PROCESS FOR EXPIRATION OF OUTDATED/UNNECESSARY RULES

The Agency works to identify outdated/unnecessary rule(s).

The Agency determines that the identified rule(s) should be expired, rather than amended.

The Agency notifies Council Staff of rule(s) identified for expiration.

The Council's Chair, via letter to the Agency, schedules review of identified rule(s) and provides notice of the report's due date.

One week later, at the Council's next regular meeting, the Council votes to require the Agency to submit a review report on identified rule(s).

At the Council's next study session, Council Staff recommends that the Council require the Agency to submit a review report on the identified rule(s).

The Agency takes no action on the Council's letter.

Once the report's due date passes, the identified rule(s) expire.

The Council submits a Notice of Rule Expiration to the Secretary of State for publication in the Administrative Register.
