5. An agency's justification and reason why a rule should be made, amended, repealed or renumbered under A.R.S. § 41-1027, to include an explanation about the rulemaking:

All the proposed amendments are justified under A.R.S. § 41-1027(A)(7) because they will not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of

persons regulated and they implement, without material change, courses of action proposed in the Department's Five-Year Rule Review Report approved by the Governor's Regulatory Review Council on June 1, 2021. Additionally, the proposed amendments to R12-15-811(A)(5) and R12-15-814 are justified under A.R.S. § 41-1027(A)(3) because they make address changes, and the proposed amendments to R12-15-811(A)(3) and (4) are justified under A.R.S. § 41-1027(A)(6) because they amend rules that are outdated.

The following is an explanation of each proposed rule amendment:

R12-15-401 (Article 4, Licensing Time-frames)

R12-15-401, Table A sets forth licensing time-frames for applications for licenses issued by the Department. The Department has determined that Table A does not include licensing time frames for 15 applications for which the Department issues a license. A list of the applications are as follows:

1. Final petition to establish new service area right by a city, town or private water company.
2. Application for permit to transport groundwater away from the Yuma groundwater basin pursuant to A.R.S. § 45-547.
3. Application for substitution of acres to allow irrigation with Central Arizona Project water in an active management area.
4. Application for approval of development plan to retire irrigation grandfathered right for a Type 1 non-irrigation grandfathered right.
5. Application for assignment of Type A certificate of assured water supply.
6. Application for assignment of Type B certificate of assured water supply.
7. Application for classification of Type A certificate of assured water supply.
8. Application for new certificate of assured water supply pursuant to R12-15-704(G).
9. Application for letter stating that owner is not required to obtain a certificate of assured water supply pursuant to R12-15-704(M).
10. Application for extinguishment of grandfathered right for extinguishment credits.
11. Application for conveyance of extinguishment credits.
12. Application for exemption from adequate water supply requirements pursuant to A.R.S. § 45-108.02 based on substantial capital investment.
13. Application for exemption from adequate water supply requirements pursuant to A.R.S. § 45-108.03 based on an adequate water supply within twenty years.
14. Application for re-issuance of drill card.
15. Application for equipment license for weather control or cloud modification.

The Department proposes to amend R12-15-401, Table A to add licensing time-frames for these applications.

Further, the Department proposes to amend R12-15-401, Table A to increase the administrative review time-frames and reduce the substantive review time frames for the following two applications: (1) application for a Water Report (Table A, No. 73); and (2) application for an Analysis of Adequate Water Supply (Table A, No. 75). The Department proposes to make

these adjustments because the administrative review and substantive review time-frames are currently out of balance. The overall time-frames for the applications will not be changed.

Lastly, the Department proposes to amend R12-15-401, Table A to correct the statutory authorities cited for the following two licenses: (1) permit to appropriate water for an instream flow (Table A, No. 5); and (2) reversal of substitution of acres irrigated with Central Arizona Project Water (Table A, No. 20).

The Department received written approval from the Governor's Office to make these rule amendments through an expedited rulemaking on May 20, 2021. The Department subsequently proposed making these rule amendments through an expedited rulemaking in a proposed course of action included its Five-Year Rule Review Report submitted to the Governor's Regulatory Review Council. The Council approved the report, including the proposed course of action, on June 1, 2021.

R12-15-811 and R12-15-814 (Article 8, Well Construction and Licensing of Well Drillers)

The Department proposes to amend R12-15-811(A)(3) and (4) to update the references to the American Society for Testing and Materials standard specifications. The Department also proposes to amend R12-15-811(A)(5) and R12-814 to update the Department's address. The Department received written approval from the Governor's Office to make these rule amendments through an expedited rulemaking on May 20, 2021. The Department subsequently proposed making the amendments through an expedited rulemaking in a proposed course of action included its Five-Year Rule Review Report submitted to the Governor's Regulatory Review Council. The Council approved the report, including the proposed course of action, on June 1, 2021.

R12-15-1224 (Article 12, Dam Safety Procedures)

The Department proposes to amend R12-15-1224(A)(2) to remove specific references to the Arizona Department of Public Safety's emergency phone numbers because the Department has determined that it is no longer necessary to include the phone numbers in the rule.

The Department received written approval from the Governor's Office to make this rule amendment through an expedited rulemaking on May 20, 2021. The Department subsequently proposed making these rule amendments through an expedited rulemaking in a proposed course of action included its Five-Year Rule Review Report submitted to the Governor's Regulatory Review Council. The Council approved the report, including the proposed course of action, on June 1, 2021.

6. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

7. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

None.

8. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to prepare and file an economic, small business, and consumer impact statement under A.R.S. § 41-1055(D)(2):

This rule making is exempt from the requirements to prepare and file an economic, small business and consumer impact statement pursuant to A.R.S. § 41-1055(D)(3).

9. The agency's contact person who can answer questions about the preliminary economic, small business, and consumer impact statement:

Not applicable.

11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used, and if not, the reason why a general permit is not used:

The rules do not require the issuance of a regulatory permit, license or agency authorization. For that reason, A.R.S. § 41-1037 does not apply to R12-15-401, R12-15-811(A), R12-15-814 or R12-15-1212.

b. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted.

12. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

The proposed amendments to R12-15-811 incorporate the following materials by reference:

ASTM International Standard Specification F480-14 (2014), incorporated by reference in R12-15-811(A)(3).
