; and determines whether the alcohol concentration in the person's breath is below a preset level.

"Circumvent" or "circumvention" means an attempted or suc- cessful bypass of the proper functioning of a certified ignition interlock device and includes all of the following:

The bump start of a motor vehicle with a certified ignition interlock device;

The introduction of a false sample other than a deep-lung breath sample from the person driving the motor vehicle;

The introduction of an intentionally contaminated or a filtered breath sample;

The intentional disruption or blocking of a digital image identification device;

The continued operation of the motor vehicle after the certified ignition interlock device detects breath alcohol exceeding the presumptive limit prescribed in A.R.S. § 28-1381(G)(3) or, if the person is under 21 years of age, any attempt to operate the motor vehicle with any spirituous liquor in the person's body;

Operating a motor vehicle without a properly functioning certified ignition interlock device and;

When a person, who is required to maintain a functioning certified ignition interlock device is starting or operating the motor vehicle, permits another individual to breathe into the certified ignition interlock device for the purpose of providing a breath alcohol sample to start the motor vehicle or for the rolling retest.

"Corrective action" means an action specified in or reasonably implied from Title 28, Chapter 4, Arizona Revised Statutes, that the Department takes in relation to a person's driving privilege and the usage or discontinuation of usage of a CIID.

"Customer number" means the system-generated, or other distinguishing number, assigned by the Department to each person conducting business with the Department. The customer number of a private individual is generally the person's driver license or non-operating identification license number.

"Data logger" means the electronic record of all ignition interlock device activity during the period when the device is installed.

"Data storage system" means a computerized recording of all events monitored by an ignition interlock device, which may be reproduced in the form of specific reports.

"Defective ignition interlock device" means an ignition interlock device that:

1. Does not meet the NHTSA specifications;
2. Does not pass calibration tests; or
3. Does not meet the accuracy and device standards prescribed in these rules.

"Drive cycle" means either the period of time from when a motor vehicle is initially turned on to the next time the ignition is turned off, or the period of time from when an initial breath alcohol test is performed and failed, to the time a breath alcohol test is successfully taken and the ignition is turned off.

"Early recall" means that a person's ignition interlock device recorded one tampering or circumvention event, any ignition interlock malfunction, or any four valid reportable violations within a continuous 90-day period, that requires a person to return to a service center within 72 hours.

"Emergency bypass" means an event that permits a vehicle equipped with an ignition interlock device to be started without requiring successful completion of a required breath alcohol test.

"Emergency situation" means a circumstance in which the person informs the IISP or IISP-certified technician that the person's vehicle needs to be moved to comply with the law, or the person has a valid and urgent need to operate the vehicle.

"Established place of business" means a business location that is:

Approved by the Department;

Located in Arizona;

Not used as a residence; and

Where an IISP or its agent or subcontractor provides authorized ignition interlock services.

"False sample" means any sample other than the unaltered, undiluted, or unfiltered alveolar breath sample coming from the person.

"Filtered breath sample" means any mechanism by which there is an attempt to remove alcohol from the human breath sample.

"Free restart" means a function of a CIID that will allow a person to restart the vehicle, under the conditions provided in R17-5-615, without completing another breath alcohol test.

"FTP" means file transfer protocol, the exchange of files over any network that supports electronic data interchange reporting that is transmitted through the Internet and prescribed by the Department.

"Global positioning system" means the ability of a wireless certified ignition interlock device to identify and transmit its geographic location through the operation of the device.

"Ignition interlock device installation fee" means the fee required in A.R.S. § 28-1462, and established by the Department in R17-5-614, that is paid by a person to an IISP when a CIID is installed on, or transferred to a person's vehicle.

"Ignition interlock period" means the period in which a person is required to use a CIID that is installed on a vehicle.

"Ignition interlock service provider" or "IISP" means a person who is an authorized representative of a manufacturer and who is under contract with the Department to install or oversee the installation of ignition interlock devices by the provider's authorized agents or subcontractors and to provide services to the public related to ignition interlock devices.

"Improper reporting" means any of the following:

Failure of a manufacturer to report any violations to the Department within 24 hours as required in R17-5-610(D)(1), or failure to send a person's ignition interlock reporting records, including records relating to a violation, to the Department as required in R17-5-612(C);

Failure of a manufacturer to submit to the Department valid and substantiated proof or evidence of a reportable activity related to a violation, including a summary report and relevant data loggers as required in R17-5-610(D)(2), within 10 days after the Department's request;

Failure of a manufacturer to electronically send each Certified Ignition Interlock Summarized Reporting Record to the Department within 24 hours, after performing a calibration check, that results in the Department mailing a driver license suspension to a person;

Failure of a manufacturer to electronically send a Certified Ignition Interlock Device Summarized Reporting

Record to the Department within 24 hours after installing a CIID;

Electronic reporting by a manufacturer to the Department, of data that is an exact duplicate of a single violation that occurs on a particular day and time and is reported multiple times;

Knowingly reporting a violation that occurs when a participant's vehicle has high or low voltage;

Reporting an incident that occurs when a person has a free restart test to start the person's vehicle;

Reporting an incident that occurs in which a manufacturer downloads data from the device during a calibration check and tampers with the data or a CIID;

Failure of a manufacturer to validate any person's ignition interlock period extension within 10 days; or

Reporting an incident that occurs after the person's vehicle is turned off.

"Independent laboratory" means a testing facility, not owned or operated by a manufacturer, that can test an ignition interlock device according to the Model Specifications for Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.

"Manufacturer" means a person or an organization that is located in the United States, that is responsible for the design, construction, and production of an ignition interlock device and that is certified by the Department to offer ignition interlock devices for installation in motor vehicles in this state.

"Material modification" means a change to a CIID that affects the functionality of the device.

"Missed rolling retest" means the person refused or failed to provide a valid and substantiated breath sample while operating the motor vehicle, in response to a requested rolling retest within the time period prescribed in R17-5-615(E).

"Mobile services" means ignition interlock services provided by an IISP or its agents or subcontractors at a publicly accessible location other than the IISP's service center, that meet the requirements of R17-5-618.

"NHTSA" means the United States Department of Transportation's National Highway Traffic Safety Administration.

"NHTSA specifications" means the specifications for breath alcohol ignition interlock devices published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.

"Permanent lock-out" means a feature of the CIID in which a motor vehicle will not start until the CIID is reset by an IISP or an IISP-certified technician.

"Person" means a person who is ordered by an Arizona court or the Department to equip each motor vehicle operated by the person with a functioning CIID, and who becomes a customer of an IISP for installation and servicing of the CIID.

"Positive result" means a test result indicating that the alcohol concentration meets or exceeds the set point value.

"Principal place of business" means the administrative headquarters of a manufacturer or an IISP that is located in Arizona, is zoned for commercial, and is not used as a residence.

"Purge" means any mechanism that cleanses or removes a previous breath or reference sample from the device and specifically removes alcohol.

"Real-time" or "real-time reporting" means the instant transmission of unfiltered ignition interlock violations as defined in R17-5-601, and data as prescribed in R17-5-610, including digital images, to the manufacturer's website for viewing by the Department without delay, as electronic or digital service permits.

"Reference sample device" means a device containing a sample of known alcohol concentration.

"Reference value" means an alcohol reference solution prepared and tested in a laboratory with a reference value and used to perform an accuracy check of the calibration of a CIID.

"Retest set point" has the same meaning as set point.

"Rolling retest" means a breath alcohol test that is required of a person at random intervals after the motor vehicle is started and that is in addition to the initial test required to start the motor vehicle.

"Service center" means an established place of business approved by the Department from which an IISP or its agents or subcontractors provide ignition interlock services to persons from one or more counties.

"Set point" means an alcohol concentration of 0.020 g/210 liters of breath.

"Tampering" means an overt or conscious attempt to physically disable or otherwise disconnect the CIID from its power source that allows the operator to start the engine without taking and passing the requisite breath test.

"Technician" means a person who is certified and properly trained by an ignition interlock service provider to install, inspect, calibrate, service or remove certified ignition interlock devices.

"Temporary lock-out" means a feature of the CIID which will not allow a motor vehicle to start for five minutes after a breath alcohol test result indicating an alcohol concentration above the set point.

"Vehicle identification number" or "VIN" means the unique code, including serial number, used by an automobile manufacturer to identify a specific motor vehicle.

"Violation" (when referencing acts or omissions on the part of a person in the ignition interlock program) includes, but is not limited to any of the following reportable activities performed by a person which a manufacturer shall promptly report to the Department:

Circumventing the CIID as defined in R17-5-601;

Tampering with the CIID as defined in A.R.S. § 28-1301;

Failing to provide proof of compliance or inspection of the CIID under A.R.S. § 28-1461(E)(4);

Attempting to operate the vehicle with an alcohol concentration of 0.08 or more as prescribed in A.R.S. § 28-1461(E)(5) if the person is at least 21 years of age;

Attempting to operate the vehicle with an alcohol concentration value in excess of the set point if the person is under 21 years of age;

Refusing or failing to provide any set of three consecutive valid and substantiated breath samples in response to a requested rolling retest within an 18-minute time frame during a person's drive cycle;

Disconnecting or removing a CIID, except:

On repair of the vehicle, if the person provided to the IISP, technician, or service center advance notice of the repair and the anticipated completion date; or

On moving the device from one motor vehicle to another motor vehicle if replacement of the device is accomplished within 72 hours of device removal.

"Violation reset" means the unplanned servicing and inspection of a CIID and the downloading of information from its data storage system by an IISP as a result of an early recall that requires the manufacturer to unlock the device.

Historical Note

New Section recodified from R17-4-709 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-602. Ignition Interlock Device Manufacturer Certification; Expiration; Cancellation of Certification; Notice

A. An ignition interlock device manufacturer shall obtain certification by the Department under this Article before offering a new ignition interlock device model and before making material modifications to an existing ignition interlock device model for implementation and installation under Arizona law.

B. Ignition interlock device certification by an ignition interlock device manufacturer shall occur prior to the IISP signing an authorization agreement with the Department.

C. After receiving Department certification for a new ignition interlock device model and meeting all the requirements under R17-5-604, the ignition interlock device manufacturer is effectively certified by the Department to offer the certified ignition interlock device model for installation under Arizona law.

D. An ignition interlock device manufacturer shall submit a new application to the Department under R17-5-604 for the certification of each new ignition interlock device model the manufacturer intends to offer for installation.

E. Manufacturer certification issued by the Department under this Article shall automatically expire if:

1. The manufacturer no longer provides at least one currently certified ignition interlock device model for installation under Arizona law; and
2. The manufacturer has no pending application on file with the Department for the certification of a device under R17-5-604.

F. Manufacturer certification of an ignition interlock device that was previously approved by the Department under this Article shall automatically expire within one year after the certification is granted if the manufacturer has not contracted with an IISP currently contracted with the Department to install the CIID.

G. After the one-year cancellation period in subsection (F) ends, a manufacturer may reapply to the Department for certification by completing a new application for the certification of a device and meeting all certification requirements under this Article.

H. If the Department determines that a manufacturer fails to properly report ignition interlock information and data to the Department in the manner prescribed in these rules, the Department may immediately provide written notice to the manufacturer with the following information:

1. The name of the person and the date of the improper reporting; and
2. The manufacturer shall send the required record or report to the Department within ten business days, if applicable.

I. If the manufacturer fails to remedy the issues identified in the notice within ten business days, the Department may cancel the manufacturer device certification.

J. If a manufacturer's certification expires as a result of subsections (E)(1) and (E)(2), the manufacturer may reapply for certification by submitting a new application to the Department for the certification of a device under R17-5-604.

K. A manufacturer shall only appoint one IISP that is contracted with the Department and serves as an authorized representative of the manufacturer to provide ignition interlock services to the public.

L. A manufacturer shall notify the Department within 24 hours if an IISP is no longer authorized by a manufacturer to install its CIID.

Historical Note

New Section recodified from R17-4-709.01 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-602 renumbered to R17-5-604; new R17-5-602 made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-603. Device Requirements, Technical Specifications, and Standards for Setup and Calibration

A. The accuracy of the CIID shall be determined by analysis of an external standard generated by a reference sample device.

B. A device shall have a demonstrable feature designed to assure that a breath sample measured is essentially alveolar.

C. A test of alcohol-free samples shall not yield a positive result. Endogenously produced substances capable of being present in the breath shall not yield or significantly contribute to a positive result.

D. All devices shall meet the setpoint requirements of R17-5-601 and the following requirements:

1. Be calibrated to have an accuracy within plus or minus 0.005 g/210L of the reference value;
2. Be calibrated using a known reference value between .020 g/210L and .050 g/210L; and
3. Be accompanied by a Certificate of Analysis (COA).

E. A device shall be designed so that anticircumvention features will be difficult to bypass.

1. Anticircumvention provisions on the device shall include, but are not limited to, prevention or preservation of any evidence of circumvention by attempting to use a false or filtered breath sample or electronically bypassing the breath sampling requirements of a device.
2. A device shall use special seals or other methods that reveal attempts to bypass lawful device operation.

F. A CIID shall have global positioning system capability, and the manufacturer shall electronically and wirelessly download in real-time from the device and transmit daily to the Department, a person's ignition interlock activity in an FTP batch file.

G. A CIID shall be equipped with a camera, which shall not distract or impede the driver in any manner from safe and legal

operation of the vehicle, shall record all ignition interlock activity of the person, and shall provide any visual evidence of actual or attempted tampering, alteration, bypass, or circumvention, and report this information directly to the manufacturer.

H. The camera shall be able to record and store visual evidence of each person providing a breath alcohol test, and shall meet the following requirements:
1. At device installation, the camera shall take a reference picture of the person, which shall be kept on file;
2. A clear digital image shall be taken for each event, including initial vehicle start, all rolling retests, and whenever a violation is recorded;
3. Each digital image shall be a wide-angle view of the front cabin of the vehicle, including the passenger side, to ensure the camera can clearly capture the entire face of the person and any passengers; and
4. The camera shall produce a digital image of the person in all lighting conditions, including brightness, darkness, and low light conditions.

I. A device shall:
1. Automatically purge alcohol before allowing analysis.
2. Have a data storage system with the capacity to sufficiently record and maintain a record of the person's daily driving activities that occur between each regularly scheduled calibration check referenced under R17-5-610 and R17-5-706. An IISP shall download and transmit any digital images taken during a person's calibration check, during each rolling retest, and each time a person with the ignition interlock requirement or another individual starts the motor vehicle. A manufacturer shall make these digital images available to the Department on request.
3. Use the most current version of the manufacturer's software and firmware to ensure compliance with this Article and any other applicable rule or statute. The manufacturer's software and firmware shall:
   a. Require device settings and operational features to include, but not limited to, sample delivery requirements, the set point, free restart, rolling retest requirements, violation settings, and temporary and permanent lock-outs; and
   b. Prohibit modification of the device settings or operational features by a service center, or an IISP-certified technician unless the Department approves the modification under subsection (J).
4. Record all emergency bypasses in its data storage system.
5. Provide a visual reminder on the device that a calibration check must be performed on the person's CIID every 90 days, with prominent device notifications during each 77-day to 90-day interval within a person's ignition interlock period, of the following:
   a. The device needs service; and
   b. The time remaining until a permanent lock-out occurs.
6. Notify a person that failure to get the calibration check, including calibration and data download, by the end of each 90-day period will cause the vehicle to be in a permanent lock-out mode, and shall record the event in the data storage system.
7. On recording a violation of A.R.S. Title 28, Chapter 4, Article 5 for one instance of tampering or circumvention, any ignition interlock device malfunction, or any four valid reportable violations within a continuous 90-day period, emit a unique cue, either auditory, visual, or both, to warn a person that an early recall is initiated, requiring the person to return to the IISP in 72 hours for a violation reset.
8. Enter into a permanent lock-out if a person does not return to the IISP for a violation reset within 72 hours after an early recall occurs.
9. When a violation results in a permanent lock-out mode, the device shall:
   a. Immobilize the person's vehicle;
   b. Uniquely record the event in the data storage system; and
   c. Require a violation reset by the IISP.
10. Enter into a temporary lock-out mode for five minutes when the device detects during the initial breath alcohol test that a person's breath alcohol concentration is at or above the set point.
11. After the five-minute temporary lock-out, the device shall allow subsequent breath alcohol tests with no further lock-out as long as each subsequent test produces a valid and substantiated breath test.
12. Have security protections and the capability to provide visual evidence of any actual or attempted tampering, alteration or bypass of the device, or circumvention.

J. No modification shall be made to the design or operational concept of a device model after the Department has certified the device for installation under Arizona law, except that:
1. A software or firmware update required to maintain a device model is permissible if the update does not modify the design or operational concept of the device.
2. Replacement, substitution, or repair of a part required to maintain a device model is permissible if the part does not modify the design or operational concept of the device.
3. If a manufacturer determines that an existing Department-certified ignition interlock device model requires any modification, the manufacturer shall immediately notify the Department.

Historical Note

New Section recodified from R17-4-709.02 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-603 renumbered to R17-5-606; new R17-5-603 made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-604. Ignition Interlock Device Certification; Application Requirements

A. A manufacturer shall offer for installation only an ignition interlock device that is certified by the Department under this Section.

B. To certify an ignition interlock device model, a manufacturer shall submit to the Department a properly completed application form that provides:
1. The manufacturer's name;
2. The address of the manufacturer's principal place of business in this state and telephone number;
3. The manufacturer's status as a sole proprietorship, partnership, limited liability company, or corporation;
4. The name of the sole proprietor or of each partner, officer, director, manager, member, agent, or 20% or more stockholder;

5. The name and model number of the ignition interlock device and the name under which the ignition interlock device will be marketed; and
6. The manufacturer's electronic mail address.
7. The following statements, signed by the manufacturer:
   a. A statement that all information provided on the application form, including all information provided on any attachment to the application form, is complete, true, and correct;
   b. A statement that the manufacturer agrees to indemnify and hold harmless the state of Arizona and any department, division, agency, officer, employee, or agent of the state of Arizona from all liability for:
      i. Damage to property or injury to people arising, directly or indirectly, out of any act or omission by the manufacturer or the manufacturer's authorized IISP relating to the installation and operation of the ignition interlock device; and
      ii. All court costs, expenses of litigation, and reasonable attorneys' fees;
   c. A statement that the manufacturer agrees to comply with all requirements under this Article; and
   d. A statement that the manufacturer agrees to immediately notify the Department of any change to the information provided on the application form.

C. A manufacturer shall submit the following additional items with the application form:
1. A document that provides a detailed description of the ignition interlock device and a digital image, drawing, or other graphic depiction of the device;
2. A document that contains the complete technical specifications for the accuracy, reliability, security, data collection, recording, and tamper detection capabilities of the ignition interlock device;
3. An independent laboratory's report for each device model that:
   a. Presents supporting data to demonstrate that the ignition interlock device meets or exceeds the test results required by the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015. The NHTSA specifications and technical corrections are incorporated by reference and are on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007, and the NHTSA Office of Research and Technology, 1200 New Jersey Avenue SE, Washington, D.C. 20590. This incorporation by reference contains no future editions or amendments;
   b. Provides the independent laboratory's name, address, and telephone number; and
   c. Provides the name and model number of the ignition interlock device tested.
4. A laboratory certification form, signed by an authorized representative of the independent laboratory that prepared the report required under subsection (C)(3), that states all of the following:
   a. The laboratory is not owned or operated by a manufacturer and no other conflict of interest exists.
   b. The laboratory tested the ignition interlock device in accordance with the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013 with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.
   c. The laboratory confirms that the ignition interlock device meets or exceeds the test results required under the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.
   d. The laboratory used properly maintained equipment and trained personnel to test the ignition interlock device.
   e. The laboratory presented accurate test results to the Department.
5. A certificate of insurance, issued by an insurance company authorized to transact business in Arizona, specifying:
   a. A product liability policy with a current effective date;
   b. The name and model number of the ignition interlock device model covered by the policy;
   c. Policy coverage of $1,000,000 and $3,000,000 in the aggregate;
   d. The manufacturer as the insured and the state of Arizona as an additional insured;
   e. Product liability coverage for defects in manufacture, materials, design, calibration, installation, and operation of the ignition interlock device; and
   f. The insurance company shall notify the Department's Risk Management, Insurance and Indemnification Section in writing at least 30 days before canceling the product liability policy.
6. A statement that the ignition interlock device has a camera, includes a global positioning system, and provides real-time reporting.

D. For any installation of a certified ignition interlock device or any replacement of a device on a person's motor vehicle with another device, an IISP or an IISP-certified technician shall install only a certified ignition interlock device that meets the additional requirements in this Article, and meets or exceeds the test results required by the Model Specifications for Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.

E. A person whose CIID was installed prior to July 1, 2018, that does not meet all the requirements of subsection (D) shall return to the person's IISP by October 1, 2020 to exchange the CIID for a CIID that meets all the requirements of subsection (D).

Historical Note

New Section recodified from R17-4-709.03 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-604 renumbered to R17-5-607; new R17-5-604 renumbered from R17-5-602 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-605. Application Processing; Time Frames; Exception

A. The Department shall process an application for ignition interlock device certification only if an applicant meets all applicable application requirements.

B. The Department shall, within 10 days of receiving an application for certification, provide notice to the applicant that the application is either complete or incomplete.
1. The date of receipt is the date the Department receives the application.
2. If an application is incomplete, the notice shall specifically identify what required information is missing.

C. An applicant with an incomplete application shall provide all missing information to the Department within 15 days of the date indicated on the notice provided by the Department under subsection (B).
1. After receiving all of the required information, the Department shall notify the applicant that the application is complete.
2. The Department may deny certification of an ignition interlock device if the applicant fails to provide the required information within 15 days of the date indicated on the notice.

D. Except as provided under subsection (F), the Department shall render a decision on an application for certification of an ignition interlock device within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the applicant under subsections (B) or (C)(1).

E. For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for certification of an ignition interlock device:
1. Administrative completeness review time frame: 10 days.
2. Substantive review time frame: 30 days.
3. Overall time frame: 40 days.

F. Established time frames may be suspended by the Department under A.R.S. § 41-1074 for certification of an ignition interlock device until the Department receives all external agency approvals required for certifying a new ignition interlock device model from the Department of Public Safety.

Historical Note

New Section recodified from R17-4-709.04 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-605 renumbered to R17-5-608; new R17-5-605 made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-606. Application Completeness; Denial of Ignition Interlock Device Certification; Hearing

A. An application for certification of an ignition interlock device model is complete when the Department receives:
1. From the manufacturer, a properly prepared application form;
2. From the manufacturer, all additional items required under R17-5-604(C);
3. From the Department of Public Safety, under A.R.S. § 28-1462, written confirmation or disapproval of the independent laboratory's report that the ignition interlock device meets or exceeds the NHTSA specifications in R17-5-604(C); and
4. From the manufacturer, a letter or notification that the device meets the following standards:
   a. The anticircumvention features in R17-5-603(E),
   b. The data storage capacity requirement in R17-5-603(I)(2), and
   c. The constant communication requirement in R17-5-610(O).

B. The Director shall deny an application for certification of an ignition interlock device model if all requirements of subsection (A) are not met, or on finding any of the following:
1. The design, material, or workmanship is defective, causing the ignition interlock device model to fail to function as intended;
2. The manufacturer's product liability insurance coverage is terminated or canceled;
3. The manufacturer no longer offers the ignition interlock device model for installation under Arizona law;
4. The manufacturer or the independent laboratory provided false or inaccurate information to the Department relating to the performance of the ignition interlock device model;
5. The components, design, or installation and operating instructions have undergone a modification that causes the ignition interlock device model to be out of compliance with the NHTSA specifications in R17-5-604(C), the requirements in this Article; or
6. The Department receives a report of device disapproval from an independent laboratory or other external reviewer.

C. The Department shall mail to the manufacturer, written notification of the certification or denial of certification of an ignition interlock device model. A notice denying certification of an ignition interlock device model shall specify the basis for the denial and indicate that the applicant may, within 15 days of the date on the notice, request a hearing on the Director's decision to deny certification by filing a written request with the Department's Executive Hearing Office as prescribed under 17 A.A.C. 1, Article 5.

D. If a manufacturer timely requests a hearing on the Director's decision to deny certification of an ignition interlock device model, the Department's Executive Hearing Office shall conduct the hearing as provided under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5.

Historical Note

New Section recodified from R17-4-709.05 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-606 renumbered to R17-5-609; new R17-5-606 renumbered from R17-5-603 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-607. Cancellation of Device Certification; Hearing

A. The Director shall cancel an ignition interlock device model certification and remove the device from its list of CIID's on finding any of the following:
1. The design, material, or workmanship contains a defect that causes the ignition interlock device model to fail to function as intended;
2. The manufacturer's product liability insurance coverage is terminated or canceled;
3. The manufacturer no longer offers the ignition interlock device model for installation under Arizona law;
4. The manufacturer or independent laboratory provided false or inaccurate information to the Department relating to the performance of the ignition interlock device model;
5. The components, design, or installation and operating instructions have undergone a modification that causes the ignition interlock device model to be out of compliance with the NHTSA specifications in R17-5-604(C);

6. The manufacturer instructs the Department to cancel its certification of the ignition interlock device model;
7. The manufacturer, the IISP, or the device does not comply with this Article or any other applicable rule or statute; or
8. If the manufacturer has not contracted with an IISP authorized by the Department within one year after the device model certification.

B. The Department, on finding any of the conditions described under subsection (A), or on finding that the manufacturer failed to timely remedy the issues identified in the notice provided under R17-5-602(H), shall mail to the manufacturer a notice and order of cancellation of certification for the specific ignition interlock device model. The notice and order of cancellation shall:
1. Specify the basis for the action;
2. Specify the date when the one-year decertification begins and ends; and
3. State that the manufacturer may, within 15 days after receipt of a notice and order of manufacturer device model cancellation, file a written request for a hearing with the Department's Executive Hearing Office as prescribed under 17 A.A.C. 1, Article 5, to show cause as to why the ignition interlock device certification should not be cancelled.

C. If a hearing to show cause is timely requested, the Department's Executive Hearing Office shall conduct the hearing as prescribed under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5. The request for a hearing stays the summary cancellation of manufacturer device model certification.

D. Within 10 days after a hearing, the hearing officer shall issue to the manufacturer a written decision, which shall:
1. Provide findings of fact and conclusions of law; and
2. Grant or cancel the certification.

E. If the hearing officer affirms the manufacturer device model cancellation, the manufacturer may seek judicial review under A.R.S. Title 12, Chapter 7, Article 6, within 35 days of the date when a copy of the decision sought to be reviewed is served upon the party affected unless the court grants a stay while the appeal is pending.

F. Within 60 days after the effective date of an order of cancellation, the manufacturer shall, at the manufacturer's own expense, ensure the removal of all ignition interlock devices that are not certified and facilitate the replacement of each device with a CIID.

G. The manufacturer of a previously decertified ignition interlock device model may reapply to the Department for certification of another ignition interlock device model under R17-5-604 after the one-year device decertification period ends.

H. After cancellation, the Department shall notify the IISP and the IISP-certified technicians that each of them is prohibited from installing the ignition interlock device for which the device certification was cancelled.

I. Cancellation of a manufacturer's device model certification prohibits the manufacturer from performing its duties with respect to the device model that has been cancelled and making the device model available for installation in the state for a period of one year from the latest of the following dates when:
1. The Department cancels a manufacturer's device model certification, or
2. The Department's Executive Hearing Office cancels the manufacturer's device model certification.

R17-5-608. Modification of a Certified Ignition Interlock Device Model

A. A manufacturer shall notify the Department in writing at least 10 days before a material modification is made to a certified ignition interlock device model.

B. Before providing a previously certified but materially modified ignition interlock device model for installation in a motor vehicle under an order of an Arizona court or the Department, a manufacturer shall:
1. Submit to the Department a completed application form with the information required under R17-5-604(B) and all additional items required under R17-5-604(C), and
2. Obtain certification of the materially modified ignition interlock device from the Department.

C. The Department's certification of a materially modified ignition interlock device model does not affect the original certification of the unmodified model.

Historical Note

New Section recodified from R17-4-709.07 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-608 renumbered to R17-5-611; new R17-5-608 renumbered from R17-5-605 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-609. IISP and Manufacturer Responsibilities

A. An IISP shall refer a person only to the IISP's certified technician.

B. An IISP shall provide the Department and each person with a toll-free telephone number to call to obtain the names and phone numbers of the IISP's certified technicians, the IISP ser-

vice center locations, and hours of operation for the IISP service centers.

C. An IISP shall certify each technician by providing adequate training and oversight for the technician to perform one of the activities at a service center, which are installation, inspection, calibration, service, or removal of a CIID.

D. An IISP shall provide to every person operating a motor vehicle equipped with a CIID, and any other persons who will operate the motor vehicle, training on how to operate the motor vehicle. An IISP shall instruct the person on all of the following:
1. How to use the system;
2. How to obtain service for the CIID;
3. How to find answers to any additional questions;
4. How the alcohol retest feature works;
5. How drinking alcohol before a test may result in a reading of sensitive or fail;
6. How the CIID shall not be removed, except by an IISP or IISP-certified technician;
7. How noncompliance with a regularly scheduled calibration check for a person with a limited or restricted driving privilege shall result in suspension of the person's driving privilege under A.R.S. § 28-1463 until proof of compliance is submitted to the Department under A.R.S. § 28-1461, and the duration of the person's certified ignition interlock device requirement shall be extended under A.R.S. § 28-1461;
8. What the penalties are for circumvention of the CIID;
9. What the penalties are for tampering with, or misusing the CIID;
10. What will happen after failing a start-up breath alcohol test;
11. What will happen after a person has a set of three consecutive valid and substantiated missed rolling retests within an 18-minute time frame during a drive cycle; and that a person shall not avoid compliance with the rolling retest requirement by turning off a motor vehicle's ignition or by keeping the motor vehicle in operation while the vehicle is parked, and leaving the vehicle when a rolling retest is requested;
12. What events or actions will result in a temporary or permanent lock-out of the CIID; and
13. How to provide a properly delivered alveolar breath sample.

E. An IISP shall have each person sign a document stating that the IISP has instructed the person regarding each topic contained in subsections (D) and (L), and has received the manufacturer's written instructions for operation of the CIID.

F. An IISP shall inform a person that a compliance check on a CIID is required 30 days and 60 days after installation of the device, which shall be done electronically.

G. An IISP shall inform each person to bring the vehicle to a service center for a calibration check within every 77 to 90-day period until the person is eligible for device removal.

H. An IISP shall check each CIID for evidence of tampering at least once every 90 days or more frequently if needed. This anticircumvention check shall be conducted at each person's calibration check at a service center as required under R17-5-706.

I. An IISP shall ensure that the manufacturer reports to the Department electronically under R17-5-610 if any evidence of tampering is discovered, and the manufacturer shall submit valid and substantiated proof or evidence of a reportable activity. An IISP shall keep visual evidence of a person's tampering or circumvention for a minimum of three years after the termination of the person's required ignition interlock period.

J. An IISP shall submit to the Department a list of the IISP-certified technicians, subcontractors, or agents, and service centers at the beginning of the contract with the Department, within 5 business days of making a change to the list previously provided, and on a monthly basis as requested by the Department.

K. An IISP shall comply with the provisions of this Article and A.R.S. Title 28, Chapter 4, Article 5.

L. A manufacturer shall develop and an IISP shall provide each person a reference and problem solving guide at the time of installation that shall include information on the following:
1. Operating a motor vehicle equipped with the CIID;
2. Cleaning and caring for the CIID;
3. Identifying and addressing any vehicle malfunctions or repairs that may affect the CIID; and
4. How to properly take a valid and substantiated rolling retest.

M. A manufacturer shall notify the Department within 10 days of a change of address of its principal place of business in this state.

N. A manufacturer or an IISP shall provide a warning label, for each CIID installed, which shall have an orange background and shall include the following:
1. Be a minimum size of two inches by one inch;
2. Be printed in a minimum of nine-point font;
3. Be printed in Arial font, or a font of substantially similar size and legibility; and
4. Contain the words in black lettering: "Warning! Any person tampering with, circumventing, or otherwise misusing this Ignition Interlock Device, is guilty of a Class 1 misdemeanor."

O. A manufacturer shall ensure that the IISP or the IISP-certified technician affixes conspicuously and maintains on each installed CIID the warning label described under subsection (N), which may be affixed to the device or to the device's cord.

P. A manufacturer shall develop written instructions for the installation and removal of an ignition interlock device from a motor vehicle.

Q. While a person maintains a functioning CIID in a vehicle under A.R.S. Title 28, Chapter 4, Article 5, the ignition interlock manufacturer shall electronically provide to the Department and transmit daily to the Department the information and reports prescribed in R17-5-610 and R17-5-615.

R. The manufacturer is responsible for overseeing any agents or subcontractors, including vendors and distributors, as well as overseeing the manufacturer's IISP to ensure adherence to all performance standards.

Historical Note

New Section recodified from R17-4-709.08 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-609 renumbered to R17-5-612; new R17-5-609 renumbered from R17-5-606 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Section repealed; new Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-610. Reporting; Reportable Activity

A. A person shall have installed in a motor vehicle, only an ignition interlock device certified by the Department under R17-5-604.

B. A manufacturer shall develop and the IISP shall ensure that each IISP-certified technician complies with the IISP's written procedures for the installation of a CIID.

C. Certified ignition interlock device installation verification.
1. A manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours of the device installation.
2. The electronic Certified Ignition Interlock Device Summarized Reporting Record for installation verification shall contain all of the following information:
   a. Department-assigned service center number;
   b. Person's full name (first, middle, last and suffix);
   c. Date of birth;
   d. Driver license or customer number;
   e. Report date;
   f. Install date;
   g. Report type;
   h. Technician identification number;
   i. A unique identification number for the CIID;
   j. The last six digits of the vehicle identification number that matches the vehicle information on the data logger; and
   k. Whether the Department, a court, or an out-of-state entity requires a person to have a CIID.

D. Certified ignition interlock device calibration check.
1. A manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours after performing a calibration check on an installed CIID.
2. A manufacturer shall submit to the Department the following valid and substantiated proof or evidence of a reportable activity related to a violation, as prescribed in subsection (F), within 10 days by electronic means, which shall include:
   a. A summary report stating why the data logger or any other evidence confirms the occurrence of a violation, including any digital images of the person; and
   b. A data logger that shows at least 12 hours of data before and after the violation.
3. A manufacturer may submit to the Department the following additional valid and substantiated proof or evidence of a reportable activity related to a violation, as prescribed in subsection (F), if available, within 10 days by electronic means, which may include:
   a. Video recordings;
   b. Written statements; and
   c. Any other evidence relevant to a violation.
4. The electronic Certified Ignition Interlock Device Summarized Reporting Record for the calibration check shall contain all of the following information:
   a. Department-assigned service center number;
   b. Person's full name (first, middle, last and suffix);
   c. Date of birth;
   d. Driver license or customer number;
   e. Report date;
   f. Install date;
   g. Report type;
   h. Missed rolling retest count, dates, and times;
   i. Technician identification number;
   j. Alcohol concentration violation count, dates, time, and alcohol concentration;
   k. Tampering violation count, dates, and time;
   l. Circumvention count, dates, and time;
   m. Device download date;
   n. Device download time;
   o. Bypass code indication, date, and time;
   p. A unique identification number for the CIID;
   q. The last six digits of the vehicle identification number that matches the vehicle information on the data logger; and
   r. Whether the Department, a court, or an out-of-state entity requires a person to have a CIID.

E. Certified ignition interlock device removal report.
1. When a certified ignition interlock device is removed, a manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours.
2. The electronic Certified Ignition Interlock Device Summarized Reporting Record for removal of a device shall indicate the condition of noncompliance and contain all of the following information:
   a. Department-assigned service center number;
   b. Person's full name (first, middle, last and suffix);
   c. Date of birth;
   d. Driver license or customer number;
   e. Report date;
   f. Install date;
   g. Removal date;
   h. Report type;
   i. Technician identification number;
   j. A unique identification number for the CIID;
   k. The last six digits of the vehicle identification number that matches the vehicle information on the data logger;
   l. Whether the Department, a court, or an out-of-state entity requires a person to have a CIID;
   m. Missed rolling retest count, dates, and times;
   n. Device download date; and
   o. Device download time.

F. Reportable activity for a person's noncompliance with these rules and A.R.S. Title 28, Chapter 4, Article 5, shall be limited to valid and substantiated instances by a person of any of the following transmitted electronically and wirelessly by the manufacturer to the Department in real-time within 24 hours:
1. Tampering with a CIID as defined in A.R.S. § 28-1301;
2. Refusing or failing to provide any set of three consecutive valid and substantiated breath samples in response to a requested rolling retest within an 18-minute time frame during a person's drive cycle;
3. Failing to provide proof of compliance or inspection of the CIID as required under A.R.S. § 28-1461(E)(4);
4. Attempting to operate the vehicle with an alcohol concentration of 0.08 or more as prescribed in A.R.S. § 28-1461(E)(5) if the person is at least 21 years of age;
5. Attempting to operate the vehicle with an alcohol concentration in excess of the set point if the person is under 21 years of age;
6. Circumvention of a CIID as defined in R17-5-601; or
7. Disconnecting or removing a CIID, except:
   a. On repair of the vehicle, if the person provided to the IISP, technician, or service center advance notice of the repair and the anticipated completion date; or
   b. On moving the device from one motor vehicle to another motor vehicle if replacement of the device is accomplished within 72 hours of device removal.

G. A person shall not avoid compliance with the rolling retest requirement by turning off a motor vehicle's ignition or by keeping the motor vehicle operating while the vehicle is parked, and leaving the vehicle when a rolling retest is requested. A missed rolling retest is reportable activity for a person's noncompliance under subsection (F).

H. A manufacturer shall screen each person's data loggers to ensure that there is no improper reporting.

I. A manufacturer shall ensure that a CIID has the necessary programming to identify each person's ignition interlock period and each drive cycle to report and send data and violations to the Department as required by these rules.

J. A manufacturer shall review within 10 days all reports sent by the Department and returned to the manufacturer for verification of accurate reporting. If a manufacturer finds that the reported information does not indicate valid and substantiated evidence of a violation, the manufacturer shall immediately contact the Department to correct the person's record before corrective action is initiated against a person as a result of misreported ignition interlock data.

K. A manufacturer shall immediately contact the Department if the manufacturer finds that the reported information indicates:
1. An obvious mechanical failure of a CIID;
2. Obvious errors in the recorded CIID data that cannot be attributed to a person's actions;
3. Obvious errors in the transmission of CIID data to the Department, including misreported instances of tampering; or
4. Submission of an extension of a person's ignition interlock period or a violation to the Department when a person was not in the vehicle to take the rolling retests.

L. A manufacturer shall ensure that a CIID electronically and wirelessly uploads data in real-time to the manufacturer's website, that is maintained by the manufacturer, and the manufacturer shall submit all required information and reports in a daily FTP file to the Department.

M. In cases where no electronic or digital service exists, the manufacturer shall store the data and send the data as soon as electronic or digital service is available.

N. A manufacturer shall include the date of the last upload on the person's account on the manufacturer's website.

O. A CIID shall have constant communication between the manufacturer's server and relay unit while the device is in use.

P. All data, including digital images, shall be available to the Department for viewing on the manufacturer's website within five minutes after the data is recorded on the device, or as soon as electronic or digital reception permits.

Appendix C. Repealed

Historical Note
Appendix C renumbered from R17-5-607, Appendix C, and repealed by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4).

R17-5-611. Emergency Assistance; Continuity of Service to Persons

A. For events occurring outside of normal business hours, an IISP shall provide to each person a 24-hour emergency toll-free phone number answered by a live person at all times, to provide assistance in the event a CIID fails to operate properly or a vehicle experiences a problem relating to the installation, operation, or failure of a CIID.
1. During normal business hours, if the IISP or technician receives a call for emergency assistance, and determines that a vehicle is experiencing a problem relating to the installation, operation, or failure of a CIID, an IISP or a technician shall respond to the call within 24 hours of the initial contact and shall be available either to:
   a. Provide telephonically, the technical information required for the person to resolve the issue; or
   b. Provide or arrange for appropriate towing or roadside assistance services if unable to resolve the issue telephonically.
2. After receiving a person's call for emergency or other assistance, the IISP, technician, or manufacturer, as appropriate, shall either:
   a. Make the CIID functional, if possible, within 24 hours, or
   b. Replace or repair the CIID within 48 hours of the initial contact.

B. An IISP shall ensure uninterrupted service to a person for the duration of the person's ignition interlock period, which shall include facilitating the replacement of a technician, subcontractor, or an employee or agent who goes out of business, is removed, or a technician whose certification is cancelled by the IISP.
1. If a manufacturer terminates the IISP's authorization, the manufacturer shall obtain each person's records from the IISP and retain the records according to R17-5-612.
2. At the end or termination of an ignition interlock service authorization agreement, the manufacturer shall provide the Department with electronic access to each person's ignition interlock records for three years.
3. If a manufacturer authorizes a new IISP, the manufacturer shall notify each person affected by the authorization of the new IISP at least 30 days before the authorization becomes effective.
4. If a manufacturer does not authorize a new IISP, the manufacturer at no cost to the person, shall:

a. Provide written notification to all persons who are affected by the loss of an IISP or lack of service in an area, at least 30 days before the IISP discontinues service. The written notification shall inform the person of the manufacturer's responsibility to facilitate removal and replacement of the CIID and shall provide the instructions necessary for the person to successfully exchange the device;
b. Remove the device from the vehicle of each affected person; and
c. Facilitate the replacement of each device through a manufacturer with an IISP that can provide service.

5. A manufacturer shall notify the Department within 24 hours of replacing its IISP.
6. An IISP shall submit to the Department an updated list of the IISP's certified technicians within 5 business days after making a change to the list provided to the Department under R17-5-609(J).

C. Except in an emergency situation, a manufacturer, an IISP, or an IISP's-certified technician shall not remove another manufacturer's CIID without the express permission of that manufacturer.
1. If in an emergency situation a manufacturer, an IISP, or the IISP's-certified technician removes another manufacturer's CIID, that manufacturer, IISP, or the IISP's-certified technician shall return the device to the original manufacturer within 72 hours of the emergency removal; and
2. The original manufacturer, on receipt of the device, shall provide to the Department an electronic report of the device removal under R17-5-610, which shall include the transmission of all data stored in its data storage system.

D. In accordance with the IISP's implementation plan, an IISP shall facilitate the replacement of the IISP's service center if the service center goes out of business or the service center is closed, and the IISP does not have a service center in the county. An IISP shall notify the Department within 72 hours of replacing a service center location in a county.
1. If a service center closes and is replaced, the manufacturer shall make all reasonable efforts to obtain from the service center being replaced, all the individual ignition interlock records and data required to be retained under R17-5-612. The records shall be provided to, and maintained by the IISP.
2. If an out-of-business or closed service center is not replaced, the manufacturer shall retain the records and data as required under R17-5-612, and shall provide the Department with electronic access to the records and data.
   a. The manufacturer shall facilitate removal of all installed CIID's no longer serviced by the out-of-business or closed service center, and shall bear the cost of replacing each device with a serviceable CIID chosen by the person, even if the replacement device must be provided through an alternate manufacturer.
   b. The manufacturer shall, within 30 days, make a reasonable effort to notify its customers of the change of service center or replacement of a device.
3. If the manufacturer cannot comply with subsection (D)(1) or subsection (D)(2), the IISP shall:
   a. Notify its customers and the Department that service will be terminated; and
   b. Remove each device at no cost to the customer.

Historical Note
Section R17-5-611 renumbered from R17-5-608 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-612. Records Retention; Submission of Copies and Quarterly Reports

A. During the duration of the ignition interlock service authorization agreement, an IISP shall retain each person's ignition interlock activity records in an electronic format, including a secure database, or a paper format. The retained records shall consist of every document relating to installation, operation, and removal of the CIID. The IISP shall maintain all daily ignition interlock activity records of each person in the device's data storage system, or in a secure database at a commercial business location in this state, that the Department may access during posted business hours. An IISP shall inform the Department where all individual ignition interlock activity records are located.

B. Prior to the end or termination of an ignition interlock service authorization agreement, the manufacturer shall obtain all person's ignition interlock records and provide the Department with electronic access to the records for three years.

C. A manufacturer shall provide copies of each person's ignition interlock records to the Department within 10 days after Department personnel request copies of records, including records relating to installation and operation of the CIID.

D. A manufacturer shall electronically send to the Department, by the 10th day of January, April, July, and October, a quarterly report containing the following information for the previous three months:
1. The number of CIID's the IISP currently has in service;
2. The number of CIID's installed since the previous quarterly report;
3. The number of CIID's removed by the IISP since the previous quarterly report; and
4. Other information required by the Department.

E. An IISP shall maintain and make available to the Department the ignition interlock records of all persons served by the IISP, records relating to the authorization agreement, and employee background check information at a commercial business location in this state of the manufacturer or the IISP during normal business hours.

Historical Note
Section R17-5-612 renumbered from R17-5-609 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-613. Inspections and Complaints

A. The Department shall investigate any complaint that is related to a CIID or an IISP.

B. An IISP and a manufacturer shall permit and fully cooperate with periodic on-site inspections of the IISP's service centers and principal places of business of the manufacturer at any time during normal business hours by an authorized representative of the Department, where records relating to the authorization agreement and individual ignition interlock device records are maintained.

C. The Department shall conduct on-site inspections of a manufacturer, or a service center under the provisions of A.R.S. § 41-1009. The inspection shall include an examination of igni-

tion interlock activity, records and verification of an adequate supply of the warning labels that meet the requirements of A.R.S. § 28-1462 and R17-5-609.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-614. Ignition Interlock Device Installation Fee; Financial Records

A. An IISP shall collect an ignition interlock device installation fee of twenty dollars from each participant for each CIID that is installed in, or transferred to a motor vehicle by an IISP.

B. An IISP shall electronically remit the collected ignition interlock device installation fees paid by all persons to the Department on a monthly basis through a payment account created by the IISP, as determined by the Department, by transferring the collected fees paid during the previous month to the Department by the tenth day of the following month.

C. An IISP shall not charge a person an installation fee to replace a defective ignition interlock device.

D. An IISP shall post the amount of the ignition interlock device installation fee and the statutory authority for the ignition interlock device installation fee required by A.R.S. § 28-1462 on the IISP's website, that is available to all persons with an ignition interlock device requirement, and in a visible location at each of the IISP's service centers.

E. An IISP must clearly post the amount of all other fees charged to a person for ignition interlock device services.

F. An IISP shall maintain the financial records of the ignition interlock device installation fee collection and transfer to the Department, at an IISP's established place of business, or in a secure database, for three years from the date of the fee transfer. The Department may review the financial records of an IISP during normal business hours, to ensure compliance with the collection and transfer of the ignition interlock device installation fee to the Department.

Historical Note

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-615. Rolling Retest; Missed Rolling Retest; Extension of Ignition Interlock Period

A. A manufacturer shall report to the Department any valid and substantiated missed rolling retests, as defined in R17-5-601, that occur during the time period prescribed in subsection (E).

B. A CIID shall have the capability to require a rolling retest and meet the requirements of a rolling retest. A person shall be prompted for the first rolling retest within five to 15 minutes after the initial test required to start an engine, and the device shall prompt for additional rolling retests at random intervals of up to 30 minutes after each previously requested and passed rolling retest.

C. A certified ignition interlock device shall:

1. Emit a warning light, tone, or both, to alert a person that a rolling retest is required;
2. Allow a period of six minutes after the warning light, tone, or both, to allow a person to take a rolling retest;
3. Require a person to perform a new test to restart an engine if it is switched off during or after a rolling retest warning;
4. Allow a free restart of a motor vehicle's ignition, within three minutes after the ignition is switched off, without requiring another breath alcohol test, except when a rolling retest is in progress;
5. Use the set point value for startups and retests;
6. Record, in its data storage system, the result of each rolling retest performed by a person during the person's drive cycle, and any valid and substantiated missed rolling retests; and
7. Immediately require another rolling retest each time a person refuses to perform a requested rolling retest.

D. Until a person successfully performs a rolling retest, or the engine is switched off, a device shall record in its data storage system, each subsequent refusal or failure of the person to perform the requested rolling retest.

E. The Department shall count one missed rolling retest for a person who refuses or fails to provide a valid and substantiated breath sample in response to a requested rolling retest if not followed by the person providing a valid and substantiated breath sample within six minutes.

F. Failure to take a rolling retest when a person's breath alcohol concentration is equal to or exceeds the set point shall not sound the vehicle horn, nor any type of siren, bell, whistle or any device emitting a similar sound, or any unreasonable loud or harsh sound that is audible outside of the vehicle, and shall not cause the engine of the vehicle to shut off.

G. The Department shall extend a person's ignition interlock period for six months, as provided in A.R.S. § 28-1461(E) for any set of three consecutive missed rolling retests that occur within an 18-minute time frame during a drive cycle.

H. If during one drive cycle, a person who is at least 21 years of age, has two or more breath alcohol concentrations of 0.08 or more, the Department shall count this as one violation, and shall extend a person's ignition interlock period for six months.

I. If during one drive cycle, a person who is under 21 years of age, has any breath alcohol concentration one or more times, the Department shall count this as one violation, and shall extend a person's ignition interlock period for six months.

J. Except as provided in subsections (H) and (I), if during one drive cycle, a person has more than one violation as defined in R17-5-601, the Department shall extend a person's ignition interlock period for six months for each violation.

Historical Note

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-616. Civil Penalties; Hearing

A. After notice and an opportunity for a hearing, the Director may impose a civil penalty pursuant to A.R.S. § 28-1465, against a manufacturer of a certified ignition interlock device for improper reporting to the Department of ignition interlock data, as defined in R17-5-601. The Director may impose and collect a civil penalty against a manufacturer of a certified ignition interlock device, who is responsible for an occurrence of improper reporting, as follows:

1. $100 for the first occurrence, but not to exceed $1,000 per series of occurrences of improper reporting on a specific date;
2. $250 for the second occurrence, but not to exceed $2,500 per series of occurrences of improper reporting on a specific date; and
3. $500 for the third or subsequent occurrence, but not to exceed $5,000 per series of occurrences of improper reporting on a specific date.

B. The Director, on finding that a manufacturer engaged in improper reporting, shall mail a notice to the manufacturer stating that civil penalties may be imposed for improper reporting. The notice shall:
1. Specify the basis for the action; and
2. State that the manufacturer may, within 15 days after receipt of the notice, file a written request for a hearing with the Department's Executive Hearing Office as prescribed in 17 A.A.C. 1, Article 5.

C. A manufacturer who is aggrieved by an assessment, decision, or order of the Department under A.R.S. § 28-1465 and this Section may seek judicial review under A.R.S. Title 12, Chapter 7, Article 6.

D. The manufacturer shall pay the civil penalty imposed under this Section to the Department no later than 30 days after the order is final.

E. If the manufacturer fails to pay the civil penalty within 30 days after the order is final, the director may file an action in the superior court in the county in which the hearing is held to collect the civil penalty.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-617. Cease and Desist

A. If the Director has reasonable cause to believe that a party to an IISP authorization agreement is violating any provision of state statute, administrative rule, or the authorization agreement, the Director will immediately issue and serve a cease and desist order by mail to the IISP's last known address.

B. On receipt of the cease and desist order, the IISP shall immediately cease and desist from further engaging in any activity that is not authorized in state statute, administrative rule, or the agreement, and that is specified in the cease and desist order.

C. On failure of the IISP to comply with the cease and desist order, the IISP may request a hearing with the Department's Executive Hearing Office under 17 A.A.C. 1, Article 5 within 15 days. On failure of the IISP to comply with the cease and desist order, the Director will immediately cancel the agreement with the IISP.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-618. Service Centers; Mobile Services

A. An IISP shall have at least one readily accessible service center in each county in this state that performs all ignition interlock services, including service, calibration, installation, inspection, and removal of a CIID by a technician who is trained and certified by the IISP for the specific service area.

B. An IISP, subcontractor, agent, or an employee who operates a service center, or provides mobile services as an extended service provided by a service center on a temporary or emergency basis, shall meet the requirements in these rules before conducting CIID-related business in this state.

C. A service center shall maintain sufficient staffing to provide an acceptable level of ignition interlock device services during all posted business hours.

D. A technician that provides mobile services shall be stationed and employed at the IISP's service center and be certified in the ignition interlock service area the technician will provide.

E. When a service center technician provides mobile services, an IISP shall ensure that the service center has another technician or employee available at the service center to provide ignition interlock device services.

F. An IISP's service center shall:
1. Be located in a permanent, fixed-site facility that accommodates installing, inspecting, downloading, calibrating, monitoring, maintaining, servicing, and removing a CIID;
2. Provide a designated waiting area for a person that is separate from the installation area;
3. Ensure that a person does not witness installation of the CIID;
4. Through the IISP, the IISP-certified technician or employee, provide the necessary training required by R17-5-609(D) for a person to operate a CIID;
5. Ensure that a technician meets the necessary requirements in order to receive and maintain certification before a technician or an IISP conducts ignition interlock device business in this state; and
6. Have the necessary equipment and tools to provide all ignition interlock services in a professional manner.

G. A service center that provides mobile services shall:
1. Have the capability to provide all the ignition interlock services in subsection (F)(1);
2. Meet the requirements in subsection (F)(3) through (F)(6);
3. Have permission from the motor vehicle owner to provide mobile services; and
4. Ensure that a technician provides business identification to a person requesting service prior to performing services, along with the service center certificate and the technician's training certificate.

H. A service center that provides mobile services shall not operate from a tow truck.

I. An IISP that operates a service center, shall ensure that an IISP-certified technician utilizes all of the following:
1. The analysis of a reference sample such as headspace gas from a mixture of water and alcohol, the results of which shall agree with the reference sample predicted value, or other methodologies approved by the Department. The preparatory documentation on the reference sample solution, such as a certificate of analysis, shall be made available to the Department on request.
2. The set point value established under R17-5-601. All analytical results shall be expressed in grams of alcohol per 210 liters of breath (g/210L).
3. The most current versions of manufacturer software and firmware to ensure continuous compliance under this Article and A.R.S. Title 28, Chapter 4, Article 5.

J. An IISP shall ensure that a motor vehicle used to provide mobile services from a service center has current vehicle registration in this state and maintains the required mandatory insurance and financial responsibility coverage in A.R.S. § 28-4009.

K. A technician shall ensure that a person who receives mobile services receives the same level of training and service as a person who receives services at a service center.

L. The manufacturer shall ensure that a CIID electronically transmits the Summarized Reporting Record for a calibration check to the Department as provided in R17-5-610(D)(4).

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-619. Application; IISP Implementation Plan

A. An IISP that applies for authorization of an ignition interlock service provider contract under A.R.S. § 28-1468 shall submit

all documents and meet all the requirements in the ignition interlock service provider authorization agreement; in Title 28, Chapter 5, Article 4, Arizona Revised Statutes; and these rules.

B. In addition to this information, an IISP shall submit to the Department, with the application, a detailed implementation plan that outlines the steps and time frames necessary for the IISP to be fully operational. The implementation plan must include:
1. The IISP's plan for establishing a service center in every county in this state;
2. The IISP's procedures for imposing progressive discipline on its employees, agents, or subcontractors who fail to comply with the requirements of Arizona statute; Department administrative rules; or the terms of the authorization agreement;
3. A plan for transitioning ignition interlock services to another IISP that ensures continuous monitoring will occur if a participant decides to transition services to another IISP or if the IISP ceases conducting business or leaves this state;
4. A means by which the IISP will provide all participant records and information or electronic access to the records and information to the ignition interlock device manufacturer in the event the IISP ceases conducting business or leaves this state. At the end or termination of an ignition interlock service authorization agreement, the manufacturer shall provide the Department with electronic access to all person's ignition interlock records for three years; and
5. Documentation that the IISP is an authorized agent of the manufacturer and a point of contact for the manufacturer, including the IISP's telephone number and e-mail address.

C. An IISP shall be approved by the Director through the application for authorization agreement process before offering ignition interlock services in the state.

D. An IISP shall use this process to reapply to the Director for reauthorization of an ignition interlock service provider contract.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-620. Authorization Time Frame; Ignition Interlock Service Provider

A. The Director shall, within 10 days of the date of receipt of an application for authorization of an ignition interlock service provider contract, provide notice to the IISP that the application is either complete or incomplete.
1. The date of receipt is the date the Director receives the application.
2. If an application is incomplete, the dated notice shall specifically identify the required information that is missing.

B. An applicant with an incomplete application shall provide all missing information to the Director within 15 days of the Director's notice.
1. After receiving all of the required information, the Director shall notify the IISP that the application is complete.
2. The Director may deny an IISP's application if the IISP fails to provide the required information within 15 days of the Director's notice.

C. The Director shall render a decision on an application for authorization within 30 days of the date on the notice acknowledging receipt of a complete application, provided to the applicant under subsections (A) or (B).

D. If the Director denies an application for authorization, the Director shall notify the IISP in writing within 20 days after the denial, and of the grounds for the denial in accordance with A.R.S. § 28-1468 (E).

E. For the purposes of A.R.S. § 41-1073, the Department establishes the following time frames for the purpose of reviewing an application for authorization:
1. Administrative completeness review time frame: 10 days.
2. Substantive review time frame: 30 days.
3. Overall time frame: 40 days.

F. The Director shall use this process for reapplication for authorization of an ignition interlock service provider contract.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-621. Service Center Application

A. On approval by the Director of an IISP's signed application for authorization to provide ignition interlock services, an IISP shall submit to the Department for approval a properly completed service center application for approval of the IISP's service centers.

B. An IISP shall provide the following information to the Department:
1. The service center name, which shall match the name on the service center;
2. The business address of the established place of business of each service center or business location;
3. The telephone number of each established place of business of each service center or business location;
4. The service center's legal status as a sole proprietorship, partnership, limited liability company, or a corporation;
5. The name of the sole proprietor, each partner, officer, director, manager, member, agent, or 20% or more stockholder;
6. The name and model number of each CIID the IISP plans to install;
7. An indication of any service centers that will provide mobile services;
8. Any applicable business licenses and the governmental entity; and
9. The following statements signed by the IISP:
   a. A statement that all information provided on the application, including all information provided on any attachment to the application is complete, true, and correct;
   b. A statement that the IISP agrees to indemnify and hold harmless from all liability the state of Arizona and any department, division, agency, officer, employee, or agent of the state of Arizona;
   c. A statement that the IISP agrees to comply with all requirements in these rules; and
   d. A statement that the IISP agrees to immediately notify the Department of any change to the information provided on the application form.

C. The Department shall process an IISP's service center application only if the IISP meets all applicable application requirements.

D. The Department shall, within 10 days of receiving a service center application, provide notice to the IISP that the application is either complete or incomplete.
1. The date of receipt is the date the Department receives the application.
2. If an application is incomplete, the notice shall specifically identify the required information that is missing.

E. An IISP with an incomplete application shall provide all missing information to the Department within 15 days of the date on the Department's notice.
1. After receiving all of the required information, the Department shall notify the IISP that the application is complete.
2. The Department may deny approval of a service center if the IISP fails to provide the required information within 15 days of the date on the notice.

F. The Department shall render a decision on a service center application within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the IISP under subsections (D) or (E).

G. For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for approval of a service center:
1. Administrative completeness review time frame: 10 days.
2. Substantive review time frame: 30 days.
3. Overall time frame: 40 days.

H. If a service center is no longer authorized by a manufacturer to install its CIID, the IISP shall notify the Department within 24 hours.

I. An IISP shall be the authorized representative of a specific manufacturer while the authorization agreement is in effect, for a service center to install the manufacturer's CIID.

J. If an IISP, subcontractor, or agent opens or relocates a service center, or the service center is operated by another entity, an IISP, subcontractor, or agent shall submit a new service center application for approval.

K. An IISP shall use this process to reapply to the Department for a service center application.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

R17-5-622. Technician Application

A. On approval by the Department of an IISP's service center application, an IISP shall submit to the Department for approval, a properly completed technician application with the following information:
1. Name of the technician;
2. The technician's date of birth;
3. The technician's residence address;
4. The technician's driver license number;
5. Name of the service center where the technician is employed;
6. Location of the service center where the technician is employed; and
7. The following statements signed by the technician and the IISP:
   a. A statement that all information provided on the application form, including all information provided on any attachment to the application form is complete, true, and correct;
   b. A statement that the technician and the IISP agree to indemnify and hold harmless from all liability the state of Arizona and any department, division, agency, officer, employee, or agent of the state of Arizona;
   c. A statement that the technician agrees to comply with all requirements in these rules; and
   d. A statement that the IISP agrees to immediately notify the Department of any change to the information provided on the application form.

B. The Department shall process a technician's application only if a technician meets all applicable application requirements.

C. The Department shall, within 10 days of receiving a technician application, provide notice to the applicant that the application is either complete or incomplete.
1. The date of receipt is the date the Department receives the application.
2. If an application is incomplete, the notice shall specifically identify the required information that is missing.

D. An applicant with an incomplete application shall provide all missing information to the Department within 15 days of the date on the Department's notice.
1. After receiving all of the required information, the Department shall notify the applicant that the application is complete.
2. The Department may deny approval of a technician application if the applicant fails to provide the required information within 15 days of the date on the notice.

E. The Department shall render a decision on a technician application within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the IISP under subsections (C) or (D).

F. For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for approval of a technician:
1. Administrative completeness review time frame: 10 days.
2. Substantive review time frame: 30 days.
3. Overall time frame: 40 days.

G. If an IISP and the IISP's technician are no longer authorized by a manufacturer to install its CIID, the IISP shall notify the Department within 24 hours.

H. An IISP shall be the authorized representative of a specific manufacturer that has an authorization agreement in effect for a technician to service the manufacturer's CIID.

I. An IISP shall submit a separate technician application when an IISP hires a new technician.

J. After the Department approves a technician, the Department will assign to each technician, a unique technician identification number to identify each technician who installs, calibrates, inspects, or removes a CIID.

K. An IISP shall use this process to reapply to the Department for a technician application.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-623. Termination of Authorization; Notification

A. If the Director terminates an IISP's authorization agreement, the Director shall notify each person with the manufacturer's CIID that the person has 30 days to obtain another IISP.

B. Any IISP owner or principal whose agreement has been terminated as a result of the IISP's authorization being cancelled is not eligible to re-apply for authorization from the Department until 36 months after the date of termination.

Historical Note
New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

ARTICLE 7. IGNITION INTERLOCK DEVICE TECHNICIANS

R17-5-701. Definitions

The definitions provided under A.R.S. §§ 28-101 and R17-5-601 apply to this Article unless the context otherwise requires.

Historical Note
New Section recodified from R17-4-801 at 7 A.A.R.

3483, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 12 A.A.R. 2297, effective August 5, 2006 (Supp. 06-2). New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Section amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-702. Records Check; Technician Qualifications; IISP Self-Certification of Technician

A. If the Director enters into an IISP's ignition interlock authorization agreement under A.R.S. § 28-1468, an IISP shall conduct an annual criminal records check and a certified driver's license record check on all employees, agents, or subcontractors listed on the IISP's application within 30 days prior to each individual's start date.

B. An IISP shall self-certify and train a technician in the service area that the technician will provide.

C. The qualifications for a technician are:

1. A technician shall be at least 18 years of age.
2. A technician who is required to drive a motor vehicle on a highway in this state in the technician's capacity shall have a valid Arizona driver license as required by A.R.S. § 28-3151, unless exempted under A.R.S. § 28-3152.
3. A technician shall have the necessary mechanical ability, training, and certification from the IISP required to perform installation, inspection, service, calibration, or removal of a CIID from a motor vehicle.

D. A technician shall:

1. Maintain the confidentiality of any personal information, driver license information, or ignition interlock data or reports relating to a person;
2. Ensure that a person does not observe the technician's actions relating to installation and removal of a CIID;
3. Comply with the ignition interlock rules in 17 A.A.C. 5, Articles 6 and 7, and Arizona Revised Statutes Title 28, Chapter 4, Article 5; and
4. Conduct installation, service, calibration, inspection, or removal of an ignition interlock device from a motor vehicle in accordance with industry standards.

E. A technician is prohibited from using the global positioning system capabilities of a CIID to track the location of a person and shall not release location information gathered by the CIID.

Section repealed by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-706. Calibration Check; Requirements

A. An IISP-certified technician shall inspect, maintain, and check each CIID for calibration accuracy and operational performance before the device is placed into, or returned to service.

B. A person with a CIID installed on a motor vehicle is responsible for obtaining a calibration check of the CIID by the IISP's technician at the IISP's service center within every 77 to 90-day period after device installation, and every 77 to 90 days thereafter, during the person's ignition interlock period.

C. An IISP-certified technician shall perform a calibration check at the IISP's service center at least once every 90 days after device installation, and at least every 90 days thereafter.

D. The calibration check performed under R17-5-610 shall include an inspection of the device to verify that it is properly functioning in accordance with all of the following criteria:

1. Accuracy standards as prescribed under R17-5-603;
   a. The device shall be calibrated before placed into, or returned to service.
   b. The calibration test shall consist of introducing to the device a known alcohol concentration from a reference sample device, the analysis of which indicates the device's agreement with the known concentration. The manufacturer's software shall be capable of performing, documenting, and reporting the result of this calibration test. The calibration test result shall verify the accuracy of the ignition inter-

lock device according to the standards prescribed under R17-5-603; and

2. Anticircumvention standards and operational features as prescribed under R17-5-603.

E. The calibration test referenced under subsection (D) shall be performed when the information uploaded from a device indicates that the device has experienced an interruption in service or was completely disconnected. Additionally, the complete device, including the camera and its connection to the vehicle, shall be examined for evidence of tampering while it is still attached to the vehicle. An IISP shall document or photograph any evidence of tampering or circumvention and submit the documentation to the Department as required by these rules and A.R.S. Title 28, Chapter 4, Article 5.

F. If calibration confirmation test results reveal that the device is not properly calibrated, the device shall be recalibrated to restore the accuracy standards prescribed under R17-5-603 before the device is returned to service.

G. At least once every 90 days, a technician shall perform a physical inspection of the ignition interlock device, including an anticircumvention check, while it is still attached to the vehicle.

H. A technician shall perform a physical inspection of the ignition interlock device any time an early recall occurs.

I. If at any time an individual device model fails to meet the provisions of this Section, the manufacturer, IISP, or IISP-certified technician, as appropriate, shall either:

1. Repair, recalibrate, and retest the device model to ensure that it does meet all applicable standards; or
2. Remove the device model from service.

Historical Note

New Section recodified from R17-4-501 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Section repealed by final rulemaking at 12 A.A.R. 2297, effective August 5, 2006 (Supp. 06-2). New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-707. Repealed

Historical Note

New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Section repealed by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

R17-5-708. Repealed

Historical Note

New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Section repealed by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

28-366. Director; rules

The director shall adopt rules pursuant to title 41, chapter 6 as the director deems necessary for:

1. Collection of taxes and license fees.

2. Public safety and convenience.

3. Enforcement of the provisions of the laws the director administers or enforces.

4. The use of state highways and routes to prevent the abuse and unauthorized use of state highways and routes.

28-1461. Use of certified ignition interlock devices; reporting

A. If a person's driving privilege is limited pursuant to section 28-1381, 28-1382, 28-1383 or 28-3319 or restricted pursuant to section 28-1402:

1. The person shall:

(a) Pay the costs for installation and maintenance of the certified ignition interlock device.

(b) Provide proof to the department of installation of a functioning certified ignition interlock device in each motor vehicle operated by the person.

(c) Provide proof of compliance to the department at least once every ninety days during the period the person is ordered to use an ignition interlock device.

(d) Provide proof of calibration of the certified ignition interlock device to the department at least once every ninety days during the period the person is ordered to use an ignition interlock device.

2. The department shall not reinstate the person's driving privilege or issue a special ignition interlock restricted driver license until the person has installed a functioning certified ignition interlock device in each motor vehicle operated by the person and has provided proof of installation to the department.

B. While a person maintains a functioning certified ignition interlock device in a vehicle pursuant to this chapter, the ignition interlock manufacturer shall electronically provide the following information to the department in the manner and format prescribed by the department in rule, and the department shall reject any information that does not meet these requirements:

1. Any tampering or circumvention.

2. Any failure to provide proof of compliance or inspection of the certified ignition interlock device as prescribed in this section.

3. Any attempt to operate the vehicle with an alcohol concentration exceeding the presumptive limit as prescribed in section 28-1381, subsection G, paragraph 3 or, if the person is under twenty-one years of age, any attempt to operate the vehicle with any spirituous liquor in the person's body.

4. Each time that a person fails to properly perform any set of three consecutive rolling retests that occur during a drive cycle.

C. If the person is under eighteen years of age, the ignition interlock service provider, if requested by the person's parent or legal guardian, shall provide to the person's parent or legal guardian the information prescribed in subsection B of this section.

D. On request, the ignition interlock manufacturer shall provide the information prescribed in subsection B of this section to:

1. The department of health services authorized provider.

2. The probation department that is providing alcohol or other drug screening, education or treatment to the person.

3. The physician, psychologist, physician assistant, registered nurse practitioner or addiction counselor who is evaluating the person's ability to safely operate a motor vehicle following a revocation of the person's driving privilege as prescribed in section 28-3315, subsection D.

4. The court.

E. The department shall extend an ignition interlock restricted or limited driver license and the certified ignition interlock device period for six months if the department has reasonable grounds to believe that any of the following applies:

1. The person tampered with or circumvented the certified ignition interlock device.

2. The person attempted to operate the vehicle with an alcohol concentration exceeding the presumptive limit as prescribed in section 28-1381, subsection G, paragraph 3, two or more times during the period of license restriction or limitation.

3. If the person is under twenty-one years of age, the person attempted to operate the vehicle with any spirituous liquor in the person's body during the period of license restriction or limitation.

4. The person failed to provide proof of compliance or inspection as prescribed in this section.

5. The person attempts to operate the vehicle with an alcohol concentration of 0.08 or more during a six month extension pursuant to this subsection.

6. The person fails to properly perform any set of three consecutive rolling retests that occur during a drive cycle.

F. If the special ignition interlock restricted license is extended pursuant to subsection E of this section, the limitations prescribed in sections 28-1381, 28-1382, 28-1383 and 28-3319 do not begin until the restrictive period of the license ends.

G. The department shall make a notation on the driving record of a person whose driving privilege is limited pursuant to section 28-1381, 28-1382, 28-1383, 28-1385 or 28-3319 or restricted pursuant to section 28-1402 that states that the person shall not operate a motor vehicle unless it is equipped with a certified ignition interlock device. Unless the person is convicted of a second or subsequent violation of section 28-1381, 28-1382 or 28-1383, the notation may not include any mark, color change or other notation or indication on the person's physical driver license.

H. Proof of compliance does not include a skipped or missed random sample if the motor vehicle's ignition is off at the time of the skipped or missed sample.

28-1462. Ignition interlock device certification and decertification; service provider bonds

A. After consulting with the director of the department of public safety, the assistant director for the motor vehicle division of the department of transportation shall:

1. Certify ignition interlock devices.

2. Publish a list of certified ignition interlock devices that includes information about the manufacturers of the devices and where the devices may be ordered.

3. Make the list available to the courts and probation departments without charge.

4. Establish standards and qualifications for technicians.

B. The assistant director shall adopt rules prescribing the requirements for certification and decertification of an ignition interlock device. These rules shall include:

1. The procedure for certification of ignition interlock devices.

2. Provisions to ensure the reliability of the ignition interlock device over the range of motor vehicle environments.

3. Provisions to ensure that the ignition interlock device works accurately in an unsupervised environment.

4. The procedure for decertification of an ignition interlock device for cause.

C. The assistant director shall not certify an ignition interlock device unless all of the following are satisfied:

1. The device requires a deep-lung breath sample or another accurate measure of the concentration by weight of alcohol in the breath.

2. The device is made by a manufacturer that is covered by product liability insurance in the amount of one million dollars per event and three million dollars in the aggregate.

3. The manufacturer of the device indemnifies this state against any liability that may result from the use of the device.

4. The device meets or exceeds the 2013 national highway traffic safety administration standards, including the ability to wirelessly transmit and receive information, take a digital image and include the global positioning system location of the device at the time of a requested test.

5. The device is repaired or modified only by the manufacturer of the device.

6. All of the device reporting that is required by sections 28-1461 and 28-1468 originates from the device manufacturer.

D. The assistant director may adopt, in whole or in part, the guidelines, rules, regulations, studies or independent laboratory tests performed and relied on by other states or agencies or commissions of other states in the certification or approval of ignition interlock devices.

E. Each ignition interlock service provider who installs a certified ignition interlock device shall submit to the department a bond in a form to be approved by the assistant director and in an amount of at least two hundred thousand dollars. The bond inures to the benefit of any person who is ordered or required to equip a motor vehicle with an ignition interlock device pursuant to article 3 of this chapter or section 28-3319 and who suffers a loss because of either of the following:

1. Insolvency or discontinuance of business of the ignition interlock service provider who installed the device.

2. Failure of the ignition interlock service provider or agent or subcontractor of the ignition interlock service provider to comply with any provision of a contract that is required pursuant to section 28-1468 or any rule adopted pursuant to this section.

F. The assistant director shall adopt a warning label design to be affixed to each certified ignition interlock device on installation. The label shall contain a warning that a person tampering with, circumventing or otherwise misusing the ignition interlock device is guilty of a class 1 misdemeanor.

G. After consultation with the director of the department of public safety, the assistant director may include information the assistant director deems necessary in the notice prescribed in section 28-3318 regarding certified ignition interlock devices.

H. An ignition interlock service provider shall collect a fee for each certified ignition interlock device that is installed by the provider in an amount that is determined by the director. The ignition interlock service provider shall remit the collected fees to the department on a monthly basis and in a manner established by the department. The department shall deposit the fees in the ignition interlock device fund established by section 28-1469.

28-1465. Rulemaking; ignition interlock service providers and manufacturers; civil penalty

The director shall adopt rules pursuant to title 41, chapter 6 as the director deems necessary for the administration and enforcement of this article, including a rule that permits the director to impose a civil penalty against a manufacturer of a certified ignition interlock device or an ignition interlock service provider who fails to properly report ignition interlock data to the director in the manner prescribed by the director. Any monies collected from civil penalties imposed for a failure to report ignition interlock data shall be deposited in the driving under the influence abatement fund established by section 28-1304.

28-1468. Ignition interlock service provider application; denial; appeal; contract requirements; manufacturer reporting requirements; cease and desist order

A. An application for authorization of an ignition interlock service provider contract must be submitted to the director by the manufacturer in writing on a form prescribed and furnished by the director. The person shall include with the application all documents and fees prescribed by the director.

B. The application shall be verified and must contain:

1. The name and residence address of the applicant, the name and residence address of each partner if the applicant is a partnership or the name and residence address of each principal officer if the applicant is a corporation.

2. The applicant's principal place of business.

3. The location or planned location for each place of business at or from which the business is to be conducted.

4. Any other information the director requires.

C. The director may approve an application for authorization of a contract if the director determines that the requirements of this article are met.

D. The director may deny an application for authorization of a contract if any person included in the application has:

1. Made a misrepresentation or misstatement in the application to conceal a matter that would cause the application to be denied.

2. Been convicted of a class 1, 2, 3 or 4 felony or a crime of moral turpitude, breach of trust, fraud, theft or dishonesty in any jurisdiction or any foreign country within ten years before the date of the application.

3. Been convicted of any criminal act, other than a crime described in paragraph 2 of this subsection, in any jurisdiction or a foreign country within five years before the date of the application.

4. Been involved in any activity that the director determines to be inappropriate in relation to the authority granted.

E. The director may deny an application for authorization of an ignition interlock service provider contract under this article and, if denied, shall notify the applicant in writing of the denial within twenty days after the denial and of the grounds for the denial if the director determines that any of the following applies:

1. The applicant is not eligible for an ignition interlock service provider contract under this article.

2. The application is not made in good faith.

3. The application contains a material misrepresentation or misstatement.

4. The applicant has not met the requirements of this chapter.

F. An applicant whose application is denied may make a written request to the department for a hearing on the denial of the application within fifteen days after the notice of denial. If the applicant does not request a hearing within thirty days, the denial is final.

G. If the applicant requests a hearing, the director shall provide written or electronic notice to the applicant to appear at a hearing to show cause why the denial of the applicant's application should not be upheld. After consideration of the evidence presented at the hearing, the director shall issue a written decision and order.

H. If the application is denied, the applicant may appeal the decision pursuant to title 12, chapter 7, article 6.

I. If the director authorizes an ignition interlock service provider's application for a contract, the ignition interlock service provider's contract with the department must meet or exceed the requirements in this section, be for a term of at least three years and include all of the following provisions and requirements:

1. Require the ignition interlock service provider to maintain at least one service center in each county in this state.

2. Ignition interlock devices must be effectively and efficiently installed, calibrated and removed.

3. Ignition interlock devices must be serviced, inspected and monitored.

4. The ignition interlock manufacturer must electronically transmit reports to the department in a format that is determined by the department and that includes any of the following:

(a) Driver activity.

(b) Bypass approval.

(c) Compliance.

(d) Client violations.

(e) Unique identifying numbers for each device.

(f) Unique employee numbers identifying the person who installed or removed an ignition interlock device.

5. A detailed implementation plan that outlines the steps and the time frames necessary for the ignition interlock service provider to be fully operational.

6. The ignition interlock service provider must collect and remit all applicable fees and taxes to the appropriate government entity.

7. If the ignition interlock service provider is out of compliance, corrective actions that will be taken, including penalty provisions and liquidated damages.

8. The ignition interlock device must have security protections, including each device having the capability to record each event and provide visual evidence of any actual or attempted tampering, alteration, bypass or circumvention.

9. The ignition interlock service provider will process the transition and ensure that continuous monitoring occurs if an ignition interlock device client requires transition of services.

10. The ignition interlock service provider will self-certify, complete background checks and train technicians in compliance with the rules adopted by the department.

11. The ignition interlock service provider must ensure that each service center is adequately staffed and equipped to provide all ignition interlock device support services. Mobile service operations based at a service center are permitted, except that a tow truck may not be used for mobile service. A service center may not provide services for more than one ignition interlock service provider.

12. The ignition interlock service provider must train clients on how to use the ignition interlock device.

13. A transition plan that will ensure continuous monitoring is achieved if the ignition interlock service provider leaves this state.

14. Require the ignition interlock service provider to have and maintain insurance that is approved by the department.

15. A procedure for progressive discipline of an employee, agent or subcontractor of an ignition interlock service provider who fails to comply with the requirements of this chapter or of the ignition interlock service provider contract.

16. Require client information and financial records to be maintained at a commercial business location in this state that is not a residence and that has posted business hours where the department may access the records. On termination or expiration of the contract, the ignition interlock service provider must submit all client information to the department.

17. The ignition interlock service provider may not charge a client to replace a defective ignition interlock device.

18. The ignition interlock device must take a digital image identifying the client who is providing the breath sample and the digital image must include the date and time that the breath sample was provided.

19. The ignition interlock service provider must comply with all county and municipal zoning regulations for commercial businesses and provide a corresponding business license to the department.

20. The ignition interlock service provider must clearly post all client fees for the installation, removal and inspection of the certified ignition interlock device.

J. If the director has reasonable cause to believe that a person who is a party to an ignition interlock service provider contract pursuant to this article is violating any provision of this chapter, the director shall immediately issue and mail a cease and desist order to the person's last known address.

K. On receipt of the cease and desist order, the person shall immediately cease and desist, or cease and desist as provided in the contract between the department and the ignition interlock service provider, from further engaging in any activity that is not authorized pursuant to this chapter and that is specified in the cease and desist order.

L. On failure of the person to comply with the cease and desist order, the director may conduct a hearing pursuant to this section.

E-11.

DEPARTMENT OF ADMINISTRATION
Title 2, Chapter 1, Article 8

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - FIVE-YEAR REVIEW REPORT

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: **ARIZONA DEPARTMENT OF ADMINISTRATION**
Title 2, Chapter 1, Article 8

Summary

This Five-Year Review Report (5YRR) from the Arizona Department of Administration ("Department") covers five (5) rules in Title 2, Chapter 1, Article 8 related to the Travel Reduction Program. As a result of the State of Arizona being considered a major employer, the State is required to implement a travel reduction program with the goal of having 60% or fewer of employees commute to their work site driving alone. This requirement is found at A.R.S. § 49-588(E)(2).

The Department did not propose any amendments to the rules in Article 8 in the report approved by the Council in August 2020. In the last report, the Department indicated that they would explore the possibility of reimbursing telecommuting employees for internet service. The Department declined to implement a program as a result of high costs.

Proposed Action

The Department indicates that the rules are clear, concise, understandable, and enforced as written. As a result, the Department does not intend on amending any rules at this time.

1. Has the agency analyzed whether the rules are authorized by statute?

The Department cites both general and specific statutory authority for these rules.

2. Summary of the agency's economic impact comparison and identification of stakeholders:

The Department states the most recent economic, small business, and consumer impact statement (EIS) was prepared in 2018 when the program staff completed a rulemaking process to consolidate the rules. The Department states that the 2018 EIS determined there would be no significant economic impact to the persons covered (employees participating in the program), businesses (transportation providers), and the Department (the only noted cost incurred was the time spent conducting the rulemaking). The Department states that since the time that the 2018 EIS was prepared, there have been significant changes to the program within the current framework established by the rules. The Department also states there have been significant changes in the program's outcomes-these are all positive changes.

The Department indicates that the statutory intent of the Travel Reduction Program (TRP) is to improve air quality and benefit the health of all who live in Areas A (covering parts of Maricopa County, Pinal County and Yavapai County) and Area B (covering parts of Pima County). Further, the Department states that according to the 2024 travel reduction program survey, the programs in Maricopa County resulted in more than 71 million miles not driven and 60 tons of air pollution avoided, Based on data from the Pima County survey, state employees there saved 731,744 vehicle miles and averted 9,146 pounds of pollution in 2024 by using alternative modes of transportation (including telework).

3. Has the agency analyzed the costs and benefits of the rulemaking and determined that the rules impose the least burden and costs to those who are regulated?

The Department determined the benefits of the rules outweigh the costs and impose the least burden and costs on those regulated by the rules. The Department indicates that the regulated entities are the state as an employer and employees who voluntarily choose to participate in the programs. The Department states that participation of employees and transportation providers in the TRP helps to achieve the underlying regulatory objective of reducing air pollution from fossil fuels.

4. Has the agency received any written criticisms of the rules over the last five years?

The Department indicates it received no written criticisms of the rules in the last five years.

5. Has the agency analyzed the rules' clarity, conciseness, and understandability?

The Department indicates the rules are clear, concise, and understandable.

6. Has the agency analyzed the rules' consistency with other rules and statutes?

The Department indicates the rules consistent with other rules and statutes.

7. Has the agency analyzed the rules' effectiveness in achieving its objectives?

The Department indicates the rules are effective in achieving their objectives.

8. Has the agency analyzed the current enforcement status of the rules?

The Department indicates the rules are enforced as written

9. Are the rules more stringent than corresponding federal law and, if so, is there statutory authority to exceed the requirements of federal law?

The Department has indicated that while the Clean Air Act does outline how States are to reduce air pollution, there is no federal law that is directly applicable to these rules.

10. For rules adopted after July 29, 2010, do the rules require a permit or license and, if so, does the agency comply with A.R.S. § 41-1037?

The Department has indicated that the rules do not require a permit or a license.

11. Conclusion

This Five-Year Review Report (5YRR) from the Arizona Department of Administration ("Department") covers five (5) rules in Title 2, Chapter 1, Article 8 related to the Travel Reduction Program. As with the previous report, the Department indicates that the rules are clear, concise, understandable, and enforced as written. As a result, the Department does not intend on amending any rules at this time.

The report meets the requirements of A.R.S. § 41-1056 and R1-6-301. Staff recommends approval of this report.

RE: Arizona Department of Administration
A.A.C. Title 2, Chapter 1, Article 8
Travel Reduction Programs
Five Year Review Report

Dear Chair Klein:

Please find enclosed the Five Year Review Report of the Arizona Department of Administration for A.A.C. Title 2, Chapter 1, Article 8, which is due on February 28, 2025.

The Arizona Department of Administration hereby certifies compliance with A.R.S. § 41-1091.

For questions about this report, please contact Mary Marshall at 602-542-7433 or Mary.Marshall@azdoa.gov.

Thank you,

Nicole Sornsin
State Human Resources Director
Special Employment Counsel
Arizona Department of Administration

Arizona Department of Administration
Five Year Review Report
A.A.C. Title 2. Administration
Chapter 1. Department of Administration
February 18, 2025

INTRODUCTION

The Arizona Department of Administration's (Department's) Office of Travel Reduction Program (TRP) implements the provisions of A.R.S. § 49-588 requiring all major employers in Maricopa County and designated areas within Pima County to implement a plan to reduce the number of employees who drive alone to a work site. The statutory goal is to have no more than 60 percent of employees driving alone to a work site. TRP staff implements strategies such as subsidies, trip-planning tools, incentives (such as preferential carpool parking), and a robust remote work program guided by policy to encourage state employees to use available travel reduction program measures rather than driving alone to and from work.

Title 2, Chapter 1, Article 8 – Travel Reduction Programs is the set of rules that implement the requirements of A.R.S. § 49-588 for the State as a major employer. This article includes definitions of terms used in the rules, eligibility requirements for reimbursement and the maximum amount of reimbursement subsidies. The article also provides for procedures necessary for reimbursement subsidies and the requirements for participation in as well as procedures for employees seeking to pay reduced transportation costs. These rules were first adopted in 1991; the agency undertook a rulemaking in 2018 that streamlined and consolidated the language but did not substantively change the rules.

1. Authorization of the rule by specific statute:

R2-1-801. A.R.S. § 41-710.01

R2-1-802. A.R.S. § 41-710.01

R2-1-803. A.R.S. § 41-710.01

R2-1-804. A.R.S. § 41-710.01

R2-1-805. A.R.S. § 41-796.01

2. The objective of each rule:

RULE	OBJECTIVE
R2-1-801	Definitions: The objective of the rule is to define terms used in the rules in a manner that is not explained adequately by a dictionary definition.
R2-1-802	Eligibility for Commuter Reimbursement Subsidy: The objective of the rule is to specify the responsibilities of an eligible employee who wishes to receive a transportation reimbursement subsidy.
R2-1-803	Commuter Transportation Reimbursement Subsidy Amount: The objective of the rule is to specify the factors considered when establishing the reimbursement subsidy.
R2-1-804	Commuter Transportation Reimbursement Subsidy Procedure: The objective of the rule is to establish the procedure for ensuring a transportation provider is paid for transportation provided to an eligible employee.
R2-1-805	Adjusted Work Hours: The objective of the rule is to establish the state's goal regarding adjusted work hours, including telework.

3. Are the rules effective in achieving their objectives? **Yes**

The statutory goal is to have no more than 60 percent of employees commuting to and from work in a single occupancy vehicle. The 2024 annual travel reduction survey of state employees working in Maricopa County showed that almost 46 percent of employees commute in a single occupancy vehicle. The 2024 annual travel reduction survey of state employees working in Pima County indicated that 59 percent of employees commute in a single occupancy vehicle. As such, the program rules have been effective in meeting the statutory goal of having no more than 60 percent of employees drive to and from work alone. Since the last 5YRR report in 2020, the single occupancy vehicle rate in Maricopa County has never exceeded 60 percent. In Pima County, it only exceeded 60 percent one year–the single occupancy vehicle rate was 62 percent in 2021.

4. Are the rules consistent with other rules and statutes? **Yes**

Applicable statutes include:

- The Clean Air Act (42 U.S.C. § 7401 et seq) outlines how states are to control air pollution;
- 5 U.S.C.§ 6501, defines "telework";

- A.R.S. § 41-101.03 requires the governor to designate a state agency to establish, administer, and operate a travel reduction program;
- A.R.S. § 41-710.01 provides rulemaking authority addressing reimbursement of transportation and telecommuting costs;
- A.R.S. § 41-796.01 authorizes adjusted work hours
- A.R.S. § 38-612 addresses state employee payroll salary deductions;
- A.R.S. § 49-541 provides definitions regarding applicable areas in Maricopa and Pima Counties;
- A.R.S. § 49-581 provides definitions regarding travel reduction program;
- A.R.S. § 49-588 requires major employers to establish and administer a travel reduction program;
- A.R.S. § 49-551(D) provides funding for the travel reduction program.

5. Are the rules enforced as written? **Yes**

The Office of Travel Reduction Programs enforces these rules via an employee-signed agreement outlining the terms and conditions for participation in the relevant programs (such as receiving a subsidized transit card, participating in the vanpool program, and receiving a carpool parking permit).

6. Are the rules clear, concise, and understandable? **Yes**

The Department considers the language of the rules to be clear, concise, and understandable.

7. Has the agency received written criticisms of the rules within the last five years? **No**

The agency has not received written criticism of the rules in the last five years.

8. Economic, small business, and consumer impact comparison:

The most recent economic, small business, and consumer impact statement (EIS) was prepared in 2018 when the program staff completed a rulemaking process to consolidate the rules. The 2018 EIS determined there would be no significant economic impact to the persons covered (employees participating in the program), businesses (transportation providers), and the Department (the only noted cost incurred was the time spent conducting the rulemaking).

Since the time that the 2018 EIS was prepared, there have been significant changes to the program within the current framework established by the rules. In 2018, the transportation subsidy rate was set at 50 percent, with the most significant portion of the subsidy spent on public transit subsidies for bus and light rail (subsidies totaled $406,600 in FY 2017) and the remainder covered vanpool subsidies set at $30 per eligible state employee. The Department launched a pilot program in FY 2020 that increased the subsidy to 100 percent (rollout of this pilot program was impacted by the pandemic). In FY 2024, the Department reimbursed $470,269 in commuter transportation costs at a 100 percent subsidy rate.

The total program costs increased from the costs reported in the 2018 EIS (the total cost of the travel reduction programs, including the subsidy, was $712,400 in FY 2017). In FY 2024, the total cost of the TRP, including the subsidy, was $910,956. State funds for the TRP are appropriated from the Air Quality Fund established under A.R.S. § 49-551.

Other program-related cost savings are being realized from the state's telework program. A.R.S. § 41-796.01 requires adjusted work hours, including telework, to be an option for eligible employees. Employees who telework are required to use a specific payroll code for days they telework. Telework reports utilizing these payroll codes indicate more than 60 percent of state employees in Maricopa County and 30 percent in Pima County are teleworking at least one day per pay period. Prior to 2020, telework participation was roughly 12 percent in Maricopa County. Established in 1992, the state's telework program was primarily designed for employees to work from home one or two days per pay period as an option to fulfill the requirements of A.R.S. § 41-796.01 and A.R.S. § 49-588. When the governor issued work from home orders for state employees in March 2020, the Department, under the direction of the governor's office, undertook to permanently transform the State of Arizona telework program. In 2020, the Department revised the telework policy to guide a virtual office option and updated the training and telework agreement. As the Department was updating policies and training, its General Services Division (GSD) undertook an aggressive real estate compression plan. By the end of fiscal year 2023, the state had reduced its real estate footprint by roughly 800,000 square feet, realizing an annual real estate leasing cost savings of more than $10 million. To support the thousands of employees who no longer have assigned workspaces in state buildings, GSD renovated the first floor of the building at 1400 West Washington Street in Phoenix to include a state-of-the-art coworking space where employees who needed to work in the Capitol Mall area could reserve a work station. The workspace is staffed full time with a facilities manager who is able to assist employees with reservations and room setup (this FTE is funded with TRP funds, as is the reservation software license).

Currently, there are more than 23,000 eligible employees in Maricopa County and nearly 5,000 in Pima County; these totals are comparable to the number of eligible employees reported in the 2020 5YRR. According to transit usage records for FY 2024, approximately 2.5 percent of employees in Maricopa County used commuter transportation. Transit riders averaged 18 subsidized rides per month. Transit usage is far below the pre-pandemic levels, as more than half of employees in Maricopa County telework. Very few eligible employees in Pima County participate in the TRP transit card subsidy program; this has not been tracked since April 2020 because the City of Tucson has kept transit free of charge (until December 2026).

There have also been significant changes in the program's intended outcomes–these are all positive changes (noted in item 3 of this report). The statutory intent of the TRP is to improve air quality and benefit the health of all who live in Areas A and B. According to the 2024 travel reduction program survey, the programs in Maricopa County resulted in more than 71 million miles not driven and 60 tons of air pollution avoided. Based on the data from the Pima County survey, state employees there saved 731,744 vehicle miles and averted 9,146 pounds of pollution in 2024 by using alternative modes of transportation (including telework).

9. Has the agency received any business competitiveness analyses of the rules? **No**

No analysis was submitted to the agency regarding the impact of the rules on business competitiveness.

10. Has the agency completed the course of action indicated in the agency's previous five-year-review report? **Yes**

In the 5YRR approved by the Council in August 2020, the Department indicated it had no definitive plan to amend the rules in Article 8. However, the Department indicated it was considering, as allowed under A.R.S. § 41-710.01, making a rule to address reimbursement of internet connectivity for teleworking employees. The Department noted that whether this would be done was dependent upon the percentage of employees who continued to telework, the potential cost of the change, and how to determine eligibility. As the number of employees who telework has remained above 16,000 per month statewide (and above 14,000 in Maricopa County), a cost analysis readily showed that the current appropriated funding levels would not allow for such reimbursements through program funds. TRP staff included this analysis in a legislatively required report to the Joint Legislative Budget Committee (JLBC) in September 2020. Some individual agencies have instituted such stipends using internal funding but the Department does not track individual agency efforts for TRP reporting purposes.

11. A determination after analysis that the probable benefits of the rule outweigh within this state the probable costs of the rule and the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs necessary to achieve the underlying regulatory objective:

The Department determined the benefits of the rules outweigh the costs and impose the least burden and costs on those regulated by the rules. The regulated entities are the state as an employer and employees who voluntarily choose to participate in the programs. For the state, the cost is offset through appropriations from the Air Quality Fund, so there is no impact to the general fund for these programs. The TRP staff markets the program offerings as an employee benefit, so this regulatory compliance measure actually contributes to the State's efforts to recruit and retain employees (this has proven particularly effective at the Arizona Department of Corrections, Rehabilitation and Reentry, which has a robust vanpool program that primarily serves corrections officers traveling long distances).

To participate in the TRP, an employee is required to complete an application authorizing a deduction of the reduced cost for commuter transportation from the employee's pay (if applicable) and agreeing to use the transit card only for work-related commuter transportation. This small burden is outweighed by the savings from having subsidized commuter transportation (employees view this as a benefit).
Transportation providers are required to track which eligible employees use commuter transportation and submit an invoice to the Department so reimbursement can be made. This small burden is outweighed by the benefit of potentially having additional users as a result of the TRP and this is a standard business practice for all transportation service providers.
Participation of employees and transportation providers in the TRP helps to achieve the underlying regulatory objective of reducing air pollution from fossil fuels.

12. Are the rules more stringent than corresponding federal laws? **No**

Although the goal of the TRP is reducing air pollution, as required under the Clean Air Act, no federal law is directly applicable to these rules.

13. For a rule made after July 29, 2010, that requires issuance of a regulatory permit, license, or agency authorization, whether the rule complies with A.R.S. § 41-1037 or explain why the agency believes an exception applies:

None of the rules requires issuance of a permit, license, or agency authorization.

14. Proposed course of action:

The Department does not propose taking action or making any amendments to the rules at this time.

TITLE 2. ADMINISTRATION

CHAPTER 1. DEPARTMENT OF ADMINISTRATION

Supplement 18-1

This Chapter contains rule Sections that were filed to be codified in the *Arizona Administrative Code* between the dates of January 1, through March 31, 2018.

Questions about these rules? Contact:

Department:	Department of Administration
Name:	Mary Marshall, Program Manager, Office of Travel Reduction Programs
Address:	100 N. 15th Ave., Suite 301
	Phoenix, AZ 85007

TITLE 2. ADMINISTRATION

CHAPTER 1. DEPARTMENT OF ADMINISTRATION

(Authority: A.R.S. § 38-613 et seq. and A.R.S. § 41-703(3))

ARTICLE 8. TRAVEL REDUCTION PROGRAMS

Article 8, consisting of Sections R2-1-801 through R2-1-805 adopted effective December 30, 1994 (Supp. 94-4).

Article 8, consisting of Sections R2-1-801 through R2-1-804 repealed effective December 30, 1994 (Supp. 94-4).

Section

ARTICLE 8. TRAVEL REDUCTION PROGRAMS

R2-1-801. Definitions

In this Article, unless otherwise specified:

1. "Agency head" means the head of each department, agency, board, and commission of this state.
2. "Area A and Area B" have the same meaning in A.R.S. § 49-541.
3. "Commuter transportation" means a mode of transportation used by an eligible employee to travel to or from the eligible employee's place of employment and made available to the eligible employee by a transportation provider under contract with the state of Arizona.
4. "Director" means the Director of the Department of Administration or the director's designee.
5. "Eligible employee" means an employee, in pay status, and lives or works in Area A or Area B, except a university employee.
6. "Employee" means an individual elected or appointed to a state position, or employed on a part-time or full-time basis by a department, agency, board, or commission of this state.
7. "Pay status" has the meaning in R2-5A-101.
8. "Period" means October 1 through the following April 1.
9. "Reduced cost" means the portion of the total cost of commuter transportation that is paid by an eligible employee.
10. "Reimbursement subsidy" means the portion of the total cost of commuter transportation that is paid on behalf of an eligible employee to a transportation provider through a contract with the state of Arizona.
11. "Telework" has the same meaning as at 5 U.S.C. 6501.
12. "Transportation provider" means:

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

a. An incorporated city or town,
b. A regional public transportation authority established under A.R.S. § 48-5102,
c. A regional transportation authority established under A.R.S. § 48-5302,
d. A commercial enterprise, or
e. An Arizona state agency.

Historical Note

Adopted effective May 31, 1991 (Supp. 91-2). Section repealed, new Section adopted effective December 30, 1994 (Supp. 94-4). Amended by final rulemaking at 6 A.A.R. 746, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 13 A.A.R. 4579, effective February 5, 2008 (Supp. 07-4). Corrected rule reference to R2-5A-101 in subsection (5) due to Personnel Reform rules made in 2012; statutory citations updated in subsections (7), (9) and (11) according to Laws 2012, Ch. 321, correction letter M15-192 filed by agency (Supp. 14-2). Amended by final rulemaking at 24 A.A.R. 625, effective May 5, 2018 (Supp. 18-1).

R2-1-802. Eligibility for Commuter Transportation Reimbursement Subsidy

A. The Director shall pay a reimbursement subsidy on behalf of an eligible employee who:
1. Completes an application, using a form available from the Department of Administration, for authorization to pay the reduced cost for commuter transportation; and
2. Uses commuter transportation to travel to or from the eligible employee's place of employment.

B. An eligible employee who uses public or private bus or light rail as a means of commuter transportation shall:
1. Authorize payroll deduction under A.R.S. § 38-612(B)(9) of the reduced cost; and
2. As a condition of being authorized to pay the reduced cost for commuter transportation and being issued a transportation card, agree:
   a. Not to allow anyone else to use the transportation card;
   b. To use the transportation card only for commuter transportation unless the eligible employee incurs the transportation provider's maximum monthly charge;
   c. To maintain payroll deduction authorization;
   d. To notify the Department of Administration if the transportation card is lost or stolen;
   e. To pay $5 on a payroll deduction to replace a lost, damaged, or stolen transportation card;
   f. To surrender the transportation card upon termination of employment with the state; and
   g. That use of the transportation card after receiving notice of a change to the terms of using the transportation card constitutes agreement to the change.

Historical Note

Adopted effective May 31, 1991 (Supp. 91-2). Section repealed, new Section adopted effective December 30, 1994 (Supp. 94-4). Amended by final rulemaking at 6 A.A.R. 746, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 24 A.A.R. 625, effective May 5, 2018 (Supp. 18-1).

R2-1-803. Commuter Transportation Reimbursement Subsidy Amount

A. The Director shall determine the amount of reimbursement subsidy, up to 100% of the actual cost of commuter transportation, based upon:
1. The number of eligible employees authorized under R2-1-802 to pay reduced cost for commuter transportation;
2. The cost of the commuter transportation; and
3. The amount of state funds appropriated by the Legislature for reimbursement subsidy purposes.

B. The Director shall notify an eligible employee of:
1. The initial percentage of reimbursement subsidy before the employee applies under R2-1-802(A)(1); and
2. Any change in the amount of reimbursement subsidy at least 30 days before the effective date of the change.

Historical Note

Adopted effective May 31, 1991 (Supp. 91-2). Section repealed, new Section adopted effective December 30, 1994 (Supp. 94-4). Amended by final rulemaking at 6 A.A.R. 746, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 24 A.A.R. 625, effective May 5, 2018 (Supp. 18-1).

R2-1-804. Commuter Transportation Reimbursement Subsidy Procedure

A. A transportation provider shall submit a monthly invoice to the Director that itemizes the total commuter transportation costs incurred by each eligible employee.

B. The Director shall pay the transportation provider the reimbursement subsidy amount for each eligible employee.

C. The eligible employee shall pay the reduced cost to the transportation provider either directly or, if required under R2-1-802(B), through payroll deduction.

Historical Note

Adopted effective May 31, 1991 (Supp. 91-2). Section repealed, new Section adopted effective December 30, 1994 (Supp. 94-4). Amended by final rulemaking at 6 A.A.R. 746, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 24 A.A.R. 625, effective May 5, 2018 (Supp. 18-1).

R2-1-805. Adjusted Work Hours

A. During the period, each agency head shall provide work schedule options so a minimum of 85 percent of employees whose offices are located in Area A or Area B are on adjusted work hours. Adjusted work hours are schedules that:

1. Begin the workday on or before 7:30 a.m., or on or after 8:30 a.m., and conclude the workday on or before 4:30 p.m., or on or after 5:30 p.m.;
2. Adjust work hours into a four-day, 40-hour work week. Employees shall avoid a workday that begins between 7:30 a.m. and 8:30 a.m. or concludes between 4:30 p.m. and 5:30 p.m., whenever possible; or
3. Allow the employee to telework.

B. Notwithstanding the requirements of subsection (A), each agency shall comply with A.R.S. § 38-401 requiring state offices to be open from 8:00 a.m. until 5:00 p.m.

Historical Note

Adopted effective December 30, 1994 (Supp. 94-4). Amended by final rulemaking at 6 A.A.R. 746, effective February 1, 2000 (Supp. 00-1). Amended by final rulemaking at 13 A.A.R. 4579, effective February 5, 2008 (Supp. 07-4). Section R2-1-805 repealed; new Section R2-1-805 renumbered from R2-1-602 and amended by final rulemaking at 24 A.A.R. 625, effective May 5, 2018 (Supp. 18-1).

February 18, 2025

Applicable Statutes

A.A.C. Title 2, Chapter 1, Article 8

38-612. Administration of payroll salary deductions

A. There shall be no payroll salary deductions from the compensation of state officers or employees except as specifically authorized by federal law or regulation or by a statute of this state. An administrative agency of this state may not authorize any other deduction.

B. Notwithstanding subsection A of this section, reductions to retroactive payroll compensation are authorized pursuant to section 38-1106, subsection K, paragraph 5.

C. In addition to those payroll salary deductions required by federal law or regulation or by statute, state officers or employees may authorize deductions to be made from their salaries or wages for the payment of:

1. Premiums on any health benefits, disability plans or group life plans provided for by statute and any existing insurance programs already provided by payroll deduction.

2. Shares or obligations to any state or federally chartered credit union established primarily for the purpose of serving state officers and employees and their families.

3. Dues in a recognized association composed principally of employees and former employees of agencies of this state, subject to the following criteria:

(a) When composed of at least one thousand state employees other than employees of the state universities, the department of public safety and academic personnel of the Arizona state schools for the deaf and the blind.

(b) When composed of at least twenty-five percent of the academic personnel or of the nonacademic employees of any state university.

(c) When composed of at least twenty-five percent of the academic personnel of the Arizona state schools for the deaf and the blind.

(d) When composed of at least four hundred state employees who are certified as peace officers by the Arizona peace officer standards and training board established by section 41-1821.

(e) When composed of a combined total of at least eight hundred state employees described in subdivision (d) of this paragraph, state employees of the state department of corrections and state employees who are law enforcement officers.

4. Deferred compensation or tax sheltered annuity salary reductions when made under approved plans.

5. Federal savings bond plans.

6. Recurrent fees, charges or other payments payable to a state agency under a collection plan approved by the director of the department of administration.

7. Except as provided in subsection G of this section, contributions made to a charitable organization:

(a) Organized and operated exclusively for charitable purposes and selected by the presidents of the state universities. Employees of the state universities shall be advised by form of the charitable organizations to which the employees may contribute through payroll salary deductions. The advisory provided under this subdivision shall be substantially similar to the following and prominently printed:

"You may contribute to any charitable organization registered under internal revenue code section 501(c)(3), tax exempt status.

_____

Charitable organization name"

This subdivision applies only to academic personnel and nonacademic employees of the state universities.

(b) Organized and operated exclusively for charitable purposes, provided a fund drive by such an organization shall be applicable to all state agencies except the state universities covered under subdivision (a) of this paragraph and no state officer or employee of state agencies subject to this subdivision may authorize more than one deduction for charitable purposes to be in effect at the same time. This subdivision applies to all state agencies except the universities covered under subdivision (a) of this paragraph.

8. Contributions made for the purpose of contributing to a fundraising campaign for a university or a club for faculty or staff, or both, which is recognized by the university president and authorized by the Arizona board of regents. This paragraph applies only to academic personnel and nonacademic employees of the state universities.

9. Charges payable for transportation expenses pursuant to section 41-710.01.

10. Payments ordered by courts of competent jurisdiction within this state.

11. Automobile or homeowner's insurance premiums.

12. Premiums for the following state-sponsored group benefits that are established primarily for the purpose of serving state officers and employees and their families:

(a) Long-term care insurance.

(b) Critical care insurance.

(c) Prepaid legal services.

(d) Identity theft protection services.

13. A computer system as defined in section 13-2301 for personal use.

D. In order for the department of administration to establish and maintain a dues deduction pursuant to subsection C, paragraph 3 of this section, the department of administration may establish and maintain the

deduction without the appropriation of any additional monies or technological improvements. The department of administration shall track all personnel hours dedicated to dues deduction. The department of administration may charge a fee to a recognized association that qualifies under subsection C, paragraph 3 of this section for establishing the automatic dues deduction and anytime changes are needed in the automatic dues deduction system as a result of an increase or decrease in association dues. If the membership criteria of a recognized association fall below the criteria set forth in subsection C, paragraph 3 of this section, the recognized association shall be on probation for one year. If the membership of a recognized association falls below the criteria set forth in subsection C, paragraph 3 of this section for more than one year, or if the members of the association engage in a work slowdown or work stoppage, the dues deduction authorized by this section shall immediately be discontinued.

E. For those state officers and employees under payroll systems that are under the direction of the director of the department of administration, the director shall provide for the administration of payroll deductions for the purposes set forth in this section. For all other state officers and employees and for persons receiving allowances or benefits under other state payroll and retirement systems, the appropriate state officer shall provide for such administration of payroll deductions. Such administration shall operate without cost or contribution from the state other than the incidental expense of making the deductions and remittances to the payees. If any payee requests additional services, the director of the department of administration or any other appropriate state officer may require payment for the additional cost of providing such services.

F. As a means of readily identifying the employee from whom payroll deductions are to be made, the state officer administering payroll deductions may request an employee to enter such employee's social security identification number on the payroll deduction authorization. Such number shall not be used for any other purpose.

G. There shall be no payroll salary deductions from the compensation of state officers or employees for contributions made to a charitable organization that performs a nonfederally qualified abortion or maintains or operates a facility where a nonfederally qualified abortion is performed for the provision of family planning services. For the purposes of this subsection, "nonfederally qualified abortion" means an abortion that does not meet the requirements for federal reimbursement under title XIX of the social security act.

H. The state, the director of the department of administration or any other appropriate state officer shall be relieved of any liability to employees authorizing deductions or organizations receiving deductions that may result from authorizations pursuant to this section.

41-101.03. State employee travel reduction program; designated state agency; fund

A. The governor shall designate an appropriate state agency to establish, administer and operate a travel reduction program for the transportation of state employees between their residences and their place of work. The designated agency shall establish the travel reduction program for the voluntary participation by state employees in any area of this state where a sufficiently large number of state employees reside and where the costs of administering a travel reduction program would not be excessive.

B. There is established the state employee travel reduction fund which consists of monies appropriated by the legislature, unrestricted private grants, gifts, contributions and devises, federal funds, and fees. The state agency designated by the governor pursuant to this section shall administer the fund and may disburse monies from the fund only in direct support of the travel reduction program established by this section. Monies in the fund appropriated by the legislature are exempt from the provisions of section 35-190 relating to lapsing of appropriations.

41-703. Duties of director

The director shall:

1. Be directly responsible to the governor for the direction, control and operation of the department.

2. Provide assistance to the governor and legislature as requested.

3. Adopt rules the director deems necessary or desirable to further the objectives and programs of the department.

4. Formulate policies, plans and programs to effectuate the missions and purposes of the department.

5. Employ, determine the conditions of employment and prescribe the duties and powers of administrative, professional, technical, secretarial, clerical and other persons as may be necessary in the performance of the department's duties and contract for the services of outside advisors, consultants and aides as may be reasonably necessary.

6. Make contracts and incur obligations within the general scope of the department's activities and operations subject to the availability of monies.

7. Contract with or assist other departments, agencies and institutions of the state, local and federal governments in the furtherance of the department's purposes, objectives and programs.

8. Accept and disburse grants, gifts, donations, matching monies and direct payments from public or private agencies for the conduct of programs that are consistent with the overall purposes and objectives of the department.

9. Establish and maintain separate financial accounts as required by federal law or regulations.

10. Advise and make recommendations to the governor and the legislature on all matters concerning the department's objectives.

11. Delegate the administrative functions, duties and powers as the director deems necessary to carry out the efficient operation of the department.

41-710.01. Reimbursement of transportation and telecommuting costs; definition

A. The director shall adopt rules to provide for the reimbursement of up to one hundred per cent of the cost to state employees of either:

1. Public transportation, vanpool or private bus service to and from their place of employment.

2. Telecommuting connectivity.

B. For the purposes of this section, "public transportation" means local transportation of passengers by means of a public conveyance operated or licensed by an incorporated city or town or a regional public transportation authority.

41-796.01. Adjusted work hours

The director by rule shall require adjusted work hours for at least eighty-five per cent of state employees with offices located in area A or area B as defined in section 49-541 each year beginning October 1 and ending April 1 in order to reduce the level of carbon monoxide concentrations caused by vehicular travel.

49-541. Definitions

In this article, unless the context otherwise requires:

1. "Area A" means the area delineated as follows:

(a) In Maricopa county:

Township 8 north, range 2 east and range 3 east

Township 7 north, range 2 west through range 5 east

Township 6 north, range 5 west through range 6 east

Township 5 north, range 5 west through range 7 east

Township 4 north, range 5 west through range 8 east

Township 3 north, range 5 west through range 8 east

Township 2 north, range 5 west through range 8 east

Township 1 north, range 5 west through range 7 east

Township 1 south, range 5 west through range 7 east

Township 2 south, range 5 west through range 7 east

Township 3 south, range 5 west through range 1 east

Township 4 south, range 5 west through range 1 east

(b) In Pinal county:

Township 1 north, range 8 east and range 9 east

Township 1 south, range 8 east and range 9 east

Township 2 south, range 8 east and range 9 east

Township 3 south, range 7 east through range 9 east

(c) In Yavapai county:

Township 7 north, range 1 east and range 1 west through range 2 west

Township 6 north, range 1 east and range 1 west

2. "Area B" means the area delineated in Pima county as township 11 and 12 south, range 12 through 14 east; township 13 through 15 south, range 11 through 16 east; township 16 south, range 12 through 16 east, excluding any portion of the Coronado national forest and the Saguaro national park.

3. "Certificate of inspection" means a serially numbered device or symbol, as may be prescribed by the director, indicating that a vehicle has been inspected pursuant to the provisions of section 49-546 and has passed inspection.

4. "Certificate of waiver" means a uniquely numbered device or symbol, as may be prescribed by the director, indicating that the requirement of passing reinspection has been waived for a vehicle pursuant to the provisions of this article.

5. "Conditioning mode" means either a fast idle test or a loaded test.

6. "Curb idle test" means an exhaust emissions test conducted with the engine of a vehicle running at the manufacturer's specified idle speed plus or minus one hundred revolutions per minute but without pressure exerted on the accelerator.

7. "Emissions inspection station permit" means a certificate issued by the director authorizing the holder to perform vehicular inspections pursuant to this article.

8. "Fast idle test" means an exhaust emissions test conducted with the engine of the vehicle running under an accelerated condition to an extent prescribed by the director.

9. "Fleet emissions inspection station" means any inspection facility operated under a permit issued to a qualified fleet owner or lessee as determined by the director.

10. "Golf cart" means a motor vehicle which has not less than three wheels in contact with the ground, has an unladen weight of less than thirteen hundred pounds, is designed to be and is operated at not more than fifteen miles an hour and is designed to carry golf equipment and persons.

11. "Gross weight" has the same meaning prescribed in section 28-5431.

12. "Independent contractor" means any person, business, firm, partnership or corporation with which the director may enter into an agreement providing for the construction, equipment, maintenance, personnel, management and operation of official emissions inspection stations pursuant to section 49-545.

13. "Loaded test" means an exhaust emissions test conducted at cruise or transient conditions as prescribed by the director.

14. "Official emissions inspection station" means an inspection facility, other than a fleet emissions inspection station, whether placed in a permanent structure or in a mobile unit for conveyance among various locations within this state, for the purpose of conducting emissions inspections of all vehicles required to be inspected pursuant to this article.

15. "Tampering" means removing, defeating or altering an emissions control device which was installed at the time a vehicle was manufactured.

16. "Vehicle" means any automobile, truck, truck tractor, motor bus or self-propelled or motor-driven vehicle registered or to be registered in this state and used upon the public highways of this state for the purpose of transporting persons or property, except implements of husbandry, road rollers or road machinery temporarily operated upon the highway.

17. "Vehicle emissions control area" means area A or area B.

49-551. Air quality fee; air quality fund; purpose

A. Every person who is required to register a motor vehicle in this state pursuant to section 28-2153 shall pay, in addition to the registration fee, an annual air quality fee at the time of vehicle registration of $1.50. Unless and until the United States environmental protection agency grants a waiver for diesel fuel pursuant to section 211(c)(4) of the clean air act, every person who is required to register a diesel powered motor vehicle in this state with a declared gross weight as defined in section 28-5431 of more than eight thousand five hundred pounds and every person who is subject to an apportioned fee for diesel powered motor vehicles collected pursuant to title 28, chapter 7, articles 7 and 8 shall pay an additional apportioned diesel fee of $10.

B. The registering officer shall collect the fees and immediately deposit, pursuant to sections 35-146 and 35-147, the air quality fees in the air quality fund established pursuant to subsection C of this section and shall deposit the diesel fees in the voluntary vehicle repair and retrofit program fund established pursuant to section 49-558.02.

C. An air quality fund is established consisting of monies received pursuant to this section, gifts, grants and donations, and monies appropriated by the legislature. The department of environmental quality shall administer the fund. Monies in the fund are exempt from the provisions of section 35-190 relating to the lapsing of appropriations. Interest earned on monies in the fund shall be credited to the fund. Monies in the air quality fund shall be used, subject to legislative appropriation, for:

1. Air quality research, experiments and programs conducted by or for the department for the purpose of bringing area A or area B into or maintaining area A or area B in attainment status, improving air quality in areas of this state outside area A or area B and reducing emissions of particulate matter, carbon monoxide, oxides of nitrogen, volatile organic compounds and hazardous air pollutants throughout the state.

2. Monitoring visible air pollution and developing and implementing programs to reduce emissions of pollutants that contribute to visible air pollution in counties with a population of four hundred thousand persons or more.

3. Developing and adopting rules in compliance with sections 49-426.03, 49-426.04, 49-426.05 and 49-426.06.

D. The department shall transfer $400,000 from the air quality fund to the department of administration for the purposes prescribed by section 49-588 in eight installments in each of the first eight months of a fiscal year.

E. This section does not apply to an electrically powered golf cart or an electrically powered vehicle.

49-581. Definitions

In this article, unless the context otherwise requires:

1. "Alternate mode" means any mode of commute transportation other than the single occupancy motor vehicle.

2. "Approvable travel reduction plan" means a plan that is submitted by a major employer and that meets the requirements set forth in section 49-588.

3. "Area A" has the same meaning prescribed in section 49-541.

4. "Board" means the board of supervisors of a county with a population of more than one million two hundred thousand persons according to the most recent United States decennial census.

5. "Carpool" or "vanpool" means two or more persons traveling in an automobile, truck or van to or from work.

6. "Commute trip" means a trip taken by an employee to or from a work site located within the county.

7. "Commuter matching service" means a system, whether it uses computer or manual methods, which assists in matching employees for the purpose of sharing rides to reduce the drive alone travel.

8. "Employer" means any sole proprietor, partnership, corporation, unincorporated association, cooperative, joint venture, agency, department, district or other individual or entity, either public or private, that employs workers.

9. "Full-time employee" means an employee who works at or reports to a single work site during any twenty-four hour period for at least three days per week during at least six months of the year.

10. "Full-time student" means a driving-aged high school, community college or university student commuting to school three or more days of the week during any regular school term.

11. "Major employer" means an employer with one hundred or more employees working at or reporting to a single work site during any twenty-four hour period for at least three days per week during at least six months of the year, except that in area A the threshold is fifty employees.

12. "Mode" means the type of conveyance used in transportation, including single occupancy motor vehicle, rideshare vehicles, transit, bicycle and walking.

13. "Motor vehicle" means any self-propelled vehicle including a car, van, bus or motorcycle and all other motorized vehicles.

14. "Political subdivision" means a city, town or county of this state.

15. "Public interest group" means any nonprofit group whose purpose is to further the welfare of the community.

16. "Reduced emission vehicle" means a motor vehicle that is certified by the task force as being substantially lower emitting in actual use than vehicles generally purchased in the area and that shall be counted as less than a single motor vehicle for travel reduction plan purposes.

17. "Reduced emission vehicle factor" means a factor that is applied to the single occupancy vehicle count and the motor vehicle miles traveled count pursuant to section 49-588 to allow a reduced emission vehicle to receive less than the full count of a regular motor vehicle or a mile traveled by a regular motor vehicle.

18. "Regional" means an area which encompasses or overlaps territory within the jurisdiction of two or more political subdivisions of this state.

19. "Regional program" means the combination of all implemented plans within area A which program shall begin in January, 1989.

20. "Ridesharing" means transportation of more than one person for commute purposes in a motor vehicle, with or without the assistance of a commuter matching service.

21. "Staff" means the county staff assigned to the task force.

22. "Task force" means the travel reduction program regional task force in area A which is designated by the board as the responsible agency to implement and enforce this article.

23. "Transit" means a bus or other public conveyance system.

24. "Transportation coordinator" means a person designated by an employer, property manager or transportation management association as the lead person in developing and implementing a travel reduction plan.

25. "Transportation management association" means a group of employers or associations formally organized to seek solutions for transportation problems experienced by the group.

26. "Travel reduction plan" means a written report outlining travel reduction measures.

27. "Travel reduction program" means a program that implements a travel reduction plan by an employer and is designed to achieve a predetermined level of travel reduction through various incentives and disincentives.

28. "Vehicle miles traveled" means the number of miles traveled by a motor vehicle for commute trips. A mile traveled by a reduced emission vehicle shall be counted as less than a full vehicle mile traveled for travel reduction plan purposes.

29. "Vehicle occupancy" means the number of occupants in a motor vehicle including the driver.

30. "Voluntary participant" means an employer that is not included in the definition of major employer and chooses to participate in a travel reduction program.

31. "Work site" means a building and any grouping of buildings which are on physically contiguous parcels of land or on parcels separated solely by private or public roadways or rights-of-way and which are owned or operated by the same employer.

49-588. Requirements for major employers

A. In each year of the regional program each major employer shall:

1. Provide each regular employee with information on alternate mode options and travel reduction measures. This information shall also be provided to new employees at the time of hiring.

2. Participate in a survey and reporting effort as directed by the task force and as scheduled by the staff. The results of this survey shall form a baseline against which attainment of the targets in subsection D of this section shall be measured as follows:

(a) The baseline for participation in alternative modes of transportation shall be based on the proportion of employees commuting by single occupancy vehicles.

(b) The baseline for vehicle miles traveled shall be the average vehicle miles traveled from place of residence to work per employee for employees not residing on the work site.

3. Prepare and submit a travel reduction plan for submittal to the staff and presentation to the task force. The staff shall assist in preparing the plan. Major employers shall submit plans within nine weeks after they receive survey data results. The plan shall contain the following elements:

(a) The name of the designated transportation coordinator.

(b) A description of employee information programs and other travel reduction measures which have been completed in the previous year.

(c) A description of additional travel reduction measures to be undertaken by the major employer in the coming year. The following measures may be included:

(i) A commuter matching service to facilitate employee ridesharing for work trips.

(ii) Provision of vans for vanpooling.

(iii) Subsidized carpooling or vanpooling which may include payment for fuel, insurance or parking.

(iv) Use of company vehicles for carpooling.

(v) Provision for preferential parking for carpool or vanpool users which may include close-in parking or covered parking facilities.

(vi) Cooperation with other transportation providers to provide additional regular or express service buses to the work site.

(vii) Subsidized bus fares.

(viii) Construction of special loading and unloading facilities for transit and carpool and vanpool users.

(ix) Cooperation with political subdivisions to construct walkways or bicycle routes to the work site.

(x) Provision of bicycle racks, lockers and showers for employees who walk or bicycle to and from work.

(xi) Provision of a special information center where information on alternate modes and other travel reduction measures is available.

(xii) Establishment of a full-time or part-time work at home program for employees.

(xiii) Establishment of a program of adjusted work hours which may include telecommuting, compressed workweeks or staggered work hours. Work hour adjustments should not interfere with or discourage the use of ridesharing and transit.

(xiv) Establishment of a program of parking incentives such as a rebate for employees who do not use the parking facility.

(xv) Incentives to encourage employees to live closer to work.

(xvi) Implementation of other measures designed to reduce commute trips such as the provision of day care facilities or emergency taxi services.

(xvii) Incentives for use of reduced emission vehicles and alternative fuel vehicle refueling facilities.

B. All employers in area A with one hundred or more employees at a single work site shall notify their employees of the employees' duty to comply with the requirements of section 49-542. The travel reduction program regional task force shall prepare and make available a standard information form for use by all employees of those employers.

C. Except as provided in subsection F of this section, an approvable travel reduction plan shall meet all of the following criteria:

1. The plan shall designate a transportation coordinator.

2. The plan shall describe a mechanism for regular distribution of alternate mode transportation information to employees.

3. For employers that in any year meet or exceed annual regional targets for travel reduction, the plan shall accurately and completely describe current and planned travel reduction measures.

4. For employers that, in any year, fall below the regional targets for travel reduction, the plan shall include commitments to implement:

(a) At least two specific travel reduction measures in the first year of the regional program.

(b) At least three specific travel reduction measures in the second year of the regional program.

D. After the second year, the task force shall review the travel reduction programs for employers not meeting regional targets and may recommend additional measures.

E. Employers shall implement all travel reduction measures they consider necessary to attain the following reduction in the proportion of employees commuting by single occupancy vehicles or commuter trip vehicle miles travel reductions per regulated work site:

1. Five per cent reduction in the proportion of employees commuting by single occupancy vehicles as determined in the annual survey in the first year, except that in area A the reduction shall be ten per cent.

2. In the second, third, fourth and fifth years, an additional five per cent reduction in the proportion of employees commuting by single occupancy vehicles as determined in the annual survey, except that in area A the reduction shall be ten per cent. If the percentage of employees commuting in single occupancy vehicles is sixty per cent or less, additional reductions are not required.

F. Notwithstanding any other requirements, a major employer may be in compliance with the requirements of subsections A, C and E of this section by submitting a plan that demonstrates achievement of emissions reductions equivalent to those that would have been obtained through compliance with the requirements of subsection E of this section. Emissions reductions achieved for the purpose of compliance with this subsection shall be in addition to any other emissions reductions that are otherwise required by law, rule, ordinance or permit. The plan may contain any of the following measures to achieve emissions reductions:

1. Voluntary polluting vehicle trade-outs only if both of the following conditions are met:

(a) Vehicles are not crushed.

(b) The program applies only to vehicles owned by the major employer or its employees.

2. Use of clean on-road vehicles.

3. Use of clean off-road mobile equipment.

4. Remote sensing.

5. Other mobile source emissions reductions.

6. Emissions reductions from stationary sources.

7. Peak commute trip reductions.

8. Other work-related trip reductions.

9. Vehicle miles traveled reduction programs.

10. Fuel additives which have been shown to reduce hydrocarbon, carbon monoxide or particulate matter emissions of significant polluting on-road vehicles, off-road mobile sources or area sources by twenty per cent or more.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM - PETITION

MEETING DATE: June 3, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: May 20, 2025

SUBJECT: A.R.S. 41-1033(E) and (G) Petition Related to Arizona Corporation Commission Agency Practice and Substantive Policy Statement

Background

As described in Council staff's memorandum dated February 18, 2025, on November 8, 2024, Council staff received a petition ("Petition") from Underground Arizona Director Daniel Dempsey ("Petitioner") challenging the Arizona Corporation Commission ("Commission") substantive policy statement 3 of Decision 79140. The Petitioner is asking the Council to consider the petition under both A.R.S. § 41-1033(E) and A.R.S. § 41-1033(G).

For A.R.S. § 41-1033(E) the petitioner is alleging that Policy Statement 3, which concerns undergrounding transmission lines, is actually a rule.

For A.R.S. § 41-1033(G), the petitioner is alleging that Policy Statement 3 exceeds the agency's statutory authority, is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern.

On September 18, 2023, one of the commissioners filed the following amendment to the Commission's Proposed Order from September 1, 2023.

> 3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines

> underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."

On October 4, 2023 the Proposed Order with the above mentioned amendment was adopted by the Commission in a 4 to 1 vote. This amendment is Policy Statement 3 that has prompted the Petitioner to request Council review.

In May 2024, Tucson Electric filed a Certificate of Environmental Compatibility with the Line Sitting Committee. In this Certificate, Tucson Electric cited to Policy Statement 3 stating " Consistent with the Commission's Policy Statement…. requiring undergrounding would render the Project unreasonably restrictive and not feasible."

The Commission approved Tucson Electric's application for the Certificate in September 2024, and included the following finding of fact "However, given the Commission's Policy Statement found in Decision No. 79140 (October 4, 2023), the Committee finds pursuant to A.R.S. 40-360.06(D) that any local ordinance or plan that requires TEP to incur an incremental cost to construct the Project below ground 'is unreasonably restrictive and compliance therewith is not feasible in view of technology available."

A.R.S. § 40-360.06(D) says in part "Any certificate granted by the committee shall be conditioned on compliance by the applicant with all applicable ordinances, master plans and regulations of the state, a county or an incorporated city or town, except that the committee may grant a certificate notwithstanding any such ordinance, master plan or regulation, exclusive of franchises, if the committee finds as a fact that compliance with such ordinance, master plan or regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available…."

On September 3, 2024 Petitioner filed a petition for Commission review under A.R.S. § 41-1033(A). The Commission informed the public of the right to Petition in Decision No. 79140. The Petitioner stated that the Policy Statement identified above should be treated as a rule, along with not being specifically authorized by statute, exceeding statutory authority, and is unduly burdensome.

On October 31, 2024 the Commission provided a written rejection to the Petitioner with the Commission alerting the Petitioner of their ability to appeal to the Council pursuant to A.R.S. § 41-1033(E).

Petitioner's Arguments

As indicated above, the Petitioner argues that Policy Statement 3 adopted by the Commission on October 4, 2024 exceeded the Commission's authority because the policy statement was being treated as a rule in practice. The Petitioner argues that the Commission provided the policy statement to the Line Siting Committee to guide the Line Siting Committee on ratepayer recovery and undergrounding of powerlines, the petitioner argues both of which exceed the jurisdiction of the Line Siting Committee. The Petitioner specifically states that the Line Siting Committee is strictly focused on identifying routes for transmission lines and the sole authority for how a utility recovers cost from ratepayers is with the Commission itself. The Line Siting Committee cannot "preemptively determine the cost recovery outcomes of the ratemaking process." The Petition states that the Line Siting Committee is governed by A.R.S. § 40-360 et seq and is limited to overhead transmission lines under A.R.S. § 40-360(10).

The Petitioner states that the Commission knew this policy statement exceeded the Commission's authority because in June 2023 the Commission's legal counsel warned of jurisdictional issues and recommended formal rulemaking. This statement can be found in Docket No.ALS-00000A-22-0320. The Petitioner alleges that a Commissioner acknowledged these jurisdiction issues during a September 2023 hearing as well.

The Petitioner further contends that when Tucson Electric Company "TEP" applied for a "Certificate of Environment Compatibility "CEC", the Line Siting Committee relied on Policy Statement 3 to "preemptively determine that any incremental undergrounding cost would be unrecoverable from ratepayers and therefore was not feasible." The Petitioner argues that this reliance shows Policy Statement 3 being treated as a rule and that the Line Siting Committee used Policy Statement 3 to exercise authority they did not have by making a ratemaking decision.

The Petitioner also states that the Commission's argument that Policy Statement 3 only repeated what the Arizona Supreme Court held was misguided because a utility can be held responsible for costs related to undergrounding without those costs being passed on to the ratepayer. The Petitioner offered the following as support of his position that the Policy Statement was not merely a recognition of state law; "The fact that property owners may petition for the creation of an underground conversion district and be bound to pay for the undergrounding instead of the utility, does not prevent the Town from mandating the undergrounding at utility expense." *Arizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447, 451 (1980).

Commission's Response

Council staff received the Commission's response to the Petition pursuant to A.R.S. § 41-1033(H)(3) on April 28, 2025. Therein, the Commission argues five separate points.

A. GRRC Lacks Authority to Review Commission Rules or Policies

The Commission argues that because the Commission is exempt from GRRC's Title 41, Article 5 authority to oversee rulemaking under A.R.S. §41-1057(A)(2) that they are exempt from all GRRC oversight. The Commission also cites having their own procedures in place for rulemaking as further support for GRRC having no authority to review any Commission rules or policies.

B. **The Commission Has Exclusive Rulemaking Authority**

The Commission states that "Article XV, Section 6 of the Arizona Constitution grants the ACC sole authority to promulgate rules and regulations." The Commission states that this authority also means they are exempt from the Arizona Administrative Procedure Act (APA).

C. The Advisory Policy Statement Reflects Existing Law

The Commission argues that Policy Statement 3 is only a restatement of A.R.S. § 40-341(13) because the state defines underground conversion cost as ""the costs to be paid by each owner to each public service corporation or public agency by the property owners within an underground conversion service area," with the Commission stating that this ensures costs are only passed on to beneficiaries and not ratepayers. The Commission also argues that A.R.S. § 48-620 allows for municipalities to fund underground utilities through tax assessments, and that A.A.C. R14-2-206(B)(2)(c) requires a customer who requests undergrounding to pay the difference between overhead and underground connections. The Commission argues these two statutes and one rule show that utilities should avoid undergrounding unless required for reliability, safety, or operational needs, and that Policy Statement 3 is just a clarification of those laws.

D. The Petition is Potentially Barred by Res Judicata and Defensive Collateral Estoppel

The Commission states that the Petitioner has already filed a complaint in Maricopa County Superior Court, that alleged the Commission lacked statutory authority for Policy Statement 3. The Commission, in Exhibit B, provided a copy of the dismissal of this complaint. The Commission states that because the issue has already been litigated it would be overly burdensome to needlessly litigate again.

*Council staff notes that A.R.S. § 41-1033(M) states that "A decision by the council pursuant to this section is not subject to judicial review, except that, **in addition to** the procedure prescribed in this section or in lieu of the procedure prescribed in this section, a person may seek declaratory relief pursuant to section 41-1034." The emphasized language suggests that an individual may pursue remedies in both Superior Court and with the Council and that pursuing

one or the other first would not interfere with later filing with the other entity. Additionally, the dismissal was based on a late filing and not a decision on the merits.

E. The Advisory Policy Statement is Not a Rule

The Commission argues that Policy Statement 3 is a permissible policy statement because the statutory language in A.R.S. § 41-1001(24) defines substantive policy statement as "a written expression which informs the general public of an agency's current approach to, or opinion of, the requirements of ... state statute, [or] administrative rule." The Commission indicates Policy Statement 3 interprets multiple statutes that allocate costs for undergrounding to beneficiaries, and not ratepayers as a whole. The Commission argues that the policy statement only shows how the Commission enforces existing law and is not a new requirement on the general public.

Supplemental Information

In addition to the A.R.S. § 41-1033 Petition and the Commission's response pursuant to A.R.S. § 41-1033(H)(3), the Petitioner has submitted supplemental information in the form of a reply to the Commission's Response, two (2) emails stating why the Petitioner believes the Council has jurisdiction over the Commission, a rebuttal to the Commission's informal March 3, 2025 response, the initial request for review submitted to the Commission on September 3, 2024, and the Commission's response to that request for review dated October 31, 2024. The Commission supplied two exhibits with their formal response, Exhibit A is a Commission Decision docketed April 28, 2022 that sets forth the Commission adopting a similar rule review and rulemaking process to GRRC, Exhibit B is the Dismissal of Underground Arizona's complaint against the Commission dated January 6, 2025, and the Commission's initial informal response to the Council dated March 3, 2025. Copies of the Petition, the Commission's response pursuant to A.R.S. § 41-1033(H)(3), the above-referenced supplemental information, and all relevant exhibits are included in the final materials for the Council's consideration.

Procedure

A.R.S. § 41-1033(E) allows a person "to appeal to the council to review whether the existing agency practice or substantive policy statement constitutes a rule." The agency must have rejected the petitioner's request for review in order for the Council to have a hearing to consider whether the agency practice or substantive policy statement constitutes a rule. If rejected, the Petitioner has 30 days to submit a five page double spaced appeal to the Council. The Commission rejected the Petitioner's request on October 31, 2024 and the Petitioner asked the Council for review on November 8, 2024. Per A.R.S. § 41-1033(H) if the council receives information that alleges an agency practice or substantive policy statement constitutes a rule, and at least three council members request that the matter be heard in a public hearing, then 90 days after the third council member's request, the Council shall determine if the agency practice or substantive policy statement constitutes a rule. *See* A.R.S. 41-1033(H)(1)(a). The third request came on April 1, 2025 and the Council must make a decision by Monday, June 30. Any decision by the Council must be made by a majority of the council members who are present and voting on the issue. *See* A.R.S. § 41-1033(L).

A.R.S. § 41-1033(G) allows a person to "petition the council to request a review of an existing agency practice, substantive policy statement, final rule or regulatory licensing requirement that the petitioner alleges is not specifically authorized by statute, exceeds the agency's statutory authority, is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern." On receipt of a properly submitted petition pursuant to this section, the council shall review the existing agency practice, substantive policy statement, final rule or regulatory licensing requirement as prescribed by this section." If the Council receives information pursuant to A.R.S. § 41-1033(G), and at least three council members request that the matter be heard in a public hearing, then 90 days after the third council member's request, the Council shall determine whether an existing agency practice, substantive policy statement, final rule or regulatory licensing requirement exceeds the agency's statutory authority, is not specifically authorized by statute, or meets the guidelines prescribed in A.R.S. § 41-1033(G). *See* A.R.S. 41-1033(H)(1)(c). As such, the Council has until June 30, 2025 to make a decision. Any decision by the Council must be made by a majority of the council members who are present and voting on the issue. *See* A.R.S. § 41-1033(L).

After considering the Petition under both § 41-1033(E) and (G), the Commission's response, and all relevant supplemental information, the Council must make its determination. Pursuant to A.R.S. § 41-1033(K), if the Council determines that the agency practice, substantive policy statement or regulatory licensing requirement exceeds the agency's statutory authority, or is not authorized by statute or constitutes a rule, the practice, policy statement, rule or regulatory licensing requirement shall be void. For the A.R.S. § 41-1033(G) petition only, if the Council determines that the existing agency practice, substantive policy statement, final rule or regulatory licensing requirement is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern, the Council shall modify, revise or declare void any such existing agency practice, substantive policy statement, final rule or regulatory licensing requirement. *Id.*

Conclusion

The Petition is properly before the Council and both parties have submitted materials consistent with the requirements in the statute as indicated above. Council staff advises the Council to consider the materials both parties submitted and to question both parties on whether the Commission's Policy Statement 3 constitutes a rule and whether Policy Statement 3 is not specifically authorized by statute, exceeds the agency's statutory authority, is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern.

GOVERNOR'S REGULATORY REVIEW COUNCIL

ATTORNEY MEMORANDUM

MEETING DATE: March 4, 2025

TO: Members of the Governor's Regulatory Review Council (Council)

FROM: Council Staff

DATE: February 18, 2025

SUBJECT: **A.R.S. 41-1033(G) Petition Related to Arizona Corporation Commision Agency Practice and Substantive Policy Statement**

Summary

On November 8, 2024, Council staff received a petition ("Petition") from Underground Arizona Director Daniel Dempsey ("Petitioner") challenging the Arizona Corporation Commission ("Commission") substantive policy statement 3 of Decision 79140. The Petitioner is asking the Council to consider their petition under both A.R.S. § 41-1033(E) and A.R.S. § 41-1033(G).

For A.R.S. § 41-1033(E) the petitioner is alleging that a Commission Policy Statement concerning underground transmission lines is actually a rule.

For A.R.S. § 41-1033(G), the petitioner is alleging that the same Commission Policy Statement exceeds the agency's statutory authority, is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern.

While the Council does not have authority to review Commission rulemaking per A.R.S. § 41-1057, which states that the corporation commission is exempt from Title 41, Chapter 6, Article 5. Article 5 only deals with rulemakings and agency reports, not with the Council's authority to hear a petition under A.R.S. §41-1033. This is further supported by the Commission advising the Petitioner of the ability to appeal to the Council.

Background

On February 20, 2023 Tucson Electric Power and other utilities requested that the Commision issue a police statement concerning transmission lines because the Commision has previously stated that the costs of undergrounding transmission lines should not be passed on to the ratepayer.

On September 18, 2023, one of the commissioners filed the following amendment to the Commission's Proposed Order from September 1, 2023.

> 3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."

On October 4, 2023 the Proposed Order with the above mentioned amendment was adopted by the Commision in a 4 to 1 vote. This amendment is the Policy Statement that has prompted the Petitioner to request Council review.

In May 2024, Tucson Electric filed a Certificate of Environmental Compatibility with the Line Sitting Committee. In this Certificate, Tucson Electric cited to the policy statement stating " Consistent with the Commission's Policy Statement…. requiring undergrounding would render the Project unreasonably restrictive and not feasible."

The Commision approved Tucson Electric's application for the Certificate in September 2024, and included the following finding of fact "However, given the Commission's Policy Statement found in Decision No. 79140 (October 4, 2023), the Committee finds pursuant to A.R.S. 40-360.06(D) that any local ordinance or plan that requires TEP to incur an incremental cost to construct the Project below ground 'is unreasonably restrictive and compliance therewith is not feasible in view of technology available."

A.R.S. § 40-360.06(D) says in part "Any certificate granted by the committee shall be conditioned on compliance by the applicant with all applicable ordinances, master plans and regulations of the state, a county or an incorporated city or town, except that the committee may grant a certificate notwithstanding any such ordinance, master plan or regulation, exclusive of franchises, if the committee finds as a fact that compliance with such ordinance, master plan or

regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available…."

On September 3, 2024 Petitioner filed a petition for Commission review under A.R.S. § 41-1033(A). The Petitioner stated that the Policy Statement identified above should be treated as a rule, along with not being specifically authorized by statute, exceeding statutory authority, and is unduly burdensome.

On October 31, 2024 the Commission provided a written rejection to the Petitioner with the Commission alerting the Petitioner of their ability to appeal to the council pursuant to A.R.S. § 41-1033(E).

Petitioner's Arguments

As indicated above, the Petitioner alleges that the policy statements adopted by the Commision on October 4, 2024 exceeded their authority because the policy statement was being treated as a rule in practice. The Petitioner argues that the Commission provided the policy statement to the Line Siting Committee to guide the Line Siting Committee on ratepayer recovery and undergrounding of powerlines, both of which exceed the jurisdiction of the Line Siting Committee according to the Petitioner. The Petitioner specifically states that the Line Siting Committee is strictly focused on identifying routes for transmission lines and the sole authority for how a utility recovers cost from ratepayers is with the Commission itself. The Line Siting Committee cannot "preemptively determine the cost recovery outcomes of the ratemaking process."

The Petitioner states that the Commision knew this policy statement exceeded their authority because in June 2023 the Commission's legal counsel warned of jurisdictional issues and recommended formal rulemaking. This statement can be found in Docket No.ALS-00000A-22-0320. The Petitioner also states that a Commissioner acknowledged these jurisdiction hearings during a September 2023 hearing as well.

The Petitioner further contends that when Tucson Electric Company "TEP" applied for a "Certificate of Environment Compatibility "CEC", the Line Siting Committee relied on the policy statement to "preemptively determine that any incremental undergrounding cost would be unrecoverable from ratepayers and therefore was not feasible." The Petitioner also states that the Commission's argument that the policy statement only repeated what the Arizona Supreme Court held was misguided because a utility can be held responsible for costs related to undergrounding without that costs being passed on to the ratepayer. The Petitioner offered the following as support of his position that the Policy Statement was not merely a recognition of state law; "The fact that property owners may petition for the creation of an underground conversion district and be bound to pay for the undergrounding instead of the utility, does not prevent the Town from mandating the undergrounding at utility expense." *Arizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447, 451 (1980).

Summary of Commission Review

As a result of the Petitioner initially filing a request of review of the substantive policy from the Commission in accordance with A.R.S. § 41-1033, the commission was required to either provide a detailed rejection of the petition, or if the substantive policy was actually a rule to engage in rulemaking. The Commision rejected the request by written response to the Petitioner on October 31, 2025. The Commission's full response can be found in the attached materials, a brief overview will be provided below.

The Commision does not consider the Policy Statement to be a rule because the policy statement was based on existing statutes and rules. The Commission specifically cited A.A.C R14-2-206(b)(2)(c) and A.R.S. §§40-341, et. and A.R.S. § 48-620.

For the argument that the Policy Statement constitutes a rule, the commision states that the Policy Statement is not a rule because the Policy Statement is merely restating state law. The Commision cites A.R.S. § A.R.S. § 40-364(F) and R14-2-206(b)(2)(c) as to where this authority lies.

For A.R.S. § 40-364(F), the Commission emphasizes that the statute "grants the Commission the authority to issue an order "establishing the underground conversion service" and the Commission "'shall set forth the underground conversion costs to be charged to each lot or parcel.'"" Commision 10/31/24 Response pg 12. The Commision states that the cost for undergrounding can only be passed on to those who directly benefit from the undergrounding and not to a generalized population.

The Commission believes that the existing rule and statutes specify that no unnecessary cost should be passed on to ratepayers, any costs should be absorbed by those who benefit. (*Id.* at. 3).

For the *Paradise Valley* case cited by the Petitioner, the Commision states the following "These decisions do not support Mr. Dempsey's position. Commission advisory does not preclude or limit a municipality's right to require undergrounding. The Commission advisory merely parrots state law and policy on the allocation of the costs of Undergrounding." (*Id.* at 13).

Relevant Statutes and Regulations

A.R.S. § 41-1033(E) allows a person to "to appeal to the council to review whether the existing agency practice or substantive policy statement constitutes a rule." The agency must have rejected the petitioner's request for the Council to hear. If rejected, the Petitioner has 30 days to submit a five page double spaced appeal to the Council.

A.R.S. § 41-1033(G) allows "A person may petition the council to request a review of an existing agency practice, substantive policy statement, final rule or regulatory licensing requirement that the petitioner alleges is not specifically authorized by statute, exceeds the agency's statutory authority, is unduly burdensome or is not demonstrated to be necessary to specifically fulfill a public health, safety or welfare concern."

If the Council receives information pursuant to A.R.S. § 41-1033(G), and at least three Council members request of the Chairperson that the matter be heard in a public meeting:

1. Within ninety days after receipt of the third council member's request, the council shall determine whether the agency practice or substantive policy statement constitutes a rule, whether the final rule meets the requirements prescribed in section 41-1030 or whether an existing agency practice, substantive policy statement, final rule or regulatory licensing requirement exceeds the agency's statutory authority, is not specifically authorized by statute or meets the guidelines prescribed in subsection G of this section.

2. Within ten days after receipt of the third council member's request, the council shall notify the agency that the matter has been or will be placed on an agenda.

3. Not later than thirty days after receiving notice from the council, the agency shall submit a statement not more than five double-spaced pages to the council that addresses whether the existing agency practice, substantive policy statement constitutes a rule or whether the final rule meets the requirements prescribed in section 41-1030 or whether an existing agency practice, substantive policy statement, final rule or regulatory licensing requirement exceeds the agency's statutory authority, is not specifically authorized by statute or meets the guidelines prescribed in subsection G of this section.

   See A.R.S. § 41-1033(H).

A.R.S. §41-1001(17) states: "'Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency."

A.R.S. § 41-1001(24) states ""Substantive policy statement" means a written expression which informs the general public of an agency's current approach to, or opinion of, the requirements of the federal or state constitution, federal or state statute, administrative rule or regulation, or final judgment of a court of competent jurisdiction, including, where appropriate, the agency's current practice, procedure or method of action based upon that approach or opinion. A substantive policy statement is advisory only. A substantive policy statement does not include internal procedural documents which only affect the internal procedures of the agency and does not impose additional requirements or penalties on regulated parties, confidential information or rules made in accordance with this chapter."

A.R.S. § 40-360.06(A) states that "The committee may approve or deny an application and may impose reasonable conditions on the issuance of a certificate of environmental

compatibility and in so doing shall consider the following factors as a basis for its action with respect to the suitability of either plant or transmission line siting plans:...

(A)(8) . "The estimated cost of the facilities and site as proposed by the applicant and the estimated cost of the facilities and site as recommended by the committee, recognizing that any significant increase in costs represents a potential increase in the cost of electric energy to the customers or the applicant."

(A)(9). Any additional factors that require consideration under applicable federal and state laws pertaining to any such site.

R14-2-206(b)(2)(c) states ""[a] customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connection and the actual cost of the underground connection as a nonrefundable contribution."

Analysis and Conclusion

A.R.S. § 41-1033 does not provide requirements or standards to guide the Council in determining whether this petition should be given a hearing. Therefore, Council members should make their own assessments as to what information is relevant in determining whether this petition may be heard.

The following is Council staff's opinion as to whether the policy statement constitutes a rule or if it exceeds the Commission's statutory authority.

The Policy Statement can be broken into two parts. Part 1 states, "As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates." Council Staff believes that the Commission is correct when the Commission states that this is just a restatement of the existing law and authority. Absent any other law and requirements, the Commission has an obligation to ratepayers to ensure the lowest possible costs.

Absent any other law or authority on undergrounding, a stakeholder who benefits would be responsible for paying for these benefits, and not the ratepayers as a whole. This is supported by R14-2-206(b)(2)(c), A.R.S. §§ 40-347 and 48-620.

Part 2 of the Policy Statement states, "Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."

The language in Part 2 is ultimately where the dispute arises. The plain text of the Policy Statement states that those who wish to fund an underground transmission line may do so, ***among other ways,*** by forming an improvement district. The plain text does not prohibit a utility to be responsible for undergrounding or for a municipality to require underground through zoning or an ordinance. The Policy Statement only states that one way to do this is through an improvement district as provided in A.R.S. § 48-620 *et. seq.* The Policy Statement is not saying that this is the only way, it is just among the ways. Council staff agrees with the Commission that the Policy Statement as written only restates what exists in law and does not add any additional requirements.

However, based on the Petitioner's allegations, a question emerges regarding whether the Commission is using this Policy Statement as an Agency Practice to exceed their statutory authority when it comes to interfering with a municipalities authority to require undergrounding and whether the beneficiary must always pay for the undergrounding. The Petitioner does seem to touch on this subject in their jurisdictional argument. Council staff recommends that the Council inquire further regarding this issue based on the analysis in the *Paradise Valley* case provided by the Petitioner and outlined in more detail below. A copy of the full case text has also been provided in the materials for the Council's consideration.

In *Paradise Valley,* the question was raised whether cities and towns had the authority to direct the undergrounding of public utility poles. *Arizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447, 448 (1980). In this case, the court said that while property owners may petition for the creation of an underground conversion district, ***this does not prevent the town from mandating at utility expense.*** *Id.* at 451. The court further determined that, because A.R.S. § 40-360.06(D) mentions ordinance, master plan or regulation, this language supports the notion that cities and towns have the power to require undergrounding. *Id.* The court ultimately held "We believe that, in the absence of a clear statewide preemptive policy not shown here, local governments can prescribe undergrounding within their boundaries." *Id.*

The Commission does not dispute that local governments have the ability to mandate undergrounding. *Commission 10/31/24 Response* Pg. 12. The Commission believes that mandating undergrounding is separate from allocation of costs of undergrounding. *Id.* It appears that the Commission believes that costs for undergrounding can only be passed on to property owners who benefit because the sole authority to allocate costs on undergrounding lies with the Commission. *Id.* at 12-13. The Commission states that *Paradise Valley* does not support the Petitioner's position "these decisions do not support Mr. Dempsey's position. The Commission advisory does not preclude or limit a municipality's right to require undergrounding." *Id.* In relation to *Paradise Valley,* the Commission also states " Thus, if a Municipality requests or mandates undergrounding, it must pay for it, not the ratepayers. This is consistent with the holding in A*rizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447 (Ariz. 1980), wherein the right of a municipality to require undergrounding was affirmed. However,that does not address who should pay."

However the Petitioner is quoting *Paradise Valley* because it states that a town can mandate undergrounding at the utilities expense. *Petition*, Pg. 4. The Commission does not address the possibility of a local government requiring a utility to cover these expenses. The

Paradise Valley court rejected the notion that the legislature created underground conversion districts for the purpose of only property holders being responsible for the costs of undergrounding. *Paradise Valley,* at 451.

These improvement districts and service areas were in place at the time of the *Paradise Valley* decision and were cited by the court directly as being unpersuasive that the legislature intended to prevent local governments from mandating undergrounding at a utilities expense. In the CEC approval as referenced in Decision 79550 pg 15, the Committee relied on the Policy Statement and said that funding must come from someone other than TEP's utility rates or from TEP, absent an agreement between the parties.

In Docket No.ALS-00000A-22-0320 pg3, the Commission states "The facts of each case are unique. and there may be instances where a utility demonstrates that ratepayer recovery of undergrounding transmission lines is warranted." This sentiment does not appear in the Commission's response to Petitioner. This Docket is also where the Commission mentions that the line siting committee does not have jurisdiction over ratepayer recovery. *Id.*

Based upon the Commission's TEP undergrounding decision and what has been provided by Petitioner, staff believes that the Petitioner may have brought an agency practice that is not expressly authorized under the Commission's statutory authority.

If it is indeed the Commission's position that undergrounding costs can only be shared among those who are beneficiaries or those that have opted into a district, then staff believes that this raises the question; whether absent an improvement district, conversion service area, or commitment that the requesting customer would pay, then would the Commission always rule that an ordinance, master plan, or regulation to be considered as "unreasonably restrictive and compliance therewith is not feasible." It also raises the question if this is considered determining ratepayer responsibility and whether that is within the jurisdiction of the line siting committee, as found in A.R.S. § 40-360.06.

Essentially, while a town may pass a zoning ordinance requiring that all transmission lines be undergrounded, this ordinance would not be followed unless there is an improvement district, conversion service area, or commitment that the requesting customer pays for the cost. This would remove the possibility that the utility will pay for these costs, which according to *Paradise Valley* is a possibility. Council staff does not believe there is clear statutory authority for the Commission to declare that a utility should not be held financially responsible for undergrounding based upon the *Paradise Valley* decision.

In conclusion, the Commission stated in Decision 79550, that the Policy Statement provided guidance to find that TEP did not need to pay for the undergrounding. The Policy Statement is silent on whether a utility can be financially responsible for undergrounding. This silence does not mean the Policy Statement advises that a utility cannot be financially responsible for undergrounding because in *Paradise Valley*, the court mentioned that while a town can pay for these costs either through agreement or an improvement district, they are under

no obligation to do so. However, in practice the Commision appears to be treating the absence of language as justification for not allowing the utility to pay.

As stated above there are requirements or standards to guide the Council in determining whether this petition should be given a hearing. If the Council believes that the only issue at hand is whether the Policy Statement is a rule or not and whether the Policy Statement is within the Commission's statutory authority. In this scenario, Council staff believes that the Policy Statement is not a rule because it merely restates the law (the policy statement does not have to mention every payment possibility), which is that costs associated with undergrounding cannot be passed on to the ratepayers.

Should the Council believe that the Petitioner may have brought an agency practice that exceeds the Commission's authority then Council Staff does recommend the Council ask the following of the Commission and Petitioner:

- Does the Commission allow for a utility to be financially responsible for the costs associated with undergrounding?
- For the Petitioner's line siting Committee jurisdictional argument over ratemaker recovery, can the Commission clarify as it relates to the TEP matter, if the Commission was consistent with pg. 3 of Docket No. ALS-00000A-22-0320?
- For the Commission, what is the extent, if any, for the Committee to ask about potential impacts on ratepayers, either under A.R.S. § 40-360.06, or other Committee statute.
- For the Petitioner, Council staff recommends the Council ask the Petitioner of the applicability of A.R.S. § 40.360.06(A)(8)? This relates to the jurisdictional question, under this statute why did the Committee overstep its jurisdiction in considering the potential costs that could be passed to customers?
    - This statute allows the committee to approve or deny an application and the Committee may consider the cost of the facilities and sites, and recognize that these costs may increase the costs to customers or the applicant.

100 N Fifteenth Ave • Suite 302
Phoenix, AZ 85007
grrc@azdoa.gov

RE: Arizona Corporation Commission Decision 79140, Policy Statement 3

Dear Members of the Governor's Regulatory Review Council,

Underground Arizona hereby appeals to the Governor's Regulatory Review Council (the "Council"), pursuant to A.R.S. § 41-1033(E), for a determination that the Arizona Corporation Commission's (the "Commission") October 4, 2023 Policy Statement, as outlined herein, is a rule or is otherwise "not specifically authorized by statute, exceeds the agency's statutory authority, [and] is unduly burdensome."[1]

Underground Arizona submitted an A.R.S. § 41-1033 petition to the Commission on September 3, 2024.[2] The petition was rejected by written letter on October 31, 2024.[3] In the rejection letter, the Commission wrote: "The Petitioner is advised that he has 30 days to file an appeal if he so chooses.[3]" Footnote 3 cited A.R.S. § 41-1033(E), which is the Council's review process.

BACKGROUND

1. **On February 20, 2023**, Tucson Electric Power ("TEP") requested that the Commission issue a policy statement on undergrounding transmission lines (pg. 4):[4]

   "The Commission has often acknowledged that ratepayers should not pay the extra cost of undergrounding a transmission line. Including language to that effect in a policy would be

[1] See e.g. A.R.S. 41-1033(G).
[2] Docket ALS-00000A-22-0320: https://docket.images.azcc.gov/E000038251.pdf
[3] Docket ALS-00000A-22-0320: https://docket.images.azcc.gov/E000039777.pdf
[4] Docket ALS-00000A-22-0320: https://docket.images.azcc.gov/E000024350.pdf

helpful to applicants who need to explain the issue to stakeholders in a CEC proceeding."

2. **On June 30, 2023**, the Commission's Legal Division issued a memo stating the following regarding TEP's request (pg. 3):[5]

> *"If the Commission decides to move forward with this proposal, a rulemaking would be required because the Commission would be prescribing law or policy. It would not be appropriate to adopt a rule regarding ratepayer recovery as part of the line siting rules, however. The Line Siting Committee has no jurisdiction over rates and a line siting rule regarding ratepayer recovery would therefore be outside the scope of authority granted under the line siting statute. Additionally, the Line Siting Committee does not have jurisdiction over underground transmission lines."*

3. **On September 1, 2023**, the Commission's Legal Division filed a Proposed Order that did not include a policy statement on rate recovery or undergrounding.[6]
4. **On September 18, 2023**, Commissioner Myers filed Proposed Amendment No. 1, which proposed inserting the following policy statement on undergrounding into the Legal Division's Proposed Order:[7]

> "*3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."*

5. **On September 21, 2023**, at the Commission's Open Meeting, in regard to Commissioner Myers' Proposed Amendment No. 1, the following statement was made:[8]

> ***Commissioner Myers:*** *"I think it is beneficial to clarify the Commission's stance on [rates and undergrounding] but at the same time make sure that it's clear that we don't have jurisdiction over [rates and undergrounding] when it comes to line siting stuff."*

[8] Item 33. https://azcc.granicus.com/player/clip/5766?view_id=3&redirect=true

6. **On October 4, 2023**, The Commission formally issued Decision No. 79140 by a vote of 4 to 1, with Commissioner Tovar dissenting, which adopted three policy statements, including Commissioner Myers Proposed Amendment No. 1 on undergrounding (the policy statement).[9] In Finding of Fact 1, the Commission wrote that the purpose of policy statements was to "guide" the Line Siting Committee (pg. 1).
7. **On May 24, 2024**, TEP filed a Certificate of Environmental Compatibility ("CEC") application with the Line Siting Committee ("the Committee"). In it, and based on the policy statement, TEP made the following request (pg. 30):[10]

   > *"Consistent with the Commission's Policy Statement, given the excessive cost of undergrounding, and the resulting impact on rates, requiring undergrounding would render the Project unreasonably restrictive and not feasible."*

8. **On September 13, 2024**, In Decision No. 79550, the Committee and Commission approved TEP's application for a CEC, which included the following findings of fact (pg. 15):

   > *"10. However, **given the Commission's Policy Statement found in Decision No. 79140 (October 4, 2023),** the Committee finds pursuant to A.R.S. 40-360.06(D) that any local ordinance or plan that requires TEP to incur an incremental cost to construct the Project below ground 'is unreasonably restrictive and compliance therewith is not feasible in view of technology available.'"* [Emphasis Added]

ANALYSIS

The *ex-ante* line siting process is administered by the Line Siting Committee and focused on identifying routes for transmission lines.[11] It is governed by A.R.S. § 40-360 et seq. The *ex-post* ratemaking process is administered by the Commission and is focused on how a utility recovers costs from ratepayers. It is governed by A.R.S. § 40-361 et seq. Each process has independent jurisdiction and operates according to its own rules and procedures. To put it another way, the line siting process is not an early stage of ratemaking; while costs may be considered in route selection, the process cannot preemptively determine the cost recovery outcomes of the ratemaking process—or vice versa.[12]

On February 20, 2023, Tucson Electric Power ("TEP") requested that the Commission issue a policy statement to guide the Line Siting Committee on ratepayer recovery and undergrounding (Background 1). On June 30, 2023, the Commission's legal counsel warned that such a policy statement would be outside the scope of the line siting statute and a formal rulemaking would be required

[9] Docket L-00000C-24-0118-00232: https://docket.images.azcc.gov/0000209995.pdf
[10] https://docs.tep.com/doc/projects/mrp/MRP-CEC-Application.pdf
[11] In this context, ex-ante means before a project is built and ex-post mean after a project is built.
[12] As evidence, SRP's rates are not regulated by the Commission but its transmission lines require approval by the Line Siting Committee.

(Background 2). On September 21, 2023, at a Commission hearing, Commissioner Myers further acknowledged these jurisdictional problems (Background 5). Despite this, on October 4, 2023, in Decision 79140, the Commission issued a line siting policy statement on ratepayer recovery and undergrounding without undergoing a formal rulemaking (Background 6).

On May 24, 2024, TEP applied for a Certificate of Environmental Compatibility ("CEC") from the Commission (Background 7). On September 13, 2024, in Decision 79550, the Commission granted the CEC. In the CEC, the Line Siting Committee relied on the Policy Statement to preemptively determine that any incremental undergrounding cost would be unrecoverable from ratepayers and therefore was not feasible (Background 8). Thus, the Policy Statement has been treated as a binding rule in practice.

By providing guidance to the Line Siting Committee through a Policy Statement on subjects for which the Line Siting Committee explicitly lacks jurisdiction, the Commission has deliberately confused process and acted in a manner that is "not specifically authorized by statute, exceeds the agency's statutory authority, [and] is unduly burdensome."[13,14] The bottom line is: why does the Line Siting Committee need to be guided by the Commission on items for which the Line Siting Committee lacks jurisdiction? If the point is not to exert extra jurisdictional authority, then what is it? Why doesn't the Commission simply make a non-line siting policy statement on undergrounding costs?

In its response to Underground Arizona's petition, the Commission said (pg. 5), "The jurisdiction of the Line Siting Committee is not at issue here." We disagree. It is the *only* thing at issue here. The Commission's arguments about its ratemaking or other jurisdiction are strawmen and not in dispute.

The Commission went on to say (pg. 5): "The Committee was appropriately recognizing state law limitations on cost recovery for undergrounding." Here, the Commission also errs. According to the Arizona Supreme Court, in APS v. Town of Paradise Valley (1980), state law does not limit cost recovery to non-utility parties (p 451):

> *"The fact that property owners may petition for the creation of an underground conversion district and be bound to pay for the undergrounding instead of the utility* [under state law]*, does not prevent the Town from mandating the undergrounding* ***at utility expense****."* [Emphasis added]

Therefore, the Commission's contention that the Policy Statement is simply a restatement of state law is fatally flawed.[15,16]

---

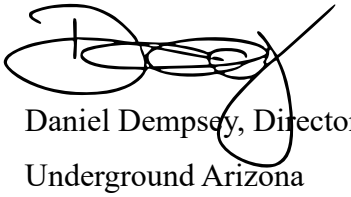
[13] See e.g. A.R.S. 41-1033(G).
[14] See e.g. A.R.S. 41-1091.
[15] Additionally, Underground Arizona has compiled dozens of examples on its website of the utility companies recovering the incremental cost of undergrounding from ratepayers without resistance from the Commission. Thus, its contention that it is disallowed by state law makes little sense.
[16] In TEP v. Board of Adjustment (2024), the Arizona Superior Court said: "*The State has also preempted the City's ability to determine where, but not how, transmission lines are constructed. The State clearly intended the Arizona Corporation Commission (ACC) to have exclusive authority over line siting for high-capacity transmission lines. A.R.S. § 40-360, et seq.*

Frankly, it seems that the Policy Statement's only purpose is for the Commission to improperly exert extra jurisdictional authority over the Line Siting Committee, which it succeeded at doing in practice.

CONCLUSION

For the foregoing reasons, pursuant to A.R.S. § 41-1033 et seq., and at the direction of the Commission, Underground Arizona respectfully requests that the Council hold a public meeting regarding the Commission's Policy Statement, which has been treated as a rule in practice, and determine it void as contrary to law.

Sincerely,



Daniel Dempsey, Director
Underground Arizona

See also 1971 Session Laws Ch 67, § 1. The purpose of this is to simplify the process of expanding Arizona's electrical grid, which is necessarily a matter of statewide importance. However, the Court has been unable to locate any law which restricts the City's authority to regulate how transmission lines are constructed. TEP is correct that there is no law which explicitly grants the City the authority to require undergrounding, but neither is there a specific law which purports to exempt utilities from all zoning regulations. Therefore, the Court finds that, as a matter of law, the City has the authority to require undergrounding of transmission lines." It is only reasonable to assume that an applicant pays the cost of complying with zoning regulations. The burden of proof that a municipality pays for the zoning compliance of any party is on TEP.

Re: Underground Arizona Petition

Dear Members of the Governor's Regulatory Review Council:

The Arizona Corporation Commission ("Commission" or "ACC") responds to the Governor's Regulatory Review Council's ("GRRC") request for comment on the Underground Arizona Petition, and requests that it be denied for lack of GRRC jurisdiction. As recently stated in a presentation by the GRRC staff attorney to the State Legislature in January 2025, "GRRC oversees nearly every state agency, with the exception of the Arizona Corporation Commission…."[1] The Commission was unable to locate any GRRC review of any rule or policy enacted by the Commission … since 1912.

A. GRRC Lacks Authority to Review ACC Rules or Policies

The Administrative Procedures Act ("APA"), Arizona Revised Statutes ("A.R.S.") Title 41, Chapter 6, and GRRC's rulemaking review authority do not apply to the ACC. A.R.S. § 41-1057(A)(2) states: "In addition to the exemptions stated in section 41-1005, this article does not

[1] https://azcapitoltimes.com/news/2025/03/06/gop-review-agency-rules/#:~:text=According%20to%20a%20presentation%20by%20a%20GRRC,exception%20of%20the%20Arizona%20Corporation%20Commission%20and ("GOP Lawmakers Want Power to Review Agency Rules") (March 6, 2025).

apply to: … 2. The corporation commission, which shall adopt substantially similar rule review procedures, including the preparation of an economic impact statement and a statement of the effect of the rule on small business." This exemption is noted on GRRC's website: https://grrc.az.gov/sites/default/files/Arizona%27s%20APA%20-%20The%20Role%20of%20GRRC%20Part%201.pdf (p. 16).[2] As A.R.S. § 41-1057(A)(2) expressly excludes the ACC, its rules and policies are not subject to GRRC review. The petition should be dismissed.

B. The ACC Has Exclusive Rulemaking Authority

Article XV, Section 6 of the Arizona Constitution grants the ACC sole authority to promulgate rules and regulations. In Docket AU-00000A-16-0141, Decision No. 78544 (April 28, 2022), the ACC adopted its own Rules Review Procedures, substantially similar to GRRC's but independent of APA oversight.

See https://docket.images.azcc.gov/0000206627.pdf?i=1656457201339, Exhibit A (attached). Arizona courts have affirmed this authority: "the foregoing constitutional provision gives the commission judicial, executive and legislative powers … [including] adopting rules and regulations." *Ethington v. Wright*, 66 Ariz. 382, 389, 189 P.2d 209, 214 (1948). The ACC's exclusive rulemaking power extends to rules necessary for its constitutional duties. *State ex rel. Corbin v. Arizona Corp. Comm'n*, 174 Ariz. 216, 219, 848 P.2d 301, 304 (App. 1992). The Arizona Administrative Code ("A.A.C.") notes the Commission's exemption from APA certification under A.R.S. § 41-1041. *See* A.A.C. Title 14, Chapter 5, Editor's Note.

[2] Another part of the GRRC website notes: "However, some agencies are exempt from the APA by law and do not need to seek Council approval before filing final rulemakings with the SOS." https://grrc.az.gov/rulemaking

https://apps.azsos.gov/public_services/Title_14/14-05.pdf. GRRC cannot review ACC rules or policies.

C. The Advisory Policy Statement Reflects Existing Law

Decision No. 79140, Policy Statement 3, restates existing statutes. A.R.S. § 40-341(13) defines "underground conversion cost" as "the costs to be paid by each owner to each public service corporation or public agency by the property owners within an underground conversion service area," ensuring costs fall on beneficiaries, not ratepayers. A.R.S. § 48-620 permits municipalities to fund underground utilities through tax assessments. Arizona Administrative Code R14-2-206.B(2)(c) requires a "customer requesting an underground service line in an area served by overhead facilities [to] pay for the difference between an overhead service connection and the actual cost of the underground connection." Policy Statement 3 clarifies that utilities should avoid undergrounding unless required for reliability, safety, or operational needs, aligning with these laws. GRRC lacks authority to alter these statutes.

D. The Petition is Potentially Barred by Res Judicata and Defensive Collateral Estoppel

Underground Arizona already challenged the ACC's policy in Maricopa County Superior Court, Case No. CV2024-033957, alleging that the ACC lacked statutory authority for the Policy. On January 6, 2025, the court dismissed the complaint with prejudice. *See* Exhibit B (attached). Issue preclusion serves to protect litigants from the burden of relitigating an identical issue and to promote judicial economy by preventing needless litigation. *See e.g.*, *Crosby-Garbotz v. State*, 246

Ariz. 54, 57, 434 P.3d 143, 146 (2019) ("the doctrine seeks to avoid the basic unfairness associated with duplicative, harassing litigation") (citations omitted).[3]

E. The Advisory Policy Statement is Not a Rule

Policy Statement 3 is a permissible substantive policy statement under A.R.S. § 41-1001(24), defined as "a written expression which informs the general public of an agency's current approach to, or opinion of, the requirements of … state statute, [or] administrative rule." The Policy states it is advisory, and nothing in the Policy is mandatory. This Policy interprets several state statutes mandating cost allocation for undergrounding to beneficiaries, not ratepayers, ***and imposes no new requirements***. Even if the APA applied, the statement is exempt from rulemaking and GRRC review. As GRRC explains, "an agency can create substantive policy statements to explain how the agency will enforce a rule, but the substantive policy statement itself cannot be enforced on the general public." https://grrc.az.gov/rulemaking

F. Conclusion

Based on the foregoing, and the ACC and Maricopa County Superior Court record referenced herein, the ACC requests the GRRC to dismiss Underground Arizona's petition for lack of jurisdiction. The ACC's broad constitutional authority, the policy's alignment with existing law,

[3] Under the doctrine of res judicata an existing final judgment rendered upon the merits, by a court of competent jurisdiction, is conclusive as to every point decided therein, and also as to every point raised by the record which could have been decided, with respect to the parties or their privies. *Hoff v. City of Mesa*, 86 Ariz. 259, 344 P.2d 1013 (1959).

and the prior court dismissal preclude GRRC action. Please contact the Office of General Counsel with questions.

Sincerely,

/s/ Robert Ridenour

Arizona Corporation Commission
DOCKETED
APR 28 2022
DOCKETED BY

IN THE MATTER OF THE INQUIRY INTO COMMISSION POLICIES.

DOCKET NO. AU-~~00000A-16~~-0141

DECISION NO. 78544

OPINION AND ORDER

OPEN MEETING
March 29, 2022
Phoenix, Arizona

BY THE COMMISSION:

In compliance with Arizona Revised Statutes § 41-1057(A)(2) the Commission finds, concludes, and orders as follows:

FINDINGS OF FACT

1. Arizona Revised Statutes § 41-1057(A)(2) exempts the Arizona Corporation Commission ("Commission") from the statutes creating the Governor's Regulatory Review Council ("GRRC") and imposing requirements for GRRC review of rules and rulemakings but requires the Commission to "adopt substantially similar rule review procedures, including the preparation of an economic impact statement and a statement of the effect of the rule on small business."

2. Attachment A to this Order sets forth a Rules Review Procedure that is substantially similar to the GRRC review procedures set forth in A.R.S. §§ 41-1051-1057.

3. After due consideration at the March 29, 2022, Open Meeting, we find that it is in the public interest to adopt the Rules Review Procedure set forth in Attachment A and to place the Rules Review Procedure on the Commission's website. Further, we find that it is in the public interest for the new Rules Review Procedure to be effective immediately and to apply to all Commission rulemakings that have not yet had publication of a Notice of Proposed Rulemaking to commence the formal

rulemaking process.[1]

4. Under Art. 15, § 6 of the Arizona Constitution, the Commission has the authority to prescribe rules and regulations to govern proceedings instituted by and before it.

CONCLUSIONS OF LAW

1. The Commission is a constitutionally created agency with authority to promulgate orders, rules, and regulations regarding the conduct of its rulemaking processes pursuant to Article XV of the Arizona Constitution, and A.R.S. § 41-1057(A)(2).

2. It is in the public interest to adopt the attached Rules Review Procedure as contemplated by A.R.S. § 41-1057(A)(2).

ORDER

IT IS THEREFORE ORDERED that the Commission hereby adopts the Rules Review Procedure set forth in Attachment A, which shall apply to all Commission rulemakings that have not yet had publication of a Notice of Proposed Rulemaking to commence the formal rulemaking process.

IT IS FURTHER ORDERED that the Rules Review Procedure set forth in Attachment A shall be placed on the Commission's website.

. . .

. . .

. . .

. . .

. . .

. . .

. . .

. . .

[1] This will allow the Commission to ensure that it is able to implement the Rules Review Procedure fully for each rulemaking to which it applies.

IT IS FURTHER ORDERED that this Decision shall become effective immediately.

BY ORDER OF THE ARIZONA CORPORATION COMMISSION.

CHAIRWOMAN MÁRQUEZ PETERSON

ATTACHMENT A

RULES REVIEW PROCEDURE

I. Introduction

Arizona Revised Statutes § 41-1057(A)(2) exempts the Arizona Corporation Commission ("Commission") from the statutes creating the Governor's Regulatory Review Council ("GRRC") and imposing requirements for GRRC review of rules and rulemakings but requires the Commission to "adopt substantially similar review procedures, including the preparation of an economic impact statement and a statement of the effect of the rule on small business." The Commission adopts the following review procedures to govern its rules and rulemakings.

II. Commission review and approval

A. The Commission shall engage in a rulemaking process that is transparent and that considers input from stakeholders who are expected to be impacted by the resulting rules. Prior to beginning the formal rulemaking process, the Commission:

1. Shall open a Commission docket to serve as a repository of comments and informational filings from stakeholders and filings made by Commissioners and the Commission's Staff;

2. May invite input from stakeholders and the general public, through notices of inquiry soliciting responses to questions or workshops or other open meetings held to discuss and receive information on subjects that may be addressed in a rulemaking;

3. Shall file in the Commission docket a draft of contemplated rule changes, providing at least a 30-day period for comments to be filed concerning the draft; and

4. Shall, as set forth in subsection (III)(A), have a preliminary economic, small business, and consumer impact statement prepared by a third party for consideration and input from stakeholders in order to develop the final economic, small business, and consumer impact statement.

Comment: The above subsections exceed the requirements of the GRRC statutes.

B. The Commission shall accept an early review petition of a proposed rule, in whole or in part, if the proposed rule is alleged to violate any of the criteria prescribed in subsection (II)(E) and if the early petition is filed by a person who would be adversely impacted by the proposed rule. The Commission may determine whether the proposed rule, in whole or in part, violates any of the criteria prescribed in subsection (II)(E).

Comment: The above subsection corresponds to A.R.S. § 41-1052 (B).

C. Except as provided in subsection (II)(D), the Commission shall not commence formal rulemaking by submitting proposed rules for publication in the *Arizona Administrative*

Register unless the Commission has expressly made the following determinations based on the information known or reasonably available to the Commission at the time:

1. The economic, small business, and consumer impact summary in the preamble for the Notice of Proposed Rulemaking includes:

    a. An identification of the proposed rulemaking, including all of the following:

        i. The conduct and its frequency of occurrence that the rule is designed to change,

        ii. The harm resulting from the conduct the rule is designed to change and the likelihood it will continue to occur if the rule is not changed, and

        iii. The estimated change in frequency of the targeted conduct expected from the rule change;

    b. A brief summary of the information to be included in the economic, small business, and consumer impact statement; and

    c. The name and address of at least one Commission employee who may be contacted to submit or request additional data on the information to be included in the economic, small business, and consumer impact statement.

2. The approach taken in the proposed rules is expected to be the least intrusive or least costly alternative method of achieving the purpose of the proposed rulemaking.

3. The probable benefits of the proposed rules within Arizona outweigh the probable costs of the proposed rules within Arizona.

4. The proposed rules are written in a manner that is clear, concise, and understandable to the general public.

5. The proposed rules are not illegal, inconsistent with legislative intent, or beyond the Commission's legal authority.

Comment: The above subsections correspond to A.R.S.§ 41-1055(A)(1)-(3) and § 41-1052(D)(3)-(5).

D. Consistent with A.R.S. § 41-1055(D), the Commission shall engage in emergency rulemaking as authorized by A.R.S. § 41-1026 without preparing an economic, small business, and consumer impact statement. The Commission does not engage in expedited rulemaking as authorized by A.R.S. § 41-1027.

Comment: The above subsection corresponds to A.R.S. § 41-1055(D).

E. The Commission shall not approve adoption of rules in a Notice of Final Rulemaking unless the Commission has expressly made the following determinations based on the information known or reasonably available to the Commission at the time:

1. The final economic, small business, and consumer impact statement contains information from the state, data, and analysis as described in Section (III).

2. The final economic, small business, and consumer impact statement is generally accurate.

3. The probable benefits of the rules in Arizona outweigh the probable costs of the rules in Arizona, and the rules represent the alternative that imposes the least burden and costs to persons regulated by the rules, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective.

4. The rules are written in a manner that is clear, concise, and understandable to the general public.

5. The rule is not illegal, inconsistent with legislative intent, or beyond the Commission's legal authority.

6. The Commission adequately addressed, in writing, the comments on the proposed rules and any supplemental proposed rules.

7. The rule is not a substantial change, considered as a whole, from the proposed rules and any supplemental proposed rules.

8. The preamble includes a reference to any study relevant to the rules that the Commission considered and either did or did not rely on in its evaluation of or justification for the rules.

9. The rules are not more stringent than a corresponding federal law unless there is legal authority to exceed the requirements of that federal law.

Comment: The above subsections correspond to A.R.S. § 41-1052(D) and § 41-1055(H).

F. The Commission shall verify that a rule with new fees does not violate § 41-1008.

Comment: The above subsection corresponds to A.R.S. § 41-1052(E). Omitted was the requirement of a 2/3 majority in the second sentence of 41-1052(E). The Commission acts by a majority vote, see A.R.S. § 40-102(C).

G. The Commission shall verify that a rule with an immediate effective date complies with § 41-1032.

Comment: The above subsection corresponds to A.R.S. § 41-1052(F). Omitted was the requirement of a 2/3 majority in the second sentence of 41-1052(F). The Commission acts by a majority vote, see A.R.S. § 40-102(C).

H. If the rule relies on scientific principles or methods, including a study disclosed pursuant to subsection (III)(E)(8), and a person submits an analysis to the Commission questioning whether the rule is based on valid scientific or reliable principles or methods, the Commission shall not approve the rule unless the Commission determines that the rule is based on valid scientific or reliable principles or methods that are specific and not of a general nature. In making a determination of reliability or validity, the Commission shall consider the following factors as applicable to the rule:

1. The authors of the study, principle or method have subject matter knowledge, skill, experience, training, and expertise.

2. The study, principle or method is based on sufficient facts or data.

3. The study is the product of reliable principles and methods.

4. The study and its conclusions, principles, or methods have been tested or subjected to peer-reviewed publications.

5. The known or potential error rate of the study, principle, or method has been identified along with its basis.

6. The methodology and approach of the study, principle, or method are generally accepted in the scientific community.

Comment: The above subsections correspond to A.R.S. § 41-1052(G).

I. At any time following the opening of the informal docket on rulemaking and at any time during the formal rulemaking process, a person may submit written comments to the Commission that are within the scope of subsections (II)(E), (F), (G), or (H). The Commission will also accept such comments during the formal rulemaking oral proceedings held by the Commission. The Commission may allow public comment or testimony at an Open Meeting or other proceeding that the Commission may order, within the scope of subsections (II)(E), (F), (G), or (H).

Comment: The above subsection corresponds to A.R.S. § 41-1052(I). The Commission accepts written comments at any time during its informal rulemaking process, and there is no time limit on when written comments can be submitted in the formal rulemaking proceedings.

III. Economic, small business, and consumer impact statement (A.R.S. § 41-1055)

A. Except as provided in subsection (II)(D), the Commission shall have prepared by a third party both a preliminary and a final economic, small business, and consumer impact statement for each proposed rulemaking, each of which shall include the following:

1. An identification of the proposed rulemaking.

2. An identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the proposed rulemaking.

3. A cost-benefit analysis of the following:

   a. The probable costs and benefits to the Commission and any other agencies directly affected by the implementation and enforcement of the proposed rules, including (if applicable) the probable costs to the Commission for and number of new full-time employees necessary to implement and enforce the proposed rules. The preparer of the economic, small business, and consumer impact statement shall notify the Commission of the number of new full-time employees necessary to implement and enforce the rules before the rules are approved by the Commission.

   b. The probable costs and benefits to a political subdivision of Arizona directly affected by the implementation and enforcement of the

proposed rules.

c. The probable costs and benefits to businesses directly affected by the proposed rules, including any anticipated effect on the revenues or payroll expenditures of employers who are subject to the proposed rules.

d. A general description of the probable impact on private and public employment in businesses, agencies, and political subdivisions of Arizona, and on industrial, commercial, and residential ratepayers (where applicable) directly affected by the proposed rules.

4. A statement of the probable impact of the proposed rulemaking on small businesses, including:

a. An identification of the small businesses subject to the proposed rules.

b. The administrative and other costs required for compliance with the proposed rules.

c. A description of the methods prescribed in A.R.S. § 41-1035 that the Commission may use to reduce the impact on small businesses, with reasons for the Commission's decision to use or not use each method.

d. The probable cost and benefit to private persons and consumers who will be directly affected by the proposed rules.

5. A statement of the probable effect of the proposed rules on state revenues.

6. A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rules, including quantification of the costs and benefits for each option to the extent possible and providing the rationale for not using non-selected alternatives.

7. A description of any data on which the proposed rules are based with a detailed explanation of how the data was obtained and why the data is acceptable data. For the purposes of this paragraph, "acceptable data" means empirical, replicable, and testable data as evidenced in supporting documentation, statistics, reports, studies, or research.

Comment: The above subsections correspond to A.R.S. § 41-1055(B). The contents of A.R.S. § 41-1055(A) are contained above in subsection (II)(C).

B. If for any reason adequate data are not reasonably available to comply with the requirements of subsection (III)(A), the third party engaged to produce the economic impact statement shall explain in the economic impact statement the limitations of the data and the methods that were employed in the attempt to obtain the data and shall characterize the probable impacts in qualitative terms.

Comment: The above subsection corresponds to § 41-1055(C). The Commission does not have the statutory authority to adopt the last sentence of § 41-1055(C), and it was not included.

C. The cost-benefit analysis required by subsection (III)(A) shall calculate only the costs and benefits that occur in this state.

Comment: The above subsection corresponds to § 41-1055(H).

D. If a person submits an analysis to the Commission regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states, the Commission shall consider the analysis.

Comment: The above subsection corresponds to A.R.S. § 41-1055(I).

IV. Review by Commission of Existing Rules (A.R.S. § 41-1056)

A. At least once every five years, the Commission shall review all of its rules to determine whether any rule should be amended or repealed.

1. The Commission shall adopt a schedule for reviewing all of its rules, in sets by subject area, over the five years after the effective date of this document and shall post the schedule on its website.

2. The Commission shall establish an ongoing review schedule to be followed after the first five years.

3. The Commission may reschedule the review of a set of rules if all or the majority of the rules in the set have been newly adopted or substantially revised within the two years immediately preceding the due date of the scheduled review.

Comment: The above subsections correspond to the first sentence of § 41-1056(A) and with § 41-1056(C) and (H).

B. The Commission's review of its rules shall be memorialized in a report that includes a certification that the Commission is in compliance with § 41-1091 and a concise analysis of the following information for each individual section within the reviewed set of rules:

1. The rule's effectiveness in achieving its objectives, including a summary of any available data supporting the conclusions reached.

2. Written criticisms of the rule received during the previous five years, including any written analyses submitted to the Commission questioning whether the rule is based on valid scientific or reliable principals or methods.

3 Authorization of the rule by existing statutes.

4. Whether the rule is consistent with statutes, other Commission rules, and current Commission enforcement policy.

5. The clarity, conciseness, and understandability of the rule.

6. The estimated economic, small business, and consumer impact of the rule as compared to the economic, small business, and consumer impact statement prepared on the last making of the rule (if any).

7 Any analysis submitted to the Commission by another person regarding the

rule's impact on Arizona businesses' competitiveness as compared to the competitiveness of businesses in other states.

8. If applicable, that the agency completed the previous five year review process.

9. Whether the probable benefits of the rule in Arizona outweigh the probable costs of the rule in Arizona, and whether the rule imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective.

10. Whether the rule is more stringent than a corresponding federal law and, if so, whether there is and the source of legal authority to exceed the requirements of that federal law.

11. For rules adopted after July 29, 2010, that require the issuance of a regulatory permit, license, or agency authorization, whether the rule complies with § 41-1037.

Comment: The above subsections correspond to § 41-1056(A)(1)-(11).

C. If the Commission determines that any of the rules within a set of rules needs to be revised due to the information included in the review report and based upon the factors listed in A.R.S. § 41-1056(E)(1)-(8), the Commission shall determine whether to initiate an informal rulemaking process or other appropriate rulemaking process for the rule/s and the timing of such process.

Comment: The above subsection corresponds to § 41-1056(E).

D. At least 90 days before the due date of a report, the Commission's Executive Director shall send a written notice to the Director of the Division responsible for preparing the report, providing the due date of the report and a list of the rules to be reviewed.

Comment: The above subsection corresponds to § 41-1056(L)

E. The Commission may review rules outside of the five-year-review process upon the request of a Commissioner.

Comment: The above subsection corresponds to § 41-1056(D).

F. The Commission may grant an extension of time to conduct its five-year review upon the demonstration of good cause by the Commission Division responsible for preparing the five-year-review report.

Comment: The above subsection corresponds to § 41-1056(I).

G. A person who is regulated by or could be regulated by an obsolete rule may petition the Commission to have the obsolete rule considered in a five-year-review report with a recommendation for repeal of the rule.

Comment: The above subsection corresponds to § 41-1056(M)

H. A person who is required to obtain or could be required to obtain a license may petition the Commission to consider including a recommendation for reducing the applicable licensing time frame in the five-year-review report for the applicable rule.

Comment: The above subsection corresponds to § 41-1056(N).

V. Submission of Final Rulemaking Packages (Nothing similar in the GRRC statute)

A. The Commission shall submit the final rulemaking package for rules that are not promulgated solely under the Commission's constitutional ratemaking authority to the Attorney General for review and approval pursuant to A.R.S. § 41-1044.

B. The Commission may submit the final rulemaking package for rules that are promulgated under the Commission's constitutional ratemaking authority directly to the Secretary of State for publication in the *Arizona Administrative Register* and inclusion in the Arizona Administrative Code.

Comment: The above subsections are authorized by A.R.S. § 41-1044 and *State ex rel. Corbin v. Arizona Corporation Commission*, 174 Ariz. 216 (App. 1992).

VI. Impact Statements; Appeals (A.R.S. § 41-1056.01)

A. Within two years after a rule is finalized, a person who is or may be affected by the rule may file a written petition with the Commission objecting to all or part of the rule on any of the following grounds:

1. The actual economic, small business, or consumer impact significantly exceeded the impact estimated in the final economic, small business, and consumer impact statement submitted during the making of the rule.

2. The actual economic, small business, or consumer impact was not estimated in the final economic, small business, and consumer impact statement submitted during the making of the rule, and that actual impact imposes a significant burden on persons subject to the rule.

3. The Commission did not select the alternative that imposes the least burden and costs to persons regulated by the rule, including paperwork and other compliance costs, necessary to achieve the underlying regulatory objective.

Comment: The above subsections correspond to § 41-1056.01(A).

B. The burden of proof is on the petitioner to show, by a preponderance of the evidence, that any of the provisions set forth in subsection (VI)(A) are met.

Comment: The above subsection corresponds to § 41-1056.01(B).

C. The Commission shall accept comment on and reevaluate the rule and its economic impacts as follows:

1. Within 30 days after the written petition is filed, the Commission shall have notice of the petition published in the *Arizona Administrative Register*.

2. The Commission shall establish a comment period of at least 30 days after publication of the notice and shall name a close of comment date. During the comment period, the Commission shall afford persons the opportunity to submit written statements, arguments, data, and views on the rule and its economic impacts through filings in an assigned Commission docket.

3. Within 30 days after the close of comment date, the Commission shall submit to the Office of the Secretary of State, for publication in the *Arizona Administrative Register*, a notice including a written summary of the comments received, the Commission's response to those comments, and the Commission's determination on whether to initiate a rulemaking to amend or repeal the rule.

4. If the Commission's determination is that a rulemaking should be initiated to amend or repeal the rule, the Commission shall, within 45 days after publication of its determination, open a Commission rulemaking docket and file with the Office of the Secretary of State a Notice of Rulemaking Docket Opening for the rulemaking.

Comment: The above subsections correspond to § 41-1056.01(C).

D. A person who is or may be affected by the Commission's determination on whether to initiate a rulemaking to amend or repeal the rule may request Commission reconsideration of that determination by filing a petition for reconsideration in the relevant Commission docket within 30 days after the Commission makes its determination.

Comment: The above subsection corresponds to § 41-1056.01(D).

E. The Commission shall place the petition for reconsideration on a Commission Open Meeting agenda if at least three Commissioners file letters making such a request in the relevant docket within 14 days after the filing of the petition for reconsideration with the Commission.

Comment: The above subsection corresponds to § 41-1056.01(E).

F. Upon reconsideration of the Commission's determination, the Commission shall consider the written summary prepared under subsection (VI)(C)(3), may consider additional public comment provided in the relevant docket or during Open Meeting or other public comment proceedings, and shall reach its determination on reconsideration based on the factors in subsection (VI)(A).

Comment: The above subsection corresponds to § 41-1056.01(F) and (G).

G. A person who is or may be affected by the Commission's determination on reconsideration may pursue any legal action against the Commission afforded under the law.

Comment: The above subsection exceeds the GRRC statutes.

JUDGE HANNAH

MINUTE ENTRY

The Court has read and considered Defendant's Motion to Dismiss Complaint for Untimely Filing, the plaintiff's response and the defendant's reply.

The result here is dictated by *Arizona Corp. Commission v. Superior Court in and for Maricopa County*, 21 Ariz. App. 523 (1974). That case holds that the thirty-day appeal deadline in A.R.S. section 40-254(A) runs from the denial of the appealing party's application for rehearing. A party cannot avoid that deadline by appealing the subsequent denial of another party's petition for rehearing, even if the issues raised are the same. *Id.* at 525.

SUPERIOR COURT OF ARIZONA
MARICOPA COUNTY

CV 2024-033957 01/06/2025

IT IS ORDERED Defendant's Motion to Dismiss Complaint for Untimely Filing is granted. The complaint is hereby dismissed with prejudice.

Nothing remains pending in this case. This is a final order. Ariz. R. Civ. P. 54(c).

/s/ JOHN HANNAH

ATTN: Legal Division
Arizona Corporation Commission
1200 West Washington St.
Phoenix, AZ 85007

RE: A.R.S. 41-1033 Petition to Repeal Policy Statement 3 of Decision 79140

Dear Legal Division,

Pursuant to A.R.S. 41-1033, Underground Arizona is petitioning the Arizona Corporation Commission ("ACC") to repeal Policy Statement 3 of Decision 79140 ("PS3"), adopted on October 4, 2023, which is being treated as a rule.[1] Pursuant to A.R.S. 41-1033(G), PS3 "is not specifically authorized by statute, exceeds the agency's statutory authority, [and] is unduly burdensome."

In Line Siting Case 232, in Finding of Fact 10 of the Certificate of Environment Compatibility filed on July 29, 2024, PS3 was used by the Line Siting Committee to determine that any incremental undergrounding cost borne by ratepayers or the utility was unrecoverable and therefore local ordinances and plans creating such costs were "unreasonably restrictive and compliance therewith [was] not feasible in view of technology available" under A.R.S. 40-360.06(D).[2,3,4] Therefore, the ACC attempted to pre-empt local laws in the line-siting process via a ratepayer recovery pre-determination based on a mere policy statement that went through no formal, public rulemaking process and no ratemaking process.

As the record in Line Siting Case 232 shows, Arizona utilities regularly recover the cost of undergrounding transmission (and distribution) lines from ratepayers—even where that

[1] Docket ALS-00000A-22-0320.
[2] Docket L-00000C-24-0118-00232. Finding of Fact 10 and Conditions 3 and 4.
[3] To add insult to injury, in that very case, the utility's application included the incremental cost of undergrounding many miles of distribution lines at millions of dollars in ratepayer expense. The utility also testified that the ratio of distribution to transmission lines in a municipality was about 15:1. As such, if $15 million is spent undergrounding 15 miles of distribution lines, spending $15 million to underground 1 mile of transmission lines should be an equally prudent expense.
[4] And that's to say nothing of the fact that the depreciated cost to ratepayers would be insignificant by any reasonable definition of significance. Otherwise, all a utility's expenses are significant.

undergrounding is not required by law.[5] Indeed, the applicant could not produce a single example of a utility ever being denied the recovery of the incremental costs of undergrounding an electric line, whether that undergrounding was required by law or not.

To that point, the Arizona courts have repeatedly interpreted Arizona's laws as allowing municipalities to require transmission (and distribution) undergrounding at utility expense.[6] Expenses required by law cannot be reasonably determined imprudent and unrecoverable and such a determination would not make those laws unenforceable—it would merely create an undue burden on the utilities. Moreover, the ACC cannot change the law or extend and intermingle its powers through policy statements.[7]

While the ACC has the *ex-post* power to determine what expenses are recoverable from ratepayers in the ratemaking process, it does not have the *ex-ante* power or expertise to make such determinations in the line siting process. PS3 improperly attempts to confuse and transpose these independent statutory powers to *ex-ante* determine what expenses are recoverable from ratepayers. Therefore, PS3 is not authorized by statute, the ACC has exceeded its statutory authority, and it has created undue burdens on the parties.

The ACC's own legal counsel warned of this on June 14, 2023, months before PS3 was adopted: *"It would not be appropriate to adopt a rule regarding ratepayer recovery as part of the line siting rules, however. The Line Siting Committee has no jurisdiction over rates and a line siting rule regarding ratepayer recovery would therefore be outside the scope of authority granted under the line siting statute. Additionally, the Line Siting Committee does not have jurisdiction over underground transmission lines."*[8]

As such, we request that PS3 be repealed pursuant to A.R.S. 41-1033.

Sincerely,

~~Daniel~~ Dempsey
Underground Arizona

Re: *Petition to Invalidate Policy Statement 3 of Decision No. 79140*
Docket No. AIS-00000A-22-0320

Dear Mr. Dempsey:

This letter is the Arizona Corporation Commission's ("Commission") formal response to the September 10, 2024, Petition you filed in accord with A.R.S. § 41-1033(A).[1] A person may petition an agency to make, amend, or repeal a rule, or to review an existing agency practice or substantive policy statement that the petitioner alleges constitutes a rule. The petition must follow specific procedural requirements, including stating the reasons for the petition and providing supporting information. The Petition here meets the statutory requirements and thus the Commission is compelled to file this response.

For the reasons set forth below, the Commission denies your Petition as redundant, since your request to either invalidate an informal policy as an impermissible rule, or to have the policy enacted as a rule, is unnecessary. There exists already a formally adopted rule addressing the costs of undergrounding transmission wires, and two separate statutory regimes addressing undergrounding, thus the policy mentioned in Decision No. 79140 (October 4, 2023) is based on an existing, valid rule or statute. *See* A.A.C. R14-2-206(b)(2)(c). The Line Siting Committee's reliance on that rule and policy, in Line siting Docket No. L-00000C-24-0118-0232, Certificate of Environmental Compatibility (July 29, 2024) was therefore correct and legally warranted. *See*, Decision No. 79550 (September 13, 2024).

In addition to the rule, the policy is based on state law. Pursuant to A.R.S. §§ 40-341, et. seq., public service corporations can install underground transmission lines (1) *at their own*

[1] This statute provides, in relevant part:
A. Any person may petition an agency to do either of the following: 1. Make, amend or repeal a final rule. 2. Review an existing agency practice or substantive policy statement that the petitioner alleges to constitute a rule.

expense (i.e., that cannot be recovered in general rates) or (2) pursuant to a conversion service area. The legislature has created a statewide scheme for the creation of "underground conversion service areas" and each landowner within the "conversion area" must pay "the costs" for undergrounding to the public service corporation. The Decision advisory also cited A.R.S. § 48-620, which involves the creation of an improvement district established by a municipality via petitions from impacted property owners, for purposes of undergrounding. This statutory regime also requires the property owners to pay pro rata for the costs of undergrounding. Thus, under both the rule and the statutes, the costs of undergrounding cannot be recovered in the general utility rates.

The Commission policy in Decision No. 79140 fully complies with and is based upon these established laws. There are three lawful methods to pay for undergrounding:[2] (1) the utility can pay with no rate recovery; (2) an improvement district can be created, and the impacted property owners can pay; or (3) a conversion district can be created, and the impacted property owners can pay. No state law authorizes the costs of undergrounding to be spread among all ratepayers.

A complete analysis is provided below.

A. The Petition Is Validly Filed

The Petition from Mr. Dempsey is brought pursuant to A.R.S. § 41-1030. This statute provides that agencies must not make informal policies or guidelines that have the effect of being a rule of general application, nor can agencies make rules that exceed their statutory or Constitutional rulemaking authority.

The Petition here properly follows Arizona law, and the Commission informed the public in Attachment A, page 1, Note 1, of Decision No. 79140, of the public's right to file such a petition. Accordingly, a response from the Commission is required. The Petitioner is advised that he has 30 days to file an appeal if he so chooses.[3]

---

[2] The Commission is aware that other sources, unrelated to ratepayers, could theoretically exist, such as legislative grants.

[3] A.R.S. § 41-1033(E) ("If an agency rejects a petition pursuant to subsection C of this section, the petitioner has thirty days to appeal to the council to review whether the existing agency practice or substantive policy statement constitutes a rule."

B. The Advisory Statement and Contentions.

1. The Guidance in Decision No. 79140

At issue is the following statement in Decision No. 79140, which provides:

> 3. The Commission does not have express jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers, and neighborhood groups seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. §§ 48-620 *et seq.*

Commission Decision No. 79140, ¶ 15. The above guidance statement was enacted on October 4, 2023. The guidance pertains to excluding the costs of undergrounding from recovery through rates. The guidance makes clear that those requesting and benefitting from undergrounding should pay for the costs of undergrounding, not ratepayers in general. As fully discussed below, this mirrors state law.

In a recent Line Siting Committee decision, the Committee referred to this guidance as a policy to which it will adhere. The Committee explained:

> [G]iven the Commission's Policy Statement found in Decision No. 79140 (October 4, 2023), the Committee finds pursuant to A.R.S. § 40-360.06(D) that any local ordinance or plan that requires TEP to incur an incremental cost to construct the Project below ground 'is unreasonably restrictive and compliance therewith is not feasible in view of technology available." This finding is conditioned on the City and TEP not finding a means to, within six (6) months of the date of the Commission's approval of this Certificate, either (a) fund the incremental cost to construct the Project below ground from a source other than through TEP's utility rates or from TEP, its affiliates, subsidiaries, or patent companies absent agreement between the parties; or (b) obtain the City's authorization to construct the Project above ground

> through the City's special exception or variance process, provided that TEP files a special exception or variance application for the route approved within ten (10) weeks of the Commission's approval of this Certificate.

Line Siting Committee, Certificate of Environmental Compatibility, p. 15 at ¶ 10, Docket No. L-00000C-24-0118-232 (July 29, 2024). Thus, the Committee logically deemed the guidance to be a policy it should follow, even without reference to the rule and passing reference to the improvement district statute.

In addition to the Committee's analysis and application of the guidance, the Commission's legal division provided guidance in a June 14, 2023, memorandum, in which it stated:

> It would not be appropriate to adopt a rule regarding ratepayer recovery as part of the line siting rules, however. The Line Siting Committee has no jurisdiction over rates, and a line siting rule regarding ratepayer recovery would therefore be outside the scope of authority granted under the line siting statutes. Additionally, the Line Siting Committee does not have jurisdiction over underground transmission lines.

Legal Division Memorandum, p. 16, Docket ALS-00000A-22-0320 (June 14, 2023). While the Line Siting Committee does not have express jurisdiction over undergrounding transmission lines,[4] and it does not have jurisdiction over ratepayer recovery of costs, the Commission does have jurisdiction over the rate allocations and underground conversion service areas.

The Committee's action to comport with Commission guidance is prudent and warranted. Moreover, both the Commission and the Committee are of aware of, and seek compliance with, state law regarding improvement districts and conversion districts. The Line Siting Committee has every reason, and obligation, to comport with state law, which plainly disallows undergrounding costs to be allocated among all ratepayers. Any decision by the Line Siting Committee would be reasonable to take those restrictions into account, and doing so does not assert jurisdiction over rates or over undergrounding.

---

[4] The Commission does, however, have jurisdiction in some circumstances to approve undergrounding in conversion service areas. ARS 40-344(J): "The corporation commission or the board of supervisors shall not establish any underground conversion service area without prior approval of such establishment by resolution of the local government"); and (K): "If the underground conversion service area contains overhead electric or communication facilities of a public service corporation and public agency, then neither the public service corporation nor the public agency shall be required to commence conversion until the corporation commission's order, the board of supervisors' order or the city or town council's order has become final." Query whether the Line Siting Committee should have the initial review of the creation of a conversion service area inasmuch as it has the technical and historic expertise on line siting issues.

C. The Commission Has The Legal Authority To Create an Advisory Policy Consistent With and Based on State Law.

The Petitioner asserts that the Commission does not have the Constitutional or legislative authority to create and enforce the guidance or policy that was set forth in Decision No. 79140. This is not correct.

In the Petition, p. 1, it is alleged that:

> In Line Siting Case 232, in Finding of Fact 10 of the Certificate of Environment Compatibility filed on July 29, 2024, PS3 was used by the Line Siting Committee to determine that any incremental undergrounding cost borne by ratepayers, or the utility was unrecoverable and therefore local ordinances and plans creating such costs were "unreasonably restrictive and compliance therewith [was] not feasible in view of technology available" under A.R.S. § 40- 360.06(D). If the underground costs were determined recoverable from ratepayers or the utility, this A.R.S. § 40-360.06(D) determination could not be made.

The Petition also asserts that the Commission legal counsel "warned" that adopting a policy within the line siting rules would be "outside the scope of authority granted under the line siting statute" and that "the Line Siting Committee does not have jurisdiction over underground transmission lines." The jurisdiction of the Line Siting Committee is not at issue here. The Committee was appropriately recognizing state law limitations on cost recovery for undergrounding. At issue is the ability of the Commission to have rules and policies regarding rates and recovery of costs, and this is definitively within the core jurisdiction of the Commission. The Committee merely recognized the Commission's role over rates, but in no manner did the Committee attempt to exert its authority extra jurisdictionally.

The letter referred to in the Petition from the Legal Division, dated June 14, 2023, did not refer to the rule here, A.A.C. R14-2-206(b)(2)(c) (the costs for undergrounding single phase (residential mainly) service lines to be paid by the user), or the undergrounding statutes pertaining to conversion and improvement districts. The Commission adopted the recommendations from the Legal Division as far as it went, stating: "We adopt Legal Division's recommendation: however, the Commission's Policy Statement shall also include the following" and thereafter the Commission set forth the guidance based on A.A.C. R14-2-206(b)(2)(c)). In this manner, the Commission did not err.

The Commission rule to prevent the extra costs of undergrounding from being rolled into general ratepayer rates is a core rule based on the Commission's plenary authority to

govern reasonable and just rates. Decision No. 79140 expressly noted that "The Commission has jurisdiction over the subject matter..." (Commission Decision No. 79140 at p. 3). The Commission has made it clear to the Municipalities, and others, that undergrounding is not prohibited. The Petition's reference to state law allowing municipalities to order undergrounding is not at issue and not in conflict. The Commission is simply noting that the very high cost of undergrounding, and the reliability and maintenance problems associated with undergrounding, cannot be recovered in the general rates—a core jurisdictional issue for the Commission. Further, as noted above, state law mirrors this advisory.

The Commission even referred those who want undergrounding (including Municipalities) to a possible method, such as creating an improvement district under A.R.S. § 48-620. (Decision No. 79140 at p. 3). More directly however, are the underground conversion districts set forth in A.R.S. §§ 40-341 *et. seq*. State law mandates that the requesting party or parties, and the beneficiary property owners, pay for all undergrounding costs.

There are multiple sections of statute and rules that address undergrounding:

A.A.C. R14-2-207: This regulation outlines the requirements for utilities regarding distribution line extensions, including underground extensions in subdivision developments. It specifies that single-phase electric lines necessary to furnish permanent electric service to new residential buildings or mobile homes within a subdivision must be installed underground unless it is not feasible from an engineering, operational, or economic standpoint. Under R14-2-206(B)(2)(b), costs are not allowed to be allocated to general ratepayers and the "customer requesting an underground service line in an area served by overhead facilities shall pay" for the costs of undergrounding. These rules establish jurisdiction of the Commission to address special conditions, exceptions, and approval of line extensions and who should pay.

A.R.S. § 48-620: This statute states that the assessment for an underground electrical power line shall be assessed against only the property owners benefiting from the burial of the power line.

A.R.S. § 40-342, 40-344, 40-346 & 347: These statutes provide the petition procedure for establishing an underground conversion service area, including the requirement for a hearing by the corporation commission, to determine the feasibility and approval of the conversion service area. Under A.R.S. 40-347, the underground conversion costs are to be allocated to each lot or parcel of real property within the underground conversion service area—not to the general ratepayers. ARS 40-343(F) (requiring "the estimated costs to be assessed to each

> lot or parcel of real property for placing underground the facilities of the public service corporation.").[5]

Should the Commission want to adopt the advisory as a formal rule, it could do so, and it would be in harmony with state law and public policy. The Arizona Constitution, Article 15, Section 3, grants the Commission the power to "make reasonable rules, regulations, and orders, by which such corporations shall be governed in the transaction of business within the state." *State v. Tucson Gas, Elec. Light & Power Co.,* 15 Ariz. 294 (1914). This constitutional provision vests exclusive power in the Commission to govern public service corporations, except where the Constitution explicitly grants such power to the Legislature. *State v. Tucson Gas, Elec. Light & Power Co.*, 15 Ariz. at 300-301. The Commission authority includes judicial, executive, and legislative powers, allowing it to adopt rules and regulations, as well as to adjudicate issues, and set rates. *Miller v. Arizona Corp. Com'n*, 227 Ariz. 21, 24-25 (2011).[6]

The Commission's creation and powers stem from the framers' intent to protect the public from corporate abuses and overreaching, granting it extensive regulatory authority unique among state commissions. *Burns v. Arizona Public Service Company*, 254 Ariz. 24 (2022). This historical context underscores the Commission's role in ensuring effective regulation and consumer protection. *Miller v. Arizona Corp. Com'n*, 227 Ariz. at 28-29. The Commission is also obligated to protect and prevent unfairness to consumers and ratepayers. Thus, compelling non-beneficiaries to pay for the costs of undergrounding has been deemed unfair and unreasonable by the Commission in its advisory policy, a policy that mirrors the state legislature's undergrounding statutory plan. In short, the Legislature and the Commission concur that the costs of undergrounding cannot be shared among non-beneficiaries as defined by law.

D. The Advisory Policy Mirrors Existing State Law.

As noted, the Petitioner is operating under the misimpression that the guidance and policy statement set forth in Decision No. 79140 is not based on an existing rule or state law and thus constitutes a new "rule" that was enacted without following the procedures of the Administrative Procedures Act (APA). The Petitioner errs.

---

[5] It is notable that the Commission has jurisdiction over petitions to underground "transmission lines" at "nominal voltages in excess of twenty-five thousand volts, or having a current capacity in excess of twelve thousand kva." ARS 40-342(E). This raises the question whether the Line Siting Committee should have the opportunity to address transmission line undergrounding petitions over 25Kv as it has expertise in this.

[6] Arizona statutory law, A.R.S. § 40-202, further confirms the Commission's authority to regulate public service corporations and to adopt rules necessary for this purpose. Specifically, the statute empowers the Commission to protect the public against deceptive practices, ensure confidentiality of customer information, and regulate contractors working with regulated entities. *Id.* The statute also mandates the Commission to encourage competition and growth in the telecommunications industry and to establish procedures for regulating competitive markets. *Id.*

The advisory policy in Decision No. 79140 is based on a previously enacted rule that complies with the APA as well as a state statutory scheme pertaining to undergrounding. The rule regarding undergrounding enacted in accordance with the APA, A.A.C. R14-2-206(b)(2)(c), provides:

> "[a] customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connection and the actual cost of the underground connection as a nonrefundable contribution."

A.A.C. R14-2-206(b)(2)(c). Thus, this validly enacted rule establishes that the cost of undergrounding shall be borne by the "customer requesting underground service." The advisory policy reiterates this rule.

In addition to this rule, there is an extensive statutory scheme that also mandates that the customers who seek, and benefit from, undergrounding, shall pay for the costs of undergrounding, not the ratepayers in general. Specifically, A.R.S. § 40-342(F) provides:

> A summary of the estimate of the costs to be assessed against each lot or parcel of real property located within the proposed underground conversion service area for the conversion of facilities within public places and the estimated costs to be assessed to each lot or parcel of real property for placing underground the facilities of the public service corporation or public agency located within the boundaries of each parcel or lot then receiving service shall be mailed by the public service corporation or public agency to each owner of real property located within the proposed underground conversion service area to the address of such owner as set forth on the petition for the cost study.

A.R.S. § 40-342(F). The Commission advisory reflects this statutory payment scheme. The costs of undergrounding are to be paid for by the customers requesting and benefitting from the undergrounding. If the advisory is deficient, it is that it did not expressly refer to the rule and the statutes. But that is not required.

The Commission agrees that there is a rule already enacted, and the advisory statement in the decision is consistent with that rule.[7] Under the APA, a "rule" is defined as an agency

---

[7] "An entity's internal guidelines, however, are not rules." *Duke Energy Arlington Valley, LLC v. Ariz. Dep't of Rev.*, 219 Ariz. 76, 80, ¶ 18, 193 P.3d 330, 334 (App.2008). Whether the advisory constitutes an "internal guideline" need not be addressed inasmuch as there is an existing APA-enacted rule and a statutory regime that mirrors the advisory.

statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedure or practice requirements of an agency. *Phoenix Children's Hosp. v. Arizona Health Care Cost Containment System Admin.,* 195 Ariz. 277 (1999); A.R.S. § 41-1001(17).

In the present matter, there is existing state law and a state rule, all compelling the allocation of the undergrounding costs on those directly benefitting from the undergrounding. The advisory merely parrots those statutes, and the Commission need not formally adopt a potentially redundant rule.

The Commission, however, could adopt a formal rule on allocating the costs of undergrounding, if it so chose, as long as the formal rule was consistent with state law. The challenge to the undergrounding advisory pertains directly to rate making (i.e., can the costs of undergrounding be shared among all ratepayers), a core function of the Commission and one over which it has plenary authority. Thus, if the Commission so chose, it could enact the advisory as a stand-alone rule. Whether it should do so is a decision it can deliberate upon,[8] but the fact remains the advisory policy is itself consistent with an APA-enacted undergrounding cost rule and two statutory undergrounding cost statutes.

The Commission has the Constitutional authority to establish rules that pertain to public service corporation rates. The advisory statement at issue clearly pertains to the costs of undergrounding of utilities and the exclusion of those costs from being foisted upon classes of ratepayers who did not request, and do not benefit from, the undergrounding of utilities. This is within the Commission's Constitutional authority and is aligned with legislative policy.

---

[8] The rules pertaining to rate making can be created and enacted by the Commission without approval of the Attorney General or the APA. *See U S West Communications, Inc. v. Arizona Corp. Com'n*, 197 Ariz. 16 (1999) (appellate court invalidated some Commission rules that were not ratemaking rules and affirmed other rules that were rate making rules, none of which had APA or attorney general review). Courts in general grant deference to the agency's interpretation of statutes and its own regulations. *Arizona State University ex rel. Arizona Bd. of Regents v. Arizona State Retirement System*, 237 Ariz. 246 (2015).

The language in Decision No. 79140 stems from an existing rule and statutory scheme and is therefore valid. Under the rule, A.A.C. R14-2-206(b)(2)(c), whoever requests the undergrounding, and whoever benefits from it geographically (the adjoining properties) must pay for the undergrounding costs: "[a] customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connection and the actual cost of the underground connection as a nonrefundable contribution." Thus, if a Municipality requests or mandates undergrounding, it must pay for it, not the ratepayers. This is consistent with the holding in *Arizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447 (Ariz. 1980), wherein the right of a municipality to require undergrounding was affirmed. However, that does not address who should pay. The Commission, through its advisory, and the Legislature, through statute, has made it clear that the customer mandating or requesting the undergrounding shall pay, and the costs cannot be shifted to all ratepayers.

E. The Guidance Does Not Exceed the Commission's Authority.

Mr. Dempsey asserts that the guidance exceeds the Commission's constitutional and statutory authority. On that basis he seeks its invalidation. This is incorrect because the Commission has plenary constitutional authority to make rules impacting rate designs.

Inasmuch as the guidance in Decision No. 79140 directly pertains to a public service corporation's recovery of costs in undergrounding utilities, Mr. Dempsey errs. The Commission has the Constitutional authority to formulate rules that pertain to rates. The Constitutional power and authority for the Corporation Commission to enact rules for rates are derived from Article 15, Section 3 of the Arizona Constitution. This section provides:

> The Corporation Commission shall have full power to, and shall, prescribe just and reasonable classifications to be used, and just and reasonable rates and charges to be made and collected, by public service corporations within the state for service rendered therein, ***and make reasonable rules, regulations, and orders***, by which such corporations shall be governed in the transaction of business within the state.

Arizona Constitution, Art. 15, Sec. 3 (emphasis added). *See State v. Tucson Gas, Elec. Light & Power Co.*, 15 Ariz. 294, 301, 138 P. 781, 784 (1914).

The Arizona Supreme Court has "repeatedly held that the power to make reasonable rules and regulations and orders by which a corporation shall be governed refers to the power to prescribe just and reasonable classifications and just and reasonable rates and charges." *U.S. West Comms v. Arizona Corporation Commission*, 197 Ariz. 16, 23, 3 P.3d 936, 943 (Az. App. 1999) *citing Tonto Creek Homeowners v. Arizona Corporation* 177 Ariz. 49, 56,

864 P.2d 1082, 1088 (App. 1993) (*quoting Williams v. Pipe Trades Indus. Program of Ariz.*, 100 Ariz. 14, 17, 409 P.2d 720, 722 (1966)).

The Commission is directly vested with rule making authority under the Arizona Constitution, Art. 15, Sec. 3, which means that no legislative action is necessary for the Commission to exercise its ratemaking powers, and it has exclusive authority to set rates and charges. *Johnson Utilities, L.L.C. v. Arizona Corporation Commission*, 249 Ariz. 215, 221, 468 P.3d 1176, 1182 (2020). Additionally, the rules and regulations related to ratemaking issued by the Commission do not require attorney general certification to be effective. Ariz. Const. Art. 15, § 3; *Phelps Dodge Corp. v. Arizona Elec. Power Co-op., Inc.*, 207 Ariz. 95, 115, 83 P.3d 576, 593 (App. 2004). Where the Commission is implementing rules pursuant to its constitutional authority, the rules are not subject to review by the executive branch. *State ex rel. Corbin v. Arizona Corporation Commission*, 174 Ariz. 216, 219, 848 P.2d 301, 304 (App.1992).[9]

The Office of General Counsel concludes that the Commission has the constitutional authority to create a formal rule if it so chooses, as set forth as A.A.C. R14-2-206(b)(2)(c), which the guidance set forth in Commission Decision No. 79140, ¶ 15 reiterated.

F. Is the Guidance a "rule" that should be formally adopted?

Agency guidelines, policies, suggestions or practices may need to be adopted as a rule under the APA when certain criteria are met. The APA defines a "rule" as:

> an agency statement of general applicability that implements, interprets or prescribes law or policy, or describes the procedure or practice requirements of an agency. Rule includes prescribing fees or the amendment or repeal of a prior rule but does not include intraagency memoranda that are not delegation agreements.

A.R.S. § 41–1001(19). The question here is whether the undergrounding guidance in the Decision rises to the level of a "policy" or is simply a reminder of state law and existing rule. Since several state laws require payment by the requesting customer, and the APA enacted rule also mandates the requesting party to pay for undergrounding, the advisory merely reiterates the obvious—the Commission will follow the law and it will not allow costs for undergrounding to be included in general rates. There is not a requirement to

[9] However, submitting a proposed rule to the Attorney General for review under the APA for purposes of determining if the rule is clear, concise, and understandable, if not also within the Commission's authority, can be done voluntarily. If a reviewing court were to conclude, as was done in *U.S. West*, that the rule should have been reviewed under the APA, then there is no harm in submitting to review.

adopt the guidance as a formal rule. The Decision recites what is state law. Adopting a formal rule would be duplicative to some extent.

In addition, A.R.S. § 40-346(F) grants the Commission the authority to issue an order "establishing the underground conversion service" and the Commission "***shall set forth the underground conversion costs to be charged to each lot or parcel.***" Thus, the Commission policy mirrors state law and state law directs the Commission on allocating costs to the parcel owner of the adjoining property. The costs for undergrounding cannot be included in a generalized rate, but must be assessed against the property owners directly benefitting from undergrounding in the geographic adjacent area.

These regulations and statutes collectively govern the process of undergrounding electrical transmission lines in Arizona, ensuring that the projects are economically feasible, technically sound, and fairly assessed to benefiting property owners. The Decision advisory merely repeats existing law.[10]

State law requires the costs of undergrounding to be borne by the beneficiaries of undergrounding, which is precisely what the Commission guidance emphasized in Decision No. 79140. For example, local governments have the authority to require the undergrounding of utility lines within their boundaries, absent a clear statewide preemptive policy. *Arizona Public Service Co. v. Town of Paradise Valley*, 125 Ariz. 447 (1980). The legislature has given cities and towns the power to require the undergrounding of utility lines as part of their zoning powers. *Town of Paradise Valley*, 125 Ariz. at 450-452.

However, the decision to mandate undergrounding is separate from the allocation of costs of undergrounding. As explained, conversion areas and improvement areas are allowed, but the costs are assessed to property owners within the underground conversion service area who benefit from the conversion or undergrounding. A.R.S. § 40-342. As set forth in statute:

> F. A summary of the estimate of the costs to be assessed against each lot or parcel of real property located within the proposed underground conversion service area for the conversion of facilities within public places and the estimated costs to be assessed to each lot or parcel of real property for placing

[10] The Commission has jurisdiction over some undergrounding, as conveyed by the Legislature: The Commission has adopted rules that impact and regulate single-phase undergrounding. *See* A.C.C. R14-2-207(E) (regulating "Single phase underground extensions"); (E)(2) ("The utility shall construct or cause to be constructed and shall own, operate, and maintain all underground electric distribution and service lines along public streets"); (d) "Underground service lines from underground residential distribution systems shall be owned, operated and maintained by the utility, and shall be installed pursuant to its effective underground line extension and service connection tariffs on file with the Commission").

> underground the facilities of the public service corporation or public agency located within the boundaries of each parcel or lot then receiving service shall be mailed by the public service corporation or public agency to each owner of real property located within the proposed underground conversion service area to the address of such owner as set forth on the petition for the cost study.

A.R.S. § 40-342(F). The Commission policy comports with Commission rules and state law. The costs of undergrounding are to be paid for by the customers requesting and benefiting from the undergrounding.

The policy at issue in Decision No. 79140 is reflected in the Commission's rules. Specifically, A.A.C. R14-2-206(b)(2)(c) states that, regarding company provided facilities, "[a] customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connection and the actual cost of the underground connection as a nonrefundable contribution." *Id.* This rule supports the Commission's position because it indicates both that the Commission retains the authority to allocate undergrounding costs, and that Commission previously adopted a rule like its policy at issue.

Mr. Dempsey cites *Arizona Pub. Serv. Co. v. Town of Paradise Valley*, 125 Ariz. 447 (1980) and *Tucson Electric Power, Co. v. City of Tucson*, Pima County Sup. Ct., Case No. C20235484 (2024), but these decisions do not support Mr. Dempsey's position. The Commission advisory does not preclude or limit a municipality's right to require undergrounding. The Commission advisory merely parrots state law and policy on the allocation of the costs of undergrounding.

\\\

\\\

\\\

The Petition is denied. The Commission advisory is a restatement of existing law and public policy. While the Commission could adopt another formal rule on allocation of undergrounding costs, it is not required to do so.

Sincerely,

Douglas Clark

ARIZONA CORPORATION COMMISSION

Office of General Counsel

March 3, 2025

Chairperson Jessica Klein
Governor's Regulatory Review Counsel
100 N 15th Avenue Suite 302
Phoenix, AZ 85007

Re: Arizona Corporation Commission Decision 79140, Policy Statement 3

Dear Chairperson Klein:

This letter is to put forth the Arizona Corporation Commission's ("Commission") legal office's position on an appeal to the Governor's Regulatory Review Council ("GRRC") from Underground Arizona dated November 8, 2024. Thank you for taking the time to listen to our concerns. When we were notified of the petition, we were also informed "[a]t this time there is nothing the Arizona Corporation Commission need to do with regards to this petition." Therefore, we did not have a representative attend the February 25, 2025, meeting.

A. The Governor's Regulatory Review Council Does Not Have Authority to Review the Arizona Corporation Commissions Rules or Policy Statements

Arizona Revised Statutes ("A.R.S.") title 41 article 5 establishes and identifies powers given to GRRC. A.R.S. § 41-1057(A) states that this article does not apply to the Commission. Because the article that establishes GRRC specifically exempts the ACC from the powers given to GRRC, our rules and policies are not subject to review in this forum.

A.R.S. § 41-1057(A)(2) states that the Commission shall adopt substantially similar rule review procedures, but we are outside of the procedures adopted and administered by GRRC. The Commission's rules are published in the Arizona Administrative Code Title 14 and have complied with the rulemaking process and have been published accordingly. The policy statement issued in Commission decision 79140 is not a rule and is not required to go through the formal rulemaking process. The guidance issued in the form of a policy statement, as discussed below, is simply a restatement of existing laws and rules.

B. Costs Associated with Undergrounding Transmission Lines Are Part of The Ratemaking Process

At issue is Commission decision number 79140 dated October 4, 2023, and specifically, the guidance provided in policy statement 3 contained in the decision. Policy statement 3 basically restates existing state law and properly promulgated rules. The policy states that installing electric transmission lines underground is more expensive to install and more costly and challenging to maintain and repair. Because of the additional expense, they should only be installed if necessary for reliability or safety purposes. If the stakeholder wants them underground for other reasons, they should form an improvement district as provided in A.R.S. § 48-620 et. seq. Forming an improvement district will ensure that the additional cost of undergrounding the transmission lines will be paid for by the stakeholders making the request.

The cost of undergrounding transmission lines is significantly more expensive than above ground. Costs associated with installation of transmission lines feed directly into rates and ratemaking and is a constitutionally directed function of the Commission. The Arizona Constitution, Article 15, Section 3 provides that "[t]he corporation commission shall have full power to, and shall, prescribe just and reasonable classifications to be used and just and reasonable rates and charges to be made and collected, by public service corporations within the state for service rendered therein." The section goes on to grant the Commission the power to "make reasonable rules, regulations, and orders, by which such corporations shall be governed in the transactions within the state."

All aspects of ratemaking, including determining appropriate costs, and issuing rules, are core constitutional duties of the Commission. Because these matters are constitutionally directed, the executive and legislature do not have the authority to reduce or alter the scope of responsibilities tasked to the Commission.

The Commission determines the rates that a public service corporation (a "utility") may charge. The Commission sets rates by finding the "fair value" of a utility's in-state property. Because the cost of undergrounding transmission lines directly impacts the fair value of those lines, the costs associated with installing and maintaining transmission lines is directly included in ratemaking. The Commissions guidance that requires the stakeholder to directly pay for the additional expense is following the law, as set forth below, and directly within the Commission's ratemaking authority.

C. The policy is Well Grounded in Existing State Law

Arizona law has three distinct statutes that address apportioning additional costs of undergrounding directly to the person requesting the change.

First, under A.R.S. § 40-341 et. seq. petitioners can form an underground conversion service area. When an underground service area is proposed, the utility for that area shall make a study to determine the "underground conversion cost." "Underground conversion cost means the costs to be paid by each owner to each public service corporation or public agency by the property owners within an underground conversion service area, as provided in this article." The statute directly requires the cost to be paid by each owner in the area, and not be apportioned to all utility ratepayers.

Second, A.R.S. § 48-620 allows a municipal governing body to establish an underground utility facility. And again, costs are determined prior to approval, and then if approved, the expense shall be collected through a tax assessment not to exceed fifteen years.

Third, A.A.C. R 14-2-206.B(2)(c) states a "customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connection and the actual cost of the underground connection to the nonrefundable contribution."

These are the direct basis for the guidance issued in Decision 79140 through policy statement 3. The policy is merely a restatement of the law and is intended to provide guidance of the stakeholder's responsibility to pay additional costs associated with undergrounding transmission lines.

The reason for the policy is to assure that the cost of any unnecessary undergrounding is bore by the stakeholders that want it. Under A.R.S. §§ 40-341 et seq., public service corporations can install underground transmission lines (1) at their own expense (i.e., that cannot be recovered in general rates) or (2) pursuant to a conversion service area. The legislature has created a statewide scheme for the creation of "underground conversion service area" and each landowner with the conversion area must pay the costs for undergrounding to the public service corporation.

Underground Arizona, in its petition, cites Arizona Public Service Co. v. Town of Paradise Valley, 125 Ariz. 447 (1980), for the premise that state law allows municipalities to require undergrounding at utility expense. APS v Paradise Valley did say that state law does not prevent a city from mandating undergrounding of utilities at utility expense, but that was in a motion for summary judgment in which the Supreme Court accepted "the Town's allegations that although the initial cost of undergrounding may be more, the maintenance costs are less and the long term cost is the same or less that the cost of above ground utility poles." Because this was an issue of fact, the Court had to look at it in a light most favorable to the Town. Forty-five years later, and same policy statement at issue here, included a statement that underground lines are much more expensive to install and can be more costly and challenging to maintain and repair.

D. Conclusion

For the reasons stated above, the Commission requests that GRRC take no action on Underground Arizona's appeal of the Commission's determination. If you have any questions, feel free to reach out to our office.

Sincerely,

Robert Ridenour

RE: Arizona Corporation Commission March 3, 2025 Letter

Dear Members of the Governor's Regulatory Review Council,

This letter is a response to the March 3, 2025 letter sent to you by the Arizona Corporation Commission ("Commission"). The Commission makes a lot of arguments that are irrelevant to the questions before you.

A. The Governor's Regulatory Review Council ("GRRC") Does Have Authority

Arizona Revised Statutes ("A.R.S.") § 41-1057(B) states that the Commission may opt into the GRRC process. The Commission advised Underground Arizona that it could appeal pursuant to A.R.S. § 41-1033(E), which exclusively refers to the GRRC process. Moreover, the Commission did not advise Underground Arizona of an equivalent Commission-established independent process and we remain unaware of an equivalent independent process at the Commission.

A.R.S. 41-1044 mandates that exemptions under A.R.S. 41-1057 are subject to attorney general review. It would seem to us that if GRRC denies itself jurisdiction then the attorney general's office has jurisdiction. However, we see no reason for GRRC to deny itself jurisdiction when the Commission's actions clearly align with A.R.S. § 41-1057(B) and it is best equipped to issue an opinion. To deny jurisdiction is to leave Underground Arizona and similar parties at the mercy of non-existent processes.

B. The Issue is Line Siting Jurisdiction Not Ratemaking Jurisdiction

Again, as with its original response, the Commission spends most of its letter arguing red herrings. The issue before GRRC is a line siting policy statement not a ratemaking policy statement. Decision 79140 makes this fact very clear.[1] Frankly, reading the policy statement alone makes it clear because the leading sentence is effectively, "we don't have jurisdiction over any of this."[2] Can you issue policy statements or rules on issues for which you lack jurisdiction? Can you avoid having a rule reviewed by calling it a policy statement? We believe the answers to both are obviously no. Again, the Commission's own counsel said as much in a public legal memo on June 14, 2023.[3] By focusing only on its ratemaking jurisdiction and ignoring the limits of its line siting jurisdiction and the memo of its legal counsel, it seems the Commission is trying to confuse you and sidestep the actual issue because it has no arguments responsive to the actual issue.

Line siting jurisdiction is limited to overhead transmission lines under A.R.S. § 40-360(10). The Commission cannot expand line siting jurisdiction beyond its statutory limitations with policy statements or rules. Additionally, line siting is a creature of statute not the Arizona Constitution. Thus, the constitutional questions the Commission is attempting to raise by mischaracterizing a line siting policy statement as a ratemaking policy statement are a distraction and not responsive to the actual issue.

C. Conclusion

For the aforementioned reasons, Underground Arizona requests that GRRC determine the Commission's line siting policy statement is a rule, and that whether it is a policy statement or a rule, it is invalid and contrary to the very statute that created the Line Siting Committee.

Sincerely,

/s/ Daniel Dempsey

Daniel Dempsey, Director

Underground Arizona

[2] *"3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."*

GRRC February 25, 2025 Study Session

Daniel Dempsey <daniel@undergroundarizona.org> Tue, Feb 25, 2025 at 1:50 PM
To: GRRC - ADOA <grrc@azdoa.gov>
Cc: Simon Larscheidt <simon.larscheidt@azdoa.gov>, Thomas Mc Neeley <thomas.mcneeley@azdoa.gov>

Thanks! When you say next meeting, do you mean in a month or in a week?

When I spoke to an attorney at the ACC, his statement was that because the Line Siting Committee is a creature of statute/legislation and not the Constitution, it fell under GRRC. As where ratemaking is a creature of the Constitution. He also said, basically, the ACC can setup its own equivalent review process but never has so it probably defaults GRRC anyways. I don't want to get him in trouble though as this was an informal conversation and may not be the ACC's official position.

In a few sentences, the issue is: can the ACC extend ratemaking authority to the Line Siting Committee with a mere policy statement that doesn't reflect any actual law? Ratemaking authority is broad, the ACC can basically deny the recovery of any cost. Line siting authority is super narrow: it only applies to overhead transmission lines. The ACC is trying to give Line siting the same broad authority as ratemaking without any legal basis for expanding its jurisdiction. This is what the ACC's legal memo pointed out.

Thanks,
Dan

Good Morning, Simon and Thomas,

In advance of your executive session on the ACC, I want to point out that whether the AG opines that you can or cannot enforce your ruling, it is useful and helpful to us and others to have a ruling against the ACC in pushing back against perversion of process. One would think that because the ACC told us to use this process, it would be bound to your ruling.

Ultimately, this isn't an issue of agreeing or disagreeing with the policy. It's an issue of agreeing or disagreeing that limited jurisdiction can be made unlimited through policy statements. If it's allowed, it can be used to do literally anything. The ACC could ban clean energy or gas peaker plants by issuing a line siting policy statement. That's not how any of this is supposed to work according to a half century of precedent or statute.

Thanks,
Dan

RE: Response to the Commission's April 28, 2025 A.R.S. § 41-1033(H)(3)(c) Statement

Dear Members of the Governor's Regulatory Review Council,

This letter is a response to the April 28, 2025 A.R.S. § 41-1033(H)(3)(c) statement by the Arizona Corporation Commission ("Commission"). Once again, the Commission repeats a lot of arguments that are irrelevant to the questions before you and fails to address the underlying issue of the express statutory limits on the Commission's line siting jurisdiction.

A. Arizona Revised Statutes ("A.R.S.") § 41-1057(A) Exemption Does Not Apply

Arizona Revised Statutes ("A.R.S.") § 41-1057(A)(2) says: "A. In addition to the exemptions stated in section 41-1005, **this article** does not apply to…2. The corporation commission, which shall adopt substantially similar rule review procedures, including the preparation of an economic impact statement and a statement of the effect of the rule on small business." [Emphasis added] "This article" is Article 5 of Chapter 6. Underground Arizona filed an A.R.S. § 41-1033 or Article 3 of Chapter 6 petition. Article 5 exemptions only apply to Article 5 as cited above. Therefore, Underground Arizona's Article 3 petition is not exempt from Governor's Regulatory Review Council ("GRRC") review.

B. The Commission Opted into GRRC Review

As stated in previous responses, even if Article 5 exemption did apply to Article 3 petitions, the statute states in A.R.S. § 41-1057(B) that the Commission may opt into the GRRC process. The Commission advised the public in Decision 79140, and Underground Arizona in its response to our original September 3, 2024 petition, among other communications, that policy statements could be

appealed pursuant to A.R.S. § 41-1033, which establishes and governs the GRRC substantive policy statement review process.[12] The Commission has not established an alternative Article 3 substantive policy statement review process—and we can find no Article 3 exemption available to the Commission even if it had established an alternative. In any event, the Commission's statements and directions must reasonably be interpreted as actions that opted the Commission into GRRC process were Article 5 exemptions available. Moreover, the Commission's inaction in failing to timely advise Underground Arizona of alternative processes despite countless opportunities to do so in the last eight months equally illustrates that the Commission voluntarily opted into GRRC review of Article 3 petitions.

The Commission now, for the first time in its third response, eight months after receiving the original petition, cites Decision 78544 as controlling. Only, once again, the subject of Decision 78544 is Article 5, not Article 3. Decision 78544 does not address Article 3 at all, let alone establish an independent Article 3 equivalent process. Quite simply, Decision 78544 does not apply to the issue before you. It does, however, raise the question of whether the Commission established a sufficiently independent alternative to GRRC for Article 5 reviews. Does the Commission approving its own rules satisfy the intent of the Legislature and the letter and spirit of Article 5 exemption? We suspect not.

C. The Issue is Policy Statement 3 of Decision 79140; Appeal of Decision 79550 is Irrelevant

The court's dismissal of Underground Arizona's appeal of Decision 79550 as untimely is irrelevant. While the appeal included discussion of the policy statement issue (because Decision 79550 cites the invalid policy statement—and surely so will many more decisions), there was no court decision on the merits. Furthermore, Underground Arizona filed its Article 3 petition weeks prior to the Commission even issuing Decision 79550, and months prior to filing any court appeal.

D. The Issue is Line Siting Jurisdiction Not Ratemaking Jurisdiction

Once again, as with its original response to our petition, and its March 3, 2025 response, the Commission spends most of its statement arguing red herrings. The issue before GRRC is a line siting policy statement, not a ratemaking policy statement. Decision 79140 makes this fact very clear.[3]

---

[1] See footnote 1 of Attachment A here: https://docket.images.azcc.gov/0000209995.pdf

[2] The Commission responded on October 31, 2024, stating, on page 2: "The Petitioner is advised that he has 30 days to file an appeal if he so chooses. (3) A.R.S. § 41-1033(E) ("If an agency rejects a petition pursuant to subsection C of this section, the petitioner has thirty days to appeal to the council to review whether the existing agency practice or substantive policy statement constitutes a rule.)"

[3] Decision 79140 Finding of Fact 1: *"On December 23,2023. Arizona Corporation Commission Chairwoman Marquez Peterson opened this docket by memorandum to consider the adoption of a substantive policy statement to guide the Line Siting Committee"* https://docket.images.azcc.gov/0000209995.pdf

Frankly, reading the policy statement alone makes it clear because the leading sentence is effectively, "we don't have jurisdiction over any of this."[4] The Commissioners also stated as much at the public hearing.[5] Can you issue policy statements (let alone allow them to be treated as rules in practice) on issues for which you explicitly lack jurisdiction? We believe the answer is obviously no. Again, the Commission's own counsel said as much in a docketed legal memo on June 14, 2023.[6] By focusing only on its ratemaking jurisdiction and ignoring the limits of its line siting jurisdiction, it seems the Commission is trying to confuse you and sidestep the actual issue because it has no arguments responsive to the actual issue.

Line siting jurisdiction is limited to overhead transmission lines under A.R.S. § 40-360(10). The Commission cannot expand line siting jurisdiction beyond its statutory limitations with policy statements or rules. Moreover, even if an underground line were subject to line siting jurisdiction, the line siting process cannot predetermine ratemaking outcomes. Line siting is a creature of the Legislature, not the Arizona Constitution or the Commission. Thus, the constitutional questions the Commission is attempting to raise by mischaracterizing a line siting policy statement as a ratemaking policy statement are a distraction and not responsive to the actual issue.

E. Existing Law is that Municipalities Can Require Undergrounding at Utility Expense

The Arizona Supreme Court in *APS v Town of Paradise Valley (1980)*, and, more recently, the Arizona Superior Court in *TEP v. Board of Adjustment (2024)*, as cited in our petition and prior responses, found that existing law does not exempt utilities from municipal zoning ordinances. That said, determining whether undergrounding is allowed by law or not is not the subject of this petition. The question before you is: can the Commission issue policy statements (let alone allow them to be treated as rules in practice) on issues for which it explicitly lacks jurisdiction? Again, the answer is

---

[4] *"3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 et. seq."*

[5] On September 21, 2023, at the Commission's Open Meeting, in regard to Commissioner Myers' Proposed Amendment No. 1, the following statement was made: Commissioner Myers: "I think it is beneficial to clarify the Commission's stance on [rates and undergrounding] but at the same time make sure that it's clear that we don't have jurisdiction over [rates and undergrounding] when it comes to line siting stuff." https://azcc.granicus.com/player/clip/5766

[6] See page 16 of Decision 79140: https://docket.images.azcc.gov/0000209995.pdf

obviously no, even according to memos from the Commission's own counsel. Only the Legislature can expand line siting jurisdiction to include undergrounding or ratemaking.

F. Conclusion

Underground Arizona suspects that the Commission did not adopt a rule (even though its attorneys advised it that a rulemaking would be required) because it would have failed either GRRC or attorney general review. By issuing a policy statement instead and letting it be treated as a rule in practice, the Commission has attempted to sidestep statutory process and avoid the checks and balances prescribed by the Legislature.

For the aforementioned reasons, Underground Arizona requests that GRRC determine that:

1. Underground Arizona has made an Article 3 petition;
2. Article 5 exemptions do not apply to Article 3 petitions;
3. Regardless, the Commission's actions and/or inactions have or would have opted the Commission into a GRRC review process under either article; and,
4. The Commission's line siting policy statement is void because it "is not specifically authorized by statute, exceeds the agency's statutory authority, and is unduly burdensome."

Sincerely,
/s/ Daniel Dempsey
Daniel Dempsey, Director
Underground Arizona

P.S. It is not clear why the Commission cc'd electric utilities in its statement. We believe this is a straightforward case on the merits and, much like a court of law, we will not be soliciting comments to the Council from supporters or the public. If public comment matters to GRRC's analysis and we should, please advise. Frankly, allowing the unilateral creation of policy statements that expand an agency's jurisdiction are as much a risk to the electric utilities as they are to the public or the rule of law. The sanctity of the rule of law is important to everyone.

Thomas Mc Neeley <thomas.mcneeley@azdoa.gov>

Additional ARS 41-1033 Appeal Note

Daniel Dempsey <daniel@undergroundarizona.org> Thu, May 1, 2025 at 10:37 AM
To: GRRC - ADOA <grrc@azdoa.gov>, Thomas Mc Neeley <thomas.mcneeley@azdoa.gov>, Simon Larscheidt <simon.larscheidt@azdoa.gov>

Good Morning, GRRC!

One additional comment:

The Commission cited AAC Title 14, Chapter 5 as recording a note about a claimed exemption to external review. Chapter 5 is about Railroads and Pipeline Safety, not Line Siting. The note states that it only applies to Chapter 5. Line Siting is under Chapter 3, Article 2. And neither Chapter 3 nor Article 2 contain a similar note of a claimed exemption--as would be expected.

We don't think it matters in the grand scheme because the issue before you is not a rule and is not a power created by the Constitution, but it does add to the incredible volume of Commission red herrings--and that should matter.

Thanks,
Dan

Arizona Corporation Commission
DOCKETED
OCT 4 2023
DOCKETED BY

IN THE MATTER OF SUBSTANTIVE POLICY STATEMENTS TO GUIDE THE ARIZONA POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE.	DOCKET NO. ALS-00000A-22-0320 DECISION NO. 79140 ORDER

Open Meeting
September 21, 2023
Phoenix, Arizona

FINDINGS OF FACT

1. On December 23, 2023, Arizona Corporation Commission ("Commission") Chairwoman Márquez Peterson opened this docket by memorandum to consider the adoption of a substantive policy statement to guide the Arizona Power Plant and Transmission Line Siting Committee ("Line Siting Committee" or "Committee").

2. On January 5, 2023, Chairwoman Márquez Peterson docketed a letter and notice of inquiry seeking feedback on a potential policy statement.

3. On February 8, 2023, Arizona Electric Power Cooperative, Inc., ("AEPCO") Salt River Project Agricultural Improvement and Power District ("SRP"), Tucson Electric Power Company ("TEP"), and UNS Electric, Inc. ("UNSE") (collectively, "Affected Utilities") filed joint Comments in this docket.

4. On February 16, 2023, Arizona Public Service Company filed a Response in this docket.

5. On February 20, 2023, the Affected Utilities filed joint Comments in this docket.

6. On March 14, 2023, Strata Clean Energy filed Comments in this docket.

7. On March 30, 2023, AEPCO, TEP, and UNSE filed joint Comments in this docket.

8. On May 5, 2023, Commissioner Myers docketed a letter requesting that Commission Utilities Division Staff ("Staff") and the Commission Legal Division ("Legal Division") respond to seven proposals for potential policy statements detailed in Commissioner Myers' letter.

9. On June 6, 2023, Southwestern Power Group filed a Response in this docket.

10. On June 14, 2023, Staff and the Legal Division filed their Response to Commissioner Myers' letter.

11. On June 19, 2023, SRP filed Comments in this docket.

12. On June 27, 2023, TEP and UNSE filed a joint Response in this docket.

13. On August 9, 2023, the proposals contained in Commissioner Myers' letter were discussed and considered at the Staff Open Meeting.

14. At the August 9, 2023, Staff Open Meeting, the Legal Division was directed to prepare a policy statement addressing proposals one and two in Commissioner Myers' letter concerning substations and hybrid hearings.

15. Attached to this Order as Attachment A is the Legal Division's recommendation for the Arizona Corporation Commission Policy Statement regarding Practice and Procedure Before the Power Plant and Transmission Line Siting Committee for Commission consideration. We adopt Legal Division's recommendation; however, the Commission's Policy Statement shall also include the following policy statement:

> 3. The Commission does not have jurisdiction over the undergrounding of electric transmission lines. A.R.S. § 40-360(10). Installing electric transmission lines

> underground is much more expensive than building them above ground. Underground transmission lines also can be more costly and challenging to maintain and repair. As a general matter, utilities under the Commission's jurisdiction should avoid incurring these higher costs unless underground installation of a transmission line is necessary for reliability or safety purposes, or to satisfy other prudent operational needs. Installing a transmission line underground for other reasons, such as stakeholders' preferences, would add unnecessarily to costs recovered through rates. Third parties, including cities, customers, and neighborhood groups, seeking to fund the underground construction of a transmission line may do so, among other ways, by forming an improvement district for underground utilities as provided in A.R.S. § 48-620 *et. seq.*

CONCLUSIONS OF LAW

1. The Commission has jurisdiction over the subject matter in this proceeding pursuant to Titles 40 and 41 of the Arizona Revised Statutes.

2. The Commission, having reviewed Attachment A and the record herein, concludes that it is just and reasonable and in the public interest to adopt the policy statement reflected in Attachment A, as modified herein.

DISSENT: _____

ATTACHMENT A

ARIZONA CORPORATION COMMISSION POLICY STATEMENT[1] REGARDING PRACTICE AND PROCEDURE BEFORE THE POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE

Background

Before constructing a plant or transmission line in this state, Arizona law requires that utilities receive a Certificate of Environmental Compatibility ("CEC") from the Arizona Power Plant and Transmission Line Siting Committee ("Line Siting Committee" or "Committee") and approved by the Arizona Corporation Commission ("Commission"). The process for obtaining a CEC is governed by the line siting statutes, Arizona Revised Statutes ("A.R.S.") § 40-360 *et seq.* Prior to this year, the line siting statutes had not been updated since their adoption in 1971.

The outdated nature of the statutes, coupled with the increased need for power in the Southwest and Arizona specifically, has dramatically increased the number of CEC applications that have come before the Line Siting Committee. The Committee, Commission, and Arizona Legislature have taken numerous steps to address the backlog of applications pending before the Committee.

On December 23, 2022, Chairwoman Márquez Peterson's Office opened this docket to consider the adoption of substantive policy statements to provide guidance to the Line Siting Committee and regulated entities regarding when a CEC is required. The docket has generated valuable discussion and proposals from Commissioners and regulated entities alike.

On April 5, 2023, House Bill 2496 was signed into law by the Governor. That bill amends the definition of "transmission line" to clarify that "transmission line" means:

> five or more new structures that span more than one mile in length as measured from the first structure outside of the substation, switchyard or generating site to which the line connects to the fifth structure and that are erected above ground and support one or more conductors designed for the transmission of electric energy at nominal voltages of one hundred fifteen thousand volts or more and all new switchyards to be used therewith and related thereto for which expenditures or financial commitments for land acquisition, materials, construction or engineering exceeding $50,000 have not been made before August 13, 1971. Transmission line does not include structures located on the substation, switchyard or generating site to which the line connects.

[1] This substantive policy statement is advisory only. A substantive policy statement does not include internal procedural documents that only affect the internal procedures of the agency and does not impose additional requirements or penalties on regulated parties or include confidential information or rules made in accordance with the Arizona administrative procedure act. If you believe that this substantive policy statement does impose additional requirements or penalties on regulated parties you may petition the agency under section 41-1033, Arizona Revised Statutes, for a review of the statement.

This updated definition of "transmission line" addresses much of the ambiguity identified in the generic docket concerning when a CEC is required.

In addition, on March 6, 2023, the Commission's Legal Division opened Docket No. ALS-00000A-23-0063 for purposes of its 5-Year-Review of the Rules of Practice and Procedure before the Power Plant and Transmission Line Siting Committee, Arizona Administrative Code Title 14, Chapter 3, Article 2. On August 25, 2023, the Commission issued Decision No. 79083, directing the Legal Division to open a new rulemaking docket to update the line siting rules. Accordingly, revisions to the line siting rules will be addressed in that docket.

In order to provide additional guidance regarding the Commission's interpretation of the requirements under the line siting statutes, it is reasonable and appropriate to adopt the policy statements set forth herein. Policy Statement No. 1 addresses the Commission's interpretation of "transmission line," as updated in House Bill 2496. Policy Statement No. 2 provides the Commission's preferred approach to conducting hearings before the Line Siting Committee.

Policy Statements

1. The definition of "transmission line" provided in A.R.S. § 40-360, and as amended by House Bill 2496, includes "switchyards," but notably does not include "substations." The Commission presumes the Legislature intentionally excluded "substations" from the definition of "transmission line" and therefore interprets A.R.S. § 40-360 as imposing no requirement for a utility to obtain a CEC to construct a substation.

2. The line siting statutes require that a hearing be held on an application "in the general area within which the proposed plant or transmission line is to be located or at the state capitol at Phoenix," as determined by the Chairman of the Committee. A.R.S. § 40-360.04(A). Since the COVID-19 pandemic, the Committee has authorized virtual or hybrid virtual and in-person hearings. The Commission affirms the Committee's use of hybrid hearings and encourages the continued use of hybrid hearings to streamline the hearing process and allow for more robust public participation at Line Siting Committee hearings.

Re: In the Matter of Substantive Policy Statements to Guide the Arizona Power Plant and Transmission Line Siting Committee (ALS-00000A-22-0320)

Arizona Corporation Commissioners
Members of the Arizona Power Plant
and Transmission Line Siting Committee and
All Interested Stakeholders:

Arizona Electric Power Cooperative, Inc., Salt River Project Agricultural Improvement and Power District, Tucson Electric Power Company, and UNS Electric, Inc. (collectively "Affected Utilities") reiterate our thanks to Commissioner Marquez Peterson for opening this docket and raising important issues regarding the Arizona power plant and line siting process. As stated in the January 17, 2023 letter filed in this docket, the Affected Utilities support efforts to clarify and modernize the Arizona Power Plant and Transmission Line Siting Committee's ("Committee") rules and procedures. Among other things, the Affected Utilities are concerned with the current Committee backlog, which results primarily from the exceptionally large number of generation interconnection "tie-line" applications now being filed. At present, the backlog is such that applicants for a CEC cannot get a hearing scheduled until the end of 2024. That reality is highly concerning to our companies because it has the potential to hinder our respective abilities to get needed projects approved and on-line when required to serve our customers and members in Arizona.

Moreover, as Commissioner Marquez Peterson points out, the process for obtaining a certificate of environmental compatibility ("CEC") is complex and costly. Indeed, an applicant for a CEC typically must retain consultants to help prepare the environmental and other impact studies required by Arizona law to accompany a CEC Application, as well as attorneys to help facilitate the hearing process. In addition, the Committee is required by law to hold a hearing in the county in which the transmission line will be constructed, which is often in rural or remote areas of the State. The responsibility for securing and funding both a hearing venue of adequate size and hotel accommodations for Committee members, attorneys, witnesses, and other participants in the process falls on the applicant. The applicant must also fund an audio-visual team to provide internet and virtual hearing capabilities, as well as ensure that the room will be equipped with sufficient tables, chairs, and other amenities for all participants. Hearings are always scheduled to begin in the afternoon on the first day to give Committee members who reside far from the hearing location time to get there, which means that the hearing itself typically lasts a minimum of two days, even for the least controversial of applications. For this and other reasons, it is not unusual for the total cost of the CEC application process to exceed $250-300,000 for the most basic of applications, rising to in excess of $650,000 and much higher as the proceedings become increasingly complex. For the Affected Utilities, that amount ends up being recovered in rates paid by our customers and members.

ACC - Docket Control - Received 2/20/2023 10:05 AM
ACC - Docket Control - Docketed 2/21/2023 8:24 AM

The Affected Utilities understand the need for this process for most projects. Such an extensive evaluation is important for significant projects that must be fully vetted to ensure their compatibility with the environment and ecology of Arizona. But it should not be required for smaller projects that, by their nature, have little to no environmental footprint. We recognize that the Legislature may be taking steps to remedy this concern. However, we also agree with Commissioner Marquez Peterson that any legislative solution will take several months to implement if it passes at all, and that a more urgent, Commission-driven solution is needed.

The Affected Utilities therefore offer the following suggestions for the Commission's potential inclusion in a substantive policy statement:

(1) Interpret "series of structures" to mean "three or more" poles, but exclude from the series any poles located on the site of existing energy infrastructure.

An important first step, as suggested in the Draft Potential Substantive Policy Statement No. 1, is to clarify what projects constitute a "transmission line" within the meaning of A.R.S. § 40-360(10) – specifically, what constitutes "a series of new structures."[1] As a legal matter, no caselaw exists regarding how many poles constitute a "series" in the line siting context. However, the Arizona Court of Appeals has interpreted the meaning of the word "series" in the criminal context (examining the phrase "continuing series of violations") as meaning three or more.[2] In doing so, the Court relied on the definition of "series" contained in Webster's Third New International Dictionary (1966): "a group of *usually three or more* things or events standing or succeeding in order and having a like relationship to each other."[3] Notably, that version of Webster's dictionary was published close in time to the promulgation of the line siting statutes in 1971, thus indicating that the common and approved use of "series" at that time constituted "three or more."[4]

This interpretation is also consistent with how the phrase "series of structures" has historically been interpreted by the Commission and the Committee. For example, during a 2021 pre-filing meeting, former line siting Chairman Thomas Chenal expressed his observation that "the Corporation Commission . . . has, at least traditionally, customarily thought of a series as

---

[1] A.R.S. § 40-360.

[2] *State v. Tocco*, 156 Ariz. 110, 115 (App. 1986) (citing *United States v. Valenzuela*, 596 F.2d 1361, 1367 (9th Cir. 1979) ("[W]hile all dictionaries may not precisely specify the number of related, successive events which are necessary to constitute a series, we think the District Court's instruction that a series must consist of three or more federal narcotic law violations was squarely based on common usage.") (internal citations omitted)).

[3] *Id.* (emphasis added).

[4] *See* A.R.S. § 1-213 (requiring that statutory "[w]ords and phrases shall be construed according to the common and approved use of the language.")

being three or more."[5] The Commission has also opined that the construction of a substation and two transmission poles is **not** a "transmission" line that would trigger the need for a CEC.[6] This interpretation is also consistent with the Affected Utilities' historical understanding of the phrase.

However, absent from the definition of "transmission" line is any indication of what poles should be counted towards one of the series. Here, the Declaration of Policy underlying the siting statutes is instructive:

> The legislature hereby finds and declares that there is at present and will continue to be a growing need for electric service which will require the construction of **major new facilities**. It is recognized that such facilities cannot be built without in some way **affecting the physical environment where the facilities are located**. The legislature further finds that it is essential in the public interest **to minimize any adverse effect upon the environment and upon the quality of life of the people of the state which such new facilities might cause**.[7]

Clearly, the original drafters of the line siting statutes were focused on balancing the impact of "major new facilities" – large but necessary energy infrastructure – with the existing physical environment. However, if the environment is already impacted by energy infrastructure (be it a switchyard, substation, or generation site), the construction of the new facilities would have no incremental adverse effect on the environment or anyone's quality of life, and those facilities should thus not be considered part of the "series" of new structures for which the environmental impact should be analyzed. This reading of the statute makes it more likely that only "major new facilities" will be required to file for a CEC, not small projects to be constructed on land that, at least in part, has already been impacted by energy infrastructure.

For the same reason, reconductoring a line or replacing old structures with new ones within the location approved by the Commission in the underlying CEC should not trigger the CEC process, because doing so does not have any new adverse impact on the environment as contemplated by the line siting statutes.

The Commission's policy should also make clear that the "series of structures" contemplated is linear in nature and that a CEC would not be required for the construction of, for example, two sets of two poles that feed into a substation or switchyard in a parallel or another non-linear fashion. Such a construction conforms to the commonly understood meaning of "series" (things that are "succeeding in order"[8]) would be consistent with the legislature's intent that only "major new facilities" should be subject to the siting process (not a handful of minor new facilities).

---

[5] *See e.g.* Cielo Azul Prefiling Conference Transcript, June 17, 2021 (Chairman Chenal) at 25:16-19

[6] *See* Decision No. 77761 (October 2, 2020).

[7] *Declaration of Policy*, Laws of Arizona 1971, Chapter 67, p. 180 (emphasis added).

[8] *See State v. Tocco*, 156 Ariz. at 115.

Finally, the Commission should memorialize in policy its historical practice of not requiring a CEC for the construction of a substation. A.R.S. § 360(10) defines transmission line to mean, in relevant part, "a series of new structures erected above ground and supporting one or more conductors designed for the transmission of electric energy at nominal voltages of one hundred fifteen thousand volts or more **and all new switchyards** to be used therewith..." (emphasis added). While the statute requires a "switchyard" (which is part of the transmission system) to be sited as part of a transmission line, it makes no similar requirement for a substation. The Commission has acknowledged that substations do not need to go through the CEC process, *see* Decision No. 77761, and it makes sense to reflect that interpretation as part of any forthcoming policy.

(2) Establish a priority system for CEC hearings.

At present, the Committee Chair schedules hearings on a first-come, first-served basis. This practice worked fine when the Committee only handled a few CEC applications each year. However, the Committee is now scheduled to hear no fewer than 33 CEC applications in the next 18 months – and the pace of new applications is not slowing. To ensure that a project has a spot in the queue, the Affected Utilities must ask for hearings to be set years in advance. This process is unworkable, and there is no system in place to ensure that projects that need to be on-line sooner than the current scheduling process would allow will have a timely hearing. As a practical matter, the line siting statutes require the Committee to hold a hearing on an application within a specified timeframe after the application is filed.[9] A frustrated applicant, unable to work through the existing process, could just file an application with the Commission and the Committee will have to accommodate it, or the project could be built without any regulatory evaluation or approval.[10] Certainly, such an outcome is not in the public interest. The Commission should thus work with impacted stakeholders and the Committee Chair's office to develop a system for identifying and prioritizing more urgent projects.

(3) Make changes and provide guidance that will improve the CEC process for non-exempt projects.

Finally, the Commission should include in any policy the following recommendations that will improve the overall CEC process:

- The Affected Utilities are routinely asked by stakeholders to underground transmission facilities. As the Commission knows, undergrounding a transmission line can be ten to twenty times more expensive than building a line above ground. The Commission has often acknowledged that ratepayers should not pay the extra cost of undergrounding a transmission line. Including language to that effect in a policy would be helpful to applicants who need to explain the issue to stakeholders in a CEC proceeding.

---

[9] *See* A.R.S. § 40-360.04.
[10] *See* A.R.S. § 40-360.08(B).

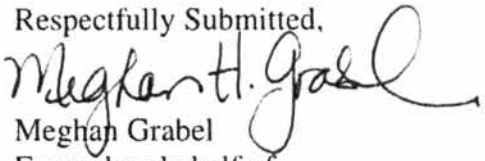
- A frequent issue in CEC proceedings is the efficacy of the applicant's public outreach process. The statutory outreach requirements are minimal, providing only for notice in a newspaper of general circulation and to certain affected jurisdictions. However, the Committee and the Commission often, and reasonably, expect more than that from applicants. Explaining what type of and how much public outreach the Commission expects of CEC applicants would be useful to ensure that all are on the same page as to what is required and that all reasonable expectations are met.

- Since the COVID-19 pandemic, CEC hearings have been conducted in a hybrid virtual/physical attendance platform. Given the remoteness of certain projects that require a CEC, the practice of allowing virtual participation has proven to be helpful to both the applicants and the Committee. The Commission should endorse the continuation of the hybrid platform for CEC hearings.

- CEC dockets are one of the two types of proceedings before the Commission that still require physical filings. Applicants are required to file 25 physical copies of a CEC application and all other documents that need to be filed during the course of the CEC proceeding (and then 13 hard copies for any documents to be filed after the CEC is awarded). Given the size of CEC applications, this requirement is both costly and environmentally unsound. The Commission should allow electronic filing in CEC dockets, with the understanding that if any Commissioner or Committee member wants a hard copy, they can reach out to the applicant through the Chairperson of the Committee and will receive one.

Again, we are grateful for Commissioner Marquez Peterson's attention to these matters and look forward to working with Chairman O'Connor and all of the Commissioners on the important issues raised in this docket.

Respectfully Submitted,



Meghan Grabel
For and on behalf of
Arizona Electric Power Cooperative, Inc.,
Salt River Project Agricultural Improvement and Power District,
Tucson Electric Power Company,
UNS Electric, Inc.

MEMORANDUM

TO: Docket Control

FROM: Douglas R. Clark
Interim Director
Utilities Division

Robin Mitchell
Director/Chief Counsel
Legal Division

DATE: June 14, 2023

RE: IN THE MATTER OF SUBSTANTIVE POLICY STATEMENTS TO GUIDE THE ARIZONA POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE. (DOCKET NO. ALS-00000A-22-0320)

SUBJECT: RESPONSE TO COMMISSIONER NICK MYERS' MAY 5 LETTER

On May 5, 2023, Arizona Corporation Commission ("Commission") Commissioner Nick Myers docketed a letter requesting Commission Utilities Division Staff ("Staff") and the Commission Legal Division ("Legal Division") respond to seven proposals detailed in Commissioner Myers' letter. This memorandum represents Staff's and the Legal Division's joint response to the seven proposals. Staff and the Legal Division appreciate the opportunity to provide this response addressing recommendations regarding the backlog of Certificate of Environmental Compatibility ("CEC") applications with the Arizona Power Plant and Transmission Line Siting Committee ("Committee").

The responses below include a brief analysis from the Commission's Legal Division regarding whether the proposed changes can be adopted by Commission vote, substantive policy statement, rulemaking, or if a statutory change is required. Many of the proposals require revising existing rules, and therefore necessitate rulemaking.

Conveniently, the five-year review of the Rules of Practice and Procedure before the Power Plant and Transmission Line Siting Committee ("line siting rules") is taking place in Docket No. ALS-00000A-23-0063. Stakeholder comments regarding revisions to the line siting rules are due June 19, 2023. In that Docket, the Legal Division will prepare and submit to the Commission a Five-Year-Review Report, which will identify areas that could be improved in a subsequent rulemaking docket. While some of the recommendations in Commissioner Myers' letter may properly be adopted through a substantive policy statement, the Legal Division generally recommends adopting these changes through rulemaking rather than policy statements.

ACC - Docket Control - Received 6/14/2023 2:29 PM
ACC - Docket Control - Docketed 6/14/2023 2:48 PM

1. Substations

The first recommendation was to affirm that the construction of a substation does not require a CEC.

Arizona Revised Statutes ("A.R.S.") § 40-360(10) does not include "substation" as part of the definition of a "transmission line" but does include "switchyard."

For clarity, Staff suggests defining "switchyard" and "substation." A switchyard transmits high voltage power from generation plants to a utility's distribution system. On the other hand, a substation transforms high voltage power into lower voltages suitable for local distribution.[1]

Staff does not oppose clarifying that constructing a substation does not require a CEC; however, this clarification may not have any substantial impact to the number of applications coming before the Committee. Staff is not aware of any previous CEC applications only involving substations that would not have gone to a hearing due to the proposed clarification.[2]

It may be beneficial to seek input from the Line Siting Committee on the number of utilities that seek a CEC to construct only a substation and whether adopting a policy regarding substations would reduce the number of CEC applications that require a hearing.

Clarifying that constructing a substation does not require a CEC and/or that the definition of "transmission line" does *not* include substations would require the Commission to issue a substantive policy statement because the Commission would be informing the public of the agency's approach to or opinion of requirements under the line siting statutes.[3] The substantive policy statement could also include the Commission's approach to or opinion of what constitutes a "switchyard" and "substation," as recommended by Staff. However, these changes may be better addressed through rulemaking, which the Legal Division generally recommends.

2. Hybrid hearings

Staff understands why the Committee began conducting hybrid virtual/in-person hearings and has no issue with the Committee's decision to conduct hybrid virtual/in-person hearings.

---

[1] In Case No. 186, Tucson Electric Power witness Edmond Beck provided a helpful discussion of the difference between substation and switchyard, noting that the legislature's use of only "switchyard" in the statute was likely deliberate because "[s]witchyards are required to interconnect transmission lines whereas substations are typically used for load serving purposes." Direct Testimony of Edmond Beck at 6, https://docket.images.azcc.gov/0000200968.pdf.

[2] *See Id.* (stating that "TEP's long-standing position has been to include information regarding substations but not request approval of them.").

[3] A substantive policy statement informs the public of the agency's approach to or opinion of the requirements under statutes and regulations, including the agency's "current practice, procedure or method of action based upon that approach or opinion." A.R.S. 41-1001(24). A substantive policy is advisory only. *Id.* It can only affect the internal procedures of the agency and cannot impose additional requirements or penalties on regulated parties. *Id.*

A.A.C. R14-3-201(A) provides the Committee with discretion to hold sessions at the time and place that the Committee's business may require. Accordingly, any directive from the Commission that the Committee *must* conduct hybrid hearings would require a change to the rules.[4]

3. Undergrounding transmission lines

The Legal Division cautions against setting policies that may constrain the Commission in exercising its discretion when setting rates. The facts of each case are unique, and there may be instances where a utility demonstrates that ratepayer recovery of undergrounding transmission lines is warranted. Importantly, the Commission has discretion to disallow investments that were not prudently incurred. Thus, the Commission can ensure ratepayers do not bear the burden of undergrounding transmission lines where it is not warranted.

It is worth noting that stakeholders often cover the cost of undergrounding transmission lines so that costs are not passed on to ratepayers. For example, industrial customers, like data centers, have paid the cost to underground lines or have split costs with the municipality requesting the lines be undergrounded.

If the Commission decides to move forward with this proposal, a rulemaking would be required because the Commission would be prescribing law or policy. It would not be appropriate to adopt a rule regarding ratepayer recovery as part of the line siting rules, however. The Line Siting Committee has no jurisdiction over rates, and a line siting rule regarding ratepayer recovery would therefore be outside the scope of authority granted under the line siting statutes. Additionally, the Line Siting Committee does not have jurisdiction over underground transmission lines. A.R.S. § 40-360(10) defines "transmission lines" as "a series of new structures erected *above ground* . . ." (emphasis added).

4. Public outreach

Additional public outreach prior to filing a CEC application can be beneficial. Additional forms of public outreach could include posts or ads on social media and mailing fliers to a wider radius of homes and businesses in the project area.

Specifying the additional forms of public notice would require a rule change because an existing rule defines what is required for public notice. *See* A.A.C. R14-3-208(C). A policy statement would not be sufficient in this instance because the proposal would impose new requirements on regulated parties.

---

[4] A rule is a "statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedure or practice requirements of an agency." A.R.S. § 41-1001(21). Prescribing fees or the amendment or repeal of a prior rule requires rulemaking. *Id.* Rules must only be promulgated pursuant to existing constitutional or statutory authority. In other words, a rule cannot exceed the scope of authority granted in the constitution or statute.

5. Electronic filing

Similar to the filing of other documents, the electronic filing of line siting documents would be beneficial. Eliminating the paper filing requirement would require a rule change because an existing rule establishes the paper filing requirement. *See* A.A.C. R14-3-203.

6. Reconductoring a line or replacing old structures

Careful consideration should be given to whether or not replacing structures should require a CEC hearing, since there is a possibility that older structures may be replaced with different ones that were not originally approved or discussed during the hearing. One option may be to consider establishing that reconductoring a line or replacing old structures with new ones **that do not differ in size or appearance from the previously approved ones** does not require a hearing or CEC process.

The Commission could issue a substantive policy statement informing the public that it does not believe reconductoring a line requires a CEC. If the Commission includes language that a CEC is not needed to replace old structures with new structures **that do not differ in size or appearance from those previously approved**, as recommended by Staff, the Commission could likely adopt the change through a policy statement. A.A.C. R14-3-207(B) requires Committee approval of amendments that substantially deviate from the original project. Including the language suggested by Staff would be consistent with the rule, and therefore would not require a rule change. If the language is not included, however, a rule change may be necessary.

It is unclear whether this proposal would have a significant impact on reducing the number of hearings since the passage of HB 2496 changed the definition of "transmission line" to "five or more new structures that span more than one mile in length . . ." It is possible that the new definition of "transmission line" will exclude a large portion of repair projects identified in this proposal.

It may be beneficial to receive input from the Line Siting Committee as to whether adopting a policy statement would reduce the number of CEC applications that require a hearing after the new definition of "transmission line" takes effect.

7. Establish a priority system for CEC hearings

Making a determination on the urgency of projects without clear standards for prioritizing projects may be difficult and subjective. Staff therefore recommends that if the Commission decides to move forward with this proposal, the Commission should take steps to establish clear criteria for the prioritization of projects.

In addition, Staff analyzes System Impact Studies ("SIS") after a CEC application is filed to determine whether the proposed project improves the reliability and/or safety of the operation of the grid and the delivery of power in Arizona. When an applicant wishes to interconnect with one

of Arizona's load-serving entities, it submits a request for interconnection and the project is placed in an interconnection queue. It is Staff's understanding that the SIS must be completed in the order of the interconnection requests. Thus, having the Committee select projects it deems more urgent could lead to some applications being filed without the necessary studies being completed, which would make it difficult for Staff to evaluate the technical impacts of proposed projects.

Additionally, the line siting statutes **require** applicants to provide an SIS as part of a power flow and stability analysis. A.R.S. § 40-360.02(C)(7). Failure to provide this analysis "constitute[s] a ground for refusing to consider an application of such a person." A.R.S. § 40-360.02(E). Because processing an application without a power flow and stability analysis would violate the line siting statutes, regulated entities may be hesitant to proceed without one.

Replacing the first-come, first-served approach would require *both* a statutory change and a rule change. A.R.S. § 40-360.04 requires the Chairman of the Committee to provide public notice of the time and place for a hearing within 10 days of receiving an application. The statute requires a hearing be held not less than 30 nor more than 60 days after notice is given. *Id.* The line siting rules require the same timeline. A.A.C. R14-3-208(A)-(B). The statute and rules effectively establish the first-come, first-served approach utilized by the Line Siting Committee, and therefore both the statute and rules would need to be amended.

As discussed above, adopting a prioritization system would likely impact the requirement to submit a power flow and stability analysis under A.R.S. § 40-360.02(C)(7) and could require a change to that statute as well. However, Staff does not recommend removing that requirement, as it enables Staff to determine impacts from proposed projects to the grid.

Finally, if a prioritization system were to be adopted through statutory and rule change, the Legal Division agrees with Staff's recommendation that the Commission establish clear criteria for prioritizing projects. The criteria would need to be adopted by statute or rule.

DOCKETED BY

IN THE MATTER OF THE APPLICATION OF TUCSON ELECTRIC POWER COMPANY, IN CONFORMANCE WITH THE REQUIREMENTS OF A.R.S. 40-360, ET SEQ., FOR A CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY AUTHORIZING THE MIDTOWN RELIABILITY PROJECT, WHICH INCLUDES THE CONSTRUCTION OF A NEW 138 KV TRANSMISSION LINE ORIGINATING AT THE EXISTING DEMOSS-PETRIE SUBSTATION (SECTION 35, TOWNSHIP 13 SOUTH, RANGE 13 EAST), WITH AN INTERCONNECTION AT THE PLANNED VINE SUBSTATION (SECTION 06, TOWNSHIP 14 SOUTH, RANGE 14 EAST), AND TERMINATING AT THE EXISTING KINO SUBSTATION (SECTION 30, TOWNSHIP 14 SOUTH, RANGE 14 EAST), EACH LOCATED WITHIN THE CITY OF TUCSON, PIMA COUNTY, ARIZONA.

DOCKET NO. L-00000C-24-0118-00232

CASE NO. 232

DECISION NO. 79550

ORDER

September 5, 2024
Open Meeting

BY THE COMMISSION:

Pursuant to A.R.S. § 40-360 et seq., after due consideration of all relevant matters, the Arizona Corporation Commission ("Commission") finds and concludes that the Certificate of Environmental Compatibility ("CEC") issued by the Arizona Power Plant and Transmission Line Siting Committee ("Siting Committee") is hereby approved as granted by this Order.

The Commission, in reaching its decision, has balanced all relevant matters in the broad public interest, including the need for an adequate, economical, and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state, and finds that granting the Project a CEC is in the public interest.

The Commission further finds and concludes that in balancing the broad public interest in this matter:

1. The Project is in the public interest because it aids the state in meeting the need for an adequate, economical, and reliable supply of electric power.

2. In balancing the need for the Project with its effect on the environment and ecology of the state, the conditions placed on the CEC effectively minimize its impact on the environment and ecology of the state.

3. The conditions placed on the CEC resolve matters concerning the need for the Project and its impact on the environment and ecology of the state raised during the course of proceedings and, as such, serve as the findings on the matters raised.

4. In light of these conditions, the balancing in the broad public interest results in favor of granting the CEC.

BEFORE THE ARIZONA POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE

IN THE MATTER OF THE APPLICATION OF TUCSON ELECTRIC POWER COMPANY, IN CONFORMANCE WITH THE REQUIREMENTS OF A.R.S. § 40-360, ET SEQ., FOR A CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY AUTHORIZING THE MIDTOWN RELIABILITY PROJECT, WHICH INCLUDES THE CONSTRUCTION OF A NEW 138 KV TRANSMISSION LINE ORIGINATING AT THE EXISTING DEMOSS-PETRIE SUBSTATION (SECTION 35, TOWNSHIP 13 SOUTH, RANGE 13 EAST), WITH AN INTERCONNECTION AT THE PLANNED VINE SUBSTATION (SECTION 06, TOWNSHIP 14 SOUTH, RANGE 14 EAST), AND TERMINATING AT THE EXISTING KINO SUBSTATION (SECTION 30, TOWNSHIP 14 SOUTH, RANGE 14 EAST), EACH LOCATED WITHIN THE CITY OF TUCSON, PIMA COUNTY, ARIZONA.	Docket No. L-00000C-24-0118-232 Case No. 232 **CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY**

RECEIVED
AZ CORP COMMISSION
DOCKET CONTROL
2024 JUL 29 A 10:17

A. INTRODUCTION

Pursuant to notice given as provided by law, the Arizona Power Plant and Transmission Line Siting Committee ("Committee") held public hearings in Tucson, Arizona, on July 8, 2024, through July 19, 2024, in conformance with the requirements of Arizona Revised Statutes ("A.R.S.") § 40-360 *et seq.* for the purpose of receiving evidence and deliberating on the May 24, 2024 Application of Tucson Electric Power Company ("TEP" or "Applicant") for a Certificate of Environmental Compatibility ("Certificate") authorizing construction of a 138 kilovolt ("kV") transmission line in Tucson, Arizona in Pima County (the "Midtown Reliability Project" or "Project").

The following members and designees of members of the Committee were

present at one or more of the hearing days for the evidentiary presentations, public comment and/or the deliberations:

Adam Stafford	Chairman, Designee for Arizona Attorney General Kris Mayes
Gabby Mercer	Designee of the Chairman, Arizona Corporation Commission ("Commission")
Leonard Drago	Designee for Director, Arizona Department of Environmental Quality
David French[1]	Designee for Director, Arizona Department of Water Resources
Nicole Hill	Designee for Director, Governor's Energy Office
Scott Somers	Appointed Member, representing cities and towns
David Kryder	Appointed Member, representing agricultural interests
Margaret "Toby" Little	Appointed Member, representing the general public
Jon Gold	Appointed Member, representing the general public
David Richins	Appointed Member, representing the general public

The Applicant was represented by Meghan H. Grabel and Elias J. Ancharski of Osborn Maledon, P.A. and in-house counsel for TEP, Megan C. Hill. The following parties were granted intervention pursuant to A.R.S. § 40-360.05: Banner—University Medical Center Tucson Campus, LLC and Banner Health represented by Michelle De Blasi of the Law Office of Michelle De Blasi; City of Tucson represented by Roi I. Lusk and Jennifer J. Stash; Pima County represented by Bobby Yu; and Underground Arizona represented by Daniel Dempsey.

At the conclusion of the hearing, the Committee, after considering the (i) Application, (ii) evidence, testimony, and exhibits presented by the parties, and (iii) comments of the public, and being advised of the legal requirements of A.R.S. §§ 40-360 through 40-360.13, upon motion duly made and seconded, voted 9 to 0 in

[1] Member French was excused from the second week of the hearing and did not participate in the vote.

favor of granting Applicant, its successors and assigns, this Certificate for the construction of the Project.

B. Overview Project Description

The Project will involve the construction of the new DeMoss Petrie-to-Vine-to-Kino 138 kV transmission line approximately 8.5 miles in length mounted on steel monopole structures. The Project will loop the existing TEP DeMoss Petrie ("DMP") 138 kV Substation to the existing TEP Kino 138 kV Substation with a connection at the planned Vine 138 kV Substation. TEP's preferred route is a combination of Alternative Routes B and 4.

DeMoss Petrie-to-Vine Alternatives

Alternative Route B (Preferred Route) – Preferred Route B leaves the existing DMP Substation to the southeast for a distance of 0.3 miles, turning east for approximately 2 miles on West Grant Road, which turns into East Grant Road at North Stone Avenue. Route B turns south on North Park Avenue for approximately 0.6 miles, then east onto East Adams Street for approximately 0.4 miles, then north on North Vine Avenue for approximately 0.16 miles, terminating at the planned Vine Substation. Alternative Route B is approximately 3.5 miles in length.

Alternative Route D – Alternative Route D leaves the existing DMP Substation to the southeast for a distance of 0.3 miles, turning east on West Grant Road for approximately 2.75 miles, which turns into East Grant Road at North Stone Avenue. Alternative Route D continues east along East Grant Road to North Campbell Avenue, where it turns south to an alignment centered between East Lester Street and North Ring Road for approximately 0.4 miles, turning west for approximately 0.35 miles, where it terminates at the planned Vine Substation. Alternative Route D is approximately 3.8 miles in length.

Vine-to-Kino Alternatives

Alternative Route 4 (Preferred Route) – Preferred Route 4 leaves the planned Vine Substation to the south on North Vine Avenue for a distance of 0.16 miles, turns west on East Adams Street for approximately 0.4 miles, and south onto North Park Avenue for approximately 0.3 miles. At East Speedway Boulevard the route turns west for approximately 0.15 miles, then south on North Euclid Avenue for approximately 1.1 miles, continuing to East 12th Street where it turns west for approximately 0.05 miles and then south for approximately 0.11 miles to span East Aviation Parkway and the Union Pacific Railroad. At South Toole Avenue Route 4 turns south for approximately 0.55 miles, following South Toole Avenue until it turns into South Euclid Avenue at East 16th Street. At East 19th Street the route jogs east for approximately 0.03 miles to then turn south for approximately 1.3 miles to continue on South Euclid Avenue. Route 4 turns east onto East 36th Street for approximately 0.78 miles, which it follows to terminate at the existing Kino Substation. Alternative Route 4 is approximately 5.0 miles in length.

Alternative Route 1 – Alternative Route 1 leaves the planned Vine Substation to the east on an alignment centered between East Lester Street and North Ring Road to North Campbell Avenue for a distance of 0.33 miles. At North Campbell Avenue the route turns south, continuing onto South Campbell Avenue at East Broadway Boulevard for approximately 2.8 miles. Route 1 crosses East Aviation Parkway and the Union Pacific Railroad, and continues on South Campbell Avenue where it intersects with East 22nd Street. At the intersection with East Fairland Stravenue, the route turns southwest onto East Willis Way for approximately 0.1 miles, then southeast on South Cherrybell

Stravenue for approximately 0.1 miles, and southwest onto East Silverlake Road for approximately 0.2 miles. Just east of South Warren Avenue, the route turns south onto an alley for approximately 0.03 miles, and then east for approximately 0.04 miles to the intersection of East Barleycorn Lane and South Martin Avenue, where it turns south onto South Martin Avenue, which it follows for approximately 0.5 miles to the intersection with East 36th Street. Route 1 turns west onto East 36th Street for approximately 0.05 miles, and then terminates at the existing Kino Substation.

Alternative Route 1.2 – Alternative Route 1.2 leaves the planned Vine Substation to the south along Vine Road to Mabel Street for a distanced of 0.2 miles. At Mabel Street the route turns east for 0.1 miles to Cherry Avenue. Route 1.2 turns south for a distance of 0.2 miles to Speedway Boulevard. At Speedway Boulevard the route turns east to Campbell Avenue for a distance of 0.25 miles then south on Campbell Avenue continuing onto South Campbell Avenue at East Broadway Boulevard for approximately 1.9 miles. Route 1.2 crosses East Aviation Parkway and the Union Pacific Railroad, and continues on South Campbell Avenue where it intersects with East 22nd Street. At the intersection with East Fairland Stravenue, the route turns southwest onto East Willis Way for approximately 0.1 miles, then southeast on South Cherrybell Stravenue for approximately 0.1 miles, and southwest onto East Silverlake Road for approximately 0.2 miles. Just east of South Warren Avenue, the route turns south onto an alley for approximately 0.03 miles, and then east for approximately 0.04 miles to the intersection of East Barleycorn Lane and South Martin Avenue, where it turns south onto South Martin Avenue, which it follows for approximately 0.5 miles to the intersection with East 36th Street. Route 1.2 turns west onto East 36th Street for approximately 0.05 miles, and then terminates at the existing Kino Substation.

The Committee approves the preferred route, B4, and alternative routes D, 1, and 1.2 in their entirety, subject to the Findings of Fact and Conclusions of Law contained herein. A map of the Project, including all of the preferred and alternative routes proposed by the Applicant, is included as **Exhibit A**. Maps of the final approved routes and their respective corridor widths are attached as **Exhibit B**.

CONDITIONS

This Certificate is granted upon the following conditions:

1. This authorization to construct the Project shall expire ten (10) years from the date this Certificate is approved by the Commission, with or without modification ("Time Period"). Construction of the Project shall be complete, defined as the Project being in-service, within this Time Period. However, prior to the expiration of the Time Period, the Applicant may request that the Commission extend the Time Period.

2. In the event that the Project requires an extension of the term(s) of this Certificate prior to completion of construction, the Applicant shall file such time extension request at least one hundred and eighty (180) days prior to the expiration of the Certificate. The Applicant shall use reasonable means to promptly notify the City of Tucson, the City of South Tucson, Pima County, Arizona Department of Transportation ("ADOT"), Arizona State Land Department ("ASLD"), and all landowners and residents within a one (1) mile radius of the centerline of the Project, all persons who made public comment at this proceeding who provided a mailing or email address, and all parties to this proceeding. The notification provided will include the request and the date, time, and place of the hearing or open meetings during which the Commission will consider the request for extension. Notification shall be no more than three (3) business days after the Applicant is made aware of the hearing date or the open meeting date.

3. Subject to this Committee's findings as set forth in the Findings of Fact and Conclusions of Law, during the development, construction, operation, maintenance and reclamation of the Project, the Applicant shall comply with all existing applicable air and water pollution control standards and regulations, and with all existing applicable statutes, ordinances, master plans and regulations of any governmental entity having jurisdiction including, but not limited to, the United States of America, the State of Arizona, Pima County, the City of Tucson, the City of South Tucson, and their agencies and subdivisions, including but not limited to the following:

(a) All applicable land use regulations;

(b) All applicable zoning stipulations and conditions including, but not limited to, landscaping and dust control requirements;

(c) All applicable water use, discharge and/or disposal requirements of the Arizona Department of Water Resources and the Arizona Department of Environmental Quality;

(d) All applicable noise control standards; and

(e) All applicable regulations governing storage and handling of hazardous chemicals and petroleum products.

4. Subject to this Committee's findings as set forth in the Findings of Fact and Conclusions of Law, the Applicant shall obtain all approvals and permits necessary to construct, operate and maintain the Project required by any governmental entity having jurisdiction including, but not limited to, the United States of America, the State of Arizona, Pima County, the City of Tucson, the City of South Tucson, and their agencies and subdivisions.

5. The Applicant shall comply with the Arizona Game and Fish Department ("AGFD") guidelines for handling protected animal species, should any be encountered during construction and operation of the Project, and shall consult

with AGFD or U.S. Fish and Wildlife Service, as appropriate, on other issues concerning wildlife.

6. The Applicant shall design the Project's facilities to incorporate reasonable measures to minimize electrocution of and impacts to avian species in accordance with the Applicant's avian protection program. Such measures will be accomplished through incorporation of Avian Power Line Interaction Committee guidelines set forth in the current versions of *Suggested Practices for Avian Protection on Power Lines* and *Reducing Avian Collisions with Power Lines manuals*.

7. The Applicant shall consult the State Historic Preservation Office ("SHPO") pursuant to A.R.S. § 41-861 through 41-864, the State Historic Preservation Act. Construction for the Project shall not occur without SHPO concurrence. Any project involving federal land is a federal undertaking and requires SHPO concurrence on the adequacy of the survey and area of potential effects. The Applicant shall coordinate with SHPO regarding the status of Section 106 consultation.

8. If any archaeological, paleontological, or historical site or a significant cultural object is discovered on private, state, county, or municipal land during the construction or operation of the Project, the Applicant or its representative in charge shall promptly report the discovery to the Director of the Arizona State Museum ("ASM"), and in consultation with the Director, shall immediately take all reasonable steps to secure and maintain the preservation of the discovery as required by A.R.S. § 41-844 or A.R.S. § 41-865, as appropriate.

9. The Applicant shall comply with the notice and salvage requirements of the Arizona Native Plant Law (A.R.S. § 3-901 *et seq.*) and shall, to the extent feasible, minimize the destruction of native plants during the construction and operation of the Project.

10. The Applicant shall make every reasonable effort to promptly investigate, identify, and correct, on a case-specific basis, all complaints of interference with radio or television signals from operation of the Project addressed in this Certificate and where such interference is caused by the Project take reasonable measures to mitigate such interference. The Applicant shall maintain written records for a period of five (5) years of all complaints of radio or television interference attributable to operations, together with the corrective action taken in response to each complaint. All complaints shall be recorded and shall include notation on the corrective action taken. Complaints not leading to a specific action or for which there was no resolution shall be noted and explained. Upon request, the written records shall be provided to the Staff of the Commission. The Applicant shall respond to complaints and implement appropriate mitigation measures. In addition, the Project shall be evaluated on a regular basis so that damaged insulators or other line materials that could cause interference are repaired or replaced in a timely manner.

11. If human remains and/or funerary objects are encountered during the course of any ground-disturbing activities related to the construction or maintenance of the Project, the Applicant shall cease work on the affected area of the Project and notify the Director of the ASM as required by A.R.S. § 41-865 for private land, or as required by A.R.S. § 41-844 for state, county, or municipal lands.

12. One hundred eighty (180) days prior to construction of the Project, the Applicant shall post signs in or near public rights-of-way, to the extent authorized by law, reasonably adjacent to the Project giving notice of the Project. Such signage shall be no smaller than a roadway sign. The signs shall:

(a) Advise the area is a future site of the Project;

(b) Provide a phone number and website for public information regarding the Project; and

(c) refer the public to the Docket.

Such signs shall be inspected at least once annually and, if necessary, be repaired or replaced, and removed at the completion of construction.

The Applicant shall make every reasonable effort to communicate the decision either approving or disapproving the Certificate in digital media.

The Applicant shall also communicate through its Project website the status and location of the route ultimately constructed and the removal and undergrounding of the existing utility infrastructure along that route.

13. At least ninety (90) days before construction commences on the Project, the Applicant shall provide the City of Tucson, the City of South Tucson, Pima County, ADOT, ASLD, Pascua Yaqui Tribe, and known builders and developers who are building upon or developing land within one (1) mile of the centerline of the Project with a written description, including the approximate height and width measurements of all structure types, of the Project. The written description shall identify the location of the Project and contain a pictorial depiction of the facilities being constructed. The Applicant shall also encourage the developers and builders to include this information in their disclosure statements. Upon approval of this Certificate by the Commission, the Applicant may commence construction of the Project.

14. The Applicant shall use non-specular conductor and non-reflective surfaces for the transmission line structures on the Project.

15. The Applicant shall remove all 46 kV substations and lines, including wires, poles, and other equipment, that are no longer required as a result of the upgraded 138 kV substation and transmission line. Removals are estimated to begin in 2027 and complete by 2037, based on an estimated in-service date of the Vine Substation and associated 138 kV transmission line in 2027.

16. The Applicant shall move all existing parallel overhead lower voltage distribution lines underground, currently located within the same road right-of-way as

the Project as constructed. The Applicant shall notify all joint use attachers within six (6) months of Certificate approval so they can begin design to relocate their facilities.

17. The Applicant shall collaborate with each neighborhood and/or neighborhood association that parallels the route in which the Project is ultimately constructed on residential roads to determine the preferred transmission pole finish for that neighborhood. Pole finishes may include weathering steel, galvanized, or painted in Mojave Sage. In the event the neighborhood cannot decide on a preference following a good faith effort, the Applicant will use the preferred weathering steel pole finish.

18. The Applicant will work with the City of Tucson, as part of the Project, to discuss the potential to incorporate any right-of-way enhancements into the approved route including, but not limited to, multi-use pathways, chicanes, artwork, and landscaping;

19. The Applicant shall be responsible for arranging that all field personnel involved in the Project receive training as to proper ingress, egress, and on-site working protocol for environmentally sensitive areas and activities. Contractors employing such field personnel shall maintain records documenting that the personnel have received such training.

20. The Applicant shall follow the most current Western Electricity Coordinating Council ("WECC") and North American Electric Reliability Corporation ("NERC") planning standards, as approved by the Federal Energy Regulatory Commission ("FERC"), National Electrical Safety Code ("NESC") standards, and Federal Aviation Administration ("FAA") regulations.

21. The Applicant shall participate in good faith in state and regional transmission study forums to coordinate transmission expansion plans related to the Project and to resolve transmission constraints in a timely manner.

22. When Project facilities are located parallel to and within one hundred (100) feet of any existing natural gas or hazardous pipeline, the Applicant shall:

(a) Ensure grounding and cathodic protection studies are performed to show that the Project's location parallel to and within one hundred (100) feet of such pipeline results in no material adverse impacts to the pipeline or to public safety when both the pipeline and the Project are in operation. The Applicant shall take appropriate steps to ensure that any material adverse impacts are mitigated. The Applicant shall provide to Staff of the Commission, and file with Docket Control, a copy of the studies performed and additional mitigation, if any, that was implemented as part of its annual compliance-certification letter; and

(b) Ensure that studies are performed simulating an outage of the Project that may be caused by the collocation of the Project parallel to and within one hundred (100) feet of the existing natural gas or hazardous liquid pipeline. The studies should either: (a) show that such simulated outage does not result in customer outages; or (b) include operating plans to minimize any resulting customer outages. The Applicant shall provide a copy of the study results to Staff of the Commission and file them with Docket Control as part of the Applicant's annual compliance certification letter.

23. The designation of the corridors in this Certificate, as shown in **Exhibit B**, authorizes a right-of-way no greater than 100 feet wide for the transmission line nor does it grant the applicant exclusive rights within the corridors outside of the final designated transmission right-of-way.

24. The Applicant shall submit a compliance certification letter annually, identifying progress made with respect to and current status of each condition

contained in this Certificate. The letter shall be submitted to Commission's Docket Control commencing on December 1, 2025. Attached to each certification letter shall be documentation explaining how compliance with each condition was achieved. Copies of each letter, along with the corresponding documentation, shall be submitted to the Arizona Attorney General's Office. With respect to the Project, the requirement for the compliance letter shall expire on the date the Project is placed into operation. Notification of such filing with Docket Control shall be made to the City of Tucson, the City of South Tucson, Pima County, ADOT, ASLD, the Pascua Yaqui Tribe, all parties to this Docket, and all parties who made a limited appearance in this Docket.

25. The Applicant shall provide a copy of this Certificate to the City of Tucson, the City of South Tucson, Pima County, ADOT, ASLD, and the Pascua Yaqui Tribe.

26. Any transfer or assignment of this Certificate shall require the assignee or successor to assume, in writing, all responsibilities of the Applicant listed in this Certificate and its conditions as required by A.R.S. § 40-360.08(A) and R14-3-213(F) of the Arizona Administrative Code.

27. In the event the Applicant, its assignee, or successor, seeks to modify the Certificate's terms at the Commission, it shall provide copies of such request to the City of Tucson, the City of South Tucson, Pima County, ADOT, ASLD, the Pascua Yaqui Tribe, all parties to this Docket, and all parties who made a limited appearance in this Docket.

28. The Certificate Conditions shall be binding on the Applicant, its successors, assignee(s) and transferees, and any affiliates, agents, or lessees of the Applicant who have a contractual relationship with the Applicant concerning the construction, operation, maintenance or reclamation of the Project. The Applicant shall provide in any agreement(s) or lease(s) pertaining to the Project that the contracting parties and/or lessee(s) shall be responsible for compliance with the

Conditions set forth herein, and the Applicant's responsibilities with respect to compliance with such Conditions shall not cease or be abated by reason of the fact that the Applicant is not in control of or responsible for operation and maintenance of the Project facilities.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This Certificate incorporates the following Findings of Fact and Conclusions of Law:

1. The Midtown Reliability Project is required to ensure the continued provision of safe and reliable electric service to TEP customers.

2. While no party disputed the need for the Midtown Reliability Project, certain parties asserted that applicable local ordinances and plans required that portions of the routes be constructed below ground.

3. Constructing the Midtown Reliability Project below ground is not needed for safety, reliability, or other utility operational reasons.

4. Evidence in the record indicates that constructing portions of the Project below ground could be more expensive than constructing the route entirely above ground.

5. As part of the Project as conditioned by this Certificate, TEP will relocate existing overhead distribution lines below ground along the selected route. Additionally, the Project will enable the retirement of up to eight existing 46 kV substations and approximately 19 miles of existing 46 kV lines in the next ten years.

6. The evidence indicated that the Applicant needs the Project to be in service by 2027 to maintain safe and reliable service in order to avoid additional investment in the existing 46 kV system serving the area.

7. The Applicant determined the need for and proposed location of the Vine substation through the use of a saturation study. The actual site was selected based on available land and its immediate adjacent proximity to two (2) existing

substations, one of which is a 46 kV substation that will be retired and removed as part of this Project.

8. In light of the incremental cost of building the Project underground compared to overhead, the Applicant requested a finding from this Committee that any local ordinance or plan that would require underground construction of the Project was "unreasonably restrictive and [that] compliance therewith is not feasible in view of technology available" pursuant to A.R.S. § 40-360.06(D).

9. The City and Underground Arizona disagree that a finding of fact pursuant to A.R.S. § 40-360.06(D) is necessary and believe that it is feasible to construct the Project consistent with local ordinances and plans with the technology available and those local ordinances are not unreasonably restrictive. The Parties have reserved and asserted all rights to judicial relief on this issue.

10. However, given the Commission's Policy Statement found in Decision No. 79140 (October 4, 2023), the Committee finds pursuant to A.R.S. § 40-360.06(D) that any local ordinance or plan that requires TEP to incur an incremental cost to construct the Project below ground "is unreasonably restrictive and compliance therewith is not feasible in view of technology available." This finding is conditioned on the City and TEP not finding a means to, within six (6) months of the date of the Commission's approval of this Certificate, either (a) fund the incremental cost to construct the Project below ground from a source other than through TEP's utility rates or from TEP, its affiliates, subsidiaries, or parent companies absent agreement between the parties; or (b) obtain the City's authorization to construct the Project above ground through the City's special exception or variance process, provided that TEP files a special exception or variance application for the route approved within ten (10) weeks of the Commission's approval of this Certificate.

11. A.R.S. § 40-360.06(D) provides that "[w]hen it becomes apparent to the chairman of the committee or to the hearing officer that an issue exists with respect to

whether such an ordinance, master plan or regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available, the chairman or hearing officer shall promptly serve notice of such fact by certified mail on the chief executive officer of the area of jurisdiction affected and, notwithstanding any provision of this article to the contrary, shall make such area of jurisdiction a party to the proceedings on its request and shall give it an opportunity to respond on such issue." The City of Tucson was provided notice and made a party to the proceedings under this provision and was provided an opportunity to respond.

12. The Project aids TEP and the state in meeting the need for an adequate, economical, and reliable supply of electric power without negatively affecting the southwestern electric grid.

13. When constructed in compliance with the conditions imposed in this Certificate, the Project aids the state, preserving a safe and reliable electric transmission system.

14. During the course of the hearing, the Committee considered evidence on the environmental compatibility of the Project as required by A.R.S. § 40-360 *et seq*. In doing so, the Committee determined that it was in the public interest to adopt Preferred Routes B and 4, and Alternatives D, 1, and 1.2, which are the final approved routes shown in **Exhibit B**.

15. The Project and the conditions placed on the Project in this Certificate effectively minimize the impact of the Project on the environment and ecology of the state.

16. The conditions placed on the Project of this Certificate resolve matters concerning balancing the need for the Project with its impact on the environment and ecology of the state arising during the course of the proceedings, and, as such, serve as finding and conclusions on such matters.

17. The Project is in the public interest because the Project's contribution to meeting the need for an adequate, economical, and reliable supply of electric power outweighs the minimized impact of the Project on the environment and ecology of the state.

18. The Project substation is not jurisdictional because the definition of a "transmission line" under A.R.S. § 40-360(10) only includes "new switchyards to be used therewith," not substations.

DATED this 29th day of July, 2024.

THE ARIZONA POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE

By: _____
Adam Stafford, Chairman

CERTIFICATION OF MAILING

Pursuant to A.A.C. R14-3-204, the **ORIGINAL** of the foregoing and 26 copies were filed this 29th day of July, 2024 with:

Utilities Division – Docket Control

Decision No. 79550

L-00000C-24-0118-00232

40-347. Establishment of conversion costs; apportionment of costs; method of payment

A. The order authorizing the establishment of the underground conversion service area shall authorize each public service corporation or public agency whose overhead electric or communication facilities are to be converted to charge the underground conversion costs to each lot or parcel of real property within the underground conversion service area. The underground conversion costs shall be in an amount sufficient to repay the public service corporation or public agency for the following:

1. The remaining undepreciated original costs of the existing overhead electric and communication facilities to be removed as determined in accordance with the uniform system of accounts applicable to the public service corporation or public agency.

2. The actual costs of removing such overhead electric and communication facilities, less the salvage value of the facilities removed.

3. The contribution in aid of construction which the public service corporation or public agency would require under its rules and regulations applicable to underground conversion service areas.

4. If not paid in full as provided in section 40-348, the actual cost of converting to underground the facilities from the public place to the point of delivery on the lot or parcel owned by each owner receiving service, in the case of an electric public service corporation or public agency, or to the connection point within the house or structures, in the case of a communication corporation, less any credit which may be given such owner under the line extension policy of the public service corporation or public agency then in existence.

5. If property belonging to the United States, this state, county, city, school district or any other political subdivision or institution of the state or county is included in the underground conversion service area, and they do not voluntarily assume such costs, the underground conversion cost applicable to such property shall be charged pro rata against the remaining property included within the underground conversion service area.

B. The cost incurred in placing underground the facilities in public places shall be apportioned among the owners of property within the area on the basis of relative size of each parcel by the corporation commission, the board of supervisors or the city or town council. The underground conversion cost, as determined by the method prescribed in subsection A shall not exceed the estimated costs indicated in the joint report prepared by the public service corporation or public agency pursuant to subsection D of section 40-342 and, may be paid in cash by the property owners within sixty days from the date the overhead facilities are removed from public places, or may be paid by a uniform plan applicable to all property owners not paying within the sixty-day period in equal periodic installments over a reasonable period of time, not exceeding fifteen years, as established by the corporation commission, the board of supervisors or the city or town council, together with interest at a rate to be determined by the corporation commission, the board of supervisors or the city or town council but not to exceed eight per cent per annum.

C. If funds become available from other public or private sources to pay all or any part of the underground conversion costs, any such funds shall be applied on a pro rata basis to reduce the underground conversion cost charged against each parcel or lot.

D. Notwithstanding the provisions of subsection B of this section, the public service corporation or public agency serving such area may by agreement with all the owners of the property in an underground conversion service area provide for reimbursement to it of the cost of such conversion on a different basis as to payment or security than that set out by the terms of this article.

40-360.06. Factors to be considered in issuing a certificate of environmental compatibility

A. The committee may approve or deny an application and may impose reasonable conditions on the issuance of a certificate of environmental compatibility and in so doing shall consider the following factors as a basis for its action with respect to the suitability of either plant or transmission line siting plans:

1. Existing plans of this state, local government and private entities for other developments at or in the vicinity of the proposed site.

2. Fish, wildlife and plant life and associated forms of life on which they are dependent.

3. Noise emission levels and interference with communication signals.

4. The proposed availability of the site to the public for recreational purposes, consistent with safety considerations and regulations.

5. Existing scenic areas, historic sites and structures or archaeological sites at or in the vicinity of the proposed site.

6. The total environment of the area.

7. The technical practicability of achieving a proposed objective and the previous experience with equipment and methods available for achieving a proposed objective.

8. The estimated cost of the facilities and site as proposed by the applicant and the estimated cost of the facilities and site as recommended by the committee, recognizing that any significant increase in costs represents a potential increase in the cost of electric energy to the customers or the applicant.

9. Any additional factors that require consideration under applicable federal and state laws pertaining to any such site.

B. The committee shall give special consideration to the protection of areas unique because of biological wealth or because they are habitats for rare and endangered species.

C. Notwithstanding any other provision of this article, the committee shall require in all certificates for facilities that the applicant comply with all applicable nuclear radiation standards and air and water pollution control standards and regulations, but shall not require either of the following:

1. Compliance with performance standards other than those established by the agency having primary jurisdiction over a particular pollution source.

2. That a contractor, subcontractor, material supplier or other person engaged in the construction, maintenance, repair or improvement of any project subject to approval of the commission negotiate, execute or otherwise become a party to any project labor agreement, neutrality agreement as defined in section 34-321, apprenticeship program participation or contribution agreement or other agreement with employees, employees' representatives or any labor organization as a condition of or a factor in the commission's approval of the project. This paragraph does not:

(a) Prohibit private parties from entering into individual collective bargaining relationships.

(b) Regulate or interfere with activity protected by law, including the national labor relations act.

D. Any certificate granted by the committee shall be conditioned on compliance by the applicant with all applicable ordinances, master plans and regulations of the state, a county or an incorporated city or town, except that the committee may grant a certificate notwithstanding any such ordinance, master plan or regulation,

exclusive of franchises, if the committee finds as a fact that compliance with such ordinance, master plan or regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available. When it becomes apparent to the chairman of the committee or to the hearing officer that an issue exists with respect to whether such an ordinance, master plan or regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available, the chairman or hearing officer shall promptly serve notice of such fact by certified mail on the chief executive officer of the area of jurisdiction affected and, notwithstanding any provision of this article to the contrary, shall make such area of jurisdiction a party to the proceedings on its request and shall give it an opportunity to respond on such issue.

48-620. Improvement districts for underground utility and cable television facilities in public rights-of-way and easements; procedures; costs; definitions

A. Subject to the limitations contained in this section, the powers and duties of the governing body of a municipality for establishing underground utility facilities are as provided in this article for other types of improvement districts.

B. Notwithstanding section 48-507, after the governing body passes a resolution or notice declaring its intention to order an improvement district for underground utility facilities, the governing body shall hold a hearing at least thirty days after the completion of the posting and publication of the notice of intention pursuant to section 48-506. At the hearing, the governing body shall consider the issue of ordering an election on the formation of the improvement district and shall receive public comment on the proposed district. Section 48-507, regarding written protests of the proposed improvement, does not apply to a district formed pursuant to this section. The governing body may only order the election on the issue of formation of the district if the owners of real property in the district have signed and submitted petitions to the clerk of the governing body in support of the formation of the district. The petitions shall comply with the following:

1. Clearly state that they are petitions in support of the formation of an underground utility improvement district and shall specifically describe in words or by use of a map the location of the proposed district's boundaries. The petitions shall require the signer's signature, name and address or description of the property that is owned in the district in a manner sufficient to determine ownership through the use of public records.

2. Be signed by owners of a majority of the real property within the boundaries of the proposed district as measured by square footage or acreage owned. Signatures are not required to be notarized and for property with more than one owner, the signature of one owner is binding on the remaining owners of the property. On submittal to the clerk of the governing body, the petitions are a public record. Ownership of property is as of the date of the hearing and is determined by records of the county assessor or other public records regarding property ownership. For purposes of this paragraph, "owner" means a person, association, corporation or other entity without regard to residency.

C. If the governing body finds that sufficient signatures are submitted pursuant to subsection B of this section, the governing body may proceed with a simplified ballot card election pursuant to subsection G of this section. If there are not sufficient signatures, the governing body shall not proceed with the formation of the district. If no registered voters reside within the area of the proposed district, an election is not required and the governing body may declare the formation of the district.

D. The requirement pursuant to section 48-577 that plans and specifications be filed prior to adoption of the resolution of intention may be satisfied by a general plan showing at least the general location and type of facilities to be constructed. Actual plans and specifications shall be filed following the adoption of the resolution ordering the election regarding the improvement but before the election and the recording of the assessment and warrant. A person interested and objecting to an improvement or to the extent of the assessment district for a district established pursuant to this section may file a written protest with the city or town clerk within thirty days after completion or posting of the notice, or within thirty days after the date of the last publication of the notice if that date is after the completion of the posting.

E. The requirement pursuant to section 48-584 for notice of the award of contract may be satisfied by the inclusion in the resolution of intention of the name of the coordinating utility. The fifteen-day period for filing notice of objections under section 48-584, subsection E shall begin on completion of publication and posting of the notice of proposed improvement stating the name of the coordinating utility.

F. The governing body shall determine the boundaries of the district and designate the transmission facilities and, if applicable, any independent parallel facilities, to be placed underground and shall obtain from the coordinating utility an accurate statement of the costs of the project, including an estimate of the average cost in assessments

on an average single family residence in the district. The amount shall be included in the engineer's estimate required by section 48-577. The costs shall include:

1. The amount by which the cost of placing facilities underground would exceed the cost of placing comparable facilities overhead.

2. The reconstruction cost and net depreciation costs of any existing facilities to be removed.

3. The actual costs of removing such existing facilities, less the salvage value of the facilities removed.

4. The charge to finance the costs prescribed in this subsection over a stated period of not to exceed fifteen years.

5. The tax reimbursement amount.

G. On receipt of an accurate estimate of the costs of the project, the governing body shall call a simplified ballot card election in the area affected by the proposed district. The simplified ballot card shall contain the words for a district formation election "district, yes" and "district, no" and for an assessment election "assessment, yes" and "assessment, no". A single simplified ballot card may be used for both the question of the formation of the district and the question of the assessment. The election may be conducted in a simplified format and administered by the governing body. The governing body shall mail to all registered voters and property owners within the proposed district simplified ballot cards with return postage prepaid. The simplified ballot card shall clearly state that to be valid a voted ballot card shall be returned to the governing body within thirty days after the governing body mails the ballot card and a ballot card that is not timely returned shall not be counted. A person who is qualified to vote in a municipal election for that municipality or a property owner who owns land within the proposed improvement district is qualified to vote in an election for a municipal improvement district formed pursuant to this section, except that only residents of or property owners in the area that is within the proposed district may vote. If a majority of the persons voting with the simplified ballot card approves the formation of the district and if a majority of the persons voting with the simplified ballot card approves the assessment, the governing body may form the district and make the assessment. If more than one governing body is affected by a proposed district, each governing body may form its own district for the portion of the work within its jurisdiction. Assessments for districts that are formed for a portion of the same project shall be distributed between districts in proportion to the benefits to be received. When the governing body acquires jurisdiction to order the work, it shall not call for construction bids but may enter into a contract or contracts with the utility, utilities or licensed cable television system whose facilities are to be placed underground. Prior to entering into a contract or contracts the coordinating utility shall submit a final report to the municipality. The amount stated in the final report may be based on detailed engineering studies. If the amount stated in the final report exceeds the amount stated in the preliminary report the governing body may either:

1. Terminate the project.

2. Call a new election on the improvement.

H. The contract shall provide for payment to the utility or licensed cable television system over a term of not to exceed fifteen years of the amount set forth in the final report, shall specify those facilities to be owned by the municipality and those to be owned by the utility, utilities or licensed cable television system and shall contain such provisions for the prepayment of any assessment at the option of any property owner, and such other terms, covenants and conditions as the governing body and the utility, utilities or licensed cable television system determine. The licensed cable television system shall not be entitled to reimbursement except where the cable television system's parallel facilities are installed to replace existing cable television facilities other than independent parallel facilities not included by the governing body in the work. The amount payable on the contract or contracts is payable solely from amounts collected on the assessment levied in the district. A payment or performance bond is not required of a utility or licensed cable television system entering into a contract with the governing body.

I. The municipality may retain an independent engineering consultant to review all reports, estimates and costs provided by the coordinating utility.

J. The coordinating utility shall advance or reimburse a governing body for the costs of forming the district and the cost of printing, advertising and posting incurred or to be incurred by a governing body and shall bear its own expenses for engineering and design, and preparing the reports, plans and specifications. On completion of the work, the coordinating utility shall reimburse a governing body for its reasonable expenses incurred with respect to the district. Unless otherwise provided for in a manner acceptable to the coordinating utility, the amounts advanced or reimbursed shall be included in the contract and in the amount assessed.

K. This section does not amend or modify any existing line extension policies of any utility involved. The costs to be reimbursed under the contract shall be reduced to the extent of amounts paid or to be paid by landowners or from other sources directly to the utility or cable television system for the installation of the facilities.

L. The assessment and warrant may be recorded at any time following approval of the project at an election. The hearing on the assessment may be held at any time not less than twenty days from the date of recording of the assessment and warrant. An additional hearing following notice from the superintendent of streets to the governing body of completion of the work shall be requested only if any member of the governing body or any owner of or any person claiming an interest in any lot that received an assessment, within one year of the date of the notice of completion, files a written notice with the clerk stating that the work has not been performed substantially in accordance with the resolution of intention, the plans and specifications and estimate. The notice shall state in particular the failure to perform and may also state, if applicable, any requested reduction in the assessment of any one or more parcels due solely to the failure of such performance. The notice shall state the name and address of the person filing the notice and shall describe such person's interest in land subject to assessment. The governing body may enforce the contract and may recess the hearing to permit the utility or licensed cable television system to complete the work. If the work cannot be completed, the assessment may be adjusted to take the failure to complete into consideration. The amount due under the agreement with the utility or licensed cable television system shall be adjusted accordingly. Repayment under the contract shall be conditioned on completion of the work and approval of the assessment as provided by law. Unless an objection has been filed, repayment shall begin within nine months of the notice of completion.

M. An improvement district formed pursuant to this section shall not issue bonds, and the assessment for district purposes against the property within the district shall not exceed the amount specified in the engineer's estimate. Notwithstanding any other statute, the assessment for an underground electrical power line shall not be assessed against the owners of the frontage of the right-of-way of the underground power line but shall be assessed against all property owners benefiting from the burial of the power line.

N. The governing body shall provide for the levy and collection of assessments on the real property in the district in the manner provided for in this article. However, the assessment may be paid in installments necessary to pay amounts due under the contract and to reimburse the municipality for expenses incurred as provided in the assessment.

O. A district formed under this section shall not engage in any activity other than contracting for or establishing underground transmission facilities together, where applicable, with parallel facilities.

P. The governing body by resolution may summarily determine that it will participate in the costs of the improvement. If the municipality is willing to assume the total outstanding assessment for the underground utility facilities, the governing body may summarily dissolve the district by resolution after payment of all liabilities including all amounts due under the contract.

Q. The formation of an improvement district for underground utility facilities under this section does not prevent the establishment of other improvement districts which may include all or part of the same property for any purposes authorized by law.

R. If a petition for the formation of an improvement district for underground utilities is presented to the governing body, and the petition purports to be signed by all of the real property owners in the proposed district exclusive of mortgagees and other lienholders, the governing body, after verifying such ownership and making a finding of such fact, may adopt a resolution of intention to order the proposed improvement pursuant to section 48-576 and has immediate jurisdiction to adopt the resolution ordering the improvement pursuant to section 48-581, without the necessity of publication and posting of the resolution of intention provided for in section 48-578.

S. If the governing body determines that a parcel of property is a single family residence and that payment of the assessment would cause a financial hardship on the owners which would be likely to cause a delinquency in payment of the assessment, the assessment for an improvement made under this section shall provide for an extension in the time to pay principal and interest on the assessment against that parcel for a period of time not to exceed ten years. If the governing body determines that the grounds for extension no longer exist, then the extension will be terminated and all payments that would have been due but for the extension shall become due. The assessment shall provide for adjustments in the assessments against the remaining parcels to provide for timely payment under the agreement.

T. Notice of the passage of a resolution of intention for an improvement under this section shall be given to the corporation commission and, where the improvement involves a utility regulated thereby, the rural electrification administration.

U. In this section, unless the context otherwise requires:

1. "Coordinating utility" means the utility whose proposed or existing transmission facilities are to be placed underground. The coordinating utility is responsible for assembling into one report cost estimates and other data provided by each utility or licensed cable television system whose facilities are to be placed underground.

2. "Cost" means all costs of design and construction of facilities.

3. "Facilities" means any works or improvements used or useful in providing electric, communications, licensed cable television service or video service, including poles, supports, tunnels, manholes, vaults, conduits, pipes, wires, conductors, guys, studs, platforms, crossarms, braces, transformers, insulators, cutouts, switches, capacitors, meters, communication circuits, appliances, attachments and appurtenances but excluding any works for transmission by microwave or radio. Facilities shall include only transmission facilities and parallel facilities.

4. "Governing body" means the council of a city or town or the board of supervisors of a county.

5. "Independent parallel facilities" means existing parallel facilities that do not rely for their support on poles or other structures to be removed as part of the work. If the utility or licensed cable television system elects to remove the independent parallel facilities but the removal and underground replacement thereof was not included by the governing body in the work, the reconstruction and removal costs of such independent parallel facilities shall not be included in a contract or be assessed.

6. "Parallel facilities" means facilities that run or are permitted to run in the easement in which the transmission facilities are to be placed underground and that may be included underground with the transmission facilities, and facilities appurtenant thereto. Any parallel facilities shall have a right to be included underground and have access to a trench on such reasonable terms and conditions as the coordinating utility and the owners of the parallel facility may determine provided they do not interfere with the installation or operation of the transmission facilities.

7. "Private parallel facilities" means parallel facilities other than those owned or operated by a public utility or licensed cable television system. Private parallel facilities have the rights of parallel facilities except that the costs thereof shall not be included in a contract or be assessed.

8. "Tax reimbursement" means an annual charge for reimbursement for property taxes, or voluntary contributions in lieu of property taxes as provided in chapter 1, article 8 of this title, by applying the tax rates in effect on the date of adoption of the resolution of intention to the amount by which the estimated average taxable value of underground facilities, excluding the value of trenches, backfill and compaction, on completion exceeds the estimated average taxable value of comparable overhead facilities. In this paragraph, "estimated average taxable value" means the average of the estimated taxable value for each year of reimbursement. The value of the trenches, backfill and compaction of the underground facilities shall be attributed to and shall inure to the benefit of the owners of property within the district and shall be owned by the city. Reimbursement shall not be for a period longer than fifteen years.

9. "Transmission facilities" means facilities that are, or are appurtenant to, electric transmission lines of more than twenty-five kilovolts but not more than two hundred thirty kilovolts in size.

Arizona Pub. Serv. Co. v. Paradise Valley

Supreme Court of Arizona

April 22, 1980

No. 14605-PR

Reporter
125 Ariz. 447 *; 610 P.2d 449 **; 1980 Ariz. LEXIS 206 ***

ARIZONA PUBLIC SERVICE COMPANY, a public service corporation, Plaintiff-Appellee, v. TOWN OF PARADISE VALLEY, a municipal corporation, Defendant-Appellant, Bud Tims, Ernest Garfield and Jim Weeks as members of and constituting the Arizona Corporation Commission, Defendants-Appellees

Prior History: **[***1]** Appeal from the Superior Court of Maricopa County

Cause No. C-355464

The Honorable Kenneth C. Chatwin, Judge

Opinion of the Court of Appeals, Division One, Ariz. , P.2d (App. 1979) Vacated

Disposition: Reversed and remanded.

Counsel: Snell & Wilmer by H. William Fox, Phoenix, for plaintiff-appellee.

Roger A. McKee and Douglas A. Jorden, Paradise Valley, for defendant-appellant.

John A. LaSota, Jr., former Atty. Gen., Robert K. Corbin, Atty. Gen. by Charles S. Pierson, Asst. Atty. Gen., Phoenix, for defendants-appellees.

J. LaMar Shelley, Mesa, brief amicus curiae of League of Arizona Cities and Towns.

Judges: In Banc. Cameron, Justice. Struckmeyer, C. J., Holohan, V. C. J., and Hays and Gordon, JJ., concur.

Opinion by: CAMERON

Opinion

[*448] **[**450]** We granted the petition for review of the appellant, Town of Paradise Valley, of a decision and opinion of the Court of Appeals affirming a summary judgment in favor of Arizona Public Service and the members of the Arizona Corporation Commission. A.R.S. § 12-120.24; Rule 23, Rules of Civil Appellate Procedure, 17A A.R.S.

There is only one question on appeal and that is whether the legislature may constitutionally **[***2]** delegate to cities and towns the authority to direct the undergrounding of public utility poles.

The facts necessary for a determination of this matter on appeal are as follows. In 1964, the Town of Paradise Valley passed Ordinance No. 30 requiring new and higher capacity utility lines to be placed underground. The ordinance stated:

> "* * * no person shall erect within the town boundaries and above the surface of the ground any new utility poles and wires except after securing a special permit therefor from the Town Council * * *."

Criminal penalties were provided for failure to comply with the ordinance.

Arizona Public Service replaced some of its existing utility poles without applying to the Town for a special use permit. As a result, Arizona Public Service was charged with a misdemeanor criminal complaint before the town magistrate. Arizona Public Service then instituted a special action in the Superior Court, joining the Arizona Corporation Commission and the Town. The Superior Court, in granting appellee's motion for summary judgment, declared the ordinance invalid. The Town appealed to the Court of Appeals which affirmed the decision of the trial court. **[***3]** We granted the Town's petition for review.

[*449] **[**451]** Because this is a review from the granting of a motion for summary judgment, we must look at the facts in a light most favorable to the party against whom the summary judgment has been taken, in this case, the Town. Rule 56, Arizona Rules of Civil Procedure, 16 A.R.S.; *Hall v. Motorists Ins. Corp.*, 109 Ariz. 334, 509 P.2d 604 (1973). For that reason, we accept the Town's allegations that although the initial cost of undergrounding may be more, the maintenance costs are less and the long term cost is the same or less

than the cost of above ground utility poles.

Our Constitution reads:

> "Art. 15
> "§ 3 Power of commission as to classifications, rates and charges, rules, contracts, and accounts; local regulation
>
> "Section 3. The Corporation Commission shall have full power to, and shall, prescribe just and reasonable classifications to be used and just and reasonable rates and charges to be made and collected, by public service corporations, within the State for service rendered therein, and make reasonable rules, regulations, and orders, by which such corporations shall be governed in the transaction **[***4]** of business within the State, and may prescribe the forms of contracts and the systems of keeping accounts to be used by such corporations in transacting such business, and make and enforce reasonable rules, regulations, and orders for the convenience, comfort, and safety, and the preservation of the health, of the employees and patrons of such corporations; *Provided, that incorporated cities and towns may be authorized by law to exercise supervision over public service corporations doing business therein, including the regulation of rates and charges to be made and collected by such corporations*; Provided further that classifications, rates, charges, rules, regulations, orders, and forms or systems prescribed or made by said Corporation Commission may from time to time be amended or repealed by such Commission." (Emphasis added)

Early in our history, we held that the Corporation Commission's power was paramount, *State v. Tucson Gas, Electric Light and Power Company*, 15 Ariz. 294, 138 P. 781 (1914), and that the legislature could not delegate powers possessed by the Corporation Commission to a local government unless the Corporation Commission was, at the same time, divested **[***5]** of such powers. *Phoenix Railway Co. v. Lount*, 21 Ariz. 289, 187 P. 933 (1920). In later cases, however, we held that the Corporation Commission's paramount power is limited to rates, charges or classifications and that, as to all other matters, the legislature has the power to take what action it deems appropriate. *Williams v. Pipe Trades Industry Program of Arizona*, 100 Ariz. 14, 409 P.2d 720 (1966); *Southern Pacific Co. v. Arizona Corporation Commission*, 98 Ariz. 339, 404 P.2d 692 (1965). We stated:

> "[T]he paramount power to make all rules and regulations governing public service corporations not specifically and expressly given to the commission by some provision of the Constitution, rests in the legislature, and it may, therefore, either exercise such powers directly or delegate them * * *." *Corporation Commission v. Pacific Greyhound Lines*, 54 Ariz. 159, 176-77, 94 P.2d 443, 450 (1939).

The question before the court, then, is not whether the legislature has the power to authorize the Town to pass an ordinance requiring undergrounding, but whether it has, in fact, done so. In the instant case, we believe that the legislature has given cities and **[***6]** towns the power to require the undergrounding of utility poles as part of the town's zoning powers. The statute reads as follows:

> "A. Pursuant to the provisions of this article, the legislative body of any municipality by ordinance may:
> * * *
> "3. Regulate location, height, bulk, number of stories and size of buildings and structures * * *." A.R.S. § 9-462.01(A)(3).

[*450] **[**452]** This statute is a legislative grant to the cities of the authority to regulate the use, location, height and size of utility poles as part of the towns' general planning and zoning power. The height and location of utility poles is a common subject of planning and zoning statutes and ordinances, *Kahl v. Consolidated Gas, Electric Light & Power Co.*, 60 A.2d 754, 191 Md. 249 (1948). We find nothing in the Arizona statutes which exempts utility poles from the grant of authority to the towns to enact zoning laws. We believe this statute gives the Town the power to require the undergrounding of utility poles in the Town pursuant to statute.

A second statute is cited by the Town and reads as follows:

> "A. In addition to the powers already vested in cities by their respective **[***7]** charters and by general law, cities and their governing bodies may:
> * * *
> "5. Regulate the erection of poles and wires, the laying of street railway tracks, and the operating of street railways in and upon its streets, alleys, public grounds and plazas." A.R.S. § 9-276(A)(5).

The Court of Appeals and the appellees contend that the doctrine of ejusdem generis obviously applies to this

statute, and that therefore the Town has the power to regulate "poles and wires" only in connection with the laying and operation of street railways. We do not agree.

Ejusdem generis is applicable to statutes in which there are listed specific categories followed by a general category:

> "Where, in a statute, general words follow a designation of particular subjects or classes of persons, the meaning of the general words will ordinarily be presumed to be restricted by the particular designation, and to include only things or persons of the same kind, class, or nature as those specifically enumerated, unless there is a clear manifestation of a contrary purpose. A statute enumerating things inferior cannot, by general words, be construed so as to extend to and embrace those which are **[***8]** superior. In accordance with the rule of ejusdem generis, such terms, as 'other,' 'other thing,' 'others,' or 'any other,' when preceded by a specific enumeration, are commonly given a restricted meaning, and limited to articles of the same nature as those previously described. * * *" 25 R.C.L. §§ 996, et seq., cited in 39 A.L.R. 1404.

In an early case of this court wherein the legislature enumerated nine particular businesses engaged primarily in the tourist industry, such as hotels, dude ranches, etc., followed by the term "or any other business or occupation charging * * * rents," we said:

> "The rule of ejusdem generis invoked by appellant removes any doubt that may exist as to its intention in this respect, if applicable, and it occurs to us that it is. According to it the Legislature, in following the enumeration of the nine particular businesses by the general term 'or any other business or occupation charging * * * rents,' intended to limit or restrict the meaning of this general language to businesses or occupations of the same kind, class or character as those specifically mentioned, that is, to those furnishing living accommodations to tourists or transients." **[***9]** *White v. Moore*, 46 Ariz. 48, 57, 46 P.2d 1077, 1081 (1935). See also *State Board of Barber Examiners v. Walker*, 67 Ariz. 156, 192 P.2d 723 (1948).

A.R.S. § 9-276(A)(5) is not a case of a general category following the enumeration of specific categories. Section 5 gives the Town the power to regulate three different items -- the erection of poles and wires, the laying of street railway tracks, and the operation of street railways on the streets, alleys, and public grounds and plazas of the towns. Each grant of authority stands equal and alone.

The doctrine of ejusdem generis, like other rules of statutory construction, is an aid in ascertaining the legislative intent. *United States v. Gilliland*, 312 U.S. 86, 61 S.Ct. 518, 85 L.Ed. 598 (1941); *Orr Ditch* ***[*451]*** **[**453]** *and Water Co. v. Justice Ct. of Reno*, 64 Nev. 138, 178 P.2d 558 (1947). Where the intent of the legislature is apparent, it may not be used to obscure and defeat the intent and purpose of the legislation. *United States v. Alpers*, 338 U.S. 680, 70 S.Ct. 352, 94 L.Ed. 457 (1950); *People v. McGuane*, 13 Ill.2d 520, 150 N.E.2d 168, 71 A.L.R.2d 580, cert. denied 358 U.S. 828, 79 **[***10]** S.Ct. 46, 3 L.Ed.2d 67 (1958). We do not believe that the doctrine applies here.

Appellees further rely on A.R.S. § 40-341, et seq., for the position that the legislature intended that cities and towns should not have the authority to require undergrounding at the expense of the utility. § 40-341, et seq., provide for the creation of underground conversion districts for the purpose of converting overhead electric lines to underground facilities to be paid for by the property holder in the district and not the utility. § 40-344(J) recognizes the role of the cities and towns by stating that:

> "J. The corporation commission or the board of supervisors shall not establish any underground conversion service area without prior approval of such establishment by resolution of the local government."

We do not believe this statute is evidence of a legislative intent that the cities and towns do not have power over utility poles in the town. The fact that property owners may petition for the creation of an underground conversion district and be bound to pay for the undergrounding instead of the utility, does not prevent the Town from mandating the undergrounding at utility expense.

[*11]** Finally, reference is made to A.R.S. § 40-360, et seq., concerning the creation of a siting committee for transmission lines of 115 KV or greater. The lines in the Town of Paradise Valley are mostly 12 KV, with some 69 KV. The statute does not apply to lines in the Town. Even so, the statute states as to the high energy transmission lines:

> "Any certificate granted by the committee shall be conditioned on compliance by the applicant with all

> applicable ordinances, master plans and regulations of the state, a county or an incorporated city or town, except that the committee may grant a certificate notwithstanding any such ordinance, master plan or regulation, exclusive of franchises, if the committee finds as a fact that compliance with such ordinance, master plan or regulation is unreasonably restrictive and compliance therewith is not feasible in view of technology available." A.R.S. § 40-360.06(D).

These exceptions evidence a legislative recognition that the cities and towns have the power to act in this area.

We believe that, in the absence of a clear statewide preemptive policy not shown here, local governments can prescribe undergrounding within their boundaries. **[***12]** See *Kahl v. Consolidated Gas, Electric Light & Power Co.*, supra; *Benzinger v. Union Light, Heat & Power Co.*, 293 Ky. 747, 170 S.W.2d 38 (1943); *Central Me. Power Co. v. Waterville Urban Ren'l Auth.*, 281 A.2d 233 (Me.1971); *Sleepy Hollow Lake, Inc. v. Public Service Commission*, 352 N.Y.S.2d 274, 43 A.D.2d 439 (1974); 7 McQuillin, Municipal Corporations, § 24.588 (3d ed. 1968).

Reversed and remanded for proceedings not inconsistent with this opinion.
