Authorizing Statute: A.R.S. 37-1302(A)(2)
Implementing Statute: A.R.S. 37-1383(A)(2)

3. Citations to all related notices published in the Register that pertain to the record of the proposed expedited rules:

None

4. The agency’s contact person who can answer questions about the rulemaking:

Name: Cassie Peters, Assistant Director
Address: Department of Forestry and Fire Management
1110 W. Washington Street Suite 100
Phoenix, Arizona 85007
Telephone: 602-364-1015
Fax: 602-771-1421
E-mail: cpeters@dffm.az.gov
Web site: dffm.az.gov

5. An agency’s justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:

The Department needs to amend and repeal some rules consistent with its five-year review report that was approved by the Governor’s Regulatory Review Council in January 2020. The Department proposed to amend its rules to adopt the 2018 edition of the International Fire Code (IFC 2018) as the minimum State Fire Code in order to better regulate fire hazards in Arizona and be more consistent with minimum national standards. The Department also needs to repeal some of its rules which are not necessary because it is adopting the IFC 2018 in its entirety.

In order to ensure that Arizona meets national standards for fire protection and prevention, the Department adopts the entirety of the International Fire Code (IFC), incorporated by reference. The IFC 2012 is incorporated by reference in R4-36-201 and needs to be replaced with the IFC 2018. In

addition to the safety measures addressed in the IFC 2012, the IFC 2018 addresses several additional items of concern, such as battery storage facilities and facilities that produce cannabis products. Adopting the IFC 2018 will allow the state to enforce life safety protections relating to such additional items of concern.

Adopting the IFC 2018 will establish minimum requirements consistent with nationally recognized good practice for providing a reasonable level of life safety and property protection. Additionally, it will ensure a reasonable level of safety for fire fighters and emergency responders during emergency operations.

A.R.S. § 41-1027(A)(7) allows an agency to complete an expedited rulemaking if it “implements, without materials change, a course of action that is proposed in a five-year review report approved by the council.” In its 2020 five-year review report, the Department proposed to make these changes and the Council approved that proposed action in July 2020.

6. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material.

None

8. The preliminary summary of the economic, small business, and consumer impact:

Under A.R.S. § 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

9. The agency’s contact person who can answer questions about the economic, small business, and consumer impact statement:

Not applicable

10. When, where, and how persons may provide written comments on the proposed expedited rules:

Close of record: XX

A person may submit written comments on the proposed expedited rules no later than the close of record to the individual listed in item 3.

11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The Department issues specific permits for operations and construction. A general permit is not feasible because each permit must ensure that the applicant meets the specific requirements necessary for the applicant to operate safely in compliance with the IFC.

- b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:**

The National Fire Protection Association (NFPA) Codes and Standards apply to these rules, but these rules are not more stringent than the NFPA.

- c. **Whether a person submitted an analysis to the agency that compares the rule’s impact on the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

12. A list of incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

R4-36-201 incorporates by reference the IFC 2018.
